"Admiral Mayne stated recently in the House of Commons that his experience with the Channel Fleet had induced him to believe that the value of torpedoes against ships of war had been greatly exaggerated, and the late Hobart Pasha drew a similar inference from his actual experience in the Russo-Turkish war. The opinions of the above-named distinguished officers have been fully corroborated by an experiment carried out at Portsmouth last Tuesday, when a Whitehead torpedo was exploded in actual contact with the bottom of the *Resistance*. The interior of the vessel had been prepared to represent the modern arrangements of coal defence for the protection against submarine attack of those portions of a vessel's hull which are not covered with defensive armor. A 16-inch Whitehead torpedo charged with 93 lb. of guncotton was lashed to a boom and placed longitudinally in contact with the ship's side, immediately above the bilge keel, and about eight feet below the surface of the water. In this favorable position the torpedo was exploded, but the result did not come up to the expectations of the devastating effects to be produced by the hitherto over-rated torpedo. In fact, practice flatly contradicted theory. A considerable portion of the external plating of the ship was forced inwards and displaced, leaving gaps and gashes through which the water would pass. Internally the skylights were smashed and the contents of the bunkers containing the coal defence were scattered in all directions; yet the ship, contrary to anticipations, was not only not sunk, but would have been able, had she been in action, to have kept afloat, and to have continued to fire her guns, and could have been ultimately brought into harbor for repairs. It will be observed that every advantage was given to the torpedo. The charge was great. The *Resistance* was stationary, and the torpedo was so attached to her as to give the maximum of destructive power. Yet the damage done, though great, fell by a long way short of the wreckage necessary to involve the loss of the ship; and so the great problem of torpedoes v. ironclads has been partially solved and brought within the range of practical experiment. The crucial result is that the watertight bulkheads remained intact, and that the damage done was not sufficient to put the ship out of action. Hitherto there has been a moral fear attaching to the torpedo, which engine has been considered in a measure synonymous with sudden death. This illusion is now dispelled, and the torpedo has been proved to be, though formidable, not irresistible. Possibly the lesson learned on Tuesday will tend to direct increased attention being given to the elaboration of watertight bulkheads, while further experiments in the same direction may rid us of the bugbear that the British Navy can be blown out of the water by a few pounds of guncotton."

The statement of an eye-witness of her condition as she appeared in dock after the experiment is favorable to the torpedo. He says:

"The bilge keel for nearly half its length was shattered, and water poured from numerous cracks in her bottom. Above the bilge keel there was a tremendous bulge in the plates, which were torn in such a manner as to admit water freely, while the starting of the butts also added to the number of leaks. The widest part of the crack was about an inch in width. The torpedo had been placed immediately against a partition dividing two coal bunkers, the coal being stowed close to the ship's skin, and the effect of the explosion was to knock away this partition, to force the coal into the ship, and in doing this a stout vertical bulkhead that protected the bunkers was carried away, and the water admitted to the engine room. From the appearance of the interior of the ship, I can quite imagine that the engines or boilers might have been displaced and pipes and tubes burst in all directions." That is some result after all.

AMERICAN CARTRIDGES IN ENGLAND.

THE *Admiralty Gazette* says: "The solid-drawn brass-cased cartridge is now coming into use in this country. That cartridge was invented by Mr. Daw in 1861, and was exhibited by him in the Exhibition of 1862. Mr. Daw also patented machinery for the manufacture of this cartridge case. He also invented the bottle-shaped cartridge that has been in the service up to this day, and that will be used in all likelihood with the solid-drawn case, as it has been in the Gatling cartridges. But the 'Boxer Ring' have up to now not only pirated and used all these inventions of Mr. Daw to their own profit, but have kept him from deriving any benefit therefrom. Now, since the Ordnance Department has paid Mr. Vavasseur £10,000 for a 'rotating band,' and Mr. Thorsten Nordenfeldt £10,000 for the right to manufacture ammunition for his obsolete one-inch four-barrel gun, surely Mr. Daw is justly entitled to, at the very least, the same sum for the use of his cartridges, tools and machinery? We appeal in this instance on behalf of a much-injured honest man to his countrymen to see that justice be done him. Moreover, the dishonest knaves who have robbed him of the fruits of his labors, under cover of Government protection and privilege, should be brought to justice, for as long as they remain unpunished no English inventor is safe."

FOREIGN ITEMS.

THE entire strength of the Greek Army for 1887 is fixed at 32,612 men, and of the Navy at 2,714 men.

A DESPATCH says: The soldiers of the German Army are accused of taking socialism in their beer, or is it "talking Socialism over their beer."

THE *Avenir Militaire* estimates the cost of the French soldier as under $100 a year; out of this sum he receives about $25 in the shape of pay, and a little over $40 for rations.

THE Austrian Government has decided that Trieste and Fiume shall cease to be "free ports." The announcement of this decision may be expected simultaneously with the completion of the defensive works in course of construction.

THE experiments which have been made at the Garrison Point Fort, Sheerness, during the past two years, with the new Brennan torpedo are reported to have been brought to a satisfactory conclusion, and the weapon will in future form part of the armaments of England.

THE Tories are reported to be dissatisfied with Gen. Buller for having shown sympathy with the tenants while putting down the Moonlighters, and for having probably discouraged landlords from reckless evictions.

PRINCE EMANUEL VOGORIDES, nephew of Alexo Pasha, is now mentioned in connection with the Bulgarian throne. A correspondent says: "As for the candidature of the Prince of Mingrelia, it has more of the appearance of a joke than of stern reality. The man is simply a Russian subject and a member of the Czar's official family. His semi-royal title is as empty and as meaningless as that of a Kentucky Colonel. It would seem to be impossible for the Bulgarians, in their present temper, to voluntarily accept this person as a ruler, and it would seem to be equally impossible for the Powers to permit him to be thrust upon Bulgaria."

A LONDON correspondent writes: "Every power in Europe, as well as several States not powers, is proceeding on the conviction that war is coming in the spring. Two significant features of the German proposal to increase the standing army may not have been pointed out in the despatches to America. First, it is stated that elaborate working plans have been made, by which the whole 40,000 new troops will be absorbed in the existing corps without a day's hitch. Military men here say the German corps and division system is so carefully balanced now, so wholly the result of a long series of experiments, that Moltke would not run the risk of swamping it by altering its main proportions if it were not for the necessity of getting the new force ready for mobilization and action sooner than would be possible if he tried to create a new army corps. The second notable point is that the addition is fixed for April next, whereas the septennial law governing the military establishment will then still have a year to run."

THE *Horse Guards Gazette* says: There is no truth in the rumor that the School of Musketry is to be removed to Lydd. The expense will be quite sufficient to prevent it.

PUNISHMENTS to those who took part in the recent military revolt in Madrid have been meted out with no light hand. Gen. Villacampa, and 216 of the sergeants and privates implicated have been sentenced to imprisonment for life, and three others to incarceration for 12 years. Gen. Villacampa and five of his companions in the revolt have arrived at Fernando Po, where they are to be confined on board a hulk in the harbor.

WE learn from Paris that the grand military club which was opened a few months ago, is in a very bad condition, in spite of obligatory monthly stoppages. Few officers frequent it, no doubt preferring the Café Helder, which is on the Boulevards, and more lively. Under these circumstances, it is supposed that Gen. Boulanger will refrain from asking Parliament to vote a subsidy of over $25,000 for an institution which may be said to have been still-born.

THE *Deutsche Heeres-Zeitung* (Berlin) states that the construction of a new cruiser, the *Valkyrien*, was commenced recently in Denmark. The ship is intended for the Danish Navy, and the engines are to indicate 5,000 horse-power.

THE French officers complain bitterly of the system of *espionnage* to which they are subjected. Everything is done to try and discover their political proclivities; and if they keep up relations with an old Royalist or Imperialist officer who has retired from the service, their names are put down in the black-list.

COLONEL ARBUTHNOT, Superintendent of the Small Arms Factory at Enfield, England, speaking recently at a public meeting, in reply to the criticisms on the arming of the British Army, said Germany was the only country which had as yet adopted the repeating rifle, and it was the worst he had seen. So far from having the worst gun in Europe, he guaranteed that before Christmas, certainly before the end of the financial year, England would have the best weapon in the world.

WAR OFFICE returns show that of the total of 39,552 recruits enlisted in the various districts of the kingdom last year 31,149 were raised in England and Wales, 4,112 in Scotland, and 4,291 in Ireland.

THE drum, after fifteen years' exile from the Italian Army, has once more a chance of rehabilitation. The *Esercito Italiano* and *Tribuna* are especially active in its behalf; the latter expressing a hope that the Minister of War should make the experiment with one battalion in each brigade. This, the *Tribuna* thinks, should be sufficient to convert the opponents of the instrument.

GENERAL BOULANGER has decided on remodelling the drill of the French Infantry, and has appointed for the purpose a committee composed of General Dimoff, President; Colonel de Garnier des Garets, Lieutenant-Colonels Marchand and Lallement, Chef de Bataillon Bonti, and Captain Menetrez. The revision of the infantry movements has for object their simplification, formations for attack being given the preference over those for defensive purposes.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

Established 1801.

SOUTH MANCHESTER, CONN.

A Book of Stirring Adventure.

Sketches From My Life.

By the late Admiral HOBART PASHA.

With a Portrait.

This brilliant and lively volume contains, in addition to numerous adventures of a general character, descriptions of slaver-hunting on the coast of Africa, blockade-running in the South during the civil war, and experiences in the Turkish navy during the war with Russia.

"A memoir which enthralls by its interest and captivates by its ingenuous modesty..... A deeply interesting record of a very exceptional career."—*Pall Mall Gazette.*

"The sketches of South American life are full of interest. The sport, the inevitable entanglements of susceptible middies with beautiful Spanish girls and the sometimes disastrous consequences, the duels, attempts at assassination, and other adventures and amusements, are described with much spirit. ....The story of his slaver-hunting carries one back to boyish recollections of Captain Marryat's delightful tales.....The sketches abound in interesting details of the American war. It is impossible to abridge the account of these exciting rushes [blockade running] through the line of cruisers—our readers must enjoy them for themselves."—*The Athenæum.*

12mo, paper cover, 50 cents; cloth, $1.00.

D. APPLETON & CO., Publishers,

1, 3 and 5 Bond St., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

WALLEN.—Suddenly, Dec. 2, at his late residence, 25 West 53d street, New York City, Bvt. Brig.-Gen. HENRY D. WALLEN, Colonel, U. S. Army, retired,

REA, JOHN.—We are in receipt of a series of resolutions, passed by the enlisted men of Light Battery D, 5th U. S. Artillery, held at Fort Douglas, U. T., Nov. 20, 1886, on the occasion of the death of Private John Rea. The principal resolution is as follows:

Resolved, That while living he had endeared himself to us by his soldierly bearing, courtesy, kind and social disposition; and that in his death the battery has lost one of its most efficient members and the Army a trustworthy soldier, whose honorable deeds and irreproachable record live after him, a source of pride and satisfaction to all his friends, and a model worthy of imitation.

Mansion House,

AN EXTRAORDINARY RAZOR.

HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers),

ATTORNEY AND COUNSELOR AT LAW,

(Corcoran Building), F. and Fifteenth Streets, Washington. D. C.

Havin been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refer to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D. C; Hon. John S Williams, 3d Auditor. U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday Sergt-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------- $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office, *POST OFFICE SQUARE.*

JOS M. GIBBENS, Secretary.

Proposals For Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST. Cor. Greene, New York City, Nov. 19, 1886.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A.M. Dec. 9, 1886, at which time and place they will be opened in the presence of attending bidders, for furnishing and delivering at this depot, miscellaneous Quartermaster's Stores, such as lumber, window glass, lime, paints, hardware, etc., etc., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the Department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal.

Envelopes containing proposals should be marked "Proposals for Quartermaster's Stores, to be opened Dec. 9," and be addressed to the undersigned.

HENRY C. HODGES,

Visiting and Wedding Cards, Monogram and Initial tamping.

RICHARD L. GAY COMPANY. (Richard L. Gay, of late firm of Ward & Gay,)
FINE STATIONERS AND ENGRAVERS, 342 WASHINGTON ST., BOSTON, MASS.

THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES

Were selected as the best Material for the Roof of the

WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."

"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."

The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)

We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 20. WHOLE NUMBER 1216. | NEW YORK, SATURDAY, DECEMBER 11, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

GENERAL M. D. HARDIN, U. S. A., read his interesting paper on "The Carolina Mountain Region and the recent Earthquakes" before a large and appreciative audience at the rooms of the Military Service Institution of the U. S., at Governor's Island, on Thursday evening of this week. General FRY is soon to read a paper on the subject of "Education in the Army."

SECRETARY ENDICOTT is still of the opinion that the services of an Assistant Secretary of War will form a valuable adjunct in the administration of the affairs of the War Department, and in his annual estimates put in an item of $4,500 as the annual salary for such an officer. No mention is made by Secretary WHITNEY in his annual report or estimates for an assistant, but as there is a bill now pending on the Senate Calendar for the purpose, he probably considered that no further recommendation was necessary.

WE note several recent cases where private soldiers have been tried for striking, kicking, biting, etc., non-commissioned officers, while they the (non-coms.) were *taking* the privates to the guardhouse. We question the propriety of the plan indicated, but rather prefer the old custom when a man is to be confined of sending him to the guardhouse in charge of as many privates as may be necessary, the non-commissioned officers accompanying in charge of the escort and to see to the safe delivery of the prisoner.

A NAVAL correspondent of the London *Telegraph* thinks that the Civil Lords and the Sea Lords at the Admiralty are getting to loggerheads over one of the most vital questions affecting the national welfare. The trained men who ought to know say one thing and attempt to institute a better era in naval administration, but the Civil Lords, backed, no doubt, by political exigency, which in this instance means sham economy, and the permanent officials, declare everything is, as ever, in the best possible state of efficiency. "It is not," he says, "by vessels able to steam only from six to ten knots an hour (sea tramps, as Lord CHARLES BERESFORD has called them), armed with pop-guns, on strained, weather-beaten hulls, that the naval victories of the future are to be won; and, I regret to say, there are still far too many of these reckoned as available and valuable fighting ships by Lord GEORGE HAMILTON; for are they not still flying the Union Jack and in commission?"

THE list of Army nominations made out at the War Department this week and sent to the President for transmission to the Senate, consists of seventeen original appointments, two appointments by transfers, and forty-three regular promotions. With the exception of the non commissioned officers who were recently appointed second lieutenants, these nominations will probably go through without friction at an early date. As we have previously intimated, the non commissioned officers will probably meet with some opposition from the members of the West Point graduating class of next June, who consider that their promotion, in a measure, will be retarded by the confirmation of these officers. Members of the Senate Military Committee have already heard through the cadets and their friends that these nominations were coming in, and have in a quiet way been told that the appointments were illegally made. The fight against the non commissioned officers is based entirely upon questions of law. The cadets maintain that such appointments are authorized only in cases where vacancies exist on the 1st of July of each year over and above the number required for the graduates of that year. The vacancies to which the officers referred to were assigned occurred since July 1.

CONGRESS, by legislation this week, having defined the status of a West Point graduate between the dates of graduation and confirmation as that of 2d lieutenant, the ruling of the Second Comptroller of two years ago is now a dead letter, and graduates will hereafter continue to receive, as others before them have, the full pay of a second lieutenant from the time they leave the Academy. Those who were compelled to refund under the Comptroller's ruling will also be reimbursed for all "checkages." The Comptroller, however, only enforced his ruling in cases where officers brought claims against the Government for longevity and other pay, so that but few have felt the force of his decision. It was his intention, however, to allow his construction of the law to take its course if Congress adjourned without enacting the necessary legislation to correct the mistakes made by his predecessors. Of the Comptroller's decision, Mr. BRAGG said, in presenting the bill in the House: "I maintain that that decision, although it may be strictly within the letter of the law, is absolutely wrong, according to the spirit of the law. The cadet when he graduated ceased to be a cadet. The vacancy made by his graduation was filled under the order of the War Department by the appointment of another cadet. If he was not a cadet, but had moved on from the cadetship, then he was, although not *de jure*, yet *de facto*, a lieutenant in the Army. There was no place for him as a lieutenant, and he was awaiting the issue to him by the Government of his commission, so that he could enter upon his duties in the Service. The question thus raised is settled by this bill."

THE nomination of Naval Constructor THEODORE D. WILSON as Chief of the Bureau of Construction and Repair, and Chief Constructor of the Navy, went to the Senate on Wednesday. Eminent fitness for the place, as shown by efficient and satisfactory work during the past year in connection with the plans for the new vessels of war, are believed to be the prime consideration which led to Mr. WILSON'S reappointment. Aside from his qualifications as an expert shipbuilder, he is one of the hardest workers in the Navy—a characteristic quite essential in these busy times. The office has been allowed to remain vacant to leave Secretary WHITNEY free to extend his reorganization plans to this bureau. That Mr. WILSON would eventually be reappointed has been considered as a foregone conclusion, since his term of office expired March 2nd last. The appointment is now made without any directions for changes in the business methods of the bureau, and the Secretary says he has concluded that the existing law will not permit him to make any. The Chief Constructor therefore takes hold where he left off, and will continue the operations of the bureau under existing regulations until Congress sees fit to adopt the Secretary's recommendation for a reorganization. Chief Constructor WILSON was born in Brooklyn, N. Y., May 11, 1840; served his apprenticeship as shipwright at the Brooklyn Navy Yard; served for three months at the outbreak of the rebellion with the 13th N. Y. C. M. as a non commissioned officer; on the return of the regiment was appointed a carpenter in the Navy; served about two years afloat; was in the fight with the *Merrimac* in Hampton Roads; was ordered to duty with Rear Admiral F. H. GREGORY in 1863 as an inspector of the building and repairing of vessels in private establishments in New York and vicinity; was examined for, passed, and appointed an Assistant Naval Constructor May 17, 1866; served as such in the Navy-Yards at Pensacola, Philadelphia and Washington; served four years as instructor in naval architecture and ship building at the U. S. Naval Academy; promoted to Naval Constructor July 1, 1873; author of Shipbuilding, Theoretical and Practical, used as a text book at the naval school, and by the profession in this country generally; appointed Chief Naval Constructor March 3, 1882.

THE British military authorities are greatly encouraged by a recent report of the Inspector-General of Prisons, which indicates a material decrease in crime. The *Gazette* says: "If the discipline of our army is not yet perfect, this can at least be said of it—it shows an undoubted tendency to improve; and young though our soldiers are, they are evidently beginning to see the advantages of sobriety. It is drink which is the curse of our army, for it is drink which leads to the committal of most offences against good order and discipline. With the establishment of regimental coffee-bars and reading rooms, much has been done to wean the soldier from those sinks of iniquity in garrison towns to which he was accustomed in the old days to resort, and which for many years constituted his only means of whiling away leisure hours in the long winter nights. By the establishment of regimental workshops, to which men could resort and turn their spare time to advantage, much could be done to lessen the amount of crime in the army. We attribute most of the insubordination to two things—drink and idleness." Another advantage would result from the establishment of these workshops, to which the *Gazette* does not call attention. General FIELDING, of the British Army, in a recent speech at Dover, mentioned "a fact generally known, although never satisfactorily accounted for, that men who had been soldiers found the greatest difficulty in obtaining employment after their discharge from the army." One of the reasons assigned for this is that the discharged soldier has no trade. Under the short service system the soldier is thrown upon the world without provision, while still young, without any handicraft, and without, it would seem, any material sympathy from the class that could give him employment. With proper instruction in a handicraft, the habits of obedience and punctuality acquired in the service could be made of value in many employments. The ex-soldiers were subjected to similar disabilities in this country, although, we believe, there has been a change for the better during the past few years. Many of our New York policemen are, we happen to know, discharged soldiers of good character, and excellent policemen they in general make. So it is in many other towns, and we trust the time is not far distant when an honorable discharge will be a sure passport to employment and that the unreasoning prejudice, for unreasoning it is, which so many employers have against ex-soldiers will entirely disappear.

PERSONAL ITEMS.

GENERAL NELSON A. MILES, U. S. A., was expected to visit Boston, Mass., this week.

ASSISTANT SURGEON P. R. EGAN, U. S. Army, has joined at Fort Clark, Texas, for duty.

LIEUTENANT B. B. BUCK, 16th U. S. Infantry, and bride, have joined at Fort McIntosh, Texas.

COLONEL W. B. LANE, U. S. A., retired, is a recent guest at the Occidental Hotel, San Francisco.

SURGEON J. C. BAILY, U. S. A., rejoined at Fort Monroe, Va., early in the week from a short leave.

GENERAL W. W. BURNS, U. S. A., on leave from Governor's Island, is visiting friends at Washington.

LIEUTENANT C. W. FARBER, 8th Cavalry, leaves Fort Clark, Texas, next week, on a two months' visit North.

ASSISTANT SURGEON PAUL R. BROWN, U. S. A., rejoins next week at Fort Huachuca, A. T., from a month's leave.

COLONEL EDWARD HATCH and Capt. C. S. Roberts, U. S. A., are recent visitors to Omaha to confer with General Crook.

ASSISTANT SURGEON J. L. PHILLIPS, U. S. A., on leave from Fort Sisseton, is visiting at 1119 K St., Washington, D. C.

"GEORGE W. GETTY," who enlisted recently at Fort Snelling, has been assigned to Co. A, 5th U. S. Inf., at Fort Keogh.

LIEUTENANT EUGENE CUSHMAN, 16th Infantry, left San Antonio for the North a few days ago, to remain over Christmas.

LIEUTENANT S. R. H. TOMPKINS, 7th Cavalry, of Fort Meade, will spend the holidays with his family at Governor's Island, N. Y.

CAPTAIN M. C. WILKINSON, 3d U. S. Inf., leaves Fort Custer, Montana, in a few days, to spend the Christmas holidays on leave.

LIEUTENANT G. T. T. PATTERSON, 4th U. S. Inf., and Mrs. Patterson are visiting at 1325 New Hampshire Avenue, Washington, D. C.

LIEUTENANT J. R. WILLIAMS, 3d U. S. Art., and Mrs. Williams, registered at the Hotel Bellevue, Paris, France, early in the week.

ASSISTANT SURGEON R. B. BALL, U. S. A., was expected at Fort Leavenworth this week to report to Gen. Willcox for assignment to duty.

LIEUTENANT E. SWIFT, Adjt., 5th U. S. Cavalry, on leave from Fort Riley, has been visiting General I. N. Palmer, U. S. A., at Washington.

MAJOR ROBERT C. WALKER, U. S. Army, retired, was married at Helena, Montana, November 24, to Miss Lizzie M. Whelan, of Cleveland, O.

CAPTAIN L. S. TESSON, Assistant Surgeon, U. S. A., at present visiting in St. Louis, Mo., will spend a portion of the winter in New York City.

SURGEON J. W. WILLIAMS, U. S. A., was expected in New York this week from a fortnight's leave and goes in a few days to Jackson Bks., La., for duty.

DURING the absence of General Miles in the East, General Howard is commanding the Department of Arizona, conducting the business from San Francisco.

GENERAL W. B. HAZEN, U. S. A., returned to Washington early in the week from New York, from seeing Mrs. Hazen off to Europe to spend the winter.

LIEUTENANT COLONEL I. D. DE RUSSY, 14th U. S. Infantry, has relinquished duty at Vancouver Barracks, and gone to San Francisco to report to Major General Howard.

LIEUTENANT COLONEL W. F. DRUM, U. S. A., Inspector-General, Department of Arizona, has rejoined at Whipple Barracks from a long leave much improved in health.

ASSISTANT SURGEON E. B. MOSELEY, U. S. A., has taken charge of the Medical Purveying Depot in San Francisco, until the arrival of Colonel B. J. D. Irwin from the East.

CAPTAIN F. C. AINSWORTH, Assistant Surgeon, U. S. A., late Recorder of the Medical Examining Board sitting in New York, goes to duty at Washington, D. C., with General Moore.

COLONEL M. BRYANT and Lieut. P. H. Ray, 8th U. S. Cav., and Asst. Surg. W. D. Crosby were in San Francisco last week as witnesses in the trial of Lt. B. S. Wever, 1st U. S. Infantry.

LIEUTENANTS G. N. WHISTLER and E. L. Zalinski, 5th U. S. Artillery, were guests last Saturday evening at the tenth annual mess dinner of the Board of Officers, 12th Infantry, N. G. S. N. Y.

LIEUTENANT W. C. LANGFITT, Corps of Engineers, U. S. A., was married Dec. 4, at Flushing, Long Island, to Miss Anna D. Jackson Bemis, daughter of Philo. S. Bemis. The ceremony took place at the handsome residence of the bride's parents, the Right Rev. T. A. Starkey, D. D., officiating.

JUDGE ADVOCATE ASA BIRD GARDINER, U. S. A., attended the annual meeting and banquet, Dec. 4, of the Society of Sons of the Revolution, and made an excellent speech, full of historical reminiscences. The same gentleman read on Tuesday evening, before the New York Historical Society, a paper on "Our French Allies in the American Revolution and Their Influence in France."

GENERAL B. H. GRIERSON, U. S. A., says the *New Mexican*, "doesn't fall among strangers here in Santa Fe by any means. He has had a remarkably active life, and, one would naturally think, a little more of frontier service than ordinarily should fall to one man. He has, too, done much to endear himself to the people of the pushing southwest, for he it was who, by his official reports, first attracted the attention of capital and home seekers to that region of Texas through which the Southern Pacific railroad now runs."

GENERAL H. J. HUNT, U. S. A., was a recent guest at the Continental Hotel, Philadelphia.

"WILL Mrs. Cleveland dance?" is the great question at present agitating Washington society.

LIEUTENANT R. H. YOUNG, 4th U. S. Inf., on sick leave from Fort Cœur d'Alene, Idaho, is at Bedford, Ky.

LIEUTENANT J. A. IRONS, 20th U. S. Infantry, was in St. Paul a few days ago on his way to St. Louis on leave.

CAPTAIN WILLIAM STANTON, 6th U. S. Cavalry, of Fort Bayard, N. M., will spend December and January in the East.

LIEUTENANT C. H. GRIERSON, 10th Cav., recruiting officer at Lexington, Ky., was a visitor to Cincinnati early in the week.

CAPTAIN GEO. S. WILSON, 12th U. S. Infantry, of Sackett's Harbor, is visiting friends at 58 West 33d street, New York City.

CAPTAIN S. M. SWIGERT, 2d U. S. Cavalry, lately East on leave, was expected to rejoin this week at Fort Walla Walla, Wash. Ter.

COLONEL L. L. LANGDON, U. S. A., now visiting friends in Brooklyn will remain East for Christmas and then return to Fort Barrancas.

COLONEL JAMES M. MOORE, U. S. A., Chief Quartermaster Department of Dakota, is quartered at the Ryan Hotel, St. Paul, for the winter.

JAMES S. OSTRANDER, formerly a Lieutenant of the 18th Infantry, has recently established himself at Cincinnati in the life insurance business.

IT is stated that Von Moltke will soon relinquish the position of Chief of Staff of the German Army and will be succeeded by Count Waldersee.

GERONIMO still "holds the fort;" he and his savage companions continue the objects of curiosity to the civilized excursion parties almost daily visiting Fort Pickens.

IN the case of the National Soldiers' Home against Gen. Butler, the jury, Dec. 3, found a verdict for $16,537.50 against Gen. Butler, the amount of money not accounted for by him with interest added.

BY a recent fire in Eastport, Me., General Henry Prince, U. S. A., retired, residing at Fitchburg, Mass., lost all his public vouchers, books of record, private papers, books and other valuables. They were stored in a public building awaiting removal.

ONE of the daily papers says: "Mrs. Hazen, wife of the Chief of the Signal Service Bureau, is said to have a scrap-book of newspaper cuttings, which she entitles: 'Some Evidences of My Husband's Capacity for Getting Himself Into Hot Water.' It is a very copious volume."

CAPTAIN A. W. GREELY, U. S. A., is reported as saying in reply to the question as to what he thought the chances were of Col. W. H. Gilder's ever reaching the North Pole: "I think they are nothing at all. I thought so when I heard that he had missed taking passage on the New London whaler. That was his opportunity to get his stores and apparatus north. Going the way he subsequently took, it was impossible for him to carry as good an outfit as if he had gone by ship."

THE permission to sell beer in the National Soldiers' Home at Dayton has, it is reported, resulted in much demoralization. A Pittsburg despatch says: The sober, temperate men are much opposed to the sale of beer. The Governor of the Home, Gen. R. B. Patrick, fought hard to prevent the sale of beer, but he failed and he deplored the state of affairs. He told the managers that he couldn't keep any kind of discipline at the Home if they allowed beer to be used; but they paid no attention to his desire.

MAJOR CHAS. A. WIKOFF, 14th U. S. Infantry, and Mrs. Wikoff were the recipients of a complimentary reception and hop at Fort Sully, December 3, the occasion being his impending promotion from the 11th to the 14th Infantry, and the consequent approaching departure of himself and wife to a new station. Major Wikoff has served with the 11th Infantry since 1869, so that the parting is naturally a sad one, even though necessitated by promotion. The committee having charge of the arrangements were Major Calvin DeWitt, M. D.; Capt. Ira Quinby, and Lieutenants G. LeR. Brown, J. E. Macklin, R. J. C. Irvine and P. M. P. Travis, all of the 11th Infantry.

GENERAL SHERMAN, says a *Times* gossip, is growing fonder of the drama and the opera every day. One of his chief reasons in coming to New York to spend the winter was the desire to have this sort of entertainment at its best. On just this one point he admits that his beloved St. Louis is not quite up to the age. He has fallen especially in love with Mr. Daly's company, and in a box there the other evening, with his friend, Commodore Bateman, he applauded almost continually from the rise to the fall of the curtain. The General by actual count has dining engagements already booked—he does keep a memorandum book dated a year ahead—that provide for his presence at various dinners in this city and elsewhere till late in next September.

EX-PRESIDENT HAYES, at a recent meeting of the Loyal Legion in Philadelphia, in a tribute to the memory of Major-General Hancock, said: "His presence, his prestige, his name, have given to this soldiers' organization we know not how much of its prosperity, its interest, and its influence. His commanding figure and features—so impressive, inspiring and dignified—were the outward symbol of a character and achievements which left nothing for the most exacting imagination to desire when seeking the ideal American soldier, patriot and gentleman. One reference to his record as a soldier is enough for my present purpose. The single battle which, lost or won, humanly speaking, seemed destined to decide the great conflict, was Hancock's opportunity. He was equal to the occasion. Henceforth Hancock and Gettysburg—Gettysburg and Hancock—are forever linked together in adamant. The name of our Commander-in-Chief will live in our annals as long as American history is known among men. Brave soldier—noble gentleman—beloved companion—hail and farewell!"

LIEUTENANT GEO. F. COOKE, 15th Inf., goes abroad shortly to remain until next summer.

MAJOR S. M. WHITSIDE, 7th U. S. Cav., East on sick leave, will remain until February next.

MAJOR W. P. HUXFORD, U. S. A., was in New York this week, visiting friends at 150 West 48th st.

ASSISTANT SURGEON W. D. MCCAW, U. S. A., has gone to Richmond, Va., to spend the holidays.

MAJOR-GENERAL TERRY and Capt. Towle, A. D. C., passed through Omaha a few days ago en route west.

LIEUTENANT E. B. IVES, 19th U. S. Inf., left Fort Leavenworth early in the week for his station in Texas.

CAPTAIN C. M. CALLAHAN, 4th U. S. Cav., lately visiting in New York City, has gone to Washington for the winter.

GENERAL A. MCD. MCCOOK, U. S. A., rejoined at Fort Leavenworth early in the week from a short trip to St. Louis.

LIEUTENANT C. L. BECKURTS, 6th Inf., of Fort Leavenworth has gone to Louisville, Ky., to spend the Christmas holidays.

CHAPLAIN J. O. RAYNER, U. S. A., who is East on leave from the Pacific Coast, will prolong his stay until March next.

CAPTAIN G. F. PRICE, 5th U. S. Cav., is expected in New York in a few days to spend a few weeks' leave in that city and vicinity.

MAJOR E. C. WOODRUFF, 12th U. S. Inf., commander of Fort Ontario, N. Y., visited friends in Rye, Westchester Co., this week.

LIEUTENANT CHAS. A. VARNUM, 7th U. S. Cavalry, of Fort Yates, was married Dec. 1, at Minneapolis, to Miss Mary A. Moore, of that city.

THE junior Major of Engineers is now James F. Gregory, who was graduated in 1865; the junior Captain is Willard Young who was graduated in 1875.

MAJOR C. W. RAYMOND, Corps of Engineers, arrived in Washington early in the week from the South, and entered upon duty in the office of the Chief of Engineers.

LIEUTENANT S. C. MILLS, 12th Inf., in charge of Indian prisoners at Fort Marion, Fla., arrived at Carlisle, Pa., this week with seven Indian children for the school there.

MAJOR-GENERAL SCHOFIELD responded for "The Army," and Commodore Gherardi for "The Navy," at the annual banquet in New York, on Monday evening, of the St. Nicholas Society.

MRS. CLAGUE, wife of Capt. John J. Clague, United States Army, is in California, where she will spend the winter. Mrs. Clague is a woman of uncommon mental gifts and great culture. She could write such a capital book, for she has an uniquely attractive style, and "Army women" see and hear so much that is of interest to other people.—*N. Y. Graphic.*

MAJOR GENERAL JOHN POPE, U. S. A., says a St. Louis paper, has been the recipient of many attentions, which have been most agreeable to him, though the last is scarcely to be considered in that light. Yesterday morning the private watchman announced that the house had been burglarized, and it was found that burglars had effected an entrance, and had carried off three overcoats.

GENERAL JOSEPH E. JOHNSTON, writing in the *North American Review*, says: "In Mr. Davis's account of the military operations in Mississippi in 1863 their disastrous result is attributed to my misconduct." General Johnston disputes this statement utterly, and presents records, figures, and details to show that his suggestions to Mr. Davis, which subsequent events proved correct, were neglected, and that his orders to General Pemberton, which were imperative to the safety of the Confederate cause, were repeatedly violated.

CARDS are out for the wedding of Miss Ada Gwynn, sister of Mrs. Russell Hancock, to Mr. Bryce Gray, Jr., to take place at Mr. Gwynn's residence, 40 West 58th street, Dec. 21. The bridesmaids are to be Miss Lillian Gwynn, younger sister of the bride; Miss Vogdes, daughter of General Vogdes, U. S. A.; Miss Gray, sister of the groom, and Miss Nina Smith, of Boston. The best man will be Mr. J. Oakley Rhinelander and the six ushers are well-known New York society men. The wedding promises to be the most fashionable event of the season.

LEWIS H. STANTON, the son of the late Edwin M. Stanton, Mr. Lincoln's War Secretary, is preparing a biography of his father for publication, of whom he says: "I find that my father has many enemies among the surviving actors in the great war struggle. He made either a friend or an enemy of every man who came in contact with him, but those who were associated with him day and night understood and loved him, rugged and arbitrary as he seemed to others. The literature of the war will not be complete until the life of my father is written, but it is something that will wait safely until there is less of similar matter being published." Mr. Stanton is a farmer, living a quiet life at Morris, Minn.

GENERAL BRISBIN, who is very popular with the people of Nebraska, has changed station from Fort Niobrara to Fort Robinson. He was given a public reception and banquet by the people of Valentine on leaving Fort Niobrara. The Valentine *Blade* says: "Gen. Brisbin left Wednesday night for Fort Robinson. The citizens of this town took advantage of the occasion to show their appreciation of the interest the General has taken in the town by tendering him a farewell reception. About a hundred gathered in Cornell Hall. Mr. Gillespie was made chairman of the meeting and Judge Tucker made a short address. Gen. Brisbin responded in a speech of thirty minutes in length, thanking the people for their kindness to him and assuring them that he would not cease to remember them. After handshaking and farewells, the General and numerous friends were escorted to Coglan's and regaled on that popular caterer's choicest supper. At its close Gen. and Mrs. Brisbin boarded a special car provided for them by the railroad company and were soon speeding away to their new home."

GENERAL J. H. POTTER, U. S. A., is in Washington on a visit from San Antonio.

QUARTERMASTER F. FUGER, 4th U. S. Art., left Fort Adams, R. I., on Tuesday on a short leave.

GENERAL R. B. POTTER, of Newport, R. I., is reported as seriously ill. No hope of his recovery.

COLONEL STANTON, Paymaster, U. S. A., will come to Omaha, from Salt Lake City, during the absence of Col. Terrell on leave.

LIEUTENANT GUY HOWARD, 12th U. S. Inf., leaves Fort Niagara, N. Y., next week on a month's visit to friends at Omaha, Neb.

CAPTAIN W. E. BIRKHIMER, U. S. A., entered December 1st upon his duties of Judge Advocate of the Department of the Columbia.

CHAPLAIN BARRY, U. S. A., has returned to Fort Leavenworth from Topeka, where he attended the Kansas Diocesan Convention and was its Secretary.

LIEUT. EDWARD CHYNOWETH, 17th Infy., while absent from Fort Russell two weeks ago on a hunt, was caught in the severe blizzard that raged over that section of the west.

THE following Army officers are registered at the War Department this week: 1st Lieut. E. Swift, 5th Cav.; 1st Lt. Geo. T. T. Patterson, 14th Inf.; Maj. C. I. Wilson, Pay Dept.; Maj. J. Y. D. Middleton, Med. Dept.; Maj. Chas. W. Raymond, Engr.; Capt. E. W. Stone, 21st Inf.

MAJOR C. M. TERRELL, Paymaster, U. S. A., writes to the *Omaha Bee* an interesting letter on the subject of the National Bank system and matters kindred thereto. The letter evinces a thorough knowledge of the subject, and some valuable suggestions are made in it.

A MOVEMENT is on foot in Washington to effect the transfer, from Green Hill, of the remains of Major Peter Charles L'Enfant, the designer and first engineer of the Federal city, to a suitable site within the metropolis and the erection over them of a fitting memorial tribute in commemoration of his genius.

THE Board recently appointed to examine civilian Humphreys for a commission as 2d lieutenant in the Army has sent to the Military Academy for a copy of the candidate's record during the two years of his service as a cadet at that institution. It will therefore be some days before the proceedings in this case reach the officials at the War Department.

LIEUT. COL. R. S. LA MOTTE, 12th U. S. Infantry, of Plattsburg Barracks, who is shortly to leave there on his promotion to colonel, 13th Infantry, was presented Dec. 4 with a handsome gold-headed cane by the members of Co. C, 12th Infantry, as a token of their esteem and respect for him as an officer and a gentleman. The cane was inscribed: "Presented to Col. R. S. La Motte by Co. C, 12th U. S. Infantry."

LIEUTENANT H. T. REED, U. S. A., announces that on and after January 1 he will assume charge of the publication and sale of his tactical works, and in doing so desires to thank his many patrons for past favors and to solicit a continuance of the same. Orders addressed to Lieut. H. T. Reed, U. S. Army, Lock Box 647, Chicago, Ill., will receive prompt attention, and books sent, post-paid, upon receipt of price.

COLONEL W. G. MOORE, who was private secretary in the office of Secretaries of War Cameron and Stanton, an Assistant Adjutant General of Volunteers, and a Major and Paymaster, U. S. Army, from November, 1866, to April, 1870, when he resigned, was appointed this week Superintendent and Major of Police, District of Columbia. Col. Moore has a first-class record and his appointment gives general satisfaction.

GENERAL H. A. MORROW, U. S. A., was in Omaha this week, to read a paper on "What I saw at Gettysburg," before the Nebraska Commandery of the Loyal Legion. The Sidney *Democrat* in noticing the occasion, refers to Gen. Morrow's gallantry at Gettysburg, where he was severely wounded, and says: "We could fill a page of this paper with acts of bravery, charity and kindness, performed by Gen. Morrow, upon the same battlefield, and we congratulate the Loyal Legion upon its choice of an orator, and the opportunity of its members to hear so able and interesting an address."

COLONEL B. J. D. IRWIN, U. S. A., was expected in San Francisco this week to take charge of the Medical Purveying Depot there under his recent orders. Col. Irwin being the senior assistant medical purveyor some little surprise is felt by his friends at the order sending him to San Francisco, as the depot in New York City is the most important, and therefore the proper station for such senior. The order was issued immediately after the appointment of Surg. Gen. Moore and before he had left San Francisco, and it is thought now he has assumed charge of the Medical Department, the claim of Dr. Irwin to the New York Depot may be recognized, and he be ordered to return there.

THE Presidio County *News* of Nov. 26, has Fort Davis, Tex., items as follows:

2d Lieut. Stephen M. Hackney, 16th Infantry, recently appointed from the ranks, arrived Tuesday for duty with Co. I. ....Lieut. Geo. H. Morgan, 3d Cav., will act as Post Qm. during the absence of Lieut. F. H. Hardie on four months' leave. Lieut. Hardie starts East next week....Lieut.-Col. D. R. Clendennin, 3d Cav., granted four months' leave. leaves Monday for New Orleans, whence he will go to Florida for the winter. Mrs. Clendennin accompanies him.

THE Vancouver *Independent* of Dec. 2 says:

Capt. W. E. Birkhimer and wife arrived from the East Nov. 29 .....Capt. Kennington and Lieut. Quentin, 14th Infantry, on the sick list, are reported improving.....Capt. H. S. Turrill, assistant surgeon, arrived from the East on Saturday.... Gen. John Gibbon will deliver an address upon the American volunteer soldiers next Monday at the Garrison Hall.... The wife of Lieut. G. T. T. Patterson, 14th infantry, now visiting East, has been quite ill, of typhoid fever, but is now recovering.....The wife of Dr. Geo. F. Wilson, daughter of Maj. W. A. Elderkin, from Fort Shaw, was at the Barracks this week. She is visiting her husband's parents in Portland this winter....Lieut. A. Austin, 14th Infantry, met with a severe accident Sunday last, falling from the wharf in the darkness. He struck across a log and injured his spine, the result being paralysis of the lower limbs.

A PROGRESSIVE euchre party was enjoyed by those participating recently, at the residence of Mrs. Col. W. H. Rucker....Lt. Simpson, 3d Cav., has been assigned to temporary duty at Fort Leavenworth, pending transfer between himself and Lieut. Church, 24th Inf.....Lieut.-Colonel C. E. Compton, 5th Cav., leaves Fort Riley on a twenty days' leave....Lieuts. Hamner and Townsend have returned from a hunting trip to Fort Gibson. Lots of game is the result. ....Lieutenant George H. Martin, 18th Inf., is here and on duty. He looks a soldier all over in the uniform of an infantry officer.—*Kansas City Times.*

LIEUTENANT W. D. ROSE, now at Mare Island, Cal., has already established himself as a prime favorite in the yard, and is living at Vallejo.

CAPTAIN R. S. COLLUM, U. S. Marine Corps, will, on Wednesday next, read an interesting as well as amusing paper on "The Heathen Chinee," before the United Service Club of Philadelphia.

GENERAL S. W. CRAWFORD, U. S. A., registered at the Hotel Brunswick, New York, on Wednesday, Major James Forney, U. S. Marine Corps, at the Hoffman House, and Capt. F. M. Bunce, U. S. N., at the Grand Hotel.

LIEUTENANT GOTTFRIED BLOCKLINGER, U. S. N., has been ordered to the Hydrographic Office, Navy Department, after a release from duty which he has been enjoying at his home in Dubuque, Iowa. Mr. Blocklinger's last service was on board the Coast Survey steamer *Hassler*, on the Pacific Coast.

BY the detachment of Lieut. Murdock from the *Dolphin*, that vessel loses an efficient officer, while the Torpedo Station, to which he is assigned, is rendered still more valuable as a school of instruction by the advent of an officer so competent to strengthen the class already on duty at that point.

AN examining board, consisting of Pay Director Richard Washington, Pay Inspector John H. Stevenson and Paymr. Edw. N. Whitehouse, with P. A. Engr. W. W. Galt, recorder, has been appointed to meet at the Navy Department on Tuesday for the examination of P. A. Paymr. L. A. Yorke for promotion.

PAY INSPECTOR L. G. BILLINGS, U. S. N., who has been for some time past on duty at Chester, Pa., as disbursing officer for the Government while the vessels under contract there have been in process of completion, has been relieved from the assignment there and directed to report for duty in Washington. He is a resident of the District, having erected a fine residence there within the last two years.

PASSED ASSISTANT ENGINEER R. W. GALT, U. S. N., has been detached from the Norfolk Navy-yard and directed to hold himself in readiness for sea-service. Mr. Galt is a brother of P. A. Paymaster W. W. Galt, lately ordered to the *Michigan* from the Paymaster's Bureau, and also of Lieut. R. H. Galt, now on duty at the Midvale Steel Works, Philadelphia. They are members of a well-known Norfolk family.

COMMANDER H. B. SEELY, U. S. N., now before the Board of Naval Examiners for promotion to captain, will, on the 13th of the present month, fill the vacancy made by the retirement of Capt. R. L. Law, at present the commandant of the League Island Navy-yard. Comdr. Seely has been on duty at that yard about a year and has been mentioned as the possible successor of Capt. Law. His last cruise was in command of the *Nipsic*.

BILLS were introduced in the two Houses of Congress this week to give Commodore Truxtun the rank of Rear Admiral on the retired list of the Navy, a promotion he was unfortunately deprived of through the failure of the Senate to act upon his nomination, which was pending when the date arrived for his retirement. This just measure has the support of many members and Senators and if it can once be brought up for action there is no doubt of its passage.

LIEUTENANT JOSEPH H. PENDLETON, U. S. M. C., now serving with the guard on the flagship *Pensacola*, is acquiring quite a reputation at the different ports of the European Station as a society man. The American officer of the olden time, who whether at home or abroad, could "Dance all night, till broad day light, and go home with the girls in the morning," would look with favor upon the efforts of Mr. Pendleton to "keep the American end the highest." His knowledge of French, acquired at the Naval Academy, from which he graduated in 1884, gives him, of course, a certain advantage over those not so fortunate.

ONE of the plumpest and jolliest officers of the U. S. Navy, says a writer in the *Tribune*, is Paymaster Baker. He is moreover a man with a clear head and sound judgment. I happened to meet him the other day and asked his opinion of the new ship *Atlanta*, when he said: "Of course, we never can get to perfection in shipbuilding. There is always something that can be improved, but the *Atlanta* is the finest ship we have had yet. She is good for fifteen knots an hour without any trouble. We have nothing else in the Navy that is really above ten knots." The paymaster says that he will be content to be assigned to the *Atlanta* all the rest of his sea life.

V. GILPIN ROBINSON, counsel for Chief Engr. Geo. W. Melville, writes to the Philadelphia *Times* to protest against the "morbid disposition on the part of Mr. Melville's family to be before the public, to be interviewed and to be written up in a sensational and melodramatic way and to take advantage of his name and reputation as a means to effect it. It is," he says, "exceedingly humiliating to Mr. Melville, so much so that he, rather than give further opportunity for it, has, much against his will, abandoned all further efforts to obtain the custody of his children." He states that Mr. Melville has voluntarily made an allowance of $70 a month to his wife; that the custody of the younger children was suspended under the plea of their youth, but Miss Maud was given by the court into the custody of her father and by him at once placed at boarding school at West Chester. This school she left against his will, and she is under no necessity of seeking employment for the purpose of supporting her family, as the papers have stated.

BOATSWAIN W. H. FRARY, U. S. N., is at Clinton, Mass., suffering from an attack of rheumatism.

PAYMASTER D. A. SMITH, U. S. N., left Norfolk, Va., early in the week on a short gunning expedition.

CAPTAIN H. A. BARTLETT, U. S. Marine Corps, and bride arrived in New York from England early in the week.

LIEUTENANT-COMMANDER F. MCCURLEY, U. S. N., rejoined at the Norfolk Navy-yard this week from a short leave.

PASSED ASSISTANT PAYMASTER J. A. RING, U. S. Navy, has joined at Norfolk, Va., for duty on the *Portsmouth*.

PAY DIRECTOR C. W. ABBOT, U. S. N., will be detached from duty at the Navy-yard office, Boston, Mass., Dec. 31, 1886.

MEDICAL DIRECTOR P. J. HORWITZ, U. S. N., gave a large reception this week at his home in Philadelphia, in honor of his daughter.

LIEUTENANT JULIUS C. FREEMAN, U. S. N., retired, is at present located at 80 Hanson Place Brooklyn, N.Y., having recently arrived from Bloomington, Ill.

LIEUTENANT ROBT. CLARKE, U. S. Rev. Marine, has been detached from duty on the *Fessenden* at Detroit, Mich., and will proceed East, his present address being the Mansion House, Vineyard Haven, Mass.

CHIEF ENGINEER HENRY LEE SNYDER, U. S. N., has recovered from the severe attack of malarial poisoning which he contracted while working at the improvements put up in the Winder building, and has resumed his duties as superintendent of the State, War, and Navy Department building, at Washington.

THE St. Louis section of the W. C. T. M. have sent to Mrs. Cleveland resolutions expressing "their deep mortification and profound regret that ladies in this high social position should themselves set this bad example to the people of this already drink-diseased country." The occasion was, the report, that eighteen ladies, including Mrs. Cleveland, were present at a dinner given by the wife of Secretary Whitney, where "different alcoholic liquors were served."

ACTING SERGEANT OF POLICE BARTHOLOMEW DIGGINS, who has recently achieved such notoriety in connection with the police scandal in Washington, was one of the boat's crew of the *Hartford* of the late Admiral Farragut's fleet, and served through the war on the flagship of the Mississippi Squadron. One of his most treasured relics is the Admiral's flag, which floated at the masthead of the *Hartford* when the battle of Mobile Bay was fought.

THE settlement of the estate of the late Rear Admiral Powell awaits the results of a suit now pending in the U. S. Supreme Court. He left over $100,000. It was alleged that undue influence was exerted upon him by which the whole of the estate was given to comparative strangers and excluding the relatives who were most nearly related to the Admiral through his mother's family, it being contended that nearly all of his estate was acquired by the breaking by the Admiral of the will of his maternal grandfather in Louisiana in 1837.

AN exchange, referring to a reception given by Rear Admiral Baldwin, U. S. N., and Mrs. Baldwin, on Tuesday, says: "Admiral Baldwin is a most genial host, as Americans who have passed the winter in Nice can testify. Mrs. Baldwin's nephew, the young artist, Elliot Gregory, has taken a studio in New York for the winter, and it is quite refreshing to see a young American who has met with such success in France, return to his native place, and give his country people the benefit of his art."

COLONEL J. B. FORNEY, U. S. Marine Corps, and bride, lately in Washington, were expected to arrive in Philadelphia this week. A Lexington despatch, referring to the marriage, says: "The bride is a handsome and charming lady, descended from one of the oldest Kentucky families. She is also related to ex-President Jefferson Davis on her mother's side, and has been a great favorite in Lexington society. The church was filled with a large and fashionable audience. After the ceremony the party took carriages for the residence of the bride's mother, where an elegant reception was given to a select company."

GEO. TICKNOR CURTIS ON McCLELLAN.

GEORGE TICKNOR CURTIS'S address on McClellan and in behalf of the memorial at the Academy of Music, Philadelphia, on Saturday evening last, drew together a large and notable audience. A local paper says: Sherman was there, wearing, like few about him, a Grand Army instead of a Loyal Legion badge on his coat, and looking through his wrinkles, anywhere from 1,000 to 1,500 years old. Daniel Sickles was there steering his crutches through the press with daintily gloved hands. Slocum was there and Schofield and Rufus Ingalls. Lewis Merrill and W. W. Averill, the wildest riders of old times, and H. J. Hunt, grand organ master of the Army of the Potomac, whose stops were batteries and who gave his most successful recital on the afternoon of July 3, 1863, from an Adams County hillside. A score of other mighty men of war were there, but they one and all sank the shop. They were not full of strange oaths, nor did they wear beards *a la* pard,

---

(From the Oneida Despatch, Dec. 3.)

GRANITE MONUMENT TO A WAR HORSE.

GEN. JOHN HAMMOND, of Crown Point, N. Y., has just erected a handsome granite monument over the grave of his old war horse Pink, who died last winter at the age of 31. The monument is built of Westerly granite, and is 12 feet in height and suitably inscribed. It faces the Crown Point Soldiers' Monument, which stands in the village park. Old Pink was a grandson of the noted Morgan Black Hawk, of Bridport, Vt. The dam was of Hambletonian blood, and Pink was her eighteenth colt that reached maturity. He was present at 88 skirmishes and 34 battles. During his severe Army service, and indeed his whole lifetime, old Pink was never known to show fatigue.

A PROTEST FROM SECRETARY WHITNEY.

To the Editor of the New York Tribune:

SIR: The *Tribune* has fallen into an error which it has repeated a great many times, and again repeats to-day. It has frequently said that I have desired to buy abroad the armor plate and machinery of naval vessels. The exact contrary is the case, and the record is not in such shape as to rest upon my statement, but is a public record accessible to any one. My position has always been that it was my duty to get ideas from any quarter; but that they should be worked out by the shipbuilders and manufacturers of this country. I send you two letters addressed by me to the Naval Committees, respectively, of the two Houses upon this subject last winter, both of which were published at the time.

First, as to machinery. The House Naval Committee on February 26, 1886, adopted a proviso authorizing the Secretary of the Navy to buy abroad the machinery of a naval vessel. On the 27th I sent a letter to the Committee, which was read and the clause was unanimously struck out. In that letter, which was published, and a copy of which accompanies this, I said: "I think our true policy is to borrow the ideas of our neighbors, so far as they are thought to be in advance of ours, and give them to our shipbuilders in the shape of plans." To save space, the letter may be summarized, to the effect that it was not necessary for the Secretary to have any discretionary power to buy engines abroad, inasmuch as they could be produced in this country, by our engine builders, as well as abroad, provided we took the necessary trouble to acquire the latest information, which I proposed to do. As the exact contrary of this position has been repeatedly asserted of me during the last year on the editorial page of the *Tribune*, I request that this correction be made.

Second, as to armor plate. Upon the 27th of July, 1886, the Naval bill being in the Senate, I wrote a letter to the Committee as follows (after referring to the clause with reference to the purchase of armor): "It is quite well known to be my opinion that this country should be independent of every other in the way of producing war ships and war material. It is aside from all questions of commercial policy. The small amount of armor purchased of recent years by the Department has been obtained abroad, but the present bill, if enacted into a law, will enable the Department to offer to the competition of the domestic manufacturers a sufficiently large contract to induce the establishment of a plant in this country for the production of the necessary steel forgings for guns and of the necessary armor. . . . . It is unbusinesslike not to utilize the present necessary purchases to encourage the establishment of the required plant in this country, and I am quite aware that it was the expectation of the majority of the House Naval Committee by whom the bill was framed."

As my position has been at all times perfectly clear and definite, I desire this correction made also. You will be glad to know also that I have not confined myself to expressions of opinion, but have placed myself in communication with the people able to bring about the desired result, and that in all human probability the industry will soon be domesticated in this country. No later than to-day one of the largest steel manufacturers in this country, and a public spirited one, too, sent me word from a sick bed that he would certainly be prepared to bid to supply the armor required; that I might rely upon it. There are two other large concerns contemplating the same thing. For the gun steel for twelve-inch guns I know I shall have bids.

The effort for domestic armor may fail, but it does not look so; and if it succeeds, I know you will congratulate the Department upon having done something practical toward the accomplishment of a result of so much importance to the country.

Respectfully yours, WILLIAM C. WHITNEY.
NAVY DEPARTMENT, Washington, Dec. 2, 1886.

TRIAL OF THE ATLANTA.

A MEMBER of the guard of the *Atlanta* writes to the N. Y. *Tribune*: "I saw nothing terrible in the *Atlanta's* engine room, as I stood with my head through an air port watching the escaping steam, while the engineer officer, who stood but a few yards away from the broken joint, slowed her down as he composedly smoked a cigarette. Certainly it was pretty warm down there, and the officers and men must have felt it so, but beyond the unusual perspiration occasioned by the escaping jet of steam there was no actual inconvenience to any one. It was only in attempting to get her up to 76 turns that any leak occurred, and if they can ever manage to get that number of revolutions out of her, few ships in the world that she cares to tackle can escape from her. It would be a poor sailor whose heart would allow him to condemn her for what may prove to be temporary and trivial after noticing her instant answer to every move of her helm. When facing down the land before a pretty strong wind the first day out she was turned at full speed and she came around through the sea, which was considerable, and neared to with the rapidity and precision of a well handled light battery coming into action. She has always turned without slowing down, and she invariably does it like a ship that knows her business."

DESERTERS FROM THE ARMY.

REFERRING to the recent case of a deserter—William Knapp—arrested after being away over twenty-one years, a Washington correspondent says: "The case against him is technically straight, and unless the Secretary of War intervenes Knapp would have to be punished, but in such cases the Secretary nearly always does intervene and pardon the offender if he has any friends. A chief clerk under Colonel Casey, U. S. A., was found to be a deserter of long standing. He had enlisted when a mere boy and, repenting of his folly, deserted. When discovered, after twenty years' immunity, he was the husband of a daughter of a distinguished and wealthy family and the father of several children. He had been blackmailed for years by a man who knew his secret. The President promptly pardoned him upon the conviction had in a trial where he made no defence."

We learn from Chicago that Knapp has been released, the attention of the recruiting officer who arrested him having been called to Sec. 4749 Revised Statues which reads as follows:

No soldier or sailor shall be taken or held to be a deserter from the Army or Navy who faithfully served according to his enlistment until April 19, 1865, and who, without proper authority or leave first obtained, quit his command or refused to serve after that date, but nothing herein contained shall operate as a remission of any forfeiture incurred by any such soldier or sailor of his pension; but this section shall be construed solely as a removal of any disability such soldier or sailor may have incurred by the loss of his citizenship in consequence of his desertion.

Mr. Knapp did not leave his Co. K, 1st U. S. Cavalry, until July 10, 1861.

QUARTERMASTER-GEN. DEPARTMENT.

$10,283,980.31 was expended by the Quartermaster-General's Department of the Army last year. $199,096 was spent on the repair of buildings and 110 new buildings were authorized. Losses by fire occurred at eleven different posts and water flooded the buildings at Newport Barracks, which should be removed to higher ground. 236,180 persons, 160,192 tons of freight and 7,907 horses and mules were transported by rail, water, wagon and stage at a cost of $1,579,453.58. The other expense bring the total cost of the service under Army transportation up to $3,080,579.16. 1,251 Cavalry and Artillery horses were purchased at an average of $141.24. 13 draught horses averaging $205.85 and 566 mules averaging $154.99.

Eight hundred and eight horses and 329 mules were sold for $51,006.82. Two hundred and thirty-five horses and 300 mules were lost, stolen, or died, leaving on hand 8,609 Cavalry and Artillery horses, 454 team horses, 5,493 mules and 6 oxen.

2,906 claims under the act of July 4, 1864, were investigated and reported upon, calling for $1,816,751.02. Final action was taken on 3,767 claims, amounting to $1,155,816.36; 1,316 for $235,243.32 were allowed, and 2,451 entirely rejected. 4,983 claims remained unacted upon, amounting to $4,616,577.95.

Gen. Holabird reports that no complaints have been received regarding Army clothing, but the pattern of boots and shoes has not given satisfaction and "Waukenphast" lasts have been secured and it is thought will prove satisfactory.

In the eighty-two national cemeteries there are 323,947 interments. Contracts are about to be made for the construction of the roads authorized by Congress at its last session to the Chalmette, Knoxville, and Natchez national cemeteries. When these are completed there will be nine roads constructed under special authority of law, for the maintenance of which there is no appropriation. Some are almost impassable for want of repairs. An estimate has been submitted for the maintenance and repair of these roads.

The clothing and equipage for the Army are obtained by contract or by manufacture at the quarmaster's depots at Philadelphia, Jeffersonville, and San Francisco. The boots and shoes are manufactured at the military prison at Fort Leavenworth Kansas. These supplies have given general satisfaction. The commissioners investigated the complaint made in the last annual report of General Miles that miserable shoes made of worthless material were furnished from the Military Prison. They understand that General Miles referred to the shoes worn during the campaign against Geronimo and his band. The test of shoes in such a service, marching "over cacti and rocks" in a volcanic country, "where it was impossible to move cavalry and pack-trains," is a severe one. To determine the character of the material used at the prison in the manufacture of boots and shoes, and also whether there is room for improvement in the methods of their manufacture, the commissioners examined the inspector of materials and the assistant quartermaster on duty, and after visiting the shops they are satisfied that every care is taken to secure the very best material, and conclude that the charge cannot be sustained. While there may be room for improvement in the manufacture of the shoes by hand-sewing, it is not conceded that it was thought bad workmanship or bad material that the shoes used in the Apache campaign were rendered unserviceable.

THE RESISTANCE EXPERIMENTS.

THE London *Engineer* does not accept the current conclusions concerning the results of the *Resistance* experiments, saying: "Taking into consideration the method in which the hull of the *Resistance* had been strengthened for this experiment, and the exact locality chosen for the explosion, it is probable that less than twice the amount of gunpowder would have caused a more complete breach through the coal protection. The torpedo is stated to have had everything in its favor, whereas, in our opinion, all the advantages were on the side of the ship. The attack was made at her strongest point, where the coal was specially disposed, and her shape under water lent no assistance to the explosive. To assume from this that if a similar torpedo struck lower down, or further aft, or against the propeller, the ship would still have 'her offensive powers not materially impaired,' is to express an opinion with which few will be found to concur. Under the alternative circumstances mentioned, half the amount of explosive might practically disable the vessel, though her flotation need not be overcome. Whitehead torpedoes need not necessarily be limited to a depth of 10 ft., as by slightly strengthening their construction they could be run 20 ft. below the surface."

MARSHAL BAZAINE.

HIS conduct in Mexico had been so unprincipled, so rascally in every respect, that it had been even a question at one time of trying him by court-martial The Emperor could not, however, afford to dispense with the support of one who was undoubtedly personally fearless, was supposed to be well versed in the art of war, was credited with influence in the army, and whose want of scruples rendered him a useful instrument of a despotic government. It was thought that considerations of self-interest would have secured his fidelity; and instead, therefore, of being sent before a court-martial, he became the pet of the fêtes at Compiègne. Unfortunately for the Emperor, unfortunately for France, he saw in the war an opportunity of obtaining supreme political power, and to unmeasured ambition and sordid greed he sacrificed his master, his army, and his country. That he was guilty of deliberate treason from the time he assumed command of the army, those who have read this article can scarcely doubt. he was wanting neither in courage or military capacity. The proof alleged against him make clear that he thought not of defeating or escaping from the enemy, but solely of becoming the arbiter of the fortunes of France. His defence is valueless against the evidence not only of witnesses, but of his own acts and writings. He, in short, convicts himself, and his habitual trickery and his ingrained habits of falsehood render it impossible to accept his own word on any subject. We not only consider the accusation fully proved against him, but we believe that his conduct was even worse than it appeared to be. We have indeed a moral certainty that had it not been for his own cunning and the interested objects of the Germans the evidence against him would have been much more damning than it was. To those who are charitably disposed to give him the benefit of a doubt, to attribute his inaction at Metz to either want of energy or to a feeling of loyalty toward the Emperor, we will put a single question, with which we shall conclude this article: Assuming that he had guilty designs, could he have set more systematically to carry them out than he did?—*The Edinburgh Review.*

THE AMERICAN CHARGE AT SEOUL.

THE N. Y. *Sun* says: The United States have had some trouble in keeping the $5,000 salary attached to the Corean mission regularly drawn. Some months ago Ensign George C. Foulk was Charge d'Affaires at Seoul, and was a very competent diplomat, so far as sending all the stories of the Russian intrigue was concerned. What embarrassed Ensign Foulk was his modest rank. One indispensable feature of the diplomatic comedy is that whenever a Government vessel touches the port of an American legation official statement shall be made of the arrival. According to rule and etiquette no vessel is actually in the harbor until her commander officially asserts her presence by note to the Minister Resident or Charge. It chanced that a flagship reached Corea. The Admiral reflected that a mere Naval Ensign was Charge d'Affaires. His dignity could not bend to the situation. He could not inform a little middy just emerged from an Ensign that an Admiral had arrived, so the monarch of the seas imposed the duty of notification upon a lieutenant on board, and straightway embarked to enjoy the sights of Seoul. Foulk and the lieutenant had been boon companions in Academy days, and hence the official note was couched in a most familiar strain. It is on record here, where the offended Ensign transmitted it. It began with "Dear Chappie," and proceeded in the same unofficial strain to inform a United States Chargé that the old Admiral had gone off on a "toot," and ordered the frisky lieutenant to announce that he was officially present. This incompatibility of rank induced the recall of Foulk's detail. Mr. Parker is the latest misfit who wants to go to Seoul for $5,000 per annum.

If this writer's ideas on other subjects are as mixed as those on the subject of naval promotion, his statements must be taken with allowance. The transformation of an Ensign into a "middy," big or little, is clearly promotion by the inverse order. Mr. Foulk has been a Lieutenant, junior grade, since May 1, 1884.

RECENT DEATHS.

SECOND LIEUTENANT J. E. N. GRAHAM, U. S. R. M., died at the Marine Hesptal Detroit, Mich., on the 3d inst., of hemorrhage of the brain. He was edubated in the British Navy and served as an officer during the Crimean War, resigning, joined the U. S. Navy in 1862, and at the close of the Civil War came into the Revenue Marine as a 3d Lieutenant. He was very popular in the Service and his death will be mourned by his friends.

HORATIO ROSS, formerly one of the crack shots of the world, died recently in England in his 86th year. He was not only a great hunter himself, but was also the father of great rifle shots. Hercules, Colin and Edward, his sons, are all more or less renowned for their prowess with the rifle, and the name of Edward Ross has of late years almost eclipsed that of his father.

THE death is announced of Admiral Count Louis Henry Gueydon, who entered the naval service of France in 1825 and rose to the rank of Vice-Admiral in 1861. He was made Civil Governor of Algeria in 1871, and promptly suppressed a revolt which had broken out in the province and restored the Government to order.

MR. A. ROSS RAY, of West Washington, D. C., died on Nov. 28, at Mare Island, Cal., while visiting his daughter, the wife of Lieut. E. H. Qualtrough, U. S. Navy. One of Mr. Ray's daughters married Lieut. G. F. E. Harrison, 2d U. S. Artillery.

FUNERAL services over the remains of the late S. Denison Hurlbut, formerly of the Navy, who died in France, Nov. 20, were held at New London on Dec. 8. Numerous relatives and friends were present.

WE regret to learn of the death at San Francisco, Nov. 24, of Mrs. Stewart, wife of Col. Chas. S. Stewart, U. S. Army, retired.

MRS. FAXON, a sister of Paymr.-Gen. G. F. Cutter, U. S. Navy, retired, died at Southborough, Mass., November 30.

THE infant daughter of Paymr. I. G. Hobbs, U. S. Navy, died at Newport, R. I., Dec. 3.

A STATUTORY survey of the U. S. S. Kearsarge at Portsmouth, N. H., was ordered on Thursday, to determine whether she shall be repaired or condemned. It is thoght the latter will undoubetedly be her fate. The Board of Survey consists of Capt. R. F. Bradford and naval constructors Thomas E. Webb and Wm. L. Mintonye.

APPROPRIATIONS FOR 1886-7 AND 1887-8.

WE give here the annual estimates and appropriations for the current fiscal year for the support of the Military and Naval Establishments:

MILITARY ESTABLISHMENT.	1887-8. Estimated.	1886-7. Current Approp.
Commanding General's Office	$1,750	$1,200
Expenses recruiting	100,000	100,000
Contingencies, Adjt.-General's Office	2,500	2,000
Signal Service	5,000	3,000
Pay, etc., of the Army	12,914,869	12,549,857
Subsistence of the Army	2,005,314	1,745,000
Regular supplies, Q. M. Dept	2,678,000	2,678,000
Incidental expenses, Q. M. Dept	675,000	675,000
Horses for cavalry and artillery	150,000	130,000
Army transportation	3,000,000	2,800,000
Arrears of Army transportation	100,000	85,000
Army transportation over Pac. R. Rd	250,000	
Barracks and quarters	700,000	620,000
Construction and repair of hospitals	100,000	100,000
Hot Springs, Ark., hospital	37,375	35,952
Quarters for hospital stewards	10,000	12,500
Clothing and equipage	1,250,000	1,250,000
Contingencies, Army	30,000	15,000
Medical and hospital supplies	253,620	214,992
Medical Museum and Library	15,000	15,000
Willet's Point Depot	96,000	16,500
Ordnance service	100,000	90,000
Ordnance, ordnance stores and supplies	550,000	255,000
Transportation arms at Nat. Armories	500,000	409,000
Total support of Army	$25,524,587	$23,794,001
Total Military Academy	323,101	287,785
Aggregate Military Establishment	$25,847,689	$24,081,786

NAVAL ESTABLISHMENT.	1886-7. Approp.	1887-8. Estimated.
Pay of the Navy	$7,225,000	$7,335,863
Contingent, Navy	10,000	7,000
Printing and binding (including Dept.)	60,000	60,000
Contingent, bureaus	119,500	156,750
Civil establishment, yards and stations	216,671	227,341
Marine Corps, pay	649,642	662,776
Marine Corps, Quartermaster's Dept	199,646	257,124
Naval Academy	183,532	203,761
Bureau of Navigation:		
Navigation and navigation supplies	83,500	130,000
Ocean surveys	4,000	10,000
Publication of surveys of Mex. coast	7,000	10,000
Naval War College	6,000	12,400
Bureau of Ordnance:		
Ordnance and ordnance materials	109,300	150,000
Repairs	15,000	15,000
Torpedo corps	58,500	78,500
Maintenance, Washington yard		25,000
Bureau of Steam Engineering:		
Steam machinery	763,000	800,000
Bureau of Construction and Repair	900,000	1,700,000
Bureau of Provisions and Clothing	1,052,000	1,195,881
Bureau of Yards and Docks	358,067	1,187,611
Bureau of Medicine and Surgery	100,000	115,000
Bureau of Equipment and Recruiting:		
Equipment	782,200	800,000
Transportation and recruiting	25,000	30,000
Training Sta., Coaster's Harbor Isl	8,000	60,000
Total	$12,935,559	$15,230,006
Increase of the Navy	3,500,000	5,500,000
Improvements at yards and stations (Yards and Docks)	317,595	3,308,961
Steel cruisers	438,861	
New Observatory (Navigation)	50,000	250,000
Observation transit of Venus (Nav.)	3,000	
Compass-testing house (Navigation)	2,000	
Special course of instruction for cadets	5,000	
Headstones for men lost on the Huron	500	
Civil experts, Naval Advisory Board	5,500	
Batteries of new type for six vessels (Ordnance)		670,000
Secondary batteries and modern small arms (Ordnance)		209,750
Purchase of land for proving ground (Ordnance)		57,000
Grand total	$17,258,015	$25,225,712

The total appropriation for the civil branch of the War Department for the current year is $2,095,971.65, and the amount estimated for 1888, $2,241,015. The total appropriation for the civil branch of the Navy Department is $314,442.53, and the amount estimated for 1888, $363,761.

THE PRESIDENT'S MESSAGE.

PRESIDENT CLEVELAND, in his annual message, thus refers to matters of special interest to the Services:

I especially direct the attention of the Congress to the recommendation that officers be required to submit to an examination as a preliminary to their promotion. I see no objection but many advantages in adopting this feature, which has operated so beneficially in our Navy Department, as well as in some branches of the Army.

The subject of coast defences and fortifications has been fully and carefully treated by the Board of Fortifications, whose report was submitted at the last session of Congress, but no construction work of the kind recommended by the Board has been possible during the last year from the lack of appropriations for such purpose. The defenceless condition of our seacoast and lake frontier is perfectly palpable. The examinations made must convince us all that certain of our cities named in the report of the Board should be fortified, and that work on the most important of these fortifications should be commenced at once. The work has been thoroughly considered and laid out, the Secretary of War reports, but all is delayed in default of Congressional action. The absolute necessity, judged by all standards of prudence and foresight, of our preparation for an effectual resistance against the armored ships and steel guns and mortars of modern construction which may threaten the cities on our coasts, is so apparent that I hope effective steps will be taken in that direction immediately. The valuable and suggestive treatment of this question by the Secretary of War is earnestly commended to the consideration of the Congress.

In September and October last the hostile Apaches who, under the leadership of Geronimo, had for 18 months been on the war path, and during that time had committed many murders and been the cause of constant terror to the settlers of Arizona, surrendered to General Miles, the military commander who succeeded General Crook in the management and direction of their pursuit. Under the terms of their surrender as then reported, and in view of the understanding which these murderous savages seemed to entertain of the assurances given them, it was considered best to imprison them in such manner as to prevent their ever engaging in such outrages again, instead of trying them for murder.

The report of the Secretary of the Navy contains a detailed exhibit of the condition of his Department, with such a statement of the action needed to improve the same as should challenge the earnest attention of the Congress.

All the vessels heretofore authorized are under contract or in course of construction, except the armored ships, the torpedo and dynamite boats, and one cruiser. As to the last of these, the bids were in excess of the limit fixed by Congress. The production in the United States of armor and gun steel is a question which it seems necessary to settle at an early day, if the armored war vessels are to be completed with those materials of home manufacture.

In the event that the present invitation of the Department for bids to furnish such of this material as is now authorized, shall fail to induce domestic manufacturers to undertake the large expenditures required to prepare for this new manufacture, and no other steps are taken by Congress at its coming session, the Secretary contemplates with dissatisfaction the necessity of obtaining abroad the armor and the gun steel for the authorized ships. It would seem desirable that the wants of the Army and the Navy in this regard should be reasonably met, and that by uniting their contracts such inducement might be offered as would result in securing the domestication of these important interests.

With an anxious desire to devise some plan of operation by which to secure the welfare of the Indians, and to relieve the Treasury as far as possible from the support of an idle and dependent population, I recommended in my previous annual message the passage of a law authorizing the appointment of a commission as an instrumentality auxiliary to those already established for the care of the Indians. It was designed that this commission should be composed of six intelligent and capable persons—three to be detailed from the Army—having practical ideas upon the subject of the treatment of Indians, and interested in their welfare; and that it should be charged under the direction of the Secretary of the Interior, with the management of such matters of detail as cannot with the present organization be properly and successfully conducted, and which present different phases, as the Indians themselves differ, in their progress, needs, disposition and capacity for improvement or immediate self-support. By the aid of such a commission much unwise and useless expenditure of money, waste of materials, and unavailing efforts might be avoided; and it is hoped that this or some measure which the wisdom of Congress may better device, to supply the deficiency of the present system, may receive your consideration, and the appropriate legislation be provided.

On June 30, 1886, there were 365,783 pensioners on the rolls of the bureau. Since 1861 there have been 1,018,735 applications for pensions filed, of which 78,834 were based upon service in the War of 1812. There were 621,754 of these applications allowed, including 60,178 to the soldiers of 1812 and their widows. The total amount paid for pensions since 1861 is $808,624,811.57. The number of new pensions allowed during the year ended June 30, 1886, is 40,857—a larger number than has been allowed in any year save one since 1861; the names of 2,229 pensioners which had been previously dropped from the rolls were restored during the year, and after deducting those dropped within the same time for various causes, a net increase remains for the year of 20,658 names. From Jan. 1, 1861, to Dec. 1, 1885, 1,967 private pension acts had been passed. Since the last-mentioned date, and during the last session of the Congress, 644 such acts became laws.

The Commissioner of Pensions estimates from the best information he can obtain that 9,000 of those who have served in the Army and Navy of the United States are now supported, in whole or in part, from public funds or by organized charities, exclusive of those in soldiers' homes under the direction and control of the Government. Only 13 per cent. of these are pensioners, while of the entire number of men furnished for the late war something like 20 per cent., including their widows and relatives, have been or now are in receipt of pensions.

THE SIGNAL SERVICE.

THE Washington correspondent of the New York *Times* says: The last set of recommendations made by Gen. Hazen, Chief Signal Officer of the Army, are exciting the ridicule of nearly all the Army officers stationed here. The 2d Lieutenants regard his petition as an insult. They were all appointed upon Gen. Hazen's endorsement that they were efficient and well qualified to perform the duties connected with the service. He now veers around and recommends their transfer to the line of the Army, because they are incapable men and cannot properly do the service required of them. On the other hand the West Pointers are offended at what they term the egotism of the man in charge of the Signal Corps. The general criticism is that the Chief Signal Officer does not know what he is talking about. He wishes to encumber the Army with a lot of men thoroughly unfamiliar with military duties and to take in exchange men experienced in matters of a military nature but totally without knowledge of meteorological subjects.

TORPEDOES FOR DEFENCE.

THE New York *Herald*, of Dec. 4, prints an interview with Rear Admiral Stephen B. Luce, U. S. N., in which that experienced officer discusses with great clearness the problem of our naval deficiencies and needs. The Admiral says among other things: "There seems to be in the popular mind a sort of vague reliance on the use of the torpedo as a cheap and easy method of defensive and offensive operations, but this is a delusion. While each one of the leading naval powers has an organized torpedo service, we have none. Moreover, the defensive torpedo needs to be under the protection of heavy batteries; these we have not. The offensive torpedo needs swift torpedo boats and a corps of officers and seamen skilled in their use; we have neither the one nor the other. Again, it is said that the very shoalness of our harbors constitutes an effectual barrier against foreign ironclads. But Long Island, Sound, Delaware, Chesapeake, and San Francisco bays furnish magnificent roadsteads for the largest fleets and heaviest draught ships. From such points as centres could hostile fleets project littoral operations, to the utter destruction of our ocean and coastwise trade."

THE ARMY.

WAR DEPARTMENT, WASHINGTON, Dec. 3, 1886.

Publishes proclamation of the President of the U. S., dated Dec. 1, 1886, directing that the military reservation known and designated as the Fort McDermit "Hay" reservation, be placed under the control of the Secretary of the Interior for disposition, having become useless for military purposes.

CIRCULAR 11, H. Q. A., Dec. 6, 1886.

The following decisions, rulings, etc., have been made during the month of November, 1886, and are published to the Army for the information of all concerned:

EXTRA DUTY PAY TO ENLISTED MEN OF ORDNANCE.

Under the provisions of the Army appropriation bills for the fiscal years ending June 30, 1885, 1886, and 1887, extra duty pay may be paid to enlisted men of ordnance the same as to other enlisted men.—(Decision Sec. War, Nov. 5, 1886.)

ARRAIGNMENT OF A PRISONER BEFORE A COURT-MARTIAL WHILE IN IRONS.

It is not the practice nor is it proper to arraign a prisoner before a court-martial while in irons, unless there are good reasons to believe that the accused will attempt to escape or conduct himself in a violent manner. The fact, however, that an accused has been tried while in irons cannot, in any case, affect the validity of the proceedings of the court.—(Opinion actg. Judge Adv. Gen., concurred in by Lieut. Gen. and Sec. War, letter Nov. 5, 1886.)

SLEEPING CAR ACCOMMODATIONS FOR REGIMENTAL QUARTERMASTER SERGEANTS.

In view of the fact that regimental quartermaster sergeants are of higher grade than the non-commissioned staff officers mentioned in G. O. 59, of 1885, from the Headquarters of the Army, it is considered that sleeping car accommodations should also be furnished to them when travelling on duty without troops.—(Views Q. M. Gen., approved by Sec. War, Nov. 8, 1886.)

INSPECTORS OF RIFLE PRACTICE.

Par. 45 of the Regulations, as amended by G. O. 135, of 1882, from this office, limiting the number of staff officers for division and department commanders, was further amended by letter of Nov. 17, 1883, from this office, so as to authorize the detail of an inspector of rifle practice for duty at each division and department headquarters.—(Decision Sec. War, letter Nov. 23, 1886.)

COST OF SOLDIERS' HAND-BOOK.

The cost of the Soldiers' Hand-Book is not to be charged to the soldier when lost through no fault of the man.—(Decision Sec. War, letter Nov. 26, 1886.)

COMMUTATION OF RATIONS WHILE IN CUSTODY OF CIVIL AUTHORITIES.

If an enlisted man, held in custody on a criminal charge by the civil authorities, is subsisted during said time either by the civil or military authorities, he is not entitled to receive commutation of rations for the same time from the Subsistence Department.—(Views Comy. Gen. Subs., approved by Sec. War, letter Nov. 26, 1886.)

DETAIL OF ENLISTED MEN FOR DUTY AS GROOMS.

The decision relative to the employment of enlisted men as orderlies, etc., published in Circular 2, Adjutant General's Office, March 12, 1886, does not warrant the detail of enlisted men on daily duty as grooms to mounted officers.—(Decision Lieut. Gen., letter Nov. 20, 1886.)

REPLACING MARKSMAN'S PINS AND BUTTONS WHEN LOST.

Par. 515, Blunt's Rifle and Carbine Firing, refers to insignia lost by the owner as well as to those lost in transmission. In all cases the official certificate of the company commander, to the effect that he has investigated the circumstances of the loss and finds that no negligence can be imputed to the soldier, will afford sufficient evidence upon which to make new issues. Insignia issued to replace others "lost or become unsightly from long wear" should be issued without cost to the soldier.—(Decision Lieut. Gen., letter Nov. 20, 1886.)

DETAILS ON DAILY DUTY ONLY FOR PURELY MILITARY DUTY.

Details on daily duty should only be made for purely military duties, and not for labor or for any duty for which the soldier did not enlist.—(Decision Lieut. Gen., letter Nov. 23, 1886.)

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 22, DIV. OF THE ATLANTIC, Dec. 4, 1886.

Publishes the results of the classification in marksmanship of troops in the Division of the Atlantic for the target year, 1886.

(The report indicates an excellent condition of affairs, so far as regards rifle practice. The General Figure of Merit of the Division is 61.49, against 48.58 in 1885. The number who qualified as sharpshooters is 328 against 186 in 1885, a gain of 142. The 3d Artillery leads the regiments with a Figure of Merit of 73.80, the 23d Infantry coming next with 68.05. The 23d Infantry qualified the greatest number of sharpshooters, 95; 48 of these being at Fort Brady and 40 at Fort Mackinac, both 2 Company posts.)

G. O. 19, DEPT. OF THE MISSOURI, Nov. 1, 1886.

The Commanding General wishes it to be distinctly understood by all officers in this Department, that there will be required a strict compliance in all respects with the United States laws, regulations and tactics, and with instructions for plans and estimates duly authorized from these or superior Headquarters. In case any deviation from authorized plans, in any particular locality, be considered desirable by a post commander, application therefor, with reasonable ground stated, must be made before any change whatever is undertaken.

By order of Brig. Gen. Willcox:
J. P. MARTIN, Asst. Adjt.-Gen.

G. O. 23, DEPT. OF THE MISSOURI, Nov. 29, 1886.

The Commanding General observes that at some posts, post staff officers address their official correspondence to the chiefs of respective departments at Department Headquarters. Properly, letters on official subjects should be and hereafter will be addressed to the post adjutant, and then the post commander will give it such direction at seems to him proper under the circumstances, and, in forwarding it, becomes responsible to the Department Commander.

All correspondence from post commanders will be addressed to the A. A. G. of the Dept., and not to the Chief of a Staff Dept. "through the A. A. G."

When chiefs of staff departments desire any action at posts affecting their departments, they will make their recommendations in the matter in a letter to the A. A. G. of the Dept., who will communicate the orders of the Dept. Comdr. to the commander of the post in question.

(This is getting back to correct principles.—ED. JOURNAL.)

G. O. 19, DIV. OF THE PACIFIC, Nov. 26, 1886.

In obedience to the instructions of the Lieutenant General

I hereby assume command of the Department of Arizona during the temporary absence of Brigadier General Miles, U. S. Army.

OLIVER O. HOWARD, Major General, U. S. Army.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

1st Lieut. John McMartin and Corpl. George W. Gaines, Co. G, will return to Fort Sisseton, D. T. (S. O. 124, Nov. 29, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, December 4, 1886.

APPOINTMENT.

Additional 2d Lieutenant Charles S. Riché, Corps of Engineers, to be 2d Lieutenant, October 12, 1886, vice Sanford, promoted.

PROMOTIONS.

Captain James F. Gregory, Corps of Engineers, to be Major, October 12, 1886, vice Gillespie, promoted.

1st Lieutenant Willard Young, Corps of Engineers, to be Captain, October 12, 1886, vice Gregory, promoted.

1st Lieutenant Lowell A. Chamberlin, 1st Artillery, to be Captain, November 25, 1886, vice Taylor, deceased.

2d Lieutenant James C. Sanford, Corps of Engineers, to be 1st Lieutenant, October 12, 1886, vice Young, promoted.

2d Lieutenant James E. Runcie, 1st Artillery, to be 1st Lieutenant, November 25, 1880, vice Chamberlin, promoted.

CASUALTY.

Colonel Henry D. Wallen (retired), died December 2, 1886, at New York City, New York.

Courts-martial.

The following courts have been ordered:

At Fort Custer, M. T., Dec. 1. Detail: Major Henry Carroll, Capts. Albert G. Forse and Frank K. Upham, 1st Cav.; Capt. Melville C. Wilkinson, 3d Inf.; Capt. Frazier A. Boutelle and 1st Lieut. Frank A. Edwards, 1st Cav.; 1st Lieut. Lorenzo W. Cooke, 3d Inf.; 1st Lieut. Jacob G. Galbraith, 1st Cav.; 2d Lieut. Frank G. Kalk, 3d Inf., and 2d Lieut. Hayden S. Cole, 3d Inf., J.-A. (S. O. 123, Nov. 24, D. Dak.)

At Fort Keogh, M. T., Dec. 3. Detail: Lieut.-Col. Melville A. Cochran, Capts. Thomas H. Logan and Henry Romeyn, 1st Lieuts. Charles B. Thompson, R. Q. M., and John C. F. Tillson, 5th Inf.; 2d Lieut. James H. G. Wilcox, 7th Cav.; 2d Lieut. Edward R. Gilman, Frederick C. Kimball, and Charles G. Lyman, 5th Inf., and 2d Lieut. Walter H. Chatfield, 5th Inf., J.-A. (S. O. 123, Nov. 24, D. Dak.)

At Fort Bayard, N. M., Nov. 29. Detail: Capts. T. C. Tupper and H. M. Kendall, 6th Cav.; Capts. J. B. Guthrie and H. G. Cavenaugh, 13th Inf.; Capt. William Stanton, 1st Lieuts. Robert Hanna, T. A. Touey, E. E. Dravo, and J. N. Glass, and 2d Lieut. G. H. Sands, 6th Cav.; 2d Lieut. W. S. Biddle, Jr., 13th Inf.; 2d Lieuts. L. M. Koehler and J. J. Pershing, 6th Cav., and 1st Lieut. G. R. Cecil, 13th Inf., J.-A. (S. O. 124, Nov. 24, D. Ariz.)

At Fort McIntosh, Tex., Dec. 1. Detail: Major John H. Bartholf, Surg.; Capt. Jacob H. Smith, 19th Inf.; Capt. Almond B. Wells, 8th Cav.; Capt. Henry C. Ward and 1st Lieut. John Newton, 16th Inf.; 1st Lieut. Freeman V. Walker, Asst. Surg.; 2d Lieut. Maury Nichols, 16th Inf., and 2d Lieut. Farrand Sayre, 8th Cav., J.-A. (S. O. 165, Nov. 26, D. Tex.)

At Fort Omaha, Neb., Dec. 6. Detail: Lieut.-Col. Joshua S. Fletcher, Jr., Capts. Charles Keller, Charles A. Dempsey, James Miller, Henry Catley, Abner Haines, Jr., and James Ulio, 1st Lieuts. Augustus R. Egbert and William J. Turner, 2d Lieuts. John S. Mallory, Thomas H. Wilson, William M. Wright, and Charles D. Towsley, 2d Inf., and 1st Lieut. William R. Abercrombie, 2d Inf., J.-A. (S. O. 154, Nov. 26, D. Platte.)

At Fort Niobrara, Neb., Dec. 8. Detail: Capts. Charles Porter, Daniel T. Wells, Egbert B. Savage, and Cyrus A. Earnest, 1st Lieuts. P. Henry Ray and Edward Lynch, 8th Inf.; 1st Lieut. Matthias W. Day, 9th Cav.; 1st Lieuts. James A. Hutton and Robert F. Ames, 2d Lieuts. Willis P. Richardson, Samuel E. Smiley, Colville M. Pettit, and Edward N. Jones, Jr., 8th Inf., and 1st Lieut. Robert T. Emmet, 9th Cav., J.-A. (S. O. 157, Dec. 2, D. Platte.)

At Fort Monroe, Va., Dec. 8. Detail: Major Royal T. Frank, 1st Art.; Major Alexander C. M. Pennington, 4th Art.; Capt. James M. Ingalls, 1st Art.; Capt. William A. Kobbé, 3d Art.; 1st Lieut. Oliver E. Wood, 5th Art.; 1st Lieut. Thomas C. Davenport, 4th Art.; 1st Lieut. Edward E. Gayle, 2d Art., and 2d Lieut. Beverly W. Dunn, 3d Art., J.-A. (S. O. 200, Dec. 6, Div. A.)

At Fort Columbus, N. Y. H., Dec. 8. Detail: Capts. William B. Beck and Charles Morris, 5th Art.; Capt. Henry P. Birmingham, Asst. Surg.; 1st Lieuts. Benjamin K. Roberts, Anthony W. Vogdes, David D. Johnson, and Samuel E. Allen, 2d Lieuts. Harvey C. Carbaugh and Avery D. Andrews, 5th Art., and 1st Lieut. Wm. R. Hamilton, 5th Art., J.-A. (S. O. 201, Dec. 7, Div. A.)

At Fort Bliss, Tex., Dec. 6. Detail: Col. Henry Douglass, 10th Inf.; Capt. S. G. Cowdry, Asst. Surg.; Capt. John Drum, 1st Lieuts. J. R. Cranston and R. C. Van Vliet, and 2d Lieut. W. C. Wren, 10th Inf., and 2d Lieut. R. L. Bullard, 10th Inf., J.-A. (S. O. 128, Dec. 1, D. Ariz.)

Army Boards.

A Board of Survey will meet at Omaha, Neb., Dec. 4, to report upon damaged subsistence stores, for which Major John P. Hawkins, C. S., is accountable. Detail: Major Charles M. Terrell, Pay Dept.; Capt. Charles A. H. McCauley, A. Q. M., and 2d Lieut. L. W. V. Kennon, 6th Inf., A. D. C. (S. O. 157, Dec. 2, D. Platte.)

A Board of Officers, to consist of 1st Lieut. Thomas M. Woodruff, 5th Inf., A. S. O., and 2d Lieuts. James A. Swift and William D. Wright, Signal Corps, will assemble to report upon the erroneous collection of money on received "paid messages" (S. O. 125, Nov. 29, Sig. Office.)

A Board of Survey, to consist of Major William Arthur, Paym.; Capt. W. V. Richards, 16th Inf., and 2d Lieut. DeR. C. Cabell, 8th Cav., will assemble at the San Antonio Depot, Tex., Dec. 2, to fix responsibility for certain mules, for which Capt. John Simpson, A. Q. M., is responsible (S. O. 167, Dec. 1, D. Tex.)

A Board of Officers, to consist of Capts. Edward T. Comegys and Edwin F. Gardner, Asst. Surgs., and 1st Lieut. Robert K. Evans, 12th Inf., will meet at Madison Barracks, N. Y., Dec. 7, to examine Private Henry J. Linweber, Co. B, 12th Inf., as to his fitness for the position of hospital steward (S. O. 199, Dec. 4, Div. A.)

Military Information.—The Adjutant-General has written the Chiefs of the Bureaus of the War Department, requesting their assistance in the matter of increasing the efficiency of the "Division of Military Information." The officers, says the Adjutant-General, can assist materially in this desirable object, by reporting fully upon matters which the nature of their duties will require them to be cognizant of, but which are not ordinarily reported on. It would be well that the officers of the Q. M. D. should report concerning the resources of the part of the country in which they are serving, with reference to the supply of leather, cloth, etc., and also as regards means of transportation, including railroads, water transportation, horses, and mules. Officers of the Subsistence Department should report concerning the food supply, both as regards centres of production and output, while officers of the Ordnance Department should report concerning sources of supply and output of arms and ammunition. And all officers should, whenever practicable, make report on anything which it may be desirable for the Government to know in case of sudden war. It is of vital importance that the Government should know in such case, what it could expect and where to look for it, outside of its own workshops and stock on hand; also how quickly it could transport its troops and munitions of war. There is hardly a journey which can be made by an officer in his own or a foreign country which may not be made productive of valuable results. It is, however, almost impossible to specify in detail all the points concerning which information is desired, but this can well be left to the intelligence and discretion of the officers.

DEPARTMENT NEWS.

Division of the Pacific—Maj.-Gen. O. O. Howard.

A correspondent writes: The school children of San Francisco celebrated the first Arbor Day held in California, Nov. 27. The visit to the Presidio was especially enjoyable. Several hours before the time set for tree planting, the grounds were dotted here and there with children. They ran all over the place, climbed upon the cannon, and showed that for the time they were in possession of the camp. Col. Piper, post commandant, had 3,000 tender pines at the disposal of the visitors. Some time before the exercises began the steps of the barracks buildings were hidden from view by bevys of girls drawn thither by attractions other than starting trees on their upward career. The gallant soldier boys were extremely attentive and received their share of admiration.

Division of the Atlantic.—Maj.-Gen. Schofield.

There arrived this week a story from Florida of an outbreak among the Seminole Indians and their determination to make trouble among the cowboys and settlers. The census of 1880 shows that there were only 180 Indians in the whole State, of which 72 were located in Monroe County, and not one in Dade County, the alleged seat of the trouble. Where the 500 fighters among the Seminoles, which the report says can be mustered, are coming from is a problem the Commissioner of Indian Affairs says he will not undertake to explain.

FORT SIDNEY, NEB.

THE *Excelsior* says: Lieut. J. S. Parke arrived at Du Chesne Tuesday....John Williams, until recently drum major 21st Inf., was married, Nov. 16, at Laramie City to Miss Mollie Taylor....The calico hop at the post theatre on Thanksgiving evening, by the Fort Sidney Social Club, was a grand success.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Dec. 8, 1886.

WELL, we now have winter in good liberal doses. A week ago it grew cold suddenly and has continued so. On Sunday there was a heavy fall of snow and yesterday another which the wind blew into huge drifts, making travel about the post very difficult. The thermometer went down to near zero, causing many water pipes to freeze.

The officers have organized a Toboggan Club. The slide will be erected a little to the east of Mr. Rehm's quarters and extend to the flat filled in by the West Shore Railroad Company. The descent is quite steep and after reaching the bottom there will be room for a level space of several hundred yards. All are enthusiastic over the project, and great sport is looked for.

The first officers' indoor concert was given last Thursday evening in the library. The audience was quite small, owing to the unpleasantly cold and windy weather. The following programme was rendered: Persian Patrol, Giese; Overture—"Maritana," Wallace; Caprice Heroique—(Awakening of he Lion), Kontzky; Polka Metropolitan—Cornet Solo, Weingarten; Pizzicato Polka—"Ballet Sylvia," Delibes; Waltz—"Girofle-Girofla," Ed. Strauss.

The funeral of the late Gen. Henry D. Wallen, U. S. A., took place here last Saturday afternoon. The remains arrived about one o'clock from New York and were taken to the chapel, where the funeral services were read by Prof. Postlethwaite, after which the casket was taken to the cemetery, escorted by the whole Cadet Battalion, under the commandant of Cadets, followed by a few of the officers on duty here. The pall-bearers were Profs. Larned and Tillman, Dr. Smith, Dr. Kimball, Capts. Metcalfe and Spurgin. The mourners from the city were two sons, three daughters and several grandchildren of the deceased officer. Three perfect volleys by the Corps of Cadets ended the sad ceremony.

The officers' mess has just received a very valuable and interesting historical relic, the gift of Henry Irving. It is a sketch, in colors, of the First Napoleon, made by Captain Maryatt, of the English Navy, on board the *Bellerophon*, which conveyed Napoleon to England in 1815 after his surrender to the English, which followed Waterloo. It is a side view sketch, the chapeau is drawn well down, the coat in blue, with a rosette or star on the left breast, the knee breeches a sort of buff. The hands are in the pockets of the breeches. He appears to be gazing intently at some distant object, probably taking a last look at his native land.

Lieut. Baldwin, 7th Cav., was here last Saturday for a few hours.

Four new brick one-story houses, to be used as quarters by non-commissioned officers, are nearing completion. They are pleasantly situated on the ridge between the magazine and cavalry garden, on the south side of the road. They are built together and will make very desirable houses.

—

Charles Elroy Burbank, Worcester, Mass.; Geo. Heaton, Craig, Mo., and John William Furlong, Philadelphia, Penn., have been designated for examination for admission to the U. S. Military Academy.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

DECEMBER 7, 1886.

OWING to the snow all military manœuvres have been discontinued until further orders, and retreat is now held under arms. 127 enlisted men have attached their signatures to a petition requesting a reduction of the term of service for retirement to 25 years, and it has gone to Senator John A. Logan, Chairman Military Committee, U. S. Senate. While the cause of the enlisted men finds an advocate amongst Senators of such eminence and ability as the Chairman, we need have no fear of the near success of this movement. Under the present retiring bill only a very small percentage of the enlisted men can ever hope to receive its benefits.

On Thursday next, Dec. 9, the Gibson Social Society gives its second annual ball in the recreation hall, which promises to be a great success.

AULD LANG SYNE.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

DECEMBER 3, 1886.

ITEMS here are scarcer than dollars three weeks after pay day. Military matters go on smoothly and punctiliously and war with Mexico is now unheard and unspoken of. Gen. Stanley and Lieut. Rumbough, A. D. C., returned to-day from a trip to Davis and Hancock, and Gen. Ruggles, our worthy Adjt.-General, and Col. Heyl, our ubiquitous Insp.-General, left for McIntosh, Brown and Ringgold. Col. Otis, 8th Cav., who has been quite sick, is fast recovering. P. A. Ord, son of the late Major P. A. Ord, U. S. A., and nephew of the late Gen. E. O. C. Ord, U. S. A., fatally injured by a runaway, died last Sunday, Nov. 28, and was buried on Monday. He was employed as a clerk in the office of Captain Simpson, Depot Quartermaster. Buck Ord, as he was familiarly called, was a whole-souled fellow and a general favorite. A "Hound and Hare" chase takes place to-morrow, the athletic Lieut. Sebree being the "hare." Lieut. O. M. Smith, A. D. C., returned from the East a few days ago. Capt. J. E. Burbank, 3d U. S. Art., and family, have arrived, and the Captain has taken over the Light Battery. It is some years since I saw him last and he looks as sturdy and as young as ever. The Light Battery will flourish under him I feel sure. Lieuts. Cushman and Slocum left Wednesday on four months' leave. What is Congress going to do this session? Nothing, as usual. No "lineal promotion," no elastic retired list for the worn-out absentees, no promotion after so long service, no Manderson Bill, no Logan Bill, no fortifications, no nothing. Not that I am interested, for on the topmost pinnacle of Government Hill, I hold a "posish" which even a dynamite expert, like our own Zalinski, would find it hard to capture.

PUNK.

FORT OMAHA, NEB.

THE *Excelsior* says: "Lieut. H. B. Sarson has returned from detached service.....The second officer in rank in the regiment coming to this post at this time causes a great many changes, and they are indeed lucky who do not have to move.....The three remaining companies of the 2d Infantry, with the lieutenant colonel, reached here the early part of the week. Co. K, Lieut. Turner; Co. G, Capt. Keller; Co. I, Capt. Miller, Lieuts. Egbert and Mallory. Mrs. Miller and family, Mrs. Egbert and Mrs. Mallory accompanied their husbands. Capt. Keller is the guest of Capt. Haines, Capt. Miller and son are with Capt. Dempsey; Mrs. Miller and her daughter, Miss Annie, are the guests of Capt. and Mrs. Cook; Lieut. Turner is the guest of Lieut. Rowell; Col.

Fletcher and family are at the Paxton Hotel, and will remain there until the quarters he has selected are ready."

(Correspondence of the Army and Navy Journal.)

FORT LYON, COLO.

ASSISTANT SURGEON J. L. POWELL and his amiable wife left Fort Lyon for their new station, Fort Supply, I. T., on Dec. 4.

On the occasion of their departure from this post a complimentary hop was tendered them by the ladies and officers of the garrison.

For his professional skill and social qualities, the doctor's departure from here is much regretted. Mrs. Powell, neé Grenet, formerly of San Antonio, Texas, expects to visit her former home. Her departure from here was the occasion of much sadness among her lady friends. ELK.

(Correspondence of the Army and Navy Journal.)

FORT YATES, DAKOTA.

DECEMBER 1.

ONE of those pleasant social events which tend to break the monotony of frontier life occurred here November 29. It was a "Mother Goose" party, given by Lieutenant and Mrs. H. O. S. Heistand, 11th Inf., to the officers and ladies of the garrison, and others. It was the anniversary of the birthday of the hostess, and in catering to the enjoyment and comfort of their guests, the worthy host and hostess did their utmost.

The dancing programme was perfect, having been painted by Lieut. Heistand in water colors, with a separate character of "Mother Goose" represented on each.

The dancing hall in which the entertainment was held was brilliantly illuminated. At 8.30 P. M., the music, led by Prof. Shepard, played the grand march and twenty-nine couples entered the room in appropriate "Mother Goose" costumes. At the conclusion of the march dancing commenced, and continued until supper, during which Senor Rosenthal, a young Chilian, yet in his teens, and at present on a visit to the post, favored the party with two selections on the violin, which could only have been equalled by the renowned Ole Bull. Rosenthal is truly a phenomenon as a violinist. Dancing was resumed and continued till near morning. When the finale came good nights were said, and all returned to their homes feeling that a night of unalloyed enjoyment had been spent. L. O. I. V.

(Correspondence of the Army and Navy Journal.)

FORT MISSOULA, MONTANA.

December 1, 1886.

THE exciting theme at the post is now the speedy establishment of a post canteen where rational enjoyment and rational refreshment can be had at a moderate cost. The movement should spread, and your frequent advocacy of such a measure has much to do with its initiation here and elsewhere. We expect also to start a good library here. CLUB.

FORT ELLIOTT, TEXAS.

AN EXCELLENT MARCH.

A CORRESPONDENT sends us an account of a recent march made by Capt. H. F. Leggett, Co. B, 24th U. S. Infantry, from Fort Elliott to Fort Supply. The company left Elliott Oct. 17, arrived at Supply Oct. 22, remained there until Oct. 26, and then started for home, reaching Elliott Oct. 31. The whole distance travelled was 194 miles.

During the march, and while in camp, the men were drilled in pitching and striking tents, packing and unloading wagons, and in all customary duties of soldiers in the field, and exhibited a very satisfactory state of proficiency. Every latitude consistent with a due and proper regard for discipline, and the duties required of them was permitted—hunting, fishing, and the enjoyment of sports and exercise.

The date of departure from, until the return to, Elliott indicates in the most unmistakable manner the thorough enjoyment of all, in march and camping, and is a most convincing proof of the wisdom of the Department Commander, Gen. Stanley, who directed this form of drill and exercise.

Before leaving, the post surgeon provided a liberal supply of simple remedies, and although the fact of these medicines being along was well known, not a single individual applied for medicine for the slightest disorder. F.

FORT NIOBRARA, NEB.

THE *Excelsior* says: Gen. Brisbin left, Nov. 24, for Fort Robinson....The third farewell dance was given by the 2d Infantry, Nov. 25....It is said a member of the 8th Infantry knew Lieut. Owens when he was a wee boy in swaddling clothes. The elder never expected then that he would have to stand to "attention!" and "salute!" from the younger. But the whirligig of time brings about strange things.

COURT-MARTIAL CASES.

In a case recently tried at Fort Robinson, General Crook says: "In the record, the finding of the court, after its having received evidence of previous trials and convictions of the accused, is repeated, which is superfluous and irregular. A medical certificate, corroborating the statement that one of the members of the court was absent on account of sickness, should have been appended to the record. At assemblage of the court on the second day, the record fails to show the absence of one of its members, who had been challenged by the accused on the previous day, and the challenge sustained by the court. It is important that upon each day's record of the proceedings, absent members should be duly accounted for, and a failure to do so is an irregularity, which, in certain cases, might necessitate the disapproval of the proceedings, by the reviewing authority. Subject to these remarks, the proceedings are approved."

LIEUTENANT MONCKTON, of the British Navy, while at Dublin recently went down in a diver's dress to arrange for blowing up a wreck; when, owing to some accident, the air supply was cut off and he was drawn up apparently dead. Restoratives were applied, and fortunately he recovered consciousness.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Aspinwall Nov. 26.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Montevideo Nov. 13.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Palermo Nov. 22. Was to sail the following day for Malta, and thence direct to Alexandria.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Genoa, Italy, Nov. 9, for the coast of Africa to cruise during the winter. Was at Gibraltar Nov. 22.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. Sailed from Callao, Peru, Nov. 12, for San Francisco, Cal. Expected to arrive in about a month. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, (f. s. p. s.), Comdr. J. Crittenden Watson. Sailed from Callao, Peru, Nov. 13, for Mallendo, Arica, Iquique, Caldera and Coquimbo, arriving at latter port about Dec. 15.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 25, and from there to Valparaiso, where she is expected to arrive about the middle of January.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Arrived at Montevideo Oct. 20.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and was to leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Muscat, Arabia, Oct. 23.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Colomba, Ceylon, Dec. 3.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Nov. 11.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Returned to Hong Kong, Oct. 5, from Macao, and was probably at Canton Nov. 22.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886. Ordered to return to Chemulpo after giving liberty.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Aden, Arabia, Dec. 2.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Left Canton, China, Oct. 31, and after having her bottom cleaned and slight repairs completed, was to leave for her winter station at Tientsin.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived a Hampton Roads, Va., Dec. 4, from Annapolis. Will sail on her winter cruise Dec. 16.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. At Norfolk. Will sail on her winter cruise Dec. 16.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. At Norfolk, Va. Will sail on her winter cruise Dec. 16.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At Fort Monroe, Va., Dec. 9. Will go on an outside cruise with the Inspection Board. Will be ordered to join the North Atlantic Squadron.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

THE guns for the new cruiser *Atlanta* were shipped from the proving ground to New York by canal on Tuesday of this week.

ADMIRAL PORTER has recommended to the Secretary of the Navy that the Norton lifeboat be tested on the next trial trip of the *Atlanta*.

GOVERNOR ABBETT, of New Jersey, has pardoned Charles Tong Sing, Chinaman, who was a member of the Jeannette and Thetis Polar Expeditions, and who, in 1885, was sentenced to prison for seven years for assault.

FIVE hundred men were discharged from the Navy-yard, Brooklyn, N. Y., during the past two weeks, due to lack of appropriations, and it is very likely a still further reduction in the force of workmen will be made.

IT is interesting to note that the Spanish Cortes has lately voted a budget of $45,000,000 for the improvement of the Navy, while the U. S. is forced to struggle along with barely enough appropriation per annum to man a respectable drag.

SECOND COMPTROLLER MAYNARD has decided in the case of Asst. Paymr. James J. Chapman, of the Navy, that the period served as a commander's or paymaster's clerk cannot be reckoned in computing longevity pay. A naval clerk is not an officer, and has no relative rank.

THE *Despatch* was docked Dec. 3, and will be prepared for early service. She is a very handy craft and will be kept ready for instant departure, if occasion requires. Unfortunately she is not a man-of-war, but can be used to maintain communication with threatened points.

WE reported in the ARMY AND NAVY JOURNAL of last week that the *Essex*, Comdr. T. F. Jewell, has arrived in safety at Colombo, Ceylon. All well on board. The *Essex* has probably, ere this, sailed for Point de Galle, the next place of call after Colombo, en route to the China Station.

TO SHOW how enormously the cost of a first-class ironclad has increased of late pears, Lord Brassey states that the propelling machinery of the *Howe* has cost $515,000, as against the $316,000 of the *Devastation*; and the latter ship has no hydraulic machiney, which in the *Howe* adds to the expense to the tune of $375,000.

A NAVAL court-martial was appointed on Thursday to meet at Norfolk on Monday, Dec. 13, for the trial of Sergt. John F. Lemis, U. S. M. C. The court consists of Comdr. P. H. Cooper, Lieut. Comdr. E. S. Houston, Lieut. R. M. G. Brown, Lieut. Wm. H. Turner, Lieut. T. G. C. Salter, Ensign A. W. Grant and 1st Lieut. Richard Wallach, U. S. M. C., and 1st Lieut. L. W. T. Waller, judge advocate.

THE absence from the list of bidders for the new cruisers of the following well known names is noticed: Continental Iron Works, Pusey and Jones Co., Neafie and Levy, Atlantic Works, Quintard Iron Works, Delamater Works, John Roach and Sons. The last three were represented in the bids for the previous lot of cruisers for which bids were received from eight firms. There were but three bidders for the new vessels.

CHIEF ENGINEER LORING is reported as saying that the failures of the *Atlanta* are in a large degree due to the indifference of the firemen. "It is impossible," he says, "to get the best work out of a regularly enlisted fireman. A vessel should never be tried by the Government. The contractor should see that the vessel constructed by him reaches the required standard. He has everything at stake, and can afford to offer inducements to his men."

THE *Marine Journal* says: "The United States, the greatest nation of the world, is as coatless and shoeless as the most indigent tramp, and equally as defenceless for combat with the bleak December winds or to contest with sudden, precipitated storms of any nature on land or water. The difference between the two is small. Either could help their situation, but will not. What could this country do to hold at bay any armed foreign invader until it supplied a Naval fleet to rout the enemy? Nothing."

THE contract for the construction of gunboat No. 1 has not been awarded as stated by the daily papers. Cramp and Sons were the lowest bidders, but as the designs for the engines and machinery which they submitted and upon which their bids were based, were not entirely satisfactory to the Department, the Secretary has delayed awarding the contract until a new set of drawings can be furnished. The Messrs. Cramp and Sons have been granted two weeks for this purpose. If their plans, when completed, are satisfactory, the contract will be awarded them. If not, the Department may decide to give the contract to the Baltimore party who bid upon the bureau designs.

IT was a gracious and pleasant act on the part of Secretary Whitney to order that one of the new cruisers shall be named the *Charleston*—a compliment to which the city is entitled by virtue of its importance and position, and which is especially welcome at this time. It would be doubly pleasing now if the new cruiser were built at Charleston—where the famous frigate *John Adams* was buil during the Revolution—and if the channel across th bar should be promptly deepened so as to permi her to visit other American ports after she i

launched. At any rate we shall always be proud of our city's namesake, and shall watch her career with the liveliest interest. If there is anything in a name, by the way, she ought to be able to stand a good deal of ramming and shelling, and storming and shaking, and come out of each such trial a better ship than she went into it.—*Charleston, S. C., News.*

CAPTAIN EADS is reported as saying that the gentlemen interested in the scheme of a ship railway across the Isthmus of Tehuantepec have decided to abandon the acceptance of Governmental aid trammelled by Governmental restrictions, and form a private corporation. An appeal for financial aid will be made to all the great money centres of the world. Congress will be asked to grant a charter to the new organization, when the process of securing money will be pushed with energy.

GENERAL HERBERT, Chairman of the House Naval Committee is quoted as saying: "There will be no difficulty about the Navy Department securing the increased amount necessary for the new cruiser *Newark*." "Do you find that the sentiment in favor of building up the Navy has grown much within the last few years?" he was asked. "I don't think there is any doubt about it," he replied, "and I may say, in passing, that in no section of the country are the people more heartily in sympathy with this sentiment, than in my State of Alabama. This I find to be true, not only in my district, but throughout the entire State."

IT is, says the New York *Tribune*, a most damaging and false notion that some of our so-called statesmen entertain that there are no American naval architects and engineers who are capable of designing and planning our ships. William H. Webb designed and built the *Dunderberg*, the acknowledged model and original of the present case-mated cruiser, besides producing pattern ships for several European navies. John Roach has built and engined more than a hundred steamers, an "auxiliary" navy such as no other nation has produced. A modest and unassuming architect of Boston produced the *Puritan* and *Mayflower*. Captain Ericsson designed a monitor that saved the Union, and Naval Constructors Hanscom, Pook and Delano have made more models than there are vessels in the entire British Navy.

THE Washington correspondent of the New York *Times* says: "The cadet engineers, some of whom are stationed in the Navy Department, are industriously engaged in gathering "influence" to push the bill for their relief, which has been reported favorably by both the Senate and House Naval Committees. These are the young men who were held by the Supreme Court to have been illegally discharged from the Service by ex-Secretary Chandler. Under this decision 33 were restored to the Navy. Seven have since resigned, leaving 26 still in the Service. They now hold office and draw salaries only as cadet engineers. The only concession made by the Secretary of the Navy was to offer them precedence over all Naval Academy graduates when vacanics occurred in the Engineer Corps. There are six such vacancies now existing. The cadets, however, refuse to accept the commissions unless they are restored to the number in the list of assistant engineers they would have had but for Mr. Chandler's illegal action. If their bill passes the 26 men will be wedged in about the middle of the present list of assistant engineers. The engineer officers of high rank are in favor of the passage of the act, and Secretary Whitney, although he did not recommend the relief in his report, is said to acknowledge that the cadets are justly entitled to it.

NAVY GAZETTE.

Ordered.

Nov. 30.—Carpenter W. W. Richardson, to the training-ship Portsmouth.

Lieutenant J. K. Cogswell, to instruction in ordnance at Washington Navy-yard.

DEC. 3.—Lieutenant T. Dix Bolles, to special duty at the Smithsonian Institution.

Paymaster George H. Griffing, to duty at the Delaware River Ship Building Company's works, December 7.

P. A. Paymaster George A. Deering, to the storeship Monongahela, at Coquimbo, Chili.

DEC. 6.—Ensign James H. Hetherington, to duty at the Branch Hydrographic Office, Philadelphia.

Passed Assistant Surgeon H. T. Percy, to the Naval Academy.

DEC. 8—Lieutenant Andrew Dunlap, Jr., to Washington Navy-yard, January 3.

Lieutenant William P. Elliott, to special duty in the Bureau of Navigation.

DEC. 9.—Passed Assistant Paymaster John N. Speel, to Coast Survey on January 1.

P. A. Paymaster L. A. Yorke, to examination for promotion.

Pay Inspector John H. Stevenson, as member of Naval Examining Board.

Detached.

Nov. 30.—Lieutenant Commander S. W. Very, from the torpedo station and placed on waiting orders.

Passed Assistant Engineer, R. W. Galt, from the Norfolk Navy-yard and ordered to place himself in readiness for sea service.

Carpenter P. T. Mager, from the Portsmouth and ordered to duty at the League Island Navy-yard.

DEC. 3.—Lieutenant J. V. B. Bleecker, has reported his return home, having been detached from the Hartford, November 6, and has been placed on waiting orders.

Pay Inspector L. G. Billings, detached from the Delaware River Ship Building Company's works, December 7, and ordered to special duty at Washington.

Paymaster H. G. Colby, from the Monongahela when relieved, and ordered home to settle accounts and then wait orders.

DEC. 6.—Ensign Gilbert Wilkes, from the Hydrographic Office and ordered to duty at the Johns Hopkins University, Baltimore.

Ensign John E. Craven, from the Coast Survey, and granted leave until February 1 next.

DEC. 8.—Lieutenant Commander F. McCurley, from the Franklin on December 1, and placed on waiting orders.

DEC. 9.—Captain Richard L. Law, from command of the League Island Navy-yard December 12, and placed on the retired list.

Passed Assistant Paymaster J. R. Stanton, from the Coast Survey on January 1, and ordered to settle accounts and await orders.

Assistant Paymaster E. B. Webster, from duty at the National Museum and ordered to the Inspection Department, Mare Island, California, January 1.

Transferred.

Recent advices from the Pacific Squadron announce that Lieutenant Aaron Ward was transferred from the Hartford to the Monongahela.

Leave.

1st Lieutenant Henry Whiting, U. S. M. C., stationed at Boston, has been granted leave of absence for one month from December 6.

Revoked.

The orders of Lieutenant Lucien Young, as assistant to inspector 15th Lighthouse District revoked, and he has been granted six months' leave.

Nominations.

DEC. 8.—Naval Constructor Theodore D. Wilson, to be Chief of the Bureau of Construction and Repair and Chief Constructor in the Department of the Navy, with the relative rank of Commodore.

Pay Director James Fulton, to be Chief of the Bureau of Provisions and Clothing and Paymaster-General in the Department of the Navy, with the relative rank of Commodore.

Pay Inspector Rufus Parks, to be a Pay Director.

Paymaster James E. Tolfree, to be a Pay Inspector.

Assistant Paymaster John Corwine, to be a Passed Assistant Paymaster.

MARINE CORPS.

DEC. 4.—1st Lieutenant Henry Whiting, granted leave of absence for one month from December 6.

FROM THE ASIATIC STATION.

THE Secretary of the Navy has received the following report from Admiral John Lee Davis, commanding the Asiatic Station, dated Yokohama, Nov. 11:

The *Marion* (flagship) left Nagasaki Oct. 25, and after passing through the Inland Sea reached Kobe Oct. 27, where the usual visits of ceremony were made. On Nov. 3, it being the birthday of the Emperor of Japan, the Governor gave a grand ball which I attended with my staff and a number of the ship's officers. Left Kobe Nov. 4, and reached Yokohama Nov. 5. Found an English force at anchor under Vice-Admiral Hamilton, consisting of the armorclad *Audacious* (flagship), swift cruiser *Leander*, C class corvettes *Constance* and *Cleopatra*, and gun vessel *Swift*. Also the Italian rapid cruiser *Rapido*. The usual visits of ceremony have been exchanged and salutes fired.

The *Omaha* left Chemulpo about Oct. 11, visited Chefoo, China, and returned to Chemulpo Oct. 29, and reached Nazasaki Oct. 31. After giving liberty to the crew she is ordered to return to Chemulpo.

The *Ossipee* left Hong Kong on Oct. 24, and Singapore on Nov. 1.

The *Monocacy* left Macao Oct. 4, and reached Hong Kong Oct. 5, and is probably now at Canton.

The *Palos* left Canton Oct. 31, and after having her bottom cleaned was to leave for her winter station at Tientsin.

All is quiet within the limits of the station. Cholera has almost entirely disappeared. The health of the officers and men is excellent.

FROM THE EUROPEAN STATION.

REAR-ADM. S. R. FRANKLIN, commanding the European Squadron, reports to the Secretary of the Navy, from the U. S. S. *Pensacola* at Palermo, Sicily, Nov. 22, that the evening previous he received a despatch from Comdr. Coffin at Gibraltar, stating that Dr. Atlee was in the hospital from a compound fracture of the leg, and would be unserviceable for three months. Tryon officially requested an assistant surgeon for African cruise. Instructions were desired. Admiral Franklin immediately replied, directing him to await at Gibraltar the arrival of P. A. Surg. Edgar, whom he ordered to join the *Quinnebaug* without delay. He proposed to sail from Palermo for Malta Nov. 23, and from there he would proceed to Alexandria direct. The health of officers and crew was good.

FROM THE PACIFIC STATION.

CAPTAIN GILLIS reports to the Navy Department from Callao, November 11, that the *Adams* sailed from Callao October 31, and reached Payta, November 3, and left for Guayaquil November 6. She sailed from Guayaquil Nov. 10, for Panama, in obedience to the Department's telegraphic orders. The *Iroquois* was still at Callao, where she would remain until after the *Hartford* should sail for San Francisco. Advices from the *Shenandoah* reported her at Mare Island, under the direct orders of the Department.

Commander Day, commanding the *Mohican*, in a letter dated Apia Samoa, Sept. 13, said: "The prospect is now that I shall be able to leave for Easter Island and Valparaiso October 25, and I may be expected at the latter place about the middle of January."

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Dec. 7, 1886.

IN spite of the frozen ground and the bitter cold, and the snow storm of last Saturday, the deaf mutes came down from Washington, played us football, and beat us 16 to 0.

They won because they could play a better game than the cadets, and the score, resulting from two goals and a touchdown, was brought about by their skilful dodging and fast running. But few spectators were present, owing to the unpleasant weather. The feature of the game was the happiness of one of their admirers, who came down from Washington, and whose yells, upon the close of the game, reflected but little credit upon a deaf and dumb institution.

The snow storm grew worse towards evening, but the attendance at the Officers' Hop was none the less good. The guests were received by Mrs. Harrington, assisted by Lieut. Mahan. Among those present were Comdr. and Mrs. Huntington, Comdr. and Mrs. Schouler, Lieut. and Mrs. Leutze, Lieut. and Mrs, Tilley, Mrs Hendrickson, Mrs. Almy, Misses Sampson; Brook, of South River; Loomis, Baker, McIlvane, of Trenton, N. J.; Randall, Harrington, Magruder, Murray, McMillan, Stewart; Perry, of Hartford, Conn.; Lieut. Colahan, Lieut. Swinburne, Lieut Fullam, Asst. Engrs. Worthington and Baker; Ensigns Haeseler, Gill, Blish, Muir, Gibbons, and Atwater; Messrs. Briscoe, Munroe, Tilton, Magruder, and Steele, of Annapolis; together with the corps of cadets.

The friends of Mr. Wm. T. Iglehart, of Annapolis, are greatly distressed over the sad results attending his recent accident, from which amputation of the leg is pronounced by the doctors the only relief. Mr. Iglehart has held the position of postmaster in Annapolis for some time, and in that capacity has won the esteem of all Annapolis people, as well as of the families of the officers attached to the Naval Academy.

Mrs. Huntington's auction last Friday night was a grand success, about $110 being realized from the sales. These proceeds were devoted to charitable purposes. The highest price was obtained for a beautiful pen and and ink sketch contributed by Miss Harrington. The warmhearted hospitality of Comdr. and Mrs. Huntington, together with the overflowing humor of the auctioneer, Lieut. Mitchell, drew nothing but praises from the assembled guests as to the evening's enjoyment.

The U. S. S. *Jamestown* left here last Thursday, bound for Fort Monroe.

CONCENTRATION OF NAVAL STORES.

NAVY DEPT., WASHINGTON, D. C., Dec. 2, 1886.

Hon. Wm. C. Whitney, Secretary of the Navy:

SIR: In obedience to your order of the 17th ult., constituting us a board to formulate regulations for the concentration of naval stores and materials, etc., we would state that after a preliminary conference with the officials at the Department interested, and due deliberation of the subject, we have arrived at the conclusion that it will be practicable to begin on Jan. 1 next the initial inauguration of the project outlined in your instructions to the extent of transferring on that date the various stores and materials at all yards and stations from their present custodians to one general storekeeper at each of those points, and respectfully submit herewith a draft of General Order, which in its temporary provisions covers and should govern such transfers, and also those on shipboard.

It will be premature to expect immediate reduction of the force that has been employed in the care of such stores, but after necessary work in arranging and consolidating, etc., we are of opinion that a large reduction may follow by the end of the fiscal year.

Regarding the proposed transfer of the general purchasing and accountant's duties to the Paymaster General's Office, we find that the change involves such extensive revision and preparation of account books, blank forms, and other necessary machinery of the new system that the board are of the opinion that it would be impracticable to consummate this, the remaining feature of the project, before the beginning of the fiscal year.

Between now and that date the board will be able to mature and perfect the details of the whole of the new system, whereby its operations may be smoothly inaugurated.

Very respectfully,

GEO. R. BROWN, Captain, U. S. N.
J. R. CARMODY, Paymaster, U. S. N.
H. J. STANCLIFF, Paymaster, U. S. N.

The substance of the order above referred to, was given last week. It is as follows:

NAVY DEPARTMENT, WASHINGTON, December 4, 1886.

G. O. No. 355.

On the 1st day of January, 1887, all stores and supplies, and the records of all property and plants at Navy-yards and Stations, appertaining to and belonging to the Navy Department, with the exceptions of vessels and of stores and supplies coming under the cognizance of the Bureau of Medicine and Surgery and of the Marine Corps, will be transferred to the Bureau of Provisions and Clothing.

At Navy-yards and Stations there will be an officer of the Pay Corps designated as the General Storekeeper, who will, on the above date, be given charge of all stores and supplies, and of the records of property and plants at their respective Yards and Stations, and inventories embracing the same, showing quantities and values in detail, will be furnished to him by the officers representing the several Bureaus, and now in charge of said property, and he will receipt for the same, subject to such corrections as may be found necessary when said inventories can be verified to his satisfaction.

The 1st day of July, 1887, is fixed upon as the date, by which time proper arrangements must be made for having concentrated, in one or more storehouses, such stores and supplies as should be so stored and guarded as to enable the General Storekeeper to assume a rigid responsibility for their proper care and expenditure.

The property accounts of the several Bureaus will be kept separate, and until the 1st day of July, 1887, the necessary books and blank forms now prescribed will be used, and the reports and returns required by existing orders and regulations will be regularly made and forwarded.

The civil employees and laborers now connected with the accounts and care of the stores and supplies, will be transferred to the office of the General Storekeeper, and he will control their services, they being continued on the rolls and paid by the Bureaus from which they are transferred.

An officer of the Engineer Corps, a boatswain, a carpenter, and a sailmaker, will be assigned to duty under the General Storekeeper, and he will define their duties and responsibilities.

On board of vessels, all equipments, outfits and supplies, with the exceptions of those pertaining to the Medical Department and Marine Corps, will, on the first day of the quarter following the receipt of this order, be transferred to the charge of the pay officer, and complete inventories will be furnished to him by those now having charge of said property, for which receipts will be given. The pay officer, until further instructed, will use the books and blank forms now prescribed in making reports and returns to the several Bureaus.

A separate property account in each department will be kept, and all articles in use and under the control of officers will be receipted for, and such receipt will carry with it an accountability for the same.

The engineer's and the equipment yeomen will be attached to the Pay Department.

Any and all orders or regulations conflicting with this order are hereby annulled.

WILLIAM C. WHITNEY, Secretary of the Navy.

COMMANDER H. B. SEELY, Lieut. Wm. H. Parker, Lieut. Geo. A. Norris, Lieut. Jr. grade J. Marshall Robinson, and Ensign O. G. Dodge, will be before the Naval Examining Board this week for examination for promotion.

COMMANDER E. M. SHEPARD, P. A. Engr. Geo. W. Roche, Commander C. D. Sigsbee, Ensign B. C. Dent, Lieut. J. M. Robinson, P. A. Surgeon H. P. Harvey, Lieut. J. V. B. Bleecker, Pay Inspector Jno. H. Stevenson, Commander H. B. Seely, Lieut. C. McR. Winslow, Ensign O. G. Dodge, Commander R. P. Leary, and Lieut. Geo. A. Norris, registered at the Navy Department this week.

THE contract for furnishing an electric light plant for the *Chicago*, has been awarded to the Edison Company of New York, at its bid of $8,280. There were a number of bidders. The vessels of the Navy which have been provided with electric light plants are the *Boston*, *Atlanta*, *Dolphin*, *Trenton*, and *Omaha*. The contractors have lost money on each order, but their desire to adopt the electric light to the use of ships leads them to sacrifice profits in order to get the opportunity to make experiments. The *Chicago* is now near completion. Her machinery has been placed on board, and has been found to work smoothly.

BLACK, STARR & FROST,

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, -	$21.00
Old Reserve Whiskey, - - - -	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey, - - -	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

BLOCKADE RUNNNING IN 1861-5.

THE late Admiral HOBART PASHA left behind him a very valuable autobiographical sketch, which has been republished in this country by Messrs. D. APPLETON AND CO., under the title of "Sketches from My Life." The most interesting chapters for the American reader are those giving an account of HOBART'S experience and adventures as Captain ROBERTS, the blockade-runner who was so much sought after by our cruisers during the blockade of the Southern coast. He made, it appears, six successful round trips between Nassau, N. P., and Wilmington, N. C., in his first vessel, the *D—n*, and one successful round trip in a second vessel, between Wilmington and Bermuda. Starting from Wilmington in a second trip the yellow fever broke out on his vessel and he put into Halifax, where he himself came down with it. By this time blockade running had become less profitable, owing in part to the increased efficiency of our cruisers, and in part to the mistake made by the Confederate authorities in compelling the blockade runners to carry out cotton on Government account. So Captain ROBERTS abandoned the business and reappeared in proper person as a captain in the English Navy. Of his experience he says: "To the American officers and men who manned the cruisers, I can, as a nautical man, truly and honestly give the credit of having most zealously performed their hard and wearisome duty. It was not their fault that I did not visit New York at the Government expense, but the old story that 'blockades to be legal, must be efficient,' is a tale for bygone days. So long as the batteries at the entrance of the port blockaded keep ships at a respectable distance, the blockade will be broken." Speed is the most important factor in closing a port by blockade and when the sea was finally covered with very fast vessels, able to pick up blockade runners with heavy cargoes of cotton at sea in the daytime, blockade running was nearly stopped."

The treatment received by captured blockade runners differed very materially, he tells us. If a *bona fide* American man-of-war of the old school made the capture, they were always treated with kindness by their captors. But "there were among the officers of vessels picked up hurriedly and employed by the Government a very rough lot, who rejoiced in making their prisoners as uncomfortable as possible. They seemed to have only one good quality, and this was that there were among them many good freemasons, and frequently a prisoner found the advantage of having been initiated into the brotherhood. American naval men did not look down on blockade-running as a grievous sin, hard work as it gave them in trying to put a stop to it. They were sometimes a little severe on men who, after having been fairly caught in a chase at sea, wantonly destroyed their weapons, chronometers, etc., rather than let them fall into the hands of the cruisers' officers."

Our officers who failed in the chase after "Captain ROBERTS" will experience additional chagrin when they discover from this volume the ruses by which he avoided capture, and learn that in the event of his luck's going against him he had resolved to take the matter philosophically, and "set it up for the boys" when they went aboard to take possession of his vessel. On one occasion it appears they barely escaped enjoying his hospitality. He had been brought to by an order which "a stentorian voice howled out: 'Heave to in that steamer or I'll sink you!'" The boarding party had put off and the bowmen had just touched the side of his vessel with their boat-hooks when he whispered down the tube into the engine room, "Full speed, ahead!" For some reasons not a shot was fired and he escaped. Perhaps some of our naval officers may explain why, and may favor us with a description of the complimentary reception tendered to the baffled boarders when they returned to their ship.

On another occasion "Captain ROBERTS" just avoided running down a barge which had been planted close to the entrance of Wilmington harbor to signal the movements of blockade runners. Again, he escaped a pursuing cruiser by taking advantage of the Gulf Stream while the other vessel steamed along its outer edge. Once he was subjected to a broadside at fifty yards and the marines treated him to a heavy fire of musketry, but the shot all passed over, except one that went through the funnel, and but one man was wounded slightly by the marines. He made an attempt to get into Savannah, but it was a failure. It was tried once afterwards by a steamer which managed to get well past the fort, but which struck on a sand-bank shortly after doing so and was captured in the morning.

It appears that HOBART PASHA engaged in blockade running partly for the pecuniary profit he found in it, and partly as a relief to the tedium of waiting for a command after he had been promoted post captain. His first venture was on a thousand female corsages which he bought in England and sold in Wilmington for an advance of nearly 1,100 per cent. upon the *cost*. He describes how the blockade runners were prepared for their work by reducing their spars to a light pair of lower masts, without any yards across them, the only break in their outline being a small crow's-nest on the foremast to be used as a lookout place. The hull, which showed about eight feet above water, was painted a dull grey color, to render her as nearly as possible invisible in the night. The boats were lowered square with the gunwales. Coal was taken on board, the "telescope," lowered close down to the deck. In order that no noise might be made, steam was blown off under water. In fact, every ruse was resorted to to enable the vessel to elude the vigilance of the American cruisers. HOBART PASHA tells us that in all about sixty-six vessels left England and New York to run the blockade during the four years' war, of which more than fifty were destroyed by their own crews or captured; but most of them made several runs before they came to grief, and in so doing paid well for their owners.

THE galley proofs of the specifications for the armor plates and gun forgings were being examined and corrected by the Chief of Ordnance on Thursday, and the issuing of the formal circulars is a matter of very short time. The delay of several weeks in issuing the circulars is explained to be due to the difficulty in drawing up the rules and regulations regarding the proposals. It is a new work and there was no established precedent for the guidance either of the Government or bidders, and the Ordnance Bureau was very desirous that the specifica-

tions should contain all the information that might be required by bidders. It is thought that the delay s only apparent, as the time gained by issuing pamphlet circulars would have been lost in the future in supplying the bidders by word of mouth, or by correspondence, with the detailed information properly belonging to the circulars.

ALTHOUGH the second report of the Secretary of Navy is not so extended as the first one that came from his pen, yet it is full of items of interest to the service. His reiteration of the necessity for a reorganization of the department will come with added force after his experience of an additional year in office. His criticism of the new cruisers, built under the previous administration, must be accepted as an assurance that these now about to be contracted for will be a decided improvement upon them. As to that we shall be better able to form an opinion later on. The prospect now is encouraging. Among the recommendations in the annual reports approved by Secretary WHITNEY are the proposed shortening of the course at Annapolis, the admission of a limited number of apprentices to that institution, the need for additional legislation looking to the welfare of the enlisted men, the construction of additional dry docks, the procuring of new batteries for the vessels that are likely to last for some time to come, the fitting out of a squadron of tugs for the purpose of experimenting with the revised tactics, the need for additional appropriations for the time service at the Naval Observatory, and the improvement of the conditions under which medical officers enter the Service. The Naval War College receives well-deserved commendation. In the report of last year, it was stated that at a later date some recommendations concerning the *personnel* would be made; it is to be regretted that advantage has not been taken of the opportunity afforded at this time to bring forward something of this nature. The conditions under which the junior line officers are placed with regard to pay should have brought forth some word of approval of the bill now before the House Committee by which their pay is to be increased. There are other questions which must soon demand attention, and it is to be hoped that now the designs of the Department concerning the *materiel* have been published, some attention may be paid to the needs of the officers whose positions need improvement.

THE Secretary of War makes two recommendations in his annual report which should certainly be received with favor by the Army. The one is that examination be made a condition of promotion. This, of course, especially refers to the commissioned officers of the line and, as Mr. ENDICOTT says, "there can be no reasonable objection to this test on the part of those subjected to it." Indeed, judging from the report of the senior Inspector-General, that he finds the "Officers of the Army . . ambitious to excel," there is every reason to suppose that but very few would fail to pass. The anticipation of such an examination would prove an excellent incentive to constant study, professional and otherwise, and keep the mind, as well as the body, in the best of order, and thus be productive of the best results to the Service before as well as after promotion.

Mr. ENDICOTT's other recommendation is that the disability retired list be expanded so that there may be placed upon it all officers found by duly constituted boards to be incapacitated for active service. It is scarcely necessary to refer to the utility and importance of this measure. The officers who have been before Retiring Boards, found incapacitated for service, and now "on sick leave until further orders," are by no means few, but under the present slow process of retirement it may be years before promotion falls to their juniors. It is little wonder that many of our subalterns become, under this condition of affairs, despondent and hopeless, and look upon the Service more as a living convenience in point of salary, than as an honorable profession. We trust that Congress will not fail to consider these two valuable suggestions, and thus enable the Army to renew its youth and preserve its vitality, not for its own personal benefit but for the benefit of the country at large. We hope prompt attention will also be given to the Secretary's recommendation that five thousand men be added to the Army and the three battalion organization applied to the infantry.

THE last proof of the formal contracts for the construction of the proposed naval vessels was received at the Navy Department from the printing office on Thursday. The final signing of the contracts will be completed as soon as possible, and the contractors will lose no time in commencing operations. It is hoped that the Secretary of the Navy has addressed a letter to the House Naval Committee representing the inadequacy of the appropriation for cruiser No. 1, and recommending that a sufficient sum be added to that already appropriated to enable the Department to have the vessel built upon the plans already designed. The committee favors the increase.

BY a vote of 120 against 12 the House on Wednesday agreed to the motion of Mr. HERBERT to devote Wednesday, December 15th, and from day to day throughout until disposed of, the bill No. 7635, to consolidate certain bureaus of the Navy Department. There is a good deal of quiet work being done by Naval officers in opposition to this bill, and a lively and entertaining debate may therefore be expected on Wednesday next.

WE are glad to note that enlisted men who "lose through neglect, sell or otherwise dispose of" clothing issued for their use as soldiers, are being more frequently reminded, through the medium of courts-martial, that the vicious practice must stop. It needs but a little extra vigilance and a few pointed examples to materially abate if not wholly end the clothing traffic, which has in the past cost the Government so much.

THE statement of the Secretary of War that it is the intention during 1887 "to issue a new edition of the Army Regulations, revised and condensed," will bring joy to the hearts and brains of those who are well nigh spent in the endeavor to keep track of the innumerable changes made since the issue of the edition of 1881.

GENERAL JOHN M. CORSE was, it appears an agent for Mr. Tilden during the dispute growing out of his claim to the office of President. He went to Washington in Mr. Tilden's behalf to sound the Republican managers, and made up his mind that they were determined to see their candidate inaugurated. From this quarter Corse turned his attention to the Army. He asked his old friend, General Sherman, what he would consider his duty in event of a failure to elect a President by March 4. General Sherman promptly replied: "Down to the 4th of March my duty and my pleasure would be to obey the orders of the President of the United States. After that I would have to take things as I found them. As General of the Army it would be my undoubted duty and loyalty to the people to preserve order pending the settlement of a selection of a Chief Magistrate and the raising of the interregnum." Sherman's attitude, and the corresponding attitude of President Grant, was interpreted to indicate a determination on their part to maintain the status *in quo* until the question of the succession was legally determined. As soon as the state of mind of the powers in control was ascertained Mr. Tilden resolved upon a conservative line of action. The influence of the business men and interests was paramount with him. The gratification of his ambition was secondary to the peace and order of his country. The final solution of the question by Congress was acquiesced in.

THE San Francisco *News Letter* says of General John S. Mosby: "In a narrative of his military operations in a local Sunday paper, this veteran of a hundred battles, by what infatuate fatality possessed I know not, relates that on one occasion he did the wrong thing! Of all the commanders in the recent lukewarmness who have recorded in print their military services, General Mosby is the only one who was ever guilty of an error. As he was on the Confederate side, the conclusion that his blunder lost the war is as irresistible as the progress of a full-rigged rhinoceros through a sea of yellow dogs."

GENERAL BRAGG, Chairman of the House Military Committee, is credited with an intention to so control the future disbursement of the appropriations for the Army, that Army commanders shall have little, if anything, to say in the matter, the bureaus provided by law to take charge of the disbursements being given full control. We supposed this was the case, and that the War Department regulated all allotments and controlled all expenditures, but we are willing to be instructed by General Bragg.

THE London *Engineer*, in an article on the United States Navy, says: "Secretary Whitney seems determined to give the United States something like a navy. Several advertisements have recently appeared in the New York papers of much interest. One is to the effect that the United States Government will pay $15,000 for the best designs for ships of war. A lecturer at Greenock the other day is reported to have characterized this advertisement as an attempt to bribe officials in the employ of the British Government. This charge is considered in America to be captious. The naval officials of the United States fail to see why the Government may not supply its needs in any open market; or why England, which builds ships of war for various countries, should draw the line at furnishing plans to the United States. Commodore Walker, Admiral Luce, and Constructor Wilson have published their views on the subject, and they all regard Mr. Whitney's act as beyond fair criticism. 'New York,' says the special correspondent of the *Standard*, 'has had some experience in bribery, but in no case has bribery been attempted through the medium of an advertisement in the columns of a newspaper.'" Of the advertisement intended to stimulate the steel-makers of the United States to produce armor and guns, the *Engineer* says: "There is at present no plant in the United States competent to produce the thicker plates named, and it is certain that unless the Government is prepared to pay an enormous price, it would not pay to put up plant to roll the comparatively few plates needed. If such works are established at all, which we doubt, then the United States must compete with our own makers for those foreign orders which alone can keep a large plant going." The N. Y. *Tribune* estimates that within the next five years the Government will require some 14,000 tons of steel armor plates and gun forgings, worth in the aggregate nearly $8,000,000, to complete the armor and armament of the double-turreted monitors, the two 6,000-ton cruisers, and the new ships.

LIEUTENANT-GENERAL SHERIDAN this week issued a notice that the Society of the Army of the Cumberland will hold its eighteenth reunion in Washington on the 11th and 12th of May, 1887, on which occasion the statue in memory of James A. Garfield will be unveiled. As president of the society General Sheridan has appointed the following local committee to make all needful arrangements for the reunion: General Albert Ordway, chairman; General N. L. Anderson, Colonel John Hay and General R. D. Mussey, secretary.

THE Sundry Civil bill, reported to the House on Thursday, contains an appropriation of $246,500 for armories and arsenals; artificial limbs, $132,000; Artillery School at Fort Monroe, $500; support of volunteer soldiers' homes, $16,505.56; expenses, military convicts, $10,000; enlarging military post, $200,000 support of military prison, $88,838.12; support of Revenue Cutter Service, including protection of the Alaska Sea Islands, $915,000; expenses, Signal Service, $787,143.85.

VANDALS are defacing the monument recently erected over Jefferson's grave at Monticello, and Col. Wilson, U. S. A., who erected it, says it can only be preserved from destruction by stationing a military guard about it.

OFFICERS desiring copies of the recently issued "Appendix 3, The Observatory Temperature Room and Competitive Trials of Chronometers in 1881 and 1886," can obtain them on application to the Superintendent of the Naval Observatory.

THE name of the post known as Cantonement on Uncompahgre has been changed to Fort Crawford in honor of the late Captain Emmet Crawford.

THE list of Army and Navy appointments, promotions and transfers made since the adjournment of Congress in August last was sent from the respective departments to the White House early in the week, but has not yet been transmitted to the Senate.

THE Secretary of the Navy went to New York Wednesday night, to be absent the remainder of the week. Commodore Harmony was designated Acting Secretary during his absence.

SURGEON-GENERAL JOHN MOORE has arrived in Washington and formally assumed charge of the Medical Department. He had a long interview with the President on Wednesday.

No one as yet has been selected to fill the vacancy on the disability retired list, created on the 2nd inst by the death of General Wallen, nor has the Secretary of War given the matter attention. The list of nearly forty incapacitated officers is now before him. The policy of late has been to select those at the top of a grade whose promotion has been debarred by reason of incapacity, but as this class has been exhausted it is presumed that the Secretary will go back to the former rule of taking the one whose retirement would give the greatest number of promotions. It is expected therefore that one of the following nine captains of the line will be selected to fill the vacancy referred to: Capt. Wm. R. Parnell, 1st Cav.; Capt. C. M. Callahan, 4th Cav.; Capt. John W. Martin, 4th Cav.; Capt. Charles G. Gordon, 6th Cav.; Capt. Gustavus Valois, 9th Cav.; Capt. John Hamilton, 1st Inf.; Capt. Wm. H. Vinal, 16th Inf.; Capt. E. J. Stivers, 25th Inf.; Capt. John S. Wharton, 19th Inf.

COLONELS L. P. BRADLEY and G. L. Febiger, U. S. Army, whose military careers and service we outlined last week, were duly retired for age December 8. The retirement of Colonel Bradley promotes Lieutenant-Colonel R. S. LaMotte, 12th, to Colonel, 13th Infantry; Major W. F. Drum, 14th, to Lieutenant-Colonel, 12th Infantry; Capt. C. A. Wikoff, 11th, to Major, 14th Infantry; 1st Lieutenant A. L. Myer, 11th, to Captain, and 2d Lieutenant J. A. Emery to 1st Lieutenant. The retirement of Colonel Febiger promotes Rodney Smith to Colonel and Assistant Paymaster-General, and W. R. Gibson to Lieutenant-Colonel and Deputy Paymaster-General. The next retirement for age is Post Chaplain Geo. D. Crocker, U. S. A., December 25.

THE New York *Times* reports that "the bureau officers of the Navy Department do not all favor the discharge of civilian ship keepers and watchmen at the Navy-yards. Some of them contend that the marines are the most untrustworthy people connected with the Government service. More than half the naval courts-martial ordered are for the trial of marines for shirking guard duty. Besides, the discharged men have held their places for many years, and almost without exception are veteran seamen." What have our "ever faithful" marines to say to this charge?

THE Secretary of the Army Mutual Aid Association requests members not to transmit their dues for 1887 until they receive the assessment notices for that year, which will be sent in due time. If, however, members prefer to anticipate the usual levy, they will save themselves annoyance (and the Secretary, trouble) by remitting on the basis of 14 assessments, instead of 13, as for the last three years, of the respective classes which they will enter on the 1st of January, proximo. [See Sec. 2, Article II., Constitution.]

CONGRESSMAN HERBER, of Alabama, thinks the act of Congress passed in 1867 debarring ex-Confederates from holding positions in the Army and Navy ought to be repealed. "There are no more loyal people in the Union," said he, "than these ex-Confederates. If we became embroiled in a foreign war the Government would be glad enough to abrogate the law in order to avail itself of our services."

THE Second Annual Invitation Ball of D. A. Russell, Command No. 1, U. S. Regular Army and Navy Veterans, took place on Tuesday evening at Harmonic Rooms, Essex street, New York city. The occasion was an exceedingly enjoyable one, and the arrangements throughout such as to reflect much credit upon the committee presided over by Captain Werbstein.

LATE ARMY ORDERS.

1st Lieut. George L. Scott, is transferred from Troop H to Troop D, 6th Cav., and 1st Lieut. Charles B. Gatewood from Troop D to Troop H. (S. O., H. Q. A., Dec. 10.)

A G. C. M. will meet at Fort Hamilton, N. Y. H., Dec. 13. Detail: Maj. Abram C. Wildrick, 5th Art.; Capt. George W. Crabb, 5th Art.; Capt. Rudolph G. Ebert, Asst. Surg.; Capt. Selden A. Day, 5th Art.; 1st Lieuts. Henry J. Reilly and Granger Adams, 5th Art., and 2d Lieut. John W. Ruckman, 5th Art. 1st Lieut. William W. Galbraith, 5th Art., J. A. (S. O. 203, Div. Atl., Dec. 10.)

THE MESS.

THE Lincoln, (Neb.) *Democrat* says: "The Omaha *Republican* calls the editor here of 'Major.' Now, by the great horn spoon, we want this thing stopped right here and now. We want it distinctly understood that while we 'fit into the war,' and on the wrong side at that, we fit, fled and survived as a private soldier. We have since done nothing to deserve the odium of a fictitious title, and an attempt to fasten one upon us will simply convert us into a bad man with a gun and a ferocious determination to cultivate a more extensive cemetery than Wild Bill, Yuba Dam or any other holy terror that ever reflected credit upon the budding civilization of the wild and woolly West. We were not a major during the war. We were a minor."

THE FORTY-NINTH CONGRESS.

THE second session of the Forty-ninth Congress opens up very auspiciously for the Army. Two of the most important military bills on the calendar are the first measures to pass the House. These are the bills to relieve Army officers (graduates of West Point) from the ruling of Comptroller Maynard, affecting their pay between date of graduation and assignment to regiments, and for the establishment of a cavalry and light artillery school at Fort Riley and the completion of Forts D. A. Russell and Robinson. These bills were pushed through in a surprisingly short space of time, and in a manner thoroughly indicative of a friendly feeling on the part of the House toward the Army. Gen. Bragg is, however, entitled to much credit for springing the bills on the House at an opportune time and in engineering them through successfully.

The bill for the relief of the graduates passed the Senate last session. When it reached the House the Military Committee struck out all after the enacting clause and adopted the following instead, in which form it passed the House on Tuesday:

S. 1424. That every cadet who has heretofore graduated or may hereafter graduate at the West Point Military Academy, and who has been or may hereafter be commissioned a 2d lieutenant in the Army of the United States, under the laws appointing such graduates to the Army, shall be allowed full pay as 2d lieutenant from the date of his graduation to the date of his acceptance of and qualification under his commission, and during his graduation leave, in accordance with the uniform practice which has prevailed since the establishment of the Military Academy.

The following is the text of the bill for the establishment of a school of instruction of cavalry and light artillery at Fort Riley and for other purposes, as it passed the House:

H. R. 7192. That the Secretary of war be, and he is hereby, authorized and directed to establish upon the military reservation at Fort Riley a permanent school of instruction for drill and practice for the cavalry and light artillery service of the Army of the United States, and which shall be the depot to which all recruits for such service shall be sent; and for the purpose of construction of such quarters, barracks, and stables as may be required to carry into effect the purposes of this act the sum of $200,000, or so much thereof as may be necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated.

SEC. 2. That the Secretary of War is hereby authorized and directed to complete the quarters and barracks at Fort D. A. Russell, in the Territory of Wyoming, and also to enlarge and complete the quarters and barracks at Fort Robinson, in the State of Nebraska, to a capacity for a garrison of ten companies; and there is hereby appropriated for the purposes mentioned in this section, out of any money in the Treasury not otherwise appropriated, the sum of $175,000, or so much thereof as may be necessary.

Bills and petitions were presented in both Houses of Congress on Tuesday, authorizing the President to place the name of Schuyler Hamilton, Major General of Volunteers, on the retired list of the Army.

House bill No. 1,171 amending the act providing "for the muster and pay of certain officers and enlisted men of the volunteer forces," which was considered during the closing days of the last session but not finally acted upon, was passed by the House on Wednesday without opposition.

The Senate bill passed by the House on Tuesday for the relief of West Point graduates, was returned to the Senate on Thursday, and immediately passed as amended by the House. The bill only requires the President's signature to become a law. The text of the bill as finally passed, will be found below.

Neither of the Service Committees of the Senate held a meeting this week. A meeting of the Military Committee has been called for Tuesday next to consider Mr. Manderson's new bill authorizing the examination of officers of the line before promotion, and the bills which passed the House this week for the establishment of a cavalry school at Fort Riley, etc., and for the relief of certain officers and men of the volunteer forces.

The House conferees on the Fortification bill on Thursday last reported a continued disagreement on that measure. The same committee, consisting of Messrs. Forney, Randall, and Butterworth, was again appointed. A meeting will be held next week, when it will probably be determined whether the bill now pending can become a law, or whether a new bill will have to be reported from the House Appropriation Committee.

ACTION OF COMMITTEES.

The only one of the Service Committees to meet this week was the House Committee on Naval Affairs. This committee held a session on Thursday to consider a letter from the House Appropriation Committee, in which the question was asked whether or not the Naval Committee should not have jurisdiction over the appropriations for the maintenance of naval yards and stations and for the new naval observatory. These appropriations have heretofore been contained in the Sundry Civil Appropriation bill. Last year the Navy Appropriation bill was transferred from the Appropriation Committee to the Naval Committee, and the Appropriation Committee is now of the impression that the rules under which this transfer was made contemplated the control by the Naval Committee of the appropriations for the entire naval establishment. After looking into the matter the Naval Committee decided to refer the question to the House for its decision. The committee were inclined to agree with the views printed in the letter from the Committee on Appropriations, but were not prepared to accept its conclusions without direction of the House.

As soon as all the reports of the bureau officers of the Navy Department have been received by the committee they will proceed with the consideration of the naval appropriation bill. The purpose of the committee is to get this measure before the House before acting upon any of the other pending measures. The appropriation bill will be considered from day to day until in shape to be reported to the House.

The Army appropriation bill is being put into shape by Gen. Bragg. He hopes to have it far enough advanced to call a meeting of his committee for its consideration on Tuesday next. He is understood to be contemplating a number of reforms, both in the manner and amount of the appropriation, but he does not indicate what any of his plans are.

The House Appropriation Committee has devoted most of the week to the consideration of the Sundry Civil Appropriation bill which is now in shape to be reported to the House. It contains about the same appropriations as last year for barracks and quarters, arsenals and armories.

BILLS INTRODUCED.

S. 2902, Gorman. That the President of the United States be, and he is hereby, authorized to promote the said Wm. T. Truxtun to the grade of rear-admiral of the Navy of the United States, as of the 19th of February, A. D., 1886; and that the said Wm. T. Truxtun shall be entitled to the pay and allowances of a rear-admiral of the Navy from said 19th of February, A. D., 1886.

S. 2910, Ingalls. That from and after the passage of this act all persons on the pension roll and all persons hereafter granted a pension who, while in the military or naval service of the United States and in line of duty, shall have lost one hand or foot, or been totally or permanently disabled in the same, shall receive a pension of $35 per month; that all persons now on the pension roll and all persons hereafter granted a pension who in like manner shall have lost an arm within 5 inches of the elbow joint or above the elbow joint, or a leg within 6 inches of the knee joint or above the knee joint, or been totally disabled in the same, shall receive a pension of $40 per month; and that all persons now on the pension roll and all persons hereafter granted a pension who in like manner shall have lost an arm within six inches of the shoulder joint or a leg within eight inches of the hip joint shall receive a pension at the rate of $45 per month: *Provided*, That nothing contained in this act shall be construed to repeal Sec. 4699 of the Revised Statutes of the U. S., or to change the rate of $18 per month therein mentioned to be proportionately divided for any degree of disability established for which Sec. 4695 makes no provision.

S. 2912, Ingalls. That the rate of pension for the total loss of an eye or the sight thereof shall hereafter be $30 per month for such persons as are entitled to a lesser pension under existing laws for said disability: *Provided*, That nothing herein contained shall deprive a pensioner of the right to a higher rating of pension, by reason of his rank, for total disability, as is now provided by existing laws: *Provided further*, That the increased rates herein provided for shall commence only from the passage of this act: *Provided further*, That the Commissioner of Pensions is hereby authorized to proportionately divide the rate of $30 for partial loss of sight of either or both eyes upon the basis of the rate for loss of an eye herein provided.

H. Res. 219, Randall. Authorizing promotion of Commodore W. T. Truxtun, U. S. Navy, to rank of rear admiral on the retired list, and authorizing an allowance of pay. Same as S. 2902.

H. R. 10018, Herbert. That no law or regulation shall qualify persons not disqualified by Article 14 of the Constitution of the United States from holding office in the Army or Navy of the United States.

H. R. 10038, Peters. To increase the rate of pension for the loss of an eye or the sight thereof. Same as S. 2912.

H. R. 10065, Burrows. To place on the pension roll the name of Catharine Babcock, widow of Maj. Charles P. Babcock, and that she be granted a pension of $50 per month.

S. 2922, Manderson. That Section 1204 of the Revised Statutes of the United States of America be amended so as to read as follows:

"SEC. 1204. Promotions in the line shall be made through the whole Army, in the several lines of artillery, cavalry and infantry, respectively. No officer of artillery, cavalry or infantry below the rank of field officer shall be promoted to a higher grade until he shall have been examined and approved by a board of not less than three officers of the same arm of the Service seniors to him in rank. If an officer fail on such examination, he shall be suspended from promotion for one year, when he shall be re-examined before a like board. In case of failure on such re-examination he shall be dismissed from the Service: *Provided*, That all officers of the Army who have served as officers in the volunteer forces or as enlisted men in the armies of the United States, regular or volunteer, during the War of the Rebellion, shall, in case of failure on such re-examination, be retired from active service; and no act now in force shall be so construed as to limit or restrict the retirement of officers as herein provided for. Promotions in the staff of the Army shall be made in the several departments and corps respectively."

S. 2923, Plumb. To provide for the sale of 134 acres of the Fort Leavenworth Military Reservation to the L. N. and S. R. Rd. The second section is as follows:

SEC. 2. That the Secretary of War shall appoint three commissioned officers of the United States Army, who shall cause an accurate survey and map to be made of the said lands, and shall appraise their value, a report of which appraisement, accompanied by a map and description of said lands, shall be made by said commissioners to the Secretary of War; and if said survey and appraisement shall be approved by the Secretary of War, then, upon the payment into the Treasury of the amount of such appraisement within eighteen months from the date of the report of said commissioners, a patent shall issue to the said Leavenworth, Northern and Southern Railway Company, or its assigns, for the lands described in the report of the said commissioners: *Provided*, That the proceeds arising from the sale of said lands shall be applied in making permanent improvements on the military reservation at Fort Leavenworth, under the direction of the Secretary of War.

S. 2924, Sewell. That the President of the United States be, and hereby is, authorized and directed to reconvene the Retiring Board of the U. S. Army which passed upon the case of Lieut. Col. and Bvt. Maj. Gen. Alexander S. Webb, 1870; and in case of his receiving a report from the said board that in their opinion the said board had, from want of evidence, reported erroneously upon the application of said Bvt. Maj. Gen. Alexander S. Webb, the President is hereby authorized and directed to place the name of Alexander S. Webb on the retired list of the U. S. Army, with the rank of brigadier general, to date from ———.

S. 2928, Hoar. That the sum of ——— dollars be, and the same hereby is, appropriated, to be paid out of any money in the Treasury not otherwise appropriated, for the erection of a monument to the negro soldiers and sailors who fell while fighting for the preservation of the nation's life in the War of the Rebellion, in the Government's park near Howard University, in the District of Columbia.

H. R. 1639, to reimburse the survivors of the *Jeannette* and to fix the data of those who perished in that Arctic expedition should have been included in our mention of the bills of interest to the Navy which should become laws at this session of Congress. It passed the House June 16 and is on the Senate calendar.

GENERAL MERRITT'S SUCCESSOR.

WASHINGTON, D. C., Dec, 8, 1886.

To the Editor of the Army and Navy Journal:

PRETTY good authority has it that Capt. Spurgin has been selected by the Secretary of War to succeed Col. Merritt as Superintendent of the Military Academy next spring. The Superintendency carries local rank of colonel. AVANCE-COURIER.

As to this statement, we may say that information from authoritative sources enables us to state that it is the President's present intention to appoint Colonel Merritt Brigadier-General, to succeed Wilcox in April next. Should anything transpire to alter his purpose, it can be safely stated that Colonel Merritt will continue in charge of the Military Academy for some time to come. When he is relieved it will be by an officer of his own rank, possibly a Colonel of Engineers.

REPORT OF THE SECRETARY OF WAR.

THE Secretary of War in his annual report presents the expenditures, appropriations and estimates for the fiscal year 1885-6, and next summarizes the reports from the various divisions and departments. The death of Gen. Hancock is alluded to. Attention is called to the necessity for repairs, both of barracks and quarters in the Division of the Atlantic. "It is very desirable to reduce the number of small posts, and the appropriations made at the last session for the enlargement of Forts Riley, Russell and Robinson, and the post at San Antonio, will render it possible in the interest of economy and good discipline, to make still further reduction in their number."

Under the appropriations of the last session the enlargement of Fort Niagara and the reconstruction of Fort Porter have been begun; and the work upon the new post at Atlanta, Ga., has been continued. These improvements will contribute much to the comfort of the troops of this division; and by the abandonment of small, unimportant and inconvenient posts now occupied for shelter merely, and by concentrating the troops in larger numbers at these new and other important places, it is hoped that good results will be obtained, not only in their discipline, but in reduced cost of maintaining them. The quarters for officers and men at the Dry Tortugas, built to accommodate a large garrison, are in an uninhabitable condition, and at many other places buildings are decaying and going to ruin for want of the necessary appropriations to repair them. It is safe to say that in the event of a sudden call to furnish shelter to any considerable number of troops in this division they could not be provided for, mainly because of the want of repair of existing buildings.

Congress is asked to furnish a remedy for the disturbance of the Indian Territory by the unlawful incursion of white settlers. The Secretary reviews the history of the Indian outbreak in the Department of Arizona, in connection with which he says:

In the execution of the Lieutenant-General's instructions to pursue, capture, or destroy the hostiles under Geronimo, a sad and unexpected encounter with a body of Mexican troops, said to have been pursuing the same object, led to the death of Capt. Crawford. He was a soldier of great endurance, energy, and courage, admirably fitted for the work he had undertaken. His untimely end in an obscure skirmish, and in the very act of calling a parley, is sadly to be deplored as a loss to the Army and the country. . . . Mr. Horn went forward for a parley. While it was in progress, suddenly, and without warning, the Mexicans opened fire, wounding Capt. Crawford mortally and the interpreter in the arm. The Mexicans continued to fire for an hour and a half, and only consented to reply to our officers after it was evident that they could not capture our position. Capt. Crawford and his officers all wore uniforms, but without insignia of rank. The general opinion of the white men with Crawford's command was that they must have known that Crawford was a white man and soldier of the United States. The Mexicans were irregular and not national troops, and asserted that they were following the trail of the hostiles, and seeing the Indian scouts thought they were the Indians they were pursuing.

The matter was referred at the request of this Department to the Mexican Government by the Department of State, and many communications on the subject have passed between the two Governments. The Mexicans deny all the statements made by our officers, say that they were the attacked and not the attacking party, and that they had no knowledge who Crawford was or of his command. They also assert that they were in sight of Crawford's camp, and that no fight with the hostiles took place as stated by our officers. They declare that all the depredations in Mexico were committed by Crawford's scouts and not by the hostiles, and that the animals lent them by Lieut. Maus after Crawford was shot, on which to carry away their wounded, were animals stolen from them by Crawford's command.

It may be stated here that the Mexican Government demands indemnity for depredations alleged to have been committed by Crawford's command—the stealing and killing of cattle, marauding upon inoffensive inhabitants, breaking down and burning fences, etc. The only claim thus far made on the part of the United States is based upon the proceedings of a board of survey, which found that on the day following the engagement in which Crawford was killed Lieut. Maus was "compelled by these irregular Mexican troops to turn over to them a number of mules and their equipments under circumstances which rendered it quite impracticable for him to have done otherwise." The report of Lieut. Maus is published with the reports of Gen. Crook.

The proceedings of this board, approved by the Secretary of War, were furnished to the State Department on Oct. 25 for such action as the Secretary of State might deem proper. The negotiations are now pending between the Department of State and the Mexican Government, and the matter is therefore no longer in the hands of the War Department. The subject of the correspondence with the Mexican Government has been in reference to the killing of Capt. Crawford, and the return of the horses and mules loaned to the Mexican troops or payment of their value. No definite result has yet been announced.

The whole region over which these Apaches have for years carried on their murderous raids, and over which we have the right by convention with Mexico to pursue them, has been demoralized to such an extent, and the arm of authority is so powerless, that lawlessness is rather the rule than the exception. That the conduct of the Mexican irregulars was utterly unjustifiable in bringing on this engagement seems to admit of no question. It is difficult to ascertain precisely what motive prompted them; and how far the Mexican Government is responsible for their misconduct, and its sad results are questions upon which we possess no reliable evidence upon which to decide.

The facts concerning the Lieutenant-General's loss of confidence in the Apache scouts and the relief of General Crook, with which our readers are already familiar, are presented here. Of the surrender of Geronimo to Lawton's command, which closed the campaign of General Miles, it is said:

The fact of the surrender was communicated to the President and the authorities in Washington on September 7, and from the information received on that date the surrender was supposed to be unconditional. To this despatch the President replied that all the hostiles should be very safely kept as prisoners until they could be tried for their crimes or otherwise disposed of. The first intimation that the surrender was unconditional reached the Department on September 9 by telegraphic advices from General Miles, through his division commander, that the Indians surrendered with the understanding that they would be sent out of the country, and in pursuance of this plan General Miles had ordered them to be taken to Fort Marion. As this order was in direct opposition to the President's orders, General Stanley was directed from the War Department to stop these Indians at San Antonio, Tex., and hold them securely until further orders.

As the terms forbade the transfer to the civilian authorities, who "have been guilty of the worst crimes known to the law, committed under circumstances of great atrocity," they were, to ensure the public safety, sent to Florida. The law did not admit of the transfer to the Indian Territory of the 500 Apaches on the reservation, as requested by General Miles, and the Executive would not be justified in asking authority to place this lawless and dangerous tribe among the peaceful Indians. "It is hoped that the Apache wars and raids that have devastated Arizona and New Mexico, and the adjacent States of Mexico, for so many years, are ended by the permanent removal of the fiercest and most dangerous of the Apache tribes."

RETIREMENTS AND EXAMINATIONS FOR PROMOTION.

The Secretary concurs in Gen. Sheridan's recommendations that the retired list be enlarged, or to make room for all disabled officers. He says:

I also concur in the opinion expressed by the Lieutenant General that if the Army were increased 5,000 men, and two companies were added to each of the infantry regiments, the Army would be enabled to creditably perform such service as the country might demand.

The reports of the commanding officers of the Artillery School and of the Infantry and Cavalry School are very satisfactory, and show that a high standard of military education has been established, which promises to lead to the best results. The instruction of the Army in the use of the rifle or carbine has been thoroughly prosecuted during the year; the returns from each department and the results of the regular competitions exhibit a decided advance in rifle firing. As the importance of company practice in skirmish firing is better recognized, it is believed that in the near future many of the soldiers will become expert skirmishers, and the effective fire of the mass of the Army will be greatly improved.

The discipline of the Army is reported to be good, and the efficiency of the various arms of the Service well maintained. It has but little opportunity for active service, and what it has is not of the most agreeable or inspiring kind. The control and pursuit of Indians, difficult and hazardous as it often is, and developing as it does the individual character and gallantry of officers and men, is yet war on a very limited scale, and bears but slight resemblance to the great contests which follow the collision between nations. In any war with a foreign power our regular forces would be the nucleus of the great muster of volunteers, which experience has taught us must be the natural resource in times of danger, and the discipline, guidance, and command of which must fall mainly upon the officers of the Regular Army.

The efficiency, therefore, of our small force should be at the highest point, and the officers should be instructed, competent, and accomplished in all knowledge that pertains to the art of war and the duties of the soldier. Without great additional expense it should be and can be made a model army, for it has the material in its officers and men to take this position. It should be borne in mind in this connection that it has been and still is the policy of the Government to rear and train at West Point young men from all portions of the Republic to be soldiers. No expense is spared to give them the best military education possible. Only those who succeed in passing the tests of rigid examinations are selected for the public service. So severe is the ordeal through which they pass that but one in three succeeds in graduating. Nor is expense spared in providing for these young men thus educated when they take their places in the Army, for the pay of our officers is higher through all its grades than that of any other army save the Anglo-Indian Army. And yet, after thus preparing and providing for them, there are no special requirements, common to all, demanding their progress and growth in the profession of arms; and no inquiry is made, or examination had, as the years go by, and they advance grade after grade, whether as individuals they are worthy of promotion, and are equal to the higher rank and larger responsibilities they are forced to assume. When a 2d lieutenant enters the Service, whether from civil life, the ranks of the Army, or from the Military Academy at West Point, the rigid examination above alluded to is made the necessary condition for the commission. But this once passed, under present regulations, the officer can, and but too frequently does, close his books and his studies; and if he does not overwork or expose himself, he knows that, with good health and life, he is certain, under the operation of compulsory retirement, to reach the highest grade open to senority in his arm of Service.

I assume it to be true in the Army, as elsewhere, that no man should occupy a position for which he is not fitted; and it is equally true that there should be some way in the Army, as elsewhere, through which such fitness should be ascertained. It may also be assumed that no men are so well fitted to determine the capacity or incapacity of a candidate for a place as those who have already filled the place and are familiar with its requirements and its duties. It would seem, therefore that no objection can reasonably be urged against an examination as a condition of promotion, the same to be conducted by officers of higher grade. This should not be a competitive examination, but simply such an examination as would demonstrate the fitness of a candidate for promotion properly to perform the duties of the grade to which he aspires. It should be a professional examination, having reference to the mental, moral, and physical fitness of the candidate. Its object is plain—the advancement and elevation of the Service. Surely there can be no reasonable objection to this test on the part of those who will be subjected to it.

Examination as a means of ascertaining fitness for promotion is no longer an experiment in the Army. It has been in operation in the Medical Corps since 1834, when an act was passed requiring examination to precede admission to the corps as 1st lieutenant, and another examination must be passed before promotion to the rank of major. 4 Stat., 714. In 1863, examination was required as a necessary preliminary to promotion up to the grade of field officer in both the Engineer and Ordnance Corps. This still continues in force in the Engineer Corps. 12 Stat., 743. In 1874 an act was passed with regard to the Ordnance Corps, providing that no appointment or promotion therein should be made until the officer so appointed or promoted should have passed a satisfactory examination before a board of ordnance officers senior to himself. 18 Stat., 245. In all these corps the result has been so satisfactory that its propriety and necessity are no longer questioned, and no one would think of returning to the earlier system. While the nature of the examination or the line of the Army and the staff would differ materially, there would seem to be every reason to believe that it would be equally for the advantage of each. It should, therefore, be extended to the line of the Army, and no distinction made between different arms of the same Service; thereby implying that an examination was needed for one class not demanded for the other. The necessity for such examination has already been demonstrated in two of the staff corps by the failure of officers to pass their examinations, and their consequent suspension from promotion; while the rule of promotion by seniority, unqualified by any examination as to fitness, frequently allows the promotion, in the line of the Army, of men incompetent and unfit for service.

Soldiers are developed and matured rapidly on the battlefield, but in time of peace it is only by study and application, by practical experiment, by exercise in the use of weapons, and by keeping fully abreast of the world's knowledge, that the soldier can be made ready for his real work, when it comes. If he gets his promotion and his pay, and his rank and authority through lapse of time, and a perfunctory routine performance of his daily duty without offence, why should he labor and strive for a higher excellence? If he is of better and truer mettle than to be content and indifferent, and does strive and labor and learn, he gets no more than he who is idle and waits. It is the presumption of fitness and superiority, because of seniority, that makes seniority a ground of promotion; but, like all presumptions, it may be rebutted, and, if the man is shown to be unfit, the reason utterly fails.

In the Navy, examination for promotion to a higher grade in the service has been the law since 1864. This examination is intended to ascertain the officer's "mental, moral, and professional fitness to perform all his duties at sea;" and it must also appear that a board of survey has pronounced him "physically qualified to perform all" those duties. R. S., sec. 1493—1510. All agree that these examinations have been of great benefit to our Naval Service, and cannot be abandoned.

In the English army, examinations are required for promotion up to the grade of field officer. In the Austrian, an examination is required on entering the service, and another, which is very exacting, for the grade of field officer. In the German army, examinations are required.

Such investigation as we have been able to make in this department fails to disclose any service except our own where, in the line of the Army, seniority alone is the rule of promotion.

I would therefore suggest for the consideration of Congress that a general law be enacted, with provisions respecting examination similar to those which govern promotion in the Navy, with such changes and limitations, in regard to the number of examinations, and to what grades of rank and to what arms of the service they shall be extended, as may be considered necessary in applying the law to the Army.

OTHER RECOMMENDATIONS BY THE SECRETARY.

The reports of the various department chiefs are reviewed by the Secretary and the following recommendations coming from them are concurred in:

1. That a tailor and cook be enlisted for each company, etc., and that they and the post hospital cooks and nurses have extra duty pay, and that the clothing of enlisted men be altered without charge.

2. That the power to summarily punish minor offences be vested in the commanding officers; that the Articles of War be revised; that power to punish civilian witnesses for contempt be given to Courts-martial; that the extent of punishment for specific military offences be limited, and that a statute be enacted applying the common-law rule to deserters, authorizing their arrest, as in cases of felony, by private citizens or police officers, for the purpose of surrendering them to the proper authorities for trial. It is intended during the coming year to issue a new edition of the Army Regulations, revised and condensed, in a more compact form, and omitting many provisions which do not form any proper part of the regulations of the Army.

3. That the entire adjudication of claims for lost property be lodged with the accounting officers in accordance with Sec. 236, Rev. Stat.

4. That a board of medical officers prepare a plan for the organization of a hospital corps, of trained cooks, nurses, attendants, and litter and stretcher bearers.

5. That the Signal Service telegraph lines be extended along the entire Atlantic coast.

6. That the rolls and record books of the War Department be printed for the official and exclusive use of the Department, and that meanwhile that the Secretary have authority to employ the present clerical force over hours with extra pay.

7. That the militia be armed and equipped like the Regular Army, and the appropriation for this be increased as provided in the bill (S. 222) which has passed the Senate and is pending in the House. That the officers detailed as professors of tactics and military science be recognized members of the faculties of the colleges to which they are assigned. The suggestions of the Adjutant-General as to drills, uniform, the selection of officers, and the location and duration of encampments, are commended to the careful consideration of State officials.

8. That Sec. 3709, Rev. Stat., be amended to permit purchases in the open market to the amount of $500.

9. That a larger sum ($30,000) be appropriated for Army contingencies.

The Secretary says:

Another year's experience in administering the Department has confirmed the views expressed in my annual report for 1885 that provision should be made for an Assistant Secretary of War. The constant increase in the business of the Department renders it necessary that such an officer should be appointed. It is believed that salaries more commensurate with the arduous and responsible duties performed should be awarded to the principal officers in the office of the Secretary of War, and the estimates submitted are commended to the favorable consideration of Congress.

FORTIFICATIONS AND GUNS.

On the vital subject of providing for the national defence Mr. Endicott says:

During the past year work in connection with fortifications has been restricted to that necessary for their preservation and repair. This whole subject has been elaborately and carefully treated in the report of the Board on Fortifications or other Defences, submitted at the last session, to which I again invite the special attention of Congress. The utterly defenceless condition of our seacoast and lake frontier is now well understood by every civilized nation in the world, and immediate action should be taken to prevent the disastrous and humiliating results that might follow a declaration of war with the most insignificant of foreign powers possessing guns and ships of modern construction.

What is needed for the defences of our seacoast may be briefly stated. The principal cities named in the report of the Board on Fortifications should be fortified, and work on those most important should be begun at once, viz.: New York, San Francisco, Boston, and Washington. The defences required must be erected and prepared to resist attack from the water. For the great ports of Europe such defences must also be arranged to resist the attack of armies by land. But no considerable army will, in all human probability, cross the sea and attempt the invasion of our territory at these populous points. War vessels would be sufficient for such attacks; and, besides, armies can be rapidly raised and armed by us for defence against troops. We have, therefore, a single problem to solve in defending our cities: how best to resist and silence the armored ships and the steel guns and mortars of modern construction. It can only be accomplished by guns of equal force to those which any enemy can bring against us, and by torpedoes or submarine mines laid in the navigable channels, both so guarded and protected that they can do efficient service when required. We have no gun now which can stop the progress of or do any material injury to a well-armored ship. The manufacture of a gun is a work of time, and of a long time, and cannot be extemporized when wanted. Torpedoes may be more quickly created, but still time and money are needed for their construction. It has been said by a well-informed writer on the subject that it is a matter of doubt if we have on hand enough cables and cases to control with torpedoes the channels past Sandy Hook alone.

The work has been thoroughly considered and laid out, and the Engineer and Ordnance Corps of the Army are ready to begin, and only wait for the appropriations from Congress.

While there have been some differences of opinion in regard to the best methods of preparing armor-plate for fortifications, requiring still further study and experiment, there is no reason why this should delay the beginning of the important work of fortifying our great harbors. The preparation of sites and masonry foundations for batteries, casemates, and turrets, and also the construction of submarine mines, and of earthen batteries for rifled mortars, are works equally necessary as the work of procuring the best armor, and can be constructed before the armor-plate is required.

Owing to the failure of appropriations for the present fiscal year, either for fortifications or torpedoes, experiments on torpedoes have been suspended, which had gradually developed a system of fixed mines, which, if appropriations are renewed, promises to produce the best results. In the present condition of the sea-coast defences, a detailed description of which is contained in the report of the Chief of Engineers, our main reliance in case of war would be on fixed mines. The number on hand is insignificant, and the preparations for operating them have yet to be made.

I would also invite attention to the necessity for keeping in the Service at all times a sufficient force of engineer soldiers, well instructed in their duties as a torpedo corps, and

able to place torpedoes in position before an enemy's fleet could arrive in front of one of our important harbors. The practical instruction of our engineer troops in the details of this special service has to a great extent, through want of appropriations, been suspended and their efficiency thereby much impaired.

I also desire to call attention to the needs of the Engineer School of Application at Willet's Point. This establishment, where the torpedo experiments are carried on, is doing excellent work in preparing lieutenants of engineers and of artillery as experts in torpedo warfare. It is of the first importance that appropriations should be made as requested for the school, for water sewage, additional quarters for officers, and the other items mentioned in the estimates already submitted to Congress.

It is hoped that Congress will take action, during its next session, to place the Army on an equal footing with the Navy in the matter of the manufacture of guns. The Gun Foundry Board earnestly recommended that the Government establish two gun factories, one for the Army and the other for the Navy. The Board on Fortifications or other Defences endorsed this recommendation, and Congress gave partial effect to it by legislation which has enabled the Navy Department to establish a factory at the Washington Navy-yard. The Senate passed a bill at the last session containing, among other valuable provisions, the establishment of an Army gun factory at Frankford Arsenal. This bill, however, did not obtain the concurrence of the House of Representatives, and is still in conference. It is hoped that it will be passed at the coming session.

With the exception of work on existing contracts, continued from last year, the operations of this Department with regard to the armament of fortifications have ceased, owing to the failure of the fortifications appropriation bill to become a law. This has caused serious injury, not alone from the stoppage of work but also from the loss of skilled workmen, who have been discharged for lack of funds to pay their wages. It affects the Government, as well as the Army, for the economical, as well as the efficient, performance of technical work, forbids its being done in an intermittent manner. There will be great difficulty in procuring good men upon a resumption of work, for those formerly employed will have sought employment elsewhere.

It is gratifying to state that the results of trials and tests of powder and of steel for gun making, furnished from the Du Pont, Midvale, and Cambria Works continue to fully answer our expectations, so that there is no reasonable ground to doubt that these two important branches of military industry, upon which reliance must be had in case of war, can with due encouragement from Congress be brought to the highest standard maintained abroad.

I deem it my duty to invite attention to the present state of our field artillery. The Chief of Ordnance reports 500 serviceable 3-inch wrought iron M. L. guns on hand, in addition to the new steel 3.2 inch guns, of which 25 will be completed by the end of November. There are practically no carriages for any of these guns. The wooden carriages made years ago for the wrought iron guns are no longer serviceable, and if serviceable would not answer for the new steel guns. The metal carriages designed for the latter will serve equally well for the iron guns, and can be replaced by the steel carriages as fast as supplied. At present the needs of our field artillery are most pressing.

Experiments with the Powlett pneumatic gun carriage, and with steel siege guns, and experiments to develop an effective system of defence for torpedo lines, have been carried on during the year, and still continue.

THE GOOD OLD DAYS.

To the Editor of the Army and Navy Journal:

IN reference to the question of "Sunday in the Army," I would say that when I enlisted in 1839 the custom was to devote Saturday forenoon of each week to general police, the cleaning of the garrison, quarters, kitchens, etc., and the usual weekly inspection took place in the afternoon of that day. At a fixed hour after guard mounting on Sundays, when there was to be Divine service, church call was sounded, when the entire garrison not on duty fell in, the roll called, and the companies marched to church. The practice of compelling men to go to church was frequently the cause of men being punished for conscience sake in refusing to go and was finally abolished. Occasionally there would be dress parade on Sunday evening, but no other duty was thought of on that day at that time. When there was a chaplain at the post he taught the post school in person. When there was no chaplain a well educated soldier was detailed as schoolmaster. The enlisted boy musicians—drummers and fifers—were compelled to attend the post school. The children of officers, soldiers, and citizens residing in the vicinity of the post could attend at pleasure, all being mixed and divided into classes according to their ability and studies, and the rod was not spared.

E. H. BRODIE.

POLITICAL COMPLEXION OF THE NEXT HOUSE.

GEN. JOHN B. CLARK, Clerk of the House of Representatives, has completed and caused to be printed an unofficial list of members of the House for the Fiftieth Congress. He classifies them as 168 Democrats, 152 Republicans and 4 Independents, with one vacancy (Rhode Island) to be filled probably by a Republican. One hundred and ninety-five of the number are old members, being ten more than the number of old members in the present Congress. Of the old members, 100 are Democrats and 95 Republicans. If the Independents divide, as they are expected to do, equally between the two sides, it will give the Democrats a majority of 14 in a full House.

(From the National Republican.)

BUILDING GREAT GUNS.

Editor National Republican:

IN your issue of the 15th instant you state that Foreman Davis and two officials of the Navy Department visited our works on a secret mission, and that their report is carefully guarded, etc.; that speculation has it that the report is anything but flattering to contract work.

How much evidence you require to warrant you in publishing speculations calculated to damage private parties I cannot say, of course, but I wish to say with emphasis that there is not a particle of truth in the intimation you give to the public that the ordnance work for the Navy Department done at our establishment was not satisfactory. On the contrary, Foreman Davis and the other officers will testify that no better workmanship has ever been seen by them in any establishment, and the fact can be abundantly proven by other expert testimony as well.

The mission of the Navy officials was no secret, but was well understood to be simply to pass upon the question, Whether or not certain seams or imperfections, discovered under the electric light in the finished bore of two of the 6-inch steel guns we have lately finished were of sufficient magnitude to warrant the condemnation of these guns from service? These defects had nothing to do with the workmanship, but existed in the steel when furnished to us by the Navy Department, and were of the same character as the defects which recently caused the rejection of a new 6-inch steel rifle, finished in the same way at the Washington Navy-yard, and which Foreman Davis knows all about, as he superintended the work himself.

Respectfully, WM. P. HUNT, President.

BOSTON, NOV. 18, 1886.

THE STATE TROOPS.

THE EIGHTH NEW YORK.

THE only subject which has stirred the present remarkably dull and uneventful course of National Guard events was the recent report that the Inspector-General had recommended the disbandment of the 8th regiment. On account of the ancient date of its organization, its valuable services in the past, and its energetic struggles to keep up existence against what may be justly termed fearful odds, the report caused much surprise and it was generally discredited, especially because the Adjutant-General and every other available person in a position to know anything about it, professed ignorance of the whole thing. The 8th regiment has been small of late years, but this fact and its causes have been well understood in military circles. The remedy, a new armory, is now a sure thing, and for this reason the rumor of disbandment was discredited. From an interview with Inspector General Schaefer, published in the *Tribune* of Dec. 6, however, it appears that the recommendation has actually been made. Gen. Schaefer is reported to have said:

I recommended the disbandment of the 8th Regiment because it appeared to be in a demoralized condition at the annual inspection in October. To help the officers of the regiment in getting out their men I consented to allow the inspection to take place in the 22d Regiment Armory. It did not seem to have the desired effect, however, for the showing was a very poor one. One company did not have a single commissioned officer, and there were other things pointing toward a lack of interest in the regiment's condition by some of the officers. The usual per cent. of attendance at the annual inspection runs from 76 per cent. to 85 per cent. But with the 8th Regiment the percentage was only 46 per cent., an exceedingly low one. Of course, to do my duty as Inspector-General of the State Troops I had no other alternative than to recommend disbandment. I do not want the regiment to leave the service; it has been a valuable one, and if proper stimulants are applied to it it will return to its former condition of prominence among the regiments of the State. I am sorry that Col. Scott did not know of the result of my inspection until it came out in the paper. He feels much grieved about it. I cannot imagine why he did not receive his company rolls before. There must be something wrong at my office in Albany, for the colonels of the other regiments have all got theirs. I hope, however, that this will be the means of rallying the members of the regiment, and that there will be a rapid improvement in it. I do not think that with the present condition of the command it would warrant the city spending nearly $700,000 upon it, but with a new armory and with outside help it could be built up again.

Gen. Schaefer desired it stated that it was not he who was the reporter's informant when the report first became public. "Many people point to me as the cause of it," he continued, "and I would like to be placed in a proper light before the public."

This, of course, leaves no doubt as to the fact of the recommendation of the disbandment having been made, and the Governor is now the man to decide what action to take thereon. There is no question as to the correctness of the Inspector's action if he was convinced that his duty compelled him to do as he did. But his statement, as quoted above, seems to indicate that he was not, and is not now, clear in his mind about the matter. A conscientious action requires no such apology as reported in the interview quoted. If he does not desire the regiment to leave the service, and if he thinks that by the application of proper "stimulants" (whatever may be meant by that) the regiment can soon be brought to its former preeminence among the regiments of the State, then it would be better to keep it in service and let it build up, the opportunity for which is at present more favorable than ever. The indications are that the State will need regiments and soldiers at a not very remote period more urgently than at any previous time in our history. It would, therefore, be folly to abolish an organization which needs the very thing about to be provided for it to develop into full efficiency for no other purpose than to raise another one in its place which would have to be done. The city has already provided the site for a new armory of the 8th at great expense, and the appropriation for the building will soon be made. Would it, therefore, not be better to give the organization an opportunity to show what it can do in proper quarters, and hold the question of disbandment in abeyance, until facts under a new condition of affairs demonstrate it unworthy of further existence?

THE ARMORY QUESTION.

IF New York City wants a reliable force of soldiers with full ranks (and the time when they are needed may come sooner than the ordinary run of people imagine) they should first of all be given proper quarters. The cry for new armories is as general as it is just. Fifty years ago the buildings used for armories and the localities in which they are situated, may probably have been suitable. At present they are not. Those of the Eighth and Ninth are situated in a portion of the city to reach which visitors and members have to pass through some of the vilest streets, and when they get there they are apt to find a manure heap in front of the building. If there is no manure visible its vicinity is certainly demonstrated by a most horrible smell, never absent, and pervading both buildings from top to bottom, not only offending the nostrils but contaminating clothing, rusting muskets and destroying brasses. Having lost every vestige of breath in ascending the stairs to the drill rooms, which are from 40 to 50 feet above the pavement, there is nothing but dilapidated walls, dingy light and lack of space, with its accompaniment of the stench of horse manure and the pungent odor of ammonia.

In addition to this, at least in the armory of the Eighth, one runs the risk of being buried under the ruins of the building, which has been condemned for drill purposes, and is in danger of falling at any time. That this organization loses members at a rapid rate is not surprising, and that it is difficult to fill its ranks is natural. From personal knowledge, we can say that gentlemen from crack organizations, who were inclined to take commissions in it, lost heart when brought face to face with the armory and its situation.

The Seventy-first's armory, though decently appointed and situated, gives an impression of a combination of hencoops more than a place in which to instruct soldiers. Besides it is unsafe. The armory of the Eleventh does not amount to much, and that of the Sixty-ninth, although the Seventh did well there years ago, is now out of date. The Twenty-second's building is small, badly situated, barnlike, and a veritable breeding shop for consumption and rheumatism, and in no way suited for modern quarters of a first-class organization.

The metropolis cannot expect to keep up a proper force of soldiers in quarters like those described, which would be rejected by any fifth-class country organization. The state of affairs demands action more prompt and speedy than that customary in the present Armory Board, and a definite solution as soon as possible is very desirable for all parties concerned.

Why is not the promised Court of Inquiry for the 13th Regiment appointed?

MILITIA ITEMS.

Captain W. C. Casey, of Co. I, of the Seventh, at the eleventh hour, has withdrawn his resignation and asked for a leave of absence for a year instead.

The 69th Regiment does not turn out for drill as well as its large strength would lead people to expect, but recruiting is very brisk and new members are flocking in daily.

The County Democrats of the Seventh Congressional District placed in nomination as their candidate for Congress General Lloyd S. Bryce, and this nomination was endorsed by Tammany Hall and by the German Independent Citizens' Association and other non-partisan organizations. General Bryce is the son-in-law of Edward Cooper, and is a man of well known executive ability. He is an educated, industrious, scholarly and dignified gentleman, and will confer honor upon the office; is young, vigorous, courteous and of pleasing address, and was elected by a very large majority. Gen. Bryce is a member of Governor Hill's staff, and Paymaster-General of New York State. He is the son of Major Bryce, who graduated at West Point next to General Lee, and served through the war on the staff of General Wadsworth.

In a private letter an Army officer says: "I have thought for many years that the National Guardsmen were far closer students of the Tactics than the average West Pointer, and much more so were they closer students than those from the ranks, the volunteers, or from civil life. Regulars have too many other duties to attend to, and the whole tendency of modern war science is to pay far more attention to dispersed order and consequent ease and freedom of movement than to the machinelike precision of Fritz Magnus and Winfield Scott. In the National Guard, however, they keep up the old love for clockwork manual and firings, and so long as they have Tactics to back them we cannot break down the system. Parades, etc., are certainly the more stately and beautiful by reason of close attention to such matters, of which the militia are closer students. With exceptional advantages for learning the Tactics at West Point, I don't think I learned the school of the soldier until I came in contact with the militia, where I *had* to, or confess my inferiority to every other man I met in militia dress."

Circular No. 3 from General Headquarters, S. N. Y., publishes the following opinion of Judge Advocate General W. M. Ivins, which is of particular interest to the rank and file. The charge in question is disobedience of orders, which is supported by the facts set out in the specification: "I do not find anything in section 123, nor in any of the provisions of the present M. C., defining the authority of the various military courts, which limits or restricts this general meaning, and I am of the opinion that where an enlisted man offends by neglect of duty at any drill, parade, encampment, meeting for instruction or other duty ordered by competent authority, he may be tried by a delinquency court, or, if the facts warrant one of the charges contained in section 122, he may be tried before a general court-martial. A sound discretion must be exercised by officers in determining the court before which the charge should be tried; the extent of the failure of duty, its gravity, and whether military discipline will be satisfied by the punishment which may be awarded by the delinquency court, or requires more extended powers and severer action, authorized only by court-martial, must all be considered. (R. S., 753.) For the failure of duty set forth in the charges and specifications submitted to me, Private —— may be tried by a delinquency court."

The 23d Regiment will appear for the last time in the State service uniform as "full dress" at the review tendered to Gen. James McLeer this (Saturday) evening.

Brig.-Gen. James McLeer, of the 2d Brigade, has completed his staff by the appointment of Capt. Fritz Brose and Frank Beard. Capt. Brose's military life began Jan. 5, 1880, when he enlisted as private in Co. D, 23d Regiment. He was made corporal Feb. 20, 1882, and Gen. McLeer appointed him captain and aide-de camp of the 3d Brigade Jan. 26, 1885. Capt. Beard occupied his present rank on Gen. Rodney Ward's staff before he was rendered supernumerary.

Mr. E. C. O'Brien was elected 2d Lieut. of Co. A, 71st Regt., on Tuesday, Dec. 7.

Captain-elect Alex. T. Mason, of the 8th Regt., successfully passed the Examining Board of the 1st Brigade on Wednesday, Dec. 8.

Co. F, 14th Regt., Capt. W. V. Peacon, had street riot drill on Friday evening, Dec. 10, and is under orders for battalion drill on Wednesday, Dec. 22.

Lieut.-Col. T. H. Barber, Asst. Adjt.-General, and Major C. H. Eagle, J. R. P., of the staff of the 1st Brigade, S. N. Y., passed very successful examinations before the Board on Wednesday, Dec. 8.

Major Edmund C. Stanton, of the staff of the late 1st Brigade, who was appointed Signal Officer by Gen. Fitzgerald, as reported in our issue of last week, has been assigned to active duty by orders from Albany, which confirms the appointment.

Capt. George P. Freeman, Co. E, 22d Regt., the senior captain of the regiment, has resigned. Capt. Freeman had the largest company in the regiment, in fact, the only one filled up to the maximum, and it is drilled in first class style. His record is as follows: In Volunteers, 1st lieutenant, 25th N. J. vols., Sept. 16, 1862; resigned Dec. 18, 1862. In the National Guard, private, 22d Regt., Dec. 1, 1865; dropped Nov. 1, 1868; taken up in Co. E, Sept. 1, 1871; corporal, Oct. 16, 1872; sergeant, Jan. 27, 1882; resigned June 10, 1882; Private 22d Regt., July 24, 1882; 1st lieutenant, Nov. 15, 1882; captain, April 6, 1880. Private, Co. A., 22d Regt., Feb. 28, 1873; corporal, Sept. 28, 1874; sergeant, April 10, 1876; 2d lieutenant, March 14, 1881; captain, May 14, 1881. His successor will, doubtless, be 1st Lieut. N. B. Thurston, who is so well known in the National Guard that it is not necessary to say anything beyond mentioning his name.

The 13th regiment Court-martial had a session on Friday, Dec. 3, and another one on Wednesday, Dec. 8. The lawyer for the defence, Dec. 3, made another motion to strike out Col. Fackner's testimony, but the court overruled the motion. The remainder of the testimony on that evening brought out nothing to accelerate the progress of the trial. It was of little use beyond further demonstrating the æsthetic character of the intercourse between officers of the organization, to which we have referred in previous issues. At the session of the court on Wednesday the testimony was either unimportant or of a suggestive character, suggestive that it is about time to bring the case to a close, which should be done as soon as possible.

CONNECTICUT NATIONAL GUARD.

THE politicians of Connecticut are reported to be much exercised over the appointments to be made by Governor Lounsbury as staff officers. The office of Adjutant-General has been tendered to Gen. Frederick E. Camp, of Middletown, and of Assistant to Capt. Samuel B. Horne, of Winsted, although it is said that the present Assistant, Col. Geo. M. White, may be retained. Gen. John B. Clapp, of Hartford, will be installed as Quartermaster-General and his assistant will be Gen. Wm. H. Tubbs, of New London, late brigade commandant. Ex-Speaker Charles H. Pine, of Ansonia, will be named for Paymaster-General. The office of

Commissary-General has been tendered to several and has been refused. Dr. Wm. S. Todd, of Ridgefield, the Governor's family physician, will be Surgeon-General, and the Governor's old friend in the 17th Regiment, Selah G. Blakeman, of Huntington, will be an aide.

RIFLE PRACTICE IN MASSACHUSETTS MILITIA.

G. O. No. 16, A. G. O. Massachusetts, announces the following awards for rifle practice on the report of Col. Horace T. Rockwell, as Executive Officer of the State Rifle Matches at South Framingham, September 30th:

Team Trophies.—Field and Staff Trophy, First Brigade; first trophy for company teams, D, First Corps of Cadets; second, E, 1st Regt. Inf.; third, B, 2nd Regt. Inf.; fourth, B, 2nd Corps of Cadets; first special trophy for improvement over 1885, A, 9th Regt. Inf.; second, H, 9th Regt. Inf.; special trophy for team using carbines, A, 1st Battalion Cavalry.

Individual Trophies.—Field and Staff Officers.—First trophy, Capt. J. P. Frost, I. R. P. 2nd Brigade, second, Col. A. C. Wellington, 1st Regt. Inf. Line Officers.—First trophy Capt. H. G. Wood, G, 1st Regt. Inf.: second, Lieut. S. T. Kirk, M. 8th Regt. Inf.; third; Lieut. C. N. Edgell, F, 2nd Regt. Inf.

Enlisted men (at large)—First trophy, Private F. D. Bartlett, D, First Corps of Cadets; second, Private W. L. Skinner, 1st Brigade Signal Corps; third, Private L. Grant, D, 1st Corps of Cadets; fourth, Private W. B. Chase, B, 1st Corps of Cadets.

Enlisted Men (of Regiments).—Trophies (badges) to Privates G. W. Kimball, G, 1st Regt.; A. C, White, C, 2nd Regt.; F. W. Turner, C, 5th Regt.; F. O. Berry, H, 6th Regt.; Sergeant C. T. Hilliker, D. 8th Regt.; Privates C. Frost, F, 9th Regt.; W. G. Hussey, B, 2nd Corps of Cadets; J. E. McLean, D, 1st Battalion Cavalry.

The badges offered by General Order No. 9 for competition at 500 yards were won as follows: The Team Badges by team of the First Corps of Cadets; the Individual Badges by Private A. L. Brackett, D, 1st Regt. Inf.; Private F. R. Bull, G, 2nd Regt. Inf.; Sergt. J. E. Dalmody, G, 5th Regt. Inf.; Sergt. E. C. B. Erickson, L, 8th Regt. Inf.; Lieut. J. P. Reardon, I. R. P., 9th Regt. Inf.; Private W. G. Hussey, B, 2nd Corps of Cadets; Lieut. J. P. Frost, 1st Battalion Cavalry.

The first Corps of Cadets, by virtue of the winning of the First Company Team Prize by a company of that corps, will wear the Tri-Color on their colors for the year 1887. Col. A. C. Wellington, commanding 1st Regt., 1st Brigade, M. V. M., will turn over the Tri-Color to Lieut.-Col. T. F. Edmands, commanding 1st Cadets, on Jan. 1, 1887.

(Correspondence of the Army and Navy Journal.)

ILLINOIS NATIONAL GUARD.

THE sentence of the Court-martial in the case of Ernest E. Greathead, private of Co. E, 1st Regiment, Inf., has been approved by Governor Oglesby.

Greathead was charged with being absent without leave, and disobedience of orders on Nov. 9, while his regiment was on duty at the stockyards.

The sentence of the Court-martial was that he should forfeit one month's pay, be discharged from the Service, and be debarred from holding any military position during three years following the date of sentence.

Capt. Hough, whose company, Troop D, 1st Cav., were with him on duty at the stockyards during the riotous period, runs a small toy and notion store on W. Indiana street.

On his being relieved from duty there he returned to the city to find that the people in the vicinity of his store, chiefly socialists and members of trades-unions, had inaugurated a boycott against him.

His fellow officers advise him to move, as it will be useless to remain in business where the sentiments of those whose trade he depends on for a living is so prejudiced against him.

Of course he has the sympathy not only of the militia, but of all reasonable men.

Together with the active members, the veteran and honorably discharged ex-members of Co. A, 1st Regiment, Inf., will hold the second annual reunion at the Armory and Matteson House, the evening of Dec. 20.

Any honorably discharged member who has not received notice should send his name to C. N. Black, No. 183 Fifth ave., Chicago

Governor Oglesby has issued a general order congratulating in high terms General Charles Fitzsimmons and the officers and men of the 1st and 2d Regiments, 1st Brigade, for the promptness with which they responded to the order to assemble at their armories when the order was given, and for the prudence and judgment displayed by them while enforcing the peace and preserving life and property during the recent stock yards trouble in Chicago.

The athletic exhibition of Co. C, 1st Regiment, Inf., on evening of Dec. 7, was very largely attended. Their exhibition drill received marked praise from military officers, who witnessed it, for precision of movement, accuracy of detail, and general soldierly bearing. In a tug of war contest with Co. F, the latter were defeated. The amusing parts of the programme included a lemon race, a three-legged race, and leap-frog. As a whole, the friends assembled were very well pleased.

CALIFORNIA NATIONAL GUARD.

COLONEL J. J. TOBIN, private Secretary to Gov. Stoneman, is likely to be the next Adjutant-General of the State, and it is said will be the right man in the right place. The Sacramento *Bee*, in a recent article, says: "The present brilliant inefficiency of the National Guard is due to a set of officers appointed by the Governor, who know more about squandering the State's money in champagne than they do about Upton's Tactics. It proposes that money supplied by the taxpayers should be spent upon the men, and its outgo regulated by a board elected by them. It also claims that the best imitation of the American hog in this century was that given by some of the officers at the Santa Cruz encampment last year. In conclusion, it says that every staff officer in the service should be compelled to know at least one-fifth as much as the privates, which at present they do not, by a gigantic majority.

The following changes occurred among the commissioned officers of the National Guard of California during the months of October and November, 1886:

Third Brigade.—Eugene Lehe, Brig. Gen.; Brook C. Crawford, major and A. A. G.; T. W. Drullard, major and engineer officer; B. R. Woodworth, major and Q. M.; S. D. Woods, major and J. A.; John D. McDougald, major and paymaster; Frank Eshbach, captain and A. D. C.

First Infantry.—Co. F, Robt. J. Loughery, captain; Harry B. Hosmer, 2d lieutenant; Chas. Jansen, captain Co. D.

Second Artillery.—Thos. F. O'Neil, 1st lieutenant, and J. J. Kelly, 2d lieutenant, Co. G; Chas. E. Mooser, 1st lieutenant, and S. S. Crowley, 2d lieutenant, Cadet Co.

Fifth Infantry.—Jos. B. Lauck, captain, Co. A.; C. E. Parsons, captain, and Willard H. Seaton, 1st lieutenant Co. F; Wm. H. J. Matthews, 1st lieutenant and ordnance officer on staff of colonel.

Sixth Infantry Battalion.—J. B. Douglas, captain, and Jas. L. Andrews, 2d lieutenant, Co. A.

Resigned.—1st Lieut. Henry F. Horne, Co. H, and 1st Lieut. John H. Luderman, Co. D, 2d Art.; Lieut.-Col. Patrick Boland, 3d Inf.

Retired.—Brig.-Gen. James A. Shepherd, Major Joseph R. Houghton, and Chas. Faulkner, with rank of major.

(Correspondence of the Army and Navy Journal.)

WISCONSIN NATIONAL GUARD.

THE Socialists have carried our city by ballot, the leading Anarchists are almost sure to be acquitted this week on the indisputable evidence of dozens of their fellows that there was no rioting, no trouble here last May except that kicked up by the police and militia.

We have a most important Convention in two weeks at Madison, Wis. Lieut. Philip Reade, 3d Inf., of Gen. Terry's staff, and Lieut. Lyman W. V. Kennon, A. D. C. to Gen. Crook, are to read papers in person, and there is every prospect of an exciting session when they are done.

ATHLETICS IN THE GUARD.

The 7th Regiment, N. G., S. N. Y., Athletic Association gave their 10th series of games on Saturday evening, Dec. 4 1886. Their immense armory was filled with spectators large numbers of whom had to stand, it being impossible to find seats for so many. The games were commenced promptly on time, and managed in the usual prompt manner. The following is a summary of the events:

93 Yard Run (handicap).—Final heat, R. A. Stacpoole, 2 yards start, first, time 10 1-5 seconds, W. W. Price, second.

Quarter Mile Run (handicap.)—C. Coster, Co. I, 20 start. first, time 56 1-5 seconds, F. H. Crary, Co. H., second.

1000 Yards Run (handicap).—F. Vodes, Co. E, 23 yards start, first, time 2 min. 35 4-5 sec., F. A. Wade, Co. B, scratch, second.

Inter-Collegiate Tug of War, limited to 5 minutes first pull, New York v. Columbia College, was won by Columbia by 11 inches. Final tug between Columbia and Havard was won by Havard by 6 feet 4 inches. In this tug Columbia's anchor lost his belt after pulling 4 minutes, the team thus being at a great disadvantage.

One Mile Bicycle.—J. H. Tapler, Co. G, 100 yds., won; time, 3 min. 9 2-5 sec.: S. H. Rich, Co. H, scratch, 2; time, 3 min. 13 2-5 sec.

Seventy-five-yard run, regimental championship.—F. G. Roumage, Co. B, won; time, 8 3-5 sec.; A. D. Dederick, Co. E, 2.

Sack race of fifty yards.—R. A. Stacpole, Co. B, won; time, 8 1-5 sec.; F. D. Ludlow, Co. B, 2.

220-yard run (handicap).—Final heat, H. C. Lima, Co. D, 6 yds, won; time, 27 1-5 sec.; L. E. Vancier, Co. A, 12 yds., 2.

Potato race.—Pick up 10 potatoes, 2 yds. apart; A. F. Stone, Co. A, won; F. D. Ludlow, Co. B, was second. Time, 54 sec.

One mile walk.—A. H. Walton, Co. A, one minute start, won; time, 8m., 89 3-8s.; F. J. Burke, Co. E, 45s., was second; time, 9m., 51 3-5s.

Half mile walk (scratch for those who never competed in a walking match before).—G. C. Whaley, Co. E, won; James Wotherspoon, Co. H, was second; time, 4m., 2-5s.

Putting the 16 lb. shot (handicap).—C. A. J. Quickberner, Co. A, scratch, 1, 40 ft. 3 in.; R. H. Goffe, Jr., Co. C, allowed 5 ft. 10 in., 2, 39 ft. 6 in.

One mile run (handicap).—H. J. Jassen, Co. A, scratch, 1: time, 5 min. 16 4-5 sec.; O. Montgomery, Co. I, 35 yds., 2.

Two hundred and twenty yards hurdle race.—C. F. Bostwick, Co. B., scratch, 1; R. A. Stacpoole, Co. B, 5 yards., 2. Time, 32 sec.

The three legged race was once round the track, or a tenth of a mile, F. S. Roumage and F. G. Roumage, Co. B, scratch, ran a dead heat with A. F. Stone, and C. G. Watts, Co. A, 4 yards start. The Roumages finally had a walk over, as their antagonists did not care for a second race.

Half-mile run for those who never competed in a running race before.—S. H. Rice, Co. A, won; Wm. Van Kleeck, Co. H, 2. Time, 2m. 21 2-5 sec.

Half-mile roller skating race (handicap).—C. G. Watts, Co. A, won; G. W. Romaine, Co. D (20 yards), 2. Time. 1m. 59 1-5 secs. F. A. Ware started, but fell at the first turn and retired from the contest.

Three mile bicycle race (handicap).—E. Valentine, Co. F, 125 yards start. Won by fifty yards. Time, 10m. 20 4-5 secs. C. F. Burhaus, Co. B, 200 yards, second by 50 yards.

Wheelbarrow race, one-fifth of a mile.—F. H. Crary, Co. H, 6 yds., won; F. O'Byrne, Co. A, 5 secs., was second. Time, 51 3-5 secs. C. S. Busse, Co. F, scratch, lost the hoop from the wheel of his barrow and thus lost all chance of a place.

Obstacle race, one-fifth of a mile.—R. A. Stacpoole won. Time, 1 m. 50 sec. C. Monroe, Co. A, second. The obstacles consisted of barrels, hurdles, pyramid ladders, etc. The referee was Lieut.-Col. G. M. Smith; manager, Waldo Sprague; starter, Geo. Goldie, N. Y. A. C.

ANSWERS TO CORRESPONDENTS.

T. A. P.—See answer to "Sergeant" in this week's issue.

G. E. H.—You appear to be entitled to "re-enlisted pay" under the Act of May 15, 1872.

S. V. K.—A vacancy now exists in the 7th District of New Jersey. Woolls stands 58; Montgomery does not get standing until January next.

R. M. K. asks: Are the wives of all soldiers entitled to pensions, provided their husbands die from disease or injury occurring in line of duty? ANS.—Yes.

Brooklyn.—The volunteer regiments on duty in New York City during the draft riots of 1863 were the 11th, 13th (cavalry), 52d, 54th, 83d and 152d N. Y., and the 26th Mich. The militia regiments were the 7th, 10th, 65th, 69th and 74th. U. S. sailors and marines, 700. Regular infantry, 150. There were no Ohio militia in the city at that time.

Gatling Gun asks: I am possessor of two war medals (Afghan and Zulu). Fought and bled for same. Am an active member of the N. G., S. N. Y. Can I wear them on my uniform in the ranks? ANS.—Par. 134, of the Regulations S. N. Y., allows the wearing of badges of . . . "armies or army corps indicating actual service in the field."

Polaris.—The hood is to be worn on the overcoat and over the head "at night and in inclement weather." At other times the carrying of the hood on the coat is optional unless, of course, the post commander, for the sake of uniformity, should prescribe a rule. When troops turn out in overcoats hoods would be worn, unless specifically directed otherwise.

Fort Stanton, N. M.—The act making appropriations for the Army for fiscal year 1883-84 provides, "That civilian employees of the Army, stationed at military posts, may, under regulations to be made by the Secretary of War, purchase necessary medical supplies, prescribed by a medical officer of the Army, at cost with 10 per cent. added." For the regulations on the subject see Circular No. 1, Surgeon General's Office, dated May 10, 1883.

Sergeant asks; "A company being in line, the 1st sergeant on the right, the 3d sergeant covering the second file, the command is given: 'Fours, *left about*—march!' Does the 3d sergeant follow the first four around, passing through the interval between the 1st sergeant and the first four, or does he pass through the interval between the first and second fours?" ANS.—Tactics make no special provision beyond that the file closers dart through the nearest interval. Taking common sense as an aid, we should think that if the fours wheeled about to the left the 3d sergeant should pass between the 1st sergeant and the first four. If the wheel is to the right about, he should follow the first four. This would, at all events, avoid collision, which would be inevitable if the thing was done otherwise.

(Washington Correspondence of the N. Y. Herald.)

SECRETARY WHITNEY'S WEALTH.

A GROUP of New York politicians this afternoon were discussing Secretary Whitney's good fortune in having married a rich wife. "I suppose you mean to say," said one of the party, "that the money Secretary Whitney spends is given to him by his wife. There was never a greater mistake. Secretary Whitney's income is, or was before he entered the Cabinet, nearly $500,000 annually. I don't pretend that this income represented any fixed sum, but I do say that he has been a very successful business man, and almost everything he touches turns to gold, and has done so for years past. He has an extraordinary fondness for keeping large sums of money about him. I was sitting in his office the day he concluded the purchase of his country seat, on the Tennalytown road. When the necessary papers were signed the agent began saying that the Secretary might make his payments in any way he desired, when the latter coolly turned about in his chair, and, opening a drawer, drew out $40,000 in greenbacks. He counted out $31,000 in an exasperatingly indifferent fashion, and then, tossing the rest into the drawer, again resumed the conversation as if nothing unusual had happened."

FISH COMMISSION STEAMER ALBATROSS.

THE recent detachment of Comdr. Sigsbee from command of the *Kearsarge*, releases from the dull routine of sea duty one of the most brilliant officers of the Navy. His discoveries and inventions, while engaged in deep sea explorations a few years since, at once placed him in the front rank of modern naval scientists, and won for him high praise from Sir W. Thompson for his great skill and originality. It is to be hoped that Comdr. Sigsbee may be enabled to continue the development of some of his ideas which bid fair to add greatly to the value of the future work of the *Thetis* and *Albatross*. Capt. Tanner, the commander of the *Albatross*, is fortunate in his officers, as without exception they take a personal interest in the department of the ship specially pertaining to their care. Chief Engr. Baird, in charge of the motive power, electric lights, etc., besides being an indefatigable worker is an ingenious mechanician and his handiwork and inventive faculty are remarked in every part of the little ship. An interesting application of the electric light is shown in the wine locker, whereby the current is cut off while the door is closed, but on opening it the circuit is completed, and Edison incandescent lamp instantly springs into radiance and the whole interior of the wine locker becomes as bright as day. The arrangement of shelves and receptacles for the very moderate wine stores wherewith the wardroom mess supplies itself is also the device of Mr. Baird, who some years since made an extended visit to the wine vaults and storage cellars of Mr. Washington Morton of Bordeaux, and so learned the exact angle at which wines, etc., best retain their qualities. Everything about the ship is kept in the most exquisite order and cleanliness, and under the efficient inspection of Lieut. Howard S. Waring, the executive officer and navigator of the ship, the decks, paint work and hull are maintained in a state of polish and cleanliness that would delight the heart of the most cantankerous "Billy Looly" of the olden time. This craft is provided with an arrangement whereby hot or cold baths can be indulged in at any time. It is said that the *Albatross* is destined to plough the bottom of the Pacific some time next year in the same exhaustive way as she has the fish beds of the Atlantic for the past few years. A patent attachment for hooking, cutting and fishing the anchors works admirably, it is said by the officers on board. The *Albatross* is laid up at the Washington Ordnance Yard for the winter.

NEW PUBLICATIONS.

Every garrison library, every garrison household, every one, in short, who assumes the cares and responsibilities of house-keeping should be provided with "Goodholme's Domestic Cyclopædia," of which a new, revised edition has been issued by C. A. Montgomery and Co., New York. In the list of those superintending the revision we find the names of two sanitary engineers, Geo. E. Waring, Jr., and Lewis Leeds; three architects, Calvert Vaux, Thos. Wisedell and G. F. Ball; a chemist, Edw. Waller, Ph. D.; a dentist, S. G. Parry, D. D. S.; three doctors, Austin Flint, Jr., A. Jacobi and Wm. T. Lusk; two experts in cooking; a veterinary, and a lawyer for business and legal forms. The information is arranged alphabetically in such manner that the suggestion of the general subject leads the way to all the information desired, *e. g.*, under "beef" appears a description of the cuts and the different modes of curing and cooking the meat. Under "preserves" will be found rules for preparing these from all sorts of material. Bathing, drainage, exercise, food, diet, house ventilation, warming, decoration, furnishing, are among the subjects treated, as well as children, infants, fevers, the sick room, nursing and wet nursing. It is hard to conceive of any demand for information concerning the details of daily domestic life, indoors or out, which cannot be answered here, and answered with knowledge and good sense combined. As Mrs. Martha J. Lamb says of it, "It is a cook-book for the house-keeper, a medical hand-book for all members of the family, a dress-maker's guide, a floral dictionary, a house-builder's assistant, and serves in a thousand other directions for the general good." It is an elegantly printed octavo volume of 650 pages, with some 400 illustrations. It is substantially bound, the leaves being run on tapes instead of threads, so that the book will lie open. Twenty-six blank pages furnish space for entering additional recipes, and an excellent index completes the volume. Mrs. Lamb, who has examined it with care, pronounces it the best cyclopædia of its scope and character in the English language, and our own opinion approves this judgment.

From the press of Walker Baker and Co., Dorchester, Mass., comes an interesting and concise history of the production and use of cocoa and chocolate, with a full and particular account of their properties, and of the various methods of preparing them for food. The fact that Baker and Co. are interested in the preparation of the articles whose virtues they sing does not diminish the value of this volume, which contains some excellent receipts for household use. It is proper, of course, to use the Baker brands of cocoa and chocolate in compounding these delicacies, and fortunately there is none better.

Skat, the favorite German game of cards, is described in a little pamphlet published by B. Westermann and Co., New York, who are anxious to increase our pleasures by domesticating it here. Three or more can play the game, which is one of points, not tricks, played with the piquet pack from the seven up, 32 cards. Three only are active in the game, and to each one these ten cards are dealt, leaving two in the skat with the other players waiting their turn. Skat is described as a jolly and lively game, passing off quickly and full of surprises.

The "Terrace of Mon Déser" is a novel of Russian life, published by Cupples, Upham and Co., of Boston; "Red Beauty" is a story of the Pawnee trail, by W. O. Stoddard, author of a "Life of Lincoln," and several other stories. It is illustrated and published by J. B. Lippincott and Co., who also publish "Mirage of Promise," by Harriett

Pennawell Belt, author of "Marjorie Huntingdon," etc. The author of the Russian story is the daughter of an American admiral, and wife of a Russian diplomat, Marie de Meissner, *née* Miss Radford. It was commenced in remembrance of Russian kindnesses and hospitality "and continued in the hope of giving some faint idea of the perfect loveliness of the spot which it essays to describe." Mr. Stoddard's story is, as its title indicates, a story of the adventurous and exciting life on the frontier which so readily lends itself to the purposes of the novelist seeking to absorb and entertain. The previous venture of Miss Belt gives excellent promise for entertainment in her new volume. Chas. Scribner's Sons publish "Manners Makyth Man," by the author of "How to be Happy though Married." It is not a book of etiquette, but deals with manners in the old sense of the word. Bachelors, husbands, wives and others are pleasantly instructed how to make themselves most agreeable to others, and thus add to their own happiness. We have hints on family government; on reading and conversation; on tippling, etc., etc.: all most pleasantly presented with illustrations and anecdotes. So the volume is as readable as it is useful.

The last number of "Shoppel's Modern Houses" is that for October. It contains fifty-one designs for modern houses, with plans, descriptions and costs, from $600 to $15,000, two designs for stables and carriage houses. There are also hints for the amateur house painter, landscape gardener, and sanitary engineer. It is a most useful publication; price one dollar.

D. Appleton and Co. are about to publish a "Cyclopædia of American Biography," of which Gen. James Grant Wilson and John Fiske are the editors. The first volume, A to C, will be issued early this month and sold by subscription only. Other volumes will appear at intervals of six months; possibly oftener. This Cyclopædia will include the names of above 15,000 native and adopted citizens of the United States, including all the Admirals and other distinguished officers of the American Navy, and all the Generals of the Army; also the names of several thousand eminent person of Canada, Mexico, Brazil, Chili, Peru, and all the other countries of North and South America. It will include biographies of all the Presidents and Vice-Presidents of the United States, as well as the many candidates for those offices; of every member of all the Cabinets, every United States Senator, every Speaker of the House of Representatives, and every member of the Supreme Court since the formation of the Government; all the Signers of the Declaration of Independence; and the prominent Governors of States and Territories. The work will be completed in six volumes, of 700 or 800 pages each, similar to "Appleton's American Cyclopædia." Each will be illustrated with at least ten steel portraits; and these will be supplemented by between one and two thousand smaller vignette portraits made by a new process from original drawings by Jacques Reich, accompanied by *fac-simile* autographs, and also several hundred views of the birthplaces, residences, monuments, and tombs of distinguished Americans.

Mr. E. H. Hart, No. 1162 Broadway, New York, has published his Souvenir of the Official Inspection U. S. Flagship *Trenton* at Hampton Roads Sept. 6 and 7, 1886. It is a flat volume of the shape and size of this page, bound in paper and enclosed in a paste board box. A description of the vessel, and an itinerary of her voyaging, ending at Norfolk, is first given. Then we have three photo-graveur views of the ship: one of the Board of Inspection on the deck of the vessel, with Capt. Bradford and Comdr. Taylor looking over the shoulders of Admiral Jouett and Messrs. Inch and Hichborn, keeping each other company on the Admiral's left. Next follow the officers, the Marine Guard, the apprentices, port and starboard watches, two views of torpedo explosions, two of heavy gun practice, inspection of a landing party, two views of boat drill, and finally a picture of the vessel abandoned. Mr. Hart has also printed on satin a view of the naval combat, *Kearsarge* and *Alabama*, off Cherbourg, France, June 19, 1864, and of the gun that settled the dispute. On the other side is a picture of the *Kearsarge*. The satin is handsomely bordered with colors and silver fringe, mounted upon a nickel roller with a gilded chain to hang it by, and has a fan box to keep it in. Both of Mr. Hart's publications are works of art which will be highly prized in the Navy.

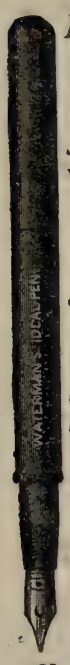
G. P. Putnam's Sons have added two volumes, by Arthur Gilman, author of the "History of the American People," to their series entitled, "The Story of the Nations." One is "The Story of the Saracens," and the other "The Moors in Spain." In the preparation of this last volume, Mr. Gilman appears as collaborator with Stanley Lane-Poole. It presents a striking contrast between Moslem Spain characterized by "whatsoever makes a kingdom great and prosperous, whatsoever tends to refinement and civilization," and Spain in her subsequent degradation under the rule of the Bourbons. Lest this contrast may tempt us to embrace Mahommedanism, the author deems it necessary to direct attention to another volume in the series, "The Story of the Turks," to show what Mahommedan barbarism means. The fall of Granada happened within forty years of the conquest of Constantinople; but the gain to Islam in the East made no amends for the loss to Europe in the West; the Turks were incapable of founding a second Cordova. Still, there is much here to justify Chinese Gordon's saying: "I like the Mussulman; he is not ashamed of his God; his life is a fairly pure one." The two volumes are handsomely illustrated; the first has fifty-five and the second twenty-nine illustrations, besides maps. In the first appears also a chronological table and a list of over two hundred books used by the author presenting a bibliography of the subject. They are two valuable additions to a most interesting and valuable series.

"Ægle and the Elf" is a Fantasy by Mr. B. M. Toland, illustrated with photo-graveurs of original drawings by eminent artists. The illustrations are fine, but the poetry is the thinnest of the thin, and we can only explain its appearance in this elegant form by the supposition that the author has means, as well as literary ambition, and is willing to pay for his amusements like a gentleman. Messrs. J. B. Lippincott, Philadelphia, are the publishers of this volume as well as one which restores the average. This last is a handsomely illustrated volume of Thomas Buchanan Read's "Closing Scene." Designs and engravings are alike, fine, and the poetry by the author of Sheridan's ride is their fit accompaniment. Hamilton Gibson, Bruce Crane, E. H. Garrett, Will H. Low, J. Francis Murphy, Chas. Melville Dewey, H. Bolton Jones, D. W. Tryon, W. L. Taylor, Howard Pyle and James B. Sword are the designers, and the engravers are of equal reputation in their line. It is a handsome and in every way desirable presentation volume.

Under the title of "Origin, History, Laws, and Regulations of the United States Naval Asylum, Philadelphia, Pennsylvania," Lieut.-Comdr. C. H. Stockton has compiled a concise and complete pamphlet, whose title is its table of contents. What is to be especially commended, in addition to the clearness of the work, is the very excellent index which doubles the value of the thirty-five pages containing the account of this worthy and interesting institution. This historical summary was carried out by direction of Commo. Harmony, Chief of the Bureau having charge of the Naval Asylum, from whom copies can be procured.

Captain Willard Glazier has been served by Mr. Henry D. Harrower much as it was once customary to serve undesirable characters in rural districts, by ducking them in the horse pond, the headwaters of the Mississippi in this case being substituted. Glazier has not merely been ducked but fairly drowned, and we are not likely to hear any more of his impudent claims to discovery. He professed to be the

ROYAL



BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

original discoverer of the little lake from which the waters of the Mississippi commence their flow. Doubting the discovery, an investigation was made, and it has resulted in a complete exposure of Glazier's bogus claims to be the discoverer of a stream which has been visited over and over again and is marked out on several maps, the oldest dating from 1832. It is not only shown that he did not discover the lake, but that he has plagarized his account of it, so that he must have known of its discovery and description by others. Ivison and Blakeman publishers.

The article in the January number of *Scribner's Magazine*, on "Our Defenceless Coasts," by Captain F. V. Greene, is noticeable as containing a clear statement of the plans favored by the best engineers for fortifying New York Harbor. While there has been a great abundance of destructive critical writing on the subject, the public has a very indefinite idea as to what it has been proposed to substitute for the existing so-called fortifications.

Edgar S. Werner, 48 University Place, publishes "Essays and Postscripts on Elocution," by Alexander Melville Bell, author of several works in the line of this. Perhaps if our officers studied it diligently they might redeem their reputation for easy public speaking, which is not now of the highest, in spite of the fact that some few have learned to wield their tongues as deftly as their swords.

MAGAZINE GUNS ABROAD.

A FOREIGN correspondent, in an article on "Magazine rifles," says: "France has already improved the the far-ranging 'fusil Gras' into a rifle with 12 cartridges in the magazine, and which can be discharged per minute with unaltered sights. Germany has armed 120,000 infantry with the lately altered 'Mauser' rifle, and Austria is weekly contending to adapt a similar number from the Werndl rifle. Italy will, if the recent invention of an officer named Teneuti, of the 3d Grenadier Regiment at Leghorn, be adopted, transform 80,000 before the New Year; and even the Swiss Confederation has obliged the militia infantry of the country to use the Wetterly rifle, now changed into a magazine-feeding weapon. The Italian infantry and the cavalry carbines are of the Wetterly pattern. The soldier-monarch of Italy will, on his arrival at Rome, personally witness the adaptation of the magazine-feeding Wetterly during some of Tenenti's experiments near the city."

FOREIGN ITEMS.

THE number of men raised during 1885 in the three divisions of Great Britain was: England, 31,149; Scotland, 4 112, and Ireland, 4,291. These figures dispose of the idea so common that Ireland supplies the bulk of the rank and file of the Army.

FIVE thousand French soldiers died of cholera unheeded in the marshes around Hanoi and Hue in the present year, and seven thousand in past years, and no political man minded, only in so far as it affected his chances of being re-elected to a seat in the Chamber.

THE German Military Budget, which has just been submitted to the Federal Council, shows that the

HISTORY OF THE SECOND ARMY CORPS.

By FRANCIS A. WALKER, late Superintendent of the Census, Adj.-Gen. U. S. Volunteers. Illustrated with Portraits and many Maps. 1 vol., crown 8vo, $4.00.

General Walker served through the war with the famous Second Army Corps, and writes, therefore, from personal knowledge; but, aside from this qualification, he is to an unusual degree fitted for the task of preparing this historical and personal account of the Corps by his gift for vivid and powerful writing. The Second Army Corps was one of the five original corps organized by President Lincoln. It remained in service during the entire war, captured forty-four Confederate flags before it had lost a color of its own; numbered among its commanders, Sumner, Couch, Warren, Hancock, and Humphries, and among its Generals of Division, Sedgwick, Howard, Miles, Webb, Gibbon, French, Barlow, and Birney; made the greatest assault at Mary's Heights; bore the brunt of Longstreet's charge at Gettysburg; made a noble record at Spottsylvania; fought the last infantry battle of the war against the Army of Northern Virginia, and left nearly 40,000 men on the various fields of Virginia, Maryland, and Pennsylvania. The history of the Second Army Corps, by virtue of its extraordinary activity and achievements, is really the history of the war in the East, and the exceptional value of Gen. Walker's work is self-evident.

TALKS WITH SOCRATES ABOUT LIFE.

By the Author of 'Socrates' and 'A Day in Athens with Socrates.' 1 vol., 12mo. Paper, 50 cents; cloth, $1.00.

This book belongs to the series of translations from Plato, begun four years ago by the publication of the volume 'Socrates,' of which 6,000 copies have already been sold. The work of the anonymous translator was at once pronounced by scholars to be far superior to any ever before given in English in a form for popular reading. This new book, from the hand of the same translator, gives readings from 'Gorgias' and 'The Republic' of Plato, and promises to be quite as successful and useful as its predecessors.]

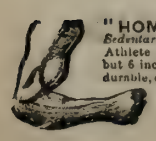
*** These books are for sale by all booksellers, or will be sent, post paid, on receipt of price, by

CHARLES SCRIBNER'S SONS,
743 and 745 Broadway, New York.

A Book of Stirring Adventure.

Sketches From My Life.

By the late Admiral HOBART PASHA.
With a Portrait.



This brilliant and lively volume contains, in addition to numerous adventures of a general character, descriptions of slaver-hunting on the coast of Africa, blockade-running in the South during the civil war, and experiences in the Turkish navy during the war with Russia.

"A memoir which enthralls by its interest and captivates by its ingenuous modesty. ... A deeply interesting record of a very exceptional career."—*Pall Mall Gazette.*

"The sketches of South American life are full of interest. The sport, the inevitable entanglements of susceptible middies with beautiful Spanish girls and the sometimes disastrous consequences, the duels, attempts at assassination, and other adventures and amusements, are described with much spirit. ....The story of his slaver-hunting carries one back to boyish recollections of Captain Marryat's delightful tales.....The sketches abound in interesting details of the American war. It is impossible to abridge the account of these exciting rushes [blockade running] through the line of cruisers—our readers must enjoy them for themselves."—*The Athenæum.*

12mo, paper cover, 50 cents; cloth, $1.00.

D. APPLETON & CO., Publishers,
1, 3 and 5 Bond St., New York.

"HOME EXERCISER" *for Brain-Workers and Sedentary People.* Gentlemen, Ladies, and Youths, the Athlete or Invalid. A complete gymnasium. Takes up but 6 inches square floor-room; something new, scientific, durable, comprehensive, cheap. Send for circular. "HOME SCHOOLS FOR PHYSICAL CULTURE," 16 East 14th St. and 713 5th Ave., N. Y. City. Prof. D. L. Down Wm. Blaikie, author of "How to Get Strong," says of it: "I never saw any other I liked half as well."

WILBUR'S COCOA-THETA

The Finest Powdered Chocolate for family use. *Requires no boiling.* Invaluable for Dyspeptics and Children. *Buy of your dealer or send* 10 *stamps for trial can.* H. O. WILBUR & SONS, Philadelphia.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL,
20 Nassau St., New York.

BOOKS FOR VETERANS, Regulars, and Volunteers.

Uncle Sam's Medal of Honor.—An account of some noble deeds for which it has been conferred in the United States. By THEO. F. RODENBOUGH, Bvt. Brigadier-General, U. S. A. Octavo, with 106 illustrations (portraits and battle-scenes).....$2.00

The United States Medal of Honor was instituted by Congress in 1862, and is similar in character to the "Badge of Merit" instituted by Washington, the Victoria Cross, etc. It is the only authorized military decoration for valor in this country, and this volume has been planned to present some of the most stirring and dramatic incidents connected with the history of the medal.

One of them, "A Minnesota Boy's First Battle," is a graphic statement of the experiences of a young volunteer who was wounded at Bull Run. Another, "Three Thinking Bayonets," modestly tells how, single-handed, the narrator saved a cannon from capture by the enemy. "Red Cloud's Baptism of Fire" is the story of a famous battle between twenty-eight white soldiers and three thousand Sioux.

Flags are captured, wounded comrades are rescued under deadly fire, and curious adventures on the frontier are related in a plain "camp-fire" fashion—principally by men in the ranks.

"Young America" will find this book a wholesome substitute for the dime novel, while "Our Veterans" can rely on the historical accuracy of the statements.

Recollections of a Private Soldier.—A narrative by one who fought in the ranks through the long campaigns of the Army of the Potomac. By FRANK WILKESON. Uniform with EGGLESTON'S "A Rebel's Recollections." 16mo, cloth, $1.00

It is the idea of the writer that existing war narratives are too exclusively from the point of view of the commanders, and that some account of what was being said and thought by the men in the ranks will possess personal interest and historical value.

A Rebel's Recollections.—By GEO. CARY EGGLESTON (late of the Confederate Army). Third edition. 16mo, cloth, $1.00

This volume makes a curious complement to that of Mr. Wilkeson, presenting a graphic picture of the way things looked to a private in the Army of Northern Virginia.

"The author deserves the thanks of all true Americans .....His sketches are models of characterization."—*Philadelphia Bulletin.*

The above for sale by all dealers, or sent by mail on receipt of price by the publishers,

G. P. PUTNAM'S SONS,
27 and 29 West 23d St., New York.

"THE LEE BOOK," a companion to the "Grant Book." The personal memoirs of R. E. Lee, edited by his former military secretary, Gen. A. L. Long, and embracing much material of a private and personal nature never before published. Agents are reporting great sales—one took 79 orders in one day. Large octavo volume, fully illustrated with steel plates, etc., containing the maps used by Lee in his campaigns, together with a large map of the entire seat of war, from Gettysburg to Appomattox. permanent expenditure is 267,577,000 marks, being an increase of 4,226,000 marks on the preceding year, and there was an increase of 12,476,000 marks in the casual expenditure.

SOME ugly stories are in circulation with regard to the mismanagement of the Transport Department in Burmah. One correspondent mentions an instance in which a European regiment was kept waiting on the strand bank at Rangoon for a whole day in the burning October sun, without an awning or any other shelter than that afforded by a few straggling cocoanut trees. Another correspondent tells of men suffering from dysentery, fever, and other complaints, and of their wanting the most necessary comforts. 900 men of the Queen's Regiment were carried by steamer which has only accommodation for 600, and, as a result, the men suffered a great deal from the overcrowding.

THE *Army and Navy Gazette* reports that a formidable looking monster, in the shape of a submarine torpedo boat on an entirely novel principle, has been tried in the West India Docks, London. The boat is cigar-shaped, built of steel ⅜ in. thick, 60 ft. long, with 8 ft. beam. She is driven by electricity developing 45 h.-p., and is to be provided with an exit-chamber, so that she should be valuable for mining and countermining, besides carrying torpedoes. The principle on which she acts is not divulged. She does not sink by means of taking in water or by screws requiring a full head of steam to work them, for she can be lying peacefully on top when, by merely turning a wheel inside, she will disappear almost instantaneously on an even keel. The three gentlemen interested in her, with three engineers, went down in her to the bottom of the docks, about 17 feet, and rose and fell at pleasure. Once they stayed down about three-quarters of an hour, and tried a number of experiments, all of which were very satisfactory, and they discovered they had a far greater reserve of rising power than they imagined.

PERSONAL.—EVERY LADY should read Dress and Remnant Silk advertisement on page 401.

PLEASANT, WHOLESOME, SPEEDY. Three adjectives that apply to HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

The determination of the manufacturers to furnish the smoker a strictly first class Havana-filled Cigar at 5c. accounts for the wonderful demand for "Tansill's Punch."
Old smokers prefer "Tansill's Punch" 5c. Cigar to most 10 centers.
"Rich," "Fragrant," "Fine," are the expressions of those who smoke "Tansill's Punch," the old reliable 5c. Cigar.
A million a month! no other cigar in the world can show such a wonderful record as "Tansill's Punch."

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

CARLETON.—At College Station, Tex., Nov. 25, 1886, to the wife of Lieut. Guy Carleton, 2d U. S. Cavalry, a daughter, Cora Arthur Carleton.

BAUCH.—At New York City, ANTHONY BAUCH, late Sergt. Battery A, 5th U. S. Artillery.

FAXON.—At Southborough, Mass., Nov. 30, 1886, Mrs. G. N. FAXON, sister of Paymaster General G. F. Cutter, U. S. N., retired.

GREENE.—Of diphtheria, at the residence of his parents No. 109 East Thirty-first Street, New York, on Saturday morning, December 4, 1886, DONALD CAMERON, son of Francis Vinton and Belle Chevallie Greene, aged 4 years, 11 months and 8 days.

HOBBS.—At Newport, R. I., Dec. 3, 1886, the infant daughter of Paymaster I. G. Hobbs, U. S. Navy.

HOGARTY.—At Quindaro, Kas., Nov. 18, 1886, HERBERT S., son of Capt. W. P. Hogarty, U. S. A., retired, aged 3 years.

HOGARTY.—At Quindaro, Kas., Nov. 20, 1886, KATTIE E., daughter of Capt. W. P. Hogarty, U. S. A., retired, aged 7 years.

LEWIS.—At "Bellemonte," near Alexandria, Louisiana, December 5, 1886, Mrs. ELLEN GRAVES LEWIS, mother of Mrs. Charles A. Vernou.

RAY.—At Mare Island, Cal., Nov. 28, 1886, ROSS RAY, father of Mrs. E. F. Qualtrough.

STEWART.—At San Francisco, Cal., Nov. 24, 1886, CECELIA SOPHIA DE LOUVILLE STEWART, wife of Col. Chas. S. Stewart, U. S. Army.

ANDRUS.—At Boise Barracks, Idaho, Nov. 28, 1886, MAUDE GRIFFITH, wife of Lieut. Frank B. Andrus, and daughter of Major Wm. H. Powell, U. S. A.

Born, reared, and married in the 4th Infantry, she has known no other home than that of the Army, and many an old officer will recall to memory the little girl they knew as Maude Powell. Winsome in her childish life, pure, truthful and joyous in her maidenhood, her womanly character developed into one of Christian sublimity, and sweet charity crowned the whole. But she has given a life for a life, and calmly passed to the other side of the dark and troublous river which marks the boundary of the illimitable beyond. The untiring zeal and professional devotion of her physician, Capt. A. C. Girard, assistant surgeon, U. S. A., could not stay the hand of death, but satisfied her relatives and friends that all was done that mortal skill could accomplish to keep life in her body. With her he was as gentle as a father, as devoted as a brother, and unflinching as a soldier, in his battle with disease.

At a meeting of the enlisted men of Co. G, 4th U. S. Inf., held at Boise Barracks, Idaho Territory, Nov. 29, 1886, the following preamble and resolutions were unanimously adopted, viz.:

Whereas, In view of the loss we have sustained by the decease of the wife of Lieut. F. B. Andrus and daughter of Major Wm. H. Powell, of Co. G, 4th Infantry, and of the still heavier loss sustained by those who were nearest and dearest to her, therefore be it

Resolved, That it is but a just tribute to the memory of the departed to say that in regretting her removal from our midst we mourn for one who was in every way highly respected and esteemed by all.

Resolved, That we sincerely condole with the family of the departed on the dispensation with which it has pleased Divine Providence to afflict them, and commend them for consolation to Him who orders all things for the best.

Resolved, That this heartfelt testimonial of our sympathy and sorrow be forwarded to the family of the deceased.

CHARLES MAYER, Sergt. Co. G, 4th Inf., Prest.

CORRUGATED BOILER FLUES,

MONTGOMERY'S PATENT:

MANUFACTURED

Of All Sizes, from the Best Open Hearth Steel Plate,

By THOMAS F. ROWLAND,

CONTINENTAL WORKS,
GREENPOINT, BROOKLYN, N. Y.

Castings from Gun-Iron a Specialty.

SCRIBNER'S MAGAZINE

First (January) Number Ready December 15th.

SCOPE.—SCRIBNER'S MAGAZINE will be in the widest sense a magazine of general literature; and its main purpose will be to bring together not only good reading, but literature of lasting value.

ILLUSTRATION.—Each number will be fully illustrated, and in a manner which shall be in the best sense *illustrative* of the text. The artistic side of the magazine will represent the most spirited, sincere, and original work.

Among the many interesting and important papers to be printed in the Magazine during the first year are the remarkable series of

UNPUBLISHED LETTERS OF THACKERAY,

the existence of which has only recently become publicly known, and concerning which the greatest expectation and curiosity have been aroused. Their importance and interest will more than justify this. Nothing more characteristic or of greater autobiographic value has been published, and no such study of the great novelist's life has been hitherto possible. *Fac-similes of unpublished drawings will accompany the Letters.*

Several articles giving very striking personal views of great historic events and periods; notable among them

Ex-Minister E. B. Washburne's Reminiscences of the Siege and Commune of Paris,

told by him from his papers, private diaries, and personal recollection of an experience absolutely unique, as he was the only member of the Diplomatic Corps remaining in the city and in communication with the changing governments during this whole period. The articles will all be fully illustrated from original material in the author's possession.

Glimpses at the Diaries of Couverneur Morris,

U. S. Minister to France at the close of the last century, will give an idea of the interesting and piquant pictures of social life and characters of the time of the French Revolution, which exist among the great unpublished portions of the Morris papers that relate to his residence in Paris.

In FICTION there will be many notable attractions. The publishers expect to begin during the present year the publication of a striking novel, which has been arranged for with

Robert Louis Stevenson,

who will also contribute a shorter story to an early number.

With the earliest numbers will be begun a very strong and original

Novel, by Harold Frederic,

entitled "Seth's Brother's Wife," the scene of which is laid in a new field—Central New York.

A Story, by H. C. Bunner,

which has to do with a most interesting phase of New York life, will prove especially attractive and original in its subject and method. It is illustrated by A. B. Frost, Hopkinson Smith and George Wharton Edwards.

Among the other interesting features of the first numbers will be:

A Novelette by

J. S. OF DALE (F. J. STIMSON).

Short Stories by

JOEL CHANDLER HARRIS,
T. A. JANVIER (IVORY BLACK),
SARAH ORNE JEWETT,
OCTAVE THANET,
H. H. BOYESEN,
MARGARET CROSBY,

and many other well-known authors, besides notable stories by new writers.

FRANCIS A. WALKER contributes a striking article on SOCIALISM.

REV. WILLIAM HAYES WARD (Editor of *The Independent*), writes of the BABYLONIAN SEAL-CYLINDERS—the paper will be beautifully illustrated.

JOHN C. ROPES gives an exquisitely illustrated paper upon the EXISTING LIKENESSES OF CÆSAR;

CAPT. F. V. GREENE, U. S. Engineers, a suggestive article on our Coast Defences;

EDWIN H. BLASHFIELD a most interesting study in art history with drawings by the author.

Many other important illustrated articles and papers upon literary topics, etc., etc., are reserved for later announcement.

$3.00 A YEAR; 25 CENTS A NUMBER.

Persons subscribing now will receive the first number as soon as published.
Remittances should be made by check or money order.

FACTORIES: 69 Walker St., and Vienna, Austria

AN EXTRAORDINARY RAZOR

HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers),
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F. and Fifteenth Streets, Washington, D. C.

Havin been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refer to Gen W. S. Rosecrans, Register U. S. Treasury, Washington, D. C; Hon. John S. Williams 3d Auditor U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday Sergt.-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.

Assets, - - - - - - $17,846,546 65
Liabilities, - - - 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,
POST OFFICE SQUARE.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 21.
WHOLE NUMBER 1217.

NEW YORK, SATURDAY, DECEMBER 18, 1886.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

WE note that a Sergeant of Artillery has recently been reduced to the ranks for "drinking with private soldiers" and other offences. This is a just punishment; nothing is more hurtful to discipline or to the interior economy of companies than an undue familiarity, on or off duty, between non-commissioned officers and privates. We infer, from an occasional perusal of Court-martial literature, that there is scarcely as much strictness in this respect as there might, or ought to be.

THE WATSON longevity pay case, appealed from the Court of Claims to the Supreme Court by the Government in October last, will not be reached in its regular order for the next three years. There is a rule, however, under which the case could be argued in brief during the present term, and it is expected that the counsel for WATSON will endeavor to take advantage of this rule. No briefs have yet been filed.

CAPTAIN J. G. BALLANCE, U. S. A., in a recent report on desertions, says, with reference to certain statistics collected by him: "However much one may theorize on the causes for desertions, the causes are usually subordinated to the desire to obtain a 'stake,' for the greater part of the desertions occur in the months of January, March, May, July, September, and November; the months in which the men receive their pay." This prompts a repetition of the recommendation we have so frequently made: "Pay oftener."

THE Philadelphia *Press* (Rep.) says editorially: "It is unfortunate for Mr. CLEVELAND'S administration that there is not more of Secretary WHITNEY'S energy, good nature and square-toed combativeness in the other members of the cabinet. We don't mind acknowledging at this juncture, as it were, that there is more genuine American pluck and pugnacity in the Navy Department that any other branch of the administration. People like it." Secretary WHITNEY is certainly showing the courage of his opinions, and as a result the Navy Department is getting such a stirring up as it has not had before in our recollection. It is to be hoped that he will succeed in reorganizing it on a more efficient basis.

FROM Ireland we learn that Mr. PURSER, who for more than forty years has been the brewer or chief official of Guinness's, received a few days ago a letter of "thanks" from Sir Edward Guinness, inclosing a check for $1,085,000, as a parting souvenir. Governments and Congresses will please take notice, and endeavor to emulate, partially at least, when bestowing rewards for long and faithful service, this magnificent token of recognition by a private individual. Fancy the astonishment of our officers of more than forty years honorable service if each of them should receive a check for a round million with the thanks of a grateful country! Even the division of this amount among the whole list would be received with becoming gratitude.

MAJOR-GENERAL HOWARD, in his annual report, says: "A well equipped gymnasium, with an efficient instructor in charge, who should train the men in physical development, would be a sensible addition to each post. 'Assaults at arms,' and athletic exhibitions, might be especially encouraged at stations adjacent to large cities, and thus evidence to a class desirable for recruits, some of the attractions and advantages of the military service." The subject is not new, but it is one which deserves more general attention than it has yet received. We are aware that at some posts the utmost possible, with limited facilities, has been done in the direction indicated, but the great majority of the posts, we infer, have done little or nothing. We commend the matter to the consideration, with a view to speedy action, of all post commanders.

IN the event of a bill passing Congress providing for the appointment of an Assistant Secretary of War, as so urgently recommended by the Secretary of War, there are good reasons for believing that the present efficient Chief Clerk, Mr. JOHN TWEEDALE, will be appointed to the new office. Mr. TWEEDALE is now a *de facto* Assistant Secretary, and as he is a favorite with Secretary ENDICOTT, the Secretary, it is believed, would cheerfully make him an assistant *de jure* if empowered to do so. It is thought that the House Committee on Appropriations will include an item in the Legislative bill, which is now under consideration, for an Assistant Secretary, but as such an item could be ruled out on a single objection, the chances are that the desired legislation, if enacted, will be through a special bill. A bill for the purpose, in charge of Mr. STEELE, has been pending on the House Calendar since last session.

THE New York *Times* well says: "The appointment of a Board of Survey to see whether the *Kearsarge* shall be repaired or condemned, and the impression at Portsmouth, where she is lying, that the latter will be her fate, may well stir patriotic sentiment. No existing vessel of the American Navy, not even the *Hartford*, possesses more historic interest than the gallant craft with which WINSLOW sent the *Alabama* to the bottom. In all the annals of our Navy, rich as they are in stirring incident, there is nothing more exciting than that famous duel of vessels off Cherbourg. It would be hard, too, to name any single combat of war ships surpassing that in national and international importance. There would be a feeling of regret at seeing the *Kearsarge* dismantled and broken up; and when this fate comes to her, as it soon must, she will be as worthy of a farewell verse as was the famous *Constitution*, the lowering of whose 'tattered ensign' inspired so many years ago the muse of HOLMES."

IT is evident from the statements contained in the annual reports to Congress that our relations with Mexico are in a condition which will tax the resources of diplomacy to the utmost if we are disposed to insist upon our rights. The report of the Secretary of War fully justifies all that we have said with reference to the case of Captain CRAWFORD. The marvel is that the outrage should have excited so little feeling, and so little interest beyond Army circles. Neither the Lieutenant-General nor the Adjutant-General seems to have been moved to lay any stress upon it, though it would seem to have been quite in place for them to ask that some action should be taken which would make it evident that our officers could depend upon support and protection of the Government when executing its orders on foreign soil. More disposition is shown to lay stress upon the case of CUTTING, which involves a dispute with Mexico *à l'outrance* as to the right to punish Americans for offences committed on their own soil against Mexican law. Experience shows that such a dispute with Mexico is not likely to result in any conclusion satisfactory to us and it will be long before we shall see the last of it.

THE British military authorities seem to be waking up to the importance of carrier pigeons for war purposes, which leads the *Horse Guards Gazette* to say: "It is astonishing how apt we English are to stand stolidly looking on while other nations are taking advantage of, or perfecting for their own benefit, some new or newly-revived idea. Then, all of a sudden, we wake up, and with prodigious fuss and hurry betake ourselves, at vast expense, to imitate the doings of other people. . . . There are now over fifty military pigeon stations dotted about the Continent, possessing among them more than half-a-million available trained birds. Does it not seem marvellous that, although fifteen years have elapsed since the Franco Prussian War, we have taken no steps whatever in the matter, and do not possess a single pigeon station? This must be the result of sheer apathy and indifference; or, is it not rather mere pigheaded obstinacy and determination to resist the acceptance of any new idea, however obviously useful?" The *Gazette* concludes its pointed criticism by suggesting to retired officers of both services with plenty of leisure, and who find time hang heavy on their hands, that in training pigeons they would find an amusing and inexpensive pastime, while they would be doing good service to their country.

WHATEVER may have been the motive underlying the proposition of the Chairman of the Committee of Appropriations of the House in desiring to turn over to the Committee on Naval Affairs the estimates for the naval establishment hitherto incorporated in the Sundry Civil bill, it is unquestionably the correct thing to do. In 1870, when all the appropriations were under one committee, originated the vicious practice of putting items that were a legitimate portion of the expenditures for the naval establishment, such as dry docks and works of like character, upon the Omnibus bill, in order to keep the apparent expenditures on account of the Navy at a low figure. The plea that these were public works and therefore should go outside of the Navy bill was but a subterfuge; and it is certainly a good thing that the practice is likely to be changed, for we presume that the final decision of the Committee on Rules will be that all naval items are to go to the Naval Committee, as Mr. HERBERT contended they should do. It is characteristic of the latter gentleman's candor that he should have been willing to change his mind over Sunday, for on Saturday last he traversed the position assumed by Mr. RANDALL, on the ground that if these items belonged to the Naval Committee this year, they should have been sent there last year; and further that if the Appropriation Committee did not assume responsibility for them, they should not assume that for works of like character with which the Army was concerned. It is for the best interests of each branch of the Service that all of the sums appropriated for its maintenance should be under one committee, and that the present arrangement by which the Service committees have charge of their appropriations is the fairest to all concerned. For that matter we do not see why the appropriations for the Hydrographic Office, the Nautical Almanac and the Naval Observatory should not be under the jurisdiction of the same committee, and be incorporated with the Naval bill.

PERSONAL ITEMS.

CAPTAIN E. H. LISCUM, on leave from Fort Ringgold, Tex., is visiting at Elmira, N. Y.

COLONEL CHARLES SUTHERLAND, U. S. A., was a visitor at Fort Ontario, N. Y., this week.

GENERAL F. T. DENT, U. S. A., attained his sixty-sixth birthday on Friday of this week, Dec. 17.

LIEUTENANT O. B. WARWICK, 18th U. S. Infantry, of Fort Riley, will spend the winter in Mexico.

ASSISTANT SURGEON G. F. WILSON, U. S. A., left Fort Shaw, Montana, this week on a month's leave.

GENERAL D. B. MCKIBBIN, U. S. A., has located for the winter at 202 Delaware avenue, Washington, D. C.

LIEUTENANT C. G. AYRES, 10th U. S. Cavalry, has taken charge of recruiting matters at Fort McDowell, Ariz.

CAPTAIN E. H. LISCUM, 19th U. S. Infantry, who is on sick leave, is residing at 393 Jefferson avenue, Brooklyn, N. Y.

MAJOR C. H. WHIPPLE, U. S. A., left Fort Keogh this week on a fortnight's leave, and will rejoin about New Year's.

CAPTAIN J. T. MORRISON, 10th U. S. Cavalry, has left Fort Apache, Ariz., for the East on a six months' sick leave.

LIEUTENANT EUGENE CUSHMAN, 16th U. S. Inf., on leave, from San Antonio, is visiting at 378 Gates Avenue, Brooklyn.

LIEUTENANT B. C. MORSE, 23d U. S. Infantry, will leave Fort Mackinac, Mich., next week to spend the holidays with friends.

LIEUTENANT HAMILTON ROWAN, 2d U. S. Artillery, of Fort Leavenworth, is spending the holidays with his relatives in the East.

SURGEON C. R. GREENLEAF, U. S. A., has arrived in Chicago, for duty, and finds many old friends in that city to welcome him.

LIEUTENANT W. WALKE, 2d U. S. Artillery, rejoined at Fort Monroe, Va., early in the week from a few days' visit to Baltimore.

CAPTAIN S. R. STAFFORD, 15th U. S. Infantry, on a few weeks' leave from Fort Randall, D. T., is visiting in New York City and vicinity.

LIEUTENANT J. T. THOMPSON, 2d U. S. Artillery, leaves Little Rock, Ark., this week to spend the holidays with relatives in Cincinnati.

LIEUTENANT A. G. TASSIN, 12th U. S. Infantry, has rejoined at Madison Barracks, N. Y., from a few weeks' visit to friends at Wilbraham, Mass.

LIEUTENANT A. L. SMITH, 4th Cavalry, lately at St. Joseph, Mo., on sick leave, was expected at Jefferson Barracks, this week, to conduct recruits to Arizona.

LIEUTENANT J. S. PETTIT, 1st Infantry, is recovering from his wound, and he and his bride will spend the winter in a climate where his restoration to health will be accelerated.

CHAPLAIN B. C. HAMMOND, U. S. A., of Fort Davis, Tex., has taken the editorial chair of the Presidio County *News*, and being possessed of much literary ability finds himself at home.

LIEUTENANT C. P. ELLIOTT, 4th U. S. Cavalry, and bride (recently married at Fort Bowie, Ariz.), are now on their wedding tour, and will rejoin there about the middle of February.

LIEUTENANT D. E. MCCARTHY, 12th U. S. Infantry, recited, with much effect, "Who'll Save the Left," at a select entertainment at Leavenworth, Kansas, on Monday evening of this week.

LIEUTENANT COLONEL W. F. DRUM, 12th Infantry, recently promoted, is at present Inspector General, Department of Arizona, and may not join his new regiment in the East for some time to come.

MAJOR GENERAL O. O. HOWARD, U. S. A., has declined to be chairman of a committee appointed in San Francisco, to push forward the enactment of a Sunday law against the sale of liquor, deeming his position as an Army officer not to warrant acceptance.

THE books, casts and anatomical preparations and specimens, recently purchased at the sale of the late Dr. Frank H. Hamilton's effects in New York, will soon be arranged at the Army Medical Museum and Library at Washington. The purchases were made by Major John S. Billings, Surgeon, U. S. A.

COLONEL E. C. MASON, inspector general Department of Dakota, has returned from an inspection of the Shattuck Military School at Faribault. He was greatly pleased with his visit. The school contains 177 cadets in an excellent state of discipline, and they made a very creditable display on the parade ground.—*Pioneer Press.*

THE Silver City *Sentinel*, referring to the departure of Surgeon Van Buren Hubbard, U. S. A., from Fort Bayard, N. M., says: "In the prompt and conscientious discharge of every duty, in kindness of heart and consideration for others, the doctor has few superiors. The sick at Bayard will miss his familiar face and cheery ways for many a day, and his subordinates in the medical department a kindly master."

THE name of Wm. P. Chambliss seems to have been the occasion of a dispute between the two houses of Congress, which was referred to a Conference Committee. On Wednesday of last week they reported that the Senate had receded from its determination to call him Chamliss, and, the report being agreed to, he will be restored to the Army upon the retired list as major. Major Chambliss is well known to many officers of the Army and Navy who have enjoyed his hospitality at Coburg, Canada W. He is a native of Virginia, and entered the 2d Cavalry as 1st Lieutenant March 3, 1855; resigned as Major Nov. 1, 1867, having received the brevet of Major for gallant service at Warwick Creek, Va., and that of Lieutenant-Colonel for gallant service at Gaines's Mills, Va.

CAPTAIN H. S. TURRILL, assistant surgeon, has recently taken charge of medical matters at Fort Spokane, Wash. Ter.

LIEUTENANT C. B. SATTERLEE, 3d U. S. Artillery, left Washington Barracks on Tuesday on a short leave of absence.

COLONEL P. C. HAINS, Corps of Engineers, U. S. A., registered at the Metropolitan Hotel, New York City, on Monday.

LIEUTENANT-GENERAL SHERIDAN, says an exchange, has reappeared in Washington younger looking than he was a year ago.

MAJOR-GENERAL A. H. TERRY, U. S. A., and his aide, Col. G. F. Towle, are recent visitors at Fort Douglas and Salt Lake City, Utah.

MRS. CUSTER is proposing to write a concise account of General Custer's career on the frontier, extending over a period of nineteen years.

CAPTAIN M. C. WILKINSON, 3d U. S. Infantry, visited in St. Paul a few days ago and afterwards left for the East to spend a two months' leave.

COLONEL W. J. VOLKMAR, U. S. Army, arrived at Vancouver Barracks last week to take charge of the A. G. O. Hdqrs., Dept. of the Columbia.

LIEUTENANT L. D. GREENE, 7th U. S. Infantry, arrived in New York this week from Rock Springs, Wyo., to remain for about two months. He is stopping at 64 Clinton place.

LIEUTENANT THOMAS H. BARBER, late of the 1st U. S. Artillery and A. D. C. to Major-Gen. Hancock, has been appointed assistant adjutant general of the 1st Brigade, N. G. S. N. Y.

THE sculptor, Ezekiel, has lately finished a little figure, life-sized, of General Lee as a boy, which is to be placed in front of the house wherein he was born at Westmoreland County, Virginia.

LIEUTENANT W. E. AYER, 12th U. S. Inf., of Fort Ontario, conducted with great success, at the Hospital Fair held last week at Oswego, a broom drill by 24 young ladies. The drill was enthusiastically applauded, and the hope expressed that it would be repeated.

GENERAL J. A. EKIN, U. S. A., who was Secretary of the Board of Trustees which erected the recently burned Opera House at Washington, formerly the Young Men's Christian Association building, relates some interesting reminiscences of the history of the enterprise.

ACCORDING to the San Francisco *Report*, Army officers predict that within five years the Apaches who have been moved to Florida will be all dead. They have been reared among the mountains and in pure, dry air. The hot, moist atmosphere coming from the everglades will prove fatal.

FOLLOWING are the admissions to the Army Mutual Aid Association since Oct. 20: Asst. Surg. Chas. C. Barrows, Asst. Surg. A. R. Chapin, Lieuts. R. B. Paddock, 6th Cav.; P. E. Trippe, 10th Cav.; D. H. Boughton, 3d Cav.; D. E. McCarthy, 12th Inf.; W. M. Dickinson, 4th Cav.; Henry C. Newcomer, Corps of Engrs.; Chas. Dodge, Jr., 24th Inf.; Elan F. Willcox, 6th Cav.. Wm. S. Biddle, 13th Inf., and Lieut.-Col. J. S. Brisbin, 9th Cav.

2D LIEUTENANT HARRY FLETCHER, 8th Cavalry, has furnished evidence to the War Department to show that his real name is Harry Fletcher Bateman, and the proof being satisfactory the President has nominated him to the Senate as of the latter name. His entire service as an enlisted man and as a non-commissioned officer was under the assumed name of Fletcher. His recent appointment as a 2d Lieutenant was also made out as of that name.

OFFICIAL notice was received this week from Gen. Lucius M. Fairchild, Commander-in-Chief of the Grand Army of the Republic, to the effect that the National Court-Martial has found H. Clay Hall, Past Commander of the Department of New York, guilty of appropriating to his own use $1,250 of the Department's money, and has sentenced him to be dishonorably discharged and dismissed from the Grand Army. General Fairchild has approved the finding.

A WASHINGTON correspondent writes: "General Miles, with his wife and young son, is at the Ebbitt House, although Mrs. Miles passes much of her time with her sister, Mrs. J. Don Cameron. Those who have heard Gen. Miles's statement concerning the capture of Geronimo think that he did right rather than to have the old chief shot in cold blood. Gen. Miles is the beau ideal of a citizen-soldier and looks as though he could conduct an Indian campaign or head a charge in civilized warfare"

A DOCUMENT written by the Count of Paris has been made public in Paris. He denounces alliances between the Right and the Extreme Left for the simple purpose of hampering the Government. He says: "The monarchy is the Government in reserve. The Conservatives ought not to put themselves out of court by refusing to accept the republic as the working machine until the way is prepared, not by violent means, for the monarchy." He urges them to adopt a programme in favor of the reduction of new public posts and treasury burdens; the maintenance of the five years' military service; the appointment of a non-political general to command the army; the stopping of religious persecution, and the reinstatement of magistrates who will loyally support the Republicans."

MRS. RAYMOND, wife of Dr. H. J. Raymond, Post Surgeon at Fort Gaston, who has been visiting in Indianapolis, has returned to her home on this coast....Major McMurray, of Portland, has returned from his Eastern trip, undertaken for the benefit of his eyes, which have been improved under skillful medical treatment....Lieut. and Mrs. Carrington, of Angel Island, were guests at the Occidental Hotel Tuesday....Lieut.-Col. Isaac D. De Russy, 14th Inf., is ordered to report here....Gen. Witcher, U. S. A., and Mrs. Witcher, have returned for the winter, and have taken a residence on Sutter street....At the hop given at the Presidio Tuesday, Mrs. C. L. Best, Mrs. Bennett and Mrs. Cochrane received the guests. The Floor Committee consisted of Lieut. Van Deusen, Lieut. Bean and Lieut. Faison. —*San Francisco Post.*

LIEUTENANT M. F. JAMAR, 13th U. S. Inf., on leave from Fort Wingate, N. M., is visiting relatives at Baton Rouge, La.

LIEUTENANT J. P. FINLEY, Signal Corps, U. S. A., after a short spell of duty in New York City, has returned to Washington.

ASSISTANT SURGEON C. C. BARROWS, U. S. A., and Mrs. Barrows, of Fort Marion, Fla., are visiting relatives at Jackson, Miss.

QUARTERMASTER D. C. PEARSON, 2d U. S. Cavalry, leaves Fort Walla Walla for the East, to remain until the latter part of February.

MAJOR ANSON MILLS, 10th U. S. Cavalry, lately visiting in the East and at Zanesville, O., will remain on leave for three months longer.

LIEUTENANT P. H. RAY, 8th Inf., has left San Francisco for Fort McDowell, Arizona, and after a short stay there goes to Fort Niobrara, Neb.

COLONEL MONTGOMERY BRYANT, 8th Inf., after a pleasant visit to San Francisco, called there as a witness in the Wever case, has returned to Fort Niobrara, Neb.

ASSISTANT SURGEON C. C. BARROWS, U. S. A., left St. Augustine, Fla., this week to remain absent until February next. During his absence Doctor Webb, a local physician, will take medical charge of the Indian prisoners at Fort Marion.

GENERAL AND MRS. C. H. T. COLLIS, of New York, celebrated their silver wedding a few days ago, surrounded by their children and relatives. Gen. and Mrs. Collis were married during the first year of the war, and Mrs. Collis lived in camp with her husband every winter until its close.

THE marriage of Miss Flora Bigelow, youngest daughter of the Hon. John Bigelow, to Mr. Charles Stuart Dodge, was celebrated Dec. 15, at St. George's Protestant Episcopal Church, New York City. Among those present was a brother of the bride, Lieut John Bigelow, Jr., U. S. A.

DR. WILLIAM A. HAMMOND, according to the Washington *Post*, expects to go to Washington to live soon. He left there 22 years ago with the intention of returning when he had "made a lot of money." He says himself that he shall wait until he has completed 25 years of exile.

GENERAL D. S. STANLEY, in referring to the completion by Capt. J. G. Ballance, Acting Judge Advocate, U. S. A., of the title to Fort Bliss, says: "This is a most excellent work, requiring great diligence and exertion, and this officer merits commendation for bringing this troublesome subject to a successful ending."

GENERAL W. T. SHERMAN, says the *Critic*, is in Washington, the guest of his brother, Senator Sherman. "Old Tecumseh" is a unanimous favorite at the National Capital, and his progress about the city is impeded by the hearty greetings extended him by his hosts of friends. The grizzly old warrior is in splendid form, and will remain several days.

FORTY members of the Gabriel R. Paul Post, No. 101, of Westwood, N. J., with an escort from the John A. Rawlins Post, of Washington, and accompanied by the Senators and members of the New Jersey delegation, visited Arlington Cemetery Dec. 10, and placed a tablet on the grave of Gen. G. Paul, U. S. A., who died last May, and in whose honor the post takes its name.

Harper's Weekly for December contains an interesting sketch, entitled "Christmas on the Rappahannock," by Rev. Dr. Paxton of New York, late Private John R. Paxton, Co. D, 140th Penn. Vols. Dr. Paxton, who is one of the ablest as well as one of the most popular clergymen of the Presbyterian Church, is a member of the New York Commandery of the Military Order.

THE Nashville (Tenn.) *American* corrects a report that Gen. Dabney H. Maury fought a duel at Mobile about the time our late war began, with a French officer named Riviere. It was his cousin, Henry Maury—a wild, reckless fellow, familiarly called "Henry the Devil"—who died after the war. He was a colonel of cavalry in the Confederate States Army for awhile, and afterward was in the navy.

CAPTAIN JOHN P. WALKER, U. S. A., retired, was fined $10 at the Jefferson Market Police Court Saturday morning for disorderly conduct in the store of Ayers, Donnan and Co., New York. He had gone into the place to look for Christmas presents, when his movements excited the suspicions of Mr. Donnan, who watched Captain Walker so closely that his ire was aroused, and, as Mr. Donnan testified, for fifteen minutes swore at him in true frontier style, many ladies being present. Captain Walker had also, when a saleswoman had asked him if he wished to be waited on, made a remark about always being glad to have pretty girls wait on him, and Justice Ford thought that justified a fine. He was also held in $100 for having a pistol in his possession when arrested. Captain Walker is at present attached to the Wild West Show of "Buffalo Bill," where he commands a company of "regulars."

COLONEL FRED. GRANT is now Treasurer of the American Wood Working Co., having an office in Cortlandt St., New York, and is also connected with the Steam Heating Co., having an office in the same building, and with which the Standard Oil people are connected. Jesse Grant is in San Francisco, and Ulysses is attending to the interests of his wife's estate in Mexico. Harrison, General Grant's old body-servant, is reported as saying: "Throughout his whole sickness General Grant's family never knew how much pain he suffered. From the time of his sickness till his death I was not two hours absent from him. Many nights he would walk the floor all night. When the family would ask him in the morning how he had rested he would say, 'pretty well,' and would try to appear cheerful. He had the most terrible pain all the time, and I don't think he had a moment's cessation from pain during those last months. He felt greatly relieved when he had finished his book, and his happiest days were those just before his death. During his whole sickness he never grew irritable or lost his temper. He was the kindest man I ever knew, and he had a great love for his family."

LIEUTENANT C. W. ABBOT, JR., U. S. A., will spend his leave of absence at Norwich, Conn.

CAPTAIN GEORGE D. WALLACE, 7th Cav., has been granted three months' leave for disability.

THE Second Comptroller has allowed the Mexican war claim of Daniel Ruggles, captain Co. A, 5th Inf., for $118.30.

CHAPLAIN MCADAM has left Fort Omaha, and will remain in the city of Omaha until his retirement, August next.

LIEUTENANT J. A. LOCKWOOD, 17th U. S. Infantry, arrived in New York this week and sails for Europe to spend the greater part of the winter in Paris.

MRS. HOWARD, wife of Lieut. Guy Howard, 12th Inf., is visiting at the home of her father, Hon. J. M. Woolworth, Omaha, where her husband will join her to spend the holidays.

MAJOR BURT, 2d Inf., was in Omaha last week, en route to his new station at Fort Robinson. He was formerly stationed at Fort Omaha, while a captain in the 4th Infantry.

GENERAL TERRY, as already mentioned in the JOURNAL, has been on a visit from Chicago to Ogden and Salt Lake City. Returning, he visited Fort Omaha in company with Gen. Crook and several officers of his staff.

THE friends of the late Gen. W. S. Hancock have, as a tribute to his memory, raised a sum of money to purchase a home for his widow. The committee having the matter in charge has decided, after consultation with Mrs. Hancock, to purchase a house in Washington, where, therefore, she will hereafter make her home.

THE Washingtonians think, it appears, that Gen. Sherman will ultimately return to that city to reside. Senator Sherman's purchase last summer of the former home of Secretary Stanton, three doors from his own, and which has for several years been the boarding place of Senator Hoar, is believed to have an intimate connection with the General's plan of returning here.

GENERAL EDWARD HATCH, 9th Cavalry, was in Omaha last Saturday, en route to Fort DuChesne, Utah, where he was ordered from Fort McKinney, Wyo., in order to quell any possible disturbances among the Ute Indians and hasten the completion of the new cantonment. Gen. Hatch was Chairman of the Ute Commission in 1878 and 1879, and has, it is thought, a more extended influence among those Indians than any other officer of the Army.

THE following Army officers are registered at the War Department: 1st Lieut. Frederic V. Abbot, Engrs.; 2d Lieut. S. D. Freeman, 10th Cav.; Captain E. H. Ruffner, Engrs.; Brig.-Gen. J. H. Potter; 2d Lieuts. C. L. Beckurts, 6th Inf.; H. C. Benson, 4th Cav.; and F. V. King, 8th Inf.; Capt. J. R. Campbell, 4th Art.; Maj. J. Brooke, Med. Dept.; Colonel R. I. Dodge, 11th Inf.; 1st Lieut. James Allen, 3d Cav.; Col. R. S. Granger, retired; 1st Lieut. Geo. F. Cooke, 15th Inf.

LESTER S. BARTLETT, the President of the Spencer-Lee Arms Co., is reported as saying, "that nearly every European Government has agents now in this country making inquiries about arms." "There have as yet been no large orders given," said he. "The policy is to locate all the arms that are available for purchase, ascertain prices and then await the course of events. They do not want to buy if war is averted, but they evidently expect trouble since they have come over here to see what they can do in case of war."

A DESPATCH from Washington says: "A number of Army and political friends of General W. F. ('Baldy') Smith are arranging to bring him before the President as one well fitted for the position of Superintendent of the Coast Survey. The movement is without his knowledge. His friends urge that his services in the Army as an engineer, and his proficiency in those scientific branches which pertain to the successful administration of the Coast Survey are so well known in official circles as to make their case strong from the start."

GEORGE BADEN-POWELL, C. M. G. and M. A., of Balliol College, Oxford, F. R. A. S. and F. S. S., one of the greatest living English authorities on colonial and politico-economic subjects, arrived in New York Monday. Mr. Powell is a member of Parliament. To the question, "How would a war with Russia affect the colonies?" he is reported as saying: "Well, suppose war to break out suddenly neither Canada nor Australia would be involved in any risk or expense beyond that of defending their own territory from Russian attack, and in case of such an attack they would have at their back the last shilling and the last man in the British Empire."

THE Washington *Post* says: "All the Army officers in the city are pinching themselves, pounding their chests and taking other methods of convincing their consciences that they are not dreaming when they contemplate the extraordinary situation in which General Miles is placed. In the annual report of the Secretary of War he is directly and specifically charged with disobedience of orders in accepting the surrender of the Apaches, and in his message the President makes the same charge by inference. According to the Army Regulations Miles should be at once placed under arrest and tried by court-martial, but he is at large, is entertained at dinner as the honored guest of the Secretary, and is receiving marked attentions from other official sources. Just what it all means no one seems to know, but such a condition of affairs has not been heard of since George Washington took command of the Army."

THE Vancouver *Independent* of Dec. 9 says:

Capt. J. A. Sladen, 14th Inf., returned from the East Dec. 6....The wife of Lieut. F. A. Boutelle, at Fort Custer, is an invalid. Mrs. W. L. Clark, her sister, is with her.....The wife of Asst. Surg. A. S. Kilbourne is at Fort Canby, with her sister, whose husband is very sick....Capt. H. S. Turrill, who arrived last week, has been assigned to Fort Spokane, ...Maj. Thos. McGregor and Capt. S. T. Hamilton, 2d Cav., return to Fort Walla Walla this week from San Francisco. ....Capt. C. F. Powell, Engineer Corps, is now engaged inspecting Gonernment works on the coast from the Columbia River south..... Capt. E. L. Huggins, 2d Cav., Fort Walla Walla, and Lieut. A. Hasbrouck, 14th Inf., Vancouver Barracks, came up from San Francisco on Monday.

IT appears that Capt. Clarence E. Dutton, U. S. Army, of the Ordnance Corps, has a double who goes about the country talking geology and paleontology, borrowing money, books, etc., and entering into various engagements which the genuine Clarence is expected to fulfil. The first that was heard of him came in a letter to Capt. Dutton from northern Michigan. The writer said that he had driven in the dark and through the mud a long distance to hear the Captain's lecture as "per invitation," and was chagrined and surprised to find that the lecturer was not on hand and had not been heard from at the appointed place. He could overlook this failure and disappointment, but begged that the two valuable books borrowed by the geologist from a clergyman to whom he was introduced by the complainant be returned, as the clergyman held him responsible. The writer expressed admiration for Captain Dutton's ability and acquirements, but quaintly and earnestly lectured him upon the grave defects of character betrayed by the book episode, and admonished him to reform.

LIEUTENANT H. H. COSTON, U. S. Marine Corps, left Norfolk, Va., on Wednesday on a month's leave.

LIEUTENANT-COMMANDER JOHN S. NEWELL relieved Lieut.-Commander H. E. Nichols of command of the U. S. S. *Pinta* at Sitka, Alaska, Nov. 27. Lieut.-Commander Nichols will return home on the first steamer available.

THE friends of Chief Engr. Walter D. Smith, U. S. N., will learn with deep regret that his health is not materially changed for the better. He is now an inmate of the Government Hospital at Washington, D. C. Mr. Smith's last cruise expired in October, 1883.

THE friends of Lieut. R. H. Galt were gladdened by a sight of him for a short time recently while en route from Norfork to Philadelphia, accompanied by Mrs. Galt. He is on duty as inspector of steel at the Midvale Steel Works, but resides at 4753 Green street, Germantown.

LIEUTENANT JESUP NICHOLSON, U. S. M. C., who has been ill for several months past, has been ordered before a board for examination as to his present physical condition. It is quite likely that Lieut. Nicholson will be retired. He is a son of Commo. Somerville Nicholson, retired.

LIEUT. RIDGELY HUNT, U. S. N., will, with his bride, take up his residence at the capital for the winter, his assignment to special duty in the Bureau of Navigation having been issued Dec. 13. Mrs. Hunt is a daughter of the late Gen. Phil Kearny, and step-daughter of Rear Admiral Upshur.

LIEUT. COMDR. THOS. NELSON, U. S. N., is promoted to commander from Dec. 13 by the retirement of Capt. R. L. Law on Dec. 12. Lieut. Comdr. Nelson is in command of the *Palos*, Asiatic Station, and is now enjoying winter quarters on that craft at Tien Tsin. He entered the Navy as a volunteer officer during the late unpleasantness.

LIEUTENANT O. E. LASHER, U. S. N., attached to the *Franklin* at Norfolk, arrived in Washington the last of the previous week, having been assigned the command of the *Speedwell*, tug, for the transference of stores and plant to the Norfolk yard. Unfortunately, his craft ran hard and fast aground on Giesboro Point, where she was at last accounts.

THE retirement of Lieut. Comdr. Welch, U. S. N., Dec. 13, makes a vacancy for Lieut. J. N. Hemphill, now on duty at the Washington Ordnance Yard, and he will soon be ordered for examination. Lieut. Comdr. Welch entered the volunteer service in 1864, and in 1868 was appointed an ensign in the Regular Navy. His last cruise was on the U. S. Flagship *Hartford*.

REAR ADMIRAL FRANKLIN, U. S. N., reported recently to the Department that a serious accident had befallen Asst. Surg. L. W. Atler, of the *Quinnebaug*, whereby he had suffered a compound fracture of his leg. Dr. Atler will not accompany his ship on her South African cruise, but P. A. Surg. Edgar, of the *Pensacola*, has been assigned to the *Quinnebaug* temporarily in his place.

A WIDE circle of friends will welcome back to Washington Lieut. E. W. Sturdy, who filled an important position in the Nautical Almanac Office some years ago. Lieut. Sturdy married a daughter of Gen. Lockwood of Georgetown. His last cruise was recently completed on the *Kearsarge*. He is ordered to duty in the Nautical Almanac Office under Professor Simon Newcomb, U. S. N.

RECENT advices from Chief Engr. W. J. Lamdin, U. S. N., are to the effect that he is still unfit for duty, and there is but a remote prospect of his ever being again available for sea service. He was invalided home from the South Atlantic Station early in 1882. He is at present residing at Perryville, Md. Mr. Lamdin entered the Navy as a 3d asst. engineer in 1851. His present commission dates Oct. 1, 1861.

THE next vacancy in the list of rear admirals, commodores or captains, will promote Comdr. Wiltse to the latter grade, as, by the recent promotion of Comdr. Seely, he is standing No. 1 of the grade. Comdr. Wiltse married some years since a daughter of the late Franklin Steele, of Georgetown, and sister of the widow of the hero of the *Cumberland*, Comdr. George Morris. Comdr. and Mrs. Wiltse are residing at 62 East 53d street, New York.

ALTHOUGH the bids for several of the new cruisers have been accepted and the contracts assigned, the Secretary seems disposed to make haste slowly in ordering officers for the superintendency of their construction. It is asserted that Chief Engr. De Valin has been tendered the position of inspector at San Francisco, but up to the present time nothing official has been made public. Mr. De Valin is at present on duty in the Washington Ordnance Yard.

LIEUT. ROBT. E. PEARY, civil engineer, U. S. N. has arrived in Halifax, en route for the United States, and, judging from the accounts published in the daily papers, he seems to have demonstrated that Yankee ingenuity and American pluck have once more shown that all of the possibilities have not been exhausted in the search for the long-sought for borean projection. The scientific world will look with much interest for the full report of this unique expedition.

THE President on Thursday approved the qualification papers of Comdr. H. B. Seely, U. S. N., for promotion to be captain.

REAR ADMIRAL RALPH CHANDLER relieved Rear Admiral John Lee Davis at Yokohama, Japan, Nov. 22, of command of the Asiatic squadron.

CAPTAIN R. S. COLLUM, U. S. Marine Corps, entertained a large gathering with "The Heathen Chinee," on Wednesday evening, at the United Service Club, Philadelphia.

COMMANDER RODGERS and Paymaster Barton, U. S. N., returned last evening from a four days' hunting trip to Sherman Island. They succeeded in bagging 270 ducks.—*Vallejo Chronicle.*

LIEUTENANT M. F. WRIGHT, U. S. N., who recently married Miss Boker, at Newport, R. I., goes to League Island for duty, a pleasant station, as he has numerous relatives and friends in Philadelphia.

CAPTAIN GEORGE BROWN, recently in Washington as president of the Board to prepare details of operations of the new arrangements of purchases and distributions of supplies in the Navy, has returned to Norfolk, Va.

CAPTAIN CHAS. LAWRENCE, formerly Sailmaker, U. S. N., who resigned in 1864, and is now President of the Common Council of Philadelphia, has been strongly recommended for the position of Harbor Master of that city.

PAYMASTER WM. N. WATMOUGH, Surg. Homer L. Law and Surg. John C. Lippincott were retired on Dec. 17. P. A. Paymr. J. W. Jordan, who was before the Naval Retiring Board, was found not disqualified for active service.

REAR ADMIRAL JAS. E. JOUETT, Chief Engineer P. Inch, Naval Constructor Philip Hichborn and Ensign R. T. Mulligan, U. S. N., were registered Dec. 7, and Lieut. C. W. Foster, 3d U. S. Art., Dec. 14, at the Carrollton, Baltimore.

THE Norfolk *Landmark* says: "The 'Jolly Five' are hilarious no more. Their mystic circle is broken. A golden link is lost. Sailmaker C. C. Freeman, U. S. N., has gone to another field of duty, and the remaining four members sit in heaviness and mourning."

LIEUTENANT J. N. HEMPHILL appeared before the Naval Examining Board on Thursday. The examination for promotion of P. A. Paymr. L. A. Yorke, which was begun on Tuesday, is not yet completed. It is understood that there is considerable opposition to his promotion, and the result is in doubt.

COMPTROLLER MAYNARD'S recent decision in the case of the claim for longevity pay, preferred by Asst. Paymr. Chapman, of the Navy, is being much commented on by Navy men and by civilians. It is understood that an appeal will be taken, when a good many points of interest to the Service will undoubtedly be ventilated. From the Comptroller's standpoint it seems that a paymaster's clerk is in the situation of a geometrical point, he has "position without magnitude."

LIEUT. E. W. STURDY, Ensign Chas. S. Ripley, P. A. Surg. W. G. G. Wilson, Asst. Paymr. Thos. J. Cowie, Lieut. G. Blocklinger, Capt. E. E. Potter, Chaplain Wm. F. Morrison, Comdr. J. J. Read, Ensign E. E. Wright, Pay Insp. John H. Stevenson, Lieut. A. Ross, Capt. G. B. White, Paymr. G. W. Beaman, Carpenter M. T. Quigley, Prof. H. D. Todd, Lieut. E. H. C. Leutze and Naval Constructor F. L. Fernald registered at the Navy Department during the week.

THE man who has made the Pacific Mail a success is J. B. Houston, better known as "Buck Houston." His father was for forty-three years in the Treasury Department at Washington. His grandfather on his mother's side was old Commodore Truxtun, who defeated the French fleet in the West Indies. He had a naval education himself, captured slavers on the African coast and helped to take Mason and Slidell off the British steamer *Trent*. He superintended the building of ironclads at Chester during the war and then branched out as a financier. He is a small man of firm and athletic form, with a Napoleonic head and mustache and goatee that are becoming streaked with gray.—*N. Y. Tribune.*

THE German papers are amusing themselves with a story of Capt. Brown, of H. M. S. *Radna*, who had fallen in love with a *ballerina* named Elena Santi. "Against the most stringent orders of the British Navy," the Captain invited his sweetheart on board. She had barely time to reach the cabin when signal was made that "a Commission of Inspection" had left the dockyard to inspect the *Radna*. "Dismay seized the guilty couple. The steps of the officers are heard overhead. Elena, throwing her arms round the Captain's neck embraces him, swears she never will be the cause of his ruin, and before he can prevent her, plunges head foremost through the open port into the seething waves, which engulf her forthwith. She was never seen to rise. When the commission entered the *Radna's* cabin her unfortunate Commander was found prostrate and unconscious on the deck." There is one defect in the make up of the story: there is no Captain or Commander of the name of "Brown" on the English Navy List, and no vessel in the English service named "*Radna*."

A *Tribune* despatch from Washington, says: "The action of the Secretary of the Navy in revoking the order of Commodore Bancroft Gherardi, commandant of the Brooklyn Navy-yard, removing Index Clerk Redfield Chandler, causes considerable gossip in naval circles. Young Chandler is the son of Rear Adm. Chandler. The story is that when Adm. Chandler was detached he and Commodore Gherardi had a few words about the former occupying the house in the Navy-yard for two weeks longer. Then Lieutenant Hunker, the commandant's aid, and young Chandler had some words about the former's authority over him, the latter charging the lieutenant with discourtesy in his official duties. At this time Chandler's resignation was peremptorily demanded, and a colored messenger appointed in his place. Upon Secretary Whitney's order Mr. Chandler resumed his duties on Saturday and the colored messenger went back to his former position. Lieutenant Hunker, it is said, has written a letter requesting to be detached and ordered to other duty."

JUSTICE TO GENERAL MILES.

WE reserved the portion of the annual report of the Secretary of War relating to affairs in the Department of Arizona for separate publication, and it appears elsewhere this week under the heading of "The Department and General Miles." It will be observed that the Secretary distinctly charges that General Miles took action "in direct opposition to the President's orders." We fear that the Secretary has suffered himself to be betrayed into a false position in making this statement. The estimation in which the offence of disobeying the orders of a superior is held is best shown by the fact that it is made punishable by "death or such other punishment as a Court-martial may direct." No man, not even the Secretary of War—least of all the Secretary of War has any right to charge an officer of the Army with such an offence, except in the proper manner and before the proper tribunal, and that is clearly neither Congress nor the public, to whom the annual report of the Secretary is addressed. From Washington comes the following, Dec. 16:

The President feels that injustice has been done General Miles, and is doing his best to make up for it.

The Secretary of War has written a statement, which will be sent to Congress and published in the General Army Orders, explaining the references to General Miles in his annual report, and including the suppressed orders under which he was acting when he accepted the surrender of the Apaches and which appear not to have been known to the Secretary when he made his report.

First—When General Crook's terms of agreement with the hostile Apaches were disapproved by the President, instructions were given which authorized the sparing of their lives, but otherwise their surrender was unconditional.

Second—That has been fully accomplished by Gen. Miles, and the Indians are all captives in their prisons in Florida.

Third—The people of the Southwest are enjoying tranquillity, security and prosperity.

Fourth—As a vindication of General Miles' judicious and successful course, and in recognition of the services of his gallant troops, his responsibilities have been increased, and by order of the President and with approval of Secretary Endicott and Lieutenant General Sheridan, his department has been enlarged to include Southern California and the whole Mexican frontier from Fort Bliss, Texas, to the Pacific coast.

General Miles' new headquarters will be at Los Angeles.

LATE ARMY ORDERS.

Leave for seven days, to commence on or about Dec. 23, is granted Capt. Daniel H. Floyd, A. Q. M., Buffalo, N. Y. (S. O. 208, Div. Atl., Dec. 17.)

A G. C. M. will meet at St. Augustine, Fla., Dec. 21. Detail: Major Passmore Middleton, Surg.; Capt. George Mitchell, 2d Art.; 1st Lieuts. Charles E. Kilbourne, Ephraim T. C. Richmond and Edward H. Catlin, 2d Art.; 2d Lieuts. John Conklin, Jr., and Cornelius DeW. Willcox, 2d Art. 1st Lieut. Eli D. Hoyle, Adjt. 2d Art., J. A. (S. O. 208, Div. Atl., Dec. 17.)

A G. C. M. will meet at Fort Wayne, Mich., Dec. 20. Detail: Capts. George M. Randall, Joseph T. Haskell, Charles Wheaton and Richard I. Eskridge, 23d Inf.; Capt. Marlborough C. Wyeth, Asst. Surg.; 1st Lieuts. Frederick L. Dodge, Orlando L. Wieting and Stephen O'Connor, 23d Inf.; 2d Lieuts. William H. Allaire, Daniel B. Devore and George D. De Shon, 23d Inf. 2d Lieut. E. P. Pendleton, 23d Inf., J. A. (S. O. 208, Div. Atl., Dec. 17.)

FORT MAGINNIS, M. T.

THE *Argus* says: Col. and Mrs. Smith and Mrs. Wagner visited Maiden on Monday....Lieut. Cushman is repairing the telegraph line between here and Rocky Point....Dr. Gray and Lt. Macdonald went hunting last Monday and succeeded in bagging several chickens, a prairie lion and a large number of jack rabbits.

WE publish elsewhere the text of the Army Appropriation bill as reported. The amount is somewhat less than last year and there are several items of interest, including a change in the mileage allowances.

GENERAL RECRUITING SERVICE.

HEADQUARTERS:

Army Building, Houston Street, Corner of Greene, New York City.
Lieut.-Colonel A. L. Hough, 16th Infantry. Superintendent.
1st Lieut. R. H. Patterson, 1st Art., A. A. A. General.

RENDEZVOUS.

Albany, N. Y., 513 Broadway—1st Lieut. W. J. Campbell, 22d Inf.
Baltimore, Md., 87 1-2 S. Sharp st. (Cav.), Capt. G. E. Overton, 6 Cav.
Baltimore, Md. 48 N. Liberty St.....1st Lt. S. Y. Seyburn, 10th Inf.
Boston, Mass., 18 Portland St.—Capt. Samuel McKeever, 2d Inf.
Buffalo, N. Y., 161 Niagara St.—Capt. Wm. H. H. Crowell, 6th Inf.
Camden, N. J.—1st Lieut. Charles H. Heyl, 23d Inf.
Chicago, Ills., 10 S. Clark St. (Cav.)—Capt. A. G. Hennisee, 8th Cav.
Chicago, Ills., 9 S. Clark St.—Capt. Frank D. Garretty, 17th Inf.
Cincinnati, O., 219 W. 4th St. (Cav.)—1st Lt. Geo. K. Hunter, 3d Cav.
Cincinnati, Ohio, 64 East 4th St.—1st Lt. John J. O'Connell, 1st Inf.
Cleveland, Ohio, 142 & 144 Ontario St.—1st Lt. C. A. Vernou. 19 Inf.
Denver, Colo., 372 Blake St.—Capt. George P. Borden, 5th Inf.
Detroit, Mich., 61 W. Congress St. (Cav.)—Capt. J. S. Loud 9th Cav.
Harrisburg, Pa., 443 Market St.—Capt. Chambers McKibbin, 15 Inf.
Jersey City, N. J., 19 Montgomery St. (Cav.) Capt. P. D. Vroom, 3d Cav.
Lexington, Ky. (Cav.)—1st Lt. C. H. Grierson, 10th Cav.
New York City, 174 Hudson St. (Cav.)—Capt. J. Jackson, 1st Cav.
New York City, 56 West St., (Cav.)—1st Lt. H. W. Wheeler, 5th Cav.
New York City, 109 West St.—Capt. Evan Miles, 21st Inf.

Philadelphia, Pa., 2005 Market St., (Cav.)—1st Lt. H. L. Scott, 7 Cav.
Philadelphia, Pa., 2 North 20th St., cor. Market St.,—Capt. Chas. C. Hood, 24th Inf.
Pittsburg, Pa., 915 Penn Ave.—Capt. Henry H. Adams, 18th Inf.
St. Louis. Mo., 821 Pine St. (Cav.)—1st Lieut. W. E. Wilder, 4th Cav.
St. Louis, Mo., 112 North 9th St.—1st Lieut. T. S. Mumford, 13thInf.
Washington, D. C., 924 Pa. ave—Capt. Douglas M. Scott, 1st Inf.

The Pittsburgh *Chronicle* says: "Miss Winnie Davis's remark that she 'knows nothing about the rebellion' leads us to fear that she will write some war reminiscences." And the Columbus *Sun:* "We regret to say that the new magazine guns are not for the purpose of shooting writers of war reminiscences."

RECENT WAR NARRATIVES.

AS THE war recedes interest in it seems to grow. This is in part explained, perhaps, by the fact that the youth born during the great contest have for the past few years begun to enter upon their early manhood, and are at the age when men inquire what their fathers did and suffered that they may find in the story of their achievements incentives to national and family pride. Happily we have reached the stage when the story of the contest is freed from the element of sectional animosity, and "Reb." and "Yank." can con its pages together without provoking differences that are not wholly good natured. It is not to be expected, nor even desired, that the actors in the actual contest should describe its kaleidoscopic changes alike. Fortunately there is sufficient agreement, even in their differences, to present the broad features of the great struggle in truthful outline for the instruction and emulation of their children, and their children's children after them. If Cæsar and Pharnaces had to present their several stories in the pages of the same magazine we might be forced to accept the boastful "*veni, vidi, vici*" with due allowance.

Several interesting volumes have been added to our collection of war records during the past few months. First in the order of publication is the Battle of Gettysburg, by Comte de Paris, excellently translated by Col. John P. Nicholson, and published by Messrs. Porter and Coates, Philadelphia. Next a most admirable history of the Second Army Corps of the Army of the Potomac, from the competent pen of Francis A. Walker, Brevet Brig.-Gen., U. S. Vols.; A. A.-G. of the Corps from Oct. 9, 1862, to Jan. 12, 1863, published by Charles Scribner's Sons. In connection with these two volumes may well be read a most interesting and instructive volume of Recollections of a Private Soldier in the Army of the Potomac, by Frank Wilkeson, published by G. P. Putnam's Sons. These narratives present the history of the Army of the Potomac, or a portion of it, from three several points of view; one, that of the impartial historian, viewing it from without, critically and dispassionately, and two presenting it as it appeared in the warmer glow of description by active participants.

In connection with the volume of the Comte de Paris there is an interesting history. From "Sevilla," on the 21st of Jan., 1877, he wrote to Rev. Dr. Jones, Secretary Southern Historical Society, saying: "I share the opinion of those who think that the Confederate cause was not a lost one from the beginning; that it might have been successful; and, therefore, I seek with great care to find out why it did not succeed." A series of questions as to the cause of Lee's failure followed, and it was added: "In my sincere desire to judge fairly of the Confederate Army you may help me by putting the same questions to some of the Confederate leaders who are still alive, and with whom you are in correspondence."

The result was the publication in the Southern Historical Society Papers of a series of most interesting and valuable personal narratives and reports, of which the Count was able to take advantage in writing this portion of his history. To undertake to present his conclusions here would carry us beyond the limits of our space. It is sufficient to say that he has given us a volume on Gettysburg which should be in the hands of everyone at all interested in the history of our war. The victory at Gettysburg is ascribed not merely to Meade's superiority in numbers (estimated here at 18 to 19,000) and in the defensive, for these combined to Hooker's advantage at Chancellorsville. "Chance afforded it strong positions, which Buford and Reynolds preserved for it, and which Meade turned to excellent account." Meade conquered in spite of his mistakes. These, we are told, were in his not going to Gettysburg himself on the 1st of July, instead of sending Hancock; in not concentrating his army with sufficient rapidity; in indicating in too vague terms the position Sickles was to occupy, and not examining his position in person; in depriving the right wing of Gerry and his two brigades; in not divining the direction of Picketts s advance and preparing for it, and finally in launching a single brigade instead of three divisions against Longstreet's right. Of Gen. Lee on this occasion, Longstreet says: "There is no doubt that Gen. Lee during the crisis of that campaign lost the matchless equipoise that usually characterized him." He was "thrown from his balance by too great confidence in the prowess of his troops and by the deplorable absence of Gen. Stuart and the perplexity occasioned thereby."

We do not care to undertake a critical review of General Walker's book. It is warm with the glow of personal feeling and personal sympathies, into which we enter too earnestly to enable us to judge it impartially. It has a living and vital interest for all who are attached by personal service or by the ties of personal friendship to the noble corps whose history is here recorded.

In his narrative, Gen. Walker says of Gettysburg: "It is an incident very instructive as the causes which may influence, or even decide, the fortunes of war, that the order directing the movement of the Second Corps was brought to the headquarters by an orderly who left it on the desk of the Assistant Adjutant-General, without calling attention to its presence, or demanding the customary acknowledgment of delivery. In consequence, corps headquarters remained unaware of the order until some time after the troops should have been on the road. The loss thus occasioned was severely felt in the tremendous exertions which the corps was that day called to make."

The prompt action which redeemed the mistake of neglecting to seize the position of Little Round Top is ascribed to "a slender, graceful young officer of engineers, Warren, who had climbed the slope to scan the western horizon, where his prescient mind had descried the signs of danger." "Well did Gen. Abbott (in whose name throughout appears, by the way, that fatal extra t) say that, but for the wonderful coup d'œil of Warren and his prompt acceptance of responsibility, the name of Gettysburg might only have been known in history as that of the place where the Union cause made its grave." Of the final catastrophe which wrecked Warren's future, Walker says:

Officers and men of the 2d Corps, who witnessed Gen. Warren's energy, promptitude, and courage on many a trying occasion, will never believe that he deserved this hard fate, which wrecked his whole life, and which, after a long but fruitless struggle to secure reparation, brought him to his grave a broken-hearted man. It would not have diminished the renown which Sheridan won at Yellow Tavern, Cedar Creek, and Five Forks, had he welcomed an early occasion to repair the terrible injury which one hasty word, in the heat of battle, had done to the position, the fame, and the hopes of the man who snatched Little Round Top from the hands of the exulting Confederates. It may be that the triple stars which the dashing commander of the Union cavalry so nobly won would have shone with a brighter lustre in the eyes of posterity had somewhat more of the magnanimity of his great silent chief mingled with the splendid qualities of Philip Sheridan.

On the discovery of the failure of Wilcox to cover Pickett's right flank, we are told "Hancock, easily the best tactician of the Potomac army, and always on the front line of battle, eagle-eyed, sees and seizes his opportunity." "When last it was my privilege to see Gen. Hancock," says Gen. Walker, "in November, 1885, he pointed out to me from Cemetery Hill the position occupied by Buford at this critical juncture, and assured me that, among the most inspiring sights of his military career was the splendid spectacle of that gallant cavalry, as it stood there unshaken and undaunted, in the face of the advancing Confederate infantry."

In his description of this battle Walker says: "Hunt, chief of artillery, rides along the line and fires barrel after barrel of his revolver into the faces of the enemy; while two young officers, bravest of the brave, Major Mitchell, of Hancock's staff, and Lieut Haskell, of Gibbon's, ride mounted through an interval between the Union battalions, and call upon the troops to go forward."

Of Hancock we are told further that: "Topographical insight was not one of Hancock's strong points, but on a field of battle over which he could cast his rapid and searching glance, no man surpassed—few soldiers, living or dead, ever equalled—the commander of the Second Corps in the promptitude and directness with which he made his appropriate dispositions, whether for attack or defence, however sharp and sudden the emergency."

Among the most interesting passages in the volume are the personal descriptions with which it abounds, and some of which relate to officers still in the Service. For the noble Sumner, who is present in the persons of two worthy representatives of his family, General Walker has the most unbounded admiration. Of him he says:

Jupiter, shining full, clear, and strong in the midnight heavens, might be the disembodied soul of Edwin V. Sumner. In honor, in courage, in disinterestedness, in patriotism, in magnanimity, he shone resplendent. Meanness, falsehood, duplicity were more hateful than death to the simple-hearted soldier who had put himself, sword in hand, at the head of the divisions of Richardson and Sedgwick. Upon a body of citizen soldiers, in the first flush of martial enthusiasm, a commander so chivalrous in feeling, so heroic in bearing, as Sumner could not fail to produce a profound and lasting impression. Frank Bartlett was a captain at the time of which we are writing; Nelson Miles, only a lieutenant of the line; and from every camp a host of young fellows looked up, in almost child-like readiness to follow, quickness to learn, eagerness to imitate, as their appointed leaders swept by in all the pomp of war. It is easy to criticize Sumner's dispositions at Antietam—the dangerous massing of Sedgwick's brigades, the exposure of the flank of the charging column, the failure of the commander to supervise and direct, from some central point, all the operations of the corps; yet no one who saw him there, hat in hand, his white hair streaming in the wind, riding abreast of the field officers of the foremost line, close up against the rocky ledges bursting with the deadly flame of Jackson's volleys, could ever fail thereafter to understand the furious thrust with which a column of the Second Corps always struck the enemy, or the splendid intrepidity with which its brigade and division commanders were wont to ride through the thickest of the fight as calmly as on parade.

"Sumner was of magnificent presence; though never arrogant or unkind, the consciousness of high rank showed itself in every lineament and every movement; though not boastful, he was never backward in self-assertion, whether for himself or his troops."

Couch, though a man of entirely different style, was his worthy successor. "Of slight stature, and usually of a simple and retiring demeanor, he became sublime as the passion of battle and the high-mounting sense of duty took complete possession of every power and faculty. The Second Corps was to be singularly fortunate in its commanders, but it was never to know a truer or braver, one more full of the spirit of loyalty, courage, and honor."

A later period is described by Gen. Walker, when the Second Corps in common with the whole Army of the Potomac, lost something of its élan. Wilkeson, in his narrative, "ascribes this demoralization to two causes: first, the shirking of bloody work by some of the Generals, which disheartened the enlisted men and embittered them," next, "the worthless character of the recruits who were supplied to the Army in 1864 65." "But 160,000 of the enormous number of men raised by purchase ever stood in battle ranks and they stood there because they had been unable to elude the vigilance or corrupt the honesty of the guards who accompanied them from the recruiting barracks to the front." It did not lie within the power of any regimental officers to hold the bounty paid recruits, "undisciplined blackguards," under fire.

Of General McClellan, General Walker says:

Neither General McClellan's personal bravery nor his earnest, affectionate devotion to his soldiers is for a moment to be called in question; but his adherence to European methods of handling an army, suitable enough in a cleared country of good roads, with thoroughly disciplined and indurated troops, under veteran colonels and veteran brigadiers, with generals of division and of corps who had fought their way up, through many campaigns, to positions of great authority and power, assisted by numerous staffs of the most skilled and accomplished officers in the service, was the source of great weakness in the case of such an army, in such conditions and with such a history as the Army of the Potomac.

No other commander ever aroused the same enthusiasm in the troops, whether in degree or in kind. The soldiers fairly loved to look upon him; the sight of him brought cheers spontaneously from every lip, his voice was music to every ear. Let military critics or political enemies say what they will, he who could so move upon the hearts of a great army, as the wind sways long rows of standing corn, was no ordinary man; nor was he who took such heavy toll of Joseph E Johnston and Robert E. Lee, an ordinary man.

Apropos to this, Wilkeson quotes a fellow private as saying as they sat around the guns one night after the hard knocks of the wilderness:

McClellan expected American volunteers to fight day after day. Outfought and beaten to-day, they must fight to-morrow as though ever victorious, and they did it when he commanded them. He taught us to fight, and all that is good in this many tongued crew of Grant's, the leaven of it is the remnant of McClellan's Army. Grant has not moulded one man in this vast mob. He has filled our ranks as best he could, but he depends on the men who sprang to arms when

the Northern war drum sounded, to supply these bounty-jumping recruits with courage and to teach them their duty Take the volunteers away from the Army of the Potomac and Lee could drown the rest of this Army in the James River without firing a shot.

Of Fair Oaks, Walker says:

Of the colonels then for the first time engaged in action against the enemy, Brooke, Cross, Nugent, Barlow, Zook, could never thereafter fail to be marked men; while a young lieutenant on the staff that day, fresh from civil life, showed there, to the admiration of all beholders, that address and gallantry which were to secure a promotion of unexampled rapidity, and to make the name of Nelson A. Miles the pride of the volunteer soldiers of the Union.

In his account of Fredericksburg he says:

Yet even here, among these forlorn conditions, one heart there was as fresh, as buoyant, as that of a child at play. It beats in the youthful form of Miles, a born soldier, rightly named. A ball strikes Miles in the throat; but with his hand against the wound, and the blood streaming out through his fingers, this prince of fighters dashes back to Couch, who, close at hand, is watching with breaking heart, the annihilation of his splendid corps, and entreats permission to lead a new charge

Brooke is described as a soldier who had few equals on the skirmish line—"impetuous, cool and masterful." "Three finer examples of fiery valor in battle, of the steady and faithful performance of duty, even to the dreariest work of routine in camp and on the march, could not be found in one group in all the armies of the United States" than Nelson A. Miles, John R. Brooke, and S. S. Carroll.

And of Chancellorsville:

So delighted was Hancock at the splendid behavior of his skirmish line that, after one repulse of the enemy, he exclaimed, "Capt. Parker, ride down and tell Col. Miles he is worth his weight in gold;" while Couch, turning to the major generals who commanded his two divisions, said, in his quiet but emphatic way, "I tell you what it is, gentlemen, I should not be surprised to find myself, some day, serving under that young man."

"Whatever his merits or his short-comings as a commander, Hooker was surely an ideal inspector general." Under Hooker, for the first time, the difference between regulars and volunteers ceased to exist so far as the artillery was concerned. If Hooker was the ideal inspector general, Charles H. Morgan was his peer:

Tireless, vigilant, and sagacious, his life for two years was bound up in a remarkable intimacy with the experience of the 2d Corps, and its fame must always be, in a high degree, his claim to renown. Wherever the corps went he literally led the way. Did the head of the column emerge, from long toiling through woods and swamps, upon the plain where the troops were to bivouac, Morgan seemed to have been an hour there, and it was his hand which pointed each division to its resting place. Was the enemy suddenly encountered upon the march, it was Morgan who first seized the significance of the situation, who sent the batteries galloping to their ground, and threw the leading brigades into position to receive the impending attack. Was some desperate assault upon intrenched works to be undertaken in the early morning, the indefatigable chief of staff of the 2d Corps rode hour after hour along the lines, scanning every feature of the field until the sun went down; often would he steal out in the night to watch, against the midnight sky, the outlines of the frowning works that were to be carried at any cost, and there would he seek to find some suggestion for his guidance on the bitter, bloody morrow.

Colonel Batchelder was one of the best, if not himself the very best, contribution made by the volunteer force to the supply department of the Army. His subsequent promotion to be chief quartermaster of the Army of the Potomac, and his present high position in the Regular Army, are evidence of the manner in which his duties with the Second Corps were discharged. However exacting the demands of the infantry or the artillery, of the commissariat or the hospital service, they were always met, and met so easily that it seemed the simplest thing in the world to be done. It was impossible that the roads could become so bad as to keep the Second Corps trains back. No matter how the troops were marched about, by day or by night, in advance or in retreat, the inevitable six-mule wagon was always close behind. "Old Rucker" would have wasted more profanity on one requisition for forty nose-bags than Batchelder found necessary in running the teams of a whole corps for twelve months. Under such a chief quartermaster, the gift of "exhorting impenitent mules" fell almost into disuse.

Mr. Wilkeson in the preface to his volume calls on his comrades of the ranks, who yet survive to tell, as he has, what they actually saw and did, and what their commanders refused, or neglected, or failed to do. "Very many of you," he says, "were the equals, and not a few of you were the superiors, of your officers in intelligence, courage and military ability. The grumbling of a single soldier at a camp fire may be unreasonable, and his criticism abusive. The criticism of 100,000 American soldiers will be absolute truth." It is his purpose in a future edition to show how the cowardly politicians unprincipled dodge of volunteering "wasted the best moral, social and political elements of the republic, leaving the cowards, shirks, egotists and money-makers to stay at home and procreate their kind." The preference given to West Point graduates was, he thinks, another source of weakness, and he believes "that the military salvation of this country requires that the West Point Academy be destroyed." "West Point," he says, "turns out shoulder-strapped office-holders. It cannot produce soldiers; for these are, as I claim, born and not made. And it is susceptible of demonstration that the almost ruinous delay in suppressing the rebellion and restoring the Union; the deadly failure of campaigns year after year; the awful waste of the best soldiers the world has seen, and the piling up of the public debt into the billions, was wholly due to West Point influence and West Point commanders." The bearing of this remark lies in its application, and even the graduates of the Military Academy may accept it without question when they recall the fact that Lee, Johnston, Jackson, Magruder, Beauregard, and all the principal leaders of the Southern host were alumni of the Military Academy. It may be read too in connection with what Wilkeson himself says of McClellan in the extract we give above, and of Griffin and others, including rare Seth Williams, of whom he says in describing how he received from him news of his promotion: "Kind Seth Williams! So generous, and sweet, and sympathetic was he to me, a dirty private, that my eyes filled with tears, and I could not talk, could not thank him. I came with an ace of crying outright." And we may well share our tears with his when we recall that sweet and noble soul, for Williams was all that he describes him, and more—one of the highest types of soldierly character, trained in that school whose teachings are condemned, perhaps with some reason, but not with judgment and impartiality which can make critical opinion valuable. Let us, too, in this connection turn to what Gen. Walker says of the 2d Corps and its first commander:

The Second Corps could not have become quite all it was under any other chief and in relinquishing the command it was impossible that he should wholly take himself away. The best part, the immortal and unfading, the unerring and unmistaking part of Edwin V. Sumner, the honor, truth, courage, and devotion to duty, which informed his whole life, and inspired his every act, could not be divorced from the troops he had trained and had led into their first battles. Thousands of the brave men in the ranks, hundreds of young and rising officers, had obtained from him their ideas of soldierly duty; had followed him in toil and danger; and when, later in the war, after the body of the brave dragoon had been laid in the dust, one of the old Peninsula regiments was called to leave one-half its numbers, whether in victory or defeat, upon some bloody slope, those who looked on could see, in the quick and dashing advance or in the slow and sullen retreat, something of the spirit of him from whose dying lips fell the boast:

"The Second Corps never lost a color or a gun."

The extracts we give will show the character of General Walker's History of the Second Corps. It is one of the very best histories of the class to which it belongs, and is written in a most charitable spirit, showing a disposition to praise rather than to blame. Perhaps some will sympathize too heartily with the description of Badeau as a "person eager to sacrifice reputations as a burnt offering of sweet savor upon the altar of Grant's fame," to even except this from our characterization of the book in which it appears.

GEN. SCHOFIELD ON THE TRAIN ROBBERY.

"DID the United States troops on board of the train of the Fort Worth and Denver Railroad, which was robbed Saturday, act like cowards?" a *World* reporter asked Major Gen. Schofield, in command of the Eastern Division of the Army.

"According to the newspaper reports they did. I can say nothing until I receive the official report. I see that a Capt. Connors is said to have been in command. There is no such captain in the Army Registry. He was probably a sergeant, and the troops were of course colored. If a white man had been in command the result would have been different. The men should have stationed themselves at each door of the car and shot the robbers at sight."

"What do you think of the troops giving up their arms?"

"If there was a captain in charge the captain should be shot, and his men tried for disobeying the rules laid down as to the duty of a United States soldier. Of course you know we do not treat the faults of the common soldiers the same as we do those of the West Point graduates."

"But who was responsible for this?"

"Any United States soldier who gives up his arms is a coward, and I am glad we have found out the five men who it is reported gave up their arms, for they will not be longer wanted in the service of the United States."

The story here referred to was to the effect that five soldiers guarding prisoners surrendered their arms to two highwaymen who attacked the train and robbed the passengers. No officer of the name of "Connors" is or ever was in the Army. The *World* reports an interview with a Mrs. Wittich of Carthage, Mo., who was on the train, in which it is said: "But the remarkable part of the story was that there were United States soldiers on board who submitted tamely to being disarmed without firing a shot. When everybody else around quailed before the three robbers, however, Mrs. Wittich boldly faced them and bitterly denounced the cowardice of the men about her for submitting. At Washington, it is said, it is denied that there were any soldiers on board, but Mrs. Wittich declares emphatically that there were. When spoken to about the matter by a *World* correspondent, she exclaimed: 'There were three colored soldiers on board, under an officer, guarding some prisoners, and, of course, we expected them to protect us. Imagine our surprise when they quietly submitted to being disarmed."

NOMINATIONS TO THE SENATE.

THE President sent to the Senate this week for confirmation the Army promotions made during the recess of Congress, all of which have already been published in full, with dates, in the JOURNAL. They are as follows:

To be Brigadier General—O. B. Willcox.

Matile and A. L. Myer, to be captains: R. J. C. Irvine, M. B. Travis, B. F. Handforth, and J. A. Emery, to be 1st lieutenants; Odon Gurovits and Arthur Johnson, to be 2d lieutenants; 12th, E. F. Townsend, to be colonel; W. F. Drum, to be lieutenant colonel; 13th, R. S. La Motte, to be colonel; J. C. Bates, to be lieutenant colonel; Carl Koops, to be 2d lieutenant; 14th, Thos. M. Anderson, to be colonel; C. A. Wikoff, to be major; 15th, R. E. A. Crofton, to be colonel; H. A. Theaker, to be major; 16th, T. M. Morrison, to be captain; W. H. Cowles, to be 1st lieutenant; S. M. Hackney, to be 2d lieutenant; 18th, H. H. Adams, to be captain; W. T. Wood, to be 1st lieutenant; G. M. Martin, to be 2d lieutenant; 19th, J. G. Leefe, to be captain; W. P. Evans, to be 1st lieutenant; 20th, D. Van Valzah, to be major; 21st, J. S. Parke, Jr., to be 1st lieutenant; 25th, O. J. Sweet, to be captain; H. D. Reed and C. A. Devoe, to be 1st lieutenant.

FOR APPOINTMENT BY TRANSFER.

J. Walker Benét, 1st lieutenant in the Ordnance Department; J. Y. Mason Blunt, 2d lieutenant 5th Cavalry, March 10, 1886, with rank in cavalry arm from Oct. 23, 1886, vice Barrett, retired.

NEGOTIATIONS are pending looking to the appointment of a joint commission by Canada and the United States for the purpose of settling the boundary between Alaska and British North America.

THE ARMY.

G. O. 87, H. Q. A., Dec. 10, 1886

By direction of the Sec. of War the fifth clause of par. 2456 of the Regulations, as amended by G. O. 11, of 1884, from this office, is further amended to read as follows:

In case a soldier who has made a deposit is transferred to another organization, or deserts, the fact of such transfer or desertion shall be promptly reported direct to the Paymaster General by the officer in command of the company or detachment from which the soldier was transferred or deserted.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 89, H. Q. A., Dec. 14, 1886.

By direction of the Secretary of War, the form, No. 11, Pay Department, is submitted for that published on page 1155 of the Regulations.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 90, H. Q. A., Dec. 15, 1886.

Announces the tracts of land in the Territory of Montana, embraced within the limits of the Crow Indian reservation, which are military reservations in connection with the post of Fort Custer, viz.:

1. Post Reservation.—Area, 36 square miles.
2. National Cemetery of Custer's Battlefield Reservation.—Area, one square mile.
3. Limestone Reservation (near old Fort C. F. Smith, M. T.)—Area, 3.48 square miles.

This with the proviso that certain Indian families, about thirteen in number, who have received allotments of land within the limits of the Post Reservation (No. 1) "shall not be disturbed, but shall be allowed to remain where they are now located, and to retain their present allotments of land, and be permitted the free and unrestricted enjoyment thereof, unless they shall voluntarily release or abandon the same."

By direction of the Secretary of War, par. 2 of G. O. 78, Aug. 1, 1879, from this office, is hereby revoked.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 92, H. Q. A., Dec. 16, 1886.

The following orders have been received from the War Department:

WAR DEPARTMENT, WASHINGTON, Dec. 15, 1886.

1. By direction of the President all that portion of the Department of California lying south of the 35th parallel of north latitude is hereby transferred to the Department of Arizona.

2. Agreeable with the provisions contained in section 6 of an act of Congress approved June 18, 1878, making appropriations for the support of the Army for the fiscal year ending June 30, 1879, and for other purposes, the Headquarters of the Department of Arizona will be transferred from Whipple Barracks, Prescott, Arizona, to Los Angeles, California.

3. The public quarters at Whipple Barracks made vacant by the removal of department headquarters to Los Angeles, California, will be utilized as far as practicable for the shelter of troops in the Department of Arizona.

WM. C. ENDICOTT, Secretary of War.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 30, DEPT. OF THE COLUMBIA, Dec. 6, 1886.

Major William J. Volkmar, A. A. G., is announced as A. A. G. of this Department.

By command of Brig. Gen. Gibbon:
E. J. MCCLERNAND, A. D. C.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Capt. Wm. S. Patten, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 212, Dec. 4, D. Columbia).

Leave for ten days is granted Capt. Charles Bird, A. Q. M., Helena, M. T. (S. O. 125, Oct. 1, D. Dak.)

P. Q. M. Sergt. Wm. E. Van Pelt, Fort Wadsworth, will proceed to the Presidio of San Francisco, Cal., and report to 1st Lieut. Frank S. Rice, J.-A. of a G. C.-M., as witness in the case of 2d Lieut. Benjamin S. Wever, 1st Inf. (S. O. 207, Div. A., Dec. 16.)

Major John P. Hawkins, Chief C. of S., Dept. of the Platte, will proceed to Scotia, Neb., on public business (S. O. 158, Dec. 4, D. Platte).

Capt. Charles A. Woodruff, Chief C. of S., will proceed to Portland, Ore., on public business (S. O. 212, Dec. 4, D. Columbia).

Com. Sergt. Thomas Burke, now at Fort Bowie, A. T., will proceed to Fort Bridger, Wyo. Ter., to relieve Com. Sergt. Ernest Heinatz, who will proceed to Fort Barrancas, Fla., for duty (S. O., H. Q. A., Dec. 13.)

Pay Department.

Leave for twenty days is granted Major Charles H. Whipple, Paymr., Fort Keogh, M. T., to take effect about Dec. 14 (S. O. 126, Dec. 6, D. Dakota).

Major De Witt C. Poole, Paymr., Vancouver Barracks, will proceed to Portland, Ore., on public business (S. O. 209, Nov. 29, D. Columbia).

The extension of leave granted Major Charles I. Wilson, paymaster, is further extended 25 days (S. O., H. Q. A., Dec. 13.)

Medical Department.

Col. Charles Sutherland, surgeon, medical director, will proceed to Fort Ontario, N. Y., on public business (S. O. 204, Dec. 13, Div. Atlantic).

Major John W. Williams, surgeon, will proceed to Jackson Barracks, La., and report for duty (S. O. 205, Dec. 14, Div. Atlantic).

A. A. Surg. C. K. Merriam, Fort Spokane, will proceed to Fort Cœur d'Alene, I. T., for temporary duty (S. O. 212, Dec. 4, D. Columbia).

Capt. Henry S. Turrill, asst. surg., will proceed to Fort Spokane, W. T., for duty as post surgeon (S. O. 209, Nov. 29, D. Columbia).

Major Charles R. Greenleaf, surg., will relieve Major Wm. H. Forwood, surg., in his duties as attending surgeon at Div. H. Q., and as examiner of recruits at Chicago, Ill. Major Forwood on being relieved will comply with S. O. 257, c. s., A. G. O. (S. O. 189, Dec. 10, Div. Mo.)

Leave for one month, with permission to apply for an extension of twenty days, is granted 1st Lt.

George F. Wilson, asst. surg., Fort Shaw, M. T., to take effect about Dec. 15 (S. O. 125, Dec. 1, D. Dak.)

The C. O., Fort Assininiboine, M. T., will send one of his asst. surgs. to Fort Shaw, M. T., for temporary duty during the absence, on leave, of 1st Lieut. George F. Wilson, asst. surg. (S. O. 125, Dec. 1, D. Dakota.)

The leave granted Capt. Joseph K. Corson, Asst. Surg., is extended seven days (S. O., H. Q. A., Dec. 13.)

Hospl. Steward Theodore Brown, U. S. A., has been elected Commander of Abraham Lincoln Post 9, G. A. R., at Fort Bayard, N. M.

Hospl. Steward Charles Keenan, U. S. Army, will report to the C. O. of the Presidio of San Francisco, Cal., for quarters and rations, until his station shall be determined (S. O. 121, D. Cal., Dec. 6.)

Hospital Steward C. Prumbs, whose warrant dates from May 29, 1866, was placed on the retired list Dec. 4.

Engineers and Ordnance Departments.

Lieut.-Col. Geo. H. Elliot, C. E., will proceed to the fort at Dutch Island, R. I., on public business (S. O., H. Q. A., Dec. 13.)

1st Lieut. Oberlin M. Carter, C. E., will proceed to Fernandina, Fla., on public business (S. O., H. Q. A., Dec. 14.)

Capt. Henry S. Taber, C. E., will proceed to Pine Bluff, Ark., on duty connected with works under his charge (S. O. 192, C. E., Dec. 13.)

The leave for seven days granted 1st Lieut. Frederic V. Abbot, C. E., is extended fifteen days (S. O. 192, C. E., Dec. 13.)

Lieut.-Col. Wm. P. Craighill, C. E., will proceed to Charleston, W. Va., on duty connected with works under his charge (S. O. 191, C. E., Dec. 11).

Major Jared A. Smith, C. E., will proceed to Augusta, Me., on duty connected with works under his charge (S. O. 191, C. E., Dec. 11.)

Capt. Henry S. Taber, C. E., will proceed to Van Buren, Ark., on duty connected with works under his charge (S. O. 191, C. E., Dec. 11.)

Lieut. Col. Wm. E. Merrill, C. E., will proceed to Davis Island Dam, Pa., on duty connected with works under his charge (S. O. 190, C. E., Dec. 10.)

Major Alexander M. Miller, C. E., will proceed to Vicksburg, Miss., on duty connected with works under his charge (S. O. 190, C. E., Dec. 10.)

Capt. Ernest H. Ruffner, C. E., will proceed to New York City, on duty connected with works under his charge (S. O. 190, C. E., Dec. 10.)

Major Wm. H. H. Benyaurd, C. E., will proceed to Wilmington and San Diego, Cal., on duty connected with works under his charge (S. O. 194, C. E., Dec. 15.)

The C. O., Fort Wadsworth, N. Y. H., will issue a furlough for three months to Ord. Sergt. Louis Liedinger (S. O. 206, Dec. 15, Div. Atlantic).

Capt. A. L. Varney, Ord Dept., is appointed an inspector of certain camp and garrison equipage at the Rock Island Arsenal, for which Capt. James Rockwell, Ord. Dept., is responsible (S. O., Nov. 16, H. Q. A.)

Capt. Ira McNutt, Ord. Dept., will proceed to the powder-mills of DuPont and Co., near Wilmington, Del., for the purpose of inspecting powder now being manufactured for the Ord. Dept. (S. O., H. Q. A., Dec. 13.)

Signal Corps.

2d Lieut. John P. Finley, Signal Corps, is relieved from duty in New York City, and will report in person to the Chief Signal Officer (S. O., H. Q. A., Dec. 14.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Lieut.-Col. John Green will inspect subsistence stores at Boise Barracks, I. T., for which 2d Lieut. Frank B. Audrus, 4th Inf., A. C. S., is accountable (S. O. 211, Dec. 2, D. Columbia.)

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Leave for fourteen days, to commence Dec. 22, is granted Lieut. H. DeH. Waite (S. O. 206, Dec. 15, Div. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

On mutual application, the following transfers are made: 1st Lieut. George L. Scott, from Troop H to Troop D; 1st Lieut. Charles B. Gatewood, from Troop D to Troop H (S. O., Dec. 10, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Lieut.-Col. John K. Mizner is assigned to duty at Fort Brown, Tex. (S. O. 169, Dec. 6, D. Tex.)

A furlough for six months, with permission to go beyond sea, is granted Saddler James Patterson, Troop I (S. O. 188, Dec. 9, Div. M.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

2d Lieut. A. B. Jackson is detailed for temporary duty at the Leavenworth Military Prison (S. O. 139, Dec. 4, Dept. M.)

2d Lieut. A. B. Jackson is relieved as J.-A. of the G. C.-M. convened by S. O. 118 (S. O. 140, Dec. 7, Dept. M.)

Col. Edward Hatch will proceed to and take command of Fort Du Chesne, Utah (S. O. 161, Dec. 9, D. Platte.)

S. O. 146, assigning Major James F. Randlett to station at Fort Niobrara, Neb., is amended to assign him to Fort McKinney, Wyo. (S. O. 161, Dec. 9, D. Platte.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

The extension of leave granted Major Anson Mills is further extended three months (S. O., Dec. 14, H. Q. A.)

2d Lieut. W. H. Smith is relieved at Fort Apache and will proceed to Fort Verde and report for duty (S. O. 131, Dec. 6, D. Ariz.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

Leave for fourteen days, to commence Dec. 22, is granted Lieuts. H. W. Hubbell, T. C. Patterson, and S. Rodman, Jr., Fort Monroe (S. O. 206, Dec. 15, Div. A.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

1st Lieut. R. M. Rogers is detailed J.-A. of the G. C.-M. convened by S. O. 118 (S. O. 140, Dec. 7, Dept. M.)

Leave for fifteen days, to take effect on or about Dec. 10, is granted 1st Lieut. Hamilton Rowan (S. O. 140, Dec. 7, Dept. M.)

Leave for fourteen days, to commence Dec. 22, is granted Lieuts. W. Walke and H. L. Hawthorne, Fort Monroe (S. O. 206, Dec. 15, Div. A.)

Leave for twenty days, to commence on or about Dec. 19, with permission to apply for an extension of ten days, is granted Capt. John H. Calef, Fort Monroe (S. O. 206, Dec. 15, Div. A.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

Leave for fourteen days is granted Lieut. I. A. Haynes, Fort Monroe (S. O. 206, Dec. 15, Div. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

The leave on Surgeon's certificate granted 2d Lieut. Ormond M. Lissak is extended six months on Surgeon's certificate (S. O., Dec. 13, H. Q. A.)

Leave for fourteen days, to commence Dec. 22, is granted Lieuts. L. H. Walker, T. C. Davenport, and J. C. W. Brooks, Fort Monroe (S. O. 206, Dec. 15, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

Leave for fourteen days, to commence Dec. 22, is granted Lieuts. C. G. Treat and W. F. Hancock, Fort Monroe (S. O. 206, Dec. 15, Div. A.)

Leave for twenty-two days, to commence on or about Dec. 21, is granted 1st Lieut. David D. Johnson, Fort Columbus (S. O. 206, Dec. 15, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.; I, San Diego Bks., Cal.

2d Lieut. Charles B. Vogdes will proceed to Fort Gaston, Cal., and report for Gar. C.-M. duty (S. O. 119, Dec. 1, D. Cal.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

2d Lieut. Haydn S. Cole, A. C. S. Fort Custer, M. T., is authorized to send, by express, to the nearest depository, subsistence funds (S. O. 125, Dec. 1, D. Dak.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Lieut.-Col. E. C. Mason, Insp.-Gen., will proceed on inspection service to Faribault, Minn. (S. O. 125, Dec. 1, D. Dak.)

In Orders 62, of Nov. 27, Col. Carlin announces the death at Washington, D. C., Nov. 10, 1886, of 1st Lieut. John Scott, recounts his military services, and says: "Always genial, frank, and upright, he endeared himself to all, but particularly to his brother officers; and by his devotion, strict and unswerving, to his duties he commanded the respect and esteem of all during his long service in the Army. The 4th Infantry extends to his family in their great affliction its sincere sympathy. The respect to the memory of Lieut. Scott will be shown by the regiment, by draping its colors and the officers wearing the usual badge of mourning on the arm and sword for thirty days."

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

1st Sergt. H. A. Rebentisch, Co. I, will be discharged the Service to date Nov. 30 (S. O., H. Q. A., Dec. 15.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Capt. Charles A. Coolidge is authorized to apply at Hdqrs. Div. of Missouri for ten days' extension of the leave granted him (S. O. 158, Dec. 4, D. Platte.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

Lieut.-Col. Montgomery Bryant, having completed the duty for which he was ordered to San Francisco, will proceed to Fort Niobrara, Neb. (S. O. 103, Dec. 2, Div. P.)

1st Lieut. P. Henry Ray, having completed the duty for which he was ordered to San Francisco, will return to Fort McDowell, A. T., for the purpose of transferring public property, and on completion will join his company at Fort Niobrara, Neb. (S. O. 103, Dec. 2, Div. P.)

Major Andrew S. Burt, en route to Fort Robinson, Neb., is granted a leave for seven days (S. O. 159, Dec. 6, D. Platte.)

The leave of 2d Lieut. Fred K. V. Krug is extended two months.

9th Infantry, Colonel John S. Mason.

Hdqrs., and F, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; H and I, Ft. Union, N. M.; E, Ft. Wingate, N. M.; A and G, Ft. Apache, A. T., K, Ft. Verde, A. T.; C, Ft. Mojave, A. T.

2d Lieut. C. R. Noyes is temporarily attached to Co. K for duty, and will proceed from Whipple Barracks to Fort Verde, A. T. (S. O. 129, Dec. 2, D. Ariz.)

1st Lieut. E. B. Robertson, Adjt., having been designated to receive and issue supplies to the Hualpai Indians, will proceed to Hackberry, A. T., to receive stores (S. O. 129, Dec. 2, D. Ariz.)

2d Lieut. W. G. Elliott will report at San Carlos, A. T., to Capt. F. E. Pierce, 1st Inf., in charge of the police control of the White Mountain Indian Reservation, for duty in connection with that service (S. O. 130, Dec. 4, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., F and H, Ft. Bliss, Tex.; B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

2d Lieut. Harry Fletcher is detailed member of the G. C.-M. convened by S. O. 76, vice 1st Lieut. C. J. T. Clarke, relieved (S. O. 140, Dec. 7, Dept. M.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Lieut.-Col. J. C. Bates will take station at Fort Wingate, N. M. (S. O. 131, Dec. 6, D. Ariz.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

The leave for seven days granted Capt. Stephen R. Stafford, Fort Randall, D. T., is extended thirteen days (S. O. 125, Dec. 1, D. Dak.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

Capt. Charles H. Greene and 1st Lieut. James Brennan will proceed to Fort Omaha, Neb., and report, as witnesses, to the J.-A. of the G. C.-M. at that place (S. O. 161, Dec. 9, D. Platte.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assininiboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

The journey of 2d Lieut. James S. Rogers from Fort Assininiboine, M. T., to Fort Shaw, M. T., is confirmed (S. O. 125, Dec. 1, D. Dak.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

1st Lieut. O. M. Smith, A. D. C., will take charge of the office of the Asst. Adjt.-Gen. during his absence on detached service (S. O. 168, Dec. 3, D. Tex.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

The leave granted 2d Lieut. Benjamin C. Morse, Fort Mackinac, is extended fifteen days (S. O. 204, Dec. 13, Div. A.)

The C. O. Fort Wayne, Mich., will issue a furlough for four months to Sergt. John D. Morgan, Co. H (S. O. 206, Dec. 15, Div. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

We are indebted to Post Sergt.-Major Chas. H. Chinn, of Fort Sill, for a neat and useful roster of non-commissioned officers now serving at that post.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, December 11, 1886.

RETIREMENTS.

Colonel Luther P. Bradley, 13th Infantry, December 8, 1886 (act June 30, 1882).

Colonel George L. Febiger, Assistant Paymaster-General, December 8, 1886 (act June 30, 1882).

Courts-martial.

The following courts have been ordered:

At Fort Wingate, N. M., Dec. 8. Detail: Lieut.-Col. J. C. Bates, 13th Inf.: Major Daingerfield Parker, 9th Inf.; Capt. A. R. Chaffee, 6th Cav.; Capts. W. W. Waterbury and P. H. Ellis, 13th Inf.; Capt. R. W. Shufeldt, Asst. Surg.; Capt. J. C. Chance, 13th Inf.; Capt. J. B. Kerr, 6th Cav.; Capt. W. E. Hofman, 9th Inf.; 1st Lieuts. J. S. Bishop, B. H. Gilman, and J. B. Goe, 13th Inf.; 1st Lieut. W. B. Banister, Asst. Surg., and 1st Lieut. George Palmer, 9th Inf., J.-A. (S. O. 129, Dec. 2, D. Ariz.)

At San Antonio, Tex., Dec. 9. Detail: Capt. Charles H. Noble, 16th Inf.; Capt. Edward E. Wood, 8th Cav.; 1st Lieuts. Thomas C. Woodbury and Charles H. Tyler, 16th Inf.; 1st Lieut. Guy L. Edie, Asst. Surg.; 2d Lieut. DeRosey C. Cabell, 8th Cav.; 2d Lieut. Charles C. Ballou, 16th Inf., and 2d Lieut. Edward A. Millar, 3d Art., J.-A. (S. O. 170, Dec. 7, D. Tex.)

At Fort Robinson, Neb., Dec. 15. Detail: Major Andrew

S. Burt, 8th Inf.; Capt. Charles Parker, 9th Cav.; Capts. Augustus W. Corliss and Gordon Winslow, 8th Inf.; 1st Lieut. Ballard S. Humphrey, 9th Cav.; 1st Lieut. John J. Haden, 8th Inf.; 2d Lieut. William D. McAnaney, 9th Cav.; 2d Lieut. George W. Ruthers, 8th Inf.; 2d Lieuts. Philip A. Bettens, Jr., and Edmund S. Wright, 9th Cav., and 1st Lieut. Richard H. Wilson, 8th Inf., J.-A. (S. O. 159, Dec. 6, D. Platte.)

At Angel Island, Cal., Dec. 10. Detail: Col. William R. Shafter, Capt. Leopold O. Parker, 1st Lieuts. Frank H. Edmunds, Adjt., and Thomas H. Barry, R. Q. M., 1st Inf.; 1st Lieut. William E. Hopkins, Asst. Surg.; 2d Lieut. Robert H. Noble, 1st Inf., and 1st Lieut. Frank de L. Carrington, 1st Inf., J.-A. (S. O. 121, Dec. 6, D. Cal.)

At Fort Lewis, Colo., Dec. 20. Detail: Capts. J. B. Irvine, C. W. Miner, and H. H. Ketchum, 1st Lieuts. B. C. Lockwood and W. H. Kell, 2d Lieuts. F. R. Jones, E. O. C. Ord, and J. H. Wills, 22d Inf.; 2d Lieut. B. K. West, 6th Cav.; 2d Lieut. J. F. Kreps, 22d Inf.; 2d Lieut. H. J. Gallagher, 6th Cav., and 1st Lieut. Theodore Mosher, 22d Inf., J.-A. (S. O. 141, Dec. 9, Dept. M.)

At Fort Schuyler, N. Y. H., Dec. 15. Detail: Major Richard H. Jackson, Capts. Jacob B. Rawles and Henry F. Brewerton, 5th Art.; Capt. Joseph B. Girard, Asst. Surg.; 2d Lieut. Robert G. Procter, 5th Art., and 1st Lieut. T. R. Adams, 5th Art., J.-A. (S. O. 204, Dec. 13, Div. A.)

At Fort Davis, Texas, Dec. 13. Detail: Capt. Wm. H. Glapp, 16th Inf.; Capt. John C. Thompson, 3d Cav.; 1st Lieut. Geo. H. Morgan, 3d Cav.; 1st Lieut. Paul Clendenin, Asst. Surg.; 2d Lieuts. Thos. B. Dugan, John W. Heard, and Malvern H. Barnum, 3d Cav.; 2d Lieut. Stephen M. Hackney, 16th Inf.; 1st Lieut. Joseph T. Dickman, Adjt., 3d Cav., J. A.

—o—

Army Boards.

A Board of Survey, to consist of Capt. Louis A. La Garde, Med. Dept., and 1st Lieut. Herbert E. Tutherly and 2d Lieut. Daniel L. Tate, 1st Cav., will assemble at Camp Sheridan, Wyo. T., Dec. 9, to fix the responsibility for the loss of one public horse, for which Capt. Moses Harris, 1st Cav., is accountable (S. O. 125, Dec. 1, D. Dak.)

A Board, to consist of Majors J. P. Wright and A. A. Woodhull and 1st Lieut. C. B. Ewing, Med. Dept., will meet at Fort Leavenworth, Dec. 9, to examine Private George Kliemand, Troop K, 3d Cav., as to his qualifications and fitness for the position of hospital steward (S. O. 140, Dec. 7, Dept. M.)

A Board of Survey, to consist of 1st Lieut. James O'Hara, 3d Art., will meet at Fort Delaware, Del., Dec. 20, to take an inventory of the public property thereat for which Ord. Sergt. James Maxwell is responsible, the said ordnance sergeant being too sick to turn over the property in person to his successor (S. O. 206, Dec. 15, Div. A.)

A Board of Officers of the Corps of Engineers, to consist of Cols. Thomas L. Casey and Henry L. Abbot and Lieut.-Col. Cyrus B. Comstock, will meet in New York City for the examination, with a view to their promotion, of Capt. Henry M. Adams, 1st Lieut. William M. Black, and 2d Lieut. Hiram M. Chittenden. The Board will be assembled on Monday, Jan. 10, 1887, or as soon thereafter as practicable (S. O., Dec. 13, H. Q. A.)

The Board of Officers of the C. E. will reconvene at New York City, Dec. 20, to continue the consideration of the questions before it (S. O. 193, Dec. 14, C. E.)

—o—

Retirements of Enlisted Men.

Hospl. Steward Charles Primbs, Dec. 14, 1886.

—o—

Recruits.—Forty recruits are ordered to the Dept. of Missouri for the 5th Cav.; eleven colored recruits to the Dept. of Platte for the 9th Cav., and fifty recruits to the Dept. of Missouri for the 10th and 18th Inf. (S. O., Dec. 16, H. Q. A.)

—o—

Enlistment.—In a circular letter of Dec. 9 to recruiting officers Adjt.-Gen. Drum says: With reference to the enlistment or re-enlistment of men discharged from the service who have been given characters other than "excellent," "very good," or "good" (unless in terms fully equivalent to one of these) on their discharges, and on which the words "no objection to his being re-enlisted is known to exist" have *not* been erased, you will, by telegraph, refer the question of enlistment or re-enlistment to this office for instructions, reporting any facts in the case known to you.

—o—

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

Department Headquarters having moved to St. Paul, Gen. Ruger has transferred the charge of the entire reservation at the late headquarters to the C. O., Fort Snelling.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

The El Paso *Times* says: "The military establishment at San Antonio will soon be changed to a twelve-company post. This is the beginning of the radical change contemplated in the distribution of the troops on the frontier. Fort Bliss will probably come next."

Division of the Atlantic.—Maj.-Gen. Schofield.

General Schofield has directed the C. O. at Fort Hamilton, N. Y. H., to transfer one of the two steel limbers for 3".2 gun carriage, issued in May, 1884, to Light Battery F, 5th Art., to the Watervliet Arsenal, in order that some improvements which have been prepared, may be attached to it for trial and report.

WASHINGTON BARRACKS, D. C.

DECEMBER 13, 1886.

ON Thursday evening, Dec. 9, the Gibson Social Club gave their second annual ball in the Recreation Hall, and their efforts for success were well rewarded. The attendance was large, and a most enjoyable evening spent.

Dancing and general merrymaking occupied the time until intermission, when the party partook of a bountiful supper. Many new pieces were well rendered by the orchestra.

Christmas is close at hand, with all the evidences of good cheer and comfort. The merry jingle of sleigh bells, the snow on the ground, and the many preparations going on in the garrison, all help to give that charm of outward appearance which are generally taken as evidences of the cheerfulness and good will with which most people regard each other at this time.

It is announced that the Soldiers' Temperance Union will give a grand entertainment by the close of the present month.

AULD LANG SYNE.

(Correspondence of the Army and Navy Journal.)

COLUMBUS BARRACKS, O.

DECEMBER 13.

MAJOR VAN BUREN HUBBARD, Surgeon, has arrived and relieved Major Greenleaf; and Lieut. Rodman is expected daily, relieving Capt. McNaught, who is on sick leave. The usual promenade concerts and hops have been commenced, and are given under the auspices of the officers and ladies of the post.

Lieut. Brown is absent, conducting a detachment of recruits to the 16th Inf. at Fort Concho, Texas. An old man named John A. Olney, surrendered last week, who stated that he deserted from Battery A, 4th Art., July 17, 1865, and had to surrender to clear his record to enable him to apply for a pension. He has been recommended for discharge. He has a wife and five children. The barracks present a very attractive appearance now, every building and fence on the grounds having been recently painted.

S.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Dec. 15, 1886.

IT is a long time since West Point has had as much pleasure crowded into a week as we have enjoyed since last Thursday. On that evening the officers had the second hop of the series in Schofield Hall. Captain Rockwell was the manager, and the hop seemed to start with the jollity usually had near the close of previous hops, and at no time did it at all subside but continued until after one o'clock. The refreshments were voted a success. For some time before supper was announced, the odor of what was to be served permeated the hall, and various and amusing were some of the comments heard as to what delicate dish gave it out.

On Friday evening our little, uncomfortable theatre was well filled with an eager and expectant audience, waiting to see and hear what the following programme announced, and when the end came all went home feeling that they had witnessed an exceedingly pretty performance, as well played and as nicely arranged in every detail as could be done anywhere and by anybody, professional or amateur:

West Point Theatre.—Friday, December 10, 1886.

Stage Manr., Lt. Simpson. Scenic Artist, Lt. Townsley, M. A. Prompter, Lieut. Gordon.

A Husband to Order.—Comedy in two acts.

Baron de Beaupré (a returned emigrant nobleman).....Lieut. Howland.
Pierre Marceau (an officer in the Imperial Army).....Lieut. Homer.
Anatole Latour (a young lawyer).....Lieut. Ellis.
Phillipeau (a wealthy farmer, cousin to Pierre Marceau).....Lieut. Evans.
Servant, Lieut. Townsley—Josephine (the baron's niece), Mrs. Edgerton—Elise (the baron's ward), Mrs. Simpson—Madame Phillipeau, Mrs. Metcalfe.

Scene: The Château de Beaupré. 1st act, 1806. 2d act, 1808. Music by the U. S. M. A. band. Curtain rises 8.30 P. M. Carriages may be ordered for 10 P. M. Tickets purchased of speculators will not be received at the door.

Lieut. Howland had a difficult part, but he played it very well. It must be hard for a young and active person to imagine himself an old baron. When he appeared in the first act some of his friends in the audience did not recognize him, so well was he transformed.

Lieut. Homer, in the first act, arrayed as an officer of the Imperial Army, presented such a magnificent appearance that it could not be excelled by anyone, or even equalled by one in a million. His acting was in keeping with his looks.

Lieut. Ellis, in the second act, where he appeared as a battle-scarred veteran, was inimitable. It would be difficult to find a more dilapidated warrior; one eye out, an arm broken, half-a-dozen bullets in the body were only trifling affairs. It is said that he nearly stopped the performance when he appeared, for the others were so taken aback when they saw him thus arrayed that it was some moments before they recovered.

The get-up and acting of Lieut. Evans are simply indescribable. His mother would not have recognized him, so perfect was his disguise. He was greeted with storms of applause and some fair admirer tossed a huge bouquet to him over the footlights. His eating the apple with Madame Phillipeau was as fine a piece of acting as is ever seen.

Lieut. Townsley did not have much to do except bowing, but this was done as only he can do it and whenever he appeared created roars of laughter. Mrs. Edgerton presented a beautiful appearance, her dresses being both becoming and handsome. Her part was acted in an exceedingly creditable manner; it seemed difficult for her to suppress the smiles that came between the "weeps," and no wonder, for Lieut. Evans's portrayal would have made a stone laugh.

Mrs. Simpson had a part that seemed just suited in every respect and her acting of it could not be improved. Many were the shouts of laughter that she and Lieut. Ellis together caused.

Mrs. Metcalfe's delineation of Madame Phillipeau was in keeping with that of her worthy spouse, Phillipeau. Her costume was unique and becoming, and her acting easy and graceful.

After the performance the entire "company" was entertained at the mess by Lieut. and Mrs. Simpson, where a pleasant hour was spent in fighting the battle o'er.

On Saturday evening the Cadet Mess Hall was well filled with cadets, officers and ladies to listen to Aptommas's harp recitals. The repertoire included the compositions recently performed by command of Her Majesty, the Queen of England, the Emperor William of Germany, and other crowned heads of Europe. The performance closed with a Patrol Comique by the U. S. M. A. Band.

Mr. Aptommas's parts of the concert were rendered in a manner that called forth enthusiastic applause. Once he responded to the encore, and after the programme was finished the Adjutant asked the audience to remain seated and Mr. Aptommas played "The Moonlight."

Capt. Hughes, 9th Cav., visited the post on Tuesday and remained several days. It was his first visit since graduating in 1869. It is rumored that when he goes back to his post it will not be alone.

David Archie Rannells, McArthur, Ohio; John William Adolphus Standt, Miltonsburgh, Ohio, have been designated for examination for admission to the U. S. Military Academy.

(Correspondence of the Army and Navy Journal.)

PLATTSBURGH BARRACKS, N. Y.

DECEMBER 8, 1886.

BY the retirement of Colonel Bradley, of the 13th, our genial commanding officer, Col. R. S. LaMotte, attains, towards the close of an active and gallant career in the Service, his well-merited promotion. The eagle has never been conferred on a more worthy officer. Faithful services in peace, as well as in war, joined with all the qualifications which are necessary in the accomplished soldier, the last recipient of this most coveted prize will do honor to his new grade as he has in the past to the various positions held by him in the service of his country.

As the 13th is the colonel's old regiment, he having served as captain and major thereof, his return thereto as its commanding officer is an event which possesses peculiar pleasure for him, as by it he will again serve with many of his old friends, with whom he campaigned many years ago.

The colonel was startled a few evenings ago, while stowing away household goods in anticipation of his forthcoming change of station, by a double-ring at his door-bell. Upon going to the door to ascertain who was there, he was confronted by a body of soldiers who, by their spokesman, expressed a desire to speak to him in his quarters. The colonel invited them to step inside. They did so. They were then asked to state their business, whereupon one of the sergeants stepped forward and addressed the colonel as follows: "Colonel, the enlisted men of Co. C, 12th Infantry, on the eve of your promotion and anticipated departure from this post, wishing to express their appreciation of the uniform kindness and consideration which they have always received at your hands, have appointed us a committee to tender their congratulations upon your promotion, and to wish you a pleasant and safe journey to your new post, and, as a slight token of their respect and esteem, beg you to accept this testimonial, the voluntary contribution of the entire company." And thereupon handed to the colonel a magnificent ebony cane surmounted by a massive gold head, inscribed as follows: "Presented to Colonel R. S. La Motte, by Company C, 12th U. S. Infantry." The colonel was deeply affected, and feelingly responded, saying that although taken by surprise, he thoroughly appreciated the handsome gift, but far more the spirit which had prompted its bestowal.

The enlisted men only symbolized the sentiment of the entire garrison. One and all, without regard to rank or sex, sincerely regret the forthcoming severance of our pleasant relations with the gallant colonel.

The departure of Colonel La Motte will place the post under the command of Captain John L. Viven, 12th Infantry, an officer of long service and excellent record, in whom the interests of the Government can safely be reposed.

CHAMPLAIN.

FORT DOUGLAS, UTAH.

THE Salt Lake City *Tribune* says: Major-General A. H. Terry, the hero of Fort Fisher, and his Aide-de-Camp, Col. G. F. Towle, reached here from Chicago Dec. 2, and, accompanied by Col. T. H. Stanton and Mr. Hoyt Sherman, Jr., of the Union Pacific, drove to the Walker House. Gen. Terry is a fine specimen of well-preserved manhood, and would anywhere be taken, even in the most unostentatious garb, as a man of prominence. He is fully six feet three inches tall, and has a heavy white moustache and chin whiskers. Gen. Terry is an easily approachable and very agreeable man. He was introduced to Gov. West, Major Erb, and several veterans: Col. Towle is a man about fifty, of the average height, and a veteran with an honorable record. They are here on a visit of official inspection, and will return in two days, stopping at Fort Russell on the way, for a brief inspection. There was no special significance to the trip. Gen. Terry, with Col. Towle, and perhaps Governors West and Murray and other prominent officials go up to the fort at 10 A. M., today, for a thorough inspection. There will be a dress parade, an artillery salute, and the post generally be made to look its prettiest.

LEAVENWORTH PRISON SHOES.

"KNARF, Company Commander," writes to the Pioneer *Press*, saying: "I have purchased two pairs of the shoes manufactured at the military prison, and have also drawn several pairs for men of my company. The first pair I purchased had to be sent to the shoemaker in less than a month, the soles having nearly come off. The second pair were worn only three days when the sole broke from the uppers. The soldiers before wearing these shoes usually have them pegged, when they would last a reasonable time. When this precaution has not been observed the soles have parted from the uppers after a few days' wear. All this in performance of garrison duties. No complaints are made as to the 'material' of which the shoe is made, and the only thing 'inferior' about them has been in the manufacturing. With past experience no commander would set out on a campaign with his men shod with these shoes. The old-pattern shoe is much more durable. The defect in the Leavenworth prison shoe should be remedied before they attempt to supply the troops with so essential a part of their equipment."

Gen. Bragg, chairman of the House Committee on Military Affairs, proposes to introduce a resolution calling for an investigation of the Government Shoe Works. He has in his possession a large number of affidavits from officers and soldiers of Gen. Miles's command, which state that the shoes supplied them, during their recent campaign against Geronimo, were entirely worthless.

A Washington despatch to the New York *Sun*, says:

One of the targets that will draw fire this winter from the House Military Committee is the Army Prison at Fort Leavenworth. When the criticism of the prison made it necessary recently, an investigation was ordered, and Gen. Drum, Gen. Terry, and Col. Barr constituted a Board of Inquiry to report upon the condition of the prison. Members are not satisfied with it. They say that where the Government a few years ago paid only $90,000 a year to shoe the Army, now over $300,000 is expended, and serious complaints are made about the character of the shoes furnished. The increased expense is due to the way in which the shoes are made. Insufficient machinery, incompetent supervision of labor, and the added fact that, while leather for the Army shoes made at Fort Leavenworth used to be bought in New York, after advertisement for the lowest bids, these purchases are now made at the prison, and the number of bidders has been very much diminished. New York leather merchants are not willing to ship samples of their leather out to Kansas and take chances of success in making bids. Under this arrangement Western leather merchants have a decided advantage over bidders in the East, the result of which is that the Government pays about three times as much for shoes for the Army as it used to pay.

FORT OMAHA, NEB.

THE Omaha *Excelsior* of Dec. 11 says:

Capt. Roberts, of Fort Russell, Wyo., was in Omaha this week.....Lieut. Guy Howard, Fort Niagara, is expected Friday. He will visit at Mr. Woolworth's residence.....The wedding of Mr. Chauncey O. Howard, son of Maj.-General O. O. Howard, and Miss Alice Rustin, was celebrated Dec. 4, at the First Congregational Church. The church was filled by the friends of the contracting parties. The Rev. A. F. Sherrill performed the ceremony, which was followed by a reception in the church parlors. The groom is a graduate of Andover college and is a young man of many excellent qualities. The bride has been a member of Omaha's best society for several years and is a graduate of the High school class of '85.....Col. Henry has moved from Dodge street to 1,810 Chicago street.....The Misses Wilson, of Fort Leavenworth, are expected in Omaha shortly to spend the holidays.

Maj.-Gen. Alfred H. Terry, in company with Gens. Crook, Hatch, Dandy, Breck and Hawkins, Col. Towle and Lieut. Kennon visited Fort Omaha Dec. 8. A salute of thirteen guns was fired. All the officers of the post assembled at Gen. Wheaton's to pay their respects to the distinguished visitors.....The garrison presented a lively spectacle during the past week, forcibly reminding one of May day in New York. Everybody seemed to be moving....Chaplain W. T. McAdams, U. S. A., and family, moved this week to 2,412 Capitol avenue, Omaha, where the chaplain will await retirement, which occurs next August.

COURT MARTIAL CASES.

Musician Bernhard Wagner, Co. K, 2d Infantry, was recently tried at Fort Niobrara, and sentenced to forfeiture of $30 and confinement for three months for various offences, the chief of which was writing the following anonymous letter, with malicious intent, etc.:

FORT NIOBRARA NEB.
July the 30th 1886.

Mr. William McKeever.

I take the lieberty of adressing those few lines to you, hoping that the may find you in good health, as they leave me in the best of health. Mr. William Mc. Keever I write this few lines to you as for my interest as well as Captain McKeever. I most tell you ever since the company came here Captain McKeever's property has been exsposed to wind and wheather and it ruins pretty often. I think that verything most be rotten by this time and that aint all now for my interest if I do not want to desert I have to starve and I think that it will be a pretty hard death the company has went to hell ever since our Captain has left the men have to board themselves and are living on bread and milk and you know how long that can last we have slum for breakfast and a smal pease of beaf for dinner and no potatoes, and we have coffee and bread for supper, now you may think how men may like it and how long a man can stand it our Captain has had a good Company and a good lot of men but I am sorry to tell you that he wont find his company as he left it, and the men are wishing that he were here again and could see how we are living the company is going to hell and the funds are spent no one knows how. I think by payday the most of them will be missing than a man can stand a good deal but when it comes to starving than we most go. Mr. William McKeever I would sign my name but I am afraid, and we had to take some step to gain satisfaction because we have reported the fact to our present company commander that is all the good it has done, now you may be kind anough and inform your Father our Captain and he may be able to safe the company as yet. My kindest thanks and also the members of the company send their best wishes to you and your parent. I most bid you good by hoping that this may do some good.

I call myself your everlasting Freind and member of company K, 2d Infantry.

FORT NIOBRARA NEBRASKA.

—(G. C. M. O. 100, D. Platte, 1886.)

(Correspondence of the Army and Navy Journal.)

NEW REGULATION.

"No SOLDIER shall be confined except on the order of an officer," etc.

Soldier drunk in squad room, raises row, starts in to clear everybody out, breaking furniture, and raises h—l generally. Sergeant in charge reports it to 1st Sergeant, who reports to officer; officer proceeds to company quarters; half hour has intervened, finds mischief done. New faces appearing the unchecked rage of the man incites him to fresh assaults; he is finally overpowered, taken to guardhouse. Charges: assault, etc., etc.; lies in guardhouse months awaiting trial, tried and sentenced to military prison for years.

Whereas, promptly confined at start, then reported to officer, case investigated, result: twenty-four hours in guardhouse, man returned to duty sober and the authority of N. C. O. asserted and upheld. There is not one case in fifty where N. C. O. abuse their authority, and this depriving them of most important functions renders their authority to perform the duties imposed upon them of little or no account, and is the worst blow at the first principles of responsibility and prompt and effective suppression of trouble and enforcement of discipline that has ever been imposed on them.

We have tried the plan months ago and it won't work. F.

NAVAL ACADEMY.

ANNAPOLIS, MD., Dec. 14, 1886.

THE gymnasium was very tastily decorated with bunting and '87's banners last Saturday night, the occasion being the second of the series of cadet hops. Among the guests present were Lieut. and Mrs. Barrette, Lieut. and Mrs. Jasper, Lieut. and Mrs. Leutze, Lieut. and Mrs. Bartlett, Lieut. and Mrs. Nicholson, Lieut. and Mrs. Gibson, Ensign and Mrs. Ayers, Ensign and Mrs. Haeseler, Ensign and Mrs. Huse, Ensign and Mrs. Doyle, Ensign and Mrs. Smith, Asst. Engr. and Mrs. Worthington, Asst. Engr. and Mrs. Baker, Mrs. Gheer, Mrs. Hendrickson, Mrs. Almy, Mrs. Rush, Mrs. Pendleton, Mrs. Holcomb, Mrs. Arms; Misses Loomis, Magruder, McMillan, Murray, Marchand, Sampson, Ferry, Wilkinson, McIlvane of Trenton, Ames of Boston, Hunting of Baltimore, Randall and Baker of Washington, D. C.; Ensigns Blish, Morgan, Smith, Knapp, and Atwater; Asst. Engrs. Gow, Schell, Baker, and Scribner, together with the usual host of cadets.

Miss Loomis, the charming daughter of our esteemed commissary, gave a very pleasant young people's party on Friday night.

Mrs. Lieut. Mahan, with her customary delightful hospitality, entertained a number of friends on Saturday evening at her home in Goldsborough Row.

Mrs. Barrette's supper Saturday night was greatly enjoyed by quite a number of guests who went thither after the hop.

Miss Ames, daughter of Governor Ames of Massachusetts, is visiting Mrs. Lieut. Bartlett.

Mrs. Leutze is entertaining her sister, Miss McAlpine.

Lieut. Gibson, U. S. M. C., attached to the *Jamestown*, has been spending a few days with his family in Annapolis. Mrs. Gibson has rented the house formerly occupied by Capt. Waddell and family.

The friends of Mr. W. T. Iglehart have been overjoyed for the past week over the improved condition of his health. Mr. Iglehart has the best wishes of a wide circle of friends.

The Annapolis and Elk Ridge R. R. have been doing the square thing by the ladies of Annapolis who like to go shopping in Baltimore and Washington during the Christmas holidays, by running a new train over their road. The train leaves Baltimore and Washington at 6.30 P. M., and reaches Annapolis at 8.

The Officer's Tennis Club have laid out their courts in the armory, where they play daily.

The Rev. Mr. Chichester of Charleston, S. C., delivered a very interesting lecture on Friday night before a large crowd of Navy people and Annapolitans, on the subject of the recent Charleston earthquake. Mr. Chichester was introduced by Chaplain Rawson, who made a very pretty speech, stating that Mr. Chichester represented the Mariner's Church and Seamen's Home, and that he was in search of funds for its rebuilding. Assisted by Ensign H. S. Knapp, who managed the photo-electroscope, Mr. Chichester threw down very interesting pictures of Charleston's disaster upon a screen, thereby giving every one an admirable idea of the wreck of his native city. On the following day a subscription was taken up for Mr. C., which, it is said, amounted to considerably more than he had expected.

Liberty to visit Annapolis was granted for the first time this term on Saturday last.

Drill in the Steam Building has been going on steadily this month, under the supervision of Engineers Milligan, Schell, Scribner, and Gow.

The health of Chief Engr. Farmer is reported as decidedly improved, and it is hoped that he will soon be seen about the yard.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Left Portsmouth, N. H., for Boston Navy-yard, Dec. 15, for compliment of men. Will go thence to Norfolk for coal and supplies, and thence on a cruise to the West Indies, returning to Hampton Roads about May, 1887. Arrived at Boston, from Portsmouth, N. H., Dec. 15.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Aspinwall Nov. 26.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station. Arrived at Gibraltar Dec. 16.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Montevideo Nov. 13.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 13.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Palermo Nov. 22. Was to sail the following day for Malta, and thence direct to Alexandria.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Gibraltar Nov. 28 for the African coast.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. Sailed from Callao, Peru, Nov. 12, for San Francisco, Cal. Expected to arrive in about a month. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

Capt. J. H. Gillis reports to the Navy Department from Acapulco, Mexico, Dec. 1, that the *Hartford* left Payta Nov. 19, and arrived at Acapulco Nov. 30. Made the trip under sail whenever possible, but encountered heavy weather off the gulf of Tehuantepec, and was obliged to use steam the rest of the way. The steaming caused the crack in the crank pin to open, so that it could be probed to a depth of two inches and an eighth—an increase of an inch and an eighth during the passage. The two boilers which were used also showed signs of deterioration. In the forward port boiler 15 new cracks were developed, which would have to be repaired before sailing. In the starboard forward boiler six new cracks were developed.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, (f. s. p. s.), Comdr. J. Crittenden Watson. Sailed from Callao, Peru, Nov. 13, for Mallendo, Arica, Iquique, Caldera and Coquimbo, arriving at latter port about Dec. 15.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 25, and from there to Valparaiso, where she is expected to arrive about the middle of January.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Admi. Raph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Muscat, Arabia, Oct. 23.

A report from Capt. E. O. Matthews, under date of Muscat, Arabia, Oct. 13, says that the *Brooklyn* left Port Said Oct. 4; passed through the canal on the 4th and 5th. Arrived at Aden, Oct. 13; left on the 14th, experiencing calms and light winds, and arrived at Muscat Dec. 22. She would leave in a few days for the Gulf. There was no sickness of any kind on board.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Colomba, Ceylon, Dec. 3.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Nov. 20.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Returned to Hong Kong, Oct. 5, from Macao, and was probably at Canton Nov. 22.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886. Ordered to return to Chemulpo after giving liberty.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. At Port Said Dec. 12.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Left Canton, China, Oct. 31, for her winter station at Tientsin.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Will sail on her winter cruise about Dec. 20. Arrived off Norfolk Dec. 11.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. At Norfolk. Will be ready for her winter cruise about Dec. 20.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. At Norfolk, Va. Will be ready for her winter cruise Dec. 20.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. Arrived at Norfolk Navy-yard Dec. 13. Will be ordered to join the North Atlantic Squadron.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

The *Wabash* has been sheathed outside to make her tight, it having been found impossible to make her tight longer above copper line by caulking. Large square air ports have been cut on her berth deck for better light and ventilation, and changes have been made in her ward room for better accommodation of her officers. The work is now about completed.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

THE *Alert*, undergoing repairs at Mare Island, Cal., is nearly ready for sea.

THE *Swatara* is well in hand at Portsmouth, N. H. Her old boilers have been removed and new ones will be put in.

THE *Richmond*, now at the Navy-yard, Brooklyn, N. Y., will be ready to receive the officers and crew of the *Tennessee* about Dec. 25.

THE training ships *Portsmouth* and *Saratoga* have been refitted for the winter cruise; docked, bottoms cleaned, and are now ready to sail from Norfolk, Va.

THE receiving ship *St. Louis*, at League Island, Pa., was inspected Dec. 16, under the law of Aug. 5, 1882, which requires a vessel to be inspected once in two years.

THE *Ossipee* has been out of the waters of the United States for more than three years, and it is quite likely that extensive repairs will be found necessary before going on another commission.

LORD GEORGE HAMILTON, First Lord of the British Admiralty, in a recent after dinner speech said: "By proper attention, by sound principles of administration, and by infusing like habits into the Board's great manufacturing establishments, within a limited time it was possible, without imposing an unnecessary strain upon the revenue, to restore the Navy to a state of efficiency."

DEFECTS having been pointed out in the designs submitted by Cramp and Co., for triple expansion engines for gunboat No. 1, the Secretary has allowed them to correct their designs and make certain improvements recommended by the department. Some of the other contractors have protested against this, claiming that the designs of Cramp and Sons, as originally presented, were unsatisfactory, and that they should not be allowed to make any modifications.

THE slanting eye of the Eastern beauty would appear to have so far affected the mind and heart of Mr. Wolseley Markham, late assistant paymaster in charge of H. M. S. *Espoir*, that he eloped with a lady from China and deserted Her Majesty's Navy. Not only did he leave the service of his Queen and country, but he also took with him some of the cash belonging to the ship. As a result, a considerable hue and cry was raised, and the runaway lovers were captured at San Francisco. He has been seventeen years in the navy, and had also war services.

THE Albany *Times* reports that an unexpected obstacle is likely to interfere with the conversion of the Washington Navy-yard into an Ordnance Foundry. Mr. Jonathan Prout gave a part of the land to the Government when he died, putting a condition

in the will that it should be used as a Navy-yard. This was the absolute condition of the will. It did not grant any power upon the part of the Government to use it for anything else. The heirs of Jonathan Prout now claim that the Secretary's action, if carried out, will nullify the bequest, and that the land will revert to them.

THE Secretary of the Navy on Thursday sent a circular letter to the chiefs of the different bureaus of the Navy Department, stating that the *Richmond* would succeed the *Tennessee* as flagship of the North Atlantic squadron, and that the officers and crew of the *Tennessee* would shortly be transferred to the *Richmond*, as well as the stores, as far as practicable to save the expense. On the same day he sent a memorandum to the bureau chiefs to the effect that the *Trenton*, at Norfolk, is to be fitted out as a flagship and that they should be guided accordingly. The destination of the *Trenton* is not announced, but it is understood that she is to go to the Pacific Station.

IT is understood that the Secretary of the Navy contemplates making the New York Navy-yard the central depot for the purchase and distribution of stores and supplies for the Navy. The board of which Capt. Brown is president is now arranging to carry out the plan. They visited the yard this week to see what changes are necessary to accomplish the end in view. With the Washington yard devoted to ordnance work, the Boston yard to equipment, and the New York yard as a supply depot, the Secretary seems to have made considerable headway in his schemes of concentration. The order transferring the control of the Boston yard to the Equipment bureau is prepared and only awaits the Secretary's signature. To this yard will be transferred the equipment material not needed at the Washington yard.

NAVY GAZETTE.

Ordered.

DEC. 11.—Lieutenant E. W. Sturdy, to duty in the Nautical Almanac Office.

Lieutenant Ridgely Hunt, to special duty in the Bureau of Navigation.

DEC. 13.—Pay Inspector John H. Stevenson, as Inspector of provisions and clothing at the New York Navy-yard December 31.

DEC. 14.—Captain E. E. Potter, to assume command of the League Island Navy-yard December 28.

P. A. Surgeon Frank Anderson, to the receiving-ship Independence.

Pay Director Thomas H. Looker, to continue on present duty till December 31, 1887.

Lieutenant J. N. Hemphill, to examination for promotion.

Passed Assistant Engineer R. W. Galt, to temporary duty on board the receiving-ship Franklin.

DEC. 16.—Navy pay officers ordered to duty as General Storekeepers at Navy-yard Stations Jan. 1: Pay Director R. Washington, at Washington Navy-yard; Pay Director H. M. Denniston, at Mare Island, Cal., Navy-yard; Pay Director G. E. Thorton, at Boston Navy-yard; Pay Inspector F. C. Cosby, at Portsmouth, N. H. Navy-yard; Pay Inspector John H. Stevenson, at New York Navy-yard; Pay Inspector Rufus Parks, at Norfolk Navy-yard; Paymaster W. W. Woohull, at League Island, Pa., Navy-yard; Paymaster J. Parker Loomis, at the Naval Academy; Passed Assistant Paymaster H. E. Drury, at Pensacola Navy-yard; Passed Assistant Paymaster James E. Cann, at Key West; Passed Assistant Paymaster F. H. Clark, at Torpedo Station, Newport.

Lieutenant (junior grade) Geo. H. Peters and Ensign Albert G. Winterhalter, to examination for promotion December 20.

Detached.

DEC. 13.—Ensign Edward F. Leiper, from the Coast Survey and ordered to the Dolphin.

Assistant Surgeon Ernest W. Auzal, from the Independence and ordered to the Coast Survey steamer McArthur.

Lieutenant George A. Norris, from the New York Navy-yard and ordered as a member of the Board of Inspection of foreign ships at New York.

Chief Engineer John W. Moore, from experimental duty at the New York Navy-yard and ordered to duty at that yard January 29.

Chief Engineer Edward D. Robie, foom the New York Navy-yard January 24, and placed on waiting orders.

Pay Inspector A. J. Clarke, from duty as inspector of provisions and clothing at the New York Navy-yard December 31, and ordered to settle accounts and wait orders.

Assistant Engineer Samuel H. Leonard, from the Fish Commission steamer Fish Hawk and ordered to the Coast Survey.

DEC. 14.—Chief Engineer George W. Melville, from duty under the Bureau of Equipment and Recruiting and ordered to the Atlanta.

Chief Engineer J. R. McNary, from the Atlanta on the reporting of his relief, and ordered to the Bureau of Equipment and Recruiting.

Ensign Charles S. Ripley, from the Coast Survey and granted six months' leave.

Lieutenant E. J. Dorn, from the New Hampshire and ordered to the Washington Navy-yard December 31.

DEC. 15.—Lieutenant Commander S. Hubbard, from the Tennessee December 23, and placed on sick leave.

Naval Cadet R. E. Coontz, from the Galena and ordered to the Atlanta.

Retired.

Lieutenant Con mander Wm. Welch, placed on the retirod list from December 13.

Nominations and Confirmations.

DEC. 16.—Commodore Walter W. Queen, to be a Rear Admiral, August 28, 1886, vice Rear Admiral J. H. Russell, retired. [Note.—During the intervene of Congress Commodore Queen was commissioned a Rear Admiral by the Presdent—from August 28, 1886, to fill a vacancy, to continue until the "end of the next session of the Senate"—and he was relieved on October 6, 1886, by reason of age.]

Commodore Ralph Chandler, to be a Rear Admiral, October 7, 1886, vice Rear Admiral W. W. Queen, retired.

Captain Aaron W. Weaver, to be a Commodore, October, 7, 1886, vice Commodores Queen and Ralph Chandler, promoted.

Commander Cornelius M. Schoonmaker, to be a Captain, October 7, 1886, vice Captain A. W. Weaver, promoted.

Lieutenant Commander George W. Pigman, to be Commander, October 7, 1886, vice Commander Schoonmaker, promoted.

Lieutenant Charles B. T. Moore, junior grade, to be Lieutenant, August 5, 1886, vice Lieutenant McClellan, deceased.

Ensign Wm. S. Hogg, to be Lieutenant (junior grade), August 5, 1886, vice Lieutenant Moore (junior grade), promoted.

Lieutenant Henry N. Manney, to be Lieutenant-Commander, October 7, subject to examination required by law, vice Lieutenant-Commander Pigman, promoted.

Lieutenant Ten Eyck DeWitt Veeder (junior grade), to be Lieutenant. October 7, 1886, vice Lieutenant Manney, promoted.

Ensign Wm. F. Fullam, to be Lieutenant (junior grade). October 7, 1886, vice Lieutenant Veeder, promoted.

The Naval nominations reported last week were confirmed by the Senate on Tuesday.

MARINE CORPS.

DEC. 10.—1st Lieutenant Wm. F. Spicer, granted leave of absence for fifteen days from December 15.

1st Lieutenant Jesup Nicholson, ordered to report December 15, to the Commandant of the Navy-yard, Washington, D. C., for an examination as to his physical condition by a board of medical officers,

DEC. 13—1st Lieutenant H. H. Coston, granted leave of absence for one month from December 15.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending December 16, 1886:

Francis H. Poole, mate, died December 4, at Naval Hospital, Chelsea, Mass.

Carl Jacobson, private marine, died December 3, at Naval Hospital, Philadelphia, Pa.

Joeeph Pratt, beneficiary, died December 6, at Naval Hospital, Philadelphia, Pa.

Albert Koster, ordinary seaman, died November 30, at Naval Hospital, Mare Island, Cal.

Joseph McGrath, seaman, died November 30, at Naval Hospital, Mare Island, Cal.

TO COMMANDANTS, COMMANDING OFFICERS OF VESSELS AND GENERAL STORE-KEEPERS,

NAVY DEPARTMENT, WASHINGTON, Dec. 14, 1886.

Circular No. 35.

At all Yards and Stations, officers now in charge of property and stores referred to in General Order No. 335, will, on Jan. 1, 1887, transfer to the General Storekeepers, at their respective stations, an inventory, compiled from that last made, corrected to date, from the records of receipts and expenditures. Those inventories will show, in detail, the quantities, and, as far as possible, the values of said property. Commandants will assign the officers referred to in the General Order if available, and direct the transfer of the civil employés and laborers to the department of the General Storekeeper.

As soon after the first of January, proximo, as may be practicable, the work of concentrating said stores in the buildings designated will be commenced, and completed at the earliest date consistent with due economy.

The General Storekeepers will perfect an accurate account of all property above referred to. When values are not stated, or are apparently incorrect, a statutory board of appraisement shall determine their true values.

All articles received by purchase or transfer and such as have been manufactured at the Yard, will be inspected by a board of officers. This board shall consist of three officers, two to be appointed by the commandant, the third to be designated by the Bureau to which articles inspected pertains, and nothing shall be passed except by unanimous approval of the board. The regular members shall serve for three months, unless otherwise ordered. They shall carefully inspect and test such articles as may be submitted to them. Their inspection shall apply to quantities as well as quality; and their report shall be made in duplicate to the commandant; the original to be transmitted to the General Storekeeper, and the duplicate filed in the commandant's office. Experts may be called to aid the board when available, and the General Storekeeper shall be represented at all inspections,

Until further instructed, the General Storekeeper will issue stores and supplies required for current work, on memoranda requisitions, signed by the head of the Department to which such stores pertain, and receipts will, in all cases be exacted from the persons authorized to receive them. The requisitions and receipts will state the specific objects for which the stores are required.

At the end of each month the representatives of the several Bureaus, on whose requisitions stores have been issued, will receipt for the same to the General Storekeeper. In cases where articles required for, are not in store to the credit of the Bureau for which they are needed, and such articles as are in store belonging to other Bureaus, the commandant may order the issue, on being satisfied that the transfer will not interfere with current or prospective work. The General Storekeeper will, at the end of each month, prepare regular transfer requisitions, covering all such issues, and transmit the same to the proper Bureaus of the Navy Department. The General Storekeeper will make all requisitions on the Bureaus, vouchers for payment of public bills, and such reports and returns as are now required, using the prescribed blank forms.

The provisions of this Circular, so far as applicable, will apply to vessels in commission.

WILLIAM C. WHITNEY, Secretary of the Navy.

THE consideration of the Civil Service bill postponed the debate on the bill for the reorganization of the Navy, which officers gathered in force to listen to on Wednesday. The Secretary is understood to be very much incensed at the action of some of the officers who are figuring as opponents to the bill, and it is said he has in a quiet way given officers around the Department to understand that wirepulling among Congressmen is no part of their profession.

MEDICAL INSPECTOR A. C. RHOADES, U. S. N., resident at No. 140 West 44th St., New York, is now on duty by order of the Navy Department, as attending physician for officers and their families not otherwise provided for in the City of New York and its vicinity.

REAR ADMIRAL DANIEL AMMEN, U. S. N., registered at the Brevoort House, New York on Thursday.

RECENT DEATHS.

ENSIGN WILLIAM ARTHUR THOM, U. S. Navy, son of Gen. George Thom, U. S. Army, retired, died Dec. 11 at Asheville, N. C., where he had been for some time past on sick leave. Ensign Thom had over eleven years service, and was an efficient officer and gentleman. Much sympathy is expressed for the bereaved relatives. While on duty on the Coast Survey steamer Blake, Mr. Thom constracted a severe cold from which he never recovered. He was a gentleman of genial and winning manners and a universal favorite.

A VANCOUVER despatch of Dec. 5 says: "Capt. Austin, U. S. Infantry, who was severely injured Nov. 28 by falling over the Government bulkhead on the bank of the Columbia River, and who died Dec. 3, was buried Dec. 5 with all the pomp and ceremony of war. He served with distinction during the war in many a hard fought battle. Capt. Austin was among the bravest of the brave. He was beloved by all who knew him." This refers to 1st Lt. Albert Austin, who died Dec. 3 of paralysis caused by concussion of the spinal cord or possible fracture of the vertebra. In a regimental order, Colonel Anderson says of Lieut. Austin: "He received painful wounds in War, and worked hard and efficiently in Peace. In all his Army life, he is not known to have uttered an unkind word or to have done an unkind deed. We are called upon to mourn his loss as comrade, officer and friend. Brave, charitable, and kind in life, he now sleeps the sleep of the just. The usual mourning will be worn by the officers of the regiment, for thirty days, and the regimental orders will be appropriately draped." Lieutenant Austin served through the war in the 8th and 11th Connecticut Volunteers, was appointed 2d lieutenant 14th Infantry Aug. 9, 1867, and promoted 1st lieutenant Nov. 23, 1874.

LIEUTENANT DAVID B. TAYLOR, U. S. Army, retired, died, Dec. 12, 1886, of pneumonia, after a long illness. He was a native of Scotland and enlisted in the Engineer Battalion Nov. 23, 1860, and served with great credit during the war, rising to the position of 1st Sergeant. On the 7th of March, 1867, he was appointed a 2d Lieutenant, 24th U. S. Infantry, transferred to the 11th Infantry in 1869, and promoted 1st Lieutenant Oct. 29, 1873. Several years ago he was severely wounded in a fight with Indians and suffered greatly from the effects. He was retired from active service Aug. 24, 1886, for disability incurred in the line of duty.

FIRST LIEUTENANT WILLIAM J. CAMPBELL, 22d U. S. Inf., on recruiting duty at Albany, N. Y., died suddenly in that city on Friday, Dec. 17. Lieut. Campbell served with much credit during the war as an enlisted man and commissioned officer of Pennsylvania Volunteers, and was appointed a 2d Lieutenant, 22d U. S. Inf., May 21, 1867. He was promoted to 1st Lieutenant, May 12, 1875.

MAJOR NATHANIEL F. HURD, who died at Montclair, N. J., Dec. 15, aged ninety-six, was an officer in the War of 1812, serving on the staff of Maj.-Gen. John Montgomery.

A VERY considerable circle of friends in the Navy and the Engineer Corps of the Army will read with pain the news of the death of Henry Hall Tibbals, who since 1862 has been associated with the management of the well-known Continental Works. Mr. Tibbals' death occurred on the morning of the 15th, at his residence in Brooklyn, ending an illness of some ten months. He was a native of Connecticut, born at Durham, Oct. 29, 1829. He came to New York in 1853, and for some years was the principal accountant of a prominent iron firm. In 1862, after the successful completion of the original Monitor, Thomas F. Rowland, proprietor of the Continental Works, experiencing the serious necessity of a financial associate in conducting the business details of the important Government contracts undertaken, secured his services. Both were young men, and very rarely have two persons retained for a quarter of a century relations of friendship so confidential and intimate. The association has been indeed a double one, Mr. Tibbals having married Mr. Rowland's sister previously to their business connection. Mr. Tibbals was a man of whom it may be safely said "without an enemy." His business faculties, severely tried through the manifold affairs of a critical war-time, and never failing to answer the demands of peaceful days, were of the very highest order, being exceptional in precision and correctness. His nature was clean and manly in the extreme; his loyalty to friends, and his kindness to the stranger, with his untarnished life, will be a treasured and pleasant memory to all who knew him.

MRS. CURTIS, wife of Col. H. Pelham Curtis, Judge Advocate, U. S. A., died at Governor's Island, N. Y., Dec. 10. She was a daughter of the late Ferdinand E. White, of Boston, Mass., to which city the remains were taken early in the week for interment.

MATE FRANK H. POOLE, U. S. N., who died Nov. 4, at Willesley, Mass., served during a portion of the War in the 44th Massachusetts Volunteers. He was appointed mate in the Navy Sept. 21, 1863, and has an excellent record. He leaves a widow.

MRS. E. A. PORTER, widow of the late Commodore W. D. Porter, U. S. N., died in Washington Dec. 8, aged sixty-eight.

MRS. BALDWIN, mother of the wife of Lieut. E. H. Catlin, 2d U. S. Art., of St. Augustine, died recently at Hill, N. H.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, -	$21.00
Old Reserve Whiskey, - - - -	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey, - - -	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

BLOCKADE RUNNING IN 1861-5.

IN addition to the statements of HOBART PASHA, quoted last week, the extent of blockade running during our war is further shown by the statistics of the port of Nassau, Bahamas, which we had occasion to examine recently. The aggregate of yearly exports and imports at this port swelled from less than two millions of dollars in 1860 to over fifty millions in 1866, and nearly as much in the previous year. The steamers first employed were such as could be picked up. Subsequently, a class of vessels especially adapted for blockade running were built. The first of these, the *Banshee*, 216 tons burden, was launched at Liverpool in November, 1862. She was the first steel boat that crossed the Atlantic and made three successful voyages from Wilmington, and was captured on the fourth. The *Coquette*, 390 tons, and the *Vulture*, 335 tons, were types of a large class of vessels which could make the voyage between Wilmington and Nassau, N. P., about six hundred miles, in forty-four hours, forty eight being the usual time. A still larger class of vessels, one of them with twin screws, were subsequently built, but only one or two of these found employment.

In 1863 the expenses of a blockade runner, carrying eight hundred bales of cotton to Nassau and returning with a cargo, were about $15,000. In 1864 these rose to $25,000. The captains in 1864 received $5,000 for the round trip with the privilege of carrying ten bales on his own account, the pilot the same with five bales. The purser and first officer had each $1,500, with the privilege of two bales. The blockade was proclaimed April 19, 1861. During the remainder of that year two sailing vessels and two steamers ran the blockade to Nassau: the *Prince of Wales*, a schooner of 24 tons, arrived from Charleston December 5 with 140 bales of cotton, and the *Theodora*, a steamer which arrived December 10 with 75 bales, and sailed December 16 to run the blockade on her return.

The statistics of the arrivals and departures of blockaders from Nassau for the remaining years of the war are as follows:

	Arrivals.		Departures.	
	Steamers.	Small Sailers.	Steamers.	Small Sailers.
1861	2	2	2	1
1862	33	74	46	109
1863	113	27	174	48
1864	105	6	165	2
1865	35	..	41	.
Total	288	109	428	160

Of these vessels 42 steamers are known to have been captured and 22 wrecked, chiefly off Charleston and Wilmington. Others never returned to Nassau. Fifty one steamers made but one voyage; twenty-three, two; six, three; five, four; four, six; two, seven; three, eight; three, nine; two, ten; and one eighteen. This last vessel, the *Syren*, left for Charleston on her nineteenth voyage, February 13, 1865, ignorant of its capture, and ran into Federal hands. The last blockader, which arrived at Nassau, was the steamer *Imogene* with a cargo of cotton from Galveston. The last which cleared to run the blockade on the return voyage was the *Little Hattie*, which left Nassau February 25, 1865. Twenty-three steamers were in Nassau harbor or arrived after the Southern ports were closed by capture. Of these twelve cleared for England, four for Halifax, two for Bermuda, three for Havana and one each for St. Thomas and Matamoras. Two hundred and nineteen vessels were transferred from the American to the British flag in the port of Nassau from 1860 to 1864, and from 1861 to 1864 325 American vessels were registered as British vessels on bills of sale genuine or colorable.

As the result of the unfriendliness shown to our flag at that time, Nassau was rendered wild and delirious by becoming for a time a great commercial centre. She awoke to find herself only weakened by the dissipations which the great carnival had caused; England in the end was compelled to pay for the work of the Confederate cruisers; Nassau's ill-gotten wealth was swept away by the hurricane of 1866, and she finds, as the only legacy of her blockade harboring career, a colonial debt of over a quarter of million dollars; no small matter for a colony of some forty thousand, four-fifths negroes. Nor is the future of the Bahamas promising. Left to the gravitation of self-interest we should speedily have them asking for annexation to the United States; the negroes clearly see that this is their one chance of prosperity and are unanimous for it, while five-sixths of the white inhabitants outside of official circles are of the same mind. Their chief wealth has been always derived from preying upon the commerce of the United States in some form, either as wreckers or as harborers of blockade runners.

THE subject of our Sea Coast Defences occupies the attention of Captain EUGENE GRIFFIN in the *Journal of the Military Service Institution*, which reprints his recent monograph on that subject, and of Captain FRANCIS V. GREENE in the first number of Scribner's new *Monthly*. These two officers of Engineers discuss this question with intelligence and ability, and their presentation of our humiliation is being reinforced by articles upon the same general subject, especially in the New York *Herald*, which has given much space of late to illustrated descriptions of the actual condition of our sea coast fortifications. The article in Scribner's has the advantage of elaborate illustrations, and it is a popular presentation of a most important subject; for, as Captain GREENE well says, every man, woman and child of the five millions located on our littoral boundary, and every dollar of the four thousand millions of property there located, "is to day in danger of destruction by a hostile fleet." Less than one-half of one per cent. of this valuation, or twenty millions of dollars, expended annually for six years, would give us harbor defences stronger than any ships which could be brought against them. The total expenditure for fortifications thus far in our history from 1794 to 1886 has been $87,100,000, or a yearly

average of $936,559, less than a million, each year of the ninety-three. "We are to-day, in the matter of coast defence, just where we were during the Civil War: we are a whole generation behind the other nations of the world, and a generation, too, in which more advance has been made in methods of coast attack than in the whole previous period of the world's history." Captain GREENE gives due credit to the office of Naval Intelligence for the assistance which enabled the Board on Fortifications to submit with remarkable promptness in January last what is "probably the most exhausted treatise on coast defence ever made." The Washington office is described as "in no way inferior to the one in Berlin, whose researches had so marked an influence on the war of 1870." The article of Captain GRIFFIN is more strictly professional. He shows that an annual expense equal to the amount, six millions, expended for fire insurance in New York each year would in three years put the harbor of that city in a complete condition for defence. For works of defence he places steel before compound armor because of the greater cost of the latter, as well as for other reasons. He sets forth the advantages of wrought iron at length, and concludes that the choice lies between this metal and low steel. "The iron," he says, "will probably be selected for casemated batteries, but for turrets the choice is not so evident," though at the present time, considering the difference of cost, he is inclined to give the preference to iron. There is a prospect that a fall in the price of soft steel will change this.

OUR Military and Naval Policy is discussed by 1st Lieutenant ARTHUR L. WAGNER, 6th Infantry, in the last Journal of the Military Service Institution. It is a melancholy showing of "parsimonious and inadequate provision, in time of peace, for the necessities of war; an injudicious reliance upon raw troops; and a mischievous intermeddling by civil officials with the conduct of military operations." The author shows how the Jeffersonian policy of economy which reduced the national debt from $83,038,050 in 1801, to $45,209,737 in 1812, resulted in a war which cost $100,000,000 and 30,000 lives, besides incalculable losses from the paralysis of commerce and industry. "When TALLEYRAND said that France had nothing to fear from a nation of debaters that had been trying for three years to build three frigates, he only expressed the contempt for American power that was felt by European nations—a contempt that was a prime cause of the English aggressions that led to war." We are travelling the same road again, and to the same end.

THE favorite measure of Lieutenant-General SHERIDAN, the establishment of a Cavalry and Light Artillery School at Fort Riley, Kansas, seems likely, before long, to be a fact accomplished. We trust it may, believing such a school necessary for the life of the two important arms of the Service concerned.

THE Secretary of War transmitted to the House on Wednesday statements from the Chief of Ordnance showing expenditures, number of arms fabricated, altered and repaired at the Springfield Armory during the past fiscal year; and from the Quartermaster-General showing the purchases made in his department during the year. These statements cover in detail what has already been published in the annual reports of Generals Buell and Holabird.

SECRETARY LAMAR, in his annual report, says that during the last year less than 100 of the 260,000 Indians in this country have been in open opposition to the Government, and he gives statistics showing that the Indians are making progress in civilization. The Secretary renews his recommendation of last year that a law be enacted for the appointment of a commission to visit each reservation and investigate the condition of the Indians thereon.

THE two vacancies on the disability retired list of the Army, it is understood, will be filled by the retirement of the captains whose relieve from the active list will give promotion to the two senior lieutenants.

PAMPHLET copies of the several reports of the bureau chiefs of the War Department have all been printed and are now being distributed throughout the Service.

A DESPATCH from Washington to the N. Y. *Evening Post* says that the annual report of Register Rosecrans shows that he is fulfilling the tacit pledge of the new Administration "to overhaul the books." Though he has reduced the force twenty-seven per cent., thereby saving since he took charge of the office about $30,000, he not only has kept up the current work, but undertaken several vast and important enterprises, which are quite new. He has nearly completed a "receipt ledger" opened by him, showing under proper heads the receipts for every year since 1789, and arranged for the preparation of a companion volume, an "expenditure ledger." He also gives a report containing over 200 pages of "Balance due to and from the United States," information which had been studiously withheld by Treasury officials. Examination disclosed the astonishing fact that a Secretary's warrant issued years ago in full settlement of the amount due from the United States had never been charged, because, under the peculiar practice of that time, individuals were not charged with warrants issued in their favor unless thereon the Secretary expressly requested it. It is likely that many cases of this kind will now be balanced, and that many others equally as surprising will receive attention. This goes to prove the truth of Gen. Rosecrans's contention that the old ledgers were full of errors, containing balances which resulted from the imperfect and complicated methods of national book-keeping, which, in other words, were not real. Doubtless, he was led to think so from his own experience, as upon assuming the duties of Register a large balance was found upon his own books staring him in the face due from him as Minister to Mexico, which he knew had been removed, as was afterwards proved when his final accounts were found among the rubbish in the files room, unsettled and unposted.

JUST after the war had closed, we met in Georgia a gentleman from Boston, who had thought it necessary to provide himself for his travels with some one article of luxury, and had selected Bent and Co.'s Water Crackers. This choice bore testimony to the local appreciation of this most excellent product of the baker's art. The manufactures of Messrs. Bent and Co. date as far back as the year 1801, and they have a justly deserved reputation which is national in its extent. Indeed, their hard crackers or "biscuits" are sent all over the world. They are unexcelled as an after dinner cracker, and as they are packed in quantities anywhere from a two pound package to a barrel, they can be obtained direct by an order addressed to the manufacturers, Messrs. Bent and Co., Milton, Mass. There is no better combination than a good glass of wine with a Bent cracker and a bit of cheese. They are equally in place with other liquors, water, and tea and coffee included.

THE statue of Major-General Halleck, U. S. A., in Golden Gate Park, San Francisco, is much admired. On the face of the pedestal in plain letters are these words:

MAJOR-GENERAL
WILLIAM H. HALLECK,
General-in-Chief of the
Armies of the United States.
1862—1864.

On the rear of the pedestal is inscribed simply:

A tribute to his memory from his
"Best Friend."

The figure is clothed in a military suit, with a heavy army overcoat with a cape worn over it. The head of the figure is nobly mounted and firmly poised. The face of the statue represents Halleck in his later life, when he had won his honors and fame. There is a benevolent look in his face. The hair is thrown well back from a high forehead and a circle of whiskers surround his face, leaving his chin bare, after the old-fashioned style. At the base of the pedestal in front lie the sword and scabbard and the soldier's hat.

THE Commander-in-Chief of the British Army has recently signified his disapproval of the practice of employing volley firing at the longer ranges only and during the earlier stages of attack, the volleys being abandoned in favor of independent firing in the third stage, after the main body has been reinforced. Orders are now given that this custom is to cease, and that volleys are to be maintained right through the attack. The reason is his conviction that it would be impossible with independent firing to stop the men at the critical moment in order to form them for the final rush, success at this point depending upon the whole of the line being perfectly under the control of the officers.

ACCORDING to the London *Horse Guards Gazette* a contract was given out by the English War Office for a large supply of coal for Woolwich. The contract was worded: "The coals to be twice passed through a sieve," and the contractor, taking advantage of this wording, soon piled up a huge mound of coal dust in the Arsenal. It struck one as extraordinary that this dust should go on accumulating and some questions were asked, when, to the utter amazement of the Woolwich officials, they ascertained that the "dust" represented their supply of contract coal. Further delivery was at once stopped. But the contractor stepped in and claimed damages. He maintained that the coal had been "twice passed through a sieve" according to contract. The document was scrutinized. The words were there, sure enough; but, said the officials of the War Office, they meant "double-screened coal." But no one was to blame—of course.

THE President has been looking over the list of applicants for the position of Chaplain in the Army and, it is believed, has determined upon a successor to Chaplain Crocker, who retires this month, and to Chaplain Brady, who was retired several months ago. It is said that both appointments will be made as soon as Chaplain Crocker retires. A Rev. Mr. Witherspoon, of Missouri, who is highly endorsed by Senator Cockrell and the whole Missouri delegation, it is believed, will be appointed to one of the places. He belongs to the Cumberland Presbyterian Church, a denomination not at present represented in the Army. In making these selections, the President's desire has been, it is understood, to give first consideration to the churches which are not at present represented and to the States which are not credited with an Army chaplain.

A WASHINGTON correspondent says: It is understood that "the report of the Army officers detailed to examine into the advisibility of the assumption by the Government of the Hennepin Canal scheme speaks in warm terms of the proposed canal as a great commercial enterprise, and all that sort of thing, but urges serious objections to the acceptance by the United States from the State of Illinois of the Illinois-Michigan Canal, which is the basis of the whole Hennepin Canal scheme. The officers, it is asserted, do not report against such an acceptance in some form, but they advise very material changes in the terms of the agreement upon which the pending legislation is founded."

HENRY M. HOWE writes from Boston to the *Iron Age*, in answer to a statement that an ingot of crucible steel weighing over 7,000 lbs., cast by Miller, Metcalf and Parkin, proprietors of the Crescent Steel Works, Pittsburg, Pa., is the first of its size ever cast from crucible pots. Mr. Howe says: "Within an hour of reading this I accidentally met a description in the *Journal* of the Iron and Steel Institute, 1874, Vol. 2, page 439, of the casting of crucible steel ingots at the Aboukoffsky Works, weighing 40 tons and requiring 1,200 crucibles for their production." The ingot cast at the Crescent Works is for a steel shaft on a new 15-ton hammer, to be used in connection with the new rotary puddling furnaces now ready to be lighted.

WE observe that the Acting Adjutant-General of the Territory of Dakota is a woman, and one of the local papers states that there is much feeling there because some ill-bred person of the bifurcated sex is anxious to take her place, in spite of the fact that she discharges the duties of the office, and is in need of the pay. It is said by those who ought to know that some of our Army posts are commanded by women, but none of them assume to draw a salary for this entirely voluntary service—bless their dear hearts—the consciousness of duty well performed being sufficient reward.

REAR-ADMIRAL J. E. JOUETT has made the following report to the Admiral of the Navy regarding the recent inspection of the *Dolphin*, dated Hampton Roads, Dec. 10, 1886:

In accordance with your instructions I caused the Board to assemble at Norfolk, Va., Dec. 9, 1886, for the inspection of the U. S. S. *Dolphin*. The inspection continued through that day and the next. The *Dolphin* is exceptionally clean and in a creditable condition of efficiency. Her speed developed during a six hours' trial near Cape Henry was about thirteen knots per hour. The working of the engine was very satisfactory. When going ahead thirteen knots the engine was stopped and backed in twelve seconds.

None of the changes recommended by the Board to the Secretary of the Navy, dated Sept. 3, 1886, have been made. Among them, and of immediate importance, was the proposed change in the present inefficient apparatus for steam steering. During the steam trial I caused all the battery to be worked and fired with shell, and was impressed with the value of the secondary battery, and the possible value of the VI.-inch B. L. R., if a different carriage is used.

The sail area is 10,020 sq. ft. I recommend that a mizzen staysail be added to the canvas that she already carries.

The speed as compared with the number of revolutions indicates that her bottom is foul, having laid five months alongside the dock at the Norfolk Navy-yard.

THE Secretary of the Navy has not yet approved the plans for the new naval observatory building, and before doing so will get the opinion of prominent architects as to the advisability of adopting the plans which were prepared several years ago, plans which might have been very good, six years ago, and still be utterly worthless now.

THE FORTY-NINTH CONGRESS.

The following resolution was presented in the House on Monday and referred to the Committee on Appropriations:

Whereas the rapidly accumulating surplus in the Treasury, largely in excess of the needs to support the Government and discharge the bonded debt as it is called or may become due, is likely to prove subversive of the commercial interests of the country and detrimental to the welfare of the people in various essentials; and

Whereas the proper executive officers of the Government represent to the Congress that our coast defences need to be placed in armament so as to meet the requirements of the advanced arts in modern warfare, and afford adequate protection to the large sea-coast and lake-board cities now absolutely exposed to the mercy of a foreign enemy; and

Whereas, although the *personnel* of our Navy is composed of officers and sailors of the highest excellence and patriotism, unsurpassed in ability by that of any other nation, yet we have no vessels of war worthy the name or capable of competing with the armed cruisers of third or fourth-rate powers; and

Whereas it is estimated that nearly one million of workingmen are now unemployed throughout the country, and suffering consequent deprivation of the necessaries of life; and

Whereas the happiness and welfare of the Republic are largely dependent upon the employment and contentment of the laboring classes; Therefore,

Be it resolved, as the sense of the House of Representatives of the Forty-Ninth Congress of the United States, That a large proportion of the surplus in the Treasury should be expended, through liberal appropriations, for repairing and properly equipping our coast defences; for construction of war-ships worthy the name of an American Navy, and for such Federal public works as may be needed in various sections of the country, to the end that these surplus moneys may be distributed among the people as wages for their labor to be employed.

A meeting of the Senate Committee on Military Affairs was held on Tuesday, but as the members were late coming in no business was transacted, the short session being devoted to an informal talk upon the condition of the business of the Committee. No nominations having been received there was nothing to be done in that direction.

The House Committee on Naval Affairs on Tuesday adopted a favorable report on the bill to appoint Albion S. Keith, late a Naval Cadet, an Ensign on the retired list of the Navy.

A memorial was presented in the two Houses of Congress on Tuesday from the Chamber of Commerce of San Francisco, Cal., protesting against the neglect of the Federal Government in properly fortifying the harbor of that city and the principal Naval stations on the Pacific Coast, and in means for construction of modern vessels of war and approved ordnance for arming them. The memorial urges the California delegation to obtain action upon these important subjects at the earliest practicable day.

Communications were presented in the House on Tuesday from the Secretary of War transmitting a report of tests of iron, steel, and other materials at the Watertown Arsenal during the past fiscal year; statements of expenditures from the contingent funds of the military establishment and for the War Department, and a list of employees of the Department.

Gen. Bragg's bill, establishing an artillery and cavalry school at Fort Riley, and to enlarge Forts D. A. Russell and Robinson, which passed the House last week, has been referred by the Senate Military Committee to Senator Manderson as a sub-committee, and he will probably make his report at the next meeting Dec. 21. The opinion is that this bill will become a law.

Senate bill 1526, giving apothecaries and yeomen the benefit of the naval pension fund passed the House on Thursday.

The bill to retire, with increased pay, Vice-Admiral Rowan and Rear Admiral J. L. Worden has passed the House and goue to the President.

The House has been chiefly occupied this week with the Sundry Civil bill. Unsuccessful attempts were made to increase the amounts recommended for arsenals, barracks, Signal Corps and Revenue Marine.

It is expected that the Military Academy bill will be reported to the full committee on Saturday. It appropriates $286,686.93 or $13,118.07 less than last year, and $117,000 less than the estimates. The reduction is principally upon items for improvements. The bill contains no special legislation.

The Senate Naval Committee held its first meeting this week, but accomplished but little. They report in favor of the passage of the bill for the relief of Rear Admiral Carter.

The Naval Committee of the House has thus far made but little headway with the Naval Appropriation bill, and it is not likely to be reported until after the holidays.

Nothing has transpired in Congress this week on the subject of fortifications and seacoast defences. The conferees on the pending fortification bill have not yet come together, and, as far as can be learned, have made no arrangements for a meeting. Demands from Chambers of Commerce and other organizations for legislation on this important subject continue to pour in, however, and as the agitation seems to be growing, it is not probable those who have the matter in hand can remain idle much longer. While it is not probable that the conferees will reach an agreement, the belief is growing that the pending bill which appropriates about $6,000,000, can be passed through the House notwithstanding Mr. Randall's opposition. When the conferees next report a disagreement a motion will doubtless be made to have the House recede from its disagreement to the Senate amendments, and there are many who believe that a sufficient number of votes can be secured to carry it.

BILLS INTRODUCED.

S. Res. 87, McPherson. That the Secretary of War is authorized to cause a medal to be prepared, the same to be made from captured cannon, to be presented to each of the officers and men of the volunteer militia of the several States who so nobly and promptly responded to the call of the President of the U. S. for troops, dated April 15, 1861, for three months' service.

S. 2990, Gray. To muster Edward G. Pendleton as lieutenant of infantry into the service of the United States, and pay to him for his services from August 31, 1861, to July 10, 1864, inclusive.

H. R. 10054, Mr. Bragg. That in consideration of the long and distinguished services of Henry J. Hunt, now a colonel upon the retired list of the Army, the President of the United States is hereby authorized and requested to nominate him as a brigadier-general upon such retired list; and when confirmed by the Senate the said Henry J. Hunt shall hold the rank and receive the pay of a brigadier-general, retired, in lieu of the rank now held and the pay now received by him.

H. R. 10081, McKenna. That the militia of the United States shall consist of every able-bodied male citizen of the several States who is of the age of 18 years and under the age of 45 years.

Sec. 2. That the militia of the several States of the Union shall be divided into two classes, the organized and the reserve.

Sec. 3. That the organized militia shall consist of the organized militia of the several States of the United States known as the National Guard, or volunteer militia, organized and equipped under the laws of the several States.

Sec. 4. That in States or Territories having no organized militia or no general militia laws, volunteer or independent companies may be formed, not to exceed ten in any one State, upon the following conditions:

Upon filing with the adjutant-general of the State or Territory wherein said organization is about to be formed, or, if no such officer exists, with the Secretary of State of said State or Territory, a certificate of organization, stating the number of members and in what branch of the Service they desire to serve; that they will perform all the duties required of a State militia organization, subject themselves to the call of the President or the Governor of their State in case of rebellion, invasion, or domestic violence; and the commissioned officers of said organizations, through the Governor of their State, certified by the adjutant-general or Secretary of State of said State or Territory, shall thereupon make a requisition upon the Secretary of War of the United States for the number of stands of arms required, and file a bond in accordance with law with the said Secretary of War in the sum of $10,000 for the proper safe-keeping of said arms and equipments. Upon the proper filing of said requisition and bond the Secretary of War of the United States shall cause to be issued from the Ordnance Department of the United States the kinds and quantities of arms, munitions, and equipments specified in said requisition, and shall cause them to be delivered at the place designated, where the said militia organization is in the course of formation.

Sec. 5. That no money shall be paid for the support and maintenance of said auxiliary organization out of the Treasury of the United States, except from such moneys as may be appropriated to the States out of the regular militia appropriation provided by Congress.

Sec. 6. That it shall be the duty of the Secretary of War to detail two officers at the request of the Governors of the respective States to instruct the militia in military duties, and in the use of seacoast and garrison artillery.

Sec. 7. That at the request of the Governor of any State, the Secretary of War shall furnish to the State heavy guns—siege, seacoast, and mortars—for the instruction of the militia, the number not to exceed six, and to be delivered at a place designated by the Governor of the State.

Sec. 8. That the War Department, upon the request of the Governor of any State, shall furnish to the militia camp and garrison equipage during State encampments or at any time when any portion of the militia is mobilized for public service, upon conditions prescribed by the Secretary of War.

Sec. 9 That a Bureau shall be established in the War Department to be called the Bureau of Militia, to be organized for the purpose of aiding and giving necessary instruction and all useful information for the purpose of increasing the efficiency of the militia of the several States.

Sec. 10. That all laws inconsistent with this act are hereby repealed.

H. R. 10092, Matson. That appointments to fill vacancies in the grade of 2d lieutenant in the Marine Corps, shall be made by the President, in equal proportions, as near as may be, from such graduates of the Military Academy and the Naval Academy as may so elect and by selection from such meritorious non-commissioned officers of said corps as may, upon examination before a board of Marine officers, appointed by the Secretary of the Navy, be found mentally, morally, and professionally qualified to perform efficiently all the duties of the said grade and be recommended by said board for appointment, and from civil life.

H. R. 10131, Gibson. That the disbursing officers of the Navy who have been in charge of the accounts of the vessels of the Coast Survey and those who may hereafter be assigned to such duty, including the P. A. Paymaster now in charge of the accounts, shall be entitled to sea pay while on such duty and the accounting officers of the Treasury are hereby directed to settle their personal account accordingly: *And be it further enacted*, That the clerks to paymasters of the Coast Survey vessels shall continue to receive pay at $1,300 per annum.

H. R. 10171, Samuel S. Cox. To place the name of Gen. Alexander S. Webb on the retired list of the U. S. Army. Same as S. 2924.

H. R. 10187, Mr. Herman. That all voluntary observers at present recognized at existing volunteer signal stations in the United States, and at such other stations as the Secretary of War shall hereafter select, shall receive $300 per annum from and after the passage of this act, and shall be subject to such regulations and perform such duties pertaining to such Signal Service at the station in which he shall be located as shall be prescribed by the Secretary of War: *Provided*, That in no one State or Territory shall the number of voluntary observers so recognized exceed ten.

Sec. 2. That each of said voluntary observers shall be furnished by the Secretary of War with all the requisite instruments for observation, together with necessary blanks and stationery.

ARMY APPROPRIATION BILL.

FOLLOWING is the text of the bill making appropriations for the support of the Army for the fiscal year ending June 30, 1888, reported to the House:

For pay of officers of the line, $2,868,000; additional pay for 23 aids, one military secretary, and mounted officers of foot regiments, $8,000; service pay, $812,770; pay of enlisted men, $4,668,868; general service clerks and messengers, $161,900; pay of the general staff, $408,240; pay of staff officers, including service pay, $1,277,410; retired officers, $1,190,313.75; retired enlisted men, $56,241; miscellaneous, $91,675.94.

Provided, That the maximum sum to be allowed paymasters' clerks when traveling on duty shall be four cents per mile, and, in addition thereto, when transportation cannot be furnished by the Quartermaster's Department, the cost of same actually paid by them, exclusive of sleeping or parlor car fare and transfers.

Expenses of courts-martial and courts of inquiry and compensation of witnesses attending the same, $10,000; additional pay to officer in charge of public buildings, etc., in Washington, $520; for commutation of quarters to commissioned officers on duty without troops, at places where there are no public quarters, $150,000; for allowances for travel, retained pay, clothing not drawn, and for interest on deposits, payable to enlisted men on discharge, in all, $850,000.

For mileage to officers when traveling on duty, not to exceed $85,000.

Provided, That in disbursing this amount the maximum sum to be allowed and paid to an officer shall be four cents per mile, distance to be computed over the shortest usually traveled routes, and, in addition thereto, upon the officer's certificate that it was not practicable to obtain transportation from the Quartermaster's Department, the cost of the transportation actually paid by the officer over said route or routes, exclusive of sleeping or parlor car fare and transfers.

Making in all for pay of the Army, $12,666,918.69. All the money hereinbefore appropriated shall be disbursed and accounted for by the Pay Department as pay of the Army, and for that purpose shall constitute one fund.

Subsistence of the Army.—For the purchase of subsistence supplies, estimated for the fiscal year on the basis of 9,968,450 rations, and for miscellaneous charges, $1,745,000, to be expended under the direction of the Secretary of War; and not more than $120,000 thereof shall be applied to the payment of civilian employees of the Subsistence Department.

Quartermaster's Department.—Regular supplies, $2,678,000.

Provided, That no part of this appropriation shall be expended on printing unless the same shall be done by contract, after due notice and competition, except in such case as the emergency will not admit of the giving notice for competition.

Incidental expenses: $675,000.

Provided, That $225,000 of the appropriation for incidental expenses, or so much thereof as shall be necessary, shall be set aside for the payment of enlisted men on extra duty at constant labor of not less than ten days; but no such payment shall be made at any greater rate per day than is fixed by law for the class of persons employed and the work done.

For purchase of horses for cavalry and artillery, and for the Indian scouts, and for such infantry as may be mounted, $130,000:

Provided, That the number of horses purchased under this appropriation, added to the number on hand, shall not at any time exceed the number of enlisted men and Indian scouts in the mounted service; and that no part of this appropriation shall be paid out for horses not purchased by contract, after competition duly invited by the Quartermaster's Department, and an inspection by such Department, all under the direction and authority of the Secretary of War.

Army transportation, $2,800,000.

Provided, That no part of this appropriation shall be expended in the purchase for the Army of draught animals until the number on hand shall be reduced to 5,000, and thereafter shall only be expended for the purchase of a number sufficient to keep the supply up to 5,000: *And provided further*, That no expenditure authorized by this act from the appropriation made for the Quartermaster's Department of the Army, including the transportation of troops and their supplies, and the expenses incident thereto, shall be made, except by the Q. M. General, under the direction of the Secretary of War, unless an emergency exists that demands immediate action, and in such case the expenditure necessary to meet the emergency may be made upon the order in writing of the General commanding the Army, or upon the order in writing of a Division or Department Commander, in whose jurisdiction the emergency arises; on every such order from a Division or Department Commander shall certify that an emergency exists requiring immediate expenditure, stating the emergency necessary to be met.

Arrears of Army transportation on certain land-grant railroads, $50,000.

Provided, That such compensation shall be computed upon the basis of the tariff rates for like transportation performed for the public at large, and shall be accepted as in full for all demands for such services.

Barracks and quarters, $620,000.

Provided, That no expenditures exceeding $500 shall be made upon any building or military post, or grounds about the same, without the approval of the Secretary of War for the same, upon detailed estimates by the Quartermaster's Department; and the erection, construction, and repair of all buildings and other public structures in the Quartermaster's Department shall, as far as may be practicable, be made by contract, after due legal advertisement: *And provided further*, That no more than $1,300,000 of the sums appropriated by this act shall be paid out for the services of civilian employees in the Quartermaster's Department, including those heretofore paid out of the funds appropriated for regular supplies, incidental expenses, barracks and quarters, Army transportation, clothing, and camp and garrison equipage; and that no employee paid therefrom shall receive as salary more than $150 per month, unless the same shall be specially fixed by law; and no part of any of the moneys so appropriated shall be paid for commutation of fuel and for quarters to officers or enlisted men.

For shelter and shooting galleries and ranges, and repairs thereof, $10,000. Construction and repairs of hospitals: For construction and repairs of hospitals, including the extra-duty pay of enlisted men employed on the same, $1,000. For construction of quarters for hospital stewards, including the extra-duty pay of enlisted men employed on the same, $12,500.

Provided, That the posts at which such quarters shall be constructed shall be designated by the Secretary of War, and the quarters shall be built by contract, after legal advertisement, whenever the same is practicable; but the cost of the construction of quarters at any one post shall in no case exceed $800.

Clothing, camp and garrison equipage, $1,150,000

Provided, That out of the money hereby appropriated for clothing and equipage of the Army there shall not be expended at the Military Prison at Fort Leavenworth a sum in excess of $125,000.

[In the bill as provided appears the following, which was stricken out in Committee: "And that the remainder of such appropriation necessary to be expended in procuring and furnishing to the Army boots and shoes, in addition to the number manufactured at the Military Prison at Fort Leavenworth, from such sum herein set apart for such prison use, shall be provided by the Quartermaster-General by contract let after public advertisement and due notice and competition."]

Medical Department.—$210,000: and not over $36,000 of the money appropriated by this paragraph shall be applied to the payment of civilian employees of the Medical Department.

For service of the Army and Navy Hospital at Hot Springs, Arkansas, $14,620.

Medical Museum and Library, $15,000.

Engineer depot at Willet's Point, $6,500.

Ordnance Department.—Ordnance service, $90,000. Metallic ammunition, targets and materials, $100,000; repairing ordnance and ordnance stores, $5,000; purchase and manufacture of ordnance stores, $25,000; infantry, cavalry and artillery equipments, including horse equipments for cavalry, $25,000.

For manufacture of arms at the National Armory, $3,000.

Provided, That not more than $60,000 of the money appropriated on the Ordnance Department in all its branches shall be applied to the payment of civilian clerks in said Department.

Recruiting service, $100,000.

Signal service, $3,000.

Contingent expenses.—Office Lieut.-General, $1,200. A. G. Dept., at headquarters of military divisions and departments, $2,000; under the immediate orders of the Secretary of War, $15,000.

THE House has passed the Senate bill to allot lands in severalty to Indians and to confer citizenship upon the Indians.

THE DEPARTMENT AND GENERAL MILES.

WE give here the portion of the Report of the Secretary of War relative to the Arizona Campaign, which was omitted from our summing up of his annual report published last week:

In the Department of Arizona, from the date of my last report until early in September, the troops and all the military resources of the department have been employed in pursuing and finally capturing Geronimo and his band of outlaws. In November last Geronimo and his band were in Mexico, making occasional inroads into this department, committing murders and other crimes, and undoubtedly communicating with and receiving aid and encouragement from the remainder of their people, the Chiricahua and Warm Spring Apaches, who had not left the reservation of San Carlos. The removal of these Apaches to some secure place, far away from Arizona, had been the subject at that time of frequent conference between this office and the Secretary of the Interior. Not a mere temporary removal was contemplated, but a permanent withdrawal of these warlike and dangerous Indians from a Territory to the prosperity and security of which they had been a constant menace from the time of the Camp Grant massacre in 1871. The Secretary of the Interior recommends such removal in his report to Congress in 1885. The matter had also been discussed with the Lieut.-General, who was not then prepared to recommend their forcible removal. In November last he brought the matter to my attention, and it was decided that he should go to Arizona and advise with Gen. Crook, upon this and other questions touching the situation. He left on Nov. 22, 1885, and having consulted with Gen. Crook and also with Capt. Emmet Crawford, 3d Cav., both of whom considered that the time was inopportune for such an attempt, he deemed it best, in deference to their opinion, to await a more advantageous opportunity for the accomplishment of this purpose. Capt. Crawford was then on the point of starting in pursuit of Geronimo with 200 Indian scouts, many of whom were Chiricahuas, from the reservation. Capt. Crawford considered that the removal might have a bad effect upon the scouts, in whom both he and Gen. Crook placed great confidence. The report of the Lieut.-General, sent at that time to me, gives a graphic account of the situation.

Capt. Crawford had organized a battalion of White Mountain and Chiricahua Indians at Fort Apache on Nov. 9, 1885, and with Lieuts. Maus and Faison, 1st Infantry, and Lieut. Shipp, 10th Cav., and Asst. Surg. Davis, entered Mexico on Dec. 11, intending to find and attack the hiding place of the hostiles in the great Sierra Madre Range. Along his route reports were constantly brought in of depredations by the hostiles. On Jan. 9 last Capt. Crawford with his command on foot, came upon their camp near the Rio Haros, and attacked it that night, but the hostiles became alarmed before the movement to surround them was complete, and escaped to the mountains. The next day, Jan. 10, they sent in a squaw to make arrangements for a meeting between Natchez and Capt. Crawford on the 11th. During the pursuit Capt. Crawford had given them no rest, and had exhibited perseverance and intelligence in the highest degree. The Indians were dispirited and worn out by his pursuit, and finding him close upon their trail, and knowing his character and ability, there is little room to doubt that the result of the meeting between Crawford and Natchez would have been the absolute surrender of the hostiles and the closing of this campaign, so full of all that makes Indian wars horrible.

After the skirmish Lieut. Maus took command and had the appointed meeting, which resulted not in the surrender of the Indians, but in the promise on the part of Geronimo that he would meet Gen. Crook near the boundary line in about two moons. More than seventy days elapsed before Geronimo appeared at the appointed place. Gen. Crook and he met on March 25 at El Canyon, in Mexico, twenty-five miles south of the line. The understanding was that he should not be accompanied by troops. The Indians were encamped on a rocky hill, in a strong and almost inaccessible position. They were fierce and independent, well armed with the best guns and ammunition, and had blankets and supplies which they had obtained in Mexico. Gen. Crook demanded their unconditional surrender. The only propositions they would entertain were three, which Gen. Crook states:

1. That they should be sent East for not exceeding two years, taking with them such of their families as they desired.

2. That they should all return to the reservation on the old status.

3. To the warpath with all its attending horrors.

He was obliged to decide quickly, and accept their surrender on the first proposal, and the whole party started, escorted by the Apache scouts under Lieut. Maus, for Fort Bowie.

The terms of the surrender were received here March 30. The response of the President was that their imprisonment in the East for two years and their return to the reservation could not be approved. Certain instructions were given, but before Gen. Crook received the despatch, Geronimo and Natchez, with twenty men and thirteen women, left Lieut. Maus's camp on the night of the 29th and escaped to the mountains. The remainder of the band, numbering sixty, under Chihuahua, were sent to Fort Marion, Fla., where they are now held as prisoners. The children have been sent to the Indian school at Carlisle. Lieut. Maus followed Geronimo's trail until he was satisfied that further pursuit at that time was useless. This unfortunate escape was attended by the usual sad results. The route of the Indians to the Sierra Madre Mountains in Mexico was marked by atrocities similar to those that had usually attended their course.

After these events the Lieutenant General became satisfied that the Apache scouts could not be absolutely depended upon to fight and kill their people, and could be trusted only to the extent of capturing or inducing them to surrender. Gen. Crook had organized them and had not lost his confidence in their fidelity. To avoid the embarrassment of the situation he asked to be relieved; and in the change of commands following the death of Gen. Hancock and the retirement of Gen. Pope, Gen. Crook was assigned to the Department of the Platte and Gen. Miles took his place in the Department of Arizona on the 27th of April.

The instructions of the Lieutenant General to Gen. Miles upon assuming command were in accordance with the directions of the President, and were communicated by the Adjutant General as follows:

"He directs that the greatest care be taken to prevent the spread of hostilities among the friendly Indians in your command, and that the most vigorous operations looking to the destruction or capture of the hostiles be ceaselessly carried on. He does not wish to embarrass you by undertaking at this distance to give specific instructions in relation to operations against the hostiles, but it is deemed advisable to suggest the necessity of making active and prominent use of the regular troops of your command."

Gen. Miles began his campaign with great zeal and energy, and it was continued with the same vigor till it ended in September following.

Our troops at once began the active operations, and the General reported on June 7 that for thirty-six days they had followed the hostiles over 800 miles in the most mountainous region of the country, breaking up their camps, capturing horses, equipments and supplies and having several engagements. An attempt on the part of the hostiles to reach the agency and obtain assistance was frustrated. On the 20th of July Capt. Lawton again surprised Geronimo's camp, capturing all their property, including food and horses. As the pursuit went on the Indians had but little rest, and were reduced in numbers by encounters with the troops and by desertion. Capt. Lawton, whose report is published, gives a detailed account of his movements and the hardships suffered by his troops in traversing more than 1,300 miles in this difficult country, during the intense heat and often destitute of water. The admirable bearing and conduct of all the troops engaged in this pursuit cannot be too highly commended. He arrived near Fronteras on Aug. 20, and learned that the hostiles had communicated to the Mexicans a desire to surrender. Some negotiations followed through Lieut. Gatewood, which resulted in Geronimo visiting Lawton's camp and intimating his wish to make peace and to talk with Gen. Miles. He marched with Lawton's command to meet Gen. Miles, and surrendered to him on Sept. 4, with his band.

The fact of the surrender was communicated to the President and the authorities in Washington on Sept. 7, and from the information received on that date the surrender was supposed to be unconditional. To this despatch the President replied that all the hostiles should be very safely kept as prisoners until they could be tried for their crimes, or otherwise disposed of. The first intimation that the surrender was not unconditional reached the department Sept. 9 by telegraphic advices from General Miles, through his division commander, that the Indians surrendered with the understanding that they would be sent out of the country, and in pursuance of this plan Gen. Miles had ordered them to be taken to Fort Marion. As this order was in direct opposition to the President's orders, General Stanley was directed from the War Department to stop these Indians at San Antonio, Tex., and hold them securely until further orders.

Nothing more specific in regard to the surrender was received at the department until the receipt of Gen. Howard's despatch of Sept. 24, in which he said that he believed at first from official reports that the surrender was unconditional, except that the troops would not kill the hostiles; but from Gen. Miles's despatches, and from his annual report, the conditions were plain that the lives of all the Indians should be spared, and that they should be sent to Fort Marion, where their tribe, including their families, had already been ordered.

On Sept. 25 Gen. Miles was directed by the President to report by telegraph the exact promises, if any, made to Geronimo at the time of the surrender. In his reply Gen. Miles states:

"At the request of Capt. Lawton, I joined his command. Geronimo came to me and recounted his grievances. I informed him that Capt. Lawton and Lieut. Gatewood were honorable, and that I was there to confirm what they had said to them, and that if they threw down their arms, and placed themselves entirely at our mercy, they would not be killed; but that they must surrender absolutely as prisoners of war, and rely upon the justice of the Government, or trust their future to the President of the United States. I informed them that I was removing all the Chiricahua and Warm Spring Indians from Arizona, and that they would all be removed from this country at once and for all time, and this they understood. Geronimo replied that he would obey any order I might give, and go to any place, and that he would bring in his camp, which he did. Natchez subsequently surrendered his camp in the same way. Their status is the same as that of Chief Joseph, Sitting Bull, and hundreds of others. They are strictly prisoners of war, the result of the skill and fortitude of our troops. As prisoners of war they are now entirely under the control of the President."

The account of the surrender in the report of Gen. Miles, subsequently received, does not materially differ from the account given in the despatch above referred to. The terms and conditions attending this surrender were such that Geronimo and those of his band who had committed murders and acts of violence in Arizona and New Mexico could not properly be handed over to the civil authorities for punishment, as was intended by the President, and therefore, on the 19th day of October orders were issued, by direction of the President, that Geronimo and the fourteen hostile Apache adult Indians captured with him should be sent from San Antonio, Tex., under proper guard, to Ft. Pickens, Fla., there to be kept in close custody until further orders. These Indians had been guilty of the worst crimes known to the law, committed under circumstances of great atrocity, and the public safety required that they should be removed far from the scene of their depredations and guarded with the strictest vigilance. The remainder of the band captured at the same time, consisting of eleven women, six children and two enlisted scouts were ordered to be sent from San Antonio to Fort Marion, Fla., and to be placed with the other Apaches under custody at that post. Geronimo and the adult members of his band arrived at Fort Pickens on Oct. 25, and on the same date the women and children, and the two enlisted scouts reached Fort Marion.

On Oct. 20 Gen. Miles advised the department that a small party of Apache Indians, who had separated from Geronimo and his band in August, 1885, and consisting of Mangus, two men, and eight women and children, had arrived at Fort Apache, having been captured by a detachment under Capt. Cooper, 10th Cav. Under orders issued Oct. 26, Mangus and the two adults were sent from Fort Apache, Oct. 30, for confinement at Fort Pickens, Fla., at which place Mangus and one of the men arrived Nov. 6, the other having died on the way. The eight women and children were sent to Fort Marion at the same time.

It is proper also to state the circumstances which led to the removal to Fort Marion of the Warm Spring and Chiricahua Indians on the Fort Apache Reservation.

On July 4 Gen. Miles telegraphed that there were strong military reasons for allowing a delegation of the Apaches from the Fort Apache Reservation to visit Washington in regard to their removal from Arizona. Upon consultation with the President and the Secretary of the Interior it was decided that they would come, and they at once started, under charge of Capt. Dorst, 4th Cav. This permission was granted upon the supposition that they desired a change of abode, or could be induced to change without coercion, and the only question to be determined here would be where they should go.

Later, by telegram and letter received after the delegation was on its way, Gen. Miles urged that the Apaches on the Fort Apache Reservation, numbering about 500, be sent to the Indian Territory, and that the existing laws should be so changed that this disposition of them could legally be made. This proposal was considered for many reasons entirely impracticable, and Gen. Miles was so informed on July 15, and that military movements must proceed in view of the present arrangements in regard to these Indians. The law was against it, and the Executive would not be justified in requesting a change. To place this lawless and dangerous tribe among the peaceful Indians of that Territory would have been a breach of good faith and treaty obligations. But the same proposal was again renewed by him on the 20th as the solution of the whole difficulty, and he requested that the delegation be allowed to visit and see certain points in the Indian Territory.

In the meantime the whole matter of the removal of the tribe to the Indian Territory or to any other place voluntarily was settled by the demands and expressions of opinion made by the Indians then in Washington. Their sole desire was to remain where they were; that apparently was the object they had in view in coming, and the assurance of the authorities here that they should not be removed was very earnestly pressed. In their interviews with the President, the Secretary of War or the Secretary of the Interior they expressed no desire or willingness to go elsewhere. No assurance was given them in any form of words that they should remain at Fort Apache. The conferences granted them were solely to hear their complaints and their requests. Information came from the officer in charge of them that they were restless and uneasy, dissatisfied with their reception and the failure to receive any assurance that they could remain at Fort Apache. In this condition of affairs the Lieutenant-General, in an endorsement to the Secretary of War dated July 30, 1886, remarked:

"There are now on the reservation near Fort Apache seventy-one Chiricahua and Warm Spring adult male Indians. These are exclusive of those in this city. It is my belief that if the delegation which is now here goes back to the reservation without having received what they deem a most satisfactory promise on the part of the Government, a large number of those that are now peaceable will endeavor to join Geronimo. I therefore recommend that authority be granted me to direct Gen. Miles to arrest all the male Indians now on the reservation near Fort Apache, and send them as prisoners to Fort Marion, Fla., that the delegation now here be sent there also, and that they be held at that point as prisoners of war until the solution of the Geronimo troubles."

This recommendation was approved so far as the removal of the Apaches on the Fort Apache Reservation was concerned, provided they could all be successfully secured by the troops, and the President directed inquiries to be made of Gen. Miles for his opinion in regard to their forcible arrests. Gen. Miles replied, objecting to such removal, and by letter gave his objections in detail. But on Aug. 20 he informed the department that Col. Wade, commanding at Fort Apache, was of opinion that the Indians there could be secured and moved without difficulty. Orders thereupon issued that they should be taken and sent to Fort Marion, which were carried out on Sept. 7, and they were conveyed to that fort, where they arrived on Sept. 20, and where they are now confined.

In the matter of the Lieut.-General's recommendation that the delegation of Apaches in Washington should also be sent to Fort Marion, it was thought that these Indians should first be returned to Arizona, which was the understanding upon which they came here. After their return they could be treated as the rest of their tribe and taken to Fort Marion. But it was of the first importance that they should not confer with their brethren on the reservation until after the latter had been secured by the troops and were in custody for removal. This delegation contained some of the most dangerous of the Chiricahuas. With this intention on the part of the Government they started for Arizona with Capt. Dorst, visiting on their way the Indian school at Carlisle. They were stopped on their journey after leaving Carlisle and sent back to Fort Leavenworth. While they were there the Indians who were to be sent from the Fort Apache Reservation to Florida were secured and started on the way. It was thought best by the Lieut.-General that the Indians at Fort Leavenworth, who had become turbulent and excited, should be sent direct from there to Fort Marion, and orders were issued to that effect, as it was not considered practicable for any of them to meet the other band on their journey east, as had been proposed. Capt. Dorst and these Indians, thirteen in number, together with three interpreters, left Fort Leavenworth on Sept. 13, and on Sept. 20 the department was advised of their arrival at Fort Marion.

BRANDING DESERTERS.

To the Editor of the Army and Navy Journal

THE proposition of the Lieut.-General that deserters from the Army of the United States be indelibly branded, to prevent a repetition of the offence, has received extended criticisms and condemnation by the press, and an endeavor has been made to lead public opinion to consider it barbarous, inhuman, and cruel. That indelible branding or marking may be accomplished in a way free from such objections, is shown by the fact that a vast majority of seafaring men, and many in other pursuits, voluntarily have their bodies and limbs ornamented with letters and figures, and often with elaborate and extensive designs. So extensive is this custom that most large seaports have so-called "cutists" who make a partial living by placing these indelible ornamentations upon the persons of their customers. Objection is also urged to the proposition on the ground of placing "a mark of infamy" upon an American citizen. This objection can be readily disposed of by enacting that upon the person of all, who in any manner or of whatever rank, become military or naval servants of the Government, the characteristic initials, U. S. A., U. S. N., or U. S. M., shall be placed in an indelible manner. The "brand" then becomes one of distinction instead of infamy, and the deserter would have to account for the manner or reason of his quitting his honorable occupation.

A similar idea was proposed by the Duke of Cambridge, commanding the British Army, some years ago, as a prevention to habitual desertion. His Lordship declared, if the measure became a law, he would cheerfully receive the first decoration.

Until the people are educated to regard desertion as a crime, it will be difficult to prevent its frequent occurrence. The deserters now have the sympathy of almost the entire civil community, and this is manifested in disinclination to assist in their apprehension and often in active measures to prevent it, and assistance to deserters in eluding pursuit.

If laws were enacted making desertion, and aiding or shielding deserters, a civil, as well as a military crime, punishable by any United States court, as well as by Court-martial, a longer step forward would be taken towards preventing this demoralizing offence, than by any other scheme that has been suggested. J. B. C.

Branding as a punishment may answer, but it would be impossible to enforce a regulation making branding universal. Besides, what is to be done when in time of war it may be found necessary for a member of the military or naval service to disguise his identity?

LAX ADMINISTRATION OF MILITARY JUSTICE.

To the Editor of the Army and Navy Journal:

YOUR editorial remark concerning the free and easy methods of administering military justice in vogue at certain points, is timely. The writer has seen the Judge-Advocate of a Garrison Court, with his file of charges, making the rounds of the company quarters hunting up delinquents, to read to them the specifications and notify them of their impending trial. The 66th Article of War reads: "Soldiers charged with crimes shall be *confined until tried* by Court-martial, or released by proper authority," and how this can be construed so as to admit of the practice noted is—like the goodness of God—past the human understanding. One of the resulting phases of this curious custom is, that when any of the enlisted men here are asked by comrades to absent themselves without leave from a roll-call, they will generally do so, because, as they put it, "It will only be a dollar or so blind without going in the mill." Fact, I assure you. KNOWLEDGE.

The Cause of the Wreck.—"She missed stays and went on to the rocks." That is what the new reporter had on his notebook after interviewing an old sailor in regard to the wreck of the sloop *Petrel*, by which several lives were lost. The new reporter was from an inland town. His knowledge of aquatic matters was not extensive. When he got back to the office he started in to write an account of the disaster in this way: "The sloop yacht *Petrel* was wrecked on the rocks off Devil's Heel in the heavy blow of Thursday night. The immediate cause was the absence of stays. The weather was fair when the boat left port—fine weather for haying—and the bay was smooth enough to wash sheep in. Captain Smith therefore thought he wouldn't need the stays. But the little vessel missed them when it began to blow, and she went on the rocks as above stated. The captain of the *Petrel* was guilty of gross negligence in going to sea without stays."—*Puck.*

THE STATE TROOPS.

REGULAR OFFICERS ON GUARD CAMPS.

LIEUT. COL. HENRY W. CLOSSON, of the 5th U. S. Artillery, says that the New Hampshire encampment was participated in by three regiments of infantry, one battery of artillery, and one troop of cavalry. The infantry are armed with the cal. 45, Springfield rifle, enamelled leather belt block cartridge box and steel bayonet scabbards, all in good condition. Each man has a knapsack which might be dispensed with, but there are no haversacks and canteens, which are indispensable. The uniform, or the coat, at least, has no excuse for existence except, possibly, the cost of substitution. It belongs to days and nations that are dead and gone, being of the old swallow-tail pattern, turned up with red, white and blue for the different regiments. The State should supply a substantial blouse instead of the present coat. The report speaks highly of the appearance and drill of all the troops, especially the artillery and cavalry, and in summing up it says: "Generally, I may sum up the whole matter by saying that, with the exceptions already noted, Gen. White and his staff could, undoubtedly, put this brigade in good order and well supplied for service into the field at reasonable notice, prepared for any emergency, domestic or otherwise. A suitable store of ammunition, I am informed, is provided at points where it can readily be made available."

The following valuable suggestion is applicable to every other State: "The Adjutant-General of the State holds his office during good behavior. His position is thus made independent of any political caprice. It is I think only in this way that there can be secured for the education of each State Guard that unity of plan so much more preferable to a patch work of tentations, where no programme can settle itself into a system, and no idea is on trial long enough to establish its value. There must be some fixity of tenure in order that the labor may return its full reward."

Under the head of "Drill and Discipline," the report presents some pungent remarks which, coming from a soldier of conspicuous ability and a gentleman of very extended reading, is full of interest to the National Guard at large.

Of the appearance of the infantry, under the close observation of regimental inspector, I could only say that it was fair. The rigidity in ranks and the impassive demeanor that are supposed to characterize Regular troops were not to be expected; but neither is there any excuse for such general neglect of these points. Mintary education should no more begin with brigade manœuvres than mathematical with differential co-efficients. Details of position and carriage will certainly shape the estimate that observation forms of all troops, rather than the possible possession by them of other and higher qualities which the stress of actual service might develop. Eyes to the front, mouth shut, heels together, and ears open make the foundation on which the man in the ranks must build if he is to have any military standing whatever, and without these indices of his training he will never look like a soldier, however much he may feel like being one. The most important of all acquisitions (self-control) begins right here, where a man is taught to cover his own front only and leave the rest of the horizon to his neighbors.

The greatest need of the men is a thorough setting up in elementary principles, which is perfectly practicable at their company armories. A persistent application of the first thirty pages of tactics would be worth more than all the rest of the volume.

The parades were good. Individual defects were somewhat covered in the mass, and lost from a longer range of observation. Officers and non-commissioned officers, as a general thing, were well posted in these matters of ceremony. The brigade presented a fine appearance on the review. Alignments, wheelings, and distances were well executed and preserved; in fact, what trouble there is lies just here, not so much in absolute ignorance of details as in the concentration of all effort upon these grand occasions rather than upon the common daily work. The battalion movements were mostly in the closed formations. There was some skirmish drill but no target practice, and no blank cartridge practice. Skirmishing and the fire exercise are, I think, of the utmost importance, and might well monopolize the time to the exclusion of more dramatic exhibits. Guard duty was performed reasonably well. There was hardly time to witness the results of the instruction given and the care exercised, of which there was no lack.

MODERN INFANTRY DRILL.

IN a recent lecture before the West of Scotland Tactical Society, Col. Macdonald said:

Until inspecting officers take rather larger views than they are inclined, or, perhaps, encouraged to do at present, Regulars, Militia, and Volunteers will have to spend the greater part of their available time in rehearsing movements which can be of no possible use in a campaign.

In the days of the smooth bores the march past, with its cogener the advance in line, formed a real and most useful test of the capability of a battalion for actual fighting. Troops which could march steadily "shoulder to shoulder" on the parade ground, especially in thin lines, would be likely, and proved themselves likely, to advance steadily to attack an enemy from whose fire they had little to fear till they were at such close quarters that the shoulder to shoulder rush with the levelled bayonets would overwhelm him. The more, therefore, that the soldiers were encouraged to keep touch and practiced in doing so, the better, and no better tests could be devised than the formal march past and the long advance in line. Again, all or nearly all changes of formation could be and were made out of reach of the enemy's infantry force; and there was seldom any reason, except the vicinity of cavalry, why such evolutions should not be made in the most deliberate and accurate manner, by taking up distances, carefully throwing out points, etc. Now, however, all is changed. The troops must, when in actual collision with the enemy, be "steadier" even than formerly. But they cannot depend for that steadiness upon the old "touch." They must advance in some kind of extended order; they must in exceptionol cases be able to change front, or to assume new formations in a rough and ready manner, without the assistance of "points," and it is, as we believe, quite incontrovertible that they will not do these things properly on the field of battle unless they are taught them more systematically than is the case at present, on the drill ground. The superstition that "steadiness," and maintenance of "touch" are convertible must be got rid of. There must still, however, be two systems of drill. It will always be necessary that infantry should learn to take up positions accurately, and should be able to manœuvre in the most compact and artistic manner when they are not in actual collision with the enemy. This they may be taught with a much less complicated system of mounted and foot points than that at present in use; but parade drill should always be made subordinate to "active exercises."

MILITARY CORRESPONDENCE.

WE have a communication from an Ohio correspondent on the frequent delay in the transaction of official business in the National Guard, in which he asks our opinion as to what time should be allowed in the State service for the transmission of official correspondence from Regimental or Brigade Headquarters to superior or inferior authority, etc. He refers specially to orders, resignations, discharges, reports, and returns, and says that to his knowledge it has taken five months to learn the result of a resignation, etc.

That there is frequently just ground for complaints of this kind elsewhere, as well as in Ohio, is beyond question. Much of this might be avoided by careful selection and instruction of staff officers, and the establishment and enforcement of judicious rules in the management of the business concerned. On the other hand, the transaction of the affairs of a peculiar organization like the militia cannot be expected to be effected with the regularity and punctuality of a professional military establishment, and even here there is some latitude allowed in the matter. Delay cannot always be avoided. It is impossible therefore to present cast-iron rules on the subject, though military business above all others should be transacted with the utmost despatch. Whether a communication should be allowed to be kept on an adjutant's or commanding officer's desk but *one day*, as our correspondent thinks should be the limit, must depend upon circumstances, of which the commander must be the judge. Under a proper system no adjutant will carry paper in his pocket for weeks, nor will a reply to a resignation be delayed five months. Correspondence which requires immediate attention should be acted upon at once, ordinary business without unnecessary delay, and even the most unimportant should not be allowed to lay over more than a day or two. If the commander as well as his staff observe these rules there will be no complaints such as referred to by our correspondent.

MEDICAL DEPARTMENT OF THE GUARD.

UNDER this title *The Medical Press of Western New York* publishes an article containing many valuable suggestions about a much neglected subject, which it would be well for the National Guard to take into consideration. We called attention to this matter a few weeks ago, and the surgeons of the 1st and 2d Brigades recently had the subject under consideration. The *Medical Press* says:

What would become of the sick and injured in case our troops were called into actual service? Doubtless an answer is ready upon the lips of some, that they would receive proper attention, though it would be excessively difficult to state where or how.

It is a matter that can not be made too public, that while each regiment is provided with a surgeon and assistant surgeon, and while each separate company is supposed to have a medical officer—though but few have one in reality—there is absolutely nothing in the way of a properly drilled or equipped medical service; neither is any provision made for such drill, instruction, or equipment. If, for instance, one of our regiments were called into service out of town, and men were injured, they would have to extemporize every stretcher that was used, while the nearest wagon would have to be appropriated as an ambulance. Moreover, the stretcher bearers would be dependent only upon their own humane instincts for knowledge as to how to lift and carry the wounded, for no instruction is given concerning this.

Unfortunately, too, the indifference as to the care of the injured soldier is widespread beyond the limits of the State. We know of nothing adequate in this line in any State organization, nor even in the Regular Service. Medical officers who never join their commands except on dress parade have no incentive, under the present regime, to thoroughly familiarize themselves with the routine of such possible duties. We do not know that they have any authority, except when specially delegated, to order details of men to learn how to carry a stretcher, or lift a wounded man into an ambulance. It is all wrong; and it should be righted by a special general order from Albany.

Another matter of equal importance: The powers that be attach an ever increasing importance to marksmanship; to the faculty of killing or disabling the enemy. But in the matter of self-preservation they have no enthusiasm beyond their own persons. By a wise regulation, every soldier in many of the continental armies is provided with a little packet, containing in exceedingly small compass a triangular bandage, a quantity of iodoform cotton and a piece of parchment paper, or its equivalent. On the bandage are printed numerous figures, showing how it may be utilized for all parts of the body, and how by means of a bayonet or a musket a rude splint may be extemporized. Every man is instructed to hermetically seal his own or his comrade's wound by means of the contents of the packet. The consequence has been not only a great saving of life, but a great saving of the crippling or disabling wounds which so largely swell the pension list. What a grand thing it would be if each of our soldiers—State and National—were thus provided and instructed. Possibly some concerted action on the part of some body of medical men might have some effect. It is well worth trying. Who will inaugurate the enterprise?

THE ARMORY QUESTION AGAIN.

UNDER various pretences the project of providing armories for the New York Guard is dragged along from year to year without any definite result. There is no subject more urgent, none more neglected. The regiments concerned have been fed with empty promises so long that their vitality is about giving way. One day it is the architect, the next the Mayor, who acts as obstructionist, then again the Armory Board, and at some other time the Sinking Fund Commission are pointed out as the ones who are to blame. At present the Armory Board declare that they have finished their part of the business, and somebody else now seems to be the dog in the manger. Be this as it may, the question has now hung fire long enough to entitle those concerned, at least, to some satisfactory information, and their loud and general clamor for some action is well justified. Why all this delay and inaction and where and upon whom rests the responsibility?

PISTOL PRACTICE.

THE National Guard has done creditable work on the field of rifle practice and can hold its own with any equal body of men in the world. Over long range shooting, however, the pistol has been neglected, especially in the case of the officers, who are now practically defenceless, in view of the fact that the present sword is no longer a weapon, but merely a badge of office. Most people have an idea that it requires no particular skill to hit any object within 20 or 25 feet with a pistol and, therefore, neglect practice. Between rifle and pistol shooting there exists, however, the most marked difference, and to be equally skilful with both requires thorough practice. An officer advancing against a mob without a pistol or without skill to properly use it is virtually helpless, and if cut off from his command would be unable to make the least effective effort to save himself. But few regiments have paid any attention whatever to pistol practice, a neglect which may have disastrous results at any time if they should be called into action. For these reasons every organization should take up the subject at once, establish pistol ranges, for which nearly all the armories offer facilities, and provide a proper system for practice of officers and such of its members as do not carry rifles.

THE THIRTEENTH COURT-MARTIAL.

THERE were two sessions in Lieut. Smith's case—one on Friday, Dec. 10, and the other on Wednesday, Dec. 15. At the first mentioned session nothing material was brought out. The testimony was mostly irrelevant to the case and generally of such a nature as might as well have been excluded by the court. The case has already consumed too much time, and ought to be brought to an end. Lieut. Smith testified in his own behalf on Wednesday, Dec. 15, and made many denials of what had been charged against him. Of course the court need not take the testimony of an accused in his own behalf for more than what it thinks the testimony is worth. The accused's ideas of respect due to his colonel may at one glance be ascertained from one of his own answers in reply to a summons to appear before the colonel, and which he said was as follows: "I went into the colonel's room and asked him if he wanted me. I told him that I had friends waiting for me and asked him to make it short."

When a subordinate on being called into the presence of his colonel tells him to "cut his communication short" the subordinate certainly seems to be in need of discipline and instructions as to his position, and a wholesome lesson ought to be administered, even if he committed no other offence. It is to be hoped that the case will be closed at the next session of the court.

The court-martial which is to try Maj. Ackerman, of the 13th Regiment met in the 2d Brigade Headquarters, Court and Joralemon streets, Brooklyn, Thursday.

Lieut. Col. Heman Dowd, of the 12th Regiment, was president of the board. The other members were Maj. Clifford A. H. Bartlett, 9th Regt.; Maj. Nutter, 22d Regt.; Maj. Kipp, 7th Regt., and Capt. Thos. Miller, 17th Separate Company of Flushing; Maj. A. F. Jenks, judge advocate, conducted the prosecution. Maj. Ackerman, the accused, was represented by Col. A. E. Lamb and J. A. Wernberg. Col. Lamb is an ex officer of the National Guard.

The charge is "conduct prejudicial to good order and military discipline." Under it are six specifications. First, that on the night of the last annual inspection Maj. Ackerman said, in the presence of members of the regiment, and referring to Col. Fackner: "I am here to stay till I drive out that thing. It is a fight to the death, and I am enlisted in the war." The other specifications charge similar expressions, as for example: "Fackner can't stay as colonel of this regiment. He's got to go or we'll break up the regiment." Maj. Ackerman is charged, also, with an endeavor to induce junior officers to believe that his conduct was approved by Maj. Gen. Porter and Gen. McLeer, and with entering into a combination to force Col. Fackner out.

Lieut. James Alexander of Co. F, the first witness, told of a conversation between Major Ackerman and the late Capt. Courtney, which took place in his presence, and in which Major Ackerman said to Capt. Courtney that the fighting in the regiment would cease "when that thing [referring to Colonel Fackner] goes out of the regiment."

The only other witness examined was Capt. Samuel W. Smith, Co. C. He said that on the night before the last annual inspection, in October, Major Ackerman entered the room in the armory, and in conversation said that Col. Fackner was weak. He also said that if the election had been "square" Fackner never would have been Colonel. He said: "That man has got to go, or I'll go down and take this organization with me."

Capt. Smith's cross-examination was intended to show that Capt. Smith was biassed against the accused. Smith said his relations always had been friendly with Major Ackerman, but he had not had the same regard for him as a soldier and a gentleman since that night. He went to Col. Fackner about Major Ackerman's conduct, by advice of Gen. Philip Briggs.

The court adjourned to Saturday, at 7½ P. M.

Twenty-third New York.—Col. Chas. L. Fincke.

THE 23d Regiment paraded for the last time in the State Service uniform, on gala occasions, on Saturday, Dec. 11. This brought out a larger audience than is usual on such occasions, which means a great deal, because whenever the 23d parades every fashionable inhabitant of Brooklyn is in the habit of turning out to witness the event. The regiment made its appearance in full force and every member appeared to feel the fact that the honor of the organization rested upon his particular shoulders, and the whole thing was consequently a success. Gen. James McLeer, of the 2d Brigade, took the review of the evening and the command stood steady as a rock, and passed in fine style. A dress parade was also executed and the conduct of the men was equal to that during the review. The preparations for the celebration of the "silver" anniversary of the regiment are conducted successfully, and a brilliant celebration may be expected. A handsome pamphlet called "Ours," giving a general history and incidents during the existence of the regiment, with a portrait of Col. Fincke as frontispiece has been issued.

MILITIA ITEMS.

In the House of Representatives Mr. McKenna, on Dec. 13, introduced a bill to amend the laws governing the militia of the United States, which will be found under our heading of Congress. It divides the militia into the organized and reserve, and authorizes the formation of independent military

companies in States or Territories having no organized militia. The organized militia are to be furnished by the United States with arms, heavy guns, camp and garrison equipage, with instruction in military duties and the use of seacoast and garrison artillery. A Bureau of Militia in the War Department is also provided.

Brigadier General Louis Fitzgerald has appointed a Brigade Court-martial, to consist of Col. Albert P. Stewart, 11th Regiment; Col. W. E. De Lacy, 69th Regiment; Lieut. Col. Francis A. Schilling, 8th Regiment, to convene on Tuesday, Dec. 21, at the 71st Regiment Armory.

The discharge of Capt. George P. Freeman, Co. C, 22d Regiment, has been received. An election has been ordered for Tuesday, Dec. 21, and, of course, 1st Lieut. N. B. Thurston, will be the choice. He is mainly responsible for the present fine tactical condition of the company, which is not only the largest and one of the best drilled of the regiment, but has also furnished distinguished officers for the staff. The present adjutant, W. B. Smith, is a graduate of Co. E.

Capt. Wm. C. Casey's attempt to withdraw his resignation as captain, Co. I, 7th Regiment, and substitute therefor an application for a year's leave, has proved unsuccessful. The resignation went forward, and there is no question that by the time we go to press it will have been accepted. His successor will, doubtless, be 1st Lieut. James Thorne Harper, a member of the well known publishing family, a thorough soldier, and a very popular officer, not only in his own company, but in the entire regiment, of which he has been a member since Nov. 6, 1876.

One of the saddest occurrences in National Guard circles was the death on Tuesday, Dec. 7, of Capt. W. H. Courtney, of Co. F, 13th Regiment. The captain has been suffering from a cancer of the throat for some time, and heroically, at last, submitted to an operation which caused his death. The disease was much deeper rooted than was supposed, and a cure was out of the question. The captain bore his sufferings with the utmost fortitude when he found out that the hopelessness of the case was announced to him. He was buried on Sunday, Dec. 12. Many members of the regiment and U. S. Grant Post, G. A. R., (of which he was a member) attended the funeral. The pall bearers were Capt. Watson, Co. G; Capt. Collins, Co. A; Capt. Smith, Co. C; Captain de Mandeville, and Lieuts. Sillman and Alexander. Among those present at the hospital and the Grand Central Depot were Gen. McLeer, Gen. Barnes, Gen. Gates, Col. Fackner, Lieut.-Col. Beadle and ex-Captains Hempstead and Squires. The body arrived in Albany in charge of Captain William Kirby, Capt. A. P. Moore, Lieut. C. B. Tush, Captain Joseph De Mandeville, D. L. Kennedy, Jr., who escorted it to this city at the request of the officers of the 13th Regiment. Co. B, 10th Battalion, Major Stackpole commanding, with the 10th Regiment band, received the remains at the depot and acted as escort to St. Mary's Church, where the funeral occurred at 10.30 o'clock in the morning.

Quartermaster Wm. Courtenay and Capt. Morgan Draper, 71st Regiment, recently resigned, have received their discharges.

Capt. John Paine, 11th Regiment, has resigned.

The 8th Regiment Board of Officers had a well attended meeting on Monday evening, Dec. 13. Col. Scott made an address with regard to the recent report of the disbandment of the regiment in a feeling manner, and said that by no means ought the old organization be put out of existence, and offered any personal sacrifice to keep it up, if such a thing were necessary. He was warmly applauded and a vote of thanks was passed for his conspicuous and unselfish services on behalf of the organization, especially during its most trying situations. The Board adopted the Long Service medal.

The 22d Regiment have concluded to have no ball this year, but to institute an early battalion drill season instead. The preparation for the ball consumes too much of the time of a large number of the organization, who for that reason find it difficult to spare time for drills. As "Business before Pleasure" is the motto of the regiment, the abolishment of the ball is but a natural thing, and a very creditable measure for the regiment.

The Board of Supervisors has appropriated $7,000 for a new armory at Saratoga.

The Veteran Guards, a local military organization, composed of representative negroes, have petitioned four Republican Legislatures in succession for admission to the New York National Guard, and each time their petition has been laid upon the table. Recently they recruited their numbers up to 1,100 men, and their names were presented to Gov. Hill and duly filed in the Adjutant-General's office. If the Governor approves of the project, a negro regiment will be put into commission at once.

Lieut. John F. O'Connor, of Co. A, who has been a member of the regiment since 1878, has been appointed quartermaster of the 13th.

The 47th Regiment have adopted leggings as a part of the dress uniform, and the material of which they are to be manufactured, either leather or canvas, is now under consideration. The marksman's badges will be presented early in January, and Gen. McLeer requested to review the organization on the occasion.

We substitute the following statistics developed by the recent inspections of the 1st and 2d Brigade regiments for a table published some time ago, and made up before the completion of the inspections. The present figures are official, and, accordingly, the regiments rank as follows: According to aggregate strength: 1. 7th, 1031; 2. 69th, 878; 3. 23d, 695; 4. 12th, 648; 5. 13th, 619; 6. 22d, 613; 7. 14th, 574; 8. 9th, 564; 9. 71st, 556; 10. 11th, 470; 11. 47th, 458; 12. 8th, 458; 13. 32d, 446. According to numbers present: 1. 7th, 966; 2. 23d, 676; 3. 69th, 660; 4. 12th, 566; 5. 22d, 523; 6. 13th, 503; 7. 14th, 487; 8. 9th, 413; 9. 71st, 410; 10. 47th, 408; 11. 11th, 351; 12. 32d, 332; 13. 8th, 213. According to percentage present:

1. 23d	97.2	8. 69th	75.1
2. 7th	93.69	9. 11th	74.68
3. 47th	89.08	10. 32d	74.44
4. 12th	87.34	11. 71st	73.74
5. 22d	85.3	12. 9th	73.23
6. 14th	84.85	13. 8th	46.51
7. 13th	81.25		

Adjutant General Howard, of Maryland, has issued 100 improved Springfield rifles to the Baltimore Light Infantry, 35 to the Governor's Guards of Annapolis, and 30 to the Catonsville Guards.

The Veteran Corps of the 22d Regiment held its annual election on Tuesday evening, and elected: Colonel S. Ellis Briggs; Lieut. Col.—A. Ritchie; Major—J. G. McMurray; Adjutant—Charles F. Lutze. The corps has a membership of 600. Its expenses, during the past year were $2,000, and there is a balance of $29 remaining. Last evening $2,000 was paid in dues for the coming year. After the election there was a banquet, at which 250 of the members sat down. An elegant cane made of wood from the cedars of Lebanon, with a horn handle and gold band, and inscribed with the autographs of the officers of the corps, was presented to Col. S. Ellis Briggs for his efficient services in behalf of the veterans during last year.

The following officers passed the Examining Board of the 1st Brigade on Wednesday evening, Dec. 15: 1st Lieuts. D. A. Nesbitt, 7th Regt.; Henry L. Camman, H. De Lancey Cunningham, H. Howe, 8th Regt.; Dana B. Pratt, Q. M., 9th Regt; 2d Lieuts. Ike Freeman, 8th Regt.; W. B. Bovier, 22d Regt.; and Eugene A. Houston and Charles B. Stone, 71st Regiment. They all passed in very creditable manner, and the board acknowledged that the quality of the younger officers presented for examination is very much improved of late.

Capt. G. Menzel, of the 11th N. Y., has resigned.

The 7th Regiment have under consideration a project of making its members acquainted with the ordinary bugle calls, such as would most likely be used in manœuvres on the field. They will not be used for battalion drill in the armory, but the instruction will be so as to enable any man to understand the signals if their use should become necessary, whether in the street or in the open field, or under any circumstances where ordinary commands could not be heard.

The Dakota *Herald* expresses the hope that Col. N. N. Tyner, of Fargo, Dakota, will decline to take the appointment of adjutant general for Dakota, and says: "The wife of Gen. T. S. Free has for some time discharged the duties of the office owing to the illness of her husband, and as she is in need of the pay and does the work, the people of Dakota will not look favorably on Mr. Tyner if he persists in taking the place.

ATLANTA GATE CITY GUARD.

THE Gate City Guard of Atlanta, Ga., are proposing to make a European trip of three months the coming summer. It is expected that eighty men will go, perhaps more, and that they shall be selected for their appearance, drill and personal character, so as to make a creditable exhibition on foreign soil. The Guard will go in uniform, and special permission to carry arms has been obtained. The helmet is to be discarded and an undress uniform of white cloth coats, trimmed with light blue, has been ordered. The company will leave Atlanta on June 27, 1887, and will embark for Antwerp on July 2 from New York. From that point they will go to Brussels, Paris, Lausanne, Brigue, and across the Alps. They will have had railroad riding enough to rest them, and the march across the Alps from Switzerland into Italy, which they can do in two days, will do them good. The friends who accompany the Guard will take this trip in diligences. The Guard will camp at night in the refuge of the Benedictine monks on the top of the Alps, and will descend on the Italy side of the Alps the next day. They will then take the train for Milan, Verona, Venice, Rome, Naples, Mount Vesuvius, and the ruins of Pompeii. Returning, they will skirt the Mediteranean coast by rail, visiting Leghorn, Pisa, Genoa, Turin, go under the Alps by the Mount Cenis Tunnel to Geneva, Berne, Strasburg, and Antwerp. There they will take the steamer across the North Sea to attend the American Exposition, thence back to Antwerp to embark for America. Three days will be given to such cities as Paris, London, Rome and Naples, and one day to two days in other places. The object of the tour is recreation.

The trip has been arranged by Capt. Burke, who is a gentleman of wealth and leisure. Of his men he says: "The Guard will not only honor the volunteer soldiery of America, but it will be an especial honor to Atlanta and the State of Georgia. This city was never better represented than when my company marched down the streets of New York amid the applause of a hundred thousand people. We shall have double as many men in Europe as we had in New York, with their drill perfected, their uniforms complete, and equipments improved, and making a better show altogether. We will make a sensation in Paris, London and Berlin, you may rely on this."

At Atlanta the Guard Armory is the finest armory building in the South, with club rooms, gymnasium, hall, drill rooms, billiard rooms, and every detail of a first-class military barracks. Among the prominent officers of the Guard are Alderman Allison L. Greene and the Hon. Clifford Anderson. The rank and file of the company is made up of the best young men in Atlanta. There are many lawyers and young statesmen in the company and several accomplished linguists.

Ex-Gov. Bullock is greatly interested in the enterprise, and says: "The idea of a military company of Atlanta boys armed and equipped marching across the Alps is unique and striking. I do not think we could do a more graceful thing than to send this Guard, the flower of our youth, to the great cities of Europe on a friendly visit of recreation and exhibition."

MASSACHUSETTS MILITIA.

THE Boston *Herald*, with regard to company drill reports, makes the following statements:

From these reports a regimental commander is supposed to be able to know in just what shape each company may be and how its members are attending to their duties. But in reality commanding officers can do nothing of the kind. As a rule, drill reports are not worth the paper they are written on. The attendance at drills is made up, not from the men who actually visit the armory and take part in the work of drilling, but that every member who happens to visit the armory on drill nights, if only for a minute, and then disappears, is credited by the 1st sergeant, who has an eye to the advantage of having a good drill attendance, with having been present. It is said of a certain company in the militia that if a member goes within a mile of the armory and is seen by the 1st sergeant, he is credited with having been present. Some time since a company in Boston was visited on four successive drill nights, and on no visit were there more than 20 on the floor at work, and on one night 12 was the actual attendance. The drill report for that month showed that the company officers could see double, for the company was down for an average of 42 for the month. After a careful examination of the subject in three regiments of the State troops, it has been found that regimental drill reports, as forwarded and published, are absolutely worthless as a means of getting at any reliable information as to the monthly work performed by members of the organizations.

The Massachusetts press announce the following as the correct list of gentlemen who will compose the staff of the new Commander-in-chief. The official announcement will be made Jan. 6: Major-Gen. Samuel Dalton, Boston, adjutant-general; Brig.-Gen. Alfred F. Holt, Cambridge, surgeon-general; Brig.-Gen. Edward O. Shepard, Boston, judge-advocate-general; Col. Thomas Sherwin, Boston, aide-de-camp; Col. Allen G. Shepard, Lynn, aide-de-camp; Col. Morgan Rotch, New Bedford, aide-de-camp; Col. Rockwood Hoar, Worcester, aide-de-camp; Col. Horace T. Rockwell, Boston, inspector-general of rifle practice; Col. Edward E. Currier, Malden, assistant inspector-general; Col. Augustus N. Sampson, Boston, assistant inspector-general; Col. Fred W. Wellington, Worcester, asst. insp.-gen.; Col. Albert L. Newman, Boston, assistant adjutant-general; Col. James W. Bennett, Lowell, assistant adjutant-general; Col. Daniel P. Crocker, Springfield, assistant adjutant-general; Col. Charles Weil, Boston, assistant quartermaster-general; Col. John H. Abbott, Fall River, assistant quartermaster-general; Col. John G. McIntosh, Holyoke, assistant quartermaster-general; Col. Richard F. Barrett, Concord, assistant quartermaster-general; Col. George R. Wallace, Fitchburg, assistant quartermaster-general.

(Correspondence of the Army and Navy Journal.)

OHIO NATIONAL GUARD.

THE Adjt.-General's office has just issued a valuable pamphlet of 42 pages, closely printed matter, forming a complete list of the changes made in Army Regulations and Tactics by Orders, Decisions, Rulings, etc., from Headquarters of the Army, since the last revision of the Regulations and Tactics.

The compilation was made by Lieut.-Col. James E. Shellenberger, 3d Inf., O. N. G. Col. Shellenberger has long occupied an enviable position in the Guard of Ohio as a thorough soldier and a well-posted officer. He has earned and will receive the thanks of his fellow officers for this addition to their collection of military knowledge.

General Orders No. 18 formally adopts the same for the government of the O. N. G.

Col. Conger, of the 8th, is on a pleasure trip in Europe.

F. G. S.

VERMONT NATIONAL GUARD.

A SPECIAL meeting of the company officers of the 1st Regiment, National Guard of Vermont, was held at Burlington, Dec. 8, for the election of a colonel, the office having been made vacant by the election and promotion of Col. W. L. Greenleaf to the position of brigade commander, and also to fill other vacancies in regimental offices. Every company was represented, the officers appearing in fatigue dress. Gen. William L. Greenleaf, brigade commander, presided. The following company officers responded to the roll call: Capts. Bond, Watson, Evans, Morse, Conger, Clark, Bates and Spencer; 1st Lieuts. Childs, Mooney, Boss, Orcutt, Lymons, Hiland, Gold, Wells and Lake; 2d Lieuts. Thompson Wakefield, McClure, Savary, Howe, Lavolette, Barrett and Crosset. Lieut.-Col. Julius J. Estey, of Brattleboro', was unanimously elected to fill the office of colonel. Major C. C. Kinsman, of Rutland, was elected by a unanimous vote to the office of Lieut.-Colonel. Capt. Geo. H. Bond, of the Estey Guard, Brattleboro,' was chosen with the same unanimity to the office of Major. Col. Estey and Major Bond, on being notified of their election, appeared before the meeting and expressed their appreciation of the honor conferred upon them in fitting terms. The officers tendered a vote of thanks to Gen. Greenleaf for his efficient services as colonel of the regiment.

Adjt.-Gen. T. S. Peck was prevented from being present on account of sickness. The annual school of instruction for National Guard officers will be held at Brattleboro' probably some time in March.

CALIFORNIA NATIONAL GUARD.

At the recent annual Convention in San Francisco of the N. G. Officers Association the following papers were read: "The Volunteer System of England," by Major-Gen. Walter Turnbull; "Discipline," by Col. John T. Cutting; "The Relations of the State and the National Guard," by Brig.-Gen. J. T. Cary; "Encampment," by Major T. F. Barry; "Suppression of Riots," by Col. John H. Dickinson; "Instruction and Drill," by Lieut.-Col. David Wilder. A hopeful interest in the important papers read and discussed was taken.

The 1st Infantry, 2d Brigade, at a recent reception to friends gave an exhibition of one day's routine duty in camp. In the southeastern part of the Pavilion miniature tents were pitched for the various companies and presented a pretty picture. After the regiment had marched around the hall retreat was sounded. The calls and duties were then represented in the following order; Tattoo, taps, grand rounds, reveille, morning drill, dress parade. The night scene in camp was made effective by the turning down of the gas lights until almost perfect darkness was secured, and the dawning of morning was represented as well as could be expected under the circumstances. The exhibition was as instructive as it was interesting.

PENNSYLVANIA NATIONAL GUARD.

An order has been issued by Adjt.-Gen. Guthrie directing that the patterns prescribed for the troops in the Regular Service shall hereafter, as far as required, be adopted by the troops of Pennsylvania. The Division Board of Officers to attempt the revision and simplification of the military code and the laws of the commonwealth on the subject assembled Dec. 13, in division headquarters, City Hall. The names of the officers composing the board, so far as appointed, are: Gens. Hartranft, Guthrie, Snowden, and Gobin, Cols. Dechert, Weidersheim, Hastings, and Lieut.-Col. Hepburn as recorder.

MISSOURI.

Pursuant to a call of Adjt.-Gen. Jamison, a body of military men and civilians from St. Louis and Kansas City held a meeting at Jefferson City Dec. 9 to discuss and revise the new military bill prepared by Gen. Jamison, to be presented to the Legislature this winter. The object of the bill is to maintain and perpetuate the military of the State by asking the Legislature to make a liberal appropriation for its support. The bill as prepared was generally approved, and will be presented to the Legislature in its present form.

NEW PUBLICATIONS.

"Scribner's Magazine," the first number of which is dated January, 1887, starts out well equipped with excellent material, and it gives every promise of a permanent and valuable addition to the periodicals which are elevating the American taste and helping to supply the English market with good reading. The type is excellent, the illustrations are fine, and the paper and printing are of a character to set both forth to the best advantage. Our late Minister to France, Mr. Washburne, gives us his reminiscences of the Siege and Commune of Paris, "all of which he saw and part of which he was." Then we have an article on Mexico by Thomas A. Janvier; one one on the "Babylonian Seals"; another by Francis A. Walker on Socialism, and "Glimpses at the Diaries of Gouverneur Morris," showing the social life and character in the Paris of the Revolution. The usual variety of fiction and poetry, with the article of Captain Greene, alluded to elsewhere, complete an excellent number. There is an entire absence of the editorial departments, with which custom has made us familiar. This magazine should not be confounded with its elder, "The Century," which originally appeared under the name of "Scribner's Monthly."

Two new processes in illustrating juvenile books have been adopted this year by the Worthington Company of New York. One is seen in "Worthington's Annual" and the other in "From Meadow Sweet to Mistletoe." The "Annual" is printed in alternate tints. It is the first book ever so printed, and a patent has been applied for. The effect is universally commended. "From Meadow Sweet to Mistletoe" is illustrated by the photogravure-lithographic process, and is also the first book ever printed in this way, the photogravure process having heretofore been only applied to costly works, such as the Vanderbilt and Meissonier galleries, etc. These two processes, as applied by this publishing house at a very large expense, certainly are entitled to warmest praise, and the new and beautiful books thus embellished should command large sales. They are, indeed, a marvel of cheapness when the character of the work is taken into account.

ANSWERS TO CORRESPONDENTS.

Rex.—You stand 16 on Commissary Sergeant list.

J. B.—Information as to standing of applicants for position of Ordnance Sergeant is not furnished from the A. G. O.

3d Infantry.—You should report to the commanding officer of Fort Wayne, near Detroit, state your case and await further orders.

J. L.—If the husband was a full Major at the time of his death, the pension of the widow would be that provided for a Major's widow.

Reader.—There is no such position as paymaster's steward. You probably mean paymaster's yeoman, who is legally classed as a petty officer.

Cavalry Soldier.—State the case more fully. If he re-enlisted in some other company as a private he would not be eligible while serving as such to appointment as Ordnance Sergeant. (See par. 253, Army Regulations, 1881.)

Inquirer, C. A.—There are three institutions of the kind you refer to in Annapolis. Their post office addresses are: Capt. John Wilkinson; Prof. Thompson, 55 Main street, and Prof. Pell, St. John's College. All in Annapolis. Upon application, circulars will be forwarded.

Puzzled.—"Daily duty" refers to duty of a purely military character, for which, of course, every soldier enlists. "Extra duty" embraces work not purely military, such as carpentering, plumbing, teaching school, etc., and carries with it, or ought, under the law, extra pay.

G. H. asks: Is it probable that Congress will pass a bill this winter, to fill the vacancies in the Revenue Marine Service from the surplus graduates of the Naval Academy? ANS.—No. The act providing for the discharge of surplus graduates was passed Aug. 5, 1882. The cadets then at the Academy who had not graduated were affected by it.

F. M. S., Keogh.—There are 20 applications of approved Hospital Steward candidates on file. The length

of time between filing an application and appointment is uncertain and variable. It depends upon the requirements of the service. The present number of approved candidates will not probably be exhausted for some time, say two years or more.

F. F. C.—The *Tallapoosa* was a wooden vessel sunk by collision with a coal schooner off Edgartown, Mass. Contractors are now arranging the preliminaries in the way of making detailed working drawings, procuring material, etc., for the new ships, and expect to begin actual work early in the new year. See naval stations under *Wabash* in JOURNAL of to-day.

Brooklyn.—In further answer to your question of last week we would state that in consequence of the draft riot in New York City, Col. S. S. Carroll, commanding 1st Brigade, 3d Division, 2d Corps, was in July, 1863, ordered to the East, with the 4th and 8th Ohio and 14th Indiana. From the 2d Division the 1st Minnesota and the 7th Michigan were also despatched on this duty. None of these regiments were present during the riot, and the Ohio regiments were veteran volunteers and not militia.

REVENUE MARINE.

NOMINATIONS, DECEMBER 15, 1886.

Second Lieutenant.—3d Lieut. Howard M. Broadbent, of Pennsylvania, in the place of 2d Lieut. J. E. N. Graham, deceased.

Third Lieutenants.—Cyrus B. Fengar, of Connecticut, to fill a vacancy.

Wm. W. Culver, of Kansas, to fill a vacancy.

Jas. H. Brown, of the Dist. of Columbia, to fill a vacancy.

THE German Commission on the Military bill, Dec. 16, refused to sanction the demand of the Minister of War for 468,409 men for seven years and voted in favor of 450,000 men for three years.

EUROPEAN WAR PROSPECTS.

A LONDON correspondent, writing of the "War Scare" in Europe, says: Moltke's grave words of warning have sent all the Bourses on the Continent down like quicksilver. Nothing has come to reassure them. From the north of Germany I learn of general officers who have arranged to move their families to Holland and England this winter, in the full conviction that there will be war in the spring. More and more people, everywhere, are reluctantly coming to believe this. The Germans are especially nervous over the prospect, having everything at stake. The belief is that the next war will be one the brunt of which will be borne by the cavalry, mounted infantry, and light artillery. Both the French and Russians have been greatly developing these branches. The Russians are said to have 90,000 cavalry ready to burst into Gallicia and Silesia, while the French concentration of horse at Chalons sur Marne, Besancon, Bourges, and Sedan, attract much attention. The Germans do not forget that 20 years after the death of the Great Fritz, the wonderful military machine he constructed was knocked all to pieces at Jena, largely because the French had a leader whom they liked. There is much anxiety lest Boulanger may exert the same magnetic power and contrive a dash in force which would break the German lines and carry the war into the Fatherland. Hence elaborate and earnest preparations are making on both sides of the Rhine for a combat which will be truly a battle of giants when it comes.

SPIEGELFUHRUNG.

THE following is the substance of an article headed "Spiegelfuhrung," and appearing in No. 82 of the *Allgemeine Militar Zeitung* (Darmstadt): To obtain an efficient rifle three main factors have to be considered—viz., (1) Quickness of loading; (2) Flatness of trajectory; (3) Accuracy of fire. The first point was sought more than 100 years ago, and the third was aimed at with the old needle-gun, but flatness of trajectory and, connected with it, the question of calibre, were neglected. The old needle-gun had from the outset too large a calibre. To neutralize this defect and to arrive at a less curved trajectory "paper coating" (Spiegelfuhrung) was introduced. When, after the war of 1870-71, a new rifle was adopted, the calibre of 11 m.m. was too hurriedly chosen, and is now adhered to in the new repeating rifle, considering, as formerly, more the first point and neglecting the trajectory. Under these circumstances the idea suggests itself of falling back upon "paper coating" to obtain the advantages of the smallest calibre without its drawbacks, which latter are chiefly bending of the barrel and difficulty of cleaning it, as also the filling up with lead and dirt of the grooves caused by rapid firing. The special advantages of "paper coating" would be that the smallest calibre possible could be used with the old barrel, therefore necessitating no change and additional cost, and yet obtaining a trajectory almost as flat as that of rifles with this small calibre; and, lastly, the bullet could be given the best shape for ballistic requirements. The disadvantage that the cartridge with paper coating of the bullet would not so well resist the influence of weather need hardly be considered, since it would be still better than the old paper cartridge, which did so well during three campaigns, two of which lasted all the winter.

The suggestion of paper cartridges for military small arms was shown to be impracticable at least fifteen years ago, Milbank, the inventor of the breech-loader bearing that name, and Powers, a cartridge maker, both having spent time and money in the attempt to devise a paper shell. If we are to have small calibres introduced—which is by no means certain—the best material for the shell is good Connecticut brass, which will draw to any desired thinness and retain its strength.

THE FRENCH ARMY.

A PARIS correspondent writes: "A little scene, of which I happened to be an eye-witness. A cavalry officer on a weedy nag, devoid of every atom of blood and breeding, emerges from his barracks and slowly wends his way in the direction of the Invalides. In a few moments the said steed turns sharp round, almost unseating its rider, and makes for its stable. It is pulled up, and the officer patiently endeavors to persuade it to resume its course. After a few steps the manœuvre is repeated with the same result. The passers-by halt and await the issue. Among them is a tall gentleman of sportsmanlike appearance, whose critical eye has been attracted by the strange spectacle. Thirty times, at least, is the officer swung round by the stubborn brute, but so timid is he that though armed with spur and whip he avails himself of neither, while his hold on the reins is so devoid of firmness that although perceiving the manœuvre he can do nothing to prevent it. At length he yields, and trots back in the opposite direction. A little boy who is looking on exclaims, 'The horse has conquered its rider.' What, I thought, must have been the reflections of the other spectator to whom I alluded, and who turned on his heel and walked on. He was the German Ambassador."

Horsemanship has never been a strong point with Frenchmen and the French Cavalry are described as still what they were a score of years ago—third-rate equestrians, mounted on fifth-rate horses. An excellent spirit prevails throughout the scientific branches and the artillery of the French Army has no superior, but the line infantry does not rise above mediocrity—indeed, is under the average of Continental armies as to its stature, discipline, marching and shooting.

FAILURE OF ENGLISH ENGINES IN RUSSIA.

THE St. Petersburgh newspaper *Novosti*, which boasts of the largest circulation in Russia, publishes the following statement of the alleged failure of the English engines supplied to the new torpedo cruiser *Iline:*

The failure of the trial of the engines of the *Iline* should cause our engineer experts to be more careful and cautious in the trials of engines constructed abroad. The cost of the *Iline's* engines is £50,000. For this sum the English bound themselves to give a speed of not less than 20 knots an hour, the designs being furnished by themselves. Instead of which, in spite of all the efforts and the presence of English engineers, stokers, and artisans on the cruiser, and the use of the very best coal, not a single trial has yet been successful. The best trial has taken place in the presence of the Minister of Marine, Admiral Shestakoff. A final trial of the engines was fixed to come off this week. If this trial be fully successful and the cruiser really accomplishes 20 knots, still this will not be a guarantee that the engines are in a sound condition, and that they might after the trial prove to be in an altogether unfit state. From the immense speed injuries might proceed, as was the case when the first torpedo boats were taken over. For avoiding this contingency the Minister has given orders that the engines of the *Iline* are only to be accepted in the event of their being, after the trial, no repair whatsoever required.

REPEATING RIFLES.

WE find the following items in our foreign exchanges:

Count Bylandt, the Austrian Minister for War, has announced that the Mannlicher rifle, firing 80 shots a minute, will be adopted. The total cost of arming the regulars, Landwehr, Honveds, and Landsturm with this weapon is reckoned at about 45,000,000 fl., or £3,600,000.

The French Minister of War intends to ask for credits for transforming the infantry muskets to the extent of more than 200,000,000 francs. The Germans have already five army corps armed with

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

repeating muskets, with two reserve muskets per man. It is said by some military critics that the repeating musket, though an excellent weapon for the rather deliberate, reflective Germans, is less adapted to Frenchmen, who always fire too rapidly and waste their ammunition: but the Bell rifle, which will be adopted in France, has great advantages irrespective of repeating.

The Italian War Office has, according to the *Esercito Italiano*, made up its mind to change the present Vetterli rifle into a repeater on the Vitali system. The small-arms factory is at present transforming into repeaters several hundred of these rifles, and they will be issued to the troops in the course of this month. It is not doubted that the Vitali system will be finally adopted and applied to the Vetterli rifle, and that the authorities will begin by modifying all the rifles in the early months of next year. The cost of this modification will be only 10,000,000 lire (£400,000).

FOREIGN ITEMS.

SEYYID MIR MANSOUR, brother of the Ameer of Bokhara, who is shortly expected in Russia, holds the rank of cornet in the Soumy regiment of dragoons in garrison ot Moscow.

THE Russian Government is about to commence work on a canal through the Isthmus of Parekop, dividing the Black Sea from the Sea of Azov and connecting the Crimean peninsula with the main land. It is doubtful, however, if the canal will permit the passage of deep-draughted steamers. The Azov trade by the Yenikale Straits is likely to remain undiverted.

A BATEAU canon, built upon the personal indications of Admiral Aube, is about to undergo its trials at Toulon. It is described as "in reality a torpedo boat armed with a 14 centimetre," or 5½-inch gun—what we should call a floating gun carriage rather than a torpedo boat without torpedoes. It is over 40 metres long, has a beam of nearly 4 metres, a displacement of 78 tons, and, it is expected, will be able to attain a speed of 19 knots. The cost of this microbe is set down as a little over $50,000. Should the result of this trial turn out to be satisfactory, the Minister is to order 49 more.

THE field bakeries which were extensively experimented on in the German Army during the last manœuvres were organized as follows: Each field bakery consisted of two sections with five ovens each. These latter were of iron, and patented patterns. They rested on a brick foundation, and were placed so deep into the ground that only the short iron chimney flues projected. The fuel was wood, and each oven had a capacity for two loaves at a time. The dough was prepared in large troughs, which stood in baking tents, these containing also the flour. The baking tents stood in front of each oven section. In front of the baking tents were pitched four store tents, where the bread was kept and issued to the men. The field bakery erected this year at Osnabruck furnished daily 4,000 loaves, each oven being filled, therefore, four times. The bread was perfectly baked and very palatable.

LONDON *Truth*, referring to Princess Beatrice's baby, says: "The true destiny of the new Battenberg is obvious. This 'Prince Beatrice junior' should at once be elected to the Bulgarian throne. This would suit all parties. The Bulgarians would be able to govern themselves during a long minority and establish their Constitution too firmly to be attacked at the end of it. The salary need only be moderate, but it would be enough to remove all chance of our being saddled with another royal grant or another royal monopolist officer in the army or navy. And even Russia or Turkey could hardly object to the throne being filled with a non-resident baby."

A WRITER in the *Armeeblatt* advocates the abolition of the bayonet, on the ground that when fixed it is useless against an enemy waiting to be attacked, or rather meeting an attack in hand to hand fight, and is worse for men using it than for the enemy. It proved ineffective against the Montenegrin scimitar, and the latter made short work with the Turkish battalions and their fixed bayonets. At the last moment, before coming into actual contact, the men ought to sling the rifle over their left shoulder, draw their short swords, and go at the enemy. Against intact Infantry a cavalry charge ought not to succeed, the fire proving sufficient to repel it, and only in case infantry is broken should the bayonet be fixed. The Montenegrin scimitar might even be so adapted that it could be fixed as a bayonet. Such a short sword could also be used as a tool for cutting down hedges, splitting firewood, and for general purposes in camp.

A SAFE INVESTMENT
For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

COLGATE & CO'S CASHMERE BOUQUET PERFUME FOR THE HANDKERCHIEF

A luxurious extract from the choicest flowers.
COLGATE & CO'S name and trade mark on each bottle assure purchasers of superior and uniform quality.

IN consequence of the adverse reports made upon the new pattern of Enfield-Martini rifles, the War Office has determined on further trials, with a number of rifles which vary in many respects from those recently tried.

THE German Empress, who has lately been residing at the Electoral Palace in Coblenz, has gone to Berlin for the winter. The Empress Augusta is in better spirits than she was a few years ago, and will probably pay a short visit to Queen Victoria at Windsor Castle in the spring. She has been a great peacemaker in the family disputes and *tracasseries* which have divided the Courts of St. James and Berlin of late years.

THE French torpedo catcher called the *Condor*, which was out for her trial trip the other day at Rochefort, did over 17 knots, and thus exceeded in speed what was expected from her by her constructor. The *Condor* is a cruiser of 1,276 tons, and the French have three more similar vessels in hand—the *Epervier*, which was recently launched at Rochefort, and the *Vautour* and the *Faucon*, which are still on the stocks at Toulon, and which will be finished in the course of next year. The craft of the *Condor* type are fitted with five torpedo tubes, five guns of 10 centimetres, and six Hotchkisses.

ON Aug. 10 some extraordinary practice was made at Iverton by two companies of Swiss artillery, the one making use of a battery of 12-centimetre Krupp guns and the other of a battery of mortars of the same calibre. The first battery shot at a target 3 metres square, and the second at an old ship anchored out at sea. These targets were at distances of 7,315 and 6,400 yards respectively from the guns, and were scarcely visible to the naked eye. Nevertheless, after a few trial shots to get the ranges, the shells struck with astonishing accuracy, and almost without exception hit the mark, the tenth shot sending the ship to the bottom.

THE strength of the German Army was fixed some years back at 1 per cent. of the population. Since then that population has increased to such an extent that, but for the law limiting the strength of the peace footing, the German Army ought to be 40,000 men stronger than it is. Hence, the bill introduced into the Reichstag raising the peace footing of the German Army, April 1, 1887, to its proper legal strength.

THE gravest importance is attached by all continental writers to Von Moltke's recent speech in the Reichstag. "It is well understood here," says the *Times's* Berlin correspondent, "that the German Government must have special reasons for the anxiety with which it is watching the working of French feeling." The Berlin *Post*, Bismarck's organ, declares that Boulanger's plans are the extreme limit of what France can bear in war time, destroying all peaceful occupations.

MR. F. J. KALDENBERG, wholesale and retail manufacturer of meerschaum pipes, amber goods, French brier wood pipes, ivory and pearl goods, umbrella handles and walking sticks, has in recent years largely increased his facilities for producing these articles. His stores at 371 Broadway, 6 Astor House, and 125 Fulton St., New York, are well stocked with a large assortment of the goods he manufactures, enabling buyers to select from a great variety of styles and prices. Many members of the military and naval services are Mr. Kaldenberg's customers, and also made purchases from his father, Mr. F. W. Kaldenberg, who first established the business in 1851. The son, succeeding in 1869, has continued the trade to the utmost satisfaction of his patrons.

ACTORS, VOCALISTS, PUBLIC SPEAKERS recommend HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

MESSRS. JAS. ROWLAND AND CO., Kensington Iron and Steel Works, Phila., say of Phenol Sodique, the great remedy for burns, bruises and cuts: "No one should be without it, particularly manufacturers employing large numbers of hands. Independent of the pleasure of administering relief to the suffering, it is a pecuniary advantage in saving to them the time of some valued employee."

"It's the boss," is what smokers say of "Tansill's Punch" 5c. Cigar.
The universal popularity of "Tansill's Punch" 5c. Cigar is accounted for from the fact that no labor or expense has been spared in obtaining the choicest stock, thus securing a degree of perfection and evenness seldom equalled.
The most prominent physicians in the U. S. smoke and recommend "Tansill's Punch" 5c. Cigar.
Owing to their entire freedom from injurious drugs, "Tansill's Punch" 5c. Cigars are the most popular in the world.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

MARRIED.

Castings from Gun-Iron a Specialty.

THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES

Were selected as the best Material for the Roof of the

WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."

"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."

The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)

We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

NEW ENGLAND MUTUAL

Life Insurance Company,

OF BOSTON, Mass.

Assets, ------ $17,846,546.65

Liabilities, --- 15,238,761.16

Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 22.
WHOLE NUMBER 1218.

NEW YORK, SATURDAY, DECEMBER 25, 1886.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE bill for the relief of the West Point graduates, who were affected by the Comptroller's decision in the RODMAN case, has been approved by the President.

THE final proof sheets of the "Army Register" for 1887 are being revised at the Adjutant-General's office. All changes up to January 1st will be noted, so that the last sheets cannot reach the public printer until that date. It is expected that the early copies of the book will be issued about the 15th of January. There is no change in the make-up.

CAPTAIN J. G. BALLANCE, U. S. A., Judge Advocate, Department of Texas, says: "Leaving out of consideration the extremists in temperance matters, as should always be done when any subject is to be considered intelligently, I have no hesitation in saying that a greater percentage of temperate persons can be found among the officers of the Army than in any other profession or employment, Ministers of the Gospel alone excepted."

WE hope to see some action taken by Congress this Session on the oft-repeated recommendation that there be devised "some method of punishing men for slight infractions of discipline other than the cumbersome system of garrison courts-martial." The system as administered is so wholly opposed to the disciplinary interests of the Service that we cannot understand what opposition there should be to the legislation in this matter heretofore proposed and fully discussed in Congress.

ARMY officers are not altogether pleased with the new mileage law proposed by Gen. BRAGG and adopted by the House. In some respects they regard it as an improvement over the law of last year, as under its provisions an officer will be allowed mileage over land grant roads, which they do not now receive; but the clause requiring them to procure their transportation from the Quartermaster's Department is decidedly objectionable to many. The objection against that system is on account of the inconvenience that will follow, in many cases, in getting such transportation, especially on occasions requiring officers to travel promptly.

THE specifications for the armor plate required for the new cruisers and monitors are still undergoing revision at the hands of the Secretary of the Navy and the Chief of Ordnance, and it is announced now that it will not be ready for issue for at least a fortnight. The only reason assigned for the delay is that it has been a very difficult task to prescribe such requirements as will come within the range of the facilities of our manufacturers and at the same time fully satisfy the desire of the Government. In compiling the circular the only data the Department has had to work upon is that furnished from the Italian, French, and English Governments, through Lieutenants CHADWICK and CUNNINGHAM, there being no formula of our own to go by.

THE present policy of the War Department in regard to disability retirements seems to be now sufficiently well defined to indicate the adoption of two rules governing selections: First, that preference be given those borne on the incapacitated roll who are on the eve of promotion. Next when this list is exhausted, which is now the case, that selections be made from those highest in rank, whose relief from the active list will give promotion to the senior of the grade next below. It was in pursuance of this latter rule that Captain JOHN S. WHARTON, 19th Infantry, was selected for retirement Dec. 18. There is still another vacancy on the retired list, which, if the above rule holds good, will fall to Captain CHARLES G. GORDON, ot the 6th Cavalry, whose retirement will promote Lieutenant KINGSBURY, the next senior in regiments which have disabled captains.

THE residents of Los Angeles, Cal., in general, and the military residents in particular, are much pleased, to speak mildly, with the establishment there of the Headquarters Department of Arizona and the advent of General N. A. MILES and his staff. The latter, in their turn, are by no means dissatisfied with the change. Los Angeles has many military memories. It was founded in September, 1781, by soldiers discharged from the neighboring mission of San Gabriel. It was made the capital of California by the Mexican Congress in 1836 and was the seat of the last government from 1844 to 1846. In the latter year it was captured by Commodore STOCKTON and General KEARNY after the battles of San Gabriel and La Mesa. The gallant HANCOCK, while Chief Quartermaster of the Southern District of California, was stationed there from May, 1859, to August, 1861. The full name of the city is Pueblo de la reina de los Angeles—Tower of the Queen of the Angels.

THE non-commissioned officers and enlisted men of the Army are quite active in their efforts to secure an amendment to the soldiers' retirement law, reducing the required length of service before being eligible for retirement from thirty to twenty five years. Petitions from them have been handed into the House daily since Congress convened, and Mr. STEELE and others of the House Military Committee have still more to present. The papers already received bear the names of over 5,000 soldiers. Mr. STEELE, of Ind., seems to be the special champion of the cause referred to, as most of the petitions come through him. It is his intention to try and secure the promised legislation in connection with his Army Efficiency bill which is now pending on the House calendar. It is evident that a man must enlist at an exceptionally early age to secure thirty years of service before he becomes disabled for active duty. An officer can be retired at the discretion of the President after a thirty years' service, which may begin at the age of seventeen, the age of admission to the Military Academy, and he may demand retirement after forty years' service.

THE report of the members of the Board of Visitors to West Point on the part of the House of Representatives, Messrs. BRAGG, VIELE and BAIRD, was submitted to Speaker CARLISLE on Wednesday. It is unusually long, reviewing in great detail the course of study, management and discipline at the institution. The system of discipline the committee regard as very rigid, but thoroughly approve of it. The impression given to the board by the general conduct and bearing of the cadets was that of a thoroughly disciplined body of young men, under control, respecting themselves and one another, as well as the officers placed over them; they all give evidence of healthy, vigorous, mental and physical activity. From interviews with those familiar with the institution the board concluded that the moral standing of the present cadet is in advance of what it was in former years. The board express their "unreserved approbation" of the manner in which Colonel MERRITT and the tactical officers under him have fulfilled the responsible task assigned them. The whole tenor of the report is in commendation of the present management of the institution, though there are a number of changes recommended in the various branches of study. They favor re modelling the course in practical engineering. The text books used in this branch, they do not regard, as up to the knowledge of the day. They think more time should be devoted by the professors to oral instruction and the stimulation of thought—the calling out, as it were, from the cadet of his latent faculties by free discussion instead of the text-book.

SENATE resolution No. 78, authorizing the Secretary of War to accept a certain tract of land, donated by the Commercial Club of Chicago for military purposes, was passed by the Senate on Monday. The tract referred to in this resolution has been recommended by the Secretary of War, General SHERIDAN and General TERRY as an admirable site for a military post. It is on the shore of the lake about 25 miles above Chicago, and is nearly a square mile in extent. Its general elevation is about 75 feet above the water. Its surface is partly covered by woods and partly open, and is diversified by ravines and plateaus, the latter affording ample sites for the buildings of a post and for parade and formal drill grounds; the former giving excellent opportunity for instruction in the movement of troops in rough ground, such as they must encounter in actual service. Senator BECK, who objected to the consideration of the resolution at the last session, said that he had since made inquiries and withdrew his opposition. He read a portion of a letter from one of the best informed men in the country stating that the site is a very valuable one and saying: "Permitted by the changed aspect of our Indian affairs, and in accordance with these ideas, General SHERIDAN has already commenced to bring the troops together in large masses, but there are very few posts in existence that are sufficiently large to permit such concentration; he is hampered, therefore, in the execution of his plans by the necessity of building or enlarging posts so that they will accommodate the garrisons proposed. Moreover, nearly all our posts except the artillery posts on the seaboard are situated west of the Mississippi and Missouri Rivers, and surely it would be both wise and just to establish a proper proportion of the Army in the central and eastern sections of the country. It would be neither wise nor just to leave the National Government in those portions of the country which contain the great mass of our population and of our wealth without the means of promptly performing the duties imposed on it by section 4 of article 4 of the Constitution." He describes the advantages of Chicago for the location of such a post, and says: "Two railroads brush along the edges of the tract, giving direct communication with both Chicago and Milwaukee; and if all railroad communication should be obstructed there would still be water communication with both cities and with every other point in the lake system."

PERSONAL ITEMS.

LIEUT. H. C. BENSON, 4th Cavalry, is spending the holidays at Gambier, Ohio.

LIEUT. C. B. HARDIN, 18th U. S. Inf., is spending the holidays in Philadelphia.

CHAPLAIN C. M. BLAKE, U. S. A., of San Francisco, celebrated his 67th birthday Dec. 24th.

MAJOR A. S. BURT, 8th U. S. Infantry, was expected to join this week at Fort Robinson, Neb.

LIEUT. JOHN BIGELOW, Jr., 10th U. S. Cavalry, is at his father's, 12 Gramercy Park, New York city.

LIEUT. W. E. SHIPP, 10th U. S. Cavalry, of Fort Apache, goes abroad to remain until next summer.

COL. H. G. LITCHFIELD, U. S. A., visiting in New York, will return to St. Augustine, Fla., early in January.

GENERAL W. W. BURNS, U. S. A., returned to Governor's Island this week from a ten days' visit to Washington.

FORT MONROE, Va., is very dull at present, most of the school officers having left there this week on holiday leaves.

LIEUT. G. R. BARNETT, 9th Cavalry, of Fort Du Chesne, Utah, has left for the East to spend seven or eight weeks.

SURGEON J. W. WILLIAMS, U. S. A., lately visiting in Washington, joined this week at Jackson Barracks, New Orleans.

LIEUT. J. A. LUNDEEN, 4th U. S. Artillery, left Fort Warren, Mass., this week, to spend Christmas and New Year's with friends.

LIEUT. S. C. MILLS, 12th U. S. Infantry, rejoined this week at St. Augustine, Fla., from a trip to Carlisle, Pa., with Indian children.

MISS SARAH O. ROSSER, daughter of Gen. Thomas L. Rosser, of Charlottesville, was married to Campbell C. Coohran, of Florida, Dec. 22.

SURGEON-GENERAL JOHN MOORE, U. S. A., has been appointed a member of the Board of Visitors to the National Asylum for the Insane.

COLONEL R. S. LA MOTTE, 13th U. S. Infantry, is packing up at Plattsburg Barracks, N. Y., preparatory to joining his new regiment at Fort Wingate, N. M.

LIEUT. E. B. BABBITT, 5th U. S. Artillery, and Mrs. Babbitt, of Fort Wadsworth, N. Y. H., are spending the holidays with relatives at Fort Monroe Arsenal, Va.

MAJOR T. H. STANTON, paymaster, U. S. A., came to Omaha this week for temporary duty during the absence on a fortnightly leave of Chief Paymaster C. M. Terrell.

THE death of 1st Lieutenant W. J. Campbell, 22d Inf., promotes 2d Lieutenant R. N. Getty to a 1st lieutenancy. Lieut. Getty was graduated from West Point in 1878.

LIEUTENANT LOUIS OSTHEIM, 3d U. S. Artillery, has taken charge of the artillery guard at Fort Myer, Va., relieving Lieut. J. D. Barrette, who has returned to Washington Barracks.

LIEUTENANT J. C. SCANTLING, 2d U. S. Artillery, has taken charge of quartermaster and subsistence matters at Mt. Vernon Barracks, Ala., in succession to Lieut. A. F. Curtis, 2d Artillery.

PROFESSOR CLEVELAND ABBE, of the Signal Bureau, Washington, delivered an interesting lecture Dec. 17, before the Franklin Institute at Philadelphia, on "Popular Errors in Meteorology."

COLONEL S. R. HONEY gave a dinner at Newport, R. I., a few evenings ago, the guests being Rear Admiral Luce, Commander Higginson, U. S. N.; Mr. R. Colgate, Gen. Davies, Mr. H. F. Eldridge, and Capt. Field, U. S. A.

SENATOR SHERMAN and Gen. Sherman are said to exchange letters almost daily when out of one another's society. "Cump" is what John always calls the soldier, and "Now, John," is the style that the General uses in accosting the Senator.

A WASHINGTON correspondent, referring to the presence of Gen. Sherman at the Garfield Hospital Fair, says: "Having entered, he was at once surrounded by young ladies, and, taking two on his arms, made the tour of the tables and let them empty his pockets to the last dollar. He bought dolls, candy, flowers, aprons, teapots—anything and everything and enjoyed the tyranny of his pretty guides to the utmost."

MISS ADA GWYNN, daughter of Mr. and Mrs. Nicholas Gwynn, was married on Tuesday to Mr. Bryce Gray, Jr., at the residence of the bride's parents, No. 40 West 58th street, New York City. The bridesmaids were Miss Lillian Gwynn, Miss Josephine Gray, Miss Emmie Vogdes and Miss Nina Smith. Mr. Stephen H. De Forest acted as best man. The bride is a sister of Mrs. Russell Hancock, daughter-in-law of the late Maj. Gen. Hancock.

GENERAL DANIEL E. SICKLES is seldom seen about town in the daytime, but appears to manage to attend everything worth the while in the evenings. Young and pretty ladies are very often his companions—two at a time as a rule. Gen. Sickles is the only living hero of the war who looks as he did in his fighting days. A portrait of him in the *Century* for December, taken from a war-time photograph, is a good picture of him as he appeared in his last battle—with the gas companies.—*New York Sun.*

LIEUTENANT JOHN P. FINLEY, Signal Corps, U. S. Army, who makes the weather forecasts sent from this country to Europe for the benefit of shipping coming this way, will return to Washington in a few days, says the *Tribune.* During his temporary stay in New York, he has got the work well started, and can easily continue it at the National Capital. This member of Gen. Hazen's corps of meteorologists has been prominently known during the last three or four years for his industrious research into the history and nature of tornadoes, and his valuable papers on that class of topics.

COL. E. S. OTIS, 20th U. S. Inf., is spending the holidays at Wilkesbarre, Pa.

MAJOR S. M. WHITSIDE, 7th U. S. Cavalry, has been visiting friends at Newport, Ky.

MRS. AYRES, wife of General R. B. Ayres, U. S. A., is spending the winter at Asheville, N. C.

"COLONEL R. C. HOPPENS, U. S. A., Fort Buford," says the *Pioneer Press*, is registered at the Ryan.

GENERAL SAMUEL BRECK, U. S. A., left Omaha, Neb., this week for the East on a fortnight's leave.

LIEUTENANT J. T. THOMPSON, 2d U. S. Artillery, is spending the holidays with relatives in Newport, Ky.

LIEUT. W. C. MCFARLAND, 16th U. S. Infantry, on leave from Fort Davis, Lex., is visiting at Lancaster, Ky.

CAPTAIN D. H. FLOYD, U. S. A., left Buffalo on Thursday of this week to spend Christmas with friends.

LIEUT. S. R. H. TOMPKINS, 7th U. S. Cavalry, is visiting his father, General Tompkins, at Governor's Island, N. Y.

MAJOR C. A. WIKOFF, U. S. A., on leave from Fort Sully, D. T., is on a visit East and was in New York City this week.

LIEUT. G. P. AHERN, 25th U. S. Inf., on leave from Fort Snelling, registered at the Planters' Hotel, St. Louis, early in the week.

MAJOR C. L. HEIZMANN, U. S. A., Post Surgeon of Fort Ontario, N. Y., is spending the holidays with friends at Reading, Pa.

CAPTAIN H. W. LAWTON, 4th U. S. Cavalry, and Mrs. Lawton are recent visitors to San Francisco, with quarters at the Occidental.

COLONEL EDWARD HATCH, 9th U. S. Cavalry, lately in Omaha, goes to Fort Du Chesne, Utah, to take command of that important post.

LIEUTENANT J. A. LOCKWOOD, 17th U. S. Infantry, who sailed last week for England, goes from there to France and will winter in Paris.

MAJOR T. C. SULLIVAN, of the Subsistence Department, U. S. A., left Boston this week on a short leave. He will rejoin about New Year's.

LIEUT. LOTUS NILES, 2d U. S. Artillery, visited friends at Fort Leavenworth this week, and afterwards returned to Jackson Barracks, La.

GENERAL A. J. PERRY, U. S. A., has rented his house, 2003 I street, Washington, D. C., to Col. Lamont, President Cleveland's private secretary.

LIEUT. W. N. P. DARROW, 4th U. S. Artillery, of Fort Adams, R. I., arrived at Fort Preble, Me., early in the week, for a few weeks' tour of duty there.

LIEUTENANT COLONEL J. C. BATES, 13th Infantry, has arrived at Fort Wingate, N. M., and taken command of that post and his regiment until further orders.

COL. N. A. M. DUDLEY, 1st Cav., will leave Fort Custer, Montana, this week, to be absent about two months. His friends in the East hope to see him visit their way.

IT is reported from Washington that the President has about decided to offer the Turkish mission, vacated by the resignation of the Hon. S. S. Cox, to Gen. Egbert L. Viele, member of the House of Representatives from the 13th New York District.

THE retirement of Captain J. S. Wharton, 19th Infantry, promotes 1st Lieutenant C. A. Vernou, of that regiment, to a captaincy, and 2d Lieut. E. B. Ives to 1st lieutenant. Captain Vernou is on recruiting service at Cleveland. Lieutenant Ives, under his promotion, goes from Fort Clark to Fort McIntosh.

THE Crown Prince of Germany, like Von Moltke, is a very silent man. He lives in a quiet, domestic way, and is said to be bitterly opposed to the sentiments of Prince Bismarck; and this is a source of considerable annoyance to the old Emperor. After the first audience with the Pope his only remark was: "The Pope is a Frenchman."

MR. JOHN A. KASSON, late Minister to Austria, is preparing a diplomatic history of the rebellion. While abroad he collected a great deal of valuable material in the foreign offices of England, France and Germany, showing the exact relations which the European Powers occupied toward the Confederacy. Since his return he has explored the files of the State Department and those of the Rebellion Record office.

JUST across the street at the Brunswick, says the New York *Herald* of Dec. 21, "a jolly party of young Englishmen 'put up' yesterday, having arrived by the same steamer. Capt. the Hon. R. C. Drummond (Seaforth Highlanders), Capt. the Hon. A. Manners (15th Hussars), and Mr. H. A. Duff and Capt. O. R. Armstrong (Seaforth Highlanders) made up the party. They are all devoted sportsmen and have come over to hunt."

THE senior member of the stockbroking firm of Hooker and Co., which failed recently at San Francisco, was Richard Campbell Hooker, who graduated from the Naval Academy in 1865, and resigned as Lieutenant, June 30, 1876. Shortly previous to his resignation he married a daughter of ex-Senator W. M. Stewart, who bought a seat for him in the San Francisco Stock Board at a cost of $40,000. Hooker was at one time supposed to be worth more than $1,000,000.

MAJOR ANDREW SHERIDAN, formerly captain of the 3d and 24th Infantry, who resigned in 1877, is reported to be now employed as a park policemen at Fairmount Park, Philadelphia. Speaking of this fact to a party of officers at the War Department, started some reminiscent talk, and one officer said: "Poor Andy. I'm sorry, but its like his manliness, to take even such a position rather than depend on friends for support. It's funny," he continued, "how it is in the Service; some men will 'soak' right along for years, and never have any trouble, but just remain utterly worthless, while a good fellow like Andy gets caught every time he gets a drop too much, and finally gets out of the Service,"

LIEUTENANT JAMES ALLEN, 3d U. S. Cavalry, is in Washington, the guest of Surg. R. M. O'Reilly, U. S. Army.

CAPTAIN J. M. LANCASTER, 3d U. S. Artillery, left Washington early in the week on a short leave of absence.

LIEUTENANT CLARENCE DEEMS, 4th U. S. Artillery, left Fort Adams, R. I., on Wednesday, to be absent for a week.

MAJOR E. J. SPAULDING, 4th Cavalry, under recent orders, goes from Fort Huachuca to Fort McDowell, Arizona.

THE death of 1st Lieutenant A. L. O'Brien, 2d U. S. Cavalry, promotes 2d Lieutenant F. D. Holton to a first lieutenancy.

RENDAL WHIDDEN, 96 years of age, a pensioner of 1812 and a major-general in the old Maine militia, is living in Windsor, N. S.

GENERAL WESLEY MERRITT, U. S. A., of West Point, registered at the Fifth Avenue Hotel, New York, early in the week.

CAPTAIN G. D. WALLACE, 7th U. S. Cavalry, who has been on the sick list for some time past, will spend the winter on leave.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery, left Fort Columbus, N. Y., this week, to spend the holidays with friends in St. Louis.

LIEUT. C. W. ABBOT, 12th U. S. Infantry, on a few weeks' leave from Sackett's Harbor, visited in New York city early in the week.

ASSISTANT SURGEON J. B. W. GARDINER, U. S. A., of Newport Barracks, Ky., is spending a fortnight's leave with friends in Baltimore, Md.

CHAPLAIN B. C. HAMMOND, U. S. A., in assuming the editorial chair of the Presidio County *News*, Fort Davis, Tex., makes some excellent suggestions, which indicate a successful career for the paper.

COLONEL B. J. D. IRWIN, U. S. A., has arrived in San Francisco, and taken full charge of the Medical Purveying Depot. His many friends in the East hope to see him soon back in New York City.

COLONEL L. L. LANGDON, U. S. A., and family, who have been the guests, at Washington, for a few days, of Mrs. M. G. Halpine, widow of General Charles G. Halpine, were expected to arrive at Fort Barrancas, Fla., the latter part of this week.

COLONEL E. F. TOWNSEND, 12th U. S. Infantry, and family, on returning to Madison Barracks, Sackett's Harbor, recently, were accorded a hearty reception by the officers and ladies of the garrison. An excellent musical programme was rendered on the occasion by the regimental band.

CAPTAIN JOHN S. WHARTON, 19th U. S. Infantry, for many years A. D. C. to Major-Gen. Hancock, has been retired on account of disability and will continue to reside in the vicinity of New York. His health has improved of late, but not sufficiently so to enable him to resume active service.

THE latest novel by Mrs. Wildrick, wife of Col. A. C. Wildrick, U. S. A., "A Zealot in Tulle," which was commenced in the "United Service Magazine," and withdrawn from publication in that magazine, is now in press by D. Appleton and Co., New York City, and will appear in book form about Jan. 1.

LIEUTENANT M. M. MACOMB, 4th U. S. Artillery, left Portland, Me., this week, for Fort Monroe, Va., for a few weeks' special duty there, in connection with some professional work, which he was obliged to discontinue a few months back. His place at Fort Preble has been taken by Lieut. Darrow, of Fort Adams.

LIEUT. C. A. L. TOTTEN, 4th U. S. Artillery, left Fort Adams, R. I., on Tuesday on leave, to be absent about three weeks. He delivered a lecture, Thursday evening, before the Polytechnic Section of the American Institute, on the "Advantages of the English Units of Measurements and the Deformities of the French System." The lecture was designed to show not only that our standard inch, pint and pound are more convenient and practical than the metre units, but that they are as old as the Pyramids, and were purposely recorded there.

PRESIDENT CLEVELAND, Dec. 21, signed the bill granting Vice Admiral Stephen C. Rowan and Rear Admiral John L. Worden permission to retire with the highest pay of their respective grades. The application of Rear Admiral Worden for retirement under the act was received at the Navy Department Dec. 21, and Vice Admiral Rowan will follow later on. The grade of Vice Admiral will cease to exist with the retirement of Admiral Rowan. The retirement of Rear Admiral Worden will cause promotions in every grade in the line of the Navy, the number of each having been reduced to the limit allowed by law. Commodore P. C. Johnson, commandant of the Portsmouth Navy-yard, will be promoted to the rank of Rear Admiral, and in view of his failing health he will doubtless retire soon afterward. In August and September Rear Admirals Franklin and Davis will be placed on the retired list. Altogether a fair number of promotions may be expected in the line of the Navy during the next year.

THERE will be a very pleasant addition to the society people here during the holidays, for General Schofield (who loves Washington himself and knows how the youngsters feel) has granted two weeks' leave to a lot of the lieutenants at the Fort Monroe Artillery School, and most of them are residents here *in partibus.* Among the lot are Lieut. Thomas C. Patterson, 1st Artillery, the son of Rear Admiral Patterson; Lieut. Thomas Corbin Davenport, 4th Artillery, who ranged the plains for years with the cavalry, before betaking himself to gunnery, and is related to about half of the Army, Navy and Marine Corps people here; Lieut. Willoughby Walke, 2d Artillery, is that dreadfully fascinating son of Admiral Walke, who was two years ago on duty at the Arsenal here and drove the girls half crazy because he seemed to care more for guns and books than for furbelows; Lieut. Henry De Haven Waite, 5th Cavalry, is the dashing nephew of the Chief Justice, and as good-looking as his cousin "Kit" Waite was twenty years ago.—*Washington Critic.*

GENERAL J. H. POTTER, U. S. A., is spending the holidays at Columbus, O.

COL. A. F. ROCKWELL, U. S. A., left St. Paul early in the week to be absent until early in January.

THE President has approved the act reinstating William P. Chambliss, late a Major of the 4th Cav.

THE Second Comptroller has allowed the Mexican War claim of Geo. H. Brown, private, Co. E, 2d Illinois volunteers, for $21.

IN the U. S. District Court, Dec. 22, Judge Brown handed down his decision denying the application of U. S. District Attorney Walker for a new trial in the case against Gen. Adam Badeau, in which he directed the jury to bring in a verdict for General Badeau.

GEN. N. A. MILES, U. S. A., is visiting in Boston. In an interview there he is reported as saying: "There unquestionably has been some capital made out of the capture of Geronimo by designing persons; but, if there had been dissatisfaction, it would have reached me through the proper military channels, and would have been answered by me in like manner."

GENERALS W. T. SHERMAN and J. M. Schofield, U. S. A., attended the dinner of the New York New England Society at Delmonico's on Wednesday evening. In response to the toast "Health and Long Life to General Sherman" that distinguished officer made an effective speech, full of interesting reminiscences. Major-General Schofield responded for "The Army and Navy" in a pithy speech applicable to the occasion as well as to the subject.

POST CHAPLAIN GEO. D. CROCKER, U. S. A., after an honorable service, dating from 1861, retires from active service on Saturday of this week, Christmas day. He served as chaplain of the 6th New York Cavalry from December, 1861, until August, 1865, and in the Regular Army since Oct. 3, 1867. For some time past he has been in charge of education in the Army with station at St. Louis. He will be succeeded at St. Louis by Chaplain George Robinson, now at Fort Buford, Dakota.

PRESIDENT CLEVELAND is constantly receiving personal and written applications for appointments as cadets at the Military and Naval Academies. The first vacancy of this sort which he is entitled to fill will not exist until June, 1888, when one of the 10 military cadets appointed by the President will be graduated. No Presidential vacancy will occur at the Naval Academy before June, 1890. There are not so many applicants for admission to the Naval Academy, but over 500 applications for the appointment to the Military Academy have been received.

LIEUTENANT A. M. KNIGHT, U. S. N., of Annapolis, has been visiting friends at Greenfield, Mass.

ENSIGN E. F. LEIPER, U. S. N., arrived at Norfolk, Va., early in the week, for duty on the *Dolphin*.

PASSED ASSISTANT ENGINEER JOHN L. D. BOTHWICK has been ordered to examination for promotion Jan. 5.

CHIEF ENGINEERS PHILIP INCH and Philip Hichborn, U. S. N., registered at the Astor House, New York, on Tuesday.

THE delayed examination of Commodore John Lee Davis for promotion to be Rear Admiral was held at the Navy Department on Tuesday.

LIEUT. COMMANDER E. S. HOUSTON, U. S. N., left Norfolk, Va., last week, for Europe, to bring his family home from Switzerland some time in February or March next.

G. H. T. BABBITT, late Assistant Engineer, U. S. Navy, who resigned recently while on duty in the Department of Steam Engineering, Naval Academy, is now connected with the Chicopee Manufacturing Co., and is residing at Chicopee Falls, Mass.

LIEUTENANT S. H. MAY, P. A. Engr. J. C. Kafer Lieut. W. L. Wood, Chief Engr. John A. Scot, Lieut. S. P. Comly, Asst. Constructor R. Gatewood, Real Admi. S. B. Luce, Boatswain John McLaughlin and Lieut. John H. C. Coffin registered at the Navy Department during the week.

1ST LIEUTENANT JESSUP NICHOLSON, U. S. M. C., was examined for retirement at the Navy Department on Dec. 22. The retiring board consisted of Maj. Chas. Heywood, Capt. R. W. Huntington, U. S. M. C.; Capt. P. C. Pope, U. S. M. C., Surgeon M. L. Ruth, and P. A. Surg. John C. Boyd.

THE Washington *Post* reports that Gen. R. E. Colston, who was formerly Colston Bey, of the Egyptian Army and at present the the librarian of the Surgeon General's office, has been fasting since Nov. 27, a period of 24 days. During that time he has not eaten food. He takes nothing but one teaspoonful of a liquid concoction three times a day. It tastes like and has the color of port wine, but is composed mainly of sherry, with an ingredient which gives it the color of port. Gen. Colston says that when he started to fast he thought he would suffer terribly from the pangs of hunger, but he has found otherwise. "I have no desire to eat," he says. Perhaps he may be able to impart his secret of doing without eating to the officers of the Army and so enable them to save something out of their pay.

ENSIGN WALTER G. RICHARDSON, U. S. Navy, was married on Tuesday, Dec. 21, at 8 P. M., in the chantry of Grace Church, to Miss Ellen Valentine, daughter of Leland Fairbanks, Jr., of New York. Rev. Wm. R. Huntington, D. D., the Rector of Grace Church, officiated. Ensign F. Swift was best man, and the ushers were Ensigns E. Simpson, Jr., and M. C. Gorgas, these three young officers being classmates of the groom. The bride was dressed in heavy cream-white corded silk, with duchesse lace. The bouquet was white roses. She was preceded to the altar by a little maid of honor and page. About a hundred relatives and intimate friends were present. The dainty chanting, the evening dress of the ladies and gentlemen, and the naval uniforms, made a brilliant scene. After the ceremony there was an informal gathering of friends at the house of the bride's parents. Ensign Richardson, after a wedding trip, will return to his station at Annapolis the latter part of January.

REAR ADMIRAL S. B. LUCE, U. S. N., is at Newport, R. I., for the holidays.

COMMANDER P. H. COOPER, U. S. N., rejoined at Norfolk, Va., this week, from a short trip to New York.

ADMIRAL SIR REGINALD J. MACDONALD, retired, British Navy, arrived in New York this week, registering at the Victoria Hotel.

LIEUT. F. J. MILLIGAN, U. S. N., who has been on sick leave in Knoxville, Tenn., for nearly a year, has received an assignment on the 31st December to duty on the receiving ship *New Hampshire*, at Newport, R. I.

THE friends of P. A. Surgeon E. H. Green, of the Navy, will see with regret that his recent assignment takes him to the Pacific Slope. Dr. Green will be attached to the receiving ship *Independence*, at the Mare Island Navy Yard, Cal.

THE President on Wednesday approved the examination papers of Lieuts. Geo. A. Norris, Wm. H. Parker, Ensign O. G. Dodge and Asst. Engr. Edward R. Freeman, who were examined for promotion, and their commissions will be issued at once.

P. A. SURGEON ROBERT SWAN, U. S. N., is still on sick leave, and as he continues to report as unfit for duty, it is probable that the Retiring Board may have his case before it early in the year just opening. Dr. Swan has been unfit for duty for some time.

P. A. SURGEON B. F. ROGERS, who has been detached from the Naval Academy and granted a year's leave of absence, has under consideration, it is said, a permanent severing of his relations with the Navy by a resignation. His leave of absence will present an opportunity for testing its feasibility.

REAR-ADMIRAL J. LEE DAVIS, U. S. N., so well known in years past in Washington, has returned from a three years' cruise as Commander-in-Chief of the Asiatic Station. He was relieved Nov. 22 by Rear Admiral Chandler, and, with Mrs. Davis, is now stopping at the Ebbitt. The Admiral shows few marks of years beyond blanched locks and moustache.

P. A. PAYMASTER JOHN W. JORDAN, U. S. N., was before the Retiring Board last week, but was not found "permanently incapacitated for active service," which, having been approved, will afford Paymaster Jordan an opportunity of plowing the briny deep before long. His last assignment was in charge of stores at Key West, Fla., but his last cruise expired early in 1880.

PAYMASTER A. W. BACON, of the *Atlanta*, is at home for the holidays looking as though a "steel cruiser" is having a beneficial effect upon him. The Paymaster expects to return to his ship early in the new year. He is a prime favorite at the Capital, where he is widely known, and many regrets have been expressed that the "exigencies of the Service" prevent a continuance of a pleasant residence there.

NORWICH, Conn., has a new resident, Dr. Rilchiro Saiki, a native of Japan and a surgeon in the Imperial Japanese Navy. He is a graduate of the best college in Tokio, has studied medicine and surgery in the German language, and comes to this country to graduate from the medical department of the Pennsylvania University. He is to remain in Norwich a few months to study the English language, which he can read, but with difficulty speak.

GEORGE A. SHUFELDT, appointed Marshal to the U. S. Consular Court at Shanghai is the son of Rear Admiral Robert W. Shufeldt, retired. Several years ago, when the Rear Admiral was designated to inspect the consulates of China and Japan, he took with him on the mission his son George. The young man liked China, and his father secured for him the same place he is again selected to fill, and which he only relinquished a few months ago.

ON Jan. 24, Chief Engr. E. D. Robie, U. S. N., will be detached from duty in the Navy-yard, New York, on completion of a three years' tour His long and valuable experience admirably fits him for the position of supervisor or general superintendent of the steel cruisers, etc., to be built on the Atlantic coast, and it is believed to be not unlikely that he will receive the assignment. Chief Engr. J. W. Moore, U. S. N., late Fleet Engineer of the South Pacific Station, will succeed Chief Engr. Robie.

THE progressive euchre party given by Major and Mrs. Green Clay Goodloe, U. S. M. C., at their delightful home, 1410 M St., Washington, D. C., on Tuesday evening last, was one of the happiest affairs of the season. The guests, who were received by Mrs. Goodloe and Mrs. Senator Beck, were: Miss Almy, Miss Gouverneur, Miss Breckenridge, Jr., Miss Patterson, Miss Voornees, Miss Anna Wilson, Mrs. Johnson, Mrs. Dolph, Miss Dolph, Admiral Almy, Messrs. Gordon, Elliott, Tobin, Drum, Gilman (M. C.), Harrison, Dr. Deane, Dr. Ruth and Lieut. Lemly.

P. A. PAYMASTER DEERING, of the Navy, sailed on Tuesday from New York, en route for his recent assignment as the General Storekeeper of the South Pacific Station on the *Monongahela* at Coquimbo, Chili. The Paymaster is fortunate in going south of the equator at this season, as he will meet the spring on its way to those frozen latitudes. Mrs. Deering and Miss Deering will remain in Washington until spring, when it is their intention to make an extended trip to Maine, the native State of Mr. Deering. It is more than likely that the *Monongahela* will be ordered to the Atlantic side during the coming year.

(Correspondence of the Army and Navy Journal.)

WILLET'S POINT, N. Y. H.

DEC. 3.

WE expected a fine day for our athletic games on Thanksgiving Day, but the rain interfered and the competitors in the heavy marching order race got wet through before they had finished their five miles. The following is a list of the events and winners:

100 yards' run—1, Reilly; 2, Dalrymple; 3, Pearl. Tug of war—1, Comp. B; 2, Comp. A. Standing long jump—1, Grant; 2, Reilly. Running long jump—1, Grant; 2, Pearl. 120 yards' hurdle race—1, Reilly; 2, Dalrymple. Heavy shot—1, Grant; 2, Colborne. Light shot—1, Grant; 2, Colborne. Standing high jump—1, Grant; 2, Reilly. Running high jump—1, Grant; 2, Dalrymple. 440 yards' run—1, Reilly; 2, Dalrymple; 3, Pearl. Heavy hammer—1, Grant; 2, Colborne. Light hammer—1, Grant; 2, Colborne. Wheelbarrow race—1, Cullen. Tug of war, final—1, Co. B; 2, Co. C. Three legged race—Ward and Telinde, 1st. Mile race—1, Dalrymple; 2, Pearl; 3, Ward. Potato race—Cullen, 1st. Five mile heavy marching order race, carrying kit complete, and 40 rounds of ammunition—1, McDonald; 2, Colborne; 3, Dalrymple.

We established an athletic club here last winter, which has served to materially develop an athletic spirit in our corps. We expect to have a ten hour go-as-you-please next spring. A. D.

THE IRISH BRIGADE AT FREDERICKSBURG.

"A LINE OFFICER" of the English Army, whose name does not appear, has lately published (London: Kegan Paul, Trench, and Co.), a work entitled "The Campaign of Fredericksburg, November-December 1862," the style of which is described as showing a concentrated energy and a vigor of description which recalls Napier's "Peninsular War." From the extract which follows from the *United Service Gazette* it would appear that the author has drawn somewhat upon his imagination for his facts. He says of the attack of Meagher's Federal Brigade of 1,200 Irishmen upon the Confederate position at Marye's Hill on the left of their line:

"The defenders were concealed behind a stone wall. . . . So determined was the advance that Col. Miller, commanding the Confederate brigade confronting them—for Gen. Cobb had already fallen—ordered his men to hold their fire for a space. And now occurred a strange and pathetic incident. Though high was the courage of that thin line which charged so boldly across the shot swept plain, opposed to it were men as fearless and as staunch: behind that rude, stone breastwork were those who were 'bone of their bone and flesh of their flesh'—the soldiers of Cobb's brigade were Irish, like themselves. On the morning of the battle Gen. Meagher had bade his men deck their caps with sprigs of evergreen, 'to remind them,' he said, 'of the land of their birth.'

"The symbol was recognized by their countrymen, and 'O God, what a pity! Here come Meagher's fellows!' was the cry in the Confederate ranks. One hundred and fifty paces from the hill the brigade halted and fired a volley, while the round shot tore fiercely through the ordered line. Still no sign from the wall looming grim and silent through the battle smoke; and again the battalions moved swiftly forward. They were but a hundred yards from their goal, unbroken and unfaltering still. . . . Victory seemed within their grasp, and a shout went up from the shattered ranks. Suddenly, a sheet of flame leaped from the parapet, and 1,200 rifles, plied by cool and unshaken men, concentrated a murderous fire upon the advancing line. To their glory be it told, though scores were swept away, falling in their ranks like corn before the sickle, the ever-thinning ranks dashed on. . . . But before that threatening onset the Confederate veterans never quailed; volley on volley sped with deadly precision, and at so short a range every bullet found its mark. For a while the stormers struggled on, desperate and defiant; but no mortal men could long face that terrible fire, scathing and irresistible as the lightning, and at length the broken files gave ground. Slowly and sullenly they fell back; fell back to fight no more that day, for beneath the smoke-cloud that rolled about Marye's Hill the Irish Brigade had ceased to exist. *Of 1,200 officers and men 937 had fallen.* Forty yards from the wall, where the charge was stayed, the dead and dying lay piled in heaps, and one body, supposed to be that of an officer, was found within fifteen yards of the parapet."

This episode of the battle of Fredericksburg is thus described by General Walker in his "History of the Second Corps":

"The sole compensation to the charging column is found in the fact that our troops are now so close that the Confederate artillery on the right can no longer enfilade their lines. Against this blazing musketry, tier on tier, Zook's men bend themselves as men who breast a furious gale of wind. But hark, what cheer is that which bursts from the rear as they struggle on? It is the Irish Brigade, which Hancock has thrown forward to give a fresh impulse to the waning assault. Right gallantly the Irishmen charge over the sheltering ridge, and dash across the bloody spaces strewn with the dead and dying of the brigades that have gone on before. They come up not a moment too soon. Zook's brigade has struggled forward to the last of the fences which cross the field of battle.

"This fence our gallant fellows try, here to bear down by main force, there to wrench from the ground. But how can men live where, a pistol shot away, four ranks of veteran marksmen, themselves completely sheltered, are pouring forth an unremitting blast of deadly fire? The killed and wounded fall like leaves in autumn, while hundreds of men, brave among the bravest, lie down beneath the storm of lead. Nugent and Kelly, to whom the Irish Brigade has been accustomed to look for examples of courage and devotion, are at the front; with their own hands they undertake to tear down the fences and make a way to the stone wall. But it is in vain; of twelve hundred men, five hundred have fallen. Nugent, of the 69th, is down, fifteen of his commissioned officers with him—only three remain. O'Neill, of the 63d, is disabled, with six of his officers. Heenan, who has led his new regiment as far as any, is wounded, with eleven of his officers. The fourth commander is now in charge of the battalion. Flesh and blood will not stand it longer. In the face of the manifest possibility of accomplishing anything, a part of the brigade take to the ground; a part break to the rear, are reformed by Meagher, who, in his strange, unaccountable way, has been separated from his command during its charge—and at last find their way into the city, and even across the river."

The official reports show the losses of the Irish Brigade at Fredericksburg to have been 544 out of 1,315 men who went into action, or a little over 41 per cent. This is enough to indicate the fury of the assault, though not quite up to the unprecedented loss of 88 per cent. which is credited to the Irish Brigade by this English writer.

INSPECTOR-GENERAL'S DEPARTMENT.

THE annual report of the Inspector-General of the Army states that the work performed by the inspecting officer during the year has been very great and important, including an examination of the money accounts of disbursing officers as well as of all the military posts; the inspections required by paragraph 1327, Army Regulations, and numerous special investigations. The discharge of these duties has kept the officers on the road away from their homes a great part of their time, and subjects them to an expenditure of their private means from 15 to 20 per cent. greater than the amount that is afterwards refunded to them under existing laws.

The Secretary of War and Lieut. General are urgently requested to use their influence with Congress to have six officers added to the lowest grade in the Department; four to replace the four field officers of the line now serving by detail, and two as additional assistants in the office of the Inspector General. The Inspector-General's Department alone is left with undefined and doubtful rights in the matter of clerical assistance, and it is urgently recommended that Congress be requested to authorize that every officer of the Inspector General's Department, when on duty, shall be allowed a clerk of class three and a messenger, the persons so authorized to be employed only upon public duty pertaining to the inspection branch of the Service.

General Baird says:

All reports and my own observation prove that the Army, as a whole, is in a very healthy and gratifying condition. There is not a bad or a poor regiment in it. Some regiments excel others in certain lines of instruction, but there is not one which could not be brought to the highest degree of excellence in any line of military duty belonging to its class in a very short time. The officers are sober and orderly, capable and intelligent, and ambitious to excel when an opportunity is afforded them. Small commands, depleted by details for all manner of work, take from them the possibility of showing what they could or would do, and must dampen their ardor.

The enlisted men are sufficiently intelligent and educated for all necessary purposes. They are as well set up and instructed in their drills as their opportunities will permit. They are orderly and subordinate and faithful in the discharge of their duties, and they endure the privations and hardships of their calling with commendable fortitude. No troops have ever undergone greater hardships than those operating against the hostile Apache Indians during the last year in New Mexico and Arizona with less complaint. The enlisted force of the Army is a most respectable body of men

The clothing furnished to the Army is of the best quality, and is generally satisfactory. Whenever an article is found to be defective or unsatisfactory and a better one is proposed which meets with the approval of the Lieut.-General, the Quartermaster's Department has shown great willingness to conform to the adopted improvements; so there is little just ground for complaint regarding the dress of soldiers. There is no lack of effort to make it what it should be.

It is recommended that the company tailor be placed on extra duty in the Quartermaster's Department and paid 50 cents a day, and that the clothes of the men be fitted free of charge to them, the tailor, while so employed, to be excused from all duty except proper roll calls and inspections.

The ration never was better, either in quality or variety, and the only improvements suggested are the issue of an amount of fresh vegetables at certain places in lieu of other parts, and the issue of bacon in the place of salt pork. The enlistment of a competent cook for each troop, battery, company and regimental band, is urgently recommended. It is also suggested that a suitable allowance of mess furniture be supplied by the Government instead of the company fund.

The subject of desertion is considered at some length, and the explanation of its frequency is found in the fact that it is not treated as the disgraceful crime which it is. Gen. Baird says:

In our Service I know but two proper ways of punishing desertion in cases where the death penalty is not involved. One is to keep as many convicted deserters as can be cared for, at the larger military posts, to do the menial and most disgusting work of the command, in the sight of honorable soldiers, thus keeping their shame constantly before them and relieving good men of work they ought not to be called upon to perform. The other, to confine them with the most degraded convicts in the most severe prisons in the land. In all cases the criminal should be marked, not cruelly, but distinctly, as a majority of school boys mark themselves, so that he cannot repeat his offence continually; and no deserter should ever again be permitted to enlist.

As a means of decreasing the evil of desertion, the military prison at Fort Leavenworth has shown itself to be an entire failure. The prisoners are pampered, not punished in the way they should be. They are too comfortable, too well fed and cared for. They are not made to feel constantly that they are in disgrace, and, on their discharge, they go back to their friends not to have the finger of scorn ever afterwards pointed at them by their fellows, but as if returning from some honorable school of instruction. Such is the belief of officers generally. The Army is not intended as a reformatory for bad men. That duty rests upon other organizations in the community.

It is the reviewing authority, generally, which determines the place of confinement of a soldier sentenced by a court-martial; and it is the custom, I understand, when a man convicted of desertion is likewise convicted of petty larceny, owing to the fact that some public property in his possession is not found after his departure, to send him to a civil penitentiary as unworthy to associate with the deserter simply, who is sent to Fort Leavenworth. This is giving desertion a creditable consideration, which it does not deserve. I therefore recommend to the honorable Secretary that steps be taken to prevent any deserter from being sent to the military prison, and to prevent his confinement at any place being reduced to a less period than the time for which he enlisted.

At every military post there is an amount of dirty work to be done which is quite necessary, but at the same time revolting to those who have to do it. It is the kind of work which in towns and villages is performed by night scavengers who are hired for the purpose. Where there are no convicted prisoners at a post, I recommend that such work be done by contract with persons not of the command.

It is recommended that steps be taken to discontinue Leavenworth as a prison, and that the manufacturing plant, which has grown up with it, be transferred to the Ordnance Department, the officers of which have abundant leisure.

Post schools are still considered unsuccessful as far as enlisted men are concerned but beneficial in the instruction of children. Gen. Baird opposes the recommendations made by some officers that attendance at these schools be made compulsory, for the reason that he doubts the legal right of the Government to compel mature men to attend school like children. "He thinks that if enlisted men do not come up to the desired standard of mental attainment the remedy should be found in the recruiting office. He recommends that no one who cannot read and write, and none but American citizens, either by birth or adoption, be enlisted.

The condition of the post cemeteries is far from satisfactory, and it is suggested that an additional sum be asked for expressly for keeping the post burial places in order.

A revision of the Army Regulations is considered absolutely necessary, omitting much matter which encumbers the present edition, which is to be found in other works of authority. A revision of the tactics, in which the instruction for each arm of the Service shall be treated according to the requirements of that arm by itself, without regard to a forced conformity to the school of another arm, is also much needed. Gen. Baird says:

There seems to be a growing belief amongst officers of this department, post commanders and others, that entirely too much time is devoted to target practice, to the neglect of other equally important duties, such as the "setting up" of the soldier and drills. The tendency seems to be to make a few expert shots with the rifle, to the neglect of other arms, instead of a well-instructed command with the weapons which men would be called upon to use in active service. Reports show that but little attention is devoted to mounted target practice with carbine and pistol, and that instruction in estimating distance and skirmish firing do not receive the attention they merit.

I am of the opinion that officers should not compete with enlisted men at target; they have an undue advantage over the enlisted men both in time for practice and amount of ammunition therefor. I would recommend separate classes, and that competition be limited to the department in which the troops may be serving.

The condition of the light or field artillery is still regarded as altogether unsatisfactory. In General Baird's opinion the practice of changing light battery commanders at short intervals, by detail, in rotation can never work well. Out of twelve captains of artillery, there will hardly ever be found more than four who, by reason of age, habits, and tastes, are fitted to be brilliant light battery commanders, and the selection should be confined to these, and they should not be changed as long as they are efficient. This branch of the Service needs much fostering care. It has been the pride of the Army and it can be made so again.

Much good is anticipated from the inspections, recently authorized, of colleges where Army officers are on duty.

MARINES IN SOCIETY.

In an article on "Marines in Society in Washington," the Philadelphia *Press* says: The first lady of the social circle of the Marine Corps, before she became the wife of the gallant Colonel Commandant, was Miss Elise Henderson, of Germantown, a niece of the brave old Admiral, James Alden, the "fighting James" of the Navy. Mrs. McCawley's receptions are among the most charming in Washington. The lady herself is exceedingly pretty; very attractive in manner, and does the social honors of the corps with surpassing popularity.

Colonel Charles G. McCawley was born into the corps, his father having been a captain of marines. He is one of the handsome men of the service—tall, well formed, with a military bearing.

The military and social duty of the corps is represented on the staff by Major Augustus S Nicholson, Adjutant and Inspector, a son of the brave Major Nicholson, of the Marines. He is a man of soldierly instincts, and very fond of horse races. Mrs. Nicholson—of medium height, a very pretty blonde, prematurely gray—was Miss Jane Jessup, a daughter of the celebrated Colonel Jessup, of the Army, afterward Quartermaster General. The Nicholsons live in the city, where they receive handsomely.

Major Green Clay Goodloe is the grandson of Cassius M. Clay, and a thoroughbred blue grass Kentuckian. He is one of the handsomest men who ever wore the American uniform—a little too stout of late years, the fate of all high-strung Kentuckians. Mrs. Goodloe was Miss Bessie Beck, the tall, lithe, graceful and winning daughter of Kentucky's gruff but honest-hearted Scotch-American Senator Beck.

Major Horatio B. Lowry is a Vermonter, handsome and soldierly. His wife and three daughters, one a very sweet young lady in society, are a new acquisition, and will add three more charming ladies to the feminine circle of the Marine Corps. Mrs. Slack, whom Mrs. Lowry succeeds in the social line, was a niece of Senator Pierce, of Maryland.

Major George P. Houston, commander of the Marine Barracks and its garrison, is a bachelor, but keeps house in the city with his two sisters. Capt. Francis H. Harrington, second in command at the barracks, is the son of a Washington journalist, George H. Harrington, afterwards Assistant Secretary of the Treasury and still later United States Envoy to Switzerland. His mother was a niece of the brave Commodore Barney. Mrs. Harrington, a charming lady, was Miss Rose Callen, daughter of J. F. Callen, one of Washington's most prominent citizens. She has two daughters and three boys, all young.

Another branch in the line of duty and in the social circle of the Marine Corps is made up of the officers and their ladies of the marine garrison stationed at the Naval Arsenal in the vicinity of the barracks. The commander of the garrison, Captain Percival C. Pope, a son of Rear Admiral Pope, is one of the finest officers in the service. Mrs. Pope receives Mondays at the Captain's quarters, Navy-yard, and divides with Mrs. McCawley the social honors of the corps at their quarters. The second in command of the garrison is Lieut. Carlile P. Porter, the handsome six-foot-one son of Admiral Porter. The Porters, men and women, are all fine specimens of the human race and add all its social qualities and gallantry. The Lieutenant's wife was Miss Carrie Capron, daughter of that heroic old soldier, Capt. Capron, who fell in Mexico while in command of a battery of United States artillery in action in one of the series of desperate encounters against great odds on the march from Vera Cruz to the City of the Montezumas. Mrs. Porter is a beautiful blonde, tall and slender, with charming manners and excellent taste in dress.

Lieut. Frank L. Denny, son of Judge Denny, of Indianapolis, and nephew of Admiral Davis, is another of the popular officers. Mrs. Denny is the bride of the corps this season, her wedding having occurred in September. She was Miss Julia Palmer, daughter of Gen. Innis Palmer, one of the Army's best officers. She was a great belle and a universal favorite. Her marriage, while a great happiness to Lieut. Denny, was an irreparable loss to a bevy of some of the most charming young ladies in Washington society.

Lieut. Howard K. Gilman, the junior of the garrison officers, is still in the list of good catches. He is not only another of the universally handsome officers of the corps, but he is the author of several works on military subjects, notably "Naval Brigade and Operations Ashore." He is the son of Col. Gilman, of the Commissary Department of the Army.

Dr. Andrew M. Moore, surgeon in the Navy, who is on duty at the barracks, is a New Yorker appointed from Tennessee. He is an adept in chirurgical art and an expert in military physic, which has given him great popularity among the men. In society he and his estimable wife, a Tennesseean, are among the interesting figures of the Navy and Marine Corps circles.

The Marine Corps is the oldest, the smallest, the best uniformed and equipped and most artistically drilled branch of the fighting wing of the Government. It is the land and police force of the Navy and gives eclat to the ceremonial occasions of admirals of fleets and commanders of ships in foreign waters or at home.

THE NEW FIELD CARRIAGE.

THE pamphlet copies of the annual report of the Chief of Ordnance of the Army, now being issued, contains the following information regarding the new carriage for the 3.2-inch guns, which has been added since the report was made to the Secretary of War:

The carriage is of simple, not compound construction, and is made of mild steel—the cheek plates being double, with curved flanges above and below. It is fitted with the spring brakes for checking recoil and the flanged axle for securing stiffness that have been already successfully tested in a previous carriage. The new carriage weighs only 1,300 pounds, and is graceful in its outlines. It was tested by firing 500 rounds from the 3.2-in. steel field gun, of less than 800 pounds weight, using charges of 3¾ pounds, with a projectile of 13 pounds, having a velocity of over 1,700 feet. During the firing, the carriage rested on elastic planks, in heavy sand, and various angles of elevation up to the maximum were used, and charges that gave over 35,000 pounds pressure per square inch of chamber, and it has come out of this severe ordeal in almost perfect condition. This carriage, with its accessories, was designed by Lieut.-Col. Buffington, of the Ordnance Department, and the Department has now placed the manufacture of the 25 carriages for issue with the new steel field guns, in Colonel Buffington's hands, at the National Armory.

The Ordnance Department of the Army has invited proposals for the manufacture of a 12-inch breech-loading rifled mortar. Bids are invited for the manufacture only, as the rough finished cast iron body, steel forgings for all the hoops, and for principal parts of breech mechanism will be furnished by the Ordnance Department. The body for the mortar was cast at the South Boston Iron Works and is now about ready for the hoops. The hoops and forgings for breech mechanism are being made at the Midvale Steel Works. The new mortar will be similar to the muzzle-loading mortar experimented with during the past summer at Sandy Hook, except as to such details adapted to breech-loading systems. The breech mechanism will be of the slotted screw, with DeBange gas check system, and the purpose is to obtain greater accuracy in firing. The bids will be opened Dec. 29.

SUPERINTENDENTS OF NATIONAL CEMETERIES.

THE following is a list of superintendents of National Cemeteries and their post-office addresses:

Alexandria, La., R. C. Taylor, P. O. address, Pineville, La.
Alexandria, Va., Joshua V. Davis, Alexandria, Va.
Andersonville, Ga., J. M. Bryant, Andersonville, Ga.
Annapolis, Md., Michael Donohoe (actg.), Annapolis, Md.
Antietam, Md., W. A. Donaldson, Sharpsburg, Md.
Arlington, Va., John A. Commerford, W. Washington, D.C.
Barrancas, Fla., James H. Smith, Warrington, Fla.
Baton Rouge, La., Charles F. Eichwurzel, Baton Rouge, La

THE ARMY.

NOMINATIONS TO THE SENATE.

2d Cavalry.—2d Lieut. Frederick D. Holton to be 1st lieutenant Dec. 12, 1886, vice O'Brien, deceased.

4th Infantry.—2d Lieut. F. S. Calhoun to be 1st lieutenant Dec. 3, 1886, vice Austin, deceased.

22d Infantry.—2d Lieut. Robt. N. Getty to be 1st lieutenant Dec. 17, 1886, vice Campbell, deceased.

19th Infantry.—1st Lieut. Charles A. Vernon to be captain Dec. 18, 1886, vice Wharton, retired. 2d Lieut. Edward B. Ives to be 1st lieutenant, Dec. 18, 1886, vice Vernon, promoted.

G. O. 88, H. Q. A., Dec. 14, 1886.

By direction of the Secretary of War, par. 2310 of the Regulations is amended to read as follows:

2310. Medical officers in charge of post hospitals or dispensaries are strictly forbidden to use, or permit to be used, the medicines and hospital stores intended for the use of the Army for any purpose not provided for by law or regulation; nor to issue the same to any persons not entitled by law to receive them; nor will hospital bedding or other medical property at military posts and stations be used under any circumstances, for other than hospital purposes and within the hospital to which it has been supplied. Inspectors will report every instance of violation of this regulation.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 93, H. Q. A., Dec. 17, 1886.

By direction of the Secretary of War, the following is published for the information of all concerned:

The repair of the rifle, carbine, and shotgun, by reason of accidents in firing and the breaking of any of the following parts, should be made at the National Armory: and hereafter the following parts, for reasons stated opposite them, will not be issued separately, viz.:

Rear sight fixed base. Rear sight movable base. Windage screw. Windage screw-head. Windage screw-head pin. Base complete. Rear sight leaf. Leaf slide Leaf slide binding screw. Leaf slide stop pin. Leaf complete. Rear sight joint pin. Movable base spring.	The rear sight (to perform its functions and have that efficiency and serviceability demanded by the necessities of the service) can only be perfectly assembled and adjusted by instructed workmen where the *special* machinery for its manufacture exists. When any part of a rear sight is injured, except the front and rear base screws, the whole sight must be returned and requisition made for a new *rear sight complete.*
Hinge pin stud.	This is a minute piece of wire and a permanent part of the hinge pin (put in at the Armory), and is therefore not issuable separately.
Barrel (and receiver). Cam latch. Breech block cap. Thumb piece. Cam latch complete. Breech block complete. Breech screw.	The breech screw, breech block, and receiver are case-hardened. Case-hardening shortens, lengthens, or otherwise changes these parts, and these, in connection with the cam latch, govern the "head space" and the seating of the cam. To have this properly done and insure safety and efficiency the work must be done at the Armory by experts.
Upper band sling swivel. Upper band stacking swivel. Upper band swivel pin.	The two swivels are put into the band as perfectly straight pieces of wire, and are riveted with the swivel pin—the bending being done afterward with special machinery and expert workmen. When either of these swivels are rendered unserviceable the whole upper band must be returned and requisition made for a new *upper band complete.*

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 36, DEPT. OF TEXAS, Dec, 14. 1886.

The target practice season for 1887, will be as follows:

Fort Brown—April 1 to June 30, and Sept. 1 to Sept. 30.
Fort Clark—March 1 to June 30.
Fort Concho—March 1 to June 30.
Fort Davis—June 1 to September 30.
Camp Del Rio—March 1 to June 30.
Fort Hancock—March 1 to April 30, and Aug. 15 to Oct. 14.
Fort McIntosh—March 1 to June 30.
Camp Pena Colorado—April 1 to June 30, and Oct. 1 to October 31.
Fort Ringgold—January 1 to April 30.
Post of San Antonio—May 15 to September 14.
Camp Eagle Pass—January 1 to April 30.

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

Leave for fourteen days is granted Major Samuel Breck, A. A. G., Omaha, Neb. (S. O. 164, Dec. 15, D. Platte.)

Quartermasters and Subsistence Departments.

Col. Alexander J. Perry, A. Q. M. G., will proceed to Monterey, Cal., on public business (S. O. 122, Dec. 10, D. Cal.)

Capt. Wm. S. Patten, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 216, Dec. 10, D. Columbia).

Leave for twenty days is granted Major Almon F. Rockwell, Q. M., Saint Paul, to take effect about Dec. 16 (S. O., Dec. 14, D. Dakota).

Capt. G. E. Pond, A. Q. M., Fort Riley, will repair to Fort Leavenworth on public business (S. O. 146, Dec. 16, Dept. Mo.)

Major G. B. Dandy, Chief Q. M., will proceed to Fort Robinson, Neb., on public business (S. O. 164, Dec. 15, D. Platte).

Superintendent Lucien B. Gould will proceed to Mobile, Ala., and assume charge of the National Cemetery, relieving Supt. Eugene L. Grant, who will proceed to Annapolis, Md., and assume charge of the National Cemetery there (Q. M. G. O., Dec. 15).

Capt. Charles A. Woodruff, Chief C. of S., will proceed to Portland, Ore., on public business (S. O. 214, Dec. 8, D. Columbia).

Leave for ten days, from Dec. 20, is granted Major Thomas C. Sullivan, C. S. (S. O., Dec. 18, H. Q. A.)

Pay Department.

Leave for one month, to take effect Dec. 16, is granted Major J. P. Baker, Paymr. (S. O. 145, Dec. 14, Dept. Mo.)

Major Thaddeus H. Stanton, Paymr., Salt Lake City, will report at Dept. H. Q., for temporary duty (S. O. 163, Dec. 13, D. Platte).

Leave for sixteen days, to take effect about Dec. 16, is granted Major Charles M. Terrell, Chief Paymaster (S. O. 163, Dec. 13, D. Platte).

Medical Department.

Upon the recommendation of the Medical Director of the Dept., 1st Lieut. Adrian S. Polhemus, asst. surg., will proceed to Fort Gaston, Cal., and report to the C. O. of that post for duty as post surgeon, relieving 1st Lieut. Henry L. Raymond, asst. surg., who will proceed to Angel Island, Cal., for duty (S. O., Dec. 13, D. Cal.)

The leave granted Capt. John DeB. W. Gardiner, asst. surg., Newport Barracks, Ky., is extended seven days (S. O. 210, Dec. 20, Div. Atlantic).

Capt. J. V. Lauderdale, asst. surg., Fort Concho, Tex., will proceed to Fort Clark, Tex., and report for duty (S. O. 174, Dec. 16, D. Texas).

The leave granted Major Charles L. Heizmann, surgeon, Fort Ontario, N. Y., is extended five days (S. O. 211, Dec. 21, Div. Atlantic).

1st Lieut. R. R. Ball, asst. surg., will proceed to Fort Riley, and report for duty (S. O. 144, Dec. 13, Dept. Mo.)

A. A. Surg. A. C. Van Duyn will return to Leavenworth (S. O. 144, Dec. 13 Dept. Mo.)

Asst. Surg. C. L. G. Anderson is assigned temporarily to duty at Whipple Barracks (S. O. 132, Dec. 7, D. Ariz.)

Engineers and Ordnance Departments.

Major Jared A. Smith, C. E., ordered from Portland, Me., to Fort Knox, Me, on public business (S. O., Dec. 22, H. Q. A.)

A Board of Officers to consist of Major Wm. A. Jones, Capt. Charles F. Powell and 1st Lieut. Edwd. Burr, will assemble at Portland, Ore., and report upon the question of the construction of a bridge across the Willamette River at Portland, Ore. A Board of Officers, consisting of of Col. Henry L. Abbot, Major Alexander Mackenzie, Major Alexander M. Miller and Capt. Ernest H. Ruffner, will assemble at St. Louis, Mo., to investigate upon the character of the bridge to be constructed across the Mississippi River at that place (S. O. 195, Dec. 16, C. E.)

Lieut. Col. John W. Barlow, C. E., will proceed to Bunker Hill Shoals of the Hiawassee River, Tenn., via Charleston, Tenn., on duty connected with works under his charge, and return, on completion thereof, to his station at Chattanooga, Tenn. (S. O. 195, Dec. 16, C. E.)

Capt. Wm. T. Rossell, C. E., will proceed to Vicksburg, Miss., and Wilson's Point, La., on duty connected with works under his charge, and return, on completion thereof, to his station at Memphis, Tenn. (S. O. 196, Dec. 18, C. E.)

Capt. Wm. T. Rossell will proceed to Leland Landing, Ark., on duty connected with works under his charge, and return, on completion thereof, to his station at Memphis, Tenn. (S. O. 196, Dec. 18, C. E.)

Major Jared A. Smith, C. E., will proceed to Dover and Portsmouth, N. H., on duty connected with works under his charge, and return, on completion thereof, to his station at Portland, Me. (S. O. 197, Dec. 20, C. E.)

Capt. Charles F. Powell will proceed to Empire City, Myrtle Point, Coquille City, and Bandon, Ore., on duty connected with works under his charge (S. O. 198, Dec. 22, C. E.)

Capt. Charles F. Powell will proceed to Point Adams, Ore., and Cape Disappointment, Wash., on duty connected with works under his charge (S. O. 198, Dec. 22, C. E.)

Capt. Charles F. Powell will proceed to Cascade Locks, Ore., on duty connected with works under his charge (S. O. 198, Dec. 22, C. E.)

Capt. Wm. H. Bixby, C. E., will proceed to Fort Macon, N. C., on public business (S. O., Dec. 17, H. Q. A.)

Capt. Clinton B. Sears, C. E., will, in addition to his present duties, relieve Capt. Dan C. Kingman, C. E., of the charge of the construction and improvement of roads and bridges in the Yellowstone National Park (S. O., Dec. 17, H. Q. A.)

Major Charles W. Raymond, C. E., is assigned to duty in charge of the 1st and 2d Divisions in the Office of the Chief of Engineers (G. O. 8, Dec. 7, C. E.)

Capt. John G. Butler, O. D., ordered from Springfield, Mass., to Hartford, Conn., to inspect revolvers being manufactured for Ord. Dept. (S. O., Dec. 22, H. Q. A.)

First Lieutenant Frank E. Hobbs, Ordnance Department, is ordered from Philadelphia to Washington on public business connected with O. D.

Chaplains.

Post Chaplain Wm. H. Pearson is relieved from duty at Whipple Barracks, A. T., and will proceed to Alcatraz Island, Cal., for duty (S. O. 106, Dec. 8, Div. Pacific).

Post Chaplain D. Crocker, relieved from duty at St. Louis, in connection with the subject of education in the Army, and ordered to Detroit to await retirement. Post Chaplain George Robinson ordered to that duty at St. Louis (S. O., Dec. 22, H. Q. A.)

Signal Corps.

2d Lieut. Joseph E. Maxfield, Signal Corps, is relieved from duty at Washington, to enable him to comply with S. O. 287, A. G. O. (S. O. 131 Dec. 15, Sig. Office.)

THE LINE.

Changes of Stations of Troops and Field Officers

Ordered, as reported to the Adjutant-General's Office during the week ending December 18, 1886:

FIELD OFFICERS.

Col. Edward Hatch, 9th Cav., to Fort Du Chesne, Utah.

Lieut.-Col. J. K. Mizner, 8th Cav., to Fort Brown, Texas.

Lieut. Col. J. C. Bates, 10th Inf., to Fort Wingate, New Mexico.

Major J. F. Randlett, 9th Cav., to Fort McKinney, Wyoming.

Major E. J. Spaulding, 4th Cav., to Fort McDowell, Arizona.

Major A. M. Randol, 1st Art., to San Francisco, Cal.

Major W. F. Drum, 14th Inf., to Los Angeles, Cal.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

Leave for one month, with permission to apply for an extension of one month, is granted Col. N. A. M. Dudley, Fort Custer, M. T., to take effect about Dec. 26 (S. O. 128, Dec. 14, D. Dak.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Leave for fifteen days, to take effect about Jan. 10, 1887, is granted 2d Lieut. Robert E. L. Michie, Boise Barracks (S. O. 214, Dec. 8, D. Columbia.)

1st Lieut. Henry C. La Point is detailed as recruiting officer at Fort Bidwell, Cal., vice Capt. Colon Augur, relieved (S. O. 123, Dec. 13, D. Cal.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. J. O. Mackay, Camp Pena Colorado (S. O. 173, Dec. 13, D. Tex.)

Capt. Peter D. Vroom, recruiting officer, Jersey City, N. J., will order a member of his recruiting party to proceed to 56 West street, New York City, and report to 1st Lieut. Homer W. Wheeler, 5th Cav., recruiting officer, for duty (S. O. 177, Dec. 16, R. S.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

Major E. J. Spaulding is relieved from duty at Fort Huachuca and will proceed to Fort McDowell and take station (S. O. 133, Dec. 10, D. Ariz.)

1st Lieut. Fred Wheeler is appointed recruiting officer at Fort Lowell, A. T. (S. O. 133, Dec. 10, D. Ariz.)

Leave for two months, to take effect Dec. 22, is granted Major Eugene B. Beaumont (S. O. 106, Dec. 8, Div. P.)

Before a G. C.-M. at Fort Lowell, A. T., of which Col. A. V. Kautz, 8th Inf., was president, was tried 1st Lieut. D. N. McDonald, 4th Cav. Charge I.—"Drunkenness on duty." Spec. 1—"In that, being in command of Troop M, 4th Cav., in the field, and operating against hostile Indians, he was so drunk as to be utterly unfit to command his troop and necessitated his being placed in arrest by Lieut. W. E. Wilder, 4th Cav., his commanding officer. This while on the march in the Republic of Mexico, between Fronteras and Black Water, on or about Aug. 24, 1886." Spec. 2—"In that, being on duty as officer of the day at Fort Bowie, Sept. 7, 1886, he did become so much under the influence of liquor as to be unfit to properly perform his duty." Charge II.—"Violation of the 21st Article of War." Spec. 1—"In that, being officer of the day at Fort Bowie, A. T., Sept. 7, 1886, and having been directed by the post commander to remain at the adjutant's office, when not visiting the guard and picket posts, or to go to his meals, did wilfully disobey such order and proceeded to his quarters, where he was found asleep." Spec. 2—"In that, being on duty as officer of the day, Sept. 7, 1886, and having been directed by his post commander to personally superintend the posting of seven picket posts, surrounding the post, to guard hostile Indians, did neglect to obey such order, but directed Sergt. Charles Farson, Troop G, 4th Cav., of the picket guard, to place the posts." Plea.—"Not Guilty." Findings.—"Not Guilty." "And the court does therefore acquit him." In the foregoing case it is plain from the evidence that the accused was, at the times charged, considerably under the influence of liquor and that his misunderstanding of orders was undoubtedly due to this fact. The court, however, must have come to its conclusions because the degree of inebriation did not, in its judgment, amount to drunkenness. Giving this benefit to the accused, and rejoicing in his previous excellent military record, the reviewing officer concurs with the court. He indulges in the hope that the lesson of this trial may be the means of stopping forever the inexcusable habit which has come so near being fatal to his standing as an officer. The proceedings, findings, and acquittal are approved, and Lieut. McDonald will be released from arrest.

By command of Major-General Howard:
M. BARBER, Assistant Adjutant-General.
(G. C.-M. O. 66, Dec. 2, D. Ariz.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Leave for fifteen days is granted 1st Lieut. C. H. Watts (S. O. 144, Dec. 13, Dept. M.)

Leave for one month is granted 1st Lieut. G. H. Paddock (S. O. 146, Dec. 16, Dept. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

Leave for two months is granted 1st Lieut. Charles B. Gatewood, with permission to apply for an extension of two months (S. O. 106, Dec. 8, Div. P.)

Leave for two months is granted 2d Lieut. Frederick G. Hodgson, with permission to apply for an extension of two months (S. O. 107, Dec. 10, Div. P.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Leave for three months on Surgeon's certificate is granted Capt. George D. Wallace (S. O., Dec. 16, H. Q. A.)

A furlough for four months is granted Sergt. John Dolan, Troop L (S. O. 191, Dec. 17, Div. M.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Gen. Stanley says: "The 8th Cavalry has been in Texas, and in the warmest part of Texas, for eleven years, and although I would not decry the climate, which for nine months in the year I believe to be one of the finest in the world, there is no doubt but long continuous residence without change enervates the system, and makes a change for all persons beneficial."

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. George R. Burnett, Fort Du Chesne, Utah (S. O. 162, Dec. 11, D. Platte.)

Leave for fifteen days is granted 1st Lieut. Matthias W. Day, Fort Niobrara, Neb. (S. O. 103, Dec. 13, D. Platte.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

2d Lieut. P. H. Clarke is appointed recruiting officer at Fort Grant, A. T., relieving 1st Lieut. S. L. Woodward, Adjt. (S. O. 133, Dec. 10, D. Ariz.)

Leave for six months, with permission to go beyond sea, to take effect between Jan. 1 and 15, 1887, is granted 2d Lieut. William E. Shipp (S. O., Dec. 17, H. Q. A.)

The extension of leave granted 1st Lieut. John Bigelow, Jr., is further extended one month (S. O., Dec. 18, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

In accordance with a recommendation of his attending surgeon and of the Medical Directors of the Dept. of Columbia and of the Div. of Pacific, the station of Major Alanson M. Randol is changed from Fort Canby, W. T., to San Francisco, Cal. (S. O. 107, Dec. 10, Div. P.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

During the temporary absence of 1st Lieut. Thos. L. Casey, Jr., Corps of Engrs., 2d Lieut. Edwin St. J. Greble, 2d Art., A. D. C., will take charge of and perform the duties of his office (S. O. 107, Dec. 10, Div. P.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

Having completed the duty assigned them, Sergt. Felix Luschinger and Pvt. Charles Revey, Bat. D, will return to Fort McHenry, Md. (S. O. 211, Dec. 21, Div. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

Leave for twelve days is granted 1st Lieut. John A. Lundeen, Fort Warren, Mass. (S. O. 209, Dec. 18, Div. A.)

1st Lieut. Montgomery M. Macomb will proceed to Fort Monroe, Va., and report to the commander of the Artillery School for special duty (S. O. 209, Dec. 18, Div. A.)

2d Lieut. Walter N. P. Darrow will proceed to Fort Preble, Me., and report for temporary duty during the absence of 1st Lieut. Montgomery M. Macomb at Fort Monroe, Va., on special service (S. O. 210, Dec. 20, Div. A.)

A despatch of Dec. 21, from Newport, R. I., says: "Sergt. Walker, 4th Art., stationed at Fort Adams, shot himself this afternoon, and will probably die. It is believed that the act was committed during an attack of temporary insanity. Sergt. Walker is an excellent soldier."

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

Leave for three months, to take effect as soon after Jan. 1, 1887, as his services can be spared by his post commander, is granted 1st Lieut. Garland N. Whistler (S. O., Dec. 20, H. Q. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.; I, San Diego Bks., Cal.

Leave for seven days, from Dec. 29, is granted 1st Lieut. John J. O'Connell, recruiting officer (S. O., Dec. 20, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

A furlough for four months is granted Sergt. Charles E. Van Sickle, Co. I (S. O. 190, Dec. 16, Div. M.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

We are indebted to Sergt.-Major James Davis for a neat roster of non-commissioned officers, 4th U. S. Infantry, dated December, 1886. There are some veterans on the list, the warrants of a few dating back as far as 1872. 1st Sergt. Henry Osborn, of Co. K, has held that position since Aug. 17, 1876. We should like to see every regiment print, periodically, a similar roster.

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

1st Lieut. A. M. Wetherill is relieved as a member of the G. C.-M. at Fort Leavenworth (S. O. 142, Dec. 10, Dept. M.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

1st Lieut. J. McE. Hyde, Adjt., is relieved as recruiting officer at Fort Lowell, A. T. (S. O. 133, Dec. 10, D. Ariz.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Lieut.-Col. Isaac D. De Russy is announced as Inspector of Rifle Practice of the Dept. of California and Div. of Pacific (G. O. 21, Dec. 11, Div. P.)

A furlough for three months is granted 1st Sergt. Irving Ward, Co. B (S. O. 213, Dec. 6, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

By direction of the President the remainder of the sentence of Capt. Chambers McKibbin (G. C.-M. O. 63, 1883, A. G. O.), and which still remains unexecuted, is remitted, and Capt. McKibbin is restored to his place in the lineal rank of captains according to the date of his commission and as held by him prior to his said conviction and sentence (S. O., Dec. 17, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

Capt. John S. Wharton, having been found by an Army Retiring Board incapacitated for active service, on account of disability incident to the service, is retired from active service this date, in conformity with sec. 1251, R. S. (S. O., Dec. 18, H. Q. A.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The leave for one month granted 2d Lieut. Lawrence J. Hearn is extended one month (S. O. 192, Dec. 20, Div. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

The leave on Surgeon's certificate granted Capt. Gaines Lawson is extended four months on Surgeon's certificate (S. O., Dec. 20, H. Q. A.)

The C. O. Fort Snelling will grant a furlough for two months to Sergt. Joseph Pendleton, Co. I (S. O. 127, Dec. 9, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, December 18, 1886.

RETIREMENT.

Captain John S. Wharton, 19th Infantry, December 18, 1886 (section 1251, Revised Statutes).

CASUALTIES.

1st Lieutenant Alonzo L. O'Brien, 2d Cavalry, died December 12, 1886, at Weston, West Virginia.

1st Lieutenant Albert Austin, 14th Infantry, died December 3, 1886, at Vancouver Barracks, Washington Territory.

1st Lieutenant William J. Campbell, 22d Infantry, died December 17, 1886, at Albany, New York.

1st Lieutenant David B. Taylor (retired), died December 12, 1886, at Paterson, New Jersey.

Courts-martial.

The following courts have been ordered:

At Fort Douglas, Utah, Dec. 21. Detail: Major William J. Lyster and Capt. James W. Powell, Jr., 6th Inf.; Capt. David H. Kinzie, 5th Art.; Capts. Stephen Baker, Jacob F. Munson, William Badger, and Frederick W. Thibaut, and 1st Lieut. David L. Craft, 6th Inf.; 1st Lieut. James C. Bush, 5th Art.; 1st Lieut. Robert R. Stevens, 2d Lieuts. Charles G. Morton, Elmore F. Taggart, and William P. Burnham, 6th Inf., and 1st Lieut. Zerah W. Torrey, 6th Inf., J.-A. (S. O. 163, Dec. 13, D. Platte.)

At Fort Bridger, Wyo., Dec. 23. Detail: Major John N. Andrews, 21st Inf.; Capts. William S. Worth and Clarence M. Bailey, 8th Inf.; Capt. Henry S. Howe, 17th Inf.; Capt. Louis W. Crampton, Asst. Surg.; 1st Lieut. Edward S. Farrow, 21st Inf.; 2d Lieut. Edgar Hubert, 8th Inf.; 2d Lieut. William H. Camp, 17th Inf.; 2d Lieut. Charles G. Dwyer, 21st Inf.; 2d Lieut. Frank Owen, 8th Inf., and 1st Lieut. William H. McMinn, 8th Inf., J.-A. (S. O. 164, Dec. 15, D. Platte.)

At Fort Walla Walla, W. T., Dec. 16. Detail: Col. Nelson B. Sweitzer, 2d Cav.; Major John B. Keefer, Paym.; Capt. Tully McCrea, 1st Art.; Capt. Daniel W. Burke, 14th Inf.; Capt. James N. Wheelan, 2d Cav.; Capt. Gerhard L. Luhn, 4th Inf.; Capts. Eli L. Huggins, William C. Rawolle, and Samuel M. Swigert, 2d Cav.; Capt. Butler D. Price, 4th Inf.; 1st Lieut. Frank Taylor, 14th Inf.; 1st Lieut. Theodore E. True, 4th Inf.; 2d Lieut. William B. Reynolds, 14th Inf., and 1st Lieut. Curtis B. Hoppin, 2d Cav., J.-A. (S. O. 215, Dec. 9, D. Columbia.)

At Fort Leavenworth, Kas., Dec. 20. Detail: Capt. J. P. Schindel, 6th Inf.; Capt. C. C. C. Carr, 1st Cav.; Capt. C. A. Woodruff, 2d Art.; Capt. Francis Moore, 9th Cav.; Capt. J. B. Babcock, 5th Cav.; 1st Lieut. F. H. Barnhart, 18th Inf.; 1st Lieut. C. H. Watts, 5th Cav.; 2d Lieut. G. F. Barney, 2d Art.; 2d Lieut. C. L. Potter, 5th Cav., and 1st Lieut. R. M. Rogers, 2d Art., J.-A. (S. O. 146, Dec. 16, Dept. M.)

At Jefferson Barracks, Mo., Dec. 23. Detail: Major Samuel S. Sumner, 8th Cav.; Capt. Henry W. Wessells, Jr., 3d Cav.; Capt. Joseph M. Kelley, 10th Cav.; Capt. John Q. Adams, 1st Cav.; 1st Lieut. William Baird, 6th Cav.; 1st Lieut. Philip P. Powell, 9th Cav.; 2d Lieut. William E. Almy, 5th Cav.; 2d Lieut. Francis D. Rucker, 2d Cav., and 1st Lieut. George F. Chase, 3d Cav., J.-A. (S. O., Dec. 18, H. Q. A.)

At Fort Bidwell, Cal., Dec. 17. Detail: Major David S. Gordon, Capt. Colon Augur, and 1st Lieut. Henry C. La Point, 2d Cav.; 1st Lieut. Walter W. R. Fisher, Asst. Surg.; 2d Lieut. John A. Towers, 1st Art.; 2d Lieut. William H. Bean, 2d Cav., and Capt. Joshua L. Fowler, 2d Cav., J.-A. (S. O. 122, Dec. 10, D. Cal.)

The G. C.-M. of which Major Royal T. Frank, 1st Art., is president, at Fort Monroe, Va., will reassemble, Dec. 21, to amend the record in the cases of Privates Lambert and Fidler and Musician Gottert (S. O. 209, Dec. 18, Div. A.)

Army Boards.

A Board of Survey, to consist of 1st Lieut. H. H. C. Dunwoody, 4th Art., A. S. O.; 1st Lieut. Richard E. Thompson, 6th Inf., A. S. O., and 2d Lieut. William D. Wright, Signal Corps, will assemble, Dec. 16, to consider reports as to the old Block Island, Rhode Island, cable, reported as worthless for telegraphic purposes (S. O. 131, Dec. 15, Sig. Office.)

A Board of Survey, to consist of Capt. C. A. Woodruff, 2d Art.; Capt. Francis Moore, 9th Cav., and Capt. J. E. Greer, Ord. Dept., will meet at Fort Leavenworth, Kas., Dec. 16, to fix the responsibility for shortage in a quantity of coal invoiced by Capt. L. E. Campbell, A. Q. M., to 1st Lieut. A. M. Wetherill, 6th Inf., Post Q. M., Fort Leavenworth (S. O. 145, Dec. 14, Dept. M.)

A Board of Survey, to consist of Capt. Charles Morris, 1st Lieut. Benj. K. Roberts, and 2d Lieut. Avery D. Andrews, 5th Art., will meet at Fort Columbus, N. Y. H., Dec. 22, to fix the responsibility for the loss of one sharpshooter's badge and three marksman's pins, for which 1st Lieut. Samuel E. Allen, 5th Art., is responsible (S. O. 211, Dec. 21, Div. A.)

A Board of Officers will assemble at the Presidio of San Francisco, Cal., Dec. 21, to critically examine Corpl. John McCormick, Bat. C, 1st Art., as to his fitness for the position of hospital steward. Detail: Major Henry R. Tilton, Surg., and Capts. John M. Dickson and John J. Cochran, Asst. Surgs. (S. O. 128, Dec. 13, D. Cal.)

Retirements of Enlisted Men.

Ord. Sergt. Michael McMorrow, Dec. 16, 1886.

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The Gros Ventres, Mandan and Arickaree Indians have agreed to cede all their reservation north of the forty-eighth parallel, and also a larger portion of the Territory lying between the Missouri River and Fort Buford Reservation. The Indians agree to take lands in severalty on their diminished reserve.

(Correspondence of the Army and Navy Journal.)

UNITED STATES ARTILLERY SCHOOL.

FORT MONROE, VA., Dec. 21, 1886.

THE weather being calm, sunny and delightful, there is every indication that the approaching festival will be spent joyfully inside and outside this fort. Friends are departing for and others returning to their old homes, to make merry around the old family fireside. Christmas presents are arriving and departing by the different boats; the shop windows here and at Hampton are in their gayest attire, and numbers of earnest Christians are busy all day, and far into the evenings too, decorating our churches for the joyous event.

The officers being allowed fourteen days leave each, many have already departed for different destinations and Christmas greetings, Major Calef and charming wife having selected the Hub for their happy time.

The post loses, with great regret, the services of Dr. Baily, who is justly selected for a higher and more responsible position, and now packing up for Governor's Island. Mrs. Baily has already bade the post and hosts of friends farewell. All hope, unless changed on like promotion, that Dr. Torney's able services will long be spared to the post. Dr. Brooks takes Dr. Baily's place here.

Between garrison hops and dances, theatrical performances at the National Soldiers' Home, and weekly facilities of gratuitously visiting Norfolk, the enlisted men here have pleasant ways of passing their leisure hours.

A temperance lodge is already established, or will be in a few days, which promises well for the cause of temperance, but is the harbinger of evil tidings to the rum interests. Gen. Tidball and the adjutant (Lieut. Miller), with other officers, are offering every encouragement to the abstainer. A spacious hall, with furniture, fixtures, fire and illumination has already been granted to the lodge in which its many members can pass pleasant evenings in various modes of social enjoyment.

The $100,000 to be now expended on our new wharf and the new engine house, to be commenced immediately, will cause the circulation of a good deal of money at Fort Monroe and vicinity for some time to come.

Whether it is owing to the thrift of our people, or that we are taken under the special protection of Providential care, there is, here at least, a total absence of that want and poverty which, at this holy season, make such pitiful appeals to the generosity of the benevolent.

As no other paper can lay claim to so much popularity among us as the JOURNAL, which has so honorably acquitted itself for the last twelve months, we all wish its head and hands a merry Christmas and itself a long and successful career.

B. B.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Dec. 22, 1886.

SIXTY-SIX years ago the past summer (August 4, 1820) the Corps of Cadets struck their camp at Fort Clinton and started for Philadelphia. Of those present as cadets, now living, are Edward G. W. Butler, who was captain; William C. Young, 2d sergeant, 1st company; Edmund Alexander and Hannibal Day, privates in the 2d company; Isaac R. Trimble and Alfred Mordecai, 1st and 2d corporals, respectively, of the 3d company; Alfred Beckley, private, 3d company; George S. Greene, private, 4th company. Of these, General Butler now resides in St. Louis, Mo., and is the oldest living graduate and President of the Alumni Association; Mr. Young lives part of the time in New York City and part in Allegheny Co., New York, where he has a fine stock farm of Holstein cattle; Gens. Alexander and Day are colonels on the retired list of the Army; Gen. Trimble is a farmer near Baltimore; Maj. Mordecai lives in Philadelphia and is an officer of the Pennsylvania Railway Co.; Gen. Alfred Beckley is living in Raleigh Co., West Virginia, and Gen. George S. Green is a distinguished civil engineer in New York.

The corps numbered 198. There was a battalion staff of one captain, one adjutant, one quartermaster, one sergeant-major, one staff sergeant and one quartermaster-sergeant. Each one of the four companies had one captain, two lieutenants, three sergeants, and two corporals; the 1st and 2d companies each had forty privates; the 3d had forty-two and the 4th had thirty-eight. The percentage of cadet officers to privates was smaller in 1820 than for the corresponding period of this year. In 1820 there were thirty-eight officers (including sergeants and corporals) and 160 privates. In August, 1886, there were sixty-four cadet officers (including sergeants and corporals) and 282 privates.

The corps embarked on a sailing vessel, landed on Staten Island the next day, and pitched their tents on the lands of Mr. Tompkins, Vice President of the U. S. The 6th and 7th were spent in camp; on the 8th the corps was taken to New York and had a drill, review and parade in the Battery Park, afterwards taking dinner in Tammany Hall, which was given by Mr. William B. Cozzens; it was 9 o'clock at night before the Camp on Staten Island was reached; the 9th was spent visiting the forts in the harbor and lunching with the Vice President; on the 10th the Navy-yard at Brooklyn was visited, where the cadets were entertained by the officers of two seventy-fours, the Washington and Franklin, returning to camp late at night. The Staten Island camp was broken on the 11th, and embarking on a sailing vessel, New Brunswick, New Jersey, was reached the next morning. On the 14th the corps marched 18 miles to Princeton; the 15th was a stormy day, but the march to Trenton was made. On the 17th the corps marched to Bristol. The next day all embarked on a steamboat and went as far as Bridesburg, where they disembarked and marched to the Schuylkill, where camp was pitched. At Philadelphia the camp was visited by immense crowds. A writer for one of the Philadelphia papers, in referring to the music, says: "The enchanting music from an instrumental band of sixteen musicians, with a leader whose sweet notes on the *Kentish Bugle* still thrill in our ears." The day after arriving the corps was entertained at dinner by the Mayor and other dignitaries. Numerous toasts were drunk and fittingly responded to. It was after 5 o'clock before the company rose from the table.

On the 22d a reluctant farewell was said to Philadelphia, and the corps started for home. At Princeton the students wished to compliment the cadets with a dinner, but the Faculty of the College would not permit it; judging from the communications that were sent by the students, there must have been some very angry and disgusted young men

in that neighborhood. While the cadets were sorry to lose the anticipated good dinner, they nevertheless appreciated the "proposed kindness."

New York was reached August 29; dinner was again served in Tammany Hall, at which the Mayor presided, among the guests being Vice President Tompkins and a number of other distinguished individuals. The same night the corps started on the steamboat *Richmond* for West Point, where a landing was made at 2 o'clock in the morning. The corps was gone nearly a month and marched about 115 miles.

The next trip to Philadelphia was made during the Centennial in 1876, where the corps was received with fully as much enthusiasm as in 1820.

Orders No. 213, issued Tuesday, gives directions as to the semi-annual examination to begin on Monday, Jan. 3, 1887. The Academic Board is divided, as usual, into two committees, the first consisting of Professors Michie, Bass, Winthrop, Mercur and the Instructor of Ordnance and Gunnery; Lieut. Eugene A. Ellis, 8th Cav., secretary. The second committee is Professors Andrews, Larned, Tillman, Postlethwaite, the Commandant of Cadets and the Instructor of Practical Military Engineering, with 2d Lieut. Walter S. Alexander, 4th Art., secretary. The first committee will examine, orally, 4th class in mathematics; 1st class in engineering and law, and by written examination, 1st class in ordnance and gunnery and 2d class in natural and experimental philosophy, at 8 A. M., Jan. 3; 3d class in mathematics, at 8 A. M., Jan. 5. The second committee will examine orally, 3d class in French; 2d class in chemistry; 4th class in English, and by written examination, 1st class in history and 3d class in French, at 8 A. M., Jan. 4; 2d class in tactics, at 8 A. M., Jan. 6.

Cadet Worthington, of the First Class, who has been in the hospital for some time, has gone on sick leave, which will necessitate his joining the next class.

Our only dissipation, since the gayety mentioned last week, was a band concert in the library on Thursday, which was well attended.

The cadets expect to have a hop on New Year's Eve, which will be the first since the close of the summer camp.

Cards are out for the marriage of Capt. M. B. Hughes, 9th Cav., to Miss Katharine Y. Stevens, of Brooklyn. The ceremony will be at the First Presbyterian Church at 8 o'clock, and afterwards a reception will be given from 8.30 to 10 at 85 Willow st. The bride-elect is a sister of Lieut. Stevens, who is the second lieutenant of Capt. Hughes's troop.

The remains of the late Col. Theodore T. S. Laidley, U. S. Army, who died last April at Palatka, Fla., and was buried there, were brought here this afternoon for burial in the Post Cemetery. There was no military display, the body being quietly taken to its final resting place. A few relatives of the deceased and Col. Alfred Mordecai, U. S. A., accompanied the body.

Quite a number of cadets will go on Christmas leave this year. They will have from Friday till Monday morning.

—

Albert Derby Sayer, New Brighton, S. I., N. Y.; C. C. Gidney, Shelby, N. C.; W. F. Eberle (Alt.), Bridgeport, Ohio, and John Adams Bechtel, Newport, Pa., have been designated for examination for admission to the U. S. Military Academy.

—

G. C. M. O. 104, H. Q. A., Dec. 16, 1886.

Before a G. C. M. at West Point, of which Capt. Wm. F. Spurgin, 21st Infantry, was president, was tried Cadet Wm. H. Tidball, 3d class. Charge, Violation of par. 115, Regulations U. S. Military Academy. Specification, That he did officially state to Lieut.-Col. Henry C. Hasbrouck (captain, 4th Artillery), commandant of cadets, that he had not ordered or made New Cadet Le Roy Gregory stand at attention in his, the said Gregory's, room, on the afternoon of Sept. 16, 1886, the said official statement being false. Plead, Not guilty. Finding, Guilty. Sentence, To be dismissed the service of the United States. The proceedings, finding, and sentence having been submitted to the President, the following are his orders:

"EXECUTIVE MANSION, WASHINGTON, Dec. 9, 1886.

"The foregoing proceedings, finding, and sentence in the case of Cadet Wm. H. Tidball, 3d class, U. S. Military Academy, are hereby approved and confirmed.

"GROVER CLEVELAND."

By command of Lieut.-Gen. Sheridan:

R. C. DRUM, Adjt. Gen.

FORT CŒUR D'ALENE, IDAHO.

LAST summer the Secretary of War ordered a court of inquiry at Fort Cœur d'Alene, Idaho, with Col. J. R. Brooke, 3d U. S. Infantry, as president, "to investigate certain irregularities and infractions of the Army Regulations reported as prevalent in the management of affairs at Fort Cœur d'Alene." The facts and opinion rendered by the court were not made public in orders, possibly because the court "in its judgment deemed further proceedings unnecessary." But we find in a Washington special of Dec. 19 to the New York *World* an attempt to revive the old matters, or perhaps inaugurate a new campaign against the post in question. This "special" attacks the post tradership, deeming them "scandal breeders," and says:

Geo. McCabe, a former mail contractor of Idaho Territory, has filed at the War Department a series of extraordinary charges against the post trader at Fort Cœur d'Alene, and in these charges Mr. McCabe includes Gen. Frank Wheaton, the commander of the post; Lieut. S. E. Clark, the post quartermaster, and some others of the officers stationed there. The post tradership at Fort Cœur d'Alene is held by the firm of C. B. King and Co., composed of C. B. King and H. H. Newhall, a former private in the Army. From McCabe's story the following allegations are compiled. He says, in the first place, that this firm is illegally permitted to use the military reservation as a storehouse for their goods. They do business ranging from $75,000 to $100,000 a year. Their store is just outside the reservation as it must be. They do not keep over $1,500 worth of goods at a time, but supply it each day with goods from the warehouse inside the reservation. In this way they escape territorial taxation on anything beyond the small amount of goods representing their daily supply at the store.

Second, these post traders, through their relations with the commander and quartermaster, are said to have extraordinary advantages. On pay days sentinels are put out to prevent the soldiers from going to town to buy anything. They are obliged to remain on the reservation and deal with the post traders. The latter are said to have also the advantage of Government teams and the Government steamer for carrying their freight. They sell liquor on the reservation in violation of the general orders. They have also the agency of the sale of lumber cut from public lands by soldiers and sawed at the Government mills. Affidavits are submitted to prove one or two specific sales of lumber of this kind. One of the most serious of the charges is that the contract for building barracks No. 5, for which Congress appropriated $14,000, was given to these post traders without advertisements for the lowest bidder.

In addition to this, enlisted men were employed on the work. It is charged by Mr. McCabe that the bulk of the work on this barracks was done by private soldiers. He was on friendly terms with the Kings at the time of the building of this barracks and relates an interesting account of an interview with C. B. King, in which McCabe asked him for an explanation of the soldiers doing the work. The answer is given in the following quotation from Mr. McCabe's formal statement: C. B. King remarked, "that is all right, Mack. Old Nobby and I are all right, and that is the way we make money." Old Nobby was the affectionate title of the Post Quartermaster.

McCabe said: "I should think that Capt. Clark would be afraid that he would be exposed,"

"He is afraid, and I have to talk to him once in a while to cool him down. Mack, if I had —— (naming another officer) here as quartermaster I could make $5,000 where I make one now."

Mr. McCabe also charges that the water-works contract was given to the post traders through collusion, and that enlisted soldiers carried out the greater part of the work for which the firm of C. B. King and Co. were paid. He further charges that this firm was permitted to purchase commissary supplies from the Government stores, and that Government coat-oil was peddled throughout the town by an Army Sergeant, who said he had authority to sell the oil from Lieut. C. W. Rowell. Mr. McCabe relates with great circumstantiality and detail Gen. Wheaton's sending a detachment of soldiers to drive off a party of seventy odd miners from claims located by them, and that these claims were afterwards held by the officers of the post.

He had formerly business relations with C. B. King and Co. He claims that they wronged him and he has come to Washington for the purpose of exposing this firm and breaking up the military ring at Fort Cœur d'Alene. Whatever may be his motive, the charges made by him are of a very serious character, and are accompanied by enough support to warrant thorough investigation.

It is easy to file charges at the War Department, and we hope that these will be answered so conclusively that there can be no doubt as to the facts in the mind of anyone. Gen. Wheaton is not an officer whose reputation can be thus lightly assailed.

(Correspondence of the Army and Navy Journal.)

FORT ELLIOTT, TEXAS.

DECEMBER 15.

PURSUANT to a call of Corporal Jacob C. Smith, of Co. F, 24th U. S. Inf., a rousing meeting of the enlisted men of said company was held on the evening of Dec. 15, 1886, for the purpose of expressing contempt at the conduct of Sergt. Chas. Conner and party, two privates, one of Co. B and one of Co. F, 24th Inf., who, while being detailed, armed and provided with proper orders from this post, and en route to Fort Leavenworth, Kas., Military Prison, as guards to two military convicts, did suffer themselves to be disarmed in broad daylight by two unmasked highwaymen on the Fort Worth and Denver Railroad, notwithstanding notice had been given the sergeant and party that the robbers were on the train. The meeting was called to order by Sergt. M. Wilcox, Acting Chairman. Corpl J. C. Smith was appointed Acting Secretary. Sergt. Wm. Wilkes was elected to the Chair. Corpl. J. C. Smith, was elected Secretary. 1st Sergt. Wm. Rose, Pvt. A. L. Lewis and Sergt. John D. Spurling were elected as a committee on resolutions.

The committee offered the following resolutions, which were enthusiastically received:

Resolved, That we, the undersigned members of Co. F, 24th Inf., as a committee of the same, do hereby each and all of us condemn the action of Sergt. Chas. Conner and party, consisting of one private of Co. B and one private of Co. F, of the 24th U. S. Inf., who did suffer the train, through cowardice, to be robbed by three unmasked highwaymen, on which the party were travelling as armed Government passengers.

Resolved, That the cowardly and unsoldierly conduct of Sergt. Conner in allowing himself and party to be disarmed did bring disgrace on himself, his company, regiment, and U. S. Army in general, and shame to the faces of all lovers of the military.

Resolved, That the cowardice of Sergt. Conner was instrumental in bringing about a loss to the taxpayers of this country (to the extent of the losses of that class on board the train at the time of the robbery) whom it should have been, as their servant, his aim to protect, if necessary, with the blood of himself and party.

Resolved, That Sergt. Conner has, in our opinion, belied his warrant as a non-commissioned officer.

Resolved, That as our action is based on the report published in the Fort Worth (Tex.) *Gazette*, a copy of our action be sent to that paper and to the ARMY AND NAVY JOURNAL, and ask that it be published to the world.

WM. ROSE, 1st Sergt. Co. F.
ASIA L. LEWIS, Pvt. Co. F.
JOHN D. SPURLING, Sergt. Co. F. } Committee.

WILLIAM WILKES, Sergt. Co. F, Chairman.
J. CLAY SMITH, Corpl. Co. F, Secretary.

(Correspondence of the Army and Navy Journal.)

FORT CONCHO, TEXAS.

December 10, 1886.

MRS. LIEUT. LEVEN C. ALLEN was "At Home" on the evening of the 9th, and entertained her guests with "Lotto," in a new and interesting form—the ingenious addition being two prizes, as in "progressive euchre," but, without the possible unfairness of that game. The first prize, a handsome copy of Longfellow, was carried off by Doctor Gandy, who persisted, *man*-like, in having the last word (keno) oftener than anyone else.

Mrs. Lieut. George was the lucky lady, and won the second—a lovely bon bon box, filled.

Mrs. Allen's invitations were to all the officers and ladies of the post, except Commanding Officer Col. Blunt and his gracious, cheery little wife, who are in New York City, and who were very much missed on this "auspicious occasion."

Refreshments and a good-morning ended a pleasant evening.

P. S.—I might dilate on the fair proportions and pretty gowns of the ladies, but really I have no time, as Santa Claus is coming, and I must see that the chimney is swept and the stockings darned.

E. J. P.

FORT CRAWFORD, COL.

The Montrose *Register* says:

Last June a year ago the flagstaff at the Cantonment on the Uncompahgre fell down before a fierce blast of wind, and since then, until Nov. 19th, 1886, no flag has waved over the Post. As soon as Colonel Brady assumed command, one of the first improvements he contemplated was the erection of a flagstaff. The unfurling was conducted with due ceremony. Out in the field Col. Brady stood immovable as a statue, every inch a soldier; under the staff Sergt. Blue, the Colonel's orderly, kept his post as firm as the staff itself. Capt. Kelton, in command of Company G, and Captain Hampson, in command of Company K, maintained the dignity of their posts, and down the handsome line of blue, with bayonets glittering in the sunlight, there was not a waver in the line. Post Surgeon Worthington and family formed one group of witnesses. Over on the other side of the parade were other groups. The salute was soon over, and the troops were marched back to their quarters.

Col. Brady is having quarters prepared for Lieut Harry Fletcher, assigned to Co. K, in place of Lieut. Clarke, promoted.

Co. K is rejoicing over a new recruit—Miss Blue, daughter of the Colonel's orderly. Dr. Worthington presided at the grand reception with his usual skill and dignity.

FORT DAVIS, TEXAS, NOTES.

The Presidio County *News* says:

A common recreation these days is hunting. Several of the officers were down the Lympia during the week. Major Clapp is invited by a friend, some distance away, to go out on a bear hunt.

Two deaths occurred Dec. 7 and 8, both of typho-malarial fever—private T. J. Cunningham, 3d Cav. band, and Wm. Colohan, of Troop L, 3d Cav. Each was buried with full military honors.

Measures are being taken to organize a Good Templar lodge in the Post, which promises to be a success.

The concerts and other performances of the 3d Cavalry regimental band evince a high order of talent and training. The chief musician, C. W. Bessey, since his appointment has done a large amount of hard work and study, and his success justifies the excellent judgment of the Post Commander.

Drs. Gardner and Tesson, not long since surgeons here, and highly esteemed for their medical skill and gentlemanly qualities, are both in the East, and each enjoying a four months' leave.

Lieut. F. H. Hardie left this week on a four months' leave.

Lieut. Jas. S. Allen, Troop L, 3d Cav., left yesterday on a four months' leave.

Captain J. F. Simpson has applied for a leave on account of disability, to which he is clearly entitled, and which will doubtless be granted him.

ARIZONA GRATEFUL TO GEN. MILES.

The Arizona Cattlemen's Association, in convention at Tucson, Dec. 15, adopted the following:

Resolved, That the attempt of the Secretary of War and the General of the Army to belittle the services of General Miles to the people of Arizona is a reflection upon the wise Indian policy of President Cleveland and an outrage upon the people of the Territory, for the following reasons: 1st. Because the citizens of Arizona never demanded the lives of the Apache Indians, but did seek to have these savages removed from the Territory as the only guarantee against future atrocities. 2d. We never demanded the unconditional surrender of Geronimo nor the farce of a trial by our civil tribunals, because we knew it would be impossible under the laws of the Territory to procure an impartial jury. 3d. Because it would have been impossible to have secured sufficient evidence, positive or circumstantial, to have warranted the conviction of the Indians. Their conviction, therefore, if secured, would have been judicial murder and a deep reproach upon the Territory, while their acquittal would have resulted as a still more disagreeable tragedy, as our people, the surviving kinsmen of countless victims to Apache fury, then on the verge of a revolution against the Government of our country, would never have permitted Geronimo and his followers to have been returned to a reservation in our midst, a standing menace against which we have been battling for years. Finally, we did not insist upon an unconditional surrender, because it would have required years to have destroyed Geronimo and his tribe, involving a sacrifice of life appalling to all persons except the Secretary of War, General of the Army, and the horde of thieving contractors who grew fat upon the harvest of death which Geronimo was reaping in our homes.

Resolved, That neither malice nor envy in high places can lessen the achievements of General Miles, his officers and soldiers, nor imperil his claim to the lasting gratitude of our people for the prompt removal of these fiends from our Territory, extra official though the act may have been; and we citizens of the frontier, whose wives and children lived in mortal terror of their lives till General Miles came to the rescue of our defenceless families, note with pleasure the fact that the President of the United States, in his Message to Congress, appropriately recognizes the distinguished services which General Nelson A. Miles has rendered to the people of Arizona.

COURT MARTIAL CASES.

In the case of Private Chas. Todd, Co. D, 19th Infantry, recently tried at Fort Ringgold, Texas, for absence from guard mounting, drunkenness, etc., the reviewing authority, Gen. D. S. Stanley, states that the authenticated record of previous trials and convictions were transmitted with the charges, but were not returned with the record of the proceedings, which contained no reference to them, the J. A. reporting that the court refused to hear them read and directed that no notice of this matter be recorded in the proceedings. Of this Gen. Stanley says: "Owing to the impracticability of reconvening the Court-martial, as the members were from different posts, the proceedings were then referred to the president of the Court-martial to ascertain the causes that led to the remarkable action of the Court martial, but he was unable to 'state the motives that induced the court's action.' The provisions of A. R. 894½ are plain and explicit, and easily understood. A. R. 914 provides that a Court-martial shall keep a complete and accurate record of its proceedings. G. O. No. 11, D. T., 1880, states what shall constitute a complete and accurate record by specifying that all orders, motions, and rulings of the court; all motions, propositions, objections, arguments, and statements of accused and judge advocate; everything done or said in open court by parties to the trial, shall be spread on the record. The motives that governed the Court-martial in not following the provisions of A. R. 894½, can only be surmised, but that they were neither valid nor sensible is evinced by its desire to conceal its action in ordering the judge advocate to forward an incomplete and improper record of the proceedings to Department Headquarters. It it not thought necessary to take further notice of this action of the court in causing to be forwarded an improper record, as it is not believed that the exigencies of the service will ever render it necessary to call together another court with such ideas of duty. The proceedings are disapproved. Private Todd will be returned to duty. (G. C. M. O. 70, Dept. Texas, 1886.)

MILITARY ACADEMY APPROPRIATIONS.

THE Military Academy Appropriation bill was reported to the House from the Military Committee on Tuesday. The provisions are thus explained in Gen. Wheeler's report upon it:

The items of the bill, excepting those which are classified under the head of "Public Works," do not differ very materially from those for '86-7. There is an increase of $115.26 in the pay of the eight professors; a decrease of $858.37 for additional pay of professors and officers (on increased rank) for length of service; a decrease of $1,300 for fuel and apparatus; also a decrease of $75 for the Department of Mathematics. The item of $500 for purchase of bedding and necessary articles for use of candidates previous to their admission, etc., is omitted.

An item of $14,000 is recommended for the erection of 16 sets of quarters for enlisted men and their their families, to be built of brick, and in sets of

four each, each set to contain four rooms, and to be immediately available.

Seventy thousand dollars is recommended for remodelling and rebuilding the academic building, putting an additional story thereon and rendering it fire proof and suitable for section rooms for instruction of cadets. The sum of $11,500 is recommended for the erection of new shops for mechanics employed in the Q. M. Department, to be immediately available; $1,150 for repairs to north wharf.

The entire estimate for the Academy is $483,258.63, and the total of the bill just reported $383 336.93, of which amount $98.170 is under the head of public works, and is in the nature of new and permanent improvements. The appropriation for the current year is $297,805.

THE MESS.

The following is told of an English naval officer, Capt. Hawser, of the *Vesuvius*. Hawser was a tremendous fellow for grog. When they arrived in the West Indies, this indulgence brought on a fever, and Hawser only just escaped with his life. The doctor totally inhibited the use of rum and brandy, but told him, when he found himself in a cold climate he might take them moderately. Shortly after they returned to England, the *Vesuvius* was ordered to the Baltic, and Hawser resumed the grog, so long discontinued. He daily asked to have it increased in strength as they proceeded on their way, and, by the time they reached the Baltic, it was considerably more than half and half. The further he sailed the stronger it became, until at last there was scarcely any water in the composition. The invariable order given to the steward was "further North," which meant "mix it stiffer still." One day the steward was sternly ordered to make it "further North." "I can't, sir," he replied, "*you have been due North for three days.*"

—

Eighty years ago Gen. England was commander of the garrison of Portsmouth, Eng. He was a very tall man, and proportionately broad, with no little abdominal protuberance; in short, one of the largest of the male species. It is told by his aide-de-camp that on his introduction to the Duke of York (on his return from some duty abroad), as soon as he had turned his back, and was out of hearing, His Royal Highness said in a low tone to the officer near him, "England! *Great Britain by G—!*"

—

The Czar.—"Brother Jonathan, do you know anything about the Standard Oil Company?"

Brother Jonathan—"I should say I did. Why?"

"They have been buying land and wells over here."

"They have? Have they made you an offer for your throne yet?"

"Oh, no."

"Haven't they hinted that you could make money by selling out now and retiring to private life, instead of waiting until they squeeze you out?"

"Not a word."

"It's some other company, then."—*Omaha World.*

—

"A country parson," in encountering a storm the past season in the voyage across the Atlantic, was reminded of the following:

A clergyman was so unfortunate as to be caught in a severe gale in the voyage out. The water was exceedingly rough, and the ship persistently buried her nose in the sea. The rolling was constant, and at last the good man got thoroughly frightened. He believed they were destined for a watery grave. He asked the captain if he could not have prayers. The captain took him by the arm and led him down to the forecastle, where the tars were singing and swearing. "There," said he, "when you hear them swearing you may know there is no danger."

He went back feeling better; but the storm increased his alarm. Disconsolate and unassisted he managed to stagger to the forecastle again. The ancient mariners were swearing as ever. 'Mary," he said, as he crawled into his berth, to his sympathetic wife, after tacking across a wet deck—"Mary, thank God, they're swearing yet."—*Harper's Magazine for January.*

—

"The Shah," says the St. James's *Gazette*, "is a mighty hunter, a good shot, and an enthusiastic sportsman. Big game is his delight. The King, like all the sportsmen of his country, uses a smooth bore and a bullet. Of course royal hunts are to a certain extent battues. A strange incident of Eastern life, but a true one, occurred some 12 years ago at one of these royal huntings. As usual, a couple of regiments accompanied the Shah on his hunting party. The men acted as beaters. A tiger was wounded, and was making off under the King's eyes. The royal second barrel was discharged, but did not kill the wounded animal. Fearful of losing his quarry, the King was reloading (muzzle-loaders are still preferred by Persians), when a private soldier seized the tiger by the tail and detained him long enough for the Shah to despatch the animal. His Majesty made that soldier a captain on the spot."

—

GEN. MEIGS is very proud of the Pension building. It is modelled after the Farnese palace. General Bragg, who is Chairman of the House Committee on Military Affairs and has occasion now and then to call on Commissioner Black, has dubbed it the "Pension Brewery." "It is a cross," says the General, "between a country brewery and a car stable." Gen. Meigs took Gen. Sheridan through the building recently, and showed him all its beauties and utilities. After they came out and stood looking up at the big barns piled one on top of the other, Meigs said:

"General, what do you think of it?"

"I have one fault to find with it," said little Phil.

"What's that?"

"It's fireproof."—*N. Y. Sun.*

THE most savage prize fight, without exception, that has ever been fought in this part of the country occurred, says a Boston despatch of Dec. 18, at a late hour last night in a disused loft on one of the wharves, the principals being Dick Cronin, of Boston, and Abe Humer, the champion light-weight of the U. S. Navy.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Sailed from Boston, Dec. 17, for Norfolk, for coal and supplies, and thence will sail on a cruise to the West Indies, returning to Hampton Roads about May, 1887.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard. Will be put out of commission—her officers and crew being transferred to the *Richmond.*

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Aspinwall Nov. 26.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station. Arrived at Gibraltar Dec. 16.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Palermo Nov. 22. Was to sail the following day for Malta, and thence direct to Alexandria.

A correspondent writing from Palermo, Sicily, Nov. 22, sends the following in reference to the previous movements of the *Pensaeola:* Left Leghorn, Italy, Sept. 30, and arrived at Genoa next day. Left the latter place, Nov. 6, for Villefranche, France where she arrived Nov. 7. Got under way again Nov. 13, the weather being stormy, and increasing to a strong gale, the vessel, on the evening of Nov. 15, was hove to until next morning. When the weather moderated she proceeded on her way, and arrived in the Port of Palermo at 9.30 A. M., Nov. 16.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Gibraltar Nov. 28 for the African coast.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. At Acapulco, Mexico, Dec. 1, en route to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 25, and from there to Valparaiso, where she is expected to arrive about the middle of January.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16. A cable from Valparaiso, Dec. 18, announces that the *Vandalia* will be the flagship of the station.

Asiatic Station—Rear-Adml. Raph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Muscat, Arabia, Oct. 27. About to leave for Abu-Sher, in Persia.

ESSEX, † 3d rate, 6 guns. Comdr. T. F. Jewell. Arrived at Singapore Dec. 18.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Nov. 20.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Returned to Hong Kong, Oct. 5, from Macao, and was probably at Canton Nov. 22.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886. Ordered to return to Chemulpo after giving liberty.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Reported by cable to have arrived at Naples, Italy, Dec. 22.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Left Canton, China, Oct. 31, for her winter station at Tientsin.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown, Saratoga,* and *Portsmouth,* should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns, Comdr. Chas. J. Train. Sailed from Fort Monroe, Va., Dec. 22, on her winter cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Sailed from Fort Monroe, on her winter cruise, Dec. 22.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. At Norfolk, Va. To sail from Fort Monroe, on her winter cruise Dec. 22.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. Arrived at Norfolk Navy-yard Dec. 13. Will be ordered to join the North Atlantic Squadron.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

THE U. S. S. *Ossipee* arrived at Naples Dec. 22.

THE training squadron arrived at Fort Monroe Dec. 22.

THE means hitherto adopted to convey orders and communications by night from one vessel to another have been, says the *Deutsche Heeres-Zeitung* (Berlin), very imperfect. Most of the disadvantages have, however, been overcome by Kaselowski's patent, which, after satisfactory trials, has been adopted on all German vessels of war. The cost of the apparatus varies from £175 to £200.

A BRITISHER writing to the London *Army and Navy Gazette* says: "An American corvette has just sailed out of Hong Kong harbor on her way home to pay off. The senior officer (English) at once made the signal when she was observed to be under way to 'cheer ship,' which was accordingly done, the foreign ships following suit. Everyone asks, 'Why should we cheer foreign ships, and not our own?' I hear of instances where orders against cheering were looked upon as both very hard and heartless."

THE London *Army and Navy Gazette* says: "One of our smartest Gunnery Lieutenants had the opportunity a short time ago of witnessing the every-day gun drill on board a German ironclad. He declares that for quickness, precision, and more especially silence, the performance was very superior to what is usually seen in British ships. The reason is not far to seek. The Germans consider gunnery the real business of a man-of-war's man, and look upon sail-drill as a useful sort of recreative gymnastics. We make playing with masts and yards almost the be-all and end-all of a seaman's duty, and merely throw in a little gunnery for appearance sake.

"THE *Tennessee* is in many respects the finest vessel in the Navy," said an officer who commanded her for two years and a half, "and the arbitrary rule that requires her condemnation because it would cost probably 21 per cent. of her cost to repair her is absurd. It would be all well enough to condemn the old vessels if Congress would give us any new ones, but at the present rate we are losing about four vessels a year. While the *Tennessee* is by no means up to the requirements of modern war vessels, still she is well adapted to the work she has had to perform since the war, and is one of the most comfortable vessels afloat for officers and crew."—*Newport News.*

THE Navy Department is in receipt of a communication from C. H. Davis, of the U. S. S. *Saratoga,* dated Hampton Roads, Dec. 18th, announcing that he will sail with the *Jamestown* and *Portsmouth* from Hampton Roads as soon as the circumstances will permit, and that during the winter cruise of the training squadron letters should be addressed to the three ships as follows: By mails leaving the United States, up to Feb. 10th, and including the U. S. and Brazil Company's steamer sailing from New York about Feb. 10th, care U. S. Consul, Bridgetown, Barbadoes; by mails leaving the U. S. between Feb. 10th and March 1st, care U. S. Consul at Bass Terre, St. Kitts; by mails leaving the U. S. after March 1st, and including the U. S. and Brazil Co.'s steamer sailing from New York about March 24th, to care U. S. Consul at St. Thomas, W. I. After March 24th, to Newport, R. I.

THE *Herald,* of Dec. 19, says: "Several prominent naval officers, stationed in Washington, are openly opposed to the plan of Secretary Whitney for the admission of a certain number of meritorious naval apprentices to the Naval Academy. One of the most outspoken of the number said to-day that a similar experiment had already been tried twice before, and each time resulted in the breaking up of the apprentice system. He said that the majority of officers who have been connected with the training service, as well as those now in the Service who came in through the apprentice system, were strongly opposed to the repetition of what they characterized as 'the unfortunate experiments of 1846 and—1864.' The same officer added: 'Certainly the practical knowledge of men who have been intimately acquainted with the apprentice system for years ought to be regarded as more valuable than the sentimental views of those who have no intimate knowledge of the subject.'"

THE N. Y. *Times* says: "The naval Paymasters are divided on the question of increasing the number of their corps. Paymaster Whitehouse, who, as acting chief of the Bureau of Provisions and Clothing, made the last annual report, recommended that the number of Assistant Paymasters be increased.

This was a mere suggestion, made by him in view of the increased amount of work to be imposed on the pay officers. The acting chief himself did not desire that the increase should be made by cumbering the corps with a lot of untrained young men. He simply saw the necessity for additional pay officers and left the choice of means with Secretary Whitney. The present Passed Assistant and Assistant Paymasters are preparing a memorial to Congresss, which they will transmit through Secretary Whitney, asking that the corps be restored to the state it was in before the passage of the act of Aug. 5, 1882. Should their petition be favorably considered promotions will be made immediately all along the line when a vacancy occurs. They will not be required to wait for two vacancies to get one promotion."

THE advertisements inviting proposals for the completion of the monitors are in course of preparation, and it is thought will be issued in the early part of January.

THE modified plans of Messrs. Cramp and Son for the machinery of Gunboat No. 1 have been received at the Navy Department, and are now in the hands of the Bureau of Steam Engineering for investigation and report.

A COURT-MARTIAL, consisting of Comdr. H. B. Robeson, Lieut. Comdr. John C. McGowan, Lieut.-Comdr. J. C. Rich, Lieut. Wm. Little, Lieut. A. B. Speyers, Lieut. Geo. A. Calhoun, Lieut. (Junior Grade) York Noel, with Capt. McLane Tilton as Judge-Advocate, has been ordered to meet at the New York Navy-yard, Dec. 27, for the trial of an enlisted man.

IT is expected that the North Atlantic Squadron will soon start on its winter cruise among the West Indies. With the *Dolphin*, the squadron will only be composed of four vessels. The *Richmond* will be the flagship. The *Nipsic* and *Enterprise*, now undergoing extensive repairs, will be added to the squadron in the spring. The *Galena* is now in good condition, and is on her way to Norfolk from Portsmouth, and soon after her arrival will sail for the South. She will stop at New York en route.

NAVY GAZETTE.

Ordered.

Dec. 17.—Lieutenant F. J. Milligan, to the receiving-ship New Hampshire, Dec. 31.

Dec. 18.—Passed Assistant Surgeon M. H. Simons, to the Naval Academy.

Passed Assistant Surgeon Oliver Diehl, to the Naval Hospital, New York.

Assistant Surgeon Joseph L. Shafer, to the Minnesota.

Dec. 20.—Professor Henry D. Todd, to duty with the Nautical Almanac office.

Commander B. J. Cromwell, to the Navy Yard, League Island.

Lieutenant W. H. Schuetze, to duty in the Bureau of Navigation, Jan. 6.

Ensign H. H. Whittlesey, to the Sumatra, January 15th.

Dec. 21.—Lieutenant J. W. Stewart, to the Nautical Almanac office.

Assistant Engineer F. C. Bieg, to the Fish Commission steamer Fish Hawk.

Dec. 22.—Passed Assistant Surgeon Jas. D. Gatewood, to duty at the Naval Academy, Jan. 5.

Retired.

Surgeon Homer C. Law, Paymaster Wm. N. Watmough, and Passed Assistant Surgeon G. C. Lippincott.

Rear Admiral John L. Worden, Dec. 23.

Detached.

Passed Assistant Surgeon E. H. Green, from the Naval Laboratory, New York, and ordered to the receiving-ship Independence.

Surgeon J. F. Branford, from the Naval Hospital and placed on waiting orders.

Passed Assistant Surgeon B. F. Rogers, from the Naval Academy, and granted one year's leave.

Assistant Surgeon F. J. B. Cordeiro, from the Minnesota and ordered to the Boston Navy Yard.

Lieutenant Commander G. B. Livingston, from the Monongahela, and ordered to return home and report.

Assistant Naval Constructor Lewis Nixon, from duty at Chester, Pa., and ordered to special duty in Bureau of Construction.

Passed Assistant Engineer R. D. Taylor, from the Washington Navy Yard, and placed on waiting orders.

Ensign D. P. Menefee, from the Coast Survey, and ordered to the branch Hydrographic Office, San Francisco.

Revoked.

The orders of Passed Assistant Surgeon F. Anderson to the Independence have been revoked and he has been placed on waiting orders.

Leave.

Passed Assistant Surgeon W. G. G. Willson granted leave for six months.

Assistant Engineer W. S. Smith, leave for three months.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending December 22, 1886:

William Tinker, beneficiary, died Dec. 15, at Naval Hospital, Philadelphia, Pa.

THE BOSTON NAVY-YARD.

NAVY DEPARTMENT, WASHINGTON, Dec. 18.

G. O. No. 356.

On and after the 1st of February, 1887, the Navy-yard at Boston will be used as a permanent, general manufacturing yard for articles of equipment, and a reassignment of shops and buildings becomes necessary. All shops, machinery, tools and appliances assigned for the use of the Bureaus of Construction and Repair, Steam Engineering, Yards and Docks and Ordnance will therefore be turned over to the control of the Bureau of Equipment and Recruiting on that date, and the quarters now occupied by the representatives of those Bureaus will be vacated. Such of the machinery, tools and appliances as may not be required by the Bureau of Equipment and Recruiting will be transferred to stations where required by other Bureaus, or otherwise disposed of, as found best for the public interest.

W. C. WHITNEY, Secretary of the Navy.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Dec. 22, 1886.

SATURDAY'S mild nor'wester prevented no one from attending the officers' hop in the gymnasium. The many guests present were pleasantly received by Mrs. Comdr. Schouler, assisted by Comdr. Huntington.

The cadets have been granted leave of absence from 3.30 P. M. on Friday to 6 P. M. on Sunday, and large numbers of them will spend the holiday with friends and relatives within reach.

Capt. J. M. T. Young, U. S. M. C., is spending the holidays with his family in Annapolis.

The children's Christmas festival will be held in the chapel on Friday next.

Mrs. Prof. Terry gave a delightful children's party last Saturday. Large numbers were present, and all vouched for the unbounded hospitality of Prof. and Mrs. Terry.

Chief Engineer Farmer has quite recovered from his recent illness, and is seen daily about the yard.

Mr. Wm. T. Iglehart died at his home in Annapolis on Saturday last.

Cadet Leonard, who has been confined to the hospital since the term began with malarial fever, is well enough to be off the sick list.

P. A. Surgeon B. F. Rogers has been detached from the Naval Academy and granted one year's leave of absence.

Asst. Surg. M. H. Simms has been ordered to the Naval Academy.

U. S. NAVAL INSTITUTE.

THE December meeting, which took place at the Institute Building, on Friday, Dec. 17, at 8 P. M., was largely attended by officers and the first class of cadets. Lieut. W. J. Barnette, U. S. N., presided, and a paper on "Compensation of Compasses—Method used on board the *Dolphin* and *Atlanta*," was read by Lieut. C. C. Cornwell, U. S. N., Supt. of Compasses. Lieut. Cornwell's able lecture was illustrated by numerous plates, a binnacle and compensating magnets like those of the *Atlanta*. A vote of thanks was extended to the lecturer.

(Correspondence of the Army and Navy Journal.)

AFFAIRS AT PENSACOLA.

THE ruffle which disturbed the calm of this station when the captive Apaches and the migratory garrison of Fort Barrancas simultaneously arrived soon subsided, and, barring the inconvenience of having a detachment stationed at Fort Pickens, things are moving in the wonted measure of the past.

Nearly all who care to see the Indians have done so, and the general impression made upon visitors is one of mingled disgust and wonder—disgust that such an apparently feeble collection of creatures should have been able to cause so much mischief, and wonder that such a small bag of game should have given rise to so much crowing. Under the judicious direction of Capt. J. E. Wilson, 2d Artillery, commanding Barrancas, the captives are kept usefully employed, which naturally results in their greater contentment and diminished troublesomeness. Only Margus seems grouty. Lieut. Parker has the immediate charge of them, a duty which he performs with zeal and great interest, assisted by a detail of fifteen soldiers, who are relieved every ten days.

At the navy-yard there is some commotion caused by the recent Department order concentrating all supplies in the hands of a general storekeeper. The volume of work and extent of change produced by that order amounts to a revolution. There has not been a ship of any kind at the yard since last spring, and the Departments of Construction and Repair and Steam Engineering have had a season of solid comfort. The only construction going on is at the marine barracks, where Captain H. C. Cochrane is erecting new dormitories for fifty men in the shape of two handsome cottages. These buildings have been designed and located with great care, and already give an entirely different aspect to the S. W. section of the yard. They are being built so as to be tight and warm in winter, and yet as open and cool in summer as an arbor, to accomplish which nearly 500 feet of verandas, ten feet wide, surround them. The local query is how the captain can get so much house for so little money, the appropriation made by Congress being very small.

Major A. S. Nicholson, Inspector-General of the Marine Corps, recently made an inspection there, and with such very favorable report that the commandant of the Marine Corps expressed his gratification in a most complimentary official letter to the commanding officer.

Captain E. P. Lull, the new commandant of the navy-yard, and his interesting family are comfortably settled, and the health of the former, which was impaired by an attack of pneumonia while on duty in the Pacific, seems to be gradually improving. Mrs. H. E. Drury and little daughter are among the newcomers, and add much to the cheerfulness of the paymaster's quarters.

STATIONS OF COAST SURVEY VESSELS.

W. H. Brownson, Lt. Comdr. U. S. N., Hydrographic Insp'r.
Lt. J. M. Hawley, U. S. N., Coast and Geodetic Survey Office.

Schooner *Scoresby*, Lieut. Francis Winslow, U. S. N., commanding. Address New Berne, N. C.

Steamer *Arago*, Ensign W. J. Sears, U. S. N., comdg. Address Navy-yard, New York.

Schooner *Palinurus*, laid up. Address Navy-yard, N. Y.

ANSWERS TO CORRESPONDENTS.

D. K.—You stand No. 4 on commissary sergeant list.

H. L. Lowell.—You stand No. 9 on hospital steward list.

B. J. T.—You stand No. 7 on Commissary Sergeant list.

Subscriber, S.—You stand No. 8 on commissary sergeant list.

Ex-Marine.—There is no Capt. Connors in the 24th U. S. Infantry. In fact there is no officer of that name in the Army.

J. H. asks: Please give the proper pronunciation of the word Du Chesne, as connected with the new post of that name. ANS.—Dewshane.

"Pro Patria et Gloria."—The account of the distribution of the 7th Regiment Cross of Honor of 1886 appeared in the JOURNAL of April 3, 1886.

Aries.—The next line officer to retire for age is Brig. Gen. O. B. Willcox, April 16, 1887. The next in staff corps is Col. C. E. Blunt, Engineers, Feb. 1, 1887.

W. G.—The First is the only Missouri district at present entitled to cadet appointment. Apply to the War Department, Washington, D. C., for examination circular.

H. G. O.—The senior Major General, J. M. Schofield, is younger than either Gen. Terry or Gen. Howard. Gen. Schofield retires in 1895, Gen. Terry in 1891, and Gen. Howard in 1894.

Pensioner.—If the deafness was contracted in the line of duty you are entitled to admission to the Soldiers' Home. While in the Home the pensioner can direct the whole or part of his pension to be paid to his child, wife, or parent, if such there be living. If not so assigned the pension money will be collected by the treasurer of the Soldiers' Home and held in trust for the pensioner, to be paid to him in full when he leaves the institution. Apply to Commissioners, Soldiers' Home, Washington, D. C.

Inquirer asks: 1. Has the colonel of a regiment the power to transfer a lieutenant from one company to another, providing there is a vacancy and the members of said company elect him to fill it? ANS.—The code provides for no such cases. According to Army rules the colonel can only recommend such transfers for the action of the War Department.

2. If so transferred is it necessary for said officer to go before the examining board? ANS.—No.

Private Hobbs.—If a soldier receives a furlough from 1st to 10th, no particular hour being stated, in our opinion the furlough expires at midnight of the 10th. We are aware the practice differs at posts, but it should not do so. In the British service a soldier on furlough from 1st to 10th is at liberty to leave the barracks at any hour he chooses on the morning of the 1st. If he reports at the guardhouse at midnight of the 10th and hands in his furlough to the Sergeant of the guard he is deemed to have reported in time. These matters, affecting as they do the interior discipline of companies and posts should not be left to chance.

Soldier asks: 1. In wearing crape should an officer wear it on overcoat, when overcoat is being worn? ANS.—Regulations specify that crape will be worn "when in full or in undress," but mention no overcoats. There is therefore no fixed rule in the matter. While there seems to be no objection to crape being worn around the overcoat sleeve, the settlement of the matter had best be left to the commanding officer.

2. Do the non-commissioned officers carrying the remains wear crape? ANS.—No enlisted men wear crape.

3. Do officers wear crape for the death of an enlisted man of their command during funeral or at any other time? ANS.—No.

4. Upon the appearance and halting of the remains in front of the escort, should not the arms be presented first and then the music play, and when the music has ceased the remains be taken to carriage, during which arms are carried? Some claim that arms should first be carried and then the music cease. ANS.—The present Tactics are not very plain on these points. Upton's previous Tactics, on which the ceremony given in the present edition is evidently based, says: Upon the appearance of the corpse the commander will order, present arms, at which the music will play an appropriate air; the coffin will then be taken to the flank of the escort opposite the music, after which arms will be carried and the escort be broken into column, etc., etc.

COMMANDERS' LETTERS.

THE Philadelphia *Press* publishes the letters which follow:

To the Editor of the Weekly Press:

I am glad to see that Gen. McLaws gives so much credit to the gallant men who took Crampton's Gap from him on Sept. 44, 1862. He gives his own loss, too, as 1,200 men, while ours was not much more than half that number. I did not before know his figures. The action was not over until dark, too late to move my troops from the summit of the Pass into the valley then occupied by McLaws. I began my movement at daylight in the morning, crossing two divisions into the valley through Crampton's Gap, and sending Gen. Couch, who joined me at 10 P. M. the night before, to the vicinity of Rohrersville and awaited his appearance there to make an attack on McLaws's position, which was very strong. But he abandoned his position without awaiting an attack.

Gen. McClellan's report states that Harper's Ferry was surrendered at 8 A. M. So neither McLaws's nor my force could have cut any figure in that disaster. My troops did not get into the valley until 8.30 A. M.

Truly yours, W. B. FRANKLIN.

Hartford, Conn., Nov. 23, 1886.

To the Editor of the Weekly Press:

The idea that Gen. Meade could at any time during or after the battle of Gettysburg have destroyed Gen. Lee's army is simply preposterous. Gen. Lee offered him battle at Hagerstown, and we were anxious for him to attack us, but he failed to attack. We had to retire because we had no provisions, as we had to depend on foraging for our supplies, and that was impracticable in the face of an enemy. Moreover, the Potomac was rapidly rising in our rear. If Grant had to depend upon the process of "attrition" to destroy Gen. Lee's army when the odds in his favor were vastly greater than they were in Gen. Meade's favor at Gettysburg, how was it possible for the latter to accomplish the work at one blow? Respectfully, JUBAL A. EARLY.

Lynchburg, Va., May 7, 1886.

CHIEF ENGINEER JOHN LOWE, of the U. S. S. *Dolphin*, is at home to pass the holidays with his family on Capitol Hill. He speaks enthusiastically of his ship, and is of the belief that all she requires is a "fair show" to do all that has been expected of her. The *Dolphin* will probably be docked and have her bottom cleaned and painted before joining the station assigned to her.

CHOICE OLD
WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.
We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.
For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.
These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

WEST POINT, N. Y., December, 1886.

MISS BERARD, daughter of the late Professor CLAUDIUS BERARD, has compiled some very interesting REMINISCENCES OF WEST POINT. They are taken from the diaries of several who lived here before the founding of the Military Academy, and from recollections of early residents, as handed down to them by their forefathers, together with Miss Berard's recollections from 1830.

These items, and a REGISTER OF GRADUATES OF THE MILITARY ACADEMY FROM 1802 TO 1886 INCLUSIVE, have been printed in pamphlet form, making one hundred and sixteen pages, and will be sent to any address for one dollar a copy.

CHARLES BRADEN, Lieutenant U. S. Army.

U. S. ARMY AND NAVY JOURNAL.
PUBLISHED EVERY SATURDAY.
NEW YORK, SATURDAY, DECEMBER 25, 1886.
Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

A GERMAN CRITICISM OF OUR MILITIA.

IF there is any people in the world thoroughly educated to the importance of military training, it would seem to be the Germans, whose unremitting "Wacht am Rhein" keeps them so constantly in mind of the necessities of adequate preparation for war. It would appear, however, that not even the Germans are wholly free from the influence of the popular fallacy that an army can be formed at any moment out of a combination of patriots and powder, mixed in due proportion by civilian zealots wholly unused to the formulas of war. A German officer, Major PFISTER, of the 8th Wurtemberg Infantry, has thought it necessary to combat this error, which he endeavors to do in a lecture recently published in the pages of that able professional journal, the *Militär-Wochenblatt*, of Berlin. Scarcely two decades ago, says this lecturer, we were compelled to listen, especially in Southern Germany, *ad nauseam*, to the assertions to the effect that there were instances going to prove that militia had performed as effective service as troops carefully prepared at a very considerable expense of time and money. The War of American Independence was pointed to as showing how well drilled troops, the English regulars and their Hessian auxiliaries, were whipped by militia. This was made the text for a wholesale condemnation of standing armies. To day, continues Major PFISTER, we know that the troops by whom the English invasion was repelled were not the boasted militia, but a force organized into the semblance of a regular army. This he endeavors to show from a very interesting study of "The Winter Camp at Valley Forge and the organizing activity of WASHINGTON and STEUBEN."

This encampment is shown to have been the turning point in the history of our Revolutionary War. It was organized at a time when the hopes of the American people were at the lowest ebb. The tide of popular enthusiasm which had carried us thus far had spent its force; the defects of our Army system based upon militia organization were fully demonstrated, and the time was ripe for professional knowledge and experience to assert themselves. Never in history was the weakness of a militia system more thoroughly demonstrated, and the advantage of soldiers trained by long service more clearly shown.

Major PFISTER considers his subject under several heads: the circumstances under which the army went into camp at Valley Forge; its condition at the time, and the means taken by the Commander-in-Chief to improve its situation; the arrival of STEUBEN and the efficient aid WASHINGTON received from him, and, finally, the results accomplished. It is not necessary to translate the description given of the circumstances which led to the war with England: this is a familiar chapter in American history. Whatever the criticism this German soldier think it necessary to indulge in at our expense, he does not fail to recognize the exalted character of WASHINGTON, and his military abilities as judged by the highest professional standards. In the Commander-in-Chief's display of activity and ability he finds the one redeeming feature of a military situation otherwise hopeless. It was he who called the attention of Congress to the fact that "experience, which is the best criterion to work by, so fully, clearly, and decisively reprobates the practice of trusting to militia, that no man who regards order, regularity and economy, or his own honor, character or peace of mind, will risk them upon this issue." "The evils to be apprehended from a standing army," he urged upon his unwilling listeners, "are remote, and, situated as we are, not at all to be dreaded; but the consequence of wanting one is certain and inevitable ruin." In WASHINGTON'S letter to Congress, says Major PFISTER, we find the same clear, precise language, the transparent expression, the settled conviction which so marvellously characterize the letters of FREDERICK THE GREAT, written during the most trying period of the Seven Years' War, or, in our own time, which mark the reports and descriptions of BISMARCK.

At Valley Forge the chaff was separated from the wheat. Hundreds of WASHINGTON'S men had returned to their homes; more than three thousand had passed as deserters into the English lines. Of the many who had hastily entered upon an undertaking of whose real magnitude they had no conception, only a few thousand remained with the colors. But these were worth all the rest. "Seldom in history has a truer body of men—men more ready for any sacrifice—gathered around a great leader, than this nucleus of an army left in the desolate camp at Valley Forge." From them was formed the leaven which was to leaven the whole lump and form the future organization. It was at that time that there appeared upon the scene the soldier who was destined to render such important services to the American cause—General Baron Von STEUBEN, a graduate of the select academy of young officers under the immediate instruction of FREDERICK, a former Adjutant-General of that king's staff, a veteran of the Seven Years' War, who had distinguished himself at Prague and Rossbach, at Kay and Kunersdorf. It was not to be expected that a man with this experience would form a very favorable opinion of WASHINGTON'S ragged recruits, and the picture he drew of the condition in which he found things was most discouraging. But he set himself to work to aid WASHINGTON in the labor of reorganization. In place of proper military instruction, he found the troops occupying hours with endless parades, serving only as an exhibition of pedantry, to the disgust and useless fatigue of the men. Tours of guard duty were numerous beyond all reason, and the effective strength of the commands was unnecessarily restricted by details of servants for the use of officers and others. Many of the officers wholly neglected the instruction and armament of their men, and were equally careless of their comfort.

Others put themselves on a level with their men, and were possessed with the idea that their only military functions were to attend to guard duty and lead their men in battle. A complicated commissariat had been organized on the English pattern, the camp swarmed with officials having a knowledge of their duties in inverse proportion to their high rank. Rascally contractors preyed upon the

poverty-stricken troops, half clad, shoeless and unarmed, who were compelled to go days and weeks without meat or bread, and with no forage for their horses. We have in this small army, wrote STEUBEN, more commissaries and quartermasters than in all the European armies combined.

The generous spirit in which STEUBEN was received by WASHINGTON is fully recognized by this German writer. Every facility was offered him for the reorganization of the troops into battalions, brigades, etc., and their general instruction. A corps of one hundred and twenty of the brightest men was organized for instruction by STEUBEN, whose drill in person with musket in hand was a novel sight to the American officers. There was a touch of humor, too, in the spectacle, for the German veteran understood the drill better than he did the English tongue, and all his orders had to be translated. He had the habit, pardonable under the circumstances, of swearing at the men in German and French, and finding that his expletives were not understood, when particularly exasperated he would order his officers to "damn those fellows in English, so that they may understand." Under the new regimé the Army increased daily in numbers and efficiency, and in the spring 12,000 men, fairly instructed, were in camp.

Major PFISTER follows with a description of the battle of Monmouth, and closes with a brief review of the succeeding events of the war, designed to prove his assertion that it was not to the militia but the regular organization of Continental troops that we were indebted for our success. He will find that his views will be readily accepted by American soldiers, with whom they are by no means novel. In the last recorded utterance on this subject, that of Lieutenant A. L. WAGNER, of the Sixth Infantry, to whose paper, on the "Military and Naval Policy of the United States," we referred last week, we find it stated that "though not organized as WASHINGTON desired, the Continentals were national in spirit, and were regular troops in fact. By them the American cause was won. More than once they saved the day when disaster was following upon the heels of the fleeing militia. Steadfast and reliable, they were living proofs of the value of discipline; and they patiently endured hardship and suffering, one-tenth of which would have sufficed to drive a European Army to mutiny (according to the testimony of LAFAYETTE). The history of the Revolution compels the conclusion that if the American armies had been composed exclusively of Continentals, the British would have met with irretrievable disasters from the unaided forces of the colonies; and that if reliance had been placed upon militia alone, not even an alliance with France could have saved the United States from conquest."

A presentation of the teachings upon which we dwell here seems to us especially timely, in view of the prospect that the bill enlarging the annual appropriation for the militia will speedily become a law, having now passed both Houses of Congress, and only requiring the work of a conference committee to reconcile the difference between them as to the amount to be allowed. If this measure is made right use of it will serve an excellent purpose, but not if it is to be regarded as a settlement of the question of military preparation. It is only valuable as affording a means of popular education as to the requirements of war. A better knowledge of these, as Lieutenant WAGNER so well says, "would end the sacrifice of future treasure to present parsimony; it would inspire patience with our military leaders at the beginning of a war; it would remove the idea that generals can be improvised by placing insignia of rank on the shoulders of men who have never given a moment's study to the science of war; it would disabuse the popular mind of the illusion that an army can be created of the rawest material merely by a call to arms; and it would impress upon the people an appreciation of the fact that if education is rapid, on the field of battle it costs far too dear."

IN an article on "Torpedoes," reviewing the opinions of M. GABRIEL CHARMES on the subject, *Engineering* says: "Vessels of suppleness and agility will have their place and are of vital importance, but they cannot take the place of armor-clads. Both are needed for their special purposes, and no admiral will be sure of success if he omits them from his squadron. To those countries possessing outlying colonies large armored ships are a necessity, and for certain situations cannot be replaced by torpedo-boats or cruisers of any type. Just as armor has been developed to keep out and break up the projectile with its increasing energy and toughness, so has the strength and interior construction of the ship rendered it less liable to annihilation by the torpedo. Just now the gun is ahead; but the results of the *Resistance* experiments have given the latter a check, no doubt temporary, but none the less a check. In his argument, CHARMES has cited the examples set by Denmark and the United States in acquiring a number of light ships instead of spending vast sums of money for armor-clads. But it must be remembered that the former exerts no important colonial policy, while the latter has not made even a pretence of defence, trusting (it may be foolishly and too long) to the great oceans that separate her wealth from other Powers."

THE Army Appropriation bill was passed by the House on Tuesday. There was no general debate, and the bill was passed in short order in practically the same form as reported from the Committee, and as reported in the JOURNAL of last week. An amendment was adopted, on motion of Mr. Bragg, to the mileage clause allowing officers four cents per mile while travelling over railroads on which troops and supplies are entitled to be transported free. This clause, as finally adopted, is as follows:

For mileage to officers when travelling on duty, not to exceed $85,000: *Provided*, That in disbursing this amount the maximum sum to be allowed and paid to an officer shall be 4 cents per mile, distance to be computed over the shortest usually travelled routes, and, in addition thereto, upon the officer's certificate that it was not practicable to obtain transportation from the Quartermaster's Department, the cost of the transportation actually paid by the officer over said route or routes, exclusive of sleeping or parlor car fare and transfers.

And provided further, That when any officer so travelling shall travel in whole or in part, on any railroad on which the troops and supplies of the United States are entitled to be transported free of charge, he shall be allowed for himself only 4 cents per mile as a subsistence fund for every mile necessarily travelled over such last-named railroad.

In the provision appropriating $12,500 for quarters for hospital stewards, the words "and repairs" was included, so as to provide for keeping the quarters in good condition after construction. The words "for the proper care and treatment of cases in the Army suffering from contagious or epidemic diseases," were included in the clause appropriating $210,000 for medical and hospital supplies. The item of $10,000 for services at the Army and Navy Hospital was transferred from this clause to a separate paragraph. The only part of the bill upon which there was any debate was that allowing $300,000 for the manufacture of arms at the National Armory. Upon this item Mr. Rockwell, of Massachusetts, renewed his efforts of last year to have the amount increased to $400,000. His amendment was adopted in the Committee of the Whole by a vote of 74 to 73, but when the committee rose and reported to the House, Mr. Bragg called for the yeas and nays on the amendment, and it was defeated by ten votes.

THE Army and Navy are estimated to cost France $188,800,000; England, $140,000,000; Germany and Russia, each, $100,000,000; Austria, $60,000,000. According to a recent German estimate the French soldier costs $255 annually, and the German soldier $183. The *Moniteur de l'Armée* (Paris) gives the following statement of the individual expense of each French infantry soldier:

	1884. Francs.	1885. Francs.
Pay	138.65	138.65
Rations	192.77	208.51
Heating and lighting	7.48	7.49
Hospitals	21	20.32
Travelling expenses	3.75	3.75
Clothing	42.51	
Camp expenses	2.40	47.31
Repair of arms	12.21	12.21
Various	20.65	20.65
	441.42	459.39

Each Frenchman is taxed three dollars a year for the Army, and each German one dollar and eighty cents. This difference is attributed by a French writer, M. JULES RICHARD, in a great measure to lying and swindling contractors, and he mournfully exclaims that, unless matters change, France in twenty years' time will find herself conquered without drawing the sword. In France, he says, we bake bread which costs the State as dear as asparagus costs a citizen who wishes to enjoy the luxury of a garden and a gardener. It is also pointed out that German soldiers before being accepted for service are more closely examined than French soldiers during medical inspection, that there are few unhealthy men in the ranks, and that hospital expenses are thus avoided. While France has 16,105 non-commissioned officers and men in the administration, and 11,840 men of the military train in the ranks of the active army, Germany has hardly 4,000. The men in the second portion of the contingent learn in a few weeks the duties they will have to perform in the field, and do not eternally encumber the budget. All the men under the flag are trained or being trained; there are no non-effectives. Military influences are, moreover, controlling in the German Parliament. Military estimates are voted for seven years; and the German Minister of War is able to work without being disturbed by "brewers, journalists, lawyers, or vendors of sauerkraut." Then, in Germany, since 1821, there have been only four Commanders in-Chief—Muffling, from 1821 to 1829; Krauseneck, from 1829 to 1848; Reyher, from 1848 to 1857, in which year the latter was succeeded by the present occupant of the post, Field-Marshal Von Moltke. During the same period there have been 49 changes in France—16 since the conclusion of the Franco German War.

THE Naval Board of Inspection in their report on the *Tennessee* decide that the Statutory survey shows that she is beyond repair, and recommends that she be appraised and sold. Commodore Walker, however, is in favor of transferring her to the Apprentice Training Squadron in place of the *Minnesota*.

THE *Scottish Geographical Magazine* for November contains an article on the Panama Canal, signed by Ferdinand de Lesseps, which, as the N.Y. *Times* proceeds to show, is a curious exhibition of the great promoter's ignorance concerning the financial condition of the enterprise. In closing his article M. de Lesseps says: "The cost of the canal is estimated at about £50,000,000, and the interest due annually to share and bondholders amounts to £3,000,000." With the canal but partially completed—according to the estimate of the *Times* but one-fifth of the work of dredging having been done—the liabilities of the company are already $287,988,700, or nearly forty millions more than M. de Lesseps' estimate of the total cost of the completed canal. These obligations represent only $180,435,000 raised in cash for the use of the company, for the reason that the loan of 1882 was placed at a discount of 12½ per cent., that of 1883 at a discount of 43 per cent., that of 1884 at a discount of 33 1-3 per cent., and the last great loan at a discount of 55 per cent. This is, in fact, an overestimate of the proceeds of the last loan, for while the bonds were offered at 45 cents on the dollar, they did not yield, it is said, so much as that. So we have obligations amounting to $287,988,700, and a statement by M. Varilla, chief engineer of the canal, that two additional loans, yielding $40,000,000 each, and swelling the liabilities to more than $460,000,000, will be issued by and by. This is compared with a statement made by M. de Lesseps nine months ago, that "the entire cost will not be over £44,000,000, which includes interest on loans until the work is completed, and the expenses of administration in Paris and Panama."

Engineer has some wholesome criticisms on the once favorite English line of steamers, the Cunarders. It says: "The arrangements for the comfort of passengers in the matter of food are not what they ought to be. Passengers at sea require something more than a rude plenty, and the Cunard Company furnish nothing else. On all sides we hear the same complaints. The cooking is detestable. Furthermore, in the Cunard boats passengers receive little more than bare courtesy. These things drive large numbers of passengers to the German and French boats, in both of which an admirable table is kept, while civility is exchanged for courtesy."

5.53 miles of the new Croton aqueduct tunnel were completed during the year ending Nov. 28, 1885, and 14.87 miles during the year ending Nov. 27, 1886, when 9.41 miles remained to be completed; two-thirds of the work of tunnelling (20.37 of 29.78 miles) being then finished, with the exception of the brick lining ordered after contracts were made. Most of the tunnel is 14 feet in diameter.

THE total cost of the Capitol building at Washington has been $15,928,810. The building burnt by the British in 1814 cost $787,168.

THE San Francisco *Post* says: "Anyone who wishes to realize what sort of task the Army had to accomplish in this Apache business may imagine a band of 136 tramps turned loose, with half the State of California to hide in, and then consider how he would set about catching them, railroads and telegraphs, of course, being almost entirely lacking. The savages raided over a space of 80,000 square miles, all familiar to them. They were pursued by 3,000 soldiers, or one man to every 17,000 acres. With all their facilities for dodging the troops, they were cornered by Captain Crawford, with what result the world knows. Perhaps the world does not know, however, what steps have been taken to secure justice for the murder of a gallant officer at the hands of a Mexican force. We quote from Secretary Endicott's report:

The only claim thus far made on the part of the United States is based upon the proceedings of a board of survey, which found that on the day following the engagement in which Crawford was killed, Lieutenant Maus "was compelled by these irregular Mexican troops to turn over to them a number of mules and their equipments under circumstances which rendered it quite impracticable for him to have done otherwise."

"Crawford's blood may remain unavenged, but those mules must be paid for, or the sleeping American eagle will be aroused."

CHAPLAIN O. J. NAVE, U. S. A., contributes to the *Western Christian Advocate*, of Cincinnati, an interesting article on "Our Relations with Mexico." He deduces from facts that "there is sufficient ground for the statement that our relations with Mexico are growing strained, and that they must become more so if the Government of the United States do not deal with firmness and decision with that people," and in conclusion says: "As a nation we are exceedingly polite in our international methods, and good-humored as a big, country boy. This is well. But along with our politeness and good humor, we must also remember that our citizens abroad are entitled to prompt and vigorous protection, and that they will have it more surely if we stand by the Stars and Stripes, and make the flag honored and respected by civilized nations, and feared by those whose peace can best be secured by a show of determination and character. In our foreign relations we need a vigorous and firm administration, but nowhere more than in Mexico, now that railroads and cities bring us into relations of increasing intimacy."

THE New York *Evening Telegram* revives, in its issue of Dec. 20th, the story of the drummer tried by Court-martial and punished for beating the bass drum out of time, locates the scene of the offence at Governor's Island and pads out the occurrence with many facetious details. The story comes under the head of a "chestnut," for it may be remembered we referred to it several months ago. The trial took place in May last at David's Island, and the prisoner was punished for several grave offences, the least serious of which was deliberately beating the drum out of time while on duty with the depot band. Being a soldier and on duty, even that offence, susceptible as it is of humorous discussion, was one worthy of punishment. For all of this consult General Court Martial Orders, 50 A. G. O., *June* 26, 1886.

THE *Army and Navy Gazette* says: "The ARMY AND NAVY JOURNAL, New York, gives in its issue of August 7th a series of excellent cuts, showing in detail the plans adopted by the United States Navy Department for the four additional vessels authorized recently by Congress. Among these illustrations is one showing the *Naniwa Kun*, built by Armstrong and Co., which is to be the model of the 3,730-ton cruiser. We have already given brief descriptions of these vessels from the columns of the New York *Herald*, in which paper plans also appeared; but to any one specially interested in the subject we recommend the number of the ARMY AND NAVY JOURNAL referred to above, as giving a most lucid and thorough description of the new ships."

WE quoted last week a paragraph which is going the rounds of the daily papers, to the effect that the plans which were adopted for the new Naval Observatory buildings, some six years ago, are found to be perfectly worthless, although they might have been very good then. Now the pertinent inquiry arises, what would have been the present value of the Observatory if the plans then prepared had been at once utilized by erecting the necessary buildings? Of course it does not require very great clear-sightedness to see the "cat in the meal tub." The architect is a would-be applicant for the work, and naturally the "other fellow's" plans are all wrong.

IT was one of the maxims of Napoleon that an army ought to change its system of tactics every ten years. His meaning was, that success does not rest upon forms, which can be copied by other armies or Generals, but upon living energy and intelligence, which are always capable of devising new combinations: and that formalism of any kind is death to armies, as to other institutions.

OUR correspondent, "Semper Fidelis," carries the war into Africa in his article on "The Truth Concerning the Marines," and waves the proud banner of the "ever faithful" in triumph over the mangled remains of the writer in the New York *Times* who has called the record of the Marine Corps in question. His letter, which appears elsewhere, will be found of interest to others beside the marines.

THE FORTY-NINTH CONGRESS.

In the Senate, Mr. Vest (Dem., Mo.) introduced a substitute for the bill to incorporate the Atlantic and Pacific (Capt. Eads) Ship Railway's Company, and said that it simply provided for a naked incorporation of the company without any guarantee by the Government. It was made the special order for the second Tuesday in January.

The House bill relieving Lieut. Myron E. Dunlap, of the 14th New York Artillery, of the charge of desertion was passed.

House bill No. 1659, for the relief of the survivors of the exploring steamer *Jeannette* and the widows and children of those who perished in the retreat from the wreck, was passed by the Senate on Monday.

The Senate Committee on Military Affairs on Tuesday took favorable action on all the Army nominations referred to it last week, except the promotions in the Medical Department below the Surgeon General. Gen. Moore was included in the list of those upon which favorable action was taken.

Action upon the Medical promotions was deferred at the solicitation of some of the assistant surgeons who would be appointed by the Manderson bill, establishing the order of promotion in the Medical Department, which is now pending on the Senate calendar. Should this bill become a law, it would necessitate some changes in the list of pending nominations, and as long as there is a chance for its passage the committee will not take any action upon the present promotions. The only other business transacted by the committee was the adoption of a favorable report on a substitute for S. bill No. 1075, to provide a monument to mark the grave of Gen. Daniel Morgan. The substitute appropriated $5,000 instead of $15,000, and authorized the Secretary of War to appoint a commission to select a monument and have it erected over the grave of Gen. Morgan in the cemetery at Winchester, Va.

By a vote of 199 to 44, the House on Monday passed the Senate bill No. 222, increasing the annual appropriation to provide arms and equipments for the militia, from $200,000 to $400,000. The bill as it passed the Senate called for an appropriation of $600,000. The militia committee of the House reduced it to $400,000, which amount was adopted by the House. The bill now goes to a conference committee consisting of Messrs. Sewell, Hawley and Cockrell on the part of the Senate, and Messrs. Forney, McAdoo and Hopkins on the part of the House. The impression is that the Senate conferees will be compelled to agree to the House amendments as it is feared that that body will not vote for a further increase. The text of the bill is given elsewhere.

H. R. 1085, to appoint Albion S. Keith an ensign on the retired list of the Navy, was passed by the House on Tuesday. The beneficiary was a cadet at the Naval Academy, and successfully passed his final examination for graduation, but having been found physically disqualified by reason of disease contracted from exposure in the line of duty at sea, was honorably discharged without receiving his promotion to ensign.

The bill granting to San Antonio, Texas, a portion of the military reservation adjoining that city was passed by the House on Wednesday.

A meeting of the House Committee on Naval Affairs was held on Tuesday, when it was decided that Messrs. Herbert, Sayers and Thomas should take charge of the work of preparing the Navy Appropriation bill and they were directed to have it ready to report to the full committee immediately after the holidays. Beyond a casual examination of the estimates nothing whatever has been done on that measure yet.

A proposition to prevent the early accumulation of a large surplus was offered in the House by Mr. S. S. Cox, and it will receive strong support if it can be brought to the test of a vote. Mr. Cox's plan is embodied in the following preamble and resolution:

Whereas, The first duty of a Government is the defence of its territorial integrity, and inasmuch as in the present condition of affairs our territory and its vast interests may at any time be placed in jeopardy by the attack upon our sea coast and cities, from even a third-rate power; and whereas the defenceless condition of our coast is a matter of general apprehension; therefore, be it

Resolved, That the Committee on Appropriations of the House of Representatives be instructed to present to this House some suitable plan for our coast defences, with such sufficient appropriations, not less than $30,000,000, to safeguard the immense interests which are involved in such an emergency. To further this end, that a commission be appointed to consist of three persons—one from the Army, one from the Navy and a civilian—each to be selected by the President of the United States, who shall have charge of the matters herein set forth, and with a view to make such prompt and comprehensive preparation as will satisfy the demands of the people and the interests of our exposed Territory.

In the House Mr. Dingley introduced the following resolution; referred to the Committee on Naval Affairs:

Whereas the experience of maritime nations has shown that the possession of numerous well-equipped private shipbuilding establishments is essential, not only for the maintenance of a large merchant marine, but also for the construction of naval vessels and Government transports in the exigency of war; and

Whereas the founders and recent defenders of our Government were so impressed with the importance of this truth that Jefferson, speaking for the former in his celebrated report on commerce, declared that establishments in readiness for ship-building are indispensable to the protection of our commerce and the defence of our seaboard, and Admiral Porter, speaking for the latter in his testimony before the Senate Naval Committee of the Forty-eighth Congress, affirmed that, in case of a war with a naval power, "the salvation of the country would depend upon our private ship-building yards" and "their plant accumulated during peace," for which reason, he added, we should encourage the establishment of such yards by means of favorable Government contracts, as Great Britain has done: Therefore,

Resolved, That the Committee on Naval Affairs be instructed to inquire into the expediency of authorizing the Secretary of the Navy, in the construction of vessels for the Navy hereafter, to invite proposals for the building of a part of such vessels, on such special terms as will best secure the end sought, by responsible citizens or companies, who will undertake to establish new iron and steel shipbuilding establishments at desirable points on our Atlantic, Pacific, and Gulf coasts, and to provide for these establishments such suitable plants as will make them available for the building of iron and steel vessels for the Navy as well as the merchant marine.

BILLS INTRODUCED.

S. 3029, Blair. That from and after the passage of this act all persons who, in the military or naval service of the United States and in the line of duty, have lost both arms, shall be entitled to a pension of $100 per month.

H. R. 10136, Whiting. That no person shall be eligible to appointment to the position of examining surgeon of the Pension Department unless he shall have previously served as surgeon or assistant surgeon in the Army or Navy of the United States, except in districts where no person who has served as aforesaid qualified to hold said position can be obtained.

H. R. 10208, Stewart. Appropriating $60,000 in aid of the Bennington battle monument, intended to commemorate the Revolutionary battle of that name.

H. R. 10255, Thomas. That any officer who, after having been 20 years or more in the Naval Service, has been, or shall hereafter be, placed on the retired list of the Navy by reason of physical defect, which defect was not a disqualification for service under the regulations at the time of such officer's original entry into the Service, but has subsequently been made so, shall, upon the certificate of the Retiring Board to the said state of facts, be held to be retired for disability incident to the Service, and shall receive the rate of pay established by law for officers of his grade retired under such disability.

H. R. 10266, Murphy. That the sum of $42,506 is hereby appropriated for the construction of a hospital building of stone at the Rock Island Arsenal, of such proportions and dimensions as furnished by the commanding officer at said arsenal, Col. T. G. Baylor; said building to be constructed under the direction of the Secretary of War, as proposed by plans accompanying this act.

H. R. 10393, Harmer. Appropriates $750,000 for the construction of two composite vessels for the training service of the U. S. Navy.

RECENT DEATHS.

FIRST LIEUTENANT ALONZO L. O'BRIEN, 2d U. S. Cavalry, who died Dec. 12, at his home in Weston, West Virginia, after a long illness, entered the Military Academy in 1875, was graduated June 13, 1879, and promoted 2d lieutenant, 2d Cavalry. On Jan. 9, 1886, he was promoted 1st lieutenant. At the time of his death he was on sick leave from Fort Cœur d Alene, Idaho.

ISAAC HULL WRIGHT, a prominent citizen of Boston, Mass., who died in that city December 22d, served with much distinction in the Mexican War, first as Captain and then as Lieutenant Colonel of the regiment of Massachusetts Volunteers commanded first by Caleb Cushing, afterwards promoted to Brigadier General. He was Military Governor of Monterey after the capture of that city, and when Gen. Taylor transferred his forces to Vera Cruz to form a junction with Gen. Scott, Col. Wright was made Military Governor of Perote, his regiment going on to the city of Mexico, where he rejoined it some months later and returned home in command.

MRS. EMMALINE B. WEBB, who died at 438 West 72d Street, New York City, December 17, was the widow of Stephen H. Webb, who joined the 30th U. S. Infantry as an ensign in 1813, was disbanded in 1815, re-entered in 1818, and rose to captain 1st Infantry, resigned in 1833, was appointed military storekeeper in 1834, was disbanded in 1842, appointed captain and assistant quartermaster of volunteers, and disbanded at the conclusion of the Mexican War.

MRS. ISABELLA HARRISON, mother of 1st Lieut. G. F. E. Harrison, died at San Francisco, Dec. 6, in the 64th year of her age. The deceased lady had a large circle of relatives and friends on the Pacific coast. It is but recently that Mrs. Harrison, wife of Lieut. Harrison, lost her father, Mr. A. Ross Ray, of Washington, D. C., who died at San Francisco, Nov. 28.

MR. ABNER READ, who died Dec. 22d, at his residence, 17 West 65th Street, New York city, was the eldest son of the late Brevet Major Edwin W. H. Read, Captain 8th U. S. Infantry, a gallant soldier of the war, who resigned in 1873. The remains were taken to Oakwood, Troy, N. Y., for interment.

JONATHAN JOHNSON, of Durham, Me., a veteran of the War of 1812, died there, Dec. 17, aged 102.

REPAIRS TO THE KEARSARGE.

THE Navy Department has received the report of the Board of Naval Officers that made the statutory inspection of the U. S. S. *Kearsarge* at Portsmouth, N. H., dated Dec. 17. The board was composed of Capt. R. F. Bradford, naval constructor Lieut. E. Webb, naval constructor Wm. Mintonye, master shipwright Chas. A. Stimson and Master Smith Stephen T. Raitt. The board reports that the necessary repairs can be made for $47,792.26: $36,726.26 for labor, and $11,066 for material. The estimated cost of a new vessel of like materials and dimensions is $398,350, so that the percentage for the repairs will be about 12 per cent.

The estimate for repairs include: Hull, $22,709 for labor and $6,989 for material; total, $29,698. Spars, $1,798.26 for labor and $481 for material; total, $2,279.26. Boats, $3,376 for labor and $700 for material; total, $4,706. Furniture, $693 for labor and $110 for material; total, $803. Blocks, $1,416 for labor and $647 for material; total, $2,063. Tanks, $108 for labor and $2 for material; total, $110. Cooperage, $376 for labor and $37 for material; total, $413. To these estimates the Board has recommended changes adding $6,250 for labor and $2,100 for material.

THE ARMY APPROPRIATION BILL.

THE Army appropriation bill, the text of which was published in the JOURNAL of last week, was reported to the House on Saturday last. The report of the committee, prepared by Gen. Bragg, explains the various provisions of that measure. The total amount recommended is $23,642,818.69, as compared with $24,014,052 for the current year, and $24,454,450 for the previous year. For the Pay Department there is a net increase of $117,061.48, due to the natural increase in service pay, the increase in the number of retired officers, the retirement of enlisted men, etc., and an increased amount to be provided for enlisted men discharged. Upon recommendation of the Pay Department mileage has been reduced from $130,000 to $85,000. There is no change for the Subsistence Department or for the Engineers, except an appropriation of $10,000 for Hot Springs Hospital and a saving to that amount on the new building at Willet's Point provided for last year. $7,800 is allowed the Q. M. Dept. for the Hot Springs Hospital, a reduction made in allowance for transportation by Land Grant Roads from $85,000 to $50,000 and for clothing from $1,250,000 to $1,150,000, which last the Committee submit with the concurrence of the Q.-M. General as sufficient. 25,000 multiplied by $42 (the approximate value of a soldier's clothing) equals $1,040,000, and the enlisted men of the Army never reach 25,000. June 30, 1886, they were 24,236; June 30, 1885, 24,705, and June 30, 1884, 23,946. Again there was paid to enlisted men on discharge last year $245,590 in cash for clothing not drawn, an average of $49.118 for each year of enlistment. This year the estimate for that purpose is $346,534.43. The Committee say:

The Committee find, on investigation, that for the last fiscal year there was drawn from this fund, by the management of the Military Prison at Leavenworth, $160,815.72, and that the boots and shoes of the Army have been and are being manufactured at such prison by military convicts. The committee are satisfied that the boots and shoes manufactured at the prison cost more necessarily than if they were made and furnished upon contract by manufacturers of boots and shoes. There is of necessity that lack of skill and aptitude in a convict which are found in the professional workman. In fact, the tables of the cost of shoes in the Army for a series of years proves that prison labor enhances the cost of shoes and boots for the Army. It is also asserted by officers of the Army that the convict shoe is not sustantially made, and that the workmanship is defective, so that the shoe is of little value. But in fairness it must be stated that this is stoutly denied, and the committee do not feel willing to express an opinion at this time upon this mooted question, upon which they may be called to act in the future upon a full presentation of all the facts bearing upon the question. The committee, however, cannot forbear from expressing their conviction that the United States Government should not build up a manufactory to be run by convict labor in competition with the honest artisan who supports his family by the product of his labor.

Is is also the belief of the committee that a sentence to the Leavenworth prison for desertion, followed by an education as a shoemaker, a harnessmaker, a chairmaker, or a broommaker, good quarters, good living, a suit of clothes at the expiration of the term of sentence, transportation to his home, and $5 to refresh himself with, has no such terror in it as to suppress the crime. In a humanitarian point of view much can be said in favor of it, but as an aid to military discipline the committee think it too weak. The committee, as a step in the progress of reformation, have put a limit of $125,000 upon the amount that can be expended out of the clothing fund at the Military Prison for the current year, and express a hope that in the near future the business of shoemaking as a penalty for desertion will be abandoned.

There are two other limitations in this department—one providing for a reduction of the draught animals in the Army to 5 000, and the other imposing a restriction upon division and department commanders in making orders incurring expenses to be paid for out of the appropriation for this department. The committee regard each of these limitations salutary, as tending to reduce expenses, and at the same time not impairing in any way the efficiency of the Army.

The Ordnance Department is provided for substantially as last year, except in the appropriation for manufacture of arms at Springfield. The committee make the same recommendation as last year, that the sum be reduced to $300,000 from $400,000 because they believe it not wise to proceed in the construction of an arm to be put in store for the next war when *non constat* but long before that time the progress of invention will make the arm in store second rate. Our Army is now fully equipped; we had in store, as appears from the Report of the Chief of Ordnance, on June 30, 1886, 150,127 breechloading rifles and carbines. The appropriation of last year will bring this number up to 189,000 and a fraction. The reduction proposed will reduce the annual product of the armory but 9.000 and a fraction, which the committee think ought to be done.

The remainder of the bill is precisely as the law of last year. The committee recommend that the bill pass.

DEFENDING US ABROAD.

CONSIDERABLE discussion has been awakened in England by the appearance in the London *Engineer* and *Engineering* of the advertisement signed by Secretary Whitney asking designs for the new vessels, "especially from all naval constructors, steam engineers, and ordnance officers of the Navy having experience in such work." Some remarks upon the subject which appeared in a lecture delivered by Mr. John Ward led to the publication of the following:

UNITED STATES LEGATION. NAVAL ATTACHÉ,
103 VICTORIA STREET, LONDON, S. W., Nov. 18, 1886.

To the Messrs. Denny, Dumbarton:

DEAR SIRS: I have to-day a *Dumbarton Herald and County Advertiser*, the sending of which, I suppose, is due to your kindness. I have not the pleasure of Mr. Ward's acquaintance, to whose lecture you draw my notice, but I trust he knows more about shipbuilding than he seems to know about worldly matters. I much regret to see any one lend himself to the vilification of his countrymen, which has been continued against public officials in England for so long a time, and which is so unfoundedly besmirching the good name of the country throughout the world. I have a great regard for Britain and its people; my intercourse has never tended to make me think that any of her officials are other than gentlemen and honorable men, and I read these reckless statements which are so rife with great regret. I think it is a pity that Mr. Ward should have left his subject to soil his hands with mudthrowing.

I am, very sincerely yours,
(Signed) F. E. CHADWICK.

Mr. Ward replied, denying the charge of "vilification," and saying, in substance, that as a British subject he distinctly and emphatically declared that he considered it his duty to warn his countrymen in the service of the Admiralty against the temptation put before them by the United States Navy Department, seeking to undermine the integrity of those in whom the country ought to have confidence. To this Mr. Chadwick replied as follows:

116 SLOANE STREET, LONDON, Nov. 22, 1886.

DEAR SIR: I was not more explicit in the letter you refer to because the accusation seems to me almost too absurd to need to be denied. I will now say as explicitly as possible that our Government had no intention whatever of asking any official of the British service to design in answer to the advertisement mentioned; has received no offer from any one of them to do so; nor has any intimation whatever in the subject passed. Further, our Government has never asked any official of the British Government to make any design; nor has any one of them ever offered to design for us; nor has any intimation passed that any design might, could, would, or should be made. I think this is as categorical as I can make it, and I trust it will satisfy your own mind at least.

I would also say that when the Secretary of the United States Navy makes public a document over his official signature, speaking of "officers of the Navy," he means necessarily those of the Navy over which he presides, and any other meaning to my mind is very surprising and far-fetched. The advertisement was a copy of that first published in the United States, and the wording had reference to the conditions there.

And why should anyone desire to do the thing you speak of? The best armorclad of the tonnage asked for in the advertisement, built in this country, was not of Admiralty design. There are a number of firms having every necessary experience. None of the more modern usages are even of British origin either in theory or practice. Minute subdivision, horizontal and inclined protection in preference to vertical, the barbette system, all had their origin and first and most extensive application elsewhere. Without casting any reflections whatever upon Government constructors who are, I believe, as able as any anywhere, I can see no reason for wishing to go beyond the private builders.

There is one more point which I would wish to speak of—viz., the public seems to forget that there is a Board of Admiralty composed of most distinguished and able men. Is it reasonable to suppose that they need outside help to preserve the dignity and discipline of the service which they administer, or that they are less careful of its honor than yourself, for instance?

The whole of this agitation has grown out of irresponsible newspaper talk, and I must repeat that I am extremely sorry to see men whom I believe thoroughly honorable and upright spoken of in the manner which has been so customary for some months past. I can only regard it as a sort of the insanity now so rife in France, where one cannot carry a sketch-book without risk of inconvenience with anything sketched in it less innocent than a cow.

You speak of publishing this correspondence. You are quite at liberty to do so. It ends, however, on my part here.

I am, very truly yours,
F. E. CHADWICK, Commander U. S. N.

THE CASE OF REAR-ADMIRAL CARTER.

THE bill for the relief of Rear-Admiral Carter came up in the Senate on Friday. The Committee reported in its favor, as we stated last week, detailing his services, and saying:

The records of the War and Navy Departments show that he performed his various duties with zeal and faithfulness. Early in 1866 he was honorably mustered out of the military service and returned to his duties in the Navy. In 1881 he was retired as commodore, and in the following year was nominated by the President, and confirmed by the Senate, as rear-admiral on the retired list. During his service in the Army he, of course, lost all opportunity of being specially advanced in the Navy, as happened to numbers of his fellow officers. Believing, as the committee do, that it was not the intention of either the President or Senate to confer a mere empty honor on this officer, whose whole record is so honorable, they, as an act of simple justice to him, recommend that this bill do pass.

Mr. Edmunds said: "I should be glad to hear some oral explanation about that. I do not quite understand this case from this report. Is it possible that under the laws of the United States this gentleman held at the same time a commission in the naval service and a commission in the military service? If he did not and could not, as I should suppose he could not, he entered upon his career in the Army and went through with it and then was reappointed into the Navy.

"It would seem that the object of this bill is to put him in a pecuniary condition that he might have been in if he had been specially advanced had he staid in the Navy. Well, special advances are only made for acts of extraordinary gallantry or from extraordinary public service of some kind which depended upon the fact that it was accomplished and done. Now to give this gentleman this large amount of money or small amount, whatever it may be, upon the score that he lost the chance of doing a very extraordinary thing in the Navy which would have been thought to merit and would have received if he had done it and had been thought to merit it an advance in the line promotion, being put forward twenty numbers, seems to me to be going far beyond the notion of proximate causes, even on any ground upon which a special grant could be made to this gentleman. But perhaps it can be all explained. It certainly does not look very inviting to me just now.

The bill was passed over informally, at the request of Mr. Harris.

BRIEF OBSERVATIONS BEYOND THE SEA.

To the Editor of the Army and Navy Journal:

PLEASE allow me to submit the following brief notes of observation, recorded by me while on a tour through Europe in 1878, which have never been presented for decent interment amongst the archives of the War Department.

That at guard-mounting on the paved area in front of St. James Palace, in London, neither officers nor enlisted men wore any gloves. This custom obtained among the sentries on duty at the public buildings, and even at Buckingham palace, probably with a view to the safe handling of the piece.

That at Chester barracks (a place old in history, where the Roman lines of castrametation still exist) I heard the command, "right dress" given to, and obeyed by, a company of Her Majesty's Foot while at an "order."

That in Germany, *hic et ubique*, I saw Uhlans in full dress returning from inspection and drill mounted on mares: this is not so very strange when one sees in the same country, day after day, cows doing the work of oxen, harnessed to a cart and drawing a scant supply of vegetables to market. On the first house by the roadside, at the entrance to every village, was nailed an iron placard setting forth the number of soldiers, with their company, regiment, brigade, and corps, that was due and should be forthcoming for the king's armies.

That in Belgium and throughout Bavaria the railway cars were inscribed with the royal arms, and on each expressed its carrying capacity as of so many men and horses equipped for war: this to insure a prompt mobilization of the king's forces, regardless of commercial traffic. At every cross road was a gate keeper, sometimes a man, more frequently a woman, who stood to attention and saluted the passing trains. The gate which closed the crossroad was nothing more than a pole painted spirally in alternate stripes of blue and white, which are recognized and respected as the royal colors.

That at Oberlandstein, on the road to Wiesbaden, (where, *par parenthèse*, I saw the ex-Empress Eugenie, still beautiful, and heard her Majesty, in mellifluous French, denounce *les têtes carrées* for inattention to her demands,) some German officers, with ladies on their arms, passed across the line of sentries, and both escort and lady returned the customary salute.

At Verona, where we halted to see the beautiful tomb of Juliet, and the magnificent amphitheatre of Diocletian, built of Pentelican marble, unfinished, yet perfect in all its symmetrical outlines, King Humbert of Italy was hourly expected to pass by on his way to Venice, and the station was profusely decorated with marguerite flowers, the Queen's favor; the whole town was crazy with enthusiasm; the military turned out in heavy marching order, and, although the season was midsummer with the mercury standing at 109 degrees in the shade, the soldiers wore their overcoats out of respect to their majesties, God bless them!

At Innsbruck, under the dome of the Hofkirch, repose the ashes of Maximilian the Great, within a tomb of marble and glass, the grandest ever erected to man's memory, around which stand, keeping watch and ward forever, the twelve colossal statues of beaten bronze: King Arthur, of England, the mythical knight, (*flos regum et fons honoris*); Philip le Bel, Duke of Burgundy, with his crazy wife; Godfrey de Bouillon, Tancred, Knight of the Holy Sepulchre, and Charlemagne, all paying obeisance to departed majesty. There we saw an Austrian regiment turn out for drill, preceded by the band, a diminutive pony, scarce three feet in height, drawing a chariot, to which was fastened the bass drum, with the drummer behind *sans souci*, and a double row of spectators ranged alongside noisily applauding, not the least demonstrative among them priests of the church, habited in their customary suit of solemn black, wearing troopers' boots extending above the knee.

In the public square of Brussels, where the fateful thunder of Waterloo is now but a memory, dim, and fading into doubt, there stands the equestrian statue of Godfrey de Bouillon, King of Jerusalem, whose deeds will survive the memorable contest that changed the map of Europe, and live as long as human imagination can invent appropriate garlands for the brow of chivalry. *Exegi monumentum ære perennius* Both warrior and destrier are true to life, when life was a sad experience; the one gaunt, yet nervous and sinewy; ears pointed, nostrils expanded, eyes aflame, caparisoned with worn and wanting details as though outfitted at far Byzance or Trebizond; the other wearied, yet unbending; erect, square-shouldered, gorget awry, garments limp, ragged, and patched, covered with the dust of battle; he sits lightly laden with his *spolia opima*, facial lines hard drawn, eyes hollow, with a far away look; thoughts introverted, heart full of courage to foil the infidel for Jesus' sake. "*Dieu le volt:* this is the will of God." He pleads and presses his last argument for his last crusade, in the bustling mart, to unwilling listeners; to ears that hear but do not heed.

And within the shadow of the great crusader's effigy, within the focus of its melancholy gaze that swept, perhaps, the plains beyond Vienna, the waters of the Danube, and far across to the malarial swamps of the Dobrudja, the cactus covered desert, between Joppa and the sacred walls of the Holy City, forgetful, if she had ever learned, of the great wars between Frank and infidel, Hun and Turk, that made ambition virtue; unmindful of the hecatombs of slain, and scarce regarding the dread exponent of all this misery and travail of earth's denizens, there trudged and trafficked a weary woman; blue eyes had long since lost their sparkle, her cheek faded and furrowed with many lines of sorrow, her lips twisted and ill-shapen, Cupid's bow unbent; this daughter of Eve, expelled from Paradise, was harnessed with collar and chain to a mangy dog; the pair drawing with unequal step a wagon load of a dozen or two of cabbages. "From the sublime to the ridiculous is but a step."

Yet why should we carp and criticise because these are not the fashions in beloved America? Let us live and learn. There be apples worth tasting which grew outside of Eden, "over the garden wall."

CARTOUCHE.

POEM BY MILES O'REILLY.

To the Editor of the Army and Navy Journal:

THE following poem, entitled "The Canteen," is, doubtless, known to many of your readers who were acquainted with Charles G. Halpine—Miles O'Reilly. I do not know whether in its perfect form it has ever appeared in any volume of his printed works. At all events, it will be probably published in the near future, in a new edition of Gen. Halpine's writings, which will contain much that has not hitherto appeared in any work more permanent than that of a daily newspaper. The following copy I was allowed to transcribe from the manuscript in the possession of General Halpine's widow, Mrs. Margaret G. Halpine, 1202 Twenty-first St., N. W., Washington City.

L. L. LANGDON, U. S. A.

There are bonds of all sorts in this world of ours,
Fetters of friendship and ties of flowers,
And true lovers' knots I ween;
The girl and the boy are bound by a kiss,
But there's never a bond, old friend, like this—
We have drunk from the same canteen!

It was sometimes water, and sometimes milk,
And sometimes applejack, fine as silk,
But whatever the tipple has been,
We shared it together, in bane or bliss,
And I warm to you, friend, when I think of this—
We drank from the same canteen!

The rich and the great sit down to dine,
And they quaff to each other in sparkling wine,
From glasses of crystal and green:
But I guess in their golden potations they miss
The warmth of regard to be found in this—
We have drunk from the same canteen!

We have shared our blankets and tents together,
And have marched and fought in all kinds of weather,
And hungry and full we have been:
Had days of battle and days of rest,
But this memory I cling to and love the best—
We have drunk from the same canteen!

For when wounded I lay on the outer slope
With my blood flowing fast, and but little hope
Upon which my faint spirit could lean;
Oh, then, I remember, you crawled to my side,
And bleeding so fast, it seemed both must have died
We drank from the same canteen!

TOMMY ATKINS AS A REFORMER.

To the Editor of the Army and Navy Journal:

Holding no rank, and having no authority whatever, I like to think of what I would do if I had power to do as I would. I have dropped into the habit of lying awake of nights thinking of the reforms I would introduce into the Army if I could; and I long to see these thoughts of mine clothed in the beauties of your type.

I would begin at the bottom of the structure and reform the enlisted man. I know he needs it, for I am one of him myself. I have not the statistics at hand, but I believe the desertions during the year covered by the last annual report were a trifle less than two thousand; and the military authorities have been congratulated because the number was so small. But *is* it small? To be sure, two thousand is less than three thousand, but why should there be two thousand? Why should 28 or 30 per cent. of the men enlisted desert within a year? Is this condition of things the result of ill treatment? All officers of the Army will answer no. Then the cause of so much desertion must be the worthlessness and restlessness of the guilty ones. Recruiting officers are located only in the large cities. Although there is a pretence of enlisting none but men of good character, as a matter of fact no inquiry is ever made into the character of candidates for enlistment. Under the existing method of recruiting, such inquiries would hardly be practicable. A large proportion of the men who offer themselves for enlistment do so as a last resort. Convivial habits have made them unreliable and worthless in any ordinary employment. Such men cannot be contented under the restraint of military discipline. They become restive, and soon yield to the temptation to take advantage of the open door and fly.

Now comes my scheme for reform. I would close every recruiting office in the country. I would make a recruiting agent of some county official in every county in the United States. I would appoint a superintendent of recruiting agents in every State capitol, (say the adjutant general of the State.) I would appoint in every town where there was a recruiting agent an examining surgeon. I would compensate these men by fees, and would require them to vouch for the good character of every man enlisted, and hold them responsible for any carelessness in the performance of their duties. I would confine enlistments to persons known to the agent, or persons who could bring the best of testimonials as to character. I would furnish to each applicant a printed statement of the duties of a soldier, including everything he may be required to do in the ordinary course of garrison or field service, and I would require him to read it carefully before enlisting him. I am sure there are plenty of young men of good character living on farms and in the country towns who would be glad to enlist, if the opportunity to do so were offered to them at home. Under this plan the Army would be relieved of the restless and migratory birds that make up the sum of desertion.

I would introduce some reforms into the recruiting depots. I think the experiment of treating recruits kindly would be worth trying at least. I would do away with that class of non-commissioned officers whose only conception of authority is noise, and whose stock of abusive epithets is ridiculously out of proportion to their other acquirements. I would find drill instructors who could manage to impart a knowledge of tactics without finding it necessary to abuse their pupils. To be sure, Mr. Benjamin Bunsby's comprehensive store of knowledge was "beat into him with a belayin' pin," but on the whole I think it will be acknowledged that this is rather a crude method of instruction.

I would reform the ration. It has been repeatedly asserted by officers that a large majority of enlisted men get more and better food in the Army than they ever got outside of it. This statement is simply absurd. It is made on the supposition that the majority of soldiers were tramps before they enlisted, or it is made without a proper knowledge of the facts. I was not even aware that any such stuff as the salt pork issued to soldiers was eaten by human beings until I enlisted. An acquaintance of mine who has had an extended experience as a tramp, assures me that he never got anything half so mean in a "hand out."

These are only a few of my reform ideas. If you take kindly to these I may give others an airing through your columns in future.

TOMMY ATKINS.

THE TRUTH CONCERNING THE MARINES.

To the Editor of the Army and Navy Journal:

IN your issue of Dec. 11, you reprint a libellous article from the New York *Times* of Dec. 4, concerning the Marine Corps, purporting to be the views of one or more "Bureau officers" of the Navy Department. This article, which is scurrilous in character and false throughout, was replied to by me immediately after its publication, the reply being addressed to the editor of the *Times*, but he did not see fit to publish it which, to say the least, speaks ill for the fairness of his paper.

In the reprint by you, you invite a reply and I have waited one week hoping to see in the issue of Dec. 18, some comment upon it from a more worthy pen than mine, but I have hoped in vain.

I am now inclined to the belief that these vicious falsehoods are the creation of the fertile brain of the *Times* reporter, or else that he has "interviewed" some petty understrapper connected with a Bureau in the Navy Department and given out that the interview was with some Chief of Bureau who is the only person officially known as a "Bureau Officer." I cannot believe that any Bureau officer would condescend to utter such falsehoods, especially where they can so easily be disproved.

In the first place, the statement is made that "the marines are the most untrustworthy people connected with the Government service." This indecently false statement is unworthy of a reply from anyone in the Marine Corps. The whole history of the Corps, whose motto (unstained by any act since its organization in 1775) is "semper fidelis," confutes the statement of this calumniator who must have had some personal reason for thus covertly maligning the marines. The promptness of the marines in the late matter of the Isthmus of Panama; their work on the isthmus, unostentatiously and faithfully performed without hope of even a kind word, is still fresh in the minds of the people, notwithstanding the efforts made to rob them of whatever credit they are justly entitled to. The marines took no newspaper reporter with them to work up a fictitious "glory" and cared nothing whether they were "puffed too much" or too little. The allusion here will be understood where it belongs.

The statement that "more than half the Naval courts martial ordered are for the trial of marines for shirking guard duty," is simply an unadulterated falsehood, malicious in intent. The Judge Advocate General of the Navy, who is a Captain of Marines, can give the lie to this statement. I make bold to assert that no marine was *ever* tried on such a charge. "Neglect of duty" is a charge sometimes brought against marines as it is brought against those serving in other branches of the Service, but not more frequently for the same number employed. Sailors are utterly worthless for guard duty. Two days ago the Department's circulars regarding the last twelve general courts-martial for the trial of enlisted men were issued here. *One* marine figured in that batch (which was a not unfair average), and I thought then of the viciously false statement published in the New York *Times*.

The statement that the "discharged men * * * almost without exception are veteran seamen," is the third falsehood in the thirteen-line article by the *Times'* reporter. Fully 75 per cent. of the watch force at Navy-yards are honorably discharged marines.

The retention or discharge of watchmen or shipkeepers is a matter of total indifference to us.

I make no apology for this long story, since you are honest and fair-minded enough to let both sides be heard, and have invited a reply. The act of giving general circulation to a low calumny and refusing to allow the calumniated to be heard, needs not to be characterized by me.

Respectfully,

SEMPER FIDELIS.

NEW YORK, Dec. 21, 1886.

ARMY REFORM.

To the Editor of the Army and Navy Journal:

IF the recommendations of Adjt.-Gen. Drum in regard to the purchase of discharges is carried out it will, in my opinion, reduce desertion fully 50 per cent., and reduce in, at least, the same ratio the number of dead-beats who try the sick report as a "dernier resort," swallowing without a kick all the nauseous medicines you can pour into them—viewing with calm indifference strapped leg and plaster jacket. It will remove the heavy weight of compulsory service for five years under any and all circumstances. The privilege, of course, will be confined to time of peace. A man enlists in good faith for five years, but events transpire in the interim, which make him heartily curse the day he made the contract. Let him pay and go; the Government is not a loser, and you have rid the Service of a discontented shirk, of but little account to the United States when he is compelled to remain in.

Now a word in regard to our non-com. officers, a subject worn threadbare already. Discharge and swear in the general non-com. staff as warrant officers; are they to-day, strictly speaking, non-com. officers? They are, it is true, enlisted, but they are all warranted by the Secretary of War. I never saw a new warrant issued at the end of enlistment—their warrant is continuous, their service expires every five years. Give them an addition of pay to cover clothing and rations, and let their other allowances remain as now or hereafter fixed by law. These men command nobody to-day except in their own departments, and the change would save a world of trouble and constitute no question of military precedence but simply remove them from the grade of enlisted men. Keep hammering away for better pay and for a better class of non-com. officers of all grades. The future will surely demonstrate the need of a more intelligent and better paid class of non-com. officers than is generally found to-day. The writer believes this step to be the great—the coming reform. The private soldier on extra duty as laborer, draws twice the pay of his sergeant; what a contrast against the soldier!

To non-com. officers above the rank of corporal allow the privilege of wearing citizen's clothing when absent with leave. This would be considered a great privilege; if abused by the individual take the privilege from the individual but not from all. If objection be made to keeping the clothing in barracks, let the man turn it into the company store room when he returns from pass. Soldiers, as a rule, whether privates or non-com. officers, who desire to go into decent society, manage to have in some convenient place a suit of "citz."—but give the men I have indicated the right to do so by law, or order.

Modify the present regulations in regard to the salute. What can be more unsoldierlike than to see a soldier dressed in brown canvas with dung fork on shoulder shift it to the rear side in order to salute his officer? Confine the salute to the time when the soldier is not cumbered with articles for fatigue use and do not require a salute when he is loaded down with utensils, bundles, and baskets.

Now a few words in regard to the ration. The ration seems to be considered by the men who have to eat it to be in the aggregate ample; *i. e.*, if they could get it all; but there seems to be a generally unanimous opinion that the addition of two or three relishes, say apple sauce, pickles, and split peas, (for soups), would be greatly appreciated, and, perhaps, be a good sanitary measure besides. Speaking for myself the "grub" seems to differ greatly in divers places, and at its best I have never seen a well defined case of gout arising therefrom. NEMO.

P. S.—Since writing the above I have read your forcible editorial on the draft riots. Let a similar scene to-day present itself in the streets of New York, and if you invoke the aid of Regular troops one-half of your discipline and results depends on the kind of non-com. officers you have in your companies. N.

COLONEL PAYNE, Mrs. Whitney's brother, who is a quinto-millionaire, is in his 50th year, has pleasant manners, and the one thing in his life he is inordinately vain of is—not his money, not his success, not his $1,000,000 house, not his palace car and his pictures, but—his sister, the wife of the Secretary of the Navy.

SOME FOREIGN OBSERVATIONS.

AN officer of our Army, travelling in Europe, writes us as follows:

GRAND HOTEL DE MADRID, SEVILLA, Nov. 21.

I am enjoying my trip very much, although if you find this letter incoherent, attribute it to my experience of this afternoon. I have just returned from a grand bull fight, and of all things disgusting, this is certainly the worst. Eight bulls were slaughtered, each in three acts; the first act, adding to the excitement and bewilderment of a bull imprisoned over night in a dungeon, without food, by having red scarfs and pricking with spears. Accompanying this, the killing of four to five horses by riding them into the bull's horns. The second act, the torturing of the bull. The third and last, the killing. The latter part is supposed to be the result of one sword thrust, but this afternoon it required from five to six for each, leaving the poor beast to suffer in the meantime.

Imagine the poor horses, sixteen of which were killed, being literally ridden upon the horns of the bull, and after being gored, making a desperate effort, notwithstanding that they were treading upon their entrails to save their riders. Once is enough of that sort of thing for me.

I have exhausted France and am now finishing up Spain, after which I go to Northern Africa, and, if time permits, through Italy and Austria, thence back to Paris and through England and return home.

Apropos of my profession, I was thoroughly pleased with what I have seen of the French Army. I arrived too late to witness the fall manœuvres, but saw manœuvres, parades, drills, etc. By the way, Gen. Boulanger is thought very highly of by his troops. He is adopting every means to comfort their woes and increase their pleasures. As you have no doubt noticed, he is endeavoring to lighten the duties on Sunday, in order to make it a day of rest for both soldier and citizen.

I received many kind attentions in France from the military, but I must confess that I like the individual physique of the Spanish soldier rather than that of the French. The latter strikes me as undersized and not of the hardy appearance of the former. Still, they are in an excellent state of discipline. I confess that I am not in love with the free and easy way in which the men of both armies gaze about them on parade, etc. Fancy a guard mounting at Madrid in front of the palace of the Queen, where the new guard marched around, in column of platoons, some men looking for sweethearts in the crowd of spectators, and all faces wearing either a smile or whiskers which could effectually hide a smile.

The officers of both French and Spanish Armies are of a highly educated class, and form a great contrast to the mass of the people. While I do not like the uniforms as to color, the dress of both Spanish and French officer as to neatness and fit of his clothing is simply perfection. They offer a delightful contrast in both Madrid and this city to the ordinary shopkeeper and mutilated beggar, who takes a drink at your expense, provided you are foolish enough to drop a few centimes in his cap.

I never fully appreciated both Gen. Sherman's and Gen. Sheridan's ideas as to the relations that should exist between citizen and soldier until I got over here. Think of a soldier, out of the kindness of his heart, helping an old apple woman to extricate her cart from a troublesome gutter and then rigidly saluting an officer passing. It was my luck on one or two occasions in France to get lost in some of the old, winding streets of both Paris and the smaller cities, and I invariably applied to a passing soldier rather than a gendarme, and was sure that I would get the information that I desired. Nor does this courtesy detract from the dignity of the soldier. Everywhere the soldier is looked up to by the populace. Happening to step in a café in Cannes, I was surprised to find a French soldier in his uniform waiting upon the different customers. I inquired of him the wherefore, and learned that his mother, who kept the brasserie, was sick, and that he had obtained a two days' leave of absence to take her place. I sat down to watch the result. Each customer who entered touched his cap politely, saying, "Bon jour, monsieur," and instead of abusing the waiter, as is the common rule, took his drink, whatever it might be, and passed out, touching his hat on leaving.

I would certainly advise any Army people desiring to come to Spain not to do so. The points of interest are so few, as compared with the amount of country to be travelled over to reach them, that it does not pay for the discomfort at the hotels and the bad cookery. Everything is expensive in this country. You pay American prices of the first class at your hotels, and when they present their bills you are charged with candles, service (for which you fee your waiter also), and a long list of other extras, which makes your bill only fit for a legacy to your grandchildren.

Let me pay a tribute to my professors of both French and Spanish at West Point. I graduated 36 in a class of 37, but I found that in both languages, with a little study of vocabularies and plenty of practice, that I could speak very fluently. It is surprising how thoroughly the French people detest the Germans. Nor do I blame them, considering that they were badly defeated by them during the last war. I was greatly amused while accompanying a friend of mine, an American, who desired to make a small sketch of a fortress, on a small island in the Mediterranean, garrisoned by French troops. We were arrested by the corporal of the guard as being "German spies," and it was only by the production of the passport given me by our Secretary of State that we were spared an uncomfortable experience. I imagine I look about as much like a German as a church steeple does a jack-knife, but still I was informed that it was quite a natural mistake, etc. I must say that they were very ready to acknowledge their blunder, since the officer in command entertained me very nicely afterwards.

C. L. C.

THE four germans to be given by the Army and Navy Assembly of Washington will take place Jan. 3, 17, 31, and Feb. 14. Rear Admiral Upshur is president and Gen. Macfeely vice-president. The executive committee are Major Lydecker, Major Goodloe, Lieut.-Col. Stanhope, Major Tucker, Lieut. Duvall, Lieut. Lemly, P. Asst. Engr. Tobin, Lieut. Marix, and Lieut. Reamey.

THE STATE TROOPS.

ARMS AND EQUIPMENT FOR MILITIA.

WE give here the text of Sen. 222 (known as the Sewell bill) which passed the House on Monday, and will become a law if the two Houses can reconcile their differences as to the amount of the annual appropriation. In the bill, as it passed the Senate last session without opposition, the amount was fixed at $60,000.

Be it enacted, etc. That Section 1661 of the Revised Statutes be, and the same is hereby, amended and re-enacted so as to read as follows:

"Section 1. That the sum of $400,000 is hereby annually appropriated, to be paid out of any money in the Treasury not otherwise appropriated, for the purpose of providing arms and ordnance stores, quartermaster's stores, and camp equipage for issue to the militia.

"Secion 2. That said appropriation shall be apportioned among the several States and Territories, under the direction of the Secretary of War, according to the number of Senators and Representatives to which each State, respectively, is entitled in the Congress of the United States, and to the Territories and District of Columbia such proportion and under such regulations as the President may prescribe: *Provided, however*, That no State shall be entitled to the benefits of the appropriation apportioned to it unless the number of its regularly enlisted, organized, and active militia shall be at least one hundred men for each Senator and Representative to which such State is entitled in the Congress of the United States. And the amount of said appropriation which is thus determined not to be available shall be covered back into the Treasury.

"Sec. 3. That the purchase or manufacture of arms and ordnance stores, quartermaster's stores, and camp equipage for the militia under the provisions of this act shall be made under the direction of the Secretary of War, as such arms, ordnance, and quartermaster's stores and camp equipage are now manufactured or otherwise provided for the use of the Regular Army, and they shall be receipted for and shall remain the property of the United States, and be annually accounted for by the Governors of the States and Territories, for which purpose the Secretary of War shall prescribe and supply the necessary blanks and make such regulations as he may deem necessary to protect the interest of the United States.

"Sec. 4. That all arms, equipments, ordnance stores, or tents which may become unserviceable or unsuitable shall be examined by a board of officers of the militia, and its report shall be forwarded by the Governor of the State or Territory direct to the Secretary of War, who shall direct what disposition, by sale or otherwise, shall be made of them; and if sold, the proceeds of such sale shall be covered into the Treasury of the United States."

The bill would have passed the House last winter had it been reported in season by the chairman of the Committee on Militia. In the House there were 199 votes in its favor to 44 against 28 not voting. There was very little discussion of the bill, and no serious objection to it. Mr. Forney being asked why the House had reduced the appropriation to $400,000 said: "Because they thought $400,000 was sufficient for the purpose. You will bear in mind that this is a permanent appropriation, and that there is a steady improvement going on in arms. If you purchase a large quantity under the terms of the bill, and improvements are made hereafter, such purchase will have to be thrown aside."

Mr. Steele was in favor of the bill and voted for it, but he thought that it did not sufficiently provide for the care of Government property. He said: "Say to-day the Government issues $200,000 worth of arms and camp equipage, and it goes into the hands of the militia. They may go on a 'bender' to-morrow, and allow the tents to be put away in a wet condition and no care taken of the ordnance stores. The tents will be damaged by the wet, become rotten and worthless, and then they have only to call a board of militia officers and say, 'here, we have destroyed these tents and we want others;' and yet the very board of officers that permitted them to be destroyed will pass upon that question and say it is necessary and desirable that they should have new tents and stores. The old ones are turned back to to the United States Government and a new supply furnished."

THE THIRTEENTH NEW YORK COURT-MARTIAL.

THE court for the trial of Major J. F. Ackerman, of the 13th New York, certainly deserves credit for the businesslike and prompt manner with which the case is conducted. There is nothing here like the delay in the sessions, and the irrelevant testimony introduced in the Smith case, which is not yet finished. "I never heard of an exception in a military court," said the President of the court, Lieut.-Col. Heman Dowd, of the 12th Regiment, when the lawyer of the accused attempted to apply the same tactics which has drawn out the Smith trial to its unnatural length. The exception taken being trivial, the court good-naturedly added: "You can have it." But the little incident at the outset at once gave the defence an idea of the temper of the court, and, in consequence, we see pettifogging reduced to the minimum, while the diligence with which the court itself has taken the matter in hand points to a speedy decision in this case. There have already been four sessions of the court, which only began on Thursday, Dec. 16.

On the first day Lieut. Alexander and Capt. Smith testified. The 2d Division Court was held on Saturday, Dec. 18. It was rather short because a mistake on the part of some members as to the time for convening. After some discussion 1st Lieut. Henry C. Clarke took the stand and testified in substance as follows: "I saw Major Ackerman at the armory in uniform on the night of the inspection; had conversation with him that night; he came to me about 10.30 during the inspection; he said: 'Don't you accept any position on the staff under Col. Fackner, as it will only be for a short time, as he cannot command the 13th Regiment; you will simply be committing military suicide;' he said that he had visited Albany and seen all the State officers and that they were all on his (Ackerman's) side, and that Gen. McLeer was also on his side; they all had said that Fackner could only last a short time. He also said that 95 per cent. of the regiment were against Fackner. I did not think of that last Friday night when testifying. It surprised me when he said the people at Albany were for him. Major Ackerman did not say anything about the rumors of disbandment of the regiment, nor did he say that the regiment would not be disbanded, nor did he refer to it in any manner. I will swear to it. I will swear that he said nothing like that. Ackerman told me one night that he did not see how any decent man could accept a position on Fackner's staff." Col. Fackner was elected on Sept. 9; Major Ackerman was present, as were enlisted men; they were between the Council of Officers' room and the Quartermaster's room. Col. Fincke made the announcement; quite a number of the regiment hissed; Major Ackerman and several officers went out; there were also cheers for Austen; I did not see him make any endeavor to quiet the demonstration.

Cross-examination did not shake his testimony, but brought out the fact that Maj. Ackerman did make no attempt to stop the hissing in his presence on the night of the election of Col. Fackner. Lieut. Chas. P. Fish, who followed, testified: "I was with Capt. Smith in our company quarters. I talked with Maj. Ackerman at that time. Capt. Smith was present when Maj. Ackerman came into the room. He said: 'Well boys, how are you going to turn out to-morrow?' Capt. Smith answered: 'As good as can be expected in view of the insubordination.' Maj. Ackerman replied that there was no insubordination. The next turn of the conversation was when the major said the colonel had shown himself weak. The conversation went from one thing to another until the election was spoken of. Maj. Ackerman said there had not been a free and untrammeled ballot. He said that he thought it was time that it should be demonstrated that a man was not greater than the organization. Capt. Smith said he did not propose to have Ackerman pull down what he and his lieutenant were trying to build up. Later the major said it was just a matter of time when Fackner would have to get out. Ackerman said the colonel would have to go or he would be forced to go. I asked Maj. Ackerman if he had reconsidered his decision to resign. He said he would answer the next day, but that he had enlisted for the war. I was present at the time the vote was announced. This was followed by a demonstration. I called Maj. Ackerman one side."

The witness remarked on the occasion to Major Ackerman: "You, more than any man, could stop this demonstration." He said he thought I overrated his power. He turned away from me and I did not see him again. We went out when cheers were given for Austen. When I first heard the cheers and hisses I saw Ackerman and I never heard him say a word. I don't know what stopped the hissing. I will swear that he did not stop it then. I did not see him raise his hand or make any effort to stop it. The hissing ceased about 5 minutes after he went out. I don't know what stopped it. There was cheering after I went back into the room." He also testified that Major Ackerman said Col. Fackner would have to go or be forced to go.

In the Smith case the evidence is all in, but the arguments have not yet been made.

THE NATIONAL DRILL.

MR. DE LEON, Secretary of the National Drill Committee, who is now in the West on business connected with the success of the scheme, writes from Louisville that he expects the 1st Kentucky Regiment and several companies of the State Guard will compete for the prizes. In Cincinnati, Col. Moore and Major Pettibone, of the 1st Ohio, expressed themselves to Mr. De Leon as very anxious to carry their ten companies to represent that city by a full regiment. Transportation and cost of moving such a body was stated as the only difficulty, and he thinks that the decision of the Central Traffic Association to give the soldiers a rate of three-fourths of a cent a mile will remove that.

The drill, it is said, is creating great interest throughout the West. The military feature of the last two Presidential inaugurations has made the militia of the country familiar with the unusual advantages Washington has in its smooth, broad pavements for a great military parade.

HONORS TO COLONEL CLARK.

Col. Emmons Clark is about to receive another proof of the high estimation in which he is held by members of all rank in the 7th New York. On Jan. 22 next, he will complete 30 years of loyal and valuable services in a regiment which is not only the largest but also the most celebrated among the citizen soldiery of the country. To celebrate the event the rank and file have determined to hold a mammoth banquet in the Armory, which has only one drawback, and that is that there is not sufficient room to accommodate all, and, therefore, only 18 tickets will be allowed to each company. That these tickets are much sought for goes without saying. The success of the affair is a foregone conclusion, as the 7th never undertakes anything that is not carried through to a successful issue. The committee in charge includes Lieuts. E. Graham Haight, Walter G. Schuyler, and Walter S. Wilson, with the following as auxiliaries: Co. A, Theodore Wilson; Co. B, David Valentine, Jr.; Co. C, Frank McCoy; Co. D, George W. Robinson; Co. E, William J. Gilpin; Co. F, W. T. Peck; Co. G, W. M. Ballard; Co. H, T. M. Halsey; Co. I, H. C. Duval; Co. K, James L. Beyea; non-commissioned staff, George G. Stowe.

From a circular issued in the matter we quote as follows: "The 7th Regiment is considered comparatively an old organization, and when we pause and think that for nearly half its entire existence of 62 years Col. Emmons Clark has been in active membership, and for over 22 years—more than one-third of its whole history—its able and honored commander, we shall begin to perceive how worthy he is of our individual and general admiration and esteem, and how little we can do to show our appreciation of his great services and unremitting interest. 'Peace hath its victories no less renowned than war,' ane while, during his long command, the regiment has not been called into the field, we can all see the great strides it has made, under his guidance, in strength, drill and discipline. He alone made the great armory a possibility, from being merely a castle in the air, and it stands there—his monument. Though 'envy loves a shining mark,' the ever rampant spirit of detraction has left him almost unscathed, because, during all these years, from the beginning until now, his aim has been, not selfish aggrandizement, but ever to increase the lustre that surrounds the name of the 7th Regiment, and from which he derives but a reflected glory."

It is intended to invite President Cleveland, Gens. Sheridan, Schofield and a number of other celebrities.

MILITIA ITEMS.

The whistle calls for skirmish drill prepared by Col. Edmunds, of Massachusetts, were tested by Co. I, 47th Regt., Capt. W. H. Eddy, and quite a success was obtained. So far, drilling by this means has not proven very popular, as only one instance, that of Co. F, 14th Regt., is on record where the whistle was introduced. Those who have witnessed the practice pronounced it quite satisfactory.

The Armory Board held a meeting this week at which it allowed $500 for making the necessary surveys and borings of the sites selected and purchased for the armories of the 8th and 22d Regiments, and $360 for extra plumbing in the 12th Regiment Armory. Communications were received from several real estate agents offering plots of ground for armory sites. These were filed except three, one on 7th ave., between 52d and 53d sts., a second on the south side of Lexington ave., between 47th and 48th sts., and the third the block bounded by 4th and Lexington aves., 33d and 34th sts., owned by the New York and New Haven Railroad Company. President Coleman said this site was not available, as there was a restriction that only dwelling houses should be erected on it. Capt. Coleman, of the 69th regiment, said that his regiment was anxious to obtain this site for an armory, and he thought the restrictions could be removed. He had communicated with the representatives of the owners, and he believed that the restrictions would not apply to the erection of an armory. The probable cost of the ground would be $475,000, but possibly the city might get it for less. The upper half of the block is now a private playground. The Controller was authorized to pay Mahony Bros., contractors, for the building of the 12th Regiment Armory a third payment of $10,266.20, and a fourth payment of $13,826 for work done.

Brig.-Gen. Louis Fitzgerald officially announces the appointment of Col. Thomas L. Barber, Asst. Adjt.-General; Maj. Clarence H. Eagle, I. R. P., and Maj. E. C. Stanton, Signal officer. In returning Lieut.-Col. W. J. Harding to his duties in the 22d Regiment, he pays a high tribute to the ability of that officer and the manner in which he discharged the duties of Acting Asst. Adjt.-General. He has also written a flattering private note in which he thanks Col. Harding warmly for his services and the sacrifices of time he made, and expresses a hope for a continuation of their pleasant personal relations.

Henry J. Jordan, recently elected 2d Lieutenant of the 2d Battery, has not yet appeared before the Examining Board. The 2d Battery announces a drill by the 1st section, followed by a reception, on Jan. 11 next. The hospitality of the Battery at these occasions is as well known as its tactical ability, and the entertainment will prove interesting on both points.

Co. K, 12th Regt., Capt. John F. Boylan, will give a reception at the Armory Jan. 3 next.

The Brigade Court which met on Wednesday, Dec. 22, tried 37 cases for absence without leave, all of them officers.

An athletic entertainment will be given by the 22d N. Y. Jan. 22 next, under the auspices of Co. B, Capt. W. V. King. The programme will be a comprehensive and interesting one. It is expected that a foot race for officers will form one of its parts. Twenty-five members of Co. B were at Philadelphia on Saturday last as participants in the athletic games of the 1st Pennsylvania Regiment. They returned home covered with honors, having beaten the teams of the 1st Pennsylvania, the 7th Maryland, and the Schulykill Guards in tugs of war. Co. B assumes a foremost position wherever soldierly qualities and endurance are the factors which determine the results.

In commenting editorially upon the Ackerman trial in the 13th Regiment the New York *Herald* says: "The court-martialling of Maj. Ackerman, of the 13th Regiment, shows the high standard of military propriety and discipline that prevails in the National Guard. He called the colonel a thing." In this wholesale condemnation of the entire State force for the sins of a few the *Herald* doubtless expresses the popular judgment. The incorrect impression here conveyed finds more excuse in the apparent apathy shown by our military authorities in dealing with a case of insubordination which should have received more prompt attention. The National Guard has many enemies, and its very existence and proper maintenance depends upon a vigilant maintenance of its own honor. It must convince the people by its conduct that its members are soldiers and not a mob. This cannot be accomplished by ignoring flagrant wholesale outrages against discipline and every military principle. When the appropriation for the maintenance of the Guard, during the next year, comes up for discussion in the Legislature, the consequences of the 13th outrages will doubtless be shown in an unmistakable manner. Our cry from the beginning has been for prompt action, and our predictions as to the results of neglect are justified by these quotations from the *Herald*. Guilty and innocent are condemned alike.

The annual dinner of the Board of Officers of the 22d New York was held at the Brunswick on Saturday evening, Dec. 18. It may be regarded as a strict family party, as only Maj. Gen. Josiah Porter and Ex-Maj. Thos. H. Cullen were present as invited guests. A class of instruction of officers in regulations was held at the armory of the 22d New York on Friday evening, Dec. 17, with Lieut. Col. W. J. Harding as instructor, who also presided on Monday evening, Dec. 20, over an election of a captain for Co. E in place of Freeman, resigned. As we predicted the unanimous choice fell on 1st Lieut. N. B. Thurston, well known as guard instructor during several seasons at the State camp, and an accomplished National Guard officer. Sergt. W. D. Hawes was on the same occasion elected by a vote of 59 out of 61 (with one blank) to the position of 2d lieutenant, recently vacated by the appointment of W. B. Smith as adjutant. Lieut. Col. Harding commented upon the election in a few well-chosen remarks.

The election of a brigadier-general to command the brigade of Maryland National Guard, which by act of the last Legislature is to constitute the military force of the State, is being canvassed in military circles. Col. Stewart Brown, of the 5th Regt., is acting brigade commander. There are several candidates, including Col. Brown, Gen. Bradley S. Johnson and Gen. T. J. Skyrock.

The Court of Claims gave judgment, Dec. 20, for $10,316 in favor of the 4th Brigade of South Carolina, in their suit against the United States for the use of a building at Charleston by the U. S. troops during the war.

The Cincinnati *Times* says: "The changes in the facings of the uniforms of the National Guard are going on rapidly. The white will look mighty 'purty' for awhile, but just wait until they get a dose of a week in camp. O, my! That's the trouble, the white will soil so easily. But then it is regulation, you know."

(Correspondence of the Army and Navy Journal.)

ILLINOIS NATIONAL GUARD.

SINCE the return of the troops from active duty at the stock yards militia matters have been quiet in this city. With the exception of an unusual supply of balls, parties, reunions, etc., the only event of interest was the presentation of the "Long and Honorable Service Medal" of the 1st Infantry. This medal was presented to those members of the regiment who have served nine years (three terms of enlistment) in this regiment. The design and medals are from Tiffany and Co., and it is not saying too much when it is stated that it is the finest piece of work the writer ever saw. Of bronze, with the cross rifles and oak leaves, it is suspended from a bar bearing the motto "Pro Patria."

Assembly was sounded at 8.30 P. M. and the regiment marched to the upper hall of the armory by company, as it was not deemed judicious to risk marching the whole command on the floor at once. As soon as line was formed, and the 18 men to be decorated had stepped to "front and centre," Col. Knox saluted Gen. A. C. McClurg, who made the presentation speech in which he said:

I was the first who had the honor of wearing the uniform of the colonel of this 1st Regiment of the Northwest—first. I think it is confessed, not only in name, but in all that goes to make up the best type of the citizen soldier. And so I came to know well all the trials and difficulties and struggles through which all the members passed in those early days—struggles and trials and difficulties so great that all of those who belonged to the regiment 10 years ago have dropped out, except some of those who are to receive their medals here to-night. To the perseverance and continuance of these men the regiment and the community owe much. It was often a question whether the regiment could live on, but to these men there was no such word as fail, and, largely owing to their pluck, each new difficulty was met as it came up and overcome. The regiment itself has honored these men, and it is not surprising that we find among them the

commanding officer, the second in command, and many of the most valued officers and members of the regiment. The world everywhere loves pluck and steady perseverance, and everywhere, sooner or later, promotes it. The reward will come in some form. It may be only in the respect and good will of our fellows, or it may be in a medal or a bit of ribbon, but many a brave man has got more honest pride and satisfaction out of a bit of ribbon, nobly and gloriously worn, than he could have got out of all the riches that could be conferred upon him. In this age it is well to show that there is something worth living for besides mere wealth.

But, gentlemen of the 1st Regiment, it is not to these oldest and most enduring members, who are here to receive their honorable medals to-night, it is not to them alone that the honors and thanks of this community are due, but to every one of you and your comrades of the National Guard who so promptly and quickly responded to the recent call of duty, and defended and sustained the majesty and power of the law of our land. Right handsomely was that work done; so efficiently and so handsomely that not a shot and not a sabre stroke was required. So well and so handsomely that many of those who had thought you went among them as foes now see that you were their best friends in the disguise of that uniform which upholds the law alike for the benefit of the poor and the rich, the high and the low. Long may your regiment exist to enjoy the thanks and good will of the community which it has served; and when you come to ask aid, as you must ask it, in building for yourselves a new armory, may the hearts and the pockets of those who are best able be most generously open to you.

The following officers and men were the recipients of the medals: Capt. Hazen T. Miles, Co. C, 12 years and 20 days; 1st Lieut. George W. Ford, Co. C, 11 y., 9 m., and 22 d.; Q. M. Capt. Robert S. Buchanan, Co. E, 11 y., 8 m., 22 d.; Principal Musician Edward A. Griffin, 11 y., 6 m., 28 d.; Q. M. Sgt. W. E. Crumbecker, 11 y., 4 m., 6 d.; Capt. Gordon H. Quinn, Co. D, 11 y., 3 m., 29 d.; 1st Lieut. and Q. M. Adolphus L. Bell, 11 y., 1 m., 7 d.; Pvt. Charles S. Funk, Co. B, 11 y., 2 m., 18 d.; Capt. and Adjt. Shea Smith, 10 y., 9 m., 12 d.; Col. Edward B. Knox, 10 y., 7 m., 7 d.; ex-Lieut.-Col. Harry S. Bowler, 10 y., 6 m., 28 d.; Lieut.-Col. Frank B. Davis, 10 y., 19 d.; Sergt. William A. Christoph, Co. G, 9 y., 10 m., 10 d.; ex-Captain Charles D. Thompson, Co. H, 9 y., 8 m., 5 d.; Pvt. George A. Silvey, Co. C, 9 y., 7 m., 26 d.; Capt. Frederick W. H. Chenowith, Co. I, 9 y., 4 m., 21 d.; ex-Capt. Charles W. Downs, Co. B, 9 y., 3 m., 14 d.; ex-Lieut. R. B. Blackburn, 10 years.

Dancing followed the dismissal of the regiment and was kept up until midnight.

There is one matter which is getting to be a nuisance here, and that is badgering the business men to buy tickets for this ball or that party. These things are all well in their place, but when it gets so that four or five come in a week it does the militia actual harm. The business men of Chicago recognize the good work the troops did at the yards, and will undoubtedly contribute liberally towards supporting them, but this 50 and 75 cent business is likely to lose dollars to the National Guard of this city.

Company A, 1st Infantry, had their annual reunion last evening and enjoyed a collation. The Vets, to the number of about 100, were present, and after the drill of the active company took the rifles and gave a very satisfactory drill, under the command of ex-Col. Davis, with ex-Capt. Miles as 1st sergeant. H. L.

CONNECTICUT NATIONAL GUARD.

THE staff of the new Governor of Connecticut has just been completed, and is as follows: Adjutant General, Gen. F. E. Camp; Quartermaster General, Gen. Chas. Olmstead; Commissary General, Gen. J. B. Clapp; Paymaster General, Gen. C. E. Pine; Surgeon General, C. J. Fox; Aides de-camp, Colonel C H. Mallemsen, S. B. Horne, S. G. Blakeman and J. D. Chaffee. The Commander-in-Chief and staff held a meeting at Hartford, Dec. 16, for the purpose of organizing and to make the necessary arrangements for the inaugural ceremonies. By a unanimous vote the staff awarded the contract for uniforms to W. C. Boylan, 135 Grand street, N. Y. City, and the equipments to J. H. McKinney and Co., 139 Grand street, N. Y. City. These two houses are again working in concert, and the staff of the Connecticut National Guard will, as a matter of course, be one of the best dressed and equipped in the United States.

CALIFORNIA.

The San Francisco *Report* says: "At the recent annual meeting of the National Guard Officers' Association Colonel Cutting read a good paper on 'Discipline,' and laid great stress upon the fact that a well-disciplined member of the Guard was of more benefit to his employer and a better citizen than an undisciplined man. Colonel Cutting might have gone farther and taken the position that a man who is not amenable to discipline, and does not make a good soldier after having joined the National Guard, is of little use to his employer and is quite likely to turn out a bad citizen in the long run. A man who takes an oath to do military duty and disregards it is an unreliable or intractable fellow, with whom it is well to have as little to do as possible in any walk of life. The employers of San Francisco would do well to encourage their clerks to be militiamen, when the N. G. C. shall have been made the strictly military body its friends, such as Colonel Cutting, desire to see it. At present, the social element predominates over the military in it, and its discipline is bad."

The *Alta California* says: "There is a strong desire on the part of officers and men in the 2d Brigade to have Brig.-Gen. Dimond reappointed. He has been a faithful and zealous officer and much of the 2d Brigade efficiency is owing to his indefatigable efforts."

An Oakland correspondent makes several suggestions for the improvement of the militia, the best of which we repeat as follows: Establish a militia bureau in the War Department for the purpose of increasing the efficiency of the volunteer militia by giving information and instruction, making it an intelligence bureau for the National Guard. Maj.-Gen. Walter Turnbull, division commander, has tendered his resignation, to take effect Dec. 30. Col. Horace D. Ranlett, commander of the 5th Infantry, has also sent in his resignation, to take effect Jan. 12, 1887.

TEXAS.

General D. S. Starley, commanding Department of Texas, in his recent annual report, says: "With the State authorities, and particularly with the militia of Texas, very friendly and pleasant associations have been experienced, and I have been able to sends troops and a light battery to two encampments of the militia, held, one at Lampasas and the other at Galveston. I believe the practice of associating regular troops with militia in their encampments to be beneficial to the troops and militia alike."

PENNSYLVANIA.

THE Board of Officers presided over by Gen. Hartrauft convoked at Philadelphia to consider matters connected with the efficiency of the National Guard have actively pursued their labors and good results are expected. The principal point is a new code, and the principal changes discussed were the rearranging of the inspecting department; increasing the strength of the artillery branch of the service; making allowances to division and brigade headquarters for actual expenses and to change the length of term of enlistment of the members of the Guard, with a view of getting better material in it. The report will not be promulgated until revised by the Commander-in-Chief.

Military Order of the Loyal Legion.

At a meeting of the California Commandery to be held at San Francisco Dec. 29, the following will be balloted for: Col. H. Bowman, U. S. V.; Capt. M. Wesendorf, 1st U. S. Cav.; Maj. A. W. Starr, late 8th U. S. Cav.; Capt. F. C. Lord, U. S. V.; Capt. and A. A. G. John F. Gray, U. S. V.; Major Wm. Hays, U. S. V.; Dr. J. S. Shorr, late Asst. Surg., U. S. Army; W. T. Clark; Lieut. A. B. Shattuck, 6th U. S. Inf.; Capt. Colon Augur, 2d U. S. Cav., and Lieut. J. A. Perry, 10th U. S. Inf. Gen. A. J. Perry and Col. H. B. Burnham, U. S. A., have been transferred to this commandery. Major Jas. Jackson, 1st U. S. Cav., has been transferred to New York, and Maj. W. H. Eckels and Lieut. S. W. Groesbeck, U. S. A., to Minnesota.

The annual reunion and banquet of the Nebraska Commandery at Omaha Dec. 17, was a notable affair. Gen. H. A. Morrow, U. S. A., read a paper on the battle of Gettysburg which was a masterly contribution to the history of that great battle. He was followed by other speakers. The officers and ladies of Omaha and the Fort were nearly all present, besides numerous ex-officers, ladies and friends.

NEW PUBLICATIONS.

The sales of *The Century Magazine* have gone up over 30,000 copies in six weeks, since beginning the Life of Lincoln. A second edition of December will be issued on the 15th. A veteran New York publisher predicts that the permanent edition of the magazine will go beyond 300,000 before the completion of the Lincoln history. The January installment, which is said by the editors to be of most surpassing interest, occupies thirty pages of the magazine, and treats of Mr. Lincoln's settlement in Springfield; his practice of law in that city; the Harrison campaign; Lincoln's marriage; his friendship with the Speeds of Kentucky; the Shields duel; and the campaign of 1844. The illustrations are numerous, including portraits of Joshua Speed and wife, of Mrs. Lucy G. Speed, Milton Hay, President Harrison, General Shields, William H. Herndon (the law partner of Mr. Lincoln), and Mr. Lincoln himself, from the photograph presented by him to Mrs. Lucy G. Speed, in 1861. Pictures are given of the house where Lincoln was married, also the house where he lived after his marriage, etc., etc.

The Proceedings of the U. S. Naval Institute Vol. XII., contain articles by Lieut F. F. Fletcher, on Range Lights of Se going Ships: Ensign S. Dana Greene, on A Proposed Method of Ranging Guns; Capt. A. P. Cooke, on Naval Reorganization; Comdr. Albert S. Barker, on Firing of High Explosives from Great Guns; Lieut. Karl Rohrer, on Compressed Gun Cotton for Military Purposes, and Lieut. W. H. Bechler's Report of the German March to Witse, translations from the German; Chas. E. Munroe, on the Literature of Explosives, and Cadet Eng. J. E. Byrne, on Forced Combustion.

TORPEDO AND SUBMARINE BOATS.

A SPEED of 23½ knots is the rate which the Spanish torpedo cruiser *Destructor* has attained on her trial at Glasgow, where she was built.

The two torpedo vessels built at Schichau for the Italian Navy have come to grief. One of them ran into and sank the other off the Spanish coast. The surviving vessel was damaged, and put into Ferrol for repair. No lives were lost.

Two new French torpedo vessels—the *Balmy* and *Devoulede*—launched at Cherbourg last June, have made a trial at sea between Toulon and Corsica. The reports of the trial sent to the Ministry of Marine are of so discouraging a nature that orders have been sent to immediately cease work upon the other vessels in course of construction. The lieutenants commanding complain that, owing to their low pitch and varying inclines of the hulls, even in the finest weather, it is perfectly impossible to keep the tubes from water rushing in; whilst, according to the actual conditions of build, it would be also found impracticable to launch torpedoes from the decks of the vessels. The rate of speed they could command with a moderate sea on was likewise found to be much below the calculated maximum.

The *Army and Navy Gazette* gives an account of a trial of the latest invention in submarine boats. The novel feature of the boat is mainly the principle by which the little craft is raised or lowered, or kept at any requisite depth in the water. This is simplicity itself, consisting of the utilization of displacement by means of four pairs of cylinders, 1 ft. 9 in. in diameter, encased in gun-metal chambers, and capable of being pushed in or out of a depth of 18 in. When the boat is required to sink below the surface, the outer faces of these cylinders are flush with the sides of the boat; when it is wished to raise her, the cylinders are pushed out, thereby increasing her displacement or powers of flotation, and up she comes. When all the cylinders are fully out, the little craft comes up very quickly, while even with only one she will rise slowly, in a somewhat lopsided manner. The reserve of rising-power must, therefore, be very great. The speed of coming up or going down is easily regulated, and the boat ascends or descends on an even keel or at an angle, according to the will of its occupants. Supposing, also, that by some mishap all the cylinders came to grief, there are still three modes in reserve for bringing her to the top. The boat is 60 ft. long and 8 ft. in diameter amidships, exclusive of her slightly raised and flattened deck, which is surmounted by a circular steel conning-tower or cupola about 12 in. high by 15 in. diameter, with four look-out windows. When lying on the surface, about 10 in. of the boat can be seen. Her displacement is about 50 tons, and she is built of ⅜-in. Siemens-Martin steel, all the machinery relating to her rising and falling arrangements being of gun-metal. The motive power of the boat is electricity, supplied from a storage battery to motors of about 45 horse-power, and the lighting is also done by electricity, including a lamp which is to throw a beam ahead; but this has yet to be tried, and also the proposed method of placing and discharging torpedoes. The naval officers who witnessed the trial of Saturday appear most favorably impressed with the capabilities of the boat, and a further trial will take place in about a fortnight's time to test several features which want of space and partial unreadiness prevented being tried on this occasion. The inventors and proprietors of the boat claim that when they build a larger craft, driven by oil-engines, which they hope will give increased speed, they will rival Jules Verne's submarine vessel commanded by Captain Nemo. It is proposed to have an exit chamber, from which a man equipped in a Fleuss diving-dress, and with an electric hand-lamp, will issue, and lay mines or countermines, or do any other odd job that may be wanted under water. Sufficient compressed air is carried in the present boat for the use of a crew of three persons for three days. Her speed is expected to be ten knots.

WHAT FOREIGN NAVIES ARE DOING.

THE Spanish Congress unanimously voted on Monday, Dec. 29, without debate, the extraordinary expenditure, proposed by the ex Minister of Marine, Admiral Berenger, of $45,000,000, to be distributed over nine years, in addition to the $7,500,000, the normal annual expenditure on the naval service. This sum is to build and complete one ironclad, 20 rapid powerfully armed cruisers, 150 torpedo craft, large and small, besides gun vessels, sloops, a transport, steam launches, etc. Out of it will also be provided certain sums for the defence and rehabilitation of the arsenals and dockyards, and colonial coaling stations.

According to the *Journal de la Marine*, if Admiral Aube's propositions be accepted by Parliament, orders will be issued on Jan. 1, 1887, for the building of six first-class cruisers; and before 1890 France will possess 14 cruisers of over 4,000 tons, and a speed of from 17 to 18 knots.

The Spanish Congress has before it a vast project of naval armaments, requiring an expenditure of nine millions sterling, which Señor Camacho proposes to obtain by the sale of commons and forests belonging to the State. It is proposed to build most of the vessels in England.

EROSION OF GUN BARRELS BY POWDER.

THE London *Engineer* gives an account of a discussion on the subject of erosion in gun barrels from which we take the following: The great increase which has been taking place during the last twenty years in the power of artillery has brought the subject of the erosion of gun barrels into prominence, and it is not too much to say that it now forms one of the chief difficulties to be encountered by the maker of a heavy gun. As far as can be seen at present, its sufficient mitigation is the one great difficulty which seems likely to impose a limit on the size and power of ordnance in the future. It is evident that, *cæt. par.*, erosion will increase with the amount of the powder products, with pressure in the bore, and with the duration of the time of action. Its inconvenience first began to be seriously felt in the 7-in. muzzle-loading gun of seven tons weight, which fired a charge of 30-lbs. of powder with a shell of 115-lb. The great strides which have since been made in the weight of projectile and the amount of powder charge fired from heavy guns have resulted in increased rapidity of the deterioration of guns from this cause; and now, that it is proposed to arm the *Benbow* with 16¼-in. breech-loading guns of 110 tons weight, which will fire a shell of 1,800 lbs. weight with a charge of 900-lbs. of powder, the question of erosion becomes one of paramount importance. The 7 in. gun above-mentioned was able to fire about 600 full charges before the bore had become so badly scored as to require its interior to be fitted with a new tube; this number of rounds was increased to about 1000 by the introduction of an expending copper gas check, fitted on the base of the projectile. The adoption of breech-loading further increased the life of the gun by sealing the muzzle-loading scoring still more effectively; but on the other hand, it permitted the use of greatly increased charges of slow-burning powder; and the extensive erosion now speedily produced in some of the heavier breech-loading guns renders it probable that the interior surface of the 100-ton gun will require renewal after only a brief existence. Under these circumstances it becomes of very great importance to ascertain what material best resists erosion by powder products, or what treatment of the material is best calculated to increase its powers of resistance to erosion. It has long been known that pure copper possesses high power under certain circumstances of resisting wear by powder products in motion. For many years guns have been vented by having a plug of copper screwed tightly home into a hole drilled through the centre of the copper plug. This description of vent resisted the wear of the gas better than vents of either cast iron, wrought iron, or steel.

In Captain Noble's opinion the milder the steel the less the erosion. It appears that the more steel is worked or forged, the less it suffers from the eroding effect of powder-gas. There may be some slight difference in the resisting power of the surface, due to high or low carbon, but that is small compared with the effect of putting plenty of work upon the material. During the early experiments, a barrel of cast iron was tested; it broke up at the sixth round, but the experiment was conclusive, nevertheless, as it was found that the erosion was very considerable—being greater, in fact, than in the best of the steel barrels after 50 rounds.

It had been observed that the exhaust pipes in oscillating engines leading straight to the condenser were much eroded in process of time, but the steam trunnions were not. As the size of a gun increased, the surface subjected to the erosive action of the powder gas diminished in a rapid ratio, and thus the wear and tear was vastly augmented in large, as compared with small sorts of guns. Mr. Hall—of Messrs. Jessop—stated that his firm was now making a gun specially constructed to prevent erosion, concerning which particulars would be made public in due time.

Sir Henry Bessemer said the action was possibly like that of the sand blast, and suggested that experiments should be made with meal powder to test this point. Col. Dyer stated that the said erosion took place in the pipes of hydraulic press pumps, where no sand blast action could possibly occur. Mr. Vickers added to his former remarks that fifteen years' experience with steel led him to conclusions entirely opposed to those of Mr. Adamson on oil tempering, which he said gives the highest elastic limit to steel.

Col. Maitland, replying on the discussion, answered several questions, and pointed out that the products of fired gunpowder are either gaseous or liquid, and that as one of the barrels which behaved badly had

not been oil tempered, Mr. Adamson's argument fell flat. Sir Frederick Abel supplemented the remarks of Col. Maitland. Sulphur did no doubt act on the gun, for he had found sulphide of iron in powder deposit taken out of a gun. As to the sand blast view, he did not think that would hold water, because gun-cotton behaved even worse than gunpowder in the matter of erosion, and there were certainly no hard particles with it. The steel used was taken from that actually in the service. He concluded by saying that the paper was imperfect because the experiments were not complete, and it had only been read at the earnest request of Dr. Percy.

FOREIGN ITEMS.

HUMAN remains have been discovered in a Belgian cave, which apparently belong to the age of the mammoth and rhinoceros. The discovery has been made by MM. Marcel de Puydt and Sohest in the grotto of Biche-aux Roches, near Spy, in the province of Namur. The skulls are of the type of the Neanderthal cranium, the bones being very thick (9 mm.); one, that of a woman, is dolicocephalous. The frontal sinus is very marked, and the brow low. In short, the characteristics of the skulls approach, for the most part, those of inferior races, and the other bones found seem to indicate a race of short men. The conclusion drawn from the discovery by M. Nadaillac is that the Neanderthal race of men, which M. Quaterfages has shown to be persistent through the ages, even to the present day, without being incompatible with a very marked intellectual development, once lived on the banks of the Meuse in most remote times, working the flint, utilizing the bones of animals and the tusks of the mammoth, making and firing vases of clay, burying their dead, and, in fine, possessing the rudiments of civilization.

THE state carriage of the dethroned Burmese King Thebaw which has arrived at Woolwich Arsenal as a present to Her Majesty, is highly ornamented and profusely gilt, and bears Thebaw's royal arms, consisting of representations of the peacock and hare.

A DESPATCH from Paris, Dec. 21, says: Uneasiness is felt here over the rapidity with which the Government is working to place the armament of France in the most complete condition possible. The State manufactories of arms and ammunition are all being worked to their utmost capacity. It is reported from Rome that Italy is arming. Advices from Berlin say that Germany is increasing her troops in Alsace-Lorraine. Another from Prague, Dec. 21, says: Russian agents here and in other parts of Bohemia are engaging gunmakers for Russian factories, which have urgent contracts to fulfil. The workmen receive offers of higher wages than those they now receive.

THE Turkish officers who have been in the Prussian Army since the summer of 1883 to learn the Prussian drill were to leave on Dec. 1 to assume their posts as instructors of the Army of the Sultan.

THE Chinese Government are rapidly augmenting their fleet. Ships are being built in England and in other countries on the latest improved lines of construction. The Marquis Tseng, late Chinese Minister to England, who has been appointed First Lord of the Admiralty in China, has arrived at Pekin and taken over the duties of his new office.

A LETTER from Singapore gives a gloomy picture of the state of affairs in Acheen. It is impossible to foresee when the Dutch-Achinese War will come to an end. The Dutch have nothing like sufficient troops to conquer the natives, and are being compelled to retire to the northern point of Sumatra, and to act strictly on the defensive. Vessels under neutral flags, which used to take a short cut through the narrow waters separating the small islands off the north of Sumatra, have been warned by the Dutch Government to proceed by another route, as the Dutch fleet is no longer able to protect them against the Achinese pirates. The smuggling of rifles, ammunition, and even of artillery, is being actively carried on by the latter, who have thus been enabled to open a regular siege upon the Dutch coast fort at Segli. The sufferings of the Dutch forces from the terrible disease called "beriberi" are intense.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

PHENOL SODIQUE

Proprietors: HANCE BROTHERS & WHITE, Philadelphia.

Invaluable as an astringent and styptic application in HEMORRHAGES, as after EXTRACTION of TEETH, and to prevent subsequent soreness of the gums; as a wash for the mouth, in cases of DISEASED GUMS or APHTHOUS conditions, or to DISINFECT an OFFENSIVE BREATH; as a gargle in THROAT AFFECTIONS, SCARLATINA, DIPHTHERIA; as an application in PARASITIC AFFECTIONS and ERUPTIVE DISEASES, and as an injection for all abnormal discharges and FEMALE COMPLAINTS.

MESSRS. NORDENFELDT and Maxim are engaged in a patent-right infringement litigation.

THE site of the Exhibition which is to be opened in Venice on April 25th, 1887, is in the public garden at the end of the Quai des Esclavons. The building will have an area of about 6,000 yards, and it will be occupied by painting, sculpture in marble, bronze, and wood, mosaics, glass, and all kinds of work that can be considered as related to art. The modern plan of eking out the interest by means of concerts, games, fireworks, etc., is also to be adopted.

AN English syndicate, the *Indian Engineer* says, has been formed in Hong Kong to negotiate with the Annamese government for the purchase of the island of Hongay, which is the name of a strip of land on the southeast coast of Tonkin, which is joined to the mainland at low water, but which, at high water, is completely surrounded with water. There is a deep channel around the greater part of the island, where vessels of the largest tonnage may anchor. Its area is about ten miles long by five or six miles broad. The island is a carboniferous limestone formation, with large beds of coal, superior in many points to the Nagasaki coal, being heavy and much more oily.

THE Russian Government is engaged in one of the most extensive drainage enterprises ever undertaken in any portion of the world. The location is what is known as the Pinsk Marshes in the southwest of Russia, near the borders of Galicia. This region is so extensive as to secure special designation in the ordinary map of Europe, and, in point of area, is very much larger than Ireland. Up to the present time about 4,000,000 acres have been reclaimed by means of the construction of several thousand miles of ditches and canals so broad as to be navigable for barges of several hundred tons burden. Just now the engineers are drawing up the programme for next year, which comprises the drainage of 350,000 acres by means of the construction of 120 miles more of ditches and canals. Besides making the canals and ditches, the engineers have built 179 bridges, bored 577 wells from 20 ft. to 80 ft. deep, and have made a survey of 20,000 square miles of country hitherto unmapped. When the task is finished Russia will have effaced from the map of Europe one of the oldest and toughest bits of savage nature on the Continent.

THE *Allgemeine Schweizerische Militär-Zeitung* (Basle) recommends the adoption of the bicycle in the Swiss Army, and considers that the government would do well to procure a number of machines for service during the manœuvres of the 6th and 7th Divisions next year.

THE electric incandescent light which has been applied to the taking of photographs in such inaccessible places as underground cavities, mines, and so on, is now to be tried by MM. Bonfante and Massonneuve for photographing the sea bottom, sunken vessels, and submarine works.

IN a report on the German Navy just published by a Spanish naval officer, attention is called to the efficiency of the coast service of carrier-pigeons. The birds are worked in connection with the lightships and lighthouses round the coast, and are constantly used for giving warnings, asking for assistance, and the like.

A CORRESPONDENT of the *Army and Navy Gazette* who has been touring in the Crimea writes it word that all the tales about concentrations of Russian troops and fleets at Sebastopol, Odessa, etc., are simple fables; but that the former is restored to more than its ancient splendor as Queen of the Euxine, and is in a formidable state of defence.

M. J. CARPENTIER has introduced into the Grand Opera House at Paris a new apparatus for transmitting the beats of the musical conductor to choristers or instrumentalists placed in the scenes where they cannot see the conductor himself. In short the apparatus transmits to a distance the indications of rythm, and enables a musical conductor to guide musicians who are out of sight.

BLOOD VESSELS ARE SOMETIMES BURST by whooping cough. HALE'S HONEY OF HOREHOUND AND TAR relieves it. PIKE'S TOOTHACHE DROPS Cure in one Minute.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

ABBOT.—At Washington, D. C., Dec. 7, 1886, to the wife of Lieut. F. V. Abbot, Corps of Engineers, twin daughters.

MARRIED.

GRAY—GWYNN.—At New York City, December 21, Mr. BRYCE GRAY, Jr., to Miss ADA GWYNN.

RICHARDSON—FAIRBANKS.—On Tuesday, Dec. 21, at 8 P.M. in the chantry of Grace Church, New York, by the Rev. William R. Huntington, D. D., WALTER G. RICHARDSON, Ensign U. S. Navy, to ELLEN VALENTINE, daughter of Leland Fairbanks, Jr., of this city. No cards.

DIED.

CAMPBELL.—Suddenly, at the American Hotel, Albany, N. Y., December 17, 1st Lieut. WILLIAM J. CAMPBELL, 22d U. S. Infantry.

HARRISON.—At San Francisco, Cal., December 6, in the 64th year of her age, Mrs. ISABELLA HARRISON, mother of Lieutenant G. F. E. Harrison, 2d U. S. Artillery.

KELLEY.—At New York City, Dec. 12, MANUS KELLEY, brother of Lieut. J. D. J. Kelley, U. S. Navy.

O'BRIEN.—At Weston, West Va., Dec. 12, 1st Lieutenant ALONZO L. O'BRIEN, 2d U. S. Cavalry.

READ.—On Wednesday, Dec. 22, at his late residence, 17 West 65th Street, ABNER, eldest son of Clara L. A. and the late Major Edwyn W. H. Read, U. S. Army. Funeral private. Interment at Oakwood, Troy, N. Y.

THOM.—At Asheville, N. C., December 11, of tuberculosis, WILLIAM ARTHUR THOM, U. S. Navy, son of General Geo. Thom, U. S. Army. Ensign Thom was a man of no ordinary calibre. Though comparatively young in years, he had given ample evidence of those qualifications that ever go to make the true and tried man and gentleman. In the heat and rush of battle men die bravely, but when we calmly and coolly look death in the face day after day, that is an ordeal that tries every man's soul. Death has claimed one more victim; but death had no victory over Ensign Thom. He died, indeed, but his bright example of gentleness and fortitude lives—very truly lives. In his last moments, when asked by his attending physician if he would have anything, he replied, "No, I thank you"—his last words. Soon after he quietly passed away, among his friends, and his father by his side.

"So fades a summer cloud away,
So sinks the gale when storms are o'er,
So gently shuts the eye of day,
So dies a wave along the shore."

WEBB.—At New York City, Dec. 17, Mrs. EMMALINE B. WEBB, widow of Major Stephen H. Webb, U. S. Army.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy,* but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 23. WHOLE NUMBER 1219. | NEW YORK, SATURDAY, JANUARY 1, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THERE is one branch of the military service in which there is room, and that is the Marine Corps. An officer of that corps, Captain HENRY CLAY COCHRANE, in a letter we publish this week, shows how this circumstance may be taken advantage of by the surplus cadet engineers.

THE House Bill No. 10255, introduced by Representative THOMAS, presents features of such justice and equity for the Naval service that it is hoped favorable action may be had upon it during the present session of Congress. This bill provides that an officer suffering from a disqualification which at the date of entry was not a bar to the Service, but which has since been made such, shall, if retired twenty years after entering the Navy on account of such disqualification, be regarded as having incurred his disability as an incident of the Service.

FROM what can be learned on the subject from official sources, it is feared that there is trouble in store for the steel boilers of the *Atlanta*. Chief Engineer MELVILLE, of that ship, has been in consultation with the Chief of the Engineering Bureau in connection with a serious fault which has recently developed in a tube-shut flange in one of the main boilers. The material, steel, of which these boilers are constructed, seems to possess capabilities for good and evil which render it a metal of "vicious incertitude," but it is expected that the well-known skill possessed by Mr. MELVILLE will serve to suggest means whereby dangerous complications will be avoided for the future.

A FEW weeks ago we stated that it was the intention of the Secretary of War to issue in 1887 a new edition, revised and condensed, of the Army Regulations, and adverted to the consequent joy to the hearts and brains of the weary officers and scribes who must know the regulations if they hope to avoid an untimely end. The intention has developed into action, and on Monday next a board will meet in Washington to revise and condense. General Benét, Colonel E. S. Otis, 20th Infantry; Lieutenant Colonel R. N. Scott and Lieutenant G. R. Davis, 5th Cavalry, all experienced men, compose the board, and we, as well as the Army, look forward with hope and interest to the result of their labors.

THE New York *Times* says: "The announcement of the British authorities that twelve 80-ton Woolwich guns will be ready in April for transportation across the continent to British Columbia contrasts broadly with the utmost that the Washington authorities could announce for the projected seaboard defence of California. Yet San Francisco is at least as worthy of protection as Victoria. These 80 ton guns throw a projectile weighing 1,700 pounds with a charge of 450 pounds of powder. When it is added that an official report of the House Naval Committee of the present Congress has declared that the unarmored Chilian *Esmeralda* could alone, with her high power guns, 'lie outside the Golden Gate and lay the city of San Francisco under contribution without going within the reach of its guns,' the difference between our provision for Pacific coast defence and that of the British Government is apparent. If, also, a law were passed by Congress next week for the manufacture of 80-ton guns they could not be made ready for use before 1890."

THE Naval Appropriation bill is being gradually put in shape by the sub-committee having it in charge. All the Navy Bureau chiefs were given an opportunity to explain the needs of their respective branches the early part of the week. With the exception of the reduction of clerks and others in the Navy yards, whose services will not be needed when the purchases and supplies are in the hands of the pay corps, no changes of importance will be made in the bill. In fact the disposition of the committee rather tends toward an increase than a decrease in the appropriations. No provision having been made in the Sundry Civil bill for the maintenance of yards and docks or for the Naval Observatory, these items will be provided for in the Naval bill and as the committee have other new items in contemplation the bill will probably show a material increase over the appropriation of last year.

AFTER the failure of two determined efforts on the part of the Chairman of the House Committee on Naval Affairs to bring up the bill for consolidation of the bureaus of the Navy Department, it is hardly probable that better fortune will attend Mr. HERBERT during the remainder of the session. The brief period left after the holidays is too short to expect much work beyond that necessary on the appropriation, and what little time may be left will probably be devoted to some of the numerous "special orders" that are more paramount in the minds of Congressmen than the Navy reorganization bill. Still, Mr. HERBERT intends to try it again, and whether he succeeds or not will have the satisfaction of knowing that the failure was not due to any tardiness on his part; no man has ever worked harder on a bill than he has on this one. Secretary WHITNEY is understood to be very much discouraged at the outlook for favorable action on his bill.

THE War Department has furnished the Senate Military Committee, in compliance with a request from Senator COCKRELL, with a statement showing that the medical promotions held up in the committee were made in the regular way, and strictly according to existing laws governing promotions in the Medical Department. The committee will, therefore, not question further the pending nominations. It is understood, however, that they will defer action until it is seen whether there is any likelihood of the passage of the bills on the House and Senate calendar, authorizing promotion from from assistant surgeon after twenty years' service. Favorable reports were made on the proposed legislation by both of the Military Committees last session, and those interested believe that both Houses would take similar action if the measure could once be reached. Should the law be enacted a number of changes would follow in the pending nominations, so that they would probably be recalled and a new list made out, those with sufficient volunteer service to complete their twenty years' service, going ahead of Captain O'REILLY and the others who are now credited with volunteer service.

NOTWITHSTANDING the objections raised by certain officers against General BRAGG'S new mileage law, there are many who consider it a great improvement over the existing law, and the general belief is that it will become very popular when once in operation. Most of the officers with whom we have conversed on the subject express themselves as much pleased with it, particularly with that clause which requires them to procure transportation from the Quartermaster's Department, instead of buying their own tickets. It is a benefit to many, from the fact that officers are not always sufficiently well equipped with funds of their own to purchase tickets for a long journey and then wait a fortnight or perhaps a month for the Government to reimburse them. The argument that it is not always convenient for an officer to procure transportation from the Quartermaster's Department, especially when ordered to duty requiring him to travel immediately, can hardly be considered sound, since the proposed law will allow him to buy his own ticket in cases of emergency. Officers who do much travelling over land grant roads should be particularly well pleased with the new law, as under it they will get, in addition to their transportation, four cents per mile as a "subsistence fund," meaning sleeping car and other incidental expenses, which is an important item not now allowed by the Government.

G. B. CARDWILL refers in the Chicago *Current* to the recent excellent articles in that paper by Lieutenant W. R. HAMILTON, 5th U. S. Artillery, on "The Army and the People," and says: "It has been evident for a long time that the Army and the people are not in as close sympathy with each other as is desirable, and any effort to change this condition should be encouraged." To ameliorate this condition he submits the following "rather revolutionary" plan: "1. Abolish the present method of appointing cadets to West Point, and appoint all cadets directly from the rank and file of the Army, after a rigid competitive examination. 2. Permit no one to enlist in the Army except those who are between the ages of eighteen and twenty five years, and then only after an examination covering, at least, as much ground as that now required of the cadets. 3. Reduce the term of Army service to three years as a special inducement to young men to enter the service. 4. Establish Army schools at every practicable point in the Army, so that the men can continue their studies if they so desire. 5. Increase somewhat the size of the Army, say to about 30,000, not including the commissioned officers." Mr. CARDWILL then predicts what results may be expected from such a plan, and finds in it "a solution for the problem of uniting the Army and the people in hearty sympathy with each other, and, at the same time, giving this great and growing nation the skeleton of an Army organization, that, in case of emergency, could be rapidly clothed with substantial flesh."

IN the death of GENERAL LOGAN the Army loses a friend indeed. During his fourteen years service in the Senate, not a single military law of importance was entered on the statute books that did not emanate from him, or in some way bear his fingermarks. To retirement, promotion and other laws which would in any way better the condition of the officer or enlisted man, he gave special attention and his most earnest support. As Chairman of the Military Committee he became thoroughly identified with all measures relating to the *personnel* of the Service, including nominations; and as Chairman of the Sub-Committee on the Army Appropriation bill, he rendered good service in bringing the appropriations up to the reasonable demands of the Army. Many are the items, too, of special legislation of benefit to the Service that he successfully engineered through as riders to appropriation bills. The Chairmanship of the Senate Committee on Mil-

itary Affairs, which was held by General LOGAN during the entire time that his party was in the majority, will probably go to Senator SEWELL. Senator CAMERON stands number two on the list, and would probably succeed him were it not for the fact that he is Chairman of the Committee on Naval Affairs. Senator SEWELL comes next. He is at present Chairman of the Library Committee, but as this is regarded as one of the less important positions, he will probably resign that to take charge of the Military Committee. There is very little work to be done by the committee, however, during the last of the Session, so that no serious consequences would follow even if a successor to General LOGAN was not appointed. Senator PLUMB, it is thought, will take General LOGAN's place as Chairman of the Sub-Committee on the Army Appropriation bill. Senator LOGAN was also a member of the Sub-Committee on the Fortification bill.

THE Paymaster General of the Army has issued a circular to the officers of the Pay Department stating that current pay accounts may be used to settle claims presented by officers who have not been paid in accordance with the recent act of Congress for the relief of graduates of the Military Academy affected by the RODMAN decision and that are chargeable to the appropriations for the current fiscal years ending June 30, 1886 and 1887. Claims chargeable to prior years should be forwarded to the Second Auditor of the Treasury for settlement. Those who will have money refunded to them under this act are the graduates of the last two classes and the officers who had reductions made when they received their back pay under the MORTON decision; also a few officers who voluntarily refunded at the time the Comptroller first held that a cadet did not become entitled to his second lieutenancy until he had been confirmed and taken the prescribed oath of office. Of the latter class there are but few, as it was anticipated from the first that Congress would come to the relief of those affected. The following is the full text of the law as furnished by the State Department. It was approved by the President on Dec. 20 and was the first public act signed by him during the current session:

[Public, No. 1.]—An Act for the Relief of Graduates of the United States Military Academy, and to Fix their Pay.

Be it enacted, etc., That every cadet who has heretofore graduated or may hereafter graduate at the West Point Military Academy, and who has been or may hereafter be commissioned a second lieutenant in the Army of the United States, under the laws appointing such graduates to the Army, shall be allowed full pay as second lieutenant from the date of his graduation to the date of his acceptance of and qualification under his commission and during his graduation leave, in accordance with the uniform practice which has prevailed since the establishment of the Military Academy.

THE Engineer Department, U. S. Army, publishes the Report in Regard to the Trial of Gruson's Chilled Cast-iron Armor at Spezia, Italy, April, 1886, by Captain H. M. Adams, C. E., U. S. A. It consists mainly of plates and illustrations with the accompanying description. The conditions of the test required that the plate should receive three shots from the 100-ton gun without any portion of the plate being dislodged from the interior face, the blows to be delivered on points of the plate not nearer to each other than one metre. The projectiles used were made by Krupp of forged steel hardened. They weighed 1,000 kilos., 2,204.6 lbs. each, being ballasted with sand and lead, and were fired with a charge of 826.7 lbs. of German prismatic cocoa powder made at Cologne. The initial velocity was 1,772–1,777.3 ft. the velocity at point of impact 1,758.9–1,764.8, the energy of the 1st shot at the point of impact 47.499 foot-tons, and the angle of incidence 42 degs.; 2d shot, 47.622 f. t., 46 degs.; 3d shot, 47.312 f. t., 34 degs. The projectiles were smashed into many pieces, the largest, 9x9x5 inches, weighing 56 lbs. This would indicate that the 17-in. projectile does not possess the qualities of the 6-in. Krupp which has penetrated a 19-in. Creuzot steel plate, 8.8 inches, and rebounded not only without breaking but with very little deformation. It is reported that two 5.9 in. Krupp projectiles were broken against the Gruson shield at Spezia, the effect on the plate being a trifling scaling off on the surface at the point of impact. The difference would appear to be, therefore, in the plate and not in the projectile, the chilled cast iron having the advantage over the steel plate, "The endurance of the test plate was so satisfactory to the Commission appointed by the Italian Government that Herr Gruson has been authorized to proceed with the construction of the cupolas for the harbor of Spezia, but in view of the results obtained at the Spezia trial it is proposed to make new cupolas more flat than was at first intended, so that they will present a still more inclined surface for attack. The cost of a cupola for two 40 c. m. (15.75-in.) guns is estimated at $480,000. The penetration of this gun in chilled cast-iron at 1,000 yards is *estimated* at 29.2 inches with a projectile weighing 2,017 lbs., a charge of 485 lbs, and a muzzle velocity of 34.502.

PERSONAL ITEMS.

GENERAL HAZEN's disease is reported to be diabetes.

CAPTAIN AND MRS. WALLACE, 7th Cav., will spend the winter in the South.

GENERAL SIR REDVERS BULLER is said to be a sort of Gordon, minus the theological side.

ASSISTANT SURGEON A. S. POLHEMUS, U. S. A., has taken charge of medical matters at Ft. Gaston, Cal.

CAPTAIN H. G. LITCHFIELD, 2d U. S. Art., will leave New York for St. Augustine, Fla., early next week.

COLONEL E. S. BEAUMONT, 4th U. S. Cavalry, left Fort Bowie, Arizona, last week on a two months' leave.

CAPTAIN E. R. WARNER, 3d U. S. Art., rejoined at Fort McHenry, Md., on Wednesday from a short leave.

GENERAL N. A. MILES, U. S. A., is still visiting in Boston, and is receiving much social attention in that city.

CHAPLAIN G. D. CROCKER, U. S. A., retired for age last week, will take up his residence in Detroit, Michigan.

CHAPLAIN W. H. PEARSON, U. S. A., has changed base from Whipple Barracks, A. T., to Alcatraz Island, Cal.

LIEUTENANT J. O. MACKAY, 3d U. S. Cavalry, has left Camp Pena Colorado, Texas, on a two months' visit to the North.

LIEUTENANT B. C. MORSE, 23d U. S. Infantry, on leave from Fort Mackinac, is spending the holidays at Negaunee, Michigan.

LIEUTENANT C. B. GATEWOOD, 6th Cavalry, will spend a few months' leave in the East, after a long tour of arduous field service.

CAPTAIN JOHN HAMILTON, 1st U. S. Inf., on sick leave from Angel Island, Cal., was visiting at Marblehead, Mass., at last accounts.

LIEUTENANT G. F. COOKE, 15th U. S. Infantry, sailed last week for England on the White Star steamer *Britannic*, on a six months' tour.

QUARTERMASTER SEBREE SMITH, 2d U. S. Artillery, returned to St. Augustine, Fla., this week, from a brief hunting expedition on the St. John's River.

LIEUTENANT S. E. ALLEN, 5th U. S. Art., and Mrs. Allen were to rejoin at Fort Columbus, N. Y. H., the latter part of this week from a short Christmas holiday.

LIEUTENANT-COLONEL L. L. LANGDON, 2d U. S. Art., has joined at Fort Barrancas, Fla., from leave, and assumed command of that post and of Fort Pickens.

GENERAL ALBERT G. LAWRENCE, the Fort Fisher hero, and son of the late Governor William Beach Lawrence of Rhode Island, is seriously ill in New York City.

LIEUTENANT TASKER H. BLISS, 1st U. S. Artillery, attached to the Naval School at Newport, R. I., is residing at the Porter Stone-house, on Greenough Place, in that city.

MRS. BIDDLE, wife of Major James Biddle, 6th U. S. Cav., will reside for the winter at 2,023 I St., Washington, D. C. Mrs. Biddle is a sister of the wife of Commodore Harmony, U. S. N.

REAR-ADMIRAL JOHN LEE DAVIS, lately returned from the command of the Asiatic squadron, has taken the house at No. 1,751 P street, Washington, D. C., and will be a permanent resident of that city.

LIEUTENANT J. S. PETTIT, 1st U. S. Infantry, has recovered from the wound received by him at Leavenworth on the eve of his marriage and he and Mrs. Pettit will join at Benicia Barracks, Cal., early in 1887.

CAPTAIN J. A. FESSENDEN, 5th U. S. Art., will continue his battery on duty at Bedlow's Island, N. Y. H., until the end of January. Several needed repairs to quarters on the island are in progress, and the post is by no means an unpleasant one.

POST CHAPLAIN GEORGE ROBINSON, U. S. A., who assumes charge of educational matters in the Army with station in St. Louis, served during the war as a commissioned officer of the 123d New York Volunteers, and received the brevet of captain for gallantry during the campaign in Georgia and the Carolinas. He was appointed Post Chaplain, U. S. Army, March 1, 1877.

COLONEL HORATIO B. REED, formerly of the U. S. Army, says a letter from Augusta, Me., is one of the lions at the Soldiers' Home at Togus. He served his country throughout the entire war and afterward joined the army of Ishmael Pasha, Khedive of Egypt, where he occupied a position on the staff of that illustrious ruler. Col. Reed is a man of fine appearance, fully six feet in height, and though broken in health gives the appearance of possessing great endurance, both physical and mental.

THE New York *World* has organized an expedition under Lieutenant Schwatka to visit the National Park on snow shoes during the present winter. Mr. Schwatka, the *World* informs us, has been required to enter into formal agreement that he will not name any rivers after Mr. Pulitzer, his tender of this compliment to Mr. Jones, of the *Times*, having stirred up the envious criticisms of his companions of the daily press. The *Sun* suggests an envious doubt whether the temptation to rediscover the discovered and to rename the named will not prove a temptation too strong for Mr. Schwatka's virtue. The expedition reached St. Paul, Dec. 28, and expects to complete its mission by Jan. 14.

COLONEL GEO. H. MENDELL, Corps of Engineers, U. S. A., is in Washington from San Francisco.

ASSISTANT SURGEON R. R. BALL, U. S. A., a recent appointment, has joined at Fort Riley, Kansas, for duty.

LIEUTENANT L. S. WELBORN, 5th U. S. Cavalry, in Europe on leave, has received a six months' extension.

LIEUTENANT E. W. HUBBARD, 1st Artillery, of Fort Canby, is spending a few weeks' leave in San Francisco.

LIEUTENANT A. M. FULLER, 2d U. S. Cavalry, on college duty at Meadville, Pa., is spending the holidays at Washington.

LIEUTENANT J. E. MCCOY, 7th U. S. Infantry, now at Fort Laramie, Wyo., has been selected by Gen. Gibbon as his junior aide.

COLONEL R. S. LAMOTTE, U. S. A., is visiting friends in New York City, preparatory to leaving Plattsburg Barracks for the West.

LIEUTENANT R. K. EVANS, 12th U. S. Infantry, on leave from Sackett's Harbor, is visiting at 1,733 De Sales street, Washington, D. C.

LIEUTENANTS E. DAVIS and B. H. Randolph, 3d Artillery, rejoined at Washington Barracks this week from short Christmas leaves.

CAPTAIN E. H. RUFFNER, Corps of Engineers, U. S. A., of Quincy, Ills., arrived in St. Louis a few days ago, registering at the Laclede.

QUARTERMASTER W. W. WOTHERSPOON, 12th U. S. Infantry, left Sackett's Harbor, N. Y., early in the week to spend New Year's with relatives.

LIEUTENANT A. B. JOHNSON, A. D. C. to Maj. Gen. Terry, with his family, is spending the holidays at St. Paul, the guest of his father, Gen. R. W. Johnson.

THE largest man in the Regular Army is said to be Lieut. John P. Finley, of the Signal Corps. He is from Michigan, is 6 feet 4 inches tall and weighs 250 pounds.

LIEUTENANT W. H. COFFIN, 5th U. S. Artillery, closes his tour of duty at the University of Burlington, Vermont, at his own desire, and will shortly join his battery at Fort Schuyler, N. Y. H.

LORD WOLSELEY completed this week his five years as adjutant general of the British Army, but his term will be extended another year by the decision not to count the time he was absent in Egypt.

GENERAL A. MCD. MCCOOK, U. S. A., visited Lamar, Mo., Dec. 22, to be mustered in as a member of McCook Post, G. A. R. After the ceremonies a public reception was tendered the General at the Opera House.

MAJOR A. M. RANDOL, 1st U. S. Artillery, on account of the condition of his health, has been obliged to relinquish duty at Fort Canby, Washington Territory, and seek the balmier climate of San Francisco.

LIEUTENANT VIRGIL J. BRUMBACK, 2d Inf., who recently tendered his resignation to practice law at Boise City, Idaho, with his father, has had its acceptance revoked and has also relinquished the leave granted him.

LIEUTENANT WM. BAIRD, 6th Cavalry, is under orders to conduct recruits this week, from the depot at Jefferson Barracks to stations of the 5th Cavalry in the Indian Territory. Mrs. Baird is still visiting in Washington.

MR. AND MRS. BOLTON HALL, of No. 20 East 48th street, New York City, gave a reception on Wednesday in honor of Miss Sherman, daughter of Gen. Wm. T. Sherman, U. S. A. Some four hundred guests attended.

JUDGE AND MRS. HAGANS, of Newport, Ky., are entertaining Lieut. J. T. Thompson, U. S. A., and his wife, their charming daughter; also Master Thompson, the handsome young soldier grandson of the family.—*Com. Gazette.*

LIEUTENANT COLONEL WALTER MCFARLAND, Corps of Engineers, has been ordered to confer with the Lighthouse Board in regard to the limits of the military reservation on Bedlow's Island and other matters affecting the Bartholdi statue.

MARSHAL MACMAHON, formerly President of the French Republic, has returned to Paris, and leads a very quiet life. As a mark of respect he has assigned to him two army officers, who compose his staff. He is in his seventy-eighth year.

THE Baltimore *American* says: "The very day that Lieut. Greely took charge of the Weather Bureau the country was covered with snow. The hero of Cape Sabine is politely informed that this United States is located in what is known as the temperate zone."

GENERAL LOGAN, in a recent conversation on the war, said: "Douglas and Gen. Sherman were about the only two men on our side who appreciated the magnitude of the war in anticipation. I know I didn't. I knew that there were only about 230,000 slaveholders, and I argued that the fighting on the part of the South would be limited to that element. It didn't seem in reason then that other hundreds of thousands would take up the cause of these slaveholders, who thought their property was in danger, and would help them fight their battles."

LIEUTENANT W. A. GLASSFORD, Signal Corps, having been transferred a few weeks ago from San Francisco, to Prescott, Ariz., the *Report* of that city says: "There can be no doubt that Gen. Hazen ordered the change in order to subject Glassford to annoyance and inconvenience. Just before he came to California the Lieutenant appeared before a Congressional committee and testified concerning the management of the Signal Corps. He made a very strong argument against the present method in which it was carried on, and showed conclusively that if it were removed from Army control it could be conducted not only more efficiently, but also more economically." The *Report* further says that a protest against Lieut. Glassford's removal has been sent to the California Senators at Washington by leading citizens of San Francisco, Los Angeles, etc.

LIEUTENANT J. M. CARSON, JR., 5th U. S. Cavalry, of Fort Reno, will shortly visit relatives in Washington.

PROFESSOR G. L. ANDREWS, U. S. A., of West Point, registered at the Grand Hotel, New York, early in the week.

SURGEON E. A. KOERPER, U. S. A., will leave Fort Keogh, Montana, next week, for the East, to spend a two months' leave.

LIEUTENANT W. N. P. DARROW, 4th U. S. Artillery, left Fort Preble, Me., on Thursday to spend New Year's with friends.

MAJOR I. O. DEWEY, Paymaster, returned to Washington last week from a seven weeks' official trip through the West and South.

CAPTAIN E. W. STONE, 21st U. S. Infantry, who is spending the winter in Washington has received a six months' extension of his sick leave.

MR. B. A. HAYES, eldest son of ex-President Hayes, was married, Dec. 30, at Norwalk, O., to Miss Mary N. Sherman, daughter of Nathan G. Sherman, of that city.

TWO GERMAN officers who have been travelling *incognito* in this country, were suddenly called home by a government order a few days ago. They were convinced that a great European war was ahead.

LIEUTENANT ZALINSKI, whose experiments with a dynamite-throwing gun and a submarine torpedo boat at Fort Lafayette have attracted so much attion lately, is a well-built middle-aged man with dark hair just beginning to show a tinge of gray. He makes a friend of everybody he meets by his kindly and modest manners. In speaking of the progress in his work by which he has advanced from throwing a charge of fifteen pounds of dynamite to a distance of half a mile to the throwing of 200 pounds of nitro-gelatine to a distance of over a mile with safety, he always uses the pronoun we, referring to the workmen who assist him. He uses the names of the workmen much more frequently than he refers to his own efforts. He lives with his family in a comfortable cottage in the officers' row at Fort Hamilton, where, those of his friends who know him intimately say, he gives dinners that are even more perfect in their way than his experiments with engines of war.—*N. Y. Sun.*

THE Omaha *Excelsior* of Dec. 25 says :

Captain Whitney, of Fort Niobrara, was in the city during the week....Captain C. A. H. McCauley, U. S. A., went East Wednesday on a short leave....Mrs. Col. Stanton, of Salt Lake City, was in Omaha this week making Christmas purchases....One of the most brilliant social events of the season was the banquet and annual reunion of the Loyal Legion at the Millard Hotel Friday night. It was nearly 1.30 A. M. before the company separated, having spent one of the happiest of times. The second annual banquet of the Loyal Legion was in every way a glorious success.

CHIEF ENGINEER S. D. HIBBERT, U. S. N., is spending a few days in Philadelphia.

PAY DIRECTOR J. H. WATMOUGH, U. S. N., is a recent guest at the Astor House, New York.

CAPTAIN E. E POTTER, U. S. N., was a guest this week at the Washington Hotel, Philadelphia.

LIEUTENANT-COMMANDER Z. L. TANNER, U. S. N., and Mrs. Tanner visited in New York this week.

PAY INSPECTOR J. H. STEVENSON, U. S. N., registered at the Gilsey House, New York, early in the week.

REAR ADMIRAL WORDEN'S retirement does not cause a vacancy. Having had the thanks of Congress, he was kept on the active list ten years longer than otherwise.

MEDALS have been given by the Humane Society to Tunis A. Craven, a grandson of Admiral Craven; Bertrand Fay, a son of Gaston Fay, the artist; C. J. Laron, a seaman, and Koziro Okubo, one of the boy sailors of the *St. Marys*, for saving lives under circumstances already reported here.

COMMANDER CHADWICK, U. S. N., finds that the office of naval attache has its drawbacks. He was roused out of his warm bed the other night and requested to make use of his nautical experience to bail out—not a leaky boat or a drunken compatriot—but a crazy American lady, who had been raising high jinks and was arrested in consequence.

PASSED ASSISTANT ENGINEER HENRY HERWIG, of the Navy, at present on duty in the Bureau of Engineering, is beginning to cast an anxious eye to the list of "availables for sea-service," and anticipates "breaking out" before the present year gets very old. Should Mr. Herwig go to the Pacific or Asiatic Station, it is likely that Mrs. Herwig (*née* Wheat) will return to Alexandria, Va., her native place, to await the conclusion of that naval orgie, a "three years' cruise." They are living at 920 15th St.

LIEUTENANT GEO. W. TYLER, Lieut. W. S. Cowles, Chief Engr. Geo. W. Melville, P. A. Paymr. Jno. C. Sullivan, Gunner Jno. Russell, Asst. Paymr. S. L. Heap, P. A. Paymr. C. W. Littlefield, Rear Admiral Jno. Lee Davis, Lieut. W. H. Emory, Jr., Lieut. E. F. Qualtrough, Capt. H. A. Bartlett, U. S. M. C.; Lieut. Wm. P. Clason, Lieut. R. Wainwright, P. A. Paymr. Frank H. Clark, Med. Director W. T. Hord, Gunner T. P. Venable, P. A. Engr. Geo. W. Roche, Lieut. R. Mason Lisle, Comdr. C. M. Chester, Lieut. J. D. Adams, and Ensign E. H. Tillman, registered at the Navy Dept. this week.

CAPT. C. F. GOODRICH, commanding the Torpedo Station, Newport, R. I., has commended to the Navy Department the bravery of Coxswain William Smith. At about 9 P. M., Dec. 28, Miss A. Thomas was returning from the Torpedo Station, where she had been visiting her sister, Mrs. Phelps, wife of Gunner Phelps, and when the steam launch reached her dock, Miss Thomas in alighting slipped and fell overboard. The coxswain left the wheel as speedily as possible and jumped overboard, and was soon lost to view. He had much difficulty in finding the drowning woman, but he succeeded and kept her afloat until timely assistance was renderod in taking both on the dock. Miss Thomas had twice disappeared from the surface of the water when rescued.

REAR ADMIRAL JOHN LEE DAVIS, U. S. N., registered at the Albemarle Hotel, New York, on Wednesday.

COMMANDER G. F. F. WILDE, U. S. N., of the *Dolphin*, is spending the week with friends in Boston, Massachusetts.

ENSIGN E. E. WRIGHT, U. S. N., of the Coast Survey, was married, Dec. 8, at Wayland, to Miss Katharine M. Davis.

CHIEF ENGINEER HARRIS, of the Bureau of Steam Engineering, is spending the holidays with his sister, but will be at his desk again early in the coming week.

DURING the hunt races recently at Bermuda, Lieut. Claude Lindsay, of the British ship *Emerald*, lost his life. He was thrown from his horse and so badly injured that he died shortly after.

ENGINEER-IN-CHIEF LORING visited the Norfolk Navy-yard on Tuesday last to inspect the work being done on the machinery and boilers of the U. S. S. *Trenton* being repaired there.

THE tea party given by Admiral and Mrs. C. R. P. Rodgers at Washington on Tuesday drew out all the resident Washingtonians. Mrs. Rodgers had with her Lieut. and Mrs. Alexander Rodgers, of West Point, and Mrs. Bradley.

PASSED ASSISTANT ENGINEER J. L. D. BORTHWICK, U. S. Navy, who recently arrived from the Asiatic Station, is stopping through the holidays at the Norfolk Navy-yard, he and Mrs. Borthwick being the guests of Captain George Brown.

COMMANDER J. B. COGHLAN U. S. N., and Captain C. F. Williams, U. S. M. C., of Mare Island, Cal., have been elected on the executive committee of the Sloat Monument Society, recently organized in San Francisco, to collect funds by subscription and legislative appropriation to erect a monument at Monterey to the memory of Admiral John Drake Sloat.

PAY DIRECTOR LOOKER, of the U. S. Navy, is one of the fortunate individuals whose services are to be continued into the new year at his present station. Mr. Looker's assignment as the officer in charge of the Navy Pay Office in Washington is extended one year. The Paymaster is pleasantly located with his family in Georgetown, where he occupies a residence next door to that of District Commissioner Wheatley.

CHIEF ENGINEER JOHN A. SCOT, U. S. N., at present on duty at the Miller Forge, Pittsburgh, superintending the construction of a pair of crank shafts for the Navy, was in Washington a few days since in obedience to orders from the Department, for the purpose of consulting with the Engineer-in-Chief of the Navy on the work going on at Pittsburgh. Mr. Scot will spend a portion of the holidays with his family in Philadelphia, from whom he has been separated since early in the summer.

THE Secretary of War having been absent this week no one has yet been selected for the vacancy on the disability retired list. An effort is being made by some of the officers of the 18th Infantry to get Capt. Cass Durham before a retiring board with the view to securing the promotion of 1st Lieut. Michael Leahy, the senior lieutenant of infantry, who, on Jan. 7, will have completed twenty years' service as a 1st lieutenant. As Capt. Durham has been on the sick list a good deal for the past three or four years it is probable that a board will shortly be convened for his examination, and if found permanently incapacitated he will probably be retired immediately. There are many who would like to see 1st Lieut. Frederick Fuger, of the 4th Art., who has had twenty-two years' service in his present grade, promoted, but as none of his seniors seem to be ready for the retiring board, he will probably have to wait upon some other casualty for his promotion.

DAVID'S ISLAND.

THE new Mess Hall at David's Island, N. Y. H., a convenience much needed and at last happily finished, was opened with due ceremony on Wednesday evening of this week in the presence of all the officers and ladies of the garrison, the officers and many ladies located at other posts in New York Harbor, and numerous guests from New Rochelle, Pelham and elsewhere. Major General Schofield was represented by members of his personal staff. The Depot Band furnished music for the occasion, and the *cuisine* was of the first order. The opening was brought to a pleasant end at an early hour on Thursday morning.

David's Island is slowly, and surely, we trust, becoming what it ought to be - a model recruiting depot; and the new Mess Hall is by no means an unimportant addition to the Barracks and Quarters accommodations.

MILITARY RECORD OF McCLELLAN.

JUSTICE can never be done the military record of Gen. Geo. B. McClellan until it is historically understood that the civil policy of the administration of the Government required that military success must not prematurely close the war in 1862, thereby throwing the question of settlement, on the basis of the abolition of slavery, before the people unprepared for solution. A three-fourth vote of all the States is the constitutional requirement to amend. That vote was not deemed possible nor politic in 1862. The danger of confusion in its submission to the people during the intense strain of conflicting excitement was imminent. All now accept the extinction of slavery as the great providential result of the war, and accredit the administration with the wisdom and glory of the achievement. A restored Union without it were a rope of sand. But few have realized that the sacrifice of the military career of Geo. B. McClellan was the condition: "Festina lente." His military plan to cut the arteries of communication passing through Raleigh, N. C., and Knoxville, Tenn., whilst moving with overwhelming men and means on the objective of the middle zone near Richmond, Va., would have necessitated the yielding, without humiliation, of the military powers of the Confederacy in 1862. These men and means were withdrawn from his command after he had organized and set his three armies in motion on the contradictory plea that he was too slow, instead of having been, as it proved, two years too fast. Statecraft is the higher law of policy. And, finally, he was relieved from command in the field near Warrenton, Va., at the moment his army had broken the centre of that of the enemy and in the act of striking one wing separated from the support of the other by a mountain and thirty miles of march. The problem is now plainly demonstrated to military minds that he was not permitted to succeed. Had not the tragedy of April 14, 1865, prevented, who can doubt that the policy and its result would have been made equally plain to all in the era of peace and good will then opening. Let us begin here to make plain the sacrifice on the altar of his country, of the great and good soldier, Gen. Geo. B. McClellan, so that posterity may profit by the light of truth to read the record of his military fame.

WM. W. BURNS,
Div. and Brig. Commander, Army Potomac.

RECENT DEATHS.

THE death is announced of Frank Weigman, the oldest man in Cincinnati, he having reached the age of 105. He was born in Westphalia, and served under Blucher at the battle of Waterloo, where he received a sword thrust which marked him for life. He was 90 years old when he landed in New York on his way to the West and could speak very little English. He had in his possession a medal of merit from Frederick II., King of Prussia.

A TELEGRAM to Gen. Sherman announces the death, at Louisville, of Mrs. Bacon, wife of Maj. Jno. M. Bacon, 7th Cav., late A. D. C. on the General's staff. This bereavement, following as it does the death of Col. Bacon's children, will specially awaken the sympathies of his friends. Mrs. Bacon will be pleasantly remembered by many in Washington, where her husband was so long on duty at Army headquarters.

GENERAL PITTIÉ, Secretary-General of the Presidency, and Chief of the Military Staff attached to M. Grévy, President of the French Republic, died in Paris, Dec. 4, from tumor in the stomach, which prevented him from tasting food of any kind for the past fortnight. His general constitution was so good, however, that he was able to transact business up to three days before his decease.

WE regret to note the death recently at Brighton, England, of Field Marshal Sir Richard Dacres, who entered the army in 1817, and had nearly seventy years' service. More than a quarter of a century ago, when on a visit to England, we were indebted for many courtesies to General Dacres, who was then a Colonel of Artillery, and Commandant of the Woolwich garrison.

THE funeral of Mr. A. Ross Ray, who died at Mare Island, Cal., Nov. 28, took place Dec. 23, from St. John's Church, Georgetown, D. C. A large number of relatives and friends attended. The interment was made at Oak Hill. The pallbearers were Commissioner Webb, Gen. Augur, Capt. Ramsay, Surg.-Gen. Gunnell, Messrs. Charles C. Glover and Henry Hurt

WE last week announced the death of the widow of Maj. Stephen H. Webb, formerly of the Army, who was disbanded June 30, 1847. We learn that Maj. Webb died at Jacksonville, Fla., either in February or March, 1873. His remains were brought from there and buried in the cemetery of the Reformed Church at Claverack, Columbus Co., N. Y., his native town.

MRS. CATHARINE M. MIDDLETON, who died December 7th at Woodley, near Washington, D. C., was the mother of Surgeon J. V. D. Middleton, U. S. A., and of the wives of Captain H. L. Howison and Chief Engineer Alexander Henderson, U. S. Navy.

CAPTAIN W. W. MOORE, who served at Fort McHenry, Md., as a "powder boy" during the War of 1812, died Dec. 23, at Washington, in the eighty-fourth year of his age. During his lifetime he held many responsible public positions.

MR. JAMES M. EDGAR, who died at El Paso, Texas, December 8th, was father of the wives of Major W. H. Bell, Subsistence Department, U. S. A., and of Colonel J. H. Watts, formerly of the Pay Department U. S. A.

MR. EDWARD S. LAWRANCE, who died recently in Philadelphia of pneumonia, is the father of P. A. Engineer J. P. S. Lawrance, U. S. N., of the *Juniata*.

MRS. HEYL, mother of Inspector-General E. M. Heyl, U. S. A., and Lieut. C. H. Heyl, 23d U. S. Inf., died last week at Camden, N. J.

THE FORTY-NINTH CONGRESS.

The report of the Board of Managers of the National Home for Disabled Volunteer Soldiers was laid before the House Dec. 22. The average number of inmates during the last fiscal year was 8,946, against 8,050 for the preceding year—an increase of 11.13 per cent. This ratio of increase is said to be likely to continue for a decade to come. The survivors of the war are growing old; their disabilities are severer, and the number who are unable to support themselves is rapidly increasing. Notwithstanding the recent completion of the home at Leavenworth, Kas., there are yet many disabled and destitute soldiers cared for in almshouses.

BILLS INTRODUCED.

S. 3023, Plumb. That the Kansas, Texas and Southwestern Railway Company, a corporation in the State of Kansas, be, and is hereby, granted a right of way, not to exceed one hundred feet in width, across the Fort Hays Military Reservation, upon such line as may be approved by the Secretary of War.

H. R. 10269, Ryan. That the sum of $100,000 be, and the same hereby is, appropriated, to be paid out of any money in the Treasury not otherwise appropriated, for the erection of a monument to the negro soldiers and sailors who fell while fighting for the preservation of the nation's life in the War of the Rebellion, in the District of Columbia, at such place as the President may designate.

Sec. 2. That the money hereby appropriated shall be immediately available.

ON Wednesday, Dec. 11, the *Nareissus*, the last of the belted English cruisers, was launched at Earle's shipbuilding yard, Hull.

HONORS TO GENERAL LOGAN.

MADISON, WIS., Dec. 28.

GEN. FAIRCHILD, Commander-in-Chief of the Grand Army of the Republic, issued the following last night:

To the Grand Army Posts of the Country:

SPECIAL ORDER No. 3.

The Commander-in-Chief with great sorrow announces the death of Comrade John A. Logan, who departed this life on Sunday, Dec. 26, at Washington, D. C. One of the very first to become an active worker in the ranks of the Grand Army of the Republic, he continued to the end of his eventful and most efficient life to give his best efforts for the good of the order. Always brave, patriotic, honest, his life closes amid the tears and lamentations of the people of the great Republic which he did so much good to preserve. His memory will continue to be one of the richest inheritances of his old comrades of the Union Army. At the funeral services, wherever they may be held, will be found thousands of his old comrades gathered to pay the last sad tribute of respect for the gallant soldier whom they so dearly loved.

Among the messages of condolence from all parts of the country received by Mrs. Logan were the following tributes from veterans:

WASHINGTON, D. C., Dec. 27, 1886.

Mrs. John A. Logan:

DEAR MADAME: The Military Order of the Loyal Legion of the United States desires me to express to you its sincere sympathy and condolence in this hour of your great trouble. In the death of your illustrious husband the Loyal Legion has lost one of its most distinguished soldiers and a highly esteemed companion. Very respectfully,

P. H. SHERIDAN, Lieut.-General Commander-in-Chief.

The following despatch was received at Washington Dec 28:

MADISON, WIS., Dec. 28.

SPECIAL ORDER No. 4.

The Commander-in-Chief is informed that the remains of our comrade, Gen. John A. Logan, will lie in state from next Thursday noon until Friday noon, when the funeral ceremonies will take place in the United States Senate Chamber at Washington, D. C. It is expected and hoped that all comrades of the Grand Army who can do so will attend the funeral. By order of

LUCIUS FAIRCHILD, Commander-in-Chief.
FRANK W. OAKLEY, Assistant Adjutant-General.

HEADQUARTERS, DEPARTMENT OF THE TENNESSEE, VICKSBURG, MISS., July 20, 1863.

SPECIAL ORDERS, No. 196.

Major-General John A. Logan, commanding Third Division Seventeenth Army Corps, Army of the Tennessee, whose health was so much impaired at the beginning of the Vicksburg campaign that the general commanding directed a leave of absence to be forwarded to him, which he declined to avail himself of because of the active operations of the army in which he has borne so conspicuous a part, being still in enfeebled health is, for the benefit of the same, hereby ordered to proceed to the State of Illinois. As soon as he has sufficiently recovered he will rejoin his command at this place. By order of Major-General U. S. GRANT.

JOHN A. RAWLINS. Assistant Adjutant-General.

OPPOSED TO COAST DEFENCE.

PREPARATIONS are being made by the Free Trade Club, of which Everett P. Wheeler is president, to hold a mass meeting in Cooper Union some time between now and Jan. 14. The object of the meeting is to protest against the spending of the surplus revenue on coast defences and also the reduction of the tax on whiskey, tobacco and sugar, while the more important necessaries of life remain taxed. D. Willis James is expected to preside. Jackson S. Schultz and Henry George have agreed to speak, and Speaker Carlisle and Carl Schurz are also expected to deliver addresses.

The opinions held by Henry George on this subject are shown by a lecture he delivered at Paterson, N. J., on Tuesday last. In the course of this lecture he spoke of the proposed new steel cruisers: "We have about as much need of them as a dog has of two tails, or as Pharaoh had of the pyramids. Liberty's statue enlightens the world and shines on incoming steamers filled with passengers who are fined for bringing good things into the country. We have got so used to this that a good many people imagine that the best thing for the country would be a high tariff wall built all around it. This ostensibly is to give more employment for home labor. What the working people want is not more work, but more things with less work. Labor itself is absolutely helpless so long as it has no land to work upon. The mere laborer must always seek an employer. That is the reason why men look on such useless work as building steel cruisers as beneficial; it is not that they want the work, but because it is the only way that they can satisfy their wants."

THE OLD COLONEL.

A CORRESPONDENT of the Denver *Tribune* writes: The old Colonel ripening for pension on the shelf of "General Duty" is an object at once pitiful and ludicrous. His profession has ebbed away from him, and he lies a melancholy derelict on the shore, with sails idly flapping against the mast and meaningless pennants streaming in the wind.

He has forgotten nearly everything he ever learnt of military duty, and what he has not forgotten has been changed. It is as much as he can do to keep up with the most advanced thoughts of the infantry on buttons and gold lace. Yet he is still empowered to inspect a parade, or to swear that "the service is going," etc., and though he has lost his nerve for riding, he has still a good seat on Courts-martial.

His serious business of life is to get through the day. There are various newspapers, several drinks and a dozen cigars, a game of cards and forty winks afterwards, the band on the parade ground, dinner, and over all chatter, old scandal, old jokes, and old stories. Every one likes the old Colonel, of course. Every one says, "Here comes poor old Brown; what an infernal bore he is! Hullos, Colonel, how are you? Glad to see you! What's the news? How are stocks?"

The old Colonel is not avaricious, but he saves money. His mind, therefore, broods over questions relating to his pay, the depreciation of silver, the Montezuma Canal and the saving effected by purchasing things at co-operative stores. He never really solves anything suggested by these topics. His mind is not prehensile; everything eludes its grasp, so its pursuits are interminable. The old Colonel's cerebral caloric burns with a feeble flicker, like that of a School Board, and it never consumes a subject. The same theme is always fresh fuel. You might say the same thing to him every morning at the same hour till the crack of doom, and he would never recollect that he had heard your remark before. This must certainly give a freshness to life and render eternity possible.

Our Colonel is always suspicious of the new Administration. He knows that to maintain an air of activity they must still be changing something or abolishing something; and he is always afraid that they will change or abolish. But how could they change him? In a new station he would be like "Alice in Wonderland," or old wine in a new bottle. No, he is in the right place—stars must not be allowed to shoot madly from their sphere—they will not change him.

ANNUAL REPORT ON THE REVENUE MARINE

TREASURY DEPT., OFFICE OF THE SECRETARY, WASHINGTON, D. C., Nov. 1, 1886.

SIR: I have the honor to make the following report in relation to the Revenue Marine:

The performance of the regular duties of this Service has been continued with fidelity, energy and freedom from disaster.

Thirty-eight vessels carrying a complement of 995 officers and men, have been employed during the past year. The following is a statistical statement of their work:

Aggregate number of miles cruised by vessels..	344,681
Number of merchant vessels boarded and examined	28,304
Number of merchant vessels found violating law in some particular, and seized or reported to proper authorities	1,688
Fines or penalties of vessels so seized or reported	$851,199 07
Number of vessels in distress assisted	313
Value of vessels and their cargoes imperilled by the sea to which assistance was rendered	$6,738,569 00
Number of persons on board vessels assisted	2,888

One hundred and fifty-four persons were picked out of the water and saved from drowning.

In addition to the efficient guarding of the coasts of the United States, various special duties have been executed in a highly creditable manner.

The revenue marine steamer *Rush*, commanded by Capt. Hooper, was despatched from San Francisco Jan. 2, 1886, in search of the whaling bark *Amethyst*, reported lost, or in need of succor, in the ice in Behring Sea, and cruised for more than six weeks, covering a distance of 6,475 miles on this mission.

Under the command of Capt. Healy, the revenue marine steamer *Bear* left San Francisco in May, visiting Ounalaska, the Pribylov Islands, and proceeding as far north as Point Barrow, in the Arctic Ocean. On her return, Lieut. Stoney, U. S. N., and his exploring party were received on board at Hotham Inlet, by request of the Navy Department. Twenty-five miners, without means of transportation, and two seamen from the whaling fleet in need of medical treatment, were also brought down from St. Michael's.

Since the return of the *Bear* to San Francisco, in October, the result of her explorations seems to leave no hope of the survival of the *Amethyst* or any of her company.

Under special orders to cruise in the waters of Alaska, and principally in the vicinity of the Seal Islands, the revenue marine steamer *Corwin*, under the command of Capt. Abbey, put to sea June 10, 1886. July 17 seizure was made of the schooner *San Diego*, and Aug. 1 and 2 of the schooners *Thornton*, *Carolena* and *Onward*, all engaged in the unlawful killing of seals. The parties engaged on board of these vessels were taken to Sitka, and there tried, convicted and sentenced to fine and imprisonment. After visiting various points in Alaska, the *Corwin* returned to her station at Astoria.

Other vessels of the revenue marine fleet have proved their efficiency in scenes of trial and danger; the *Dix*, at Key West at the time of fire, rendered valuable aid in its suppression, sheltered and fed many homeless persons, guarded property from depredation, and preserved order; the *McCulloch* afforded shelter to 170 persons immediately after the earthquake shocks at Charleston; the *Penrose* proceeded to Sabine Pass, Texas, shortly after the flood, for the rescue of those who had survived, and the recovery of the remains of those who had perished, and distributed the supplies forwarded to relieve the destitute; the *Woodbury*, at the time of the recent fire at Eastport, Me., did good service in assisting and protecting the people of that place.

Material assistance has been given, as customary, by the revenue marine to the Life Saving Service. Boats, stores and supplies have been transported and delivered. The distance cruised while performing these services aggregated 18,988 miles.

The expenditure of the Revenue Marine Service and the protection of seal fisheries in Alaska for the year 1885 was $880,232.48.

Several of the vessels of the revenue marine fleet are now worn out by hard service, and should be replaced by new ones of improved construction. Suitable appropriations are needed, especially for a new vessel in place of the steamer *McLane*, lately withdrawn from Galveston as unseaworthy, and also for a steamer to replace one of those now on the New York station. Respectfully submitted.

PETER BONNETT, Chief Revenue Marine Division.
HON. DANIEL MANNING, Secretary of the Treasury.

GRANT ON MEADE.

To the Editor of the Philadelphia Weekly Press:

ONE night at City Point, just before the surrender of Richmond, while talking with General Grant in his tent, I asked him how he estimated General Meade as a military man.

"Why," he answered, "I esteem him highly and second only to Sherman, and but for his quick temper he would have no superior, and yet," he added, "with that quick temper goes his quick perception of what is required on the field of battle and makes his judgment so unexceptionable."

I was with General Grant (then President) when a telegram was brought in announcing his death. He handed it to me and said: "That is sad news, but what a calamity it would have been had it happened during the war." Grant deeply felt General Meade's death and his loss to the country.

DAVID D. PORTER.

ATLANTIC CITY, July 20, 1886.

Military Order of the Loyal Legion.

A meeting of the Wisconsin Commandery will be held at Milwaukee, Jan. 5, when the following will be balloted for: Lieut. W. H. Blyton, U. S. V.; Gen. T. S. Allen, U. S. V.; Col. C. D. Cleveland, U. S. V.; Lieut. M. J. Cantwell, U. S. V.; Col. N. B. Van Slyke, U. S. V., and Major C. G. Mayers, U. S. V. The commandery has a total membership of 136, and is in a flourishing condition.

A meeting of the District of Columbia Commandery will be held Jan. 5, when the following will be balloted for: Col. G. N. Lieber, Acting Judge-Advocate-General, U. S. A.; Col. Theodore Yates, U. S. A.; Capt. R. A. Fish, U. S. V.; Gen. J. B. Coit, U. S. V.; Capt. R. Armour, U. S. V.; Capt. J. M. Lancaster, 3d U. S. Art., and Lieut. T. N. Wood, U. S. Marine Corps. The total membership is now 358. Major W. H. Gardner, Col. G. S. Palmer, and Lieut. R. G. Carter, U. S. A., have been gained by transfer.

(Correspondence of the Baltimore Sun.)

CROSSING THE LINE IN THE "VANDALIA."

U. S. S. "VANDALIA," MONTEVIDEO, URUGUAY, October 19, 1886.

This ship arrived here this morning direct from New York, the intention being to stop at Rio Janeiro, but, meeting with favorable winds, we kept on until we reached Montevideo. We will recruit ship here prior to sailing for the Pacific station. The passage out was quite long and tedious, being sixty-five days, and sailing 7,500 miles.

On the evening of Sept. 22, in the "dog watch," the *Vandalia* was hailed by a stentorian voice from over the water:

"Ship ahoy! What ship is that?"

The officer of the deck answered:

"The United States steamer *Vandalia*."

It proved to be Neptune himself.

"Where are you from and where bound?" asked his majesty.

"From New York, bound to Rio," was the reply.

Neptune answered:

"All right! Give my respects to the Captain, and tell him I will visit his ship at half-past 9 to-morrow morning. I understand you have several on board who have never crossed the equator."

There was great commotion among the marines and boys for hours afterwards. At the appointed time Neptune came, followed by Mrs. Neptune, holding young Neptune in her arms, who will some day become ruler of the sea.

The boom-cover was rigged in the starboard gangway, the hose was put to the pump, and the boom-cover filled with water. The shaving-stand was erected, and everything prepared for business. Chief Engineer Geo. J. Burnap was the first called. He was introduced. Neptune informed the Chief that as he had never crossed the equator before, he would have to be initiated, or, if he chose, he could pay tribute. The chief chose the latter, as did also the "middies." A bottle of wine was the forfeit, but there being very little wine on board, Neptune was informed it would be sent to him from the first port we touched at. Neptune then proceeded forward. The barber's chair was placed so that it could be tipped backwards and throw the victim into the boom cover, which was filled with water. The Orderly Sergeant was the first called, and he looked as if he would like to be excused, but the doctor pronounced him all O. K., and he stepped to the barber, took his shave, and was then thrown backwards and dragged through this pool of water by Neptune's bears. Our ship's waiter, being anxious to become a true son of Neptune, was next called. He stripped for the occasion and took his shave very well. Everybody was anxious for the apothecary to be initiated, and he was called. He became indignant and allowed it was a shame. He wondered why the Captain allowed such kind of work; but as the ship was in Neptune's hands, he was the only one who could save him, but he excuses nobody on state occasions. He had to succumb, and mounted the chair with feeble step. Neptune's barbers lather with lampblack and grease, and then shave him, and tip the chair and throw him headforemost into the water. The barbers only took one minute with each patient. Each candidate had to kiss Neptune's baby, whose face on this occasion was smeared with blacking. The razors used were something over two feet long, with green handles. Neptune had finished sixty odd when one of the coal-heavers took to the foreriggging. After an investigation, it proved to be his next turn for shaving. So Neptune called out his police force, who went after him, and soon had him in the chair and then into the boom cover. When the bears got through with him he was as mild as a lamb. In fact, he was the only one that was troublesome, if I may call it so, as it is no trouble, for Neptune has a very powerful police force. Our twenty-five naval apprentices behaved admirably and took their share in good part, as also did the thirty-eight marines, and with fifty-six others, made a total of 119 installed as sons of Neptune.

We will sail for Valparaiso as soon as the ship is coaled and provisioned and the men get liberty. We have had a boat race with the captain of the port, his boat being pulled by English men-of-war's men. It is almost useless to say much about it, as our cutter had it all her own way, beating the other boat one minute and fifty-five seconds. On the passage through the Straits of Magellan we will stop at Sandy Point to coal. They are electing a new cabinet here, and great excitement prevails. The President was shot here some time ago, but not seriously, and everybody seems to want a change.

STATE ENTERTAINMENTS AT THE WHITE HOUSE.

THE President has fixed the following dates for State entertainments at the White House during the present season:

Saturday, Jan. 1—The President's New Year's reception from 11 A. M. to 2 P. M.

Saturday, Jan. 8, Jan. 22, Feb. 5, and Feb. 19—Mrs. Cleveland's receptions from 3 to 5 P. M.

Thursday, Jan. 13—Reception to the Diplomatic corps from 9 to 11 P. M.

Thursday, Jan. 20—Dinner to the Cabinet.

Thursday, Jan. 27—Reception to Congress and the Judiciary from 9 to 11 P. M.

Thursday, Feb. 3—Dinner to the Diplomatic corps.

Thursday, Feb. 10—Reception to officers of the Army and Navy and Marine corps.

Thursday, Feb. 17—Dinner to the Supreme Court.

Tuesday, Feb. 22—Public reception from 9 to 11 P. M.

Mrs. Cleveland's Saturday afternoon receptions are given fortnightly, alternating with the President's evening receptions.

A GERMAN squadron, under command of Commo. Von Kall, consisting of the *Stein*, flagship, and *Moltke* and *Prinz Adalbech*, arrived at St. Thomas, Dec. 21. The Danish frigate *Iylland* is also there with Prince Carl, second son of the Danish Crown Prince, on board as a midshipman; also the Italian flagship *Amerigo Vespucci*, Admiral Mantese.

THE *Isla de Cuba*, a cruiser ordered for the Spanish Government, was launched on Saturday, Dec. 11, from Elswick, England, and a Chinese man-of-war on Tuesday following.

A TRIBUTE TO OUR MEDICAL CORPS.

THE *Church Record* (Southport, Conn.,) of Dec. 15, contains an address on "The Guild of S. Luke Evangelist and Physicians in the U. S. of America," delivered in Calvary Church, New York City, Nov. 19, 1886, by Wm. Thornton Parker, M. D., Provost of S. Luke's Guild. Dr. Parker states that in the year 1654 there existed in Amsterdam, Holland, a corporation, presumably of physicians, known as the Guild of S. Luke, which was probably the first of this name, of which any trace can be found. At the beginning of 1886 it was proposed to form an American Ward of the Guild of S. Luke. Application for authority was made to the Bishop of Rhode Island and to the Parent Society. The Bishop of Rhode Island sent his *blessing* as well as his Episcopal authority for the undertaking and the Parent Society sent a charter and kind words of encouragement, and at last after some delays and difficulties, the first meeting of the Guild of S. Luke in the United States was held on Holy Cross Day, Sept. 14, 1886, and the organization perfected. Since then the American Ward has steadily increased, and has reached such a degree of strength and its future seems so hopeful that it was thought best to call this meeting in New York City.

In the course of his address Dr. Parker pays a high compliment to the military medical officers, of whom he says: "Who that is entitled to that honorable name of veteran soldier will not bear witness to the gallantry of the medical officers, in time of war, especially in late years when the terrible engines of destruction make such quick work upon the battlefield? What heroes those who faced the showers of bullets and the deadly spear and cimetar in Egypt!—in the front rank, succoring and ministering to the wounded, and carrying words of religion to the dying. Sometime ago I received a letter from a prominent Army surgeon, now a brother of the Guild, asking if medical officers of the Army were eligible for membership. Who are better able than they to carry out the objects of the Guild of S. Luke and especially so in war, where they almost alone have access to the dying. Consider for one moment the opportunities for good which the military surgeon possesses. But it is not alone on the battlefield, or in the hospital of a fighting army that the military surgeon can do manly Christian work as a member of the Guild of S. Luke. At our frontier posts the doctor sometimes, I wish I might say often, acts as post chaplain, reading lay services on Sundays, and burying the dead, but his opportunities are countless, not only by personal influence and example, and promotion of works of mercy—but he can say a kind word of religious encouragement, time and again when there is no one else to say it, and his saying it will often attract more attention for good than even a chaplain's ministration! In the hospital wards he can discourage profanity and obscenity and he can guard the dying man from annoyance and protect the dead body from insult and wrong. He can show mercy and pity in the dispensary at sick call, and in many other ways well known to the faithful medical officers. And do you ask what would such a man's fate be, amongst his brother officers? I know of no officers on earth more respectful to those who seem to be religious than our American officers. Let a man do his duty whatever it is, and he will secure the respect due him, at any frontier post or other post of the United States. This is only what you might reasonably expect from brave and educated officers, and I honor them for it. This applies with equal force to the Naval and other medical officers in the Government employ. For our medical officers of the Army or Navy and other departments of the Government service S. Luke's Guild is desirable and its certificate of membership compatible with honor and usefulness."

(From the Chicago Tribune.)

GENERAL SHERMAN'S SON.

"I AM Mr. Sherman." The speaker stood in the reception room of the Detroit (Jesuit) College on Jefferson Avenue this morning. He came here a month ago to enter the college as an instructor. Mr. Sherman is a slightly built young man. He wore a handsome silk gown or vestment, which fell quite to his feet. The gown was very becoming. His hair is a light brown, modestly brushed back off his forehead. He has a fair complexion, strong, square, manly face, honest-looking gray eyes, a fresh, kindly, agreeable manner, and a general air of health and vigor. On the whole, his resemblance to the ideal priest is slight—in fact, remarkably so. As a matter of fact, "General Sherman's son Tom" is not a full-fledged priest, but merely a "scholastique."

"My father was disappointed at my course in entering the church," said Mr. Sherman. "He had not intended me for a recluse, and was, of course, disappointed. Still there is no breach between us, as has been falsely reported. I spent some time with him recently. We were perfectly friendly, and since coming here I have received a number of letters from him. I am now Professor of the rhetoric class. Next year I shall have concluded my fourth year as a scholastique. I shall then spend four years as a student of theology at Woodstock College, Maryland, after which I shall be ordained. What will become of me then only the church can say. I suppose I shall be a parish priest or a missionary."

"Of course you do not regret your action?"

"No, I am very happy here, and have never regretted the course I have taken. We never look back—always forward. Ours is not the usual life of a monastic. Our order aims to live much as laymen live. We take the usual vows of chastity, poverty, and obedience, but 'poverty' only means that we shall have no private property. We live in a community, and we are well lodged, well fed and well clothed. Our rooms are comfortable, but not luxurious. Mine is about 15 feet long by 12 wide. It has no carpet or pictures, but is furnished with a good bed, chairs, dressing table, wardrobe, washstand—all plain, but good. We have excellent food and plenty of it, and there is actually nothing to complain of. We rise at 4:30 or 5 o'clock, dress ourselves, and pass an hour in meditation. We usually meditate upon some passage in Scripture, which we apply to our own lives. For instance, the subject of a recent meditation of mine was the text, 'Judge not, lest ye be judged.' After meditation, we attend mass in a body."

"What are the day's duties?"

"We breakfast at 7 o'clock," said Mr. Sherman, "and begin teaching at 9. My class numbers 18 boys. We aim to make our pupils thoroughly educated, cultivated men. With an interval for dinner the school lasts until 4 o'clock in the afternoon. At 4 o'clock I lay aside my dress, assume that of an ordinary layman, and walk out upon the streets. When I return I lay out my lessons for the next day's class. At 7 o'clock we eat supper. All our meals are eaten in silence, some brother reading aloud from some improving book, so that all may hear. At 7.30 we go to the drawing room and spend an hour in recreation and conversation. At 8.30 a bell rings, and we file off to chapel, where we hold common prayer for 15 minutes. We then go to our rooms and pray in private for 15 minutes. After that we spend 15 minutes in preparing our meditation for the morning. Then we examine our conscience as to what we have done during the day. Then we sleep."

UNIVERSITY OF MINNESOTA.

CONGRESSMEN GILFILLAN AND NELSON, regents of the University of Minnesota, called upon the Secretary of War, Dec. 20, and presented a letter from the board of regents relative to the 250 stand of arms now at the university, which the Chief of Ordnance of the War Department ordered should be shipped last fall to the Rock Island arsenal. Accompanying it was a letter from Gen. Sibley, in which he says:

"A letter has been addressed to the President of the University of Minnesota by the acting Chief of Ordnance, United States Army, containing a peremptory order for the return of the arms and equipments furnished the institution several years since by the Government to facilitate the instruction in military science and tactics therein. The regents, who control the affairs of the university, have had the letter referred to forwarded to the president of the institution and have instructed me, as their presiding officer, to request you to overrule the action of your sub-officer in the premises, which is based upon the single fact that no officer of the United States Army is at present in charge of the chair of military instruction. By direction of the board of regents, I requested that Lieut. Lundeen, attached to the light battery stationed at Fort Snelling, might be detailed, as he had some years previously been in charge of the military department of the university, the duties of which were discharged with signal credit to himself and great advantage to the students. The response was that Lieut. Lundeen could not be spared from his post; and the regents, despairing, desisted from further attempts to attain their object. Meantime, however, the instruction in military science has not been neglected, the regents employing the most competent teachers that could be found in private life. To deprive us now of the arms and equipments would simply paralyze all efforts in that direction. This great university is the leading educational agency in this State, and ranks among the foremost in the Northwest. It has nearly or quite four hundred students, and the number is increasing yearly. It would seem that such an institution has peculiar claims for consideration by the Federal Government, instead of being subordinated to denominational schools, as has been and still is the case."

(Special Despatch to the Baltimore Sun.)

SOCIAL NOTES FROM WASHINGTON.

WASHINGTON, Dec. 26.

THE presence of Mr. Alan Arthur in Washington at this time has revived the subject of his engagement to a well-known West End belle. According to a social gossip Mr. Arthur is here for the purpose of renewing his engagement, providing the young lady in question is willing. As the story goes, young Arthur came to Washington during the first winter his father occupied the White House to spend the Christmas holidays. He was at that time nothing but an overgrown, awkward college youth, his father allowing him $50 per month spending money. The young society men of this city received him with open arms, and an ambitious young naval officer, who desired a pleasant detail from the President, was particularly friendly to young Arthur and expended large sums of money for his amusement. In the course of his social ramblings young Arthur became infatuated with one of the acknowledged belles of society, and it was soon whispered about that Alan Arthur was engaged to be married to Miss Beach. The two young people were frequently seen together, and their fondness for each other's companionship appeared to be mutual. Alan found the excitement of social life in Washington more fascinating than "boxing" at college, and he spent most of his time here, professing to be too delicate to keep up with the yearly course of study mapped out for him by his instructors. The following winter it was observed that the two young people referred to appeared indifferent to each other, and Alan was frequently seen out driving with other young ladies well known in social circles. Then followed an announcement in the local society papers that Alan Arthur's engagement with Miss Beach was off, and the young lady soon afterward departed on a European trip. Her beauty, grace and numerous accomplishments made her a great social favorite abroad, and the American letter-writers could not sound her praises too highly. Several months ago she returned to her home in this city, and in the meantime her string of admirers is almost numberless. She has an exquisite figure, graceful neck and shoulders, beautiful brown hair and eyes and a lovely complexion, and is the life of almost any party or gathering in which she participates. It is said that young Arthur has greatly improved in manly qualities, and during the past two years has devoted himself assiduously to his studies, and his present visit to this city is for the purpose of winning back his first love. The naval officer referred to above secured the command he was working for, and afterward young Arthur had to pilot himself through the rough seas of Washington society.

THE following named officers were recently registered at Department headquarters at St. Paul: Maj. W. H. Forwood, Surgeon, U. S. A.; 1st Lieut. Levi F. Burnett, 7th Inf.; 2d Lieut. W. H. Baldwin, 2d Cav.; Capt. W. I. Sanborn, 25th Inf., returning from sick leave en route to station; 1st Lieut. John S. Rodman, 20th Inf., en route to Columbus Barracks.

THE ARMY.

G. O. 18, DEPT. OF DAKOTA, Dec. 22, 1886.

Directs commanding officers of posts at which works of construction are in progress, to forward monthly reports, showing the progress of, and expenditures connected with, the said works, calls attention to the non-observance of the requirements of A. R. 243, as amended by G. O. 14, s. 1885, A. G. O., in making notification to the Pay Department of men to be discharged.

The regulations are specific in requiring the notification to be in the handwriting of the officer who signs the final statements.

Certificates of disability for the discharge of enlisted men, are, quite frequently, received without the requirements of notes 1 and 2, on the forms being fully complied with.

Attention is invited to the subject, so that the certificates may reach headquarters in an acceptable form.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Leave for ten days is granted Brig. Gen. O. B. Willcox (S. O. 148, Dec. 2, Dept. Mo.)

Judge Advocate General's Department.

Leave of absence for twenty days is granted Capt. Stephen W. Groesbeck, Acting Judge Advocate (S. O. 130, Dec. 20, D. Dakota).

Quartermasters and Subsistence Departments.

Post Q. M. Sergt. Arthur Levinsohn, recently appointed from 1st sergeant, Co. B, 7th Inf., now at Camp Pilot Butte, Wyo. Ty., will proceed to Fort Reno, Indian Ty., reporting upon his arrival to the C. O. for assignment to duty at that post (S. O., Dec. 27, H. Q. A.)

The Q. M. Dept. will furnish the necessary transportation, and the Subsistence Dept. commutation of rations for four days, in advance, at the usual rates, it being impracticable to carry rations of any kind (S. O. 147, Dec. 17, Dept. Mo.)

Post Q. M. Sergt. Carl Damus, U. S. A., recently tried at Fort Verde, A. T., was acquitted of the charge of theft, found guilty of failing to obey a message sent him, and of being much incapacitated from the use of alcohol, and sentenced to forfeit thirty dollars. Major General Howard has approved the sentence.

Pay Department.

Major Joseph W. Wham, Paymr., will proceed not later than Jan. 3, to West Point, N. Y., on public business (S. O. 115, Dec. 30, Div. Atlantic).

The following payment of troops on muster rolls of Dec. 31, will be made: Major James P. Canby, Paymr., at Fort Canby, W. T. Major John B. Keefer, Paymr., at Forts Walla Walla, Spokane, Cœur d'Alene and Boise Barracks. Major De Witt C. Poole, Paymr. at Vancouver Barracks and Fort Klamath (S. O. 222, Dec. 18, D. Columbia).

Major James R. Roche, Paymr., Sioux City, will proceed to Omaha, and report for necessary instructions to make payments at Fort McKinney, Wyo. (S. O. 129, Dec. 16, D. Dakota.)

Leave for ten days, to take effect Dec. 24, is granted Major G. W. Candee, Paymr. (S. O. 147, Dec. 17, Dept. Mo.)

The troops in Div. Atlantic will be paid on muster of Dec. 31, as follows: Col. Daniel McClure, Asst. Paymr. Gen., Frankford Arsenal, Forts McHenry and Monroe. Major Albert S. Towar, Paymr., Forts Wayne, Mackinac and Brady. Major Joseph W. Wham, Paymr., David's Island, New York Harbor, Forts Schuyler, Hamilton and Wadsworth, and Bedlow's Island. Major Culver C. Sniffen, Paymr., Willet's Point, Forts Columbus, Trumbull and Adams. Major George W. Baird, Paymr., National Armory, Springfield, Watertown Arsenal, and Forts Warren, Preble, and Kennebec Arsenal. Major Francis S. Dodge, Paymr., West Point, Watervliet Arsenal, and Plattsburg Barracks. Major Charles McClure, Paymr., Newport Barracks, Columbus Barracks, Allegheny Arsenal, and Indianapolis Arsenal. Major Wm. H. Comegys, Paymr., Little Rock Barracks, Jackson Barracks, Mount Vernon Barracks, St. Francis Barracks, Fort Barrancas, and Augusta Arsenal. Major Henry Clayton, Paymr., Forts Porter, Niagara and Ontario, and Madison Barracks (S. O. 212, Dec. 24, Div. Atlantic).

Medical Department.

Leave of absence for two months, to take effect about Jan. 1, 1887, is granted Major Egon A. Koerper, surgeon (S. O., Dec. 27, H. Q. A.)

The leave of absence granted 1st Lieut. John L. Phillips, asst. surg., in S. O. 146, Nov. 2, 1886, Dept. of Dakota, is extended one month (S. O., Dec. 27, H. Q. A.)

Leave for one month is granted Major Wm. H. Forwood, surgeon (S. O. 129, Dec. 16, D. Dakota).

Asst. Surg. Edward Everts is relieved from duty at Fort Grant, and will proceed to Fort Apache. Asst. Surg. C. F. Mason is relieved from duty at Fort Huachuca, and will proceed to Fort McDowell, relieving A. A. Surg. R. P. Finley, who will proceed to Fort Stanton, N. M. Asst. Surg. W. B. Banister is relieved at Fort Wingate, N. M., and will proceed to Fort Lowell, A. T., relieving A. A. Surg. L. N. Clark, who will proceed to Fort Wingate, N. M. Asst. Surg. W. D. Dietz is relieved at Fort Stanton, and will proceed to Fort Bayard (S. O. 136, Dec. 16, D. Arizona).

The contract of A. A. Surg. E. I. Pring, Fort Union, N. M., is annulled, to take effect Jan. 1, 1887 (S. O. 136, Dec. 16, D. Arizona).

1st Lieut. Alonzo R. Chapin, Med. Dept., is detailed J. A. of the G. C. M., at Fort Washakie, Wyo., vice 1st Lieut. Wm. J. Wakeman, Med. Dept., relieved (S. O. 168, Dec. 22, D. Platte).

Engineers and Ordnance Departments.

Lieut. Col. Wm. E. Merrill, C. E., is appointed an additional member of the Board of Officers of the Corps of Engineers, constituted by S. O. 177, c. s. (S. O. 201, Dec. 28, C. E.)

Capt. Wm. H. Bixby, C. E., will proceed to Georgetown, S. C., and thence by river to the head of Clark's Creek and Mingo Creek, on duty connected with works under his charge, and on completion thereof, will return, via Georgetown, to his station at Wilmington, N. C. (S. O. 201, Dec. 28, C. E.)

The extension of leave of absence granted 1st Lieut. Frederic V. Abbot is further extended until Jan. 8, 1887 (S. O. 200, Dec. 27, C. E.)

Lieut. Col. Wm. P. Craighill, is, in addition to his

present duties, assigned to duty as member of the Board of Engineers for Fortifications and River and Harbor works, and will report by letter to Col. Thos. Lincoln Casey, C. E., President of the Board (S. O. 199, Dec. 24, C. E.)

Major Jared A. Smith, C. E., will proceed to Fort Knox, Me., on public business (S. O., Dec. 22, H. Q. A.)

1st Lieut. Edward Burr, C. E., is relieved from duty as Engineer Officer of the Dept. 1st Lieut. Wm. C. Langfitt, C. E., having reported to the Brig. Gen. commanding, is announced as Engineer Officer of the Dept. (G. O. 31, Dec. 14, D. Columbia.)

Capt. John G. Butler, Ord. Dept., will proceed to Hartford, Conn., for the purpose of inspecting revolvers, being manufactured at that place for the Ord. Dept. (S. O., Dec. 22, H. Q. A.)

Ord. Sergt. John Kennedy, recently appointed from sergt., Light Bat. A, 2d Art., now at Little Rock Barracks, will proceed to Fort Davis, Texas, for duty (S. O., Dec. 23, H. Q. A.)

1st Lieut. Frank E. Hobbs, Ord. Dept., will repair to Washington, on public business connected with the Ord. Dept. (S. O., Dec. 23, H. Q. A.)

Col. George H. Mendell, C. E., will proceed to San Diego, Cal., on public business (S. O., Dec. 23, H. Q. A.)

Chaplains.

Post Chaplain George D. Crocker, St. Louis, will proceed to his home, Detroit, Mich., and await retirement (S. O., Dec. 22, H. Q. A.)

Post Chaplain George Robinson is assigned to duty at St. Louis, in connection with the subject of education in the Army (S. O., Dec. 22, H. Q. A.)

The retirement from active service, by operation of law, of Post Chaplain George D. Crocker, on Dec. 25, 1886, under the provisions of the act of Congress approved June 30, 1882, is announced (S. O., Dec. 27, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

The journey performed by 1st Lieut. Curtis B. Hoppin, member of G. C.-M., from Fort Spokane to Spokane Falls, W. T., is confirmed (S. O. 218, Dec. 13, D. Columbia.)

Leave for eleven days, to take effect Dec. 23, is granted 2d Lieut. F. G. Irwin, Jr. (S. O. 148, Dec. 20, Dept. M.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

The Q. M. Dept. will pay the rent of quarters at Tucson, A. T., occupied by Major H. E. Noyes from Oct. 29 to Nov. 15, 1886, there having been no public quarters available during that period at Fort Lowell, A. T. (S. O. 135, Dec. 14, D. Ariz.)

1st Lieut. James Parker is relieved as J.-A. of the G. C.-M. at Fort Huachuca, A. T., and 1st Lieut. W. M. Dickinson is relieved as a member and appointed J.-A. in his stead. Capt. Wirt Davis is detailed as a member of the court (S. O. 135, Dec. 14, D. Ariz.)

1st Lieut. Wilber E. Wilder will inspect two public animals at St. Louis, for which Major Charles W. Foster, Q. M., is responsible (S. O., Dec. 22, H. Q. A.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

The extension of leave on account of sickness granted 2d Lieut. Luther S. Welborn is still further extended six months on account of sickness (S. O., Dec. 27, H. Q. A.)

Leave for two months, to take effect about Jan. 3, 1887, is granted 2d Lieut. John M. Carson, Fort Reno, Ind. T. (S. O. 196, Dec. 28, Div. M.)

The ordinary leave of Capt. Albert E. Woodson is extended four months for disability (S. O., Dec. 29, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

The leave granted Capt. Henry P. Perrine is extended one month, with permission to apply for a further extension of two months (S. O., Dec. 23, H. Q. A.)

The leave granted 2d Lieut. Frederick G. Hodgson is extended two months (S. O., Dec. 27, H. Q. A.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

2d Lieut. J. F. McBlain is detailed member of the G. C.-M. at Fort Washakie, Wyo. (S. O. 168, Dec. 22, D. Platte.)

Capts. Byron Dawson and Jerauld A. Olmsted are detailed additional member of the G. C.-M. at Fort Du Chesne, Utah (S. O. 168, Dec. 22, D. Platte.)

A furlough for four months is granted 1st Sergt. Melvin A. Wilkins, Troop E (S. O. 195, Dec. 24, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

Leave for four months on Surgeon's certificate, with permission to leave Div. of Pacific, is granted 2d Lieut. John B. McDonald (S. O., Dec. 27, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

Leave for thirty days is granted 2d Lieut. Elmer W. Hubbard, Fort Canby (S. O. 217, Dec. 11, D. Columbia.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

The leave granted 1st Lieut. Charles A. L. Totten, Fort Adams, is extended fourteen days (S. O. 213, Dec. 27, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

1st Lieut. William H. Coffin is, on his own application, relieved from duty at the University of Vermont, Burlington, Vt., and will join his battery (S. O., Dec. 27, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

Pars. 9 and 10, S. O. 251, Oct. 28, 1886, H. Q. A., granting leave of absence to 2d Lieut. Virgil J. Brumback and announcing the acceptance of his resignation, are revoked (S. O., Dec. 27, H. Q. A.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Leave for ten days is granted Capt. William C. Bartlett, Fort Missoula, M. T. (S. O. 130, Dec. 20, D. Dak.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

The journey performed by Capt. Gerhard L. Luhn, member of G. C.-M., from Fort Spokane to Spokane Falls, W. T., is confirmed (S. O. 218, Dec. 13, D. Columbia.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

2d Lieuts. William P. Burnham and Amos B. Shattuck will proceed from Fort Douglas, Utah, to Camp Medicine Butte, Wyo., and report for temporary C.-M. duty (S. O. 168, Dec. 22, D. Platte.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Capt. William I. Reed and 2d Lieut. George W. McIver, Camp Pilot Butte, Wyo., will proceed to Fort Omaha, Neb., and report, as witnesses, to the J.-A. of the G. C.-M. in session at that place (S. O. 166, Dec. 20, D. Platte.)

Leave for nine days, to take effect Dec. 24, is granted 2d Lieut. A. P. Buffington (S. O. 149, Dec. 21, Dept. M.)

Capt. William Quinton is detailed additional member of the G. C.-M. at Fort Washakie, Wyo. (S. O. 168, Dec. 22, D. Platte.)

2d Lieut. J. Espy McCoy will proceed to the Hdqrs. Dept. of Columbia and report in person to the Commanding General of that Department for duty as Aide-de-Camp on his staff (S. O., Dec. 27, H. Q. A.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

1st Lieut. William L. Pitcher is relieved as member of the G. C.-M. at David's Island, N. Y. H. (S. O., Dec. 22, H. Q. A.)

2d Lieut. Frank Owen will proceed from Fort Bridger to Camp Medicine Butte, Wyo., and report for temporary C.-M. duty (S. O. 168, Dec. 22, D. Platte.)

1st Lieut. Colville P. Terrett is relieved from temporary duty at David's Island, N. Y. H., and will proceed to join his company (S. O., Dec. 28, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., and F, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; H and I, Ft. Union, N. M.; E, Ft. Wingate, N. M.; A and G, Ft. Apache, A. T.; K, Ft. Verde, A. T.; C, Ft. Mojave, A. T.

The verbal instructions of the Dept. Commander, of Oct. 1, 1886, directing 2d Lieut. C. P. Stivers to join at Fort Wingate, N. M., from duty at Fort Bowie, A. T., are confirmed (S. O. 135, Dec. 14, D. Ariz.)

Major Daingerfield Parker is relieved from duty at Fort Wingate, N. M., and will proceed to Whipple Barracks, Prescott, A. T., and take station (S. O. 137, Dec. 17, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., F and H, Ft. Bliss, Tex.; B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

Leave for one month, with permission to apply for an extension of one month, is granted Capt. Leon A. Matile, Fort A. Lincoln, D. T. (S. O. 130, Dec. 20, D. Dak.)

Leave for nine days is granted 2d Lieut. R. M. Blatchford (S. O. 150, Dec. 23, Dept. M.)

Leave for six months on Surgeon's certificate, with permission to leave the Dept. of Dakota, is granted Capt. Charles F. Roe (S. O., Dec. 27, H. Q. A.)

The leave of 2d Lieut. Jonas A. Emery is extended four months for disability (S. O., Dec. 29, H. Q. A.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

The leave for seven days, taken on Dec. 23, by Lieut.-Col. Robert S. La Motte, Plattsburg Barracks, is extended one month (S. O. 213, Dec. 27, Div. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

A furlough for five months is granted Q. M. Sergt. Francis Gallagher, Vancouver Barracks (S. O. 222, Dec. 18, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

The verbal order from the Dept. Comdr., of Sept. 4, 1886, under which 1st Lieut. D. D. Mitchell was relieved from duty in connection with the Dept. Rifle Competition at Fort Snelling, Minn., with directions for him to proceed to his station, Fort Randall, D. T., is confirmed (S. O. 130, Dec. 20, D. Dak.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

Leave for eleven days, to take effect Dec. 23, is granted 2d Lieut. C. D. Clay (S. O. 148, Dec. 20, Dept. M.)

2d Lieut. William H. Camp will proceed from Fort Bridger to Camp Medicine Butte, Wyo., and report for temporary C.-M. duty (S. O. 168, Dec. 22, D. Platte.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

2d Lieut. Harris L. Roberts is relieved from duty at the Ohio Normal University, Ada, Ohio, and will join his company (S. O., Dec. 27, H. Q. A.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The leave for seven days granted 1st Lieut. Edward S. Farrow, Fort Bridger, Wyo., is extended twenty-three days, with permission to apply for a further extension of one month (S. O. 166, Dec. 20, D. Platte.)

2d Lieut. H. D. Styer is detailed member of the G. C.-M. at Fort Du Chesne, Utah (S. O. 168, Dec. 22, D. Platte.)

The leave on Surgeon's certificate granted Capt. Ebenezer W. Stone is extended six months on Surgeon's certificate (S. O., Dec. 27, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

Lieut.-Col. Henry M. Lazelle, A. I. G., will proceed to Portland and inspect the money accounts of Major James P. Canby, Chief Paymaster, and Capt. Charles R. Barnett, A. Q. M. (S. O. 218, Dec. 13, D. Columbia.)

Lieut.-Col. Henry M. Lazelle, A. I. G., will proceed to Portland and inspect the money accounts of Major William A. Jones and Capt. Charles F. Powell, C. E. (S. O. 221, Dec. 17, D. Columbia.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Leave for fifteen days is granted 2d Lieut. William F. Martin, Fort Snelling, to take effect about Dec. 20 (S. O. 129, Dec. 16, D. Dak.)

Leave for ten days, to take effect Dec. 24, is granted 1st Lieut. Harry Reade (S. O. 148, Dec. 20, Dept. M.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, December 25, 1886.

RETIREMENT.

Post Chaplain George D. Crocker, December 25, 1886 (act June 30, 1882).

Military Academy.

Leave on account of ill health is granted Cadet Raymond C. Worthington, 1st Class, until Aug. 28, 1887, when he will join the then 1st Class (S. O., Dec. 23, H. Q. A.)

The resignations of the following named cadets of the 4th Class are accepted by the Acting Secretary of War: Arthur L. Giblin and William F. Sicard (S. O., Dec. 27, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Cœur d'Alene, Idaho, Dec. 21. Detail: Col. Nelson B. Sweitzer, 2d Cav.; Capt. Tully McCrea, 1st Art.; Capt. Daniel W. Burke, 14th Inf.; Capt. Curtis E. Munn, Asst. Surg.; Capt. James N. Wheelan, 2d Cav.; Capt. Gerhard L. Luhn, 4th Inf.; Capts. Eli L. Huggins and Samuel T. Hamilton, 2d Cav.; Capt. Butler D. Price, 4th Inf.; 1st Lieut. Frank Taylor, 14th Inf.; 1st Lieut. Theodore E. True, 4th Inf.; 2d Lieut. William B. Reynolds, 14th Inf.; 2d Lieut. Henry T. Allen, 2d Cav., and 1st Lieut. Curtis B. Hoppin, 2d Cav., J.-A. (S. O. 220, Dec. 16, D. Columbia.)

At Fort Monroe, Va., Jan. 5. Detail: Major Alexander C. M. Pennington and Capt. Joseph B. Campbell, 4th Art.; 1st Lieut. Henry W. Hubbell, Jr., 1st Art.; 1st Lieut. Leverett H. Walker, 4th Art.; 1st Lieut. Charles W. Hobbs, 3d Art.; 1st Lieut. Erasmus M. Weaver, Jr., 2d Art.; 2d Lieut. Charles J. Bailey, 1st Art.; 2d Lieut. Ira A. Haynes, 3d Art.; 2d Lieut. Harry L. Hawthorne, 2d Art., and 2d Lieut. Charles G. Treat, 5th Art., J.-A. (S. O. 214, Dec. 29, Div. A.)

Army Boards.

A Board, to consist of 2d Lieuts. William D. Wright, Benjamin M. Purssell, and Fielder M. M. Beall, Signal Corps, will assemble, Dec. 28, to report upon and submit recommendation as to accounts paid to Sergt. Hiram J. Penrod, Signal Corps, for per diem expenses (S. O. 134, Dec. 23, Sig. Off.)

A Board of Survey, to consist of Major James W. Scully, Q. M. Dept., and Capt. Joseph G. Ramsay and 1st Lieut. Alexander D. Schenck, 2d Art., will meet at the Subsistence Warehouse, New Orleans, La., Jan. 3, to examine certain subsistence stores for which Capt. William H. Nash, C. S., is responsible (S. O. 213, Dec. 27, Div. A.)

A Board of Officers is appointed to meet at the War Dept., Jan. 3, 1887, for the purpose of revising and condensing the Regulations of the Army and preparing a new edition of the same. Detail: Brig.-Gen. Stephen V. Benét, Chief of Ord.; Col. Elwell S. Otis, 20th Inf.; Lieut.-Col. Robert N. Scott, 3d Art., and 1st Lieut. George B. Davis, 5th Cav., Recorder of the Board (S. O., Dec. 28, H. Q. A.)

DEPARTMENT NEWS.

Dept. of the Missouri.—Brig. Gen. O. B. Willcox

Gen. Willcox has ordered that 800 new pattern horse shoes at Fort Leavenworth Q. M. depot be sent for distribution to troops of the 5th and 6th Cavalry, viz.: 300 to Fort Supply, 300 to Fort Riley, and 200 to Fort Lewis. After four months trial of the shoes each troop commander is to render a full report as to their merits and the advisability of adopting them for general use.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

DECEMBER 28, 1886.

CHRISTMAS has come and gone. The morn was heralded by that brilliant aurora which gives the artist his happy effect. The post was bathed in the symbolic "sheen of pure sunlight" throughout the day, and wore, with attested

appreciation, the natural embellishments so befitting the celebration of the joyous festival. The citizen seemed to court ecstacy in the expression of his gratefulness, and the soldier, also alive to the sacred anniversary, tendered graceful tribute. The men's quarters were canopied with large quantities of evergreen, holly, laurel, flags, guidons, crossed guns, swords, etc., and their usual superb dinner was served at their respective batteries.

The children of the post are to be provided with a Christmas tree by the Soldiers' Temperance Union under the superintendence of Miss Chase on Wednesday next.

The Gibson Social Club gave their Christmas hop on Tuesday evening, Dec. 21.

The duties and discipline of the post go on in the usual systematic order.

The bi-monthly muster is close at hand, when the boys will be on the lookout for the Paymaster to distribute his shekels.

In the death of General John A. Logan, the enlisted men lose an enthusiastic admirer, one who took a lively interest in all that concerned their profession. The enlisted men of this garrison only symbolize the sentiments of the entire Army, one and all, without regard to rank, in sincere regret for his death. His personal traits as an honorable gentleman, as a true and noble citizen and man, only round his fame. Such a character may well "sink to rest, by all his country's wishes blest." AULD LANG SYNE.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Dec. 29, 1886.

CHRISTMAS week passed quietly at this post. There was a lively officers' hop last Thursday, which was well attended, considering the unpleasant weather. Prof. Bass was manager, and had provided pretty little souvenirs for the ladies and badges for the gentlemen. From the centre chandelier of the hall hung a bunch of mistletoe, under which one of the staid professors took post and gazed in the most insinuating manner at the young ladies, but all to no purpose.

For several days before Christmas it rained, and everything was made dull and gloomy, but it changed to cold, and pedestrianism was made dangerous.

Services were held at the chapel at eleven o'clock by Prof. Postlethwaite, at the Catholic Chapel, which was very handsomely decorated with flowers, ferns, laurel, smilax, etc., by Father Early. Attendance at these services was entirely optional, but the number who attended was quite large. Good dinners were served to the cadets and various detachments. On Christmas Eve, Mrs. Postlethwaite entertained nearly every lady on the post and many cadets with a dancing party at her house. The most disappointed are the soldiers' children, who will not have any tree this year. It is almost the only pleasure that many of them have to look forward to. This is the first year that has been passed by in a long time.

The toboggan slide will be ready soon. The sleds are all here, and the inauguration of the sport is eagerly looked for.

Bishop Starkey and Mrs. Starkey, of Orange, New Jersey, have been visiting Capt. Metcalfe since last Friday. Lieut. Samuel Rodman, 1st Art., Lieuts. Hickey and Slocum, 8th Cav., and Lieut. Rees, of the Engrs., were here this week.

We came near having a fire several days ago at Lieut. Wisser's quarters. In some manner the furnace set fire to the nearest woodwork, and was discovered just in time to prevent a serious conflagration.

The new edition of "Labberton's Historical Atlas and General History," is to be substituted as a book of reference in the place of the old edition now required for that purpose in the Dept. of History.

The engagement is announced of our Post Commissary, Capt. Sharpe, to Miss Morgan, daughter of Rev. E. D. Morgan, of New York.

Lieut. Davis has been ordered to Washington as Recorder of a Board to revise the Army Regulations.

—

Richard L. Livermore, Monclair, N. J.; Wm. H. Barnett, Newark, N. J., and John Thomas Brady, Ottumwa, Iowa, have been designated for examination for admission to the West Point Military Academy.

(Correspondence of the Army and Navy Journal.)

SAN CARLOS, ARIZONA TERRITORY.

IF the result of every war was as gratifying to the victors, and brought such happiness to a province as the late subjugation of the Apaches has to the officers and men of San Carlos, and the people of the surrounding country, no person, either friend or foe, could look back on war as a calamity. This Agency, after being practically quarantined for the past two years, is now considered as safe as any portion of the civilized world. The Indians on the reservation are peaceably inclined and under the able management of the Agent, Captain F. E. Pierce, 1st Inf., they go to their work every morning, making irrigation ditches, etc., and work as cheerfully under the direction of the Captain's assistants as any men in the land. The assistants are all officers and graduates of the Military Academy at West Point. When I see them returning from their day's labor, six days in every week, in the midst of hundreds of half-naked men, with their boots covered with mud and their clothes and faces filled with dust, and even their hands blistered, in endeavoring to teach the Indians how to use the pick and shovel, I often think of those sarcastic writers who crop up from time to time and stigmatize the "Westpointers" as dudes, probably from the limited knowledge gained by meeting them occasionally in the ball-room.

Freighting on the road between Bowie Station and the town of Globe is carried on to a greater extent than ever before, and the teamsters are no longer compelled to hold whip in one hand and rifle in the other.

The Indian school which was closed three years ago is about being reopened, and cannot fail to be a success under the superintendence of Captain Watkins, his wife and daughter, assisted by Mrs. Fredericks, all of whom arrived lately from the East, and in a week or two we expect to see at least fifty children domiciled therein.

The officers, after having been almost worn out by their long and arduous field duties, are now recuperated, and on Thursday night gave the first ball which perhaps ever took place at San Carlos. It was given as a means of expressing their friendship for Lieut. J. B. McDonald, 10th Cav., before taking advantage of a leave of absence much needed by him after his laborious duties as Quartermaster here for the past two years. The fete was magnificent and remarkably well attended, not less than twenty couples being on the floor at one time. The officers appeared in full dress, and the costumes of the ladies would compare favorably with those worn by ladies at a military ball east of the Mississippi. To persons living in a more densely populated country, twenty couple at a ball may be considered rather tame, but it is to be remembered that the military are merely in the field here, and under canvas, and that the ladies are few. The only ones in the reservation are those above mentioned and Miss Chapel, who is also a late arrival from the States, on a visit to her father, who is Indian Trader, and the wife and daughter of Capt. A. S. B. Keyes, who came all the way from Fort Thomas for the double purpose of visiting her husband and attending the ball. The other ladies present came from Globe, a town thirty-six miles distant, and the only settlement in a radius of fifty miles blessed with the presence of a white woman. A little before noon the first carriage arrived, and for hours afterwards they were coming by ones and twos, and one big wagon was loaded with a piano and seven musicians with the usual violins, cornets, etc.

How different things are from a few months ago, when no person of the female sex would dare to make the journey except under a strong escort, with rifles loaded and constantly in its hands. The gentlemen of the vicinity present were Capt. Keyes, 10th Cavalry, post commander; Capt. Pierce, 1st Infantry, Indian agent; Dr. T. B. Davis, U. S. A., post surgeon; Lieuts. McDonald, Watson, Ward, Mott, Hughes, and Smith, 10th Cavalry—the latter two came from Fort Thomas for the occasion—Lieut. Walsh, 4th Cavalry; Lieut. Elliott, 9th Infantry; Mr. Chapel, Indian trader; Dr. Gale, an old Army surgeon, but at present agency physician; Al Sieber, chief of scouts and the Buffalo Bill of the Southwest, and last but not least J. B. Simmons, civilian clerk, Q. M. department, a veteran of the war, and to whose untiring energy may be attributed to a great extent the success of the entertainment. Dancing commenced at 8 o'clock, and a well gotten up supper was served at midnight, after which dancing was resumed and continued until daylight, when the band appealed for mercy by playing "Put me in my little bed."

In the forenoon the guests enjoyed the almost unique sight of witnessing the Indians drawing their weekly rations, and at about 1 P. M. leave taking commenced, and judging from the pleasant expressions and happy faces all were delighted with their visit.

I may add that ever since this agency has been under military control the officers and men have received every mark of courtesy from the people of Globe, who are as jovial and intelligent a class of persons as can be found anywhere.

GREEN STRIPE.

(Correspondence of the Army and Navy Journal.)

FORT MISSOULA.

DECEMBER 16, 1886.

THE most delightful of all our winter entertainments was the german given by Lieut. and Mrs. W. C. Buttler, Wednesday evening, Dec. 15. Our fine winter weather gave us a perfect evening, so that a merry crowd was present in the Post Hall by 9.30 o'clock P. M., at which time dancing began, Lieut. and Mrs. Buttler leading.

A number of invitations had been issued to residents of Missoula, so that fifteen couples were dancing. Among these were Lieut. Kennedy and Miss Pearson, Lieut. Smith and Miss Jewett, Mr. Cummings and Miss Anderson, Mr. and Mrs. McLead and Mr. Adams, of the Agency, and Miss Landers.

Others present were Col. and Mrs. Jewett, Dr. and Mrs. Woodruff, Capt. Thompson, Capt. and Mrs. Gageby and Lieut. Freeland.

The refreshments were delicious, the figures pleasing and the favors many and pretty, especially the Chinese oddities.

Dancing was kept up until 1, when the guests departed carrying with them the memories of a charming evening. Our regular fortnightly hops are well attended and are thoroughly enjoyed, so that life is pleasant with us, and we will certainly be loth to leave this beautiful post. "THIMS."

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

DECEMBER 19, 1886.

THIS is Sunday, when the Army ceases, generally, though not universally, from labor, and the weary, oh so weary, are at rest. News I have none.

Christmas is at hand and our latent energies and intellects are at work to see how twenty-five dollars worth of presents can be purchased out of a much smaller amount. The good old days of "hypothecation" are no more and the flinty-hearted Paymasters won't draw a check for love or money, especially money, until it has been fairly earned. Poker used to be a certain source of revenue, but even that source of spasmodic receipt has failed, so there is nothing to do but wait.

Gen. Ruggles and Inspector-General Heyl have returned from their trip to McIntosh, etc., by the new road lately opened from here to the Gulf. Great preparations are being made for the various Christmas trees, and, whoever may, certainly the children of our official community will not be forgotten. God bless 'em one and all.

Dress parade on Tuesday and Thursday of each week is a feature here and the citizens attend in large numbers and seem to like the ceremony. How the soldiers like it I have not as yet inquired, but I heard one fellow say it was an "unmeaning ceremony." Doubtless he was prejudiced.

It is rumored that Major Bash, of the Pay Department, is shortly to seek "fresh fields and pastures new," (pardon my little quotationary failing.) He has been here six years and he and his have many warm friends, who all hope Billy Rochester may find a good station for him.

The general health here is excellent; one case of scarlet fever some time ago, but none since.

The "paper chase," or shall we call it a "fox chase," yesterday, came off in good style, although a stiff breeze was blowing in the afternoon. Lieut. Rumbough, A. D. C., acted the part of the fox, and the hounds were in charge of Lieut. Woodbury. About thirty ladies and gentlemen participated in the sport. After a swift and and most exciting run, Miss Kress, a niece of Major Muhlenberg, who is spending the winter with him from St. Louis, carried off the brush from the other lady participants, and Elmer Otis, Jr., surged far ahead of the other gentlemen.

And now a short farewell. Go on and prosper, and if you make your paper as good in 1887 as it has been in 1886 all will be well. Government Hill is watching your efforts and the seal of its approval is the sure token of success. Other correspondents may fail you, but I will not. You will hear from me early in 1887, when I hope to give you a glowing account of how we spent Christmas and New Year's; who visited who, who didn't visit at all and who, after they had visited, and got over the effects, wished they hadn't done so. Once more—farewell. PUNK.

VANCOUVER BARRACKS, W. T.

THE *Independent* of Dec. 16th says: Lieut. D. C. Pearson, R. Q. M., 2d Cav., on Thursday started East from Fort Walla Walla, on leave, to visit in Massachusetts....Lieut. D. L. Brainard, 2d Cav., will leave the East Jan. 1st to join his company at Fort Walla Walla.....Major Wm. J. Volkmar arrived at headquarters last week....The young child of Capt. C. M. Swigert, 2d Cav., was taken sick on their arrival at Fort Walla Walla, with scarlet fever, but is now reported convalescent....Major A. M. Randol, 1st Art., Fort Canby, who has just recovered from a severe illness, last night departed for San Francisco. ....Lieut. W. B. Reynolds, 14th Inf., and Mrs. Reynolds, came over from Fort Townsend on Tuesday. They visit at the Barracks a few days, as Lieut. Reynolds will not go to Fort Walla Walla at present. ....A court martial ordered at Walla Walla has been postponed, as the post is quarantined for scarlet fever. Major D. W. Burke and Lieut. Frank Taylor, 14th Inf., and Capt. Tully McCrea, 1st Art., who were to go up yesterday, remain here....Major D. W. Burke and Lieut. H. C. Cabell, 14th Inf., and Lieut. J. C. McClernand, Aide on Gen. Gibbon's staff, were on Saturday called to Portland to judge a competitive drill between two companies of the Oregon and Washington militia. The contest was won by the Oregon company....A very pleasant amateur theatrical entertainment took place at the garrison hall on Tuesday evening. The one-act comedy, "To Oblige Benson," was given, with Capt. C. A. Woodruff as Mr. Benson; Miss Kelly as Mrs. Benson; Lieut. Albert Todd as Mr. Trotter Southdown; Mrs. Hunter as Mrs. Southdown, and Mr. Gibbon as Mr. Meredith. This was followed by the farce of "Poor Pillicoddy," in which Lieut. Frank Taylor took the part of Mr. Pillicoddy; Mrs. Poole that of Mrs. Pillicoddy; Lieut. Allison appearing as Capt. O'Scuttle, and Mrs. Kilbourne as Mrs. O'Scuttle; Miss Burke as Sarah Blunt.

FORT SNELLING, MINN

AT a recent meeting of the Minneapolis Board of Trade there was submitted and referred to a committee a memorandum in regard to a proposed enlargement of the post at Fort Snelling and improvement of the quarters. The proposition was to provide for a garrison of one regiment of infantry, one troop of cavalry, and one battery of light artillery. This would leave four captains and twenty-eight subalterns to be provided for. The reasons for desiring the enlargements are set forth at some length, substantially as follows: "Concentration of troops is always economical, and the extension of the post will save expense in the handling of troops; Fort Snelling is a cheap place to keep troops, ranking cheapest for infantry and fifth for cavalry; its railroad situation makes it a convenient place for supplying; it is within seven miles of two excellent markets, Minneapolis and St. Paul, and building material could be had cheaply and easily; its position near the great railroad centres of Minneapolis and St. Paul makes it peculiarly available for sending troops to other localities; it is a very healthy post, the death and sick rates being especially low; the water is in excellent supply, both for regimental use and in case of fire."

A summary of improvements needed and the estimated cost are given as follows:

Four sets captains' quarters	$28,000
Twelve double sets subaltern quarters	72,000
Six double sets company	120,000
Brick storehouse	5,000
Stable for battery artillery	5,000
Accessories	6,600
Cavalry stable and troop blacksmith shop	6,000
Extending water system	5,000
Surveying and grading	25,000
Electric light	10,000
Contingent expenses	33,912
Total	$316,512

A VISIT TO FORT KNOX, ME.

THE Bucksport *Clipper* says: Last Friday some of the old 6th Me. Regt., with their friends, who had been attending the reunion at Bangor, visited Fort Knox, where they were met by Ord. Sergt. Adolph Koch, U. S. Army, who had run up the large flag, and with genuine courtesy, welcomed them to its sheltering arms. Winding their way up to the upper glacis, they there found a few of the ladies of Bucksport with a lunch laid out temptingly on the stone work and green sod. It was a very pleasant little affair. They all tendered compliments to Sergt. Koch for his genial and hearty welcome. The Sergeant had not only heard of the Regiment, but had fought side by side with them in battle. He has been in the U. S. Service 32 years, but is a remarkably well-preserved man, and only a very slight foreign accent betrays his foreign birth among a liberty-loving people.

Sergt. Koch is making needed repairs on Fort Knox. The sergeant believes in keeping things in proper form. Seldom, if ever, has a more efficient man had charge. Warm-hearted and genial, he makes friends of all with whom he comes in contact, and yet he enforces the orders of his superiors with an exactness which is commendable, if it does not suit all of us.

FORT CLARK, TEXAS.

THE Brackett *News* of Dec. 25 says:

Quite a number of hunting parties have left the Post this week.

Lieut. Hewitt has a class under instruction in the new signal code, and they do him much credit.

We understand the I. O. G. T. are to have an entertainment on the anniversary of their lodge, when an appropriate address will be delivered by the chaplain, and an interesting entertainment provided.

J. W. Anness, 1st Sergt. Co. C, 19th U. S. Inf., who has been enjoying a three months' furlough at his father's home in Brookfield, returned on Monday. During his stay in Brookfield he has instructed the Partello Post, G. A. R., in Upton's Revised Tactics. Before his departure Sergt. Anness was made the recipient of a handsome gold pen by the members of the Post, as an appreciation of his kindness.

FORT ROBINSON, NEB.

THE Omaha *Excelsior* of Dec. 25 says:

Department Commander, Gen. Crook, is daily expected.

Lieut. Wright, 9th Cav., has returned from Omaha, whither he had been on official business.

Our fort gets $175,000 for improvements. It will be a ten company headquarters post, with a military band in consequence.

Lieut. Mercer, Co. C, 8th Inf., with wife and child, have left to visit friends in the East.

A week ago Gen. Brisbin's little daughter, Katie, was taken sick, and her illness has developed into scarlet fever. On learning from the post surgeon, Dr. Reed, the nature of the disease, Gen. Brisbin promptly quarantined his house and turned over the command of the post to Capt. Parker that he might avoid the spread of the disease and devote himself to his sick child.

LEAVENWORTH MILITARY PRISON.

A LEAVENWORTH despatch of Dec. 20, referring to the discussion as to the quality of the shoes made at the military prison, says:

Col. Blunt has had charge of the prison since 1872, and during all these years his management has been conservative and economical, and this is the first time an aspersion has been cast on the management. In an interview to-day Col. Blunt said that the beginning of this matter was the report of Gen. Miles condemning the shoes made at the prison as worthless. It seems that this is the result rather of a personal grievance than otherwise. When Gen. Miles took charge of the Department of the Missouri he thought the military prison came under his charge, and contemplated making several changes. The Secretary of War sat rather heavily upon him. The Prison Commission came there to investigate the shoes, and their report has been made. Now comes Mr. Bragg, in Congress, and revives the subject, and makes the charge that the prison is losing money; in other words, that the Government could have the same work done by contract at better rates than the prison is doing it. Col. Blunt furnished a table to refute these charges.

The cost of maintenance being $35,435.50, and saving that there was an average of 542 prisoners the entire year, that being the highest number at any one time, the cost to the Government, not allowing anything for the work done, would be $65.37 per year per man, or $5.45 per month, or 18 cents per day. The scheme of Mr. Bragg to cut the appropriation for manufacturing supplies down to $125,000 will lay the prisoners now making shoes idle for at least three months of the year, or will put them at some ordinary work around the post which will, as far as economy is concered, render them practically idle. This will increase the cost of the shoes made, because the pay of the foremen of the shops will go on. Guards will have to be paid, and by increasing the expenditures on a less number of shoes will raise the cost of each pair probably 25 per cent.

GENERAL RECRUITING SERVICE.

HEADQUARTERS:

Army Building, Houston Street, Corner of Greene, New York City.
Lieut.-Colonel A. L. Hough, 16th Infantry, Superintendent.
1st Lieut. R. H. Patterson, 1st Art., A. A. A. General.

DEPOTS.

David's Island, N. Y. H.

Lieut.-Col. Richard F. O'Beirne, 15th Infantry, commanding.
Major J. V. D. Middleton, Surgeon U. S. A., Depot Surgeon.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Norfolk, Va., Dec. 25, for coal and supplies, and thence will sail on a cruise to the West Indies, returning to Hampton Roads about May, 1887.

A despatch from Washington states that the *Galena* in getting away from the coal dock at the Norfolk Navy-yard, Dec. 28, came in collision with the flagship *Trenton* and had her foreyard carried away. The bowsprit of the *Trenton* was somewhat damaged. The *Galena* will be detained ten days making repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard. Will be put out of commission—her officers and crew being transferred to the *Richmond*.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Aspinwall Nov. 26.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station. Arrived at Malta Dec. 27.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Valletta, Malta, Dec. 6.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Gibraltar Nov. 28 for the African coast.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate. 16 guns Captain J. H. Gillis. Arrived at San Francisco, Cal., Dec. 26. She will go out of commission and undergo repairs, at the Mare Island Navy-yard.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso. Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 25, and from there to Valparaiso, where she is expected to arrive about the middle of January.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal.

The *Pinta* is frozen in for the winter at Sitka, Alaska, and will wait for spring with the usual patience of forced inactivity. The following is a list of her officers: Lieut. Comdr. J. S. Newell, commanding; Lieuts. H. T. Monahan, Alex. McCrackin, G. T. Emmons; Ensign C. F. Plunkett; Passed Asst. Surgeon C. W. Rush; Asst. Surgeon W. Martin; Asst. Paymaster M. R. Calvert; Passed Asst. Engr. F. J. Hoffman. The *Pinta's* address is "Care Navy Pay Office, San Francisco, Cal."

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Bushire, Persia, Nov. 17, expecting to sail in a few days for Busra, in Asiatic Turkey.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Singapore Dec. 18.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Dec. 1.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Returned to Hong Kong, Oct. 5, from Macao, and arrived at Canton Nov. 10.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Yokohama, Japan, Dec. 26.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Reported by cable to have arrived at Naples, Italy, Dec. 22.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Left Canton, China, Oct. 31, for her winter station at Tientsin, where she arrived Nov. 26.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Sailed from Fort Monroe, Va., Dec. 22, on her winter cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Sailed from Fort Monroe, on her winter cruise, Dec. 22.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Sailed from Norfolk, Va., Dec. 22, on her winter cruise.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At Norfolk Navy-yard.

The *Dolphin* was on Tuesday assigned to the North Atlantic Squadron. As soon as she is ready for sea, her commander will report for duty to the Admiral commanding the station.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

THE British ironclad *Sultan* broke her moorings and drifted against and sank the French steamer *Ville de Victoria* in the Tagus River, Dec. 23. Thirty persons were drowned.

SOME English naval officers of the old school are showing great lukewarmness in carrying out recent Admiralty instructions directing that stokers and other non-combatants be drilled.

A NAME has not yet been selected for the new gunboat known as No. 1. It is suggested that it be called the *Hornet*, after the old sloop-of-war of famous record. Another name that has been suggested is *Farragut*.

AT a meeting of the U. S. Naval Institute at the Torpedo Station, Newport, R. I., on Wednesday, E. B. Dorsey's paper on steel for heavy guns was discussed. Several prominent Army and Navy men were present.

THE *Richmond* has been taken out of dock at the New York Yard, and is now ready for the officers and crew of the *Tennessee*. The latter vessel is not to be put out of commission, as at first supposed, but is to take the place of the *Minnesota* as the gunnery ship of the apprentice training squadron.

THE Navy Department will soon issue advertisements for proposals on a large quantity of condemned stores at the various Navy-yards. The Inventory Board has not yet handed in its report, but it is understood that they have recommended the condemnation of many thousand dollars' worth of old material.

THE Secretary of the Navy has received from Rear Admiral Chandler the report of a board of survey on the *Palos*, of the Asiatic squadron. The board found the machinery of the vessel in bad condition, and report that it is beyond repair. An attempt will be made, however, to keep the vessel afloat for the present.

THE *Miantonomoh* is shortly to be placed in the dry dock at New York to have her bottom cleaned and painted, and as soon as the *Enterprise* and *Nipsic* have been put in condition for the winter cruise to the West Indies the dock will be closed for the repairs authorized at the last session of Congress. It is estimated that at least six months will be required to make the proposed alterations and repairs.

THE Panama Canal Company was organized in 1881, and, under the grant from the Colombian Government, the canal is to be finished in 1893, but in case of great difficulties in the construction six more years can be allowed the company by the government of Colombia. The canal company, as at present organized, has the exclusive right of constructing a canal across the Isthmus of Panama for 99 years.

THE dredges which have been at work in Whitney Basin, between the cob and ordnance docks at the Brooklyn Navy-yard, have finished their labors, and the decaying remnants of the ships which have been lying in "Rotton Row" have been hauled in there, together with a fleet of Coast Survey steamers and schooners. The old *Powhatan*, the flagship of Commodore Matthew C. Perry when he opened the commerce of Japan to the world, is also there, along with the *Ticonderoga*, and the *Tennessee* will soon be there also.

THE *Engineer* is convinced that in future wars submarine boats will be found capable of efficient and practical service. It says: "The design of all submarine boats has been hitherto faulty in the respect that they depended chiefly on the admission of water to obtain immersion, an operation easily effected, but necessitating apparatus for getting rid of the liquid when required, which has very often failed at the critical moment. In later designs this has been obviated, and thus brought the submarine vessel within the range of practical consideration."

ASSISTANT SURGEON WOODRUFF, U. S. N., whose recent wedding was duly chronicled in the society papers of the Capital, has married into a musical family. The bride was Miss Stella Caulfield, daughter of Prof. Caulfield, a well known composer and a "Mus. Doc.," and a connection of the Carusi family of Washington, musical celebrities in the past. Mrs. Woodruff is a niece of Mrs. Reisinger, wife of Lieut.-Comdr. W. W. Reisinger, U. S. N., executive officer of the *Yantic*, now at Port Limon. Dr. Woodruff is on duty in the Bureau of Medicine and Surgery Navy Dept.

COMMANDER A. S. CROWNINSHIELD has been ordered to command the St. Mary's, schoolship, at New York.

THE U. S. S. *Alert* will be put in commission Jan. 15. The *Richmond* is ready for sea and will be commissioned next week.

THE *Thetis* is to be got ready for commission by the 15th of January, when she will be ordered on a surveying expedition to the Pacific Ocean. The *Thetis* is at the Brooklyn Navy-yard.

THE Secretary of the Navy has been informed that a break has occurred in the flange in the back tube sheet of furnace No. 10 of the boilers of the *Atlanta*. Orders have been issued for the necessary repairs.

IT is reported that Messrs. Drexel and Thomas, of Philadelphia, have justified in the sum of $1,000.000 each as sureties on the bond of Cramp and Sons on their contract for the construction of the new Naval cruisers.

COMMODORE SCHLEY stated that the concentration of business relating to purchase and supplies will enable the Navy Department to dispense with at least one-third of the present Navy-yard force. The Commodore said it would be unwise to make a reduction until the new system was working successfully.

THE London *Times* is calling attention to the growth of Russia as a naval power which the English have been accustomed to ignore since the Crimean War. It is estimated that at about the same time that Spain and the United States, now practically without navies, become factors to be taken into consideration when forming any estimate of naval strength, Russia will in all probability be in the line of second-rate naval Powers: and an alliance with Turkey or a seizure of the Turkish ships would place her at a bound on a level with France or Great Britain, taking into consideration the responsibilities and requirements of the last-named nations, with their commerce, colonies, and possessions over sea."

IT is announced at the Navy Department that there will be another trial of the *Atlanta* as soon as preparations now in progress are completed. The department will adopt every means to bring out the capabilities of the vessel. Chief Engineer Melville will be in charge of the motive power, and it is considered certain that under his skilful management the contract horse-power, 3,500, will be brought out. It is considered impossible to run a vessel at a tension for six hours with the general rule governing trial trips. During the trial no ashes are lifted from the fireroom and it may be readily seen that the firemen will be seriously discommoded before the end of six hours. Foreign countries have adopted a four hour limit, and by the terms of the contract for the new cruisers just made the trial term is for four hours instead of six in each instance.

THE House Naval Committee is keeping itself employed during the recess by hearing statements from naval officers concerning the changes to be made in the Navy Department by Secretary Whitney next week. Commodores Walker, Sicard, and Harmony, Surgeon-General Gunnell and Paymaster-General Fulton have all been before the committee. Commodore Schley and Engineer-in-Chief Loring were heard Monday. The committee seemed to be anxious to learn what reductions could be made in the departments of the Navy-yards when the new system concerning purchases and supplies was in full operation. The officers without exception thought they could dispense with the services of several men at each yard after the change takes effect. In view of these statements it is probable that a small reduction of the estimates of appropriations for the Navy will be made.

NAVY GAZETTE.

Ordered.

DEC. 28.—Ensign M. L. Read, to special duty, Navy Department.

Ensign Wm. L. Howard, to special duty, Navy Department.

DEC. 29.—Rear Admiral John Lee Davis, as President of the Retiring Board December 29, vice Worden, retired.

Detached.

DEC. 28.—Passed Assistant Surgeon Howard Wells, from the Hartford and ordered to the receiving ship Independence.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending December 29, 1886:

Charles Baxter, ordinary seaman, died Dec. 15, 1886, at Naval Hospital, New York.

Peter Thompson, ship's barber, died Nov. 20, 1886, on U. S. S. Monocacy at Canton, China.

FROM THE ASIATIC STATION.

REAR-ADMIRAL RALPH CHANDLER, commanding the Asiatic Station, reports to the Navy Department as follows from the *Marion*, under date of Yokohama, Japan, Dec. 1:

The *Omaha* at last accounts was at Nagasaki, Japan, under orders to proceed to Chemulpo, Corea.

The *Monocacy* left Hong Kong, Nov. 9, and arrived at Canton, Nov. 10, taking the place of the *Palos*.

The *Palos* left Canton, Oct. 30, and arrived at Hong Kong, Oct. 31, when she was docked for the purpose of cleaning and painting her bottom. She left Hong Kong, Nov. 6, for Shanghai. During the passage she stopped at Cupchi Point anchorage and Ping Hai Harbor to repair leaking tubes in her starboard boiler. She arrived at Shanghai, Nov. 16, and left on the 18th, and telegraphic notice was received of her arrival at Taku, Peibo River, on Nov. 25. She probably arrived at Tientsin, Nov. 26.

The flagship *Marion* remained at Yokohama since the last report of Rear-Admiral Davis.

Peter Thompson (barber), died on board the *Monocacy* at Canton, China, of heart disease.

All was quiet within the limits of the station and the health of the officers and men of the squadron was excellent.

BROOKLYN NAVY-YARD NOTES.

REDFIELD CHANDLER, who has had considerable trouble in regard to his place in the Navy-yard since his father went to China, is again missing. His friends have been unable to find him.

The crew and officers of the *Tennessee* have been transferred to the *Richmond*.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Dec. 28, 1886.

THE Christmas eve hop and the officers' german on Saturday evening were both rather poorly attended, owing to the fact that nearly every one had gone away, or else the enjoyments attending the annual visit of Santa Claus kept them around their own Yule logs. At the former the guests were received by Mrs. Lieut. Tilley, assisted by Naval Cadet B. W. Wells, of the first class. Lieut. Bartlett led the german in a very charming manner.

The cadets whose conduct merited such enjoyments were given leave of absence from Friday afternoon until Sunday night, and many of them scattered about the adjacent country to spend the holiday with friends.

The children's festival in the chapel on Friday was a very lovely affair. Chaplain Rawson's delightful way of getting at the children's hearts has won their admiration, and the Sunday school is in a much better condition than it has been for years.

Mr. Paul H. Carter, of New York, has been visiting Ensign R. C. Smith, at the bachelor's quarters.

Representative Johnston, of Indiana, with his wife and daughter, visited friends at the Naval Academy last week.

Cadet G. W. Logan has been called to Washington by the death of his uncle.

NAVAL OFFICERS STRICKEN.

LIEUTS. JOHN S. ABBOTT and J. Forsyth Meigs, U. S. N., attached to the *Tennessee*, are lying dangerously ill with typhoid fever contracted while on duty at the Brooklyn Navy-yard. Lieut. Abbott is at the New York Naval Hospital and Lieut. Meigs is at a friend's house in Philadelphia. Complaints have been made many times in the past regarding the unhealthy surroundings of the Brooklyn Yard. The Brooklyn sewers empty into the Navy-yard harbor, and typhoid fever has been contracted there before by Naval officers and sailors. Secretary Whitney received the following last week:

Hon. William C. Whitney, Secretary of the Navy:

DEAR SIR: I have learned that my nephew, Lieut. J. Forsyth Meigs, U. S. N., came to Philadelphia last Sunday feeling unwell. He was ordered to bed, and the next day his sickness developed into typhoid fever, from which he is now suffering.

This appears to be caused by the foul air at the Naval anchorage at the Brohklyn Navy-yard. Another case, developed about the same time, was sent to the Naval Hospital.

The insalubrity of this anchorage has been frequently called to the attention of the department.

This case, however, is brought right home to me and seems to be an occasion for calling the attention of the authorities to the question of keeping officers and men exposed to the unnecessary danger of a sort of African harbor like those of the estuary of the Niger and of the Congo.

Would it not be better in the capacious harbor of New York to choose another place for a Navy-yard anchorage? The sanitary conditions, as I understand, are purely local, and confined to a limited district,

Most respectfully, your obedient friend and servant,

M. C. MEIGS, U. S. A.

Secretary Whitney said when he read the letter, that the subject was an old one with the department, but that it was one that certainly should receive prompt attention. He said that he would have the matter thoroughly investigated by two or three gentlemen and would be governed in his action by their report.

REVENUE MARINE.

Chief Engr. C. H. Ball has been detached from the revenue cutter *Seward*, Shieldsborough, Miss., and ordered to revenue cutter *Ewing*, Baltimore, Md. He has been granted seven days' leave en route. 1st Asst. Engr. Horace Hassell has been ordered to the *Seward* and reported on board Dec. 22, from San Francisco, Cal. These gentlemen have made many friends on their respective stations, and carry with them the best wishes of their many friends on shore, and brother officers on board.

Names and Stations of Revenue Cutters.

The Fish Hawk, Mate James A. Smith, comdg. At Baltimore, Md.

The Altyon, Wm. Hamlin, com. dg. At Baltimore, Md.

The Grampus, J. W. Collins, com dg. At Gloucester, Mass.

ANSWERS TO CORRESPONDENTS.

A. B. C.—Your attention is called to the notice which appears in each number of the JOURNAL that we do not answer anonymous questions.

A. F. R. W.—The duty you mention is technically and properly "extra duty." Inspector Generals when they visit posts officially receive complaints from enlisted men.

Oshkosh.—The command march, in executing by the right flank, should be given when the right foot, and in executing by the left flank, when the left foot strikes the ground.

C. F. D.—Chaplain G. D. Crocker, U. S. A., was retired for age Dec. 25, 1886. Chaplain J. O. Rayner will be retired for age Feb. 19, 1887, and Chaplain W. T. McAdam Aug. 5, 1887. The next chaplain after that will be in March, 1888.

E. O. L.—We will send you a copy of G. O. 73, A. G. O., of 1885 if you give your full address. The only uniform required to be worn by chaplains is that described as "undress for officers." That is a plain black frock coat, with standing collar, one row of nine black buttons on the breast, with "herring bone" of black braid around the buttons and button holes. Trousers of plain black, with black cord on the outer seam. There is no authority for chaplains to wear the full dress chapeau prescribed for staff officers.

Embroidering asks: 1. If the Urgency Deficiency Bill, which has just been signed by the President, contains any provision for the payment of nurses and cooks of the Medical Department. ANS.—No.

2. Has this to be made a special bill, or is it included with the regular appropriation bill? ANS.—If the deficiency is provided for it will be contained in the general deficiency bill, which is usually one of the last bills passed. At the Paymaster-General's office it is considered doubtful if the deficiency is provided for at all.

J. S. B. asks: 1. Is there any law restraining a man who is not a naturalized citizen from holding a commission in the National Guard? If so please state it. ANS.—Yes. Article V., par. 24, page 13, Military Code, S. N. Y., says that "no person shall be commissioned in the Militia or National Guard of this State unless he is a citizen of the United States."

2. Please define a Court of Inquiry and state how it can be brought about. ANS.—For Courts of Inquiry see Articles of War Nos. 115, 116, 117, 118, 119, 120, and 121.

A. B. B. asks: 1. A company executing the loading and firing kneeling, do guides, file closers, and captain kneel? ANS.—The War Dept. has decided that "officers should kneel or lie down unless otherwise ordered. If the captain be the instructor, he would be at liberty to exercise his own discretion in the matter." If officers kneel, guides and file closers should certainly make no exceptions.

2. A company marching in column of fours, arms at a right shoulder, the command is given left front into line; does the right guide on taking his place on the right of the first four come to a carry, or remain at a right shoulder till the command halt? ANS.—Come to carry.

G. C. S.—1. In firing left oblique the rear rank men bring back the left foot at the command *arms* and not at the command *recover*.

2. The War Department, April 4, 1883, has decided that "If firing kneeling the command cease firing should precede the command squad rise. The pieces are then brought to the safety notch, following the general rule laid down in par. 106, Infantry Tactics, after which the squad rises and comes to a carry." This implies that there is no command to rise until after the firing has been ordered to cease, and consequently no occasion for a question as to the propriety of opening the chamber to throw out the shell after rising.

Seeker asks: The old and new guards, each commanded by a non-commissioned officer, are in line at the guardhouse, the new guard having just arrived to relieve the old, both guards awaiting the arrival of the old and new officers of the day. Instead of both old and new officer of the day only the latter approaches. Does the senior non-commissioned officer command "old and new guards present arms," or does each commander of the old and new guards give their respective guards the order to present, or does the commander of the old guard simply keep his guard at a carry arms? ANS.—Tactics only provide for a complete and perfect ceremony, and such a case as you state is evidently not anticipated. We cannot lay down any fixed rule in the matter. Upton says that "the officers of the day will each be saluted by his own guard," and from this it might be argued that the new officer of the day should not be saluted by the old guard. Many officers would, however, doubtless object to such an omission. It would be safest under all circumstances to leave the settlement of the question to the post commander, and do what he decides.

(Berlin Despatch to the London Times.)

DUELS AND SUICIDE IN GERMANY.

THE considerable number of recent military duels in Germany which has ended fatally has been increased by a pistol *rencontre* between Capt. Baron von Ardenne, Adjutant to the Prussian Minister of War, and a certain Herr Hertwich, a judicial functionary of Dusseldorf. Capt. von Ardenne lodged a bullet in the abdomen of his adversary, who succumbed to his wound in a few hours. *Per contra*, a cavalry officer was shot dead the other day at Mayenne by a civilian opponent. Suicide, too, which is so prevalent in the lower ranks of the German Army, is beginning to take firmer hold of the higher grades. Last night, as a morning journal records, Bapt. von Brandis, an infantry officer attached to the Ministry of War, shot himself with a revolver in the public street near his own house in a fit of mental aberration.

THE Danish Government, it is reported, is about to increase their Navy by 9 ironclads and 28 torpedo boats.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	$21.00
Old Reserve Whiskey,	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey,	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

WEST POINT, N. Y., December, 1886.
MISS BERARD, daughter of the late Professor CLAUDIUS BERARD, has compiled some very interesting REMINISCENCES OF WEST POINT. They are taken from the diaries of several who lived here before the founding of the Military Academy, and from recollections of early residents, as handed down to them by their forefathers, together with Miss Berard's recollections from 1830.
These items, and a REGISTER OF GRADUATES OF THE MILITARY ACADEMY FROM 1802 TO 1886 INCLUSIVE, have been printed in pamphlet form, making one hundred and sixteen pages, and will be sent to any address for one dollar a copy.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JANUARY 1, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

ARMYNAVY.

1886.

THE year which has just closed has not been prolific in events disturbing to the routine of the Services. The troops in Arizona have been called upon for the most arduous duty, but their labors are at last happily at an end. While Europe enters upon the new year with uneasy anticipations of war, we have every assurance of peace, except that it is the unexpected that happens, and there are elements of disturbance in our national situation that should not be overlooked by our optimistic people.

The Indian situation is also peaceful, with no immediate prospect of a renewal of hostilities, and with the passage of the bill to grant the Indians land in severalty their relations to the Army enter upon a new stage. This measure will be cordially accepted by Army officers, who have so long urged it upon the country as the one practical solution of our Indian difficulties. The surrender of the Apaches has added the Department of Arizona to the territory over which peace reigns, and the troops there, as well as elsewhere, have now ample opportunity to attend to the duties required of them in garrison, which are many and various. The official reports so recently published indicate an extremely creditable condition of affairs. Upon this point, we noted last week what the Senior Inspector General, ABSALOM BAIRD, says on the subject. He bears gratifying testimony to the fact that the Army, as a whole, is in a very healthy and efficient condition. There is not a bad or a poor regiment in it.

Early in the year some needed corrections were made in the "Instructions in Rifle and Carbine Firing," which have materially aided in the development of this important specialty. The annual Army contest took place at Fort Leavenworth in September, and excited great interest. The Recruiting Service has been changed, and for the better, we think, being brought under one head. General service clerks and messengers have been placed by law on a permanent footing, a measure of utility and benefit to the Service. New regulations have been provided for the inspection of money accounts. Some needed modifications have been made to the Infantry Tactics, and many new regulations have been established, among them, those for the tour of service of captains, with light or mounted batteries. This last is, we infer, not universally acceptable, and a change is possible.

The year began with both arms of the Service in a state of expectancy regarding the possible action of the new Congress, of which the House committees had not yet been appointed, although the session was nearly a month old; nor was it until the middle of January that they were announced. The Military Committee had well known names upon it, but the Naval Committee was largely composed of new men. Its members went to work to find out what they should do, and in their search after knowledge spent so much time that when they had brought a fully matured bill for the reorganization of the Navy Department before the House, it was too late in the session for any action to be taken upon it. We are of opinion that if this measure had been brought forward at an earlier date it would have passed the House at least, without difficulty, but at the time of its reporting other interests were pressing for recognition, so that there was no room to be had for this much-needed reform. We are somewhat surprised to learn that considerable opposition has been evinced to it on the part of naval officers, but we feel sure that we speak the best mind of the Service when we say that the reorganization of the Department is its first great need.

With the commencement of the new year the usual flood of bills poured in upon Congress, with the result that up to the present time very few of them have become laws. The committees of both houses have done well in refusing to enter into the large number of private grievances that have been brought before them, and the Services are to be congratulated, perhaps, as much upon what has not been done as upon anything else. There are a good many measures, however, upon which action should be had, especially the three-battalion bill, for the Army, and the bills affecting the comfort and status of the enlisted men. If progress is not made in the direction of taking means to defend the country from attack, it will not be for want of information in the premises. The reports of the Fortification Board and of the Senate Committee on Ordnance and War Ships are comprehensive documents which afford much food for reflection; and yet in the face of all this store of information the last session came to an end with nothing done even to keep the existing defences in order, the fortification bill failing to pass by reason of a disagreement between the two bodies. It is to be hoped that better counsels will prevail this winter. Some slight steps have been taken in the direction of the building of a new navy, but many more will be needed before we can reach the relative position which was held by us a quarter of a century ago. It is a matter for regret that the bill originally reported to the House should have been shorn of some of its best features by the direction of the so-called "steering committee," thereby decreasing the number of vessels authorized.

The introduction into the House of a bill applying to the Army the naval system of examination for promotion is one that will have an important influence upon the Service if it should become a law. A correspondent who has something to say about it this week suggests that there should be a preliminary examination of the examiners. This

sarcastic suggestion directs attention to the most serious difficulty attending the practical application of a principle which is unquestionably sound in itself. Among the items of interest to the Navy that have been discussed upon the floor of the House is the thirty year retirement bill, which was reported at an early day, and which should have passed readily; for some reason it was attacked most savagely and, its defence being less energetic, the result was fatal and the bill went to the tomb of the Capulets. There would seem to be no reason why this should be so, and why the two branches of the Services should be placed on such different footings as regards the matters of retirements and promotions.

The attempt of the Treasury Department to deprive the graduates of the Military Academy of their pay during their graduating leave has been happily frustrated by the prompt action of Congress, and they are no longer in danger of being left like MAHOMMED'S coffin, between heaven and earth, belonging neither to one sphere or the other. Congress has very logically concluded that as they remain in the Army their status as 2d Lieutenant is assumed immediately upon their graduation. The restoration of the cadet-engineers in pursuance of the decision of the Supreme Court (a measure urgently pressed by the JOURNAL) has been at last accomplished, and thus a great wrong is righted. The efforts to restore the midshipmen who were legislated out in 1882, have, however, failed of success, for which the Service is to be congratulated. So long as the materiel of the Navy is at its present low ebb there is no need of an increase in the already too long list of ensigns. The ensigns' pay bill has passed the Senate after considerable struggle and now awaits the favorable action of the House committee, which it is to be hoped will be speedily secured.

The act of May 17, regulating the promotion of graduates of the Military Academy, gave all concerned fresh hope, and removed all chance of an untimely end to the military career before being fairly entered upon. General FITZ JOHN PORTER, by the act of July 1, was restored to the Army list as a retired colonel, thus ending a long and bitter struggle between his friends and his opponents.

The North Atlantic Squadron has had an opportunity for fleet exercises at Key West and Pensacola, which was eagerly embraced, and with excellent results, considering the material with which the work had to be performed. It is gratifying to know that the *personnel* of the squadron is up to the standard of recent years, as shown not only in these exercises, but in the parades on Decoration Day and at the inauguration of the Statue of Liberty, as well as in other drills during the season. At present this squadron presents a peculiar appearance upon the rolls, consisting as it practically does of but two ships, neither of which bears the flag of the Commander in-chief. It is probable, however, that the near future will see it re-enforced and in good shape to have some fleet manœuvres in the coming year. The sea trial of the *Dolphin* "in search of bad weather" resulted finally in her acceptance by the Department. We believe that in some minds the idea of "structural weakness" still holds ground, but the general opinion of the Service seems to be that she is a strong and well built vessel *of her kind*, but that there is no need for her kind at present.

The voluntary associations of officers, the Military Service Institution, the Naval Institute and the Mutual Aid Associations, of the two Services, have continued to prosper; the latter, in especial, are to be congratulated upon their small losses by death, the number who have gone over to the majority having been fewer than usual. The death roll of the Army includes the names of forty-seven officers, and that of the Navy thirty four, the last including petty officers. The formation of the Association of the Graduates of the Naval Academy marks an important step in the direction of the homogeneousness of the Service; its first meeting was a decided success, giving excellent promise for the future. We wish for it everything that its projectors hope.

The report of the commission of investigation into the work of various scientific bureaus of the Government resulted (as might have been expected) in no changes of importance. The chief practical result of the whole affair has been the adoption of the mistaken policy of largely reducing the appropriations for the coast survey.

The Naval Observatory and the Hydrographic Office have continued their career of usefulness, the time service of the former and the "oil upon the waters" of the latter tending to make them more popular in their respective spheres.

After the reorganization plan of the Secretary and the appropriation for new ships, the chief naval interest of the year has been centered in the steps taken for the concentration of the work of the Department in the establishment of the Ordnance and Equipment Yards and the placing of all stores and supplies in the hands of the Bureau of Provisions and Clothing. Just how this scheme is to be worked out in the fullness of its details, remains to be seen. The year closes with the hopes of the officers and men of the Navy largely unfulfilled; but the dawn of a new day has certainly broken, and the "New Navy" is a surety in the not distant future. To that future they turn with high resolve that "the Republic shall suffer no detriment."

GENERAL JOHN A. LOGAN.

A TYPICAL civilian soldier has passed away with the death of General Logan—a strong, sincere, straightforward man, an officer of splendid courage, unflagging energy and sound judgment in emergencies. In no sense a strategist, he was yet an admirable executive officer. Like many another born-soldier, he could criticize shortcomings, on occasions, but fortunate was that Army commander who had Logan under him as a leader of troops. His bearing on the battlefield was brilliant; and few were the corps commanders, volunteer or professional, who fought so many battles with so few mistakes. This characteristic deserves the more to be dwelt upon, because the qualities which Logan brought to the field are often considered to be less those of discretion and tactical skill than those of dash, personal gallantry and popular leadership.

Apart from his manly character and candid, direct ways, which inspired confidence in his followers, one secret of Logan's success as a soldier was his welcoming of every opportunity to fight, without a minute balancing of the odds and chances, and as a privilege, too, not as a disagreeable duty. This aggressive, combative spirit distinguished all those officers who stood highest in esteem at the end of the war. It was an advantage for Logan that he was not like some less fortunate officers of equal personal bravery, thrust at once from civil life upon the command of a corps or an army, but was advanced by gradations that allowed him to reap the full benefit of experience in subordinate commands. Indeed, he had been a private and soon after a lieutenant of Illinois volunteers even in the Mexican war. His father was an Irish physician, who had emigrated to Illinois in 1821, five years before the General's birth; and with the proverbial combativeness of his race, the son enlisted for the war with Mexico at the age of twenty. Adopting the law as his profession, his sterling qualities at once carried him to the front in politics, so that he was a member of the Illinois Legislature at the age of twenty-five, a Buchanan Presidential elector at twenty-eight, and a Douglas Democrat, serving his second term in Congress in 1860, on the eve of the Civil War. "If he had been a copperhead," General Grant once said, "he could have thrown obstructions in the way of raising troops in Southern Illinois that could hardly be estimated. Instead of which he was prompt, unflinching and fearless on our side from the start"; and General Grant adds: "He was one of the bravest and most useful officers in the Union Army."

Logan, then, after being a soldier in the Mexican War, was a volunteer with a musket at the first Bull Run, the colonel of an Illinois regiment under Grant at Belmont, where he had a horse shot under him, a colonel still at the capture of Fort Henry and Fort Donelson, in which last engagement he was severely wounded, and only after this experience was made a brigadier-general of volunteers. How from this time forward he passed through the campaigns of Grant and Sherman at the West, refusing the call of his constituents to send him back to Congress, and rising from the command of a brigade to that of a division and a corps, and temporarily, after the death of McPherson, to the command of the Army of the Tennessee during the battle at Peach Tree Creek, we need not recount. It is certain that he proved himself perfectly competent for all the work put upon him throughout the war.

Of his political career as Senator from Illinois up to the time of his death, and as a candidate for Vice-President in 1884, we need not speak; but we cannot refrain from recalling the remembrance of the characteristic, manly way in which he took his defeat. It has well been said of him that he was upon the whole the greatest political force in the Northwest—a power which never could have been his without traits which the body of the American people heartily admire. In his unswerving ambition, which did not stop short of the Presidency itself, he had the constant support of his wife, a woman of extraordinary tact, nerve and ability, who had been his guiding genius from the very beginning of his public career.

The gratuitous calling in question of Logan's loyalty to the Union, adopted by some of his bitter opponents, was a hard thrust at this gallant soldier, and an unmerited one. With that intensity of energy and conviction and frankness of utterance that always marked him, he had announced before the war that he was willing to execute the laws on the statute-book, even though he might personally have to aid in returning fugitive slaves. But when the line was drawn between the defenders and the destroyers of the Government, he instantly took his stand with the former, and went to their head as a leader against his old political allies of the South. "I am for the country every time" was his sufficient explanation of his course. Beginning his military career as a private soldier in the Mexican war, he closed it as a major general commanding an army, the Army of the Tennessee. Certainly no other citizen soldier called to the management of an entire army surpassed him in uniform military ability and success. Honest, faithful to his friends, loyal to his country, a good soldier, an indomitably resolute man, he dies with an enviable record of duty done, and with enviable tributes alike from friends and opponents to his untarnished integrity.

COURTS MARTIAL.

WE are inclined to agree with Captain J. G. BALLANCE, U. S. A., Judge Advocate, Department of Texas, that "there has been an improvement during the past year in the manner in which court martial proceedings are prepared," and we fully agree with him that there "is still room for more improvement." In order to give as full publicity as possible to the comments of Department Commanders on court martial trials, we have for some time past, from week to week, given space to them especially for the information and guidance of those who may not have an opportunity to read all the court martial orders issued. The trouble is that court martial duty is so frequent that it becomes to an extent perfunctory on the part of the members, unless in important cases.

If the Judge Advocate of the court is competent, the record is likely to be free from irregularities and flaws. If he is not, and proper supervision is not exercised over him, then justice is apt to be defeated by the perpetration of fatal defects. The adoption of a more uniform system as to preparation of charges, extent of punishment, etc., would go far to remedy this evil, and it is believed the Army as a whole earnestly desire the speedy introduction of such a system.

Captain BALLANCE further says: "The present Articles of War are very badly arranged as a criminal code and as a code of procedure. Some of the provisions are obsolete, and others are entirely out of place, and relate to administrative duties which should appear in the Army Regulations." Who can dispute the proposition? We are glad to note that the officer from whose report the above quotations are made coincides with us in the view expressed several weeks ago in connection with certain court martial cases in the Department of the Missouri, that a great benefit would accrue to the cause of military justice if legislation could be procured authorizing a new trial in cases where the reviewing authority has found it necessary to disapprove the proceedings of a court martial for some

fatal irregularity in the proceedings, which cannot be remedied by reconvening the court.

Soldiers are not expected to be expert lawyers; indeed, there is a prejudice in the Army against too much law as applied to military offences. So much the more need, therefore, of a code and of a system which will insure strict justice and at the same time simplify the methods of procedure so that the chances of committing errors in form and in substance will be reduced to the minimum, and guilty men not escape by reason of technicalities which are just so many pitfalls for the unwary.

THE Secretary of War has informed the Chief Signal Officer of the Army, that it is his desire to have the four year detail rule, which is now supposed to govern in all staff detail, applied, as far as practicable, to the officers of the Signal Corps. This action was prompted through the appeal made by the friends of 2d Lieut. WM. A. GLASSFORD, to obtain a revocation of the recent order assigning him to duty in Arizona. This request was made on the ground that said GLASSFORD had received more than his full share of changes in stations during the past few years. The Secretary evidently thought so, too, to judge from his instructions to the Chief Signal Officer.

WE have for some time had before us a table of statistics concerning the graduates of the Military Academy, from which it appears that one-half the total number are living, so far as known, sixty-two being unaccounted for. Of the dead 204 were killed in battle, viz.: fourteen of the class of 1841; thirteen of 1861; twelve of '54; eight of '46; seven of '37, '44, and '56; six of '36, '53, '58, and '60; five of '34 and '50; four of 1811, '26, '33, '38, '40, '42, '43, '45, '47, '51, '57, and '60; three of 1812, '24, '30, '35, '39, and '67; two of 1808, '17, '22, '48, '49, '55, '69, '70, '71, and '75; one of 1806, '14, '15, '18, '20, '27, '28, '29, '37, '52, '62, '63, '68, '72, '74, and '76. None of the classes previous to 1820 are living, but two of that class and two of the class of 1822; none of 1821 or 1824; five of 1823 and 1830, and but one of 1825. The number living of the several classes since then are as follows: 1826, '27, '28, four each; 1831, '34, '44, seven each; 1840, eight; 1833, '36, '39, '48, nine each; 1838, ten; 1829, '37, eleven each; 1832, '59, twelve each; 1841, '61, thirteen each; 1858, '63, fourteen each; '35, '43, '45, fifteen each; '51, '64, seventeen each; '50, '54, eighteen each; '49, '55, '57, nineteen each; '42, '47, '60, twenty each; 1862, twenty-one; 1856, twenty-two; '52, twenty-three; '46, twenty-five; May, '61, twenty-seven; '53, twenty-nine; '66, thirty-one; '69, thirty-four; '71, thirty-five; '73, '75, '82, '84, each thirty-seven; '74, thirty-eight; '78, '85, thirty-nine; '65, '68, forty-two; '76, forty-six; '70, forty-nine; '67, '72, '80, '83, fifty-one; '81, fifty-two; '79 sixty-two; '77, sixty-nine; and death has not yet broken the ranks of the seventy-seven of 1886, all of whom are still in the Service.

The earliest class represented in the Service is that of 1823, of which there are two members, as well as the same number of '29, '31, '36, '37, '38. There is none of the classes of 1824 and 1844, and but one each of '25, '26, '27, 28, '30, '34; three of '33 and four of '40 and '48; five of 41 and '58; six of '39, '42, and '43; seven of '45 and '59; eight of '50 and '57; nine of June '61; ten of '51; eleven of '55; twelve of '46, '53, '54, and '63; thirteen of '47, '49, and '60; fourteen of May '61 and '64; seventeen of '56 and '62; twenty-one of '66 and '69; twenty-four of '68, twenty-nine of '65 and '71; thirty-two of '74 and '75; thirty-three of '67 and '41; thirty-four of '43; thirty-six of '70; thirty-seven of '82 and '84; thirty-eight of '85; thirty-nine of '76; forty of '72; forty-six of '80; forty-seven of '81; fifty-one of '83; fifty-six of '79, and fifty-eight of '77.

Of 3,173 graduates 1,538 are living, 1,141 of whom are in the Service, 1,319 have died of diseases and 204 have been killed in battle. This shows fifty per cent. of the entire number of graduates of whom seventy-four per cent. are in the Service. Of the dead about thirteen and one-half per cent., (204), were killed in battle or are known to have died of wounds received in action. There were no classes in 1810 and 1816 and two classes in 1861. These were the figures on Dec. 8 as compiled by the Secretary of the Association of Graduates, and as they appear in a Register of Graduates, which has been published by Lieut. Chas. Braden, West Point, in a pamphlet also containing Reminiscences of West Point by Miss Berard, daughter of the late Prof. Claudius Berard. This pamphlet will be sent to any address for one dollar a copy.

The last Board of Visitors to the Academy in their annual report show that from 1872 to 1885, inclusive, there were 685 graduates, a yearly average of 49; the vacancies provided for them by Army casualties were 850, an average of 61, or a yearly average of 12 vacancies in excess of the graduates.

IN this era of new ships and trial trips our naval officers will find much to sympathize with in the description given by the *Army and Navy Gazette* of the miseries endured by the officers of Her Majesty's navy who are obliged to take part in a "full-speed trial." Catastrophes of one sort or another are the natural accompaniment of this forcing of the gait of new naval vessels. Some tube will burst as a matter of course, or, at the least, "priming" will occur once or twice during the few hours' trial. And if, by good luck, the chief engineer is able to report at the end of the time to the captain, "Steam trial all over, sir, everything satisfactory," the captain seems quite surprised, as well as much relieved in his mind, and feels it to be a matter of special congratulation. He retires to his cabin, washes the smuts off his face and out of his beard, cleans the filth from his hands, puts on a clean shirt, and eats his dinner with a thankful heart. Moreover, the result of these trials is generally so eminently unsatisfactory, the speed attained being less and less at every consecutive attempt; and even if nothing goes wrong at the time, and priming is not conspicuous, yet the after-effects are almost always serious in one way or another. As a general rule, the engines have to be stopped the next day for several hours, whilst joints and screws are being tightened, tubes swept, and the machinery oiled and cleaned; so that, in making a long passage, what is gained in speed on the first day is more than lost on the second. The gradual diminution of knots per hour is often pooh-poohed by the chief engineer on the plea that "more horse-power has been developed;" but though this may be a satisfactory fact to him and to his staff, it does not establish it. The *Gazette* does not mention it, but in this country, if not in England, trial by newspaper follows hard after, and, in this case, it is not the ship but its officers, its designers and constructors who are its subjects, including the Department which is responsible for them, and the political party to which its head belongs. This condition of affairs here described is contrasted with that on large ocean mail steamers, which "may be said to be always undergoing 'full-speed trials;' frequently employing their highest rate of speed for days together, and this without any priming or breakdown of any kind, and maintaining this high rate of tension and pressure with respect to their machinery and engines month after month and year after year." The *Gazette* does not undertake to account for the difference, but it ventures to suggest that the matter is one that requires looking into, for "the nation will not be satisfied till a man-of-war can be proved capable of producing a respectable rate of speed, and of keeping it up for at least a week without accident or collapse."

IN the current number of "Harper's Magazine," Sir E. J. Reed discourses interestingly and intelligently of the "Navies of the Continent," giving No. 1 of a series of two papers which will prove of permanent interest to all English speaking Navy men. This first paper is devoted to the Navy of France, but contains many comparisons with the English naval strength, and it will be a matter of surprise to many of our readers to learn how strong the French Republic is in her Navy, and how rapidly that strength is being augmented. In the single item of torpedo boats, the comparison is not altogether favorable to England, for Sir Edward assures his readers that at the present time his government have 79 completed and 51 building, while the French have 68 completed and 60 building. The paper is fully illustrated and shows much research.

THE papers in the case of Frank Humphreys, the civilian candidate for a second lieutenancy in the Army, who some weeks ago appeared before an examining board convened for the purpose at Boise Barracks, Idaho, have been in the hands of the Secretary of War for some days. He is understood to have passed a very creditable examination. In view of the protests made by some of the West Point cadets it is not likely, however, that he will be appointed for the present. The purpose seems to be to delay his appointment until it is seen how the vacancies are holding out for the graduates in June next.

No provision is made in the Army Appropriation bill, as passed by the House, for extra duty pay to enlisted men serving as nurses and cooks at hospitals. The Paymaster-General has noticed the omission and will submit an estimate for the purpose to the Senate Appropriation Committee after the holidays. An effort will also be made to secure a deficiency appropriation to cover the payments for this purpose for the current year, the item having been omitted through a mistake in the last Appropriation bill.

THE South Boston Iron Works were the only bidders for the manufacture of the 12-inch breechloading mortar, for which advertisements were invited by the Ordnance Department of the Army on Dec. 18. Their bid of $3,800 will be accepted, and they will be directed to commence work immediately. The construction of the mortar was decided upon for the purpose of determining by careful and extensive trial the relative merits in regard to accuracy of fire of the muzzle-loading and breech-loading mortars. As to endurance the muzzle-loading mortar met expectations, but the Ordnance Department has never been satisfied with the results as to accuracy, and the common belief is that such result can only be obtained with the breech-loading type.

MESSRS. WM. S. KIMBALL AND CO., of Rochester, N. Y., send us their usual holiday greeting in the shape of various tasty packages of the fragrant cigarettes and smoking mixtures with which their reputation has been so long associated. Though they deal in that most unsubstantial of all products—smoke—the result to themselves is certainly most substantial. Their "Peerless Tobacco Works," representing a large investment, which they may regard with complacency as a public testimonial to the marked success of their efforts to popularize the weed which Spenser in his "Faerie Queen" apostrophized as "divine tobacco;" for which Charles Lamb declared he "would do anything but die," and which Cowper denounced as the—

> Pernicious weed! whose scent the fair annoys,
> Unfriendly to society's chief joys,
> Thy worst effect is banishing for hours
> The sex whose presence civilizes ours.

ERNEST SCHILLING, the car conductor, who gained notoriety by his marriage with Victoria Morosini, is variously reported as being now a marine at the New York Navy-yard under the name of Henry James Gallogley, and again as not being a marine but still a car conductor. The latter statement appears to be correct. A *Sun* newsgatherer reports him as saying: "I can't understand why the newspapers don't leave me alone." "I am still at work on the Sixth Avenue cars as a conductor. I never knew anybody named Gallogley, and if I had the money I would sue the paper that has printed all these lies about me. I assure you I would rather go to State prison than join the Navy. I have not heard from my wife since she left me, and am not trying to find out anything about her. All I ask is to be let alone."

MR. M. N. FORNEY, 23 Murray street, New York City, has now become the owner and editor of "The American Railroad Journal," established in 1832, and has made arrangements for the purchase of "Van Nostrand's Engineering Magazine," on the completion of its current volume at the end of 1886. The two publications will then be consolidated with the title of "The Railroad and Engineering Journal," and will be an illustrated monthly publication, having more the character of a magazine than of a trade journal. The subscription price will be $3.00 per year, or ten copies for $25.00

THE legislature of Bolivia has recently enacted that "No officer, from the rank of sub-lieutenant to captain, will be allowed to marry unless he can prove that the lady with whom he wishes to marry possesses a dowry of at least $4,000." "This," says the Panama *Star and Herald*, "seems a new order of procedure. Bolivian legislators express a poor opinion of their officers in thus coolly throwing the onus of support on the weaker sex. 'Fortune-hunters' are despised in most countries, but here we find that in a republic all the subalterns are compelled to become fortune-hunters or remain single. Legislators in Bolivia want the women to support the warriors."

WE have an idea, says the San Francisco *Report*, a paper by no means given to overpraise where Service matters are concerned, that Mr. Whitney will go into history as the first Secretary of the Navy, in twenty-five years, to make an earnest endeavor to introduce business methods into the Navy Department, to insist that the public should be at least nearly as well served by its agents as a private firm is, and to hold that the terms of a contract should be complied with, on pain of rejection of the goods.

VETERANS of the U. S. Navy who served from 1861 to 1865 are invited to attend a meeting at 10 A. M., January 13, in the assembly room of the Farragut Veteran Association, No. 189 Bowery, New York City, to form a National Association of Naval Veterans. Delegates will be present from the Naval Veteran Association of New York, Philadelphia, Chicago and Connecticut.

THE customary orders have been prepared at the War and Navy Departments directing Army and Navy officers in Washington to assemble in full uniform at the respective departments at 11.30 A. M. on Saturday to attend the President's reception in a body.

THE San Francisco *Post* says: "It has been said so long that nobody dared to dispute it that 'Old men for counsel and young men for war' was the right way to mix it. But the current report from the Army is to the effect that most of the sickness among the troops is of men under thirty. The soldiers over that age stand the hardships of peace in the barracks with unflinching courage, while the youngsters are howling in the hospital."

IT is the intention of the Secretary of the Navy to appoint at the Washington Navy-yard, by Feb. 1, a Superintendent of the new Gun Manufactory at the Yard; and he desires publicity to be given to the fact and applications to be sent to him before Jan. 15, stating the qualifications of the person making application. The matter of salary has been left open to secure services of a proper person.

THE bill for the increase of pay to Hospital Stewards, as recommended by the Surgeon General, U. S. Army, in his annual report, will be greatly aided by the action of the pharmaceutical associations, colleges, etc., who have signed a memorial praying for the increase.

LATE ARMY ORDERS.

A G. C. M. is to meet at Fort Hamilton, N. Y. H., Jan. 3. Detail: Major Abram C. Wildrick, Capts. John R. Brinckle, and George W. Crabb, 5th Art.: Rudolph G. Ebert, Asst. Surg.; Selden A. Day; 1st Lieuts. Granger Adams William W. Galbraith, and 2d Lieut. Albert C. Blunt, 5th Art., J. A. (S. O. 215, Div. A., Dec. 30.)

A G. C.-M. is to meet at St. Francis Barracks, St. Augustine, Jan. 7, for the trial of Sergt. William W. Thomas, Signal Corps. Detail: Col. Romeyn B. Ayres, 2d Art.; Major Passmore Middletown, Surg.; Capts. Henry G. Litchfield, George Mitchell, 1st Lieuts. Charles E. Kilbourne, Ephraim T. C. Richmond, Edward H. Catlin, 2d Lieuts. John Conklin, Jr., Cornelius DeW. Wilcox, and 1st Lieut. Eli D. Hoyle, Adjutant, 2d Art., J. A. (S. O. 215, Div. A., Dec. 30.)

Leave for one day is granted Major Joseph W. Wham, paymaster, New York City. (S. O. 215, Div. A., Dec. 30.)

NEW PUBLICATIONS.

Gen. H. J. Hunt completes his series of valuable and interesting articles on Gettysburg in the *Century* for January with an account of the third day; Gen. E. P. Alexander follows it with an account of Pickett's Charge and Artillery Fighting at Gettysburg. In the Memoranda of the Civil War, Col. Jas. F. Huntington replies to General Pleasanton, and H. M. M. Richards writes about "The Reserve at Antietam."—Citizens of Gettysburg in the battle. A portrait of Geo. Bancroft opens the number, and an excellent sketch of him accompanies it. The Life of Lincoln is continued; Lieut. C. E. S. Wood describes an Indian Horse Race. The other articles are "French Sculptors"; "Comets and Meteors," by Prof. Langley; "Fencing and the New York Fencers"; "Relative Strength and Weakness of Nations," the first of a series by Edw. Atkinson; fiction by Geo. W. Cable, Frank R. Stockton, Jas. B. Kenyon and Richard Malcolm Johnston. C. S. Percival asks the strange question "Shall Young Men go to Vassar?" We should say that they are certain to go, if there are young ladies there, unless the rules forbid and a healthy bulldog is kept upon the premises to enforce them.

Mr. J. Thomas Scharf, of Baltimore, author of the "History of Maryland," "History of Baltimore," and "History of Philadelphia," a member of the Virginia, Georgia, Maryland, New York, Pennsylvania and other historical societies, and an officer in the Confederate Navy, will soon have ready "The History of the Confederate States Navy," from the laying of its first keel to the sinking of its last vessel, showing its struggle with the great Navy of the United States, the engagements fought in the rivers and harbors of the South and upon the high seas, as well as giving an account of the blockade running and the assistance it gave the Confederate Government and people; the first fight of ironclads, the use of torpedoes and other striking incidents of the war.

In the January number of the "Southern Bivouac," Judge Hines, in his story, "The Northwestern Conspiracy," tells of a visit of Judge Black to Mr. Thompson, in Canada, made at the suggestion of Mr. Stanton, who expressed serious uneasiness at the widespread dissatisfaction in the North, and who anticipated the defeat of Mr. Lincoln in 1864. This article will contain an important letter from Mr. Thompson to Mason and Slidell, written after the conference with Judge Black, which gives a full review of the situation at that time. James W. A. Wright in this number gives the story, from the Confederate standpoint, of Bragg's campaign around Chattanooga.

The January "Magazine of American History" has among other contributions an interesting article entitled "A Curious Chapter in Vermont's History," by J. L. Payne, who illustrates from the old records at Ottawa the secret negotiations which came near making Vermont a British Province. Major Bundy pays a just and appreciative "Tribute to Chester A. Arthur," accompanied by a portrait of our late ex-President as the frontispiece to the magazine, and Hon. John W. Johnston contributes an article on "The First American Rebel."

We are in receipt of a handsome volume just published at St. Petersburg entitled, "Emploi des Mitrailleuses et Canons à Tir Rapide, dans les Armées de Terre et dans la Marine." Par Gustaf Roos. It is a résume of the opinions of various military authorities on the subject, one chapter giving the opinion of Lieut.-General Brailmont on the use of rapid fire of machine guns, of which there are twenty-four varieties against four in 1880.

Admiral Semmes's "Service Afloat; or, the Career of the Confederate Cruisers *Sumter* and *Alabama* During the American Civil War," is shortly to be published in London by Sampson, Low and Co. It will be illustrated by steel plates and chromo-tinted engravings.

The *Revue du Cercle Militaire* (Paris) has replaced that excellently conducted journal, the *Bulletin de la Réunion des Officiers*.

THE French papers announce that Capt. Lorard is building a gun at Bourges 11½ metres long, which fires a projectile of 800 kilogrammes, and which has, or will have, a range of 26 kilometres.

A Court-martial has been summoned in France to try Lieut.-Col. Revenger for desertion. It appears that the gallant officer recently took to gambling, and being unable to pay up, absconded.

McCLELLAN AND LEE.

THE most recent of literary controversies is that concerning the use made of the manuscripts of Carlyle by his friend, Froude, in the exercise of the discretion intrusted to him as the literary executor of the great essayist. It has been contended, and with reason it would seem, that Froude should have withheld from publication documents which exhibited Carlyle from a point of view seriously lessening the esteem in which he was held. If, as his critics contend, Froude's perusal of Carlyle's manuscripts made him familiar with the littleness from which greatness is never wholly free, he should have dealt with it in the reverent spirit that actuated the sons of Noah, when, with faces averted, they covered the nakedness of their father. A similar criticism might well be applied to the part taken by Mr. Wm. C. Prime in the publication of the memoirs of Gen. McClellan.* It may be urged on his behalf that as this is mainly McClellan's own story, less discretion was allowed him than in the case of the historian, Froude; but, certainly, Mr. Prime might have spared us the political philippic with which he has prefaced the volume in the guise of a biographical sketch. There was an aspect in which the soldier who organized and first commanded the Army of the Potomac could well have been presented that would have won the approval and the sympathy of all who are identified with his military history. The judgment upon the controversies in which he bore so conspicuous a part is made up, and is not to be altered by an ex parte statement as to their merits. All may well agree as to the great abilities of McClellan as an organizer, and as to the inestimable service which he rendered his country, not only by his direct military achievement, but the part he bore in the development of that Army from whose labors others were destined to reap the fruits of victory and its rewards. McClellan's name is associated in the memories of thousands with the enthusiasm of their youth, and in their calmer years of reflection and retrospect they are as ready as ever to accord to him a meed of praise, as high as his most ardent friends might ask, for unquestioned abilities as a soldier and noble qualities as a man. They do not forget that it was he who with clear vision was among the first to comprehend the magnitude of the contest upon which he entered in 1861, and the first to insist upon the preparation that was alone adequate to meet it. The pages of McClellan's Memoirs in which this is set forth will be read with universal interest and unalloyed approval.

But there are thousands of those who served with McClellan, and who count themselves among his truest friends, who are not prepared to accept his judgments, or those of his literary executor, upon those who differed from him. In these differences all do not find the proof which some see of a malign influence pursuing McClellan to the death. Among those against whom he was arrayed were men as earnest, as patriotic, as devoted to the cause for which he fought, and who walked as conscientiously as he, by the lights which were given them. The contest was one which involved other problems than the strictly military one, and those to whom these were committed were in the best position to judge as to their proper solution, and to them, and to them alone, this judgment had been committed under our Constitution and laws. That our civil rulers were exasperatingly ignorant of the military questions which McClellan understood so thoroughly there can be no doubt. But that is inevitable under a system of government which subordinates the military to the civil control. It was so in the Revolution; so during our contest with Mexico; so during the Civil War, and it would be found none the less so to-day. It is one of the conditions to which our soldiers must of necessity adapt themselves. Nor is it to be forgotten that the civilian critics and opponents of McClellan found abundant support for their opinions in the views of those trained in the same school of war as himself, and that the Army and West Point were as much responsible for the difficulties against which he contended as were Lincoln or Stanton or Chase. Having these facts in view, and in the interests of domestic harmony, it were wiser to have relegated old controversies to the past, so far as this could be done, and to have presented McClellan in a light which would have attracted the admiring gaze of all who love their country and are ready to recognize service rendered it. We grant that the manuscript left by General McClellan did not render it altogether possible, but much might have been done by one who not only recognized the real merits of this fine soldier, but who was in sympathy with the spirit which prompted the speech by Mr. Grady, of Atlanta, Ga., which has so recently won universal approval at the South as well as in the North. In his remarks at the dinner of the New England Society in New York, Dec. 22, Mr. Grady said:

> Great types like valuable plants, are slow to flower and fruit. But from the union of these colonists (the Puritan and cavalier) from the straightening of their purposes and the crossing of their blood, slow-perfecting through a century, came he who stands as the first typical American, the first who comprehended within himself all the strength and gentleness, all the majesty and grace of this Republic—Abraham Lincoln. He was the sum of Puritan and Cavalier, for in his ardent nature were fused the virtues of both, and in the depths of his great soul the faults of both were lost. He was greater than Puritan, greater than Cavalier, in that he was American and that in his homely form were gathered the vast and thrilling forces of this ideal Government—charging it with such tremendous meaning, and so elevating it above human suffering that martyrdom, though infamously aimed, came as a fitting crown to a life consecrated from the cradle to human liberty.
>
> We understand that when Lincoln signed the emancipation proclamation your history was assured, for he then committed you to the cause of human liberty, against which the arms of man cannot prevail, while those of our statesmen who made slavery the corner-stone of the Confederacy doomed us to defeat, committing us to a cause that reason would not defend or the sword maintain in the sight of advancing civilization. . . . . The South found her jewels in a toad's head. The shackles that had held her in narrow limitations fell forever when the shackles of the negro slave were broken. I want to say to Gen. Sherman—who is considered an able man in our parts, though some people think he is a kind of careless man about fire—that from the ashes left us in 1864 we have raised a brave and beautiful city; that somehow or other we have caught the sunshine in the bricks and mortar of our houses and have builded therein not one single ignoble prejudice or memory.

It is too late to question this judgment, and it is unfortunate for the memory of McClellan that he should be suffered to go down to history as arrayed against it. We enter our protest against this as one who loved McClellan, and in whom anything that presents him in an unpleasant light awakens a sentiment of pain and regret. Controversies that belong to the war should have been suffered to end with the war, and from its memories we should gather for preservation only what is pleasant and of good report.

To McClellan's Harrison's Landing letter, the editor of his memoirs adds a footnote in which he says:

> Mr. Chase, with startling innocence of mind, avows that on July 22 he urged Mr. Lincoln to remove McClellan on the ground "that I did not regard Gen. McClellan as loyal to the administration, although I did not question his general loyalty to the country." This is the confession of a motive in the conduct of a great war which is universally regarded as infamous.

For the benefit of young officers who give McClellan so high a place among those to whom they look for examplars, perhaps Mr. Prime will instruct them as to how they may distinguish between loyalty to the country in time of war—or in time of peace for that matter—and loyalty to the administration which represents it to them. We dwell upon this, for right here, as it seems to us, arises the fatal fallacy which pervades this book, and which we should be sorry to see accepted upon the authority of McClellan's great name. The one paramount issue at the time McClellan was in command was loyalty to the Administration whose inauguration into office had led to the secession of the Southern States, and the resignation of the Southern soldiers against whom he was arrayed in battle. There could be no shading off of differences, between loyalty and disloyalty; no reservations in the full acceptance of the authority which was placed over us. This is a fact that we cannot too earnestly impress upon our younger officers, whose connection with that time is through the lessons they may draw from the example of those who took part in its stirring events.

How much pleasanter a volume might have been made of the memoirs of General McClellan is shown by the companion volume of Memoirs of of Robert E. Lee† which we received at the same time with it and which, as we turn to it, makes us regret the more that McClellan's manuscript could not have been entrusted to some one besides a gentleman who, whatever his other qualifications, had the disadvantage of being trained in the school of partizan editorship. Whatever controversies Lee may have had, there is little trace of them to be found in the volume edited by Lee's old staff officer, Gen. A. L. Long. In spite of the fact that he is disabled by blindness, Gen. Long has been able to give us a most entertaining volume and one distinguished by its good feeling and excellent sense shown in what is left unsaid, quite as much as by what is said. Is not the fact that Lee escaped controversy so far as he did to be explained rather by a difference of character than by a difference of circumstances? The narratives of G. W. Smith, Beauregard, Johnston, and others, give abundant proof that bitterness of feeling and personal controversies were not unknown to the Confederate Army. Beauregard, for example, brings against the administration of Davis complaints very similar to those directed against Mr. Lincoln, and yet Davis was a soldier by training. The first Confederate Secretary of War, L. P. Walker, resigned in 1862, because his chief refused to put into camps of instruction for the campaign of 1862 the large number of troops upon which his Secretary insisted. "The administration failed," says Beauregard, "to discover the true policy, or had not the capacity and energy to carry it out." He charges that the overthrow of the Confederacy was due not alone to Northern prowess, "but, concurring with these, want of sagacity, inefficiency, improvidence and narrow-mindedness on the part of the Confederate Administration; egotism and illiberality, culpable loss of time and of opportunities." Are not these the complaints that are urged against Mr. Lincoln and his administration?

Charges of disloyalty which include his chosen advisers must include Lincoln, for it is impossible to separate him and the men who had his confidence, who spoke and acted in his name and by his direction, and who represented his authority. We well remember the opinion of the "Abolition Administration" of Lincoln that was so generally held in the camps of 1862. Is that the opinion of to-day—is it to be the judgment of history? Is there not a larger truth than the one which is involved in these personal criticisms, and is not it wise to seek for it and present it, instead of perpetuating the memory of embittered controversies? This is the day when the editor of a prominent journal, the Philadelphia *Times*, bears this testimony:

> During regular winter journeys through the South by the editor of this journal for half-a-dozen years past, the name of Abraham Lincoln was often mentioned by prominent Southerners, and always in terms of affection. Jefferson Davis spoke of Lincoln with a measure of respect that is akin to reverence. In North Carolina the Legislature unanimously requested the writer hereof, by joint resolution, to deliver an address on Abraham Lincoln. Governor Jarvis presided, and was heartily applauded in his introductory eulogy upon Lincoln that surpassed even the generous tribute of Mr. Grady in New York. In Nashville the same request was made by the Legislature, and an Illinois or Massachusetts audience could not have responded more heartily to words of eulogy upon Lincoln.

The time has gone by when Lincoln can be accused of indulging in "paltry tactics" and of having so acted towards McClellan "as to make the matter as offensive as possible." Such utterances are to be excused in a period of misunderstanding and misconception, but it is time they were forgotten. It is

*McClellan's Own Story; the War for the Union; the Soldiers who Fought it; the Civilians who directed it and his relations to it and to them. By George B. McClellan, late Major-General, commanding the Armies. New York: Chas. L. Webster and Co.

†Memoirs of General Robert E. Lee; his military and personal history, embracing a large amount of information hitherto unpublished, by A. L. Long, formerly military secretary to General Lee, afterwards Brigadier-General and Chief of Artillery, Second Corps, Army of Northern Virginia; together with incidents relating to his private life subsequent to the war. Collected and edited with the assistance of Marcus J. Wright, formerly Brigadier-General, Army of the Tennessee, and agent of the United States for the collection of Confederate Records. Illustrated. New York, Philadelphia and Baltimore: J. M. Stoddard and Co.

only just to Mr. Lincoln and his advisers to say that the opinion they entertained that McClellan was "constitutionally slow," was that also entertained at the headquarters of Lee. His biographer and confidential staff officer says:

A great diversity of opinion exists as to the military capacity of McClellan, and he has been both unduly praised and censured by his friends and foes. That his slowness and caution were elements on which the opposing general might safely count must be admitted, but that he had a high degree of military ability cannot be denied. His skill in planning movements was certainly admirable, but their effect was in more than one instance lost by overslowness in their execution. In this connection it will be of interest to give General Lee's own opinion concerning McClellan's ability, as related by a relative of the general, who had it from her father, an old gentleman of eighty years: "One thing I remember hearing him say. He asked General Lee which, in his opinion was the ablest of the Union generals; to which the latter answered, bringing his hand down on the table with an emphatic energy, 'McClellan, by all odds!'" This opinion, however, could not have referred to his skill as a tactician, as it is unquestionable that Lee availed himself of McClellan's over-caution and essayed perilous movements which he could not have safely ventured in the presence of a more active opponent.

In another place he says "the strength of the Confederate force was always greatly overestimated by McClellan, and his frequent and urgent calls for reinforcement exposed his want of confidence in his own strength." At the period to which this refers, June 25, 1862, McClellan estimated Lee's strength at 180,000. It actually amounted, Gen. Long tells us, to a little more than 81,000. This discrepancy is important, for it is to be remembered that the action of the Washington authorities, of which so much complaint is made and on which so much criticism is founded, was based upon the assumption that McClellan exaggerated the difficulties with which he had to contend. No mention of McClellan's strength at this period is made in his Memoirs, but the official return for Jan. 20, 1862, gives an aggregate of 156,838, with 109,984 present for duty. Yet the reports of McClellan at that time show that he acted throughout on the assumption that the force of the enemy, actually 81,000, was at least double his own 109,984. Is it fair at this date to base criticism on any such assumption as this? McClellan says, "either through ignorance, or to injure me by exaggerating the force at my disposal, often the 'total present,' often the 'aggregate present and absent,' was given, by those occupying official positions, as the effective strength of the Army of the Potomac." But he cites as an example the fact that on July 10, 1862, after the Seven Days' Battle, his total present for duty was 89,542, or nearly ten thousand more than Lee had at the commencement of that series of engagements, while the aggregate present and absent was 144,886. Of the events following the withdrawal of the Army of the Potomac, Lee's biographer says:

The short and disastrous campaign of Pope affords a striking commentary on the timid policy that characterized the Federal Government in its prosecution of the war, as had been previously illustrated by the injudicious interference of Mr. Lincoln with military operations in the field, and his obvious want of confidence in Gen. McClellan. This was manifested by withholding from him McDowell's corps of 40,000 men, whose co-operation was calculated on in the advance upon Richmond, and subsequently by allowing his fears for the safety of Washington to neutralize a powerful force in the valley of Virginia, which might have, by timely co-operation, given a different turn to the Richmond campaign. Besides executive interference, military operations were further embarrassed by the introduction of an inquisitorial tribunal known as the "Congressional Committee on the Conduct of the War."

It was through this engine of mischief that the popular curiosity of the North was feasted with news from the seat of war, by which feuds were bred in the Army, and which became the source from which the Confederates were supplied with the most important information, thus paving the way for those disastrous blows which fell upon the Federal arms. . . . Pope's chastisement should also serve to admonish the future military tyro to mask his ignorance by curbing his arrogance when thrown by a credulous government into a position far beyond his capacity. . . . Having learned through the newspapers and other sources that there was a conflict of opinion between Gen. McClellan and Mr. Lincoln in regard to future operations, and knowing the Federal President's anxiety concerning the safety of his capital Lee rightly concluded that any movement in that direction would cause McClellan's opinion to be overruled and the Army of the Potomac to be withdrawn from the James for the defence of Washington.

Gen. McClellan needs no special pleading in his behalf. Setting aside what we have found to criticize, his Memoirs contain abundant proof of his ability as a soldier, and of the truth of what he says in his preface:

I loyally served my country in its darkest hour; and others, who during their lifetimes have been more famed than myself, would probably have done no better, under the circumstances which surrounded me, when twice at least, I saved the Capital, once created and once reorganized a great army.

Mr. Prime says:

He made Washington secure, he created the Army of the Potomac, he gathered the vast material for a war; called to the chief command, he brought order out of chaos in all the armies; he organized the first and only plan for the war in all the country; he sent successful expeditions with detailed orders, to North Carolina, New Orleans and elsewhere, in pursuance of his comprehensive scheme, in which concerted action everywhere was to be in direct relation to the chief act—the taking of Richmond.

General McClellan says that it was a great mistake to suppose that he had the cordial support of Gen. Scott; the contrary was the case. Of other officers he says: "Sumner was a very valuable man, and his soldierly example was of the highest value to a new army." Stone "was a most charming and amiable gentleman—honest, brave, a good soldier, though occasionally carried away by his chivalrous ideas." Richardson "was an officer of the old army, bull-headed, brave, a good disciplinarian." Couch "was an honest, faithful, and valorous man, a brave, modest and valuable officer." Fitz John Porter, "take him for all in all, was probably the best general officer I had under me; he had excellent ability, sound judgment, and all the instincts of a soldier." Sedgwick "was one of the best and most modest soldiers we had; he was thoroughly unselfish, honest, and true as steel." Hancock "was a man of the most chivalrous courage, and of a superb presence, especially in action; he had a wonderfully quick and correct eye for ground and for handling troops; his judgment was good, and it would be difficult to find a better corps commander." John Reynolds "was a splendid soldier, and performed admirably every duty assigned to him; constantly improving, he was, when killed at Gettysburg, with Meade and Sedgwick, the best officer then with the Army of the Potomac; he was remarkably brave and intelligent, an honest, true gentleman." Meade "was an excellent officer, cool, brave and intelligent; he always did his duty admirably, and was an honest man. As commander of an army, he was far superior to either Hooker or Burnside."

Hunt's merits consisted not only in organizing his command to the best advantage, but in using it on the field of battle with the utmost skill and power. The services of this most distinguished officer in reorganizing and refitting the batteries prior to and after Antietam, his gallant and skilful conduct on that field, at Malvern, and in fact during the whole Peninsular campaign, merit the highest encomiums in my power to bestow. General Hunt retained the position of Chief of Artillery until the close of the war. I regarded him as the best living commander of field artillery. He was a man of the utmost coolness in danger, thoroughly versed in his profession, an admirable organizer, a soldier of a very high order. As I write this (July, 1882) Hunt is likely to be retired as a colonel—a man whose services in any other army would have been rewarded by titles, high rank and ample pension. He is one of the most marked instances within my knowledge of the highest merit and services passed over unacknowledged and unrewarded. Franklin was one of the best officers I had; very powerful. He was a man not only of excellent judgment, but of a remarkably high order of intellectual ability. He was often badly treated, and seldom received the credit he deserved. His moral character was of the highest, and he was in all respects an admirable corps commander; more than that, he would have commanded an army well. The only reason why I did not send him to relieve Sherman, instead of Buell, was that I could not spare such a man from the Army of the Potomac.

Cordial testimony is borne to the merits of McClellan's staff officers, Van Vliet and Ingalls, Seth Williams, Surgs. Tripler and Letterman, Col. H. H. Clarke, Col. Kingsbury and others, including the personal aides, of one of whom he says:

Should the Comte de Paris ever reach the throne of France—as is more than probable—I am sure that he will prove to be a wise, honest and firm constitutional king, and that the honor and prosperity of France will be safer in his hands and those of his soldierly family than for many years past.

Naturally Gen. Barnard is not included in this praise, and we are told of Col. Duane, to whom high praise is given, that had he been chief engineer before Yorktown, operations would have progressed much more rapidly. Of Halleck McClellan says:

Of all men whom I have encountered in high position, Halleck was the most hopelessly stupid. It was more difficult to get an idea through his head than can be conceived by any one who never made the attempt. I do not think he ever had a correct military idea from beginning to end.

Turning to Lee's memoirs we find some opinions expressed as to the general officers of our Army which are interesting, and which we give as we find them:

The appointment of General Burnside to the command of the Army of the Potomac had proved a mistake—more, however, from the combination of circumstances against him than from lack of conduct on his part. His successes in North Carolina had given him prominence, while his fine soldierly bearing and fine appearance evidently had their influence with Mr. Lincoln in the selection of him as commander-in-chief of the Army of the Potomac, while neglecting the superior claims of several others, two of whom—Generals Hooker and Franklin—could never forget their sense of superiority sufficiently to render him cordial cooperation. Bourrienne gives as a maxim of Bonaparte that "two great generals in the same army are sure to make a bad one." This maxim particularly applied in the present instance to the Army of Potomac, where its truth was fully verified.

Referring to Fredericksburg General Long says:

General Meade from the want of support after his gallant achievement was compelled to witness the present deplorable condition of his corps. Forty thousand of Franklin's grand division, remaining idly by, had beheld the defeat of their brave comrades without extending a helping hand. This apathy of Franklin was, at the time, regarded by the Confederates as remarkable.

The appointment of Hooker to the command of the Army of the Potomac, was a surprise to General Lee, who had no great respect for the ability of his new opponent in a position of such importance.

Lee had always held Meade in much higher estimation as a commander than Hooker. But he was of the opinion that the difficulties which would beset Meade in taking command of the Army in the midst of a campaign would more than counterbalance his superiority.

Of General Grant it is said:

General Grant has proved himself the ablest commander in the Federal Army, and had come fresh from victory in the West to measure his strength with the ablest of the Confederate leaders. And their previous ill-success had taught the Federal authorities the useful lesson to leave the direction of military affairs to the commander in the field, and, while supplying him with abundant reinforcements to cease hampering him with the incessant restrictions to which the preceding commanders had been subjected.

It is not to the credit of the publishing house from which McClellan's volume is issued that mistakes should appear in such well known names as those of Generals N. P. Banks, Joseph E. Johnston, Dixon S. Miles, Edw. O. C. Ord, Delos B. Sacket, O. B. Willcox, and Edw. McK. Hudson, of McClellan's staff. As the discovery of these errors is by no means the result of a critical examination of the text, they give rise to the suspicion of others of like character which may have escaped attention.

ROOM IN THE MARINE CORPS.

To the Editor of the Army and Navy Journal:

WHILE on duty upon the flagship *Lancaster* in 1882, I became interested (through Messrs. Shallenberger and Kammerling) in the cases of the Cadet Engineers who were to be discharged from the Service with one year's pay and, being convinced that the law was misinterpreted, advised, not substantially but literally, the course which they have pursued and assured them of ultimate success if their cause was properly advocated. The history of their long battle and final victory is well-known, and I refer to this matter now, first, because I occupied a very lonely position at that time, and, secondly, for the purpose of offering another suggestion which may assist them to secure, at least in part, the last promotion for which they are still struggling in order to make their restoration complete—that is, commissioned rank.

As the Navy Department has frequently recommended reductions in the number of officers of the Engineer Corps, and a restriction of the supply of graduates from Annapolis, it must find it embarrassing to consider favorably the claim for promotion of so large a number of gentlemen to be Assistant Engineers, of whom there seem to be already enough to meet the demands of the Service and furnish numerous teachers for schools and colleges very remote from salt-water.

By scanning the Navy List they will find that in the Marine Corps every officer is upon what may be described as his legitimate duty, not even a much-needed recruiting officer being allowed, and at some stations sergeants are at times impressed to do the duty of commissioned officers when reduced below three in number. They will also find that there are at same time thirteen vacancies in the grade of 2d Lieutenant as established by Act of Congress. These vacancies are occasioned by an item in an annual appropriation bill to the effect that no more officers shall be appointed until the whole number is reduced to seventy-five.

The Department has never, to my knowledge, recommended or endorsed this reduction but, on the contrary, has frequently favored an increase of both men and officers. Whether men are needed or not may be debatable, but there can be no doubt about the want of officers, who are so scarce that the Commandant of Marines has been obliged to issue a general order restricting the granting of leave actually authorized by law upon full pay to officers returned from sea.

With these simple facts to commence with it might not be difficult for those who may desire it to secure authority for their transfer to the Marine Corps, which transfer would not only give immediate promotion and substantial commissioned rank, but advance the public interests by putting men of education, training and experience where they appear to be much needed, and can be constantly and usefully employed without invention. The case of Lieut. C. M. Perkins, U. S. M. C., a graduate of the Naval Academy, who was for a few months assigned to the Engineer Corps, furnishes precedent, and the *modus operandi* after the repeal of the reduction clause referred to.

Very respectfully,
HENRY C. COCHRANE.

NAVY-YARD, PENSACOLA, Dec. 20, 1886.

HENRY WAGER HALLECK.

To the Editor of the Army and Navy Journal:

I observe in your issue of Dec. 18th a description of the statue of Major-General Halleck, U. S. A., located in the Golden Gate Park, San Francisco, Cal.: "On the face of the pedestal in plain letters, are these words: 'Major-General William H. Halleck, General-in-Chief of the Armies of the United States, 1862-1864.' On the rear of the pedestal is inscribed simply, 'A tribute to his memory from his Best Friend.'"

Now, what seems strange and somewhat incongruous to me, is the evident error this friend (?) has made in recording the name, which, I have heretofore supposed and believed, was Henry Wager, instead of William H. Halleck. It may be that I am in error, but I find that the former was the name of the late Commander-in-Chief of the Armies; therefore there must be some mistake somewhere. The above little notice only serves to illustrate more forcibly the "old soldier's" definition of Fame: "To be killed on the field of battle, and have your name misspelled in the bulletin."

A. C. T.

December 21, 1886.

Our correspondent is correct as to the name of General Halleck. We copied the notice as we found it in a California paper.—EDITOR.

"STATE CLAIMS."

To the Editor of the Army and Navy Journal:

The Army indeed has a friend in Gen. Bragg. See what he says in a debate on our Relief bill, and see how keenly alive he is to the zealous rulings of Treasury officials:

* * * "As I understand it, the accounting officers of the Treasury looked over the law applicable to *officers* on duty in the Army, and found that such officers were not entitled to a leave of more than thirty days in any one year; and that if that time was extended they were put upon half pay. Then, as the graduation leave extends over more than thirty days, the accounting officers applied the scissors to that also, and reduced the pay to *half cadet pay*. Thus the first ruling held that these cadets were not lieutenants because they had not been commissioned, while the second held that they were *sufficiently* lieutenants to justify the application of a rule which would cut down the pittance which they had received. * * *"

It is pretty well understood throughout the Army that had it not been for the passage of the act in question, the "Stale claims" against officers would have been enforced.

Z.

THE MESS.

The following story is told: When General Grant was a lieutenant before the Civil War he was stationed at Detroit, where the famous Zach Chandler was at that time a prosperous merchant. One day in winter, while passing Mr. Chandler's residence, Lieut. Grant slipped on the sidewalk and received injuries, for which he sued Chandler and recovered judgment. This incident had passed from the mind of Mr. Chandler, until it was recalled in a manner that brought out one of the characteristics that made Mr. Chandler noted for his strong sense and intrepid honesty. While the country was looking for a commander to lead the Army of the Potomac, President Lincoln sent the name of U. S. Grant to the Senate, where Senator Chandler was a member of the famous Committee on the Conduct of the War. "Who is this U. S. Grant?" asked the blood-letting Senator. "He is the man who, as a young lieutenant, was stationed in Detroit years ago, and sued you for damages occasioned by your neglect to clean your sidewalk," replied a colleague. "Then, by the Eternal, I'll vote for him." replied old Zach, and the nomination of the immortal Grant was confirmed.

—

Things One Would Rather Have Left Unsaid.—Love-lorn Middy (about to join his ship): "I've come to say 'Good-bye,' Amy!"

Cousin Amy: "Good-bye, Johnny. When we see you next, I hope you'll be an Admiral."

THE masts and sails of H. M. S. *Warspite* are to be removed, and she will, like the *Imperieuse*, carry in their place a single military mast.

THE STATE TROOPS.

CONGRESS AND THE MILITIA.

THE passage of the "Sewell Bill," increasing the appropriations for the militia, by the House of Representatives last week marks an era in our legislation, and may justly be considered as one of the most important acts which has taken place in Congressional legislation for the last fifty years.

On the formation of the Federal Government, one of the earliest acts of the first House of Representatives in 1789, was the appointment of a committee to prepare a bill to organize the militia. At the following session in 1790 General Knox, Secretary of War, submitted his celebrated plan for organizing the militia. This was in brief that every boy on arriving at the age of eighteen, should be enrolled in the cadet corps of the militia and should be obliged to serve thirty days for two years and ten days in a third year, and that no person should be entitled to vote unless he could produce his certificate of having so served. All citizens between the ages of 21 and 45 were to be enrolled in the main corps and obliged to drill four days in each year, and those between the ages of 45 and 60 were to be enrolled in a reserve corps which was to be assembled twice a year for inspection. The General Government was to furnish the arms, uniforms and equipments, and bear all the expenses of the camp of instruction. The features of General Knox's plan were discussed and the act of May 8, 1789, which constitutes the present militia law, is the result of such discussion. It was soon seen that this needed amendment, and in 1794, a bill for that purpose was reported, which failed. Through the earnest solicitation of Jefferson in his annual message, Congress passed a bill in 1808 making a permanent appropriation of $200,000 a year to provide arms and equipments for the militia, which has since remained in force. This, it will be observed, was in addition to the then and now existing provisions requiring every citizen to arm and equip himself.

In 1805, Jefferson again recommended the classification of the militia to include all from 18 to 26, which was discussed in Congress from time to time until the War of 1812 put an end to it. In 1810 Madison recommended a change in the militia law and suggested the assembling of the commissioned and non-commissioned officers in annual camps of instruction at the expense of the Government. In 1816, Congress directed the then Secretary of War to submit a plan for the organization of the militia which he did and General (afterwards President) Harrison, then a member of Congress, took a deep interest in framing and advocating the plan. From 1819 to 1825, a number of bills on the same subject were introdnced in Congress, none of which ever became a law. In 1825 the old system having become a farce, Secretary of War Barbour convened a board, of which Major-General Winfield Scott was president, Zachary Taylor being a member. This recommended a select corps of militia to be formed in each State of one brigade for every Congressional Representative, the officers to be assembled in camps of instruction ten days in each year. In 1835, President Jackson urged upon Congress the necessity of action upon the subject and recommended that volunteer officers should be encouraged. In 1840, the then Secretary of War Poinsett submitted still another plan to Congress. In 1860, an earnest effort was made in the House of Representatives to increase the annual appropriation, and after the war several bills were introduced in the Thirty-ninth Congress looking to that end. The great necessity of making some change in the militia laws has also been recommended by the majority of the Presidents who have since held office. In spite of these numerous plans reports and proposed legislation nothing has ever been accomplished for the benefit of the militia during nearly eighty years until the passage of the present bill. This has been simply because there has been no organized effort to accomplish anything. The suggestion was made to Congress for improved legislation as thousands of similar suggestions have been made; the committees reported as hundreds of committees have done—and there the matter ended.

With the formation of the "National Guard Association" in 1879 there appeared for the first time a permanent and representative body persistently advocating the legislation required. The secret of its strength was that its members did not confine themselves to Congressional lobbying, but were able, through the National Guard of the various States, to bring a personal and direct pressure upon the various Congressmen from their constituents and in this way produce a public opinion in its favor which insure its passage when brought to a vote. The work has been a long one, having occupied from 1879 to 1886; but the vote which the measure received, 199 to 44, shows the thoroughness with which it has been done.

The importance of the bill, however, passes far beyond merely increasing the appropriation for the militia. It demonstrates the power of the National Guard Association and its ability, so long as it is conservatively managed and takes pains not to run counter to existing prejudices or to advocate any measure which can be justly censured, to secure any legislation reasonably necessary for the general improvement of the militia.

Now that the money which is appropriated by the Government is to be expended exclusively for the benefit of the active and uniformed militia, and that the amount thus to be expended by the Treasury has been increased to nearly $300,000 or $400,000. the Association will readily obtain a hearing when it demands the enactment of such legislation as will ensure that the troops upon whom this amount is expended shall be so organized as to be effective, and that the present obsolete militia law shall be so amended as to produce that result. But we must repeat that this can only be accomplished by its being extremely careful not to interfere with existing prejudices, and particularly with the jealousy existing in the different States as to retaining control over their own militia, a feeling which Army circles do not fully appreciate, but which is very strong and leads many to assume that anything in the nature of a national militia law will result in turning the control of the State troops over to the Federal Government.

A PERMANENT NATIONAL GUARD COMMANDER.

FOR a number of years the project of changing the present system, under which a new Adjutant-General of New York is appointed by every incoming Governor, so as to make that office a permanent one, held by the incumbent during good behavior, has received much attention. Though this plan has never assumed tangible shape, it seems to be generally regarded with favor, and, if not openly discussed, it was certainly considered in conversation by the members of last year's National Guard Convention as a matter to be brought up for debate at the coming session. Since the convention of last year, however, Colonel Josiah Porter, 22d N. Y., has been appointed Adjutant General, and the then commander of the 4th Brigade, General W. H. Brownell, has entered a staff department. Both were leading spirits in the National Guard Convention, and much in favor of the plan. This, and the changes in the organization of the Guard, has somewhat altered the condition of things. It still remains true, however, that the management of the Guard should be untrammelled by politics, and that there should be a system for its government purely military, firm but progressive. No doubt, every Adjutant-General so far has done his best in this direction, but the term of office is too short to fully develop a new idea or thoroughly test any new plan. Proper efficiency can only be attained by a competent commander placed above any consideration except a thorough performance of his duty on a technical basis. The principles controlling the administration of the Army never vary essentially because there is a permanent immediate commander and a permanent Adjutant-General. The office of the Adjutant General of the Army is by no means similar to that of a State Adjutant-General, who combines in his person the offices of Secretary of War and Adjutant-General. To make such an office permanent is not practical or probable because it would interfere with the well-established prerogative under which a Governor selects his own staff. We must, therefore, look in a different direction for improvements. Some authority which does not everlastingly change must be placed between the troops and the State administration. The suggestion that the four brigadier-generals are permanent and answer the purpose, is not tenable because four different persons represent four different minds and four different systems, whereas efficiency can only be produced by uniformity, and the pursuit of a steady, unswerving principle.

Considering all this nothing remains except the appointment of a thoroughly competent officer with suitable rank to the immediate command of the whole force, who holds his office during life or good behavior, or while his capacity lasts. Such an appointment will doubtless tend to insure uniformity, harmony, progress, justice, and promptness, and prevent the perpetuation of obsolete ideas and mismanagement on account of political influence, and thus increase the efficiency of the Guard in every particular.

The outcome of the whole is the appointment of a permanent Major-General to the command of the entire State force. It is a timely and popular plan among the best elements of the Guard.

MR. STEELE AND THE MILITIA.

To the Editor of the Army and Navy Journal:

IN your issue of last week you published the text of the "Sewell bill" for an increased appropriation for the militia. The provisions of the bill are all right, but the appended remarks of Mr. Steele are all wrong, and it is painful indeed to hear a member of Congress—who, to say the least, should be endowed with ordinary intelligence—display such ignorance. Mr. Steele, although voting for the bill, remarked that "the militia might go on a 'bender' and allow tents to be put away in a wet condition and become rotten and worthless, and take no care of the ordnance stores." Members of the National Guard and militia, and, doubtlessly the general public, would very much like to know when and where such a wholesale damage to arms and equipments occurred. Doubtless experience has made the average Congressman an expert on the subject of "benders," but he should not judge others by himself. As a reformatory measure I suggest that Mr. Steele join a good militia company, where he will be the subject of reformatory influences which it is evident that he very much needs. Perhaps he might not be able to gain admission to the militia, but in case he should be so fortunate and were sent to the State camp as a high private, he would not miss his "eye opener." Reveille would bring it to him, but without spice, and not quite as tasty perhaps as he is accustomed to, but still exhilarating and lively. His "night cap" he would promptly receive at taps; this also not of usual flavor, but still very beneficial. Let Mr. Steele try a full week of solid work in the New York State Camp next year, and I will warrant he will get all the *bend* taken out of him, and if he didn't improve in his temper and come home with a very exalted idea of the temperance and high efficiency of the militia—he would indeed be case-hardened.

GROWLER.

Seventh New York.—Col. Emmons Clark.

In Regimental Orders No. 26, Colonel Clark says:

1. The value and importance of the Volunteer Artillery Corps, as instructed and commanded by Lieut. J. E. Schermerhorn, in case of serious disturbance of the public peace, can hardly be overestimated; and it is desirable that the practical knowledge of artillery should be extended to members of all the companies of this regiment. For this purpose the Artillery Corps will be enlarged and made representative, and will hereafter be composed of one non-commissioned officer and three privates from each company. Those volunteering for the service will be expected to drill on Saturday evening of each week during the drill season, in addition to their regular company and regimental duty, until they are proficient in the manual of the howitzer, the Gatling gun and the field piece. Application for admission to the Artillery Corps will be made to Company Commandants, by whom the details will be made. Lieut. Schermerhorn will continue to command this corps, and Lieuts. Young and Bouker are hereby detailed as additional officers of the corps.

2. The resignation of Capt. Wm. C. Casey has been accepted, and he has been honorably discharged. Capt. Casey enlisted in Co. H, Oct. 4th, 1861, and was mustered into the U. S. service with the Regiment in May, 1862, and in June, 1863. He was elected 1st Sergt., March 9th, 1863: 2d Lieut., Jan. 11th, 1864; 1st Lieut., Aug. 10th, 1868, and Captain Co. I, April 23d, 1873. He ranks among the most distinguished officers that this regiment has ever produced, and his superiority as a military instructor and as a company commandant has long been universally acknowledged. The Colonel greatly regrets the loss to this regiment of so loyal and valuable an officer, and Capt. Casey retires from the service with the respect and affection of his comrades of Co. I, and of the officers and members of this regiment. Capt. Casey completed twenty-five years in the ranks of the 7th Regiment on the 4th day of October, 1886, and wears the diamond Cross of Honor in recognition of his long and faithful service.

The resignation of 1st Lieut. George A. Jones has been accepted, and he has been honorably discharged, after completing twenty years of faithful and valuable service in this regiment.

1st Sergt. Daniel A. Nesbitt, has been commissioned 1st Lieutenant, Co. B (rank Nov. 18th, 1886), vice Jones.

The following names having passed the Board of Examination, have been granted warrants as non-commissioned officers: 1st Sergeants—Robert McLean, H. M. Nesbitt; Sergeants—G. D. Cook, J. E. Schuyler; Corporals—J. A. B. Stillings, H. C. Lima, A. H. Walton, A. B. Rich, F. W. Janssen, C. P. Gately, W. D. Leonard, F. W. Budd, W. M. Ballard, Geo. Lucas, C. S. Clark, J. H. Townsend, G. E. Moore.

SHALL THE EIGHTH N. Y. HAVE AN ARMORY?

MANY officers of the National Guard were on hand on Tuesday when the Sinking Fund Commission discussed armories for the 22d and 8th N. Y. Regts. Among them were Brig.-Gen. Fitzgerald, Cols. Scott, Clark, Camp and Post. The plans of Col. George B. Post as architect of the 22d Regiment Armory, to be built in Ninth ave., between Sixty-sixth and Sixty-seventh sts., were agreed to, provided that the building shall not cost more than $300,000.

As to the 8th Regiment Armory the Armory Board agreed that the building, which is also intended to accommodate the 2d Battery, should not cost over $330,000. An interview with Insp.-Gen. Shaefer, published in the *Tribune*, was read; it sets forth that because of the depletion of the regiment he had recommended its disbandment. Gen. Fitzgerald said that this would be no argument against building the armory. No regiment deserved better treatment than the 8th, which occupied unfit quarters over a stable. He believed that, when the armory was completed, the regiment would enter it with full ranks. Col. Scott made a strong appeal for the armory, and declared that he had received assurances that the regiment would not be disbanded. The matter was referred to the Corporation Counsel.

OPPOSED TO THE MILITIA.

AT a meeting of the Central Labor Union in Clarendon Hall, New York, the following resolutions offered by John McMackin were unanimously adopted:

Resolved, That the Central Labor Union enters its most emphatic protest against the appropriation of a large sum of money by the general government to the several states for maintaining and arming their militia for the sole purpose of crushing out organized labor.

Resolved, That we regard such action as the first step in the formation of a standing army, which is a menace to republican institutions, and we shall watch with extreme solicitude the action of your Representative in Congress on this proposed step toward centralization of the military powers of the several States in the hands of the federal government; and be it further

Resolved, That the Central Labor Union call a mass meeting to protest against this infamous measure, and call upon our brothers throughout the country to do likewise, and to forward those protests to Washington.

The secretary was directed to write other Central Labor Unions on the matter.

MILITIA ITEMS.

The trophy presented in 1883 by Col. Robert Lenox Belknap, formerl A. A. General of the "old" 1st Brigade for competition by the companies of that command, has been turned over to Brigadier General Louis Fitzgerald, and the competition is now open to every company in New York City. Formerly only the four regiments comprising the command of Brig. Gen. Ward were eligible for competition. The conditions under which it is won are as follows: It is awarded annually, until won three times by the same company, when it shall become the property of such company. The basis of the award to be the highest figure of merit obtained by adding together the percentage of increase in strength as shown by comparison of the quarterly returns of Dec. 31, 1886, with the quarterly returns of Dec. 31, 1887, and the percentage of attendance for the year ending Dec. 31, 1887. Co. B, 22d Regiment, Capt. W. V. King, now holds the trophy.

The preparation for the 22d Regiment athletic games, which take place at the armory Jan. 22, are progressing smoothly and favorably, and to judge from the general interest which is apparently taken in the matter, they will form quite an event. The programme is as follows: 1st—50 yards run, open, handicap; 2d—440 yards run, open, handicap; 3d—880 yards run, open, handicap; 4th—1 mile run, open, handicap; 5th—2 mile run, open, handicap; 6th—1 mile walk, champion of N. G.; 7th—1½ mile walk, open, handicap; 8th—Potatoe race, open to the 22d Regiment; 9th

—Obstacle race, open, scratch; 10th—Tug of war, open, N. G. Co.'s Teams only, 1 sub. 4 men, 600 lbs. Orders will be given to first and second. Fifteen to first and five to second. Entrance for each event, 50c.; tug of war, $2. Entries close with the secretary, I. B. Conover, Jr., 525 Lexington avenue, Jan. 15, 1887. Rules of the N. A. A. A. A. govern all contests. The right to reject any entries is reserved. Dancing after the games. Music by Gilmore's Band. Admission, 50c.

Capt. G. T. Lorigan, Co. A, 9th New York, compliments his company "on the most flattering and complimentary report made of it by the Inspector General at the last annual inspection, and hopes that by renewed exertions the next report will be even better." The company certainly deserved all the praise it received. The closing drill of the year was held on Thursday, Dec. 30—too late for a full report in this week's JOURNAL. After the drill the company gathered around the festive board in a Christmas party, and, with song and story, passed a few social hours, pledging themselves to renewed efforts for the company's future prosperity.

There is a rumor that Col. Wm. Seward, Jr., of the Ninth New York, intends to resign shortly. We cannot vouch for its truth, however, and have to leave its verification to time.

The discharges of Capt. Gustav Menzel, 2d Lieut. Eugene Gallert, and Captain John Pain, of the 11th Regt., have been received.

Sergt. Ely, of the 22d Regt., has been elected 2d lieutenant of Co. C, of the 9th Regt.

Captain-elect N. B. Thurston and 2d Lieut. Wm. D. Hawes, Co. E, 22d Regt., passed very creditable examinations on Monday, Dec. 27.

Commissions have been received for 1st Lieut. D. A. Nesbitt, Co. B, 7th; 2d Lieut. W. N. Bavier, Co. B, 22d Regt.; D. N. Pratt, Quartermaster, 9th Regt., and 2d Lieut. C. B. Stone, of the 71st Regt.

The entertainment of Co. K, 12th Regt, Capt. John F. Boylan, on Jan. 3 last, creates much interest in the regiment and among its friends and the affair promises to be well attended. It is one purely for enjoyment and no drill is connected therewith. This new departure of separating business from pleasure, although so far not popular in the Guard, yet meets with the approbation of many practical military men.

The organization of an Artillery Service in the 7th Regt. meets with much enthusiasm. Plans have not yet been completed, but there is no doubt but that the project will become a reality on a very efficient and substantial basis. The best way would be to establish the corps separately, independent of company connection. It would thus not only afford a means of absorbing the excess of the material which constantly flocks to the colors of the regiment and give an opportunity to those whose tastes and inclinations are in favor of the artillery arm, but also increase the esprit of the new organization. The question as to whether to arm it with Gatlings or Hotchkiss revolving cannons is not yet decided. If either of these can be had it would increase the efficiency of the corps to adopt both, one for the destruction of the mob proper and the other to batter down its barricades.

Judge Barrett rendered a decision granting the application of Col. Emmons Clark, of the 7th Regiment for a mandamus to compel the Commissioner of Public Works to credit $3,000 worth of necessary repairs to be done to the armory building at Lexington Avenue and 67th Street.

The Ninth N. Y. have appointed a committee consisting of five active and five ex-officers and five veterans to consider the plan of having a monument erected to the regiment on the battlefield of Gettysburg. Application will be made to the State authorities for the necessary funds, after the pattern of other States, which have provided monuments of this kind to the memory of their troops. No mark of any kind indicates the presence of the Ninth at that famous and bloody field, and yet it performed most gallant and meritorious deeds there. The State will hardly refuse the appropriation asked. It can certainly not be expended in a more worthy manner.

When the Sinking Fund Commission appropriated $300,000 for the armory of the 22d N. Y., the subject of an armory for the 8th was also under consideration and a similar appropriation would have been made for that regiment, had not somebody made a useless and unnecessary objection on account of the foolish and groundless rumors about its disbandment. Still, the question was raised as to whether, in case of a disbandment, the city would be entitled to assign its quarters to another organization and as no legal mind was present to solve the question on the spot, it had to be referred to the Corporation Counsel for his opinion, which was received the following day and was to the effect that there was no objection to the city using the building for any purpose. Meanwhile information was received from Albany that there is no intention of disbanding the regiment and, therefore, favorable action may be expected at the next session of the Sinking Fund Commission. Doubtless by the time we go to press the matter will have been satisfactorily settled to all concerned.

In General Orders 69 of Dec. 27, Col. Cavanagh, commanding 69th Regt., publishes regulations for practical and theoretical instruction, commencing Jan. 10, 1887. The programme is a thorough one and if closely followed will be of much benefit to the regiment.

A meeting of officers of the 1st Brigade, of the Pennsylvania Guard, to consider the act of Assembly furthering the interests of the National Guard, was held Dec. 28, with Col. T. E. Wiedersheim, 1st Regt., as chairman. After discussing the proposition of Col. Bonnaffon that the sum of $500 shall be given each year to all companies in the three brigades, it was determined to appoint committees to perform appropriate duties in the convention.

Col. F. E. Gaylor has fixed the date for the presentation of marksman's badges as Jan. 6 next. Maj.-Gen. E. Fox has consented to distribute the decorations on the occasion. The regiment has not turned out in a body for a long time and the affair causes much enthusiasm.

Joy has at last struck the hearts of the gallant 22d New York. The passage by the Sinking Fund Commission on Tuesday, Dec. 28, of an appropriation of $300,000 for a new armory has removed all doubts about the matter, and the destiny of the regiment, which was uncertain, has now taken a tangible and substantial shape. The plans of the armory are completed, the ground is in readiness, and there is nothing in the way of beginning work without delay as soon as the usual formalities attending such matters are gone through with. Now that the affair is settled, there ought to be nothing in the way of the regiment recruiting up to the full standard. The plans for the armory are not only prepared on highly military principles, but they combine practicability with convenience, and when the building is completed it will stand as a model among its kind. When we consider the advance the Twelfth has made since its new armory became a reality, the Twenty-second should now hesitate no longer in taking a position among the largest as well as the most efficient organizations. In the latter respect it leads already. It only lacks in numbers.

The Old Guard will give their customary annual reception at the Metropolitan Opera House, New York City, on the evening of Tuesday, Jan. 27, 1887. The committee is Gens. Woodward and King, Capts. Reed, Faris, Henriques, and Naylor; Lieuts. Whitfield and Sloan; Messrs. Gurney, Paye, Todd, Murray, Hamel, Murray Martine and Torrey.

The Massachusetts camp last year was so well attended that Adjt.-Gen. Dalton has asked for increased appropriations for pay, transportation, Q. M. stores, etc., amounting altogether to an excess of $9,000 over last year's appropriations.

At the session in the case of Major Ackerman, of the 13th N. Y., on Tuesday, Dec. 28, the defence produced Privates G. W. Cowen, Henry K. McDowell, W. T. Lane, and Quartermaster Sergeant E. S. Haagerson, who testified in substance that Major Ackerman did raise his hands and made efforts to stop the hissing and cheering at the Fackner election, and that he said: "Gracious, this must close, you will oblige me by doing so." Col. Lamb conducted the defence alone, the senior counsel, Mr. Wernberg, being absent on account of an injury received on a car during the recent strike. The session was not interesting, and the testimony was not very material. The court adjourned until Jan. 4, when the two last witnesses, Capt. Morle and accused will take the stand.

Co. A, 22d regt., gives an entertainment at the Lexington Avenue Opera House, Wednesday, Jan. 26. The "Pirates of Penzance" will be performed to Gilmore's music.

THE NATIONAL DRILL.

THE committee of citizens of Washington, D. C., appointed to arrange for the national drill and encampment to be held at the capital from May 23 to May 30, 1887, have prepared their list of prizes. They amount to $26,500. The following are the most important inducements offered:

Prize for the best regiment of infantry, judged by inspection and review:—A stand of United States colors, with gold, silver and bronze medals for the officers.

Battalion of not less than four companies, judged by inspection and drill in manual of arms and the school of the battalion:—Prizes of $3,000 and $1,500 in cash.

Company judged by inspection and drill:—Prizes of $5,000, $2,500, $1,500, $1,000 and $500.

Best company of cavalry, judged by inspection and drill in the school of the troop, mounted:—Prizes of $2,000 and $1,500.

Light artillery, best platoon, in school of the battery:—$1,500 and $750.

Machine guns:—A silver trophy and prizes of $750 and $500.

In addition to these, there will be prizes for Zouave companies, Cadet corps, and individual soldiers. There will also be competitive rifle practice.

(From the Grand Rapids Telegram-Herald.)

MICHIGAN STATE TROOPS.

IN view of the criticism of the State troops by Gen. Pennington, and comments by Insp.-Gen. Kidd and others, a reporter asked Gen. I. C. Smith if he had anything to say on the subject. The General, whose views are very seldom expressed through the press, replied as follows:

"As there has been so much said about the last encampment of State troops, a few words from me would not be out of place. As regards Gen. Pennington's criticisms, they are just and to the point. His recommendations are not all feasible. Some time before the last encampment I officialy posted the command wherein they would fail to receive the commendation of Gen. Pennington unless they were instructed in guard duty, impressing upon them the respect due to officers, also in regard to discipline, and in fact nearly if not quite all the points criticized. Every encampment brings many new men, particularly when held but once in two years. An encampment where there are but three days for drill, one day for inspection, and one day for review and sham battle is a very short time to fully instruct a command."

"How about the daily brigade drill?" asked the reporter.

"The daily brigade drill is criticized, but there is no part of the work so important. It makes the officers think quickly, teaches them to place their command in a certain position by the shortest route and always secures the advantage of a battalion drill."

"Some oppose the sham battle; what is your idea?"

"The sham battle is important in this: it familiarizes the command with receiving and executing orders under fire. An officer of whom there are many—that can't control their men in a sham battle, would not be of much service in a real action."

"What do you think of Pennington and Kidd's recommendations to camp the regiments separately?"

"Camping the regiments separately is not feasible. The field officers are elected and promoted by a vote of the line officers, a pernicious law. They should be appointed by the Governor after examination by a board, as the most meritorious and capable are not always selected, and to encamp a regiment by itself without competent field officers who are well instructed and good disciplinarians, would be time and money wasted for the State."

"What is your judgment of the troops generally?"

"I have been connected with the National Guard almost continually since the war, and during the war I was in the Inspector General's Department in the Army of the Potomac, District of East Tennessee, Departments of the Ohio and Cumberland. I inspected many regiments of infantry, cavalry, heavy artillery and batteries, and believe I know whereof I speak when I say that the State troops have done well considering the opportunities they have enjoyed; that they are a very fine-appearing body of men; that we have regiments that drill better than I ever saw a regiment drill during the war. On review they will compare favorably with the best of the National Guards, and in brigade drill they will show up with any troops in the United States National Guards or Regulars."

NEW JERSEY.

THE following, adopted by the State Military Board and approved by the Governor and Commander-in-Chief, are published for the information and guidance of the National Guard of New Jersey:

Requisition for uniforms shall be made by Regimental or Battalion Commandants, through the regular channels, and shall state for what company they are intended, and the articles comprising the uniform required, to enable the Quartermaster-General to charge the cost price of the uniforms so furnished by him. Uniforms shall be issued to the Regimental or Battalion Quartermaster upon invoice and receipt, and shall be turned over by him to the enlisted men for whom the uniforms were drawn, upon regular vouchers. After the issue to the enlisted men, the uniform becomes by law the property of the Regimental or Battalion Board. Parts of uniforms may be obtained through the Quartermaster-General Department, upon the payment of the cost price of such articles thereof as may be required.

The uniform for all standard bearers and buglers shall be the regulation uniform for infantry, with the exception that the facings and trimmings shall be yellow, and a yellow horse hair plume be worn with the helmet.

The Yorktown Medal, being a badge given by the State for honorable service, is included among the badges heretofore prescribed, and may be worn by members of the National Guard entitled to the same.

CONNECTICUT NATIONAL GUARD.

THE Governor's Foot Guard will give the 115th annual reception to the Governor of the State at Allyn Hall, Hartford, on the evening of Jan. 6, 1887. We acknowledge the courtesy of an invitation and tender our best wishes for the success of the occasion.

CALIFORNIA NATIONAL GUARD.

A PETITION is being actively circulated requesting the incoming Governor to reappoint Gen. W. H. Dimond to the command of the 2d Brigade. The petition is receiving the signatures of nearly every line and field officer, and, as there are no other prominent candidates, it is thought that the petitioners will be successful.

On Saturday evening last the National Guard Officers' Association gave a dinner to the retiring Commander-in-Chief, Governor Stoneman, at the Occidental Hotel. Col. W. R. Shafter, 1st U. S. Infantry, who was present, responded for "The Regular Army."

The *Alta California*, referring to the resignation of Major-General Walter Turnbull as commander of the National Guard of California, says: "There is little or no discussion in military circles about a successor. The duties of the place have never been more than merely nominal, except when the entire Guard of the State encamped at Santa Cruz, and a disposition prevails among the general and field officers that the position might be legislated out of existence 'without manifest injury to the service."

NEW HAMPSHIRE.

THE field and staff of the 3d Infantry give a reception and ball at White's Opera House, Concord, on the evening of January 6, 1887. Colonel, commanding, J. N. Patterson is chairman of the committee. We return thanks for an invitation.

THE MONTGOMERY GRAYS.

THE Montgomery Grays will give their 13th annual ball at their armory Jan. 28, 1887. The company is composed of 108 officers and men, and 16 musicians, all well uniformed and equipped, and is well instructed in company, bayonet, and skirmish drill. They have won in prize drills in the last two years $11,000, one stand of colors, and Captain, two gold medals, and Lieutenants, honorable mention. The company is also fairly drilled in battalion movements, being Co. A, 2d Regt., A. S. T.

(Vienna Despatch to the London Times.)

NEW REPEATING RIFLE.

HERR JOSEPH SCHULHOF, the inventor of a new repeating rifle which was tried recently at Enfield, leaves for England for some final experiments with his rifle, which he believes may be adopted by the British Government. The rifle was introduced to the notice of Mr. W. H. Smith and Lord Randolph Churchill while they were in Vienna, and Herr Schulhoff was subsequently invited to go to England. The experiments at Enfield were judged to be most satisfactory, but some modifications were suggested in the calibre of the cartridge, and these have now been effected. I saw the rifle tried this morning, and to an unprofessional eye it certainly looks as if it could not be excelled for simplicity and effectiveness. Without describing its mechanism, it may be said that it combines the two requisites essential for such weapons, for it can be used as an ordinary rifle as well as a repeater. The receptacle for the repeating action, holds ten cartridges, which can be poured in with one turn of the hand from a cardboard case. The loading of the repeater can be done in four movements—the fourth being the turn of a lever which stops the repeating action. The loading for the single-shot firing is done in three movements, and the action for reloading throws out the empty cartridge case. Single shots are fired by a trigger, while the repeating action is worked by a knob handle. All the mechanism of the breech can be taken to pieces without the use of a screw driver. The cartridges, which are shaped like small claret bottles, are of 7½ millimetres diameter, instead of 11 millimetres, as in the Martini-Henry. The weight of 130 of them equals that of 70 of the Martini-Henry cartridges, which is the charge usually carried by a soldier. The rifle is to cost 60f., which is about 15s. less than the Martini-Henry. The use of the cardboard cartridge boxes is to be noticed, for in the Mannlicher system metal boxes are used, and if these get bent or dented, as they are liable to do, the cartridges may stick in them at the moment for loading. This is impossible with the Schulhof boxes, which are opened by simply tearing off a piece of paper. Moreover, the Mannlicher boxes only hold five cartridges instead of ten.

(Special Cable Despatch to the Star.)

PREPARING TO FIGHT.

LONDON, Dec. 26.

IN an interview on the foreign situation, an admiral of the fleet stated to-night that war in the spring, if not sooner, is certain. England will probably be involved. The chances are in favor of hostilities breaking out in one quarter or another as early as the beginning of March. If the preparations of the hostile powers were sufficiently advanced, troops would be in motion before the middle of February. None of the powers, however, consider themselves strong enough to take the field either by land or sea until the back of the European winter is broken. The admiral, who reflects the best official opinion, stated that Russia is certainly resolved to seize Constantinople at any cost of lives and treasures. Turkey is powerless without European assistance. Russia, once firmly planted at Constantinople, no European power could dislodge her. She could block the entrance to the Black Sea and destroy the whole fabric of British commerce in that region. Eastern Roumelia, Bulgaria, Roumania, and the whole of European Turkey would be overrun by the Muscovites. Twenty-five millions of dollars worth of shipments annually between England and the Eastern seaboards alone would be cut off at a blow, to say nothing of the trade with the interior. Austria's outlet through the Danube would be closed.

FOREIGN ITEMS.

TRIALS by court martial are seriously increasing in the English army.

THE Danish Army is to be increased in 1887 twenty-five per cent. or 12,000 men.

A LONDON despatch credits an Austrian statesman with saying that the Czar of Russia is drunk nearly all the time, and being in a condition bordering on delirium tremens is liable to proclaim war against somebody any day in the week.

A PROJECT is under way, strongly supported in England and in the Colonies, to connect the present telegraph wire of the Canadian Pacific Railway by cable with the Sandwich Islands, Farming Island, the Fijis, and thence to North Cape, New Zealand, and Australia.

AN agreement has been arrived at with the Chinese by which Port Hamilton is ceded to them on the understanding that no other Power shall be allowed to hoist its flag there.

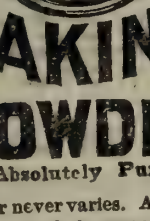
CASTELAR predicts that the three great Latin nations—France, Spain, and Italy—are soon to be more closely united, and that the friendly relations of former days are to return again.

THE *Deutsche Heeres-Zeitung*, under the title of "Solution of the Small-bore Question," gives some interesting details on experiments lately made at Carlsruhe on gunpowders of different kinds. Three powders specifically light were tried against the same number of specifically heavy, and the result is that one of the latter class gained the prize and is called, possibly after the maker's name, the Ronsahl gunpowder. Its adoption will necessitate some modification in the cartridge case. Brass is considered the best metal for the purpose. The whole is covered with grease as a protection against damp, and the cap receives a coating of gum-lac. The following are the weights of the components of the new cartridge:

	Grammes.
Case with cap	13.9
Charge of compressed powder	5.2
Ball	14.6
Grease	0.1
Total	33.8

The initial velocity of the ball is 591 metres.

ONE of the German Schichau torpedo boats sent to China has arrived there in a perfect state of efficiency. The full speed of the newest type of these boats is 23 knots an hour.



IN consequence of the reports which have been made to the Commander-in-Chief and the Secretary of State for War in reference to the combined naval and military operations at Milford Haven last August, a committee has been appointed in England to consider how best a unity of operations in the defence of military ports may be secured.

FIVE HUNDRED DOLLARS was distributed on Christmas among the ship's messes of H. M. S. *Agincourt*, from the savings of the canteen.

GEN. WILLOUGHBY, late R. N., and now in the service of Madagascar, has sent a note of warning to the French Government. He says no interference with the internal affairs of the island on the part of France will be permitted, and, if hostilities be recommenced, the conflict will be long, uncertain, costly and sanguinary.

THE *Admiralty Guzette* says: "The bursting of the 43-ton gun on board the *Collingwood* startled the country. But the 'Naval Annual,' recently issued by Lord Brassey, discloses the astounding fact that 'similar guns in the after barbette of the *Collingwood* have been since tested, and one of them burst when fired with a charge of powder of about two-thirds the weight of that used in the trials of the guns in the fore barbette.' This has been carefully kept quiet hitherto, and should unquestionably be investigated by the Ordnance Inquiry Commission."

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.
Assets, - - - - - - $17,846,546.65
Liabilities, - - - 15,238,761.16
Total Surplus, - $2,607,785.49
This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.
Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.
Pamphlets explanatory of the New Feature may be had on application at Compy's Office,
POST OFFICE SQUARE.

NEW YORK.

THE branch of the works of Messrs. Hawthorn, Leslie and Co., of Newcastle, at Spezia, has received from the Italian Government a contract for an ironclad, engines, etc., the cost of which will be about $900,000.

PRINCE ALEXANDER has authorized a denial of the statement that he used his position in Bulgaria to glean a fortune. He says he received only the money voted him by the Sobranje, and that he is now as poor as when elected to the Bulgarian throne.

ADMIRAL AUBE, French Minister of Marine, has been defeated in his efforts to materially strengthen the fleet. He asked for no less a sum than $40,000,000 for carrying out a scheme which would extend over a number of years. He gets $5,000,000 for one year's supplies.

THE *Journal des Débats* renews its attack on England, which it accuses of being the only Power whose conduct has aggravated the trouble which has culminated in the present crisis in Southeastern Europe, and declares that she has sought to embroil Austria and Russia in a dispute.

RECENTLY an Ordnance barge was sunk in the Thames while conveying a million cartridges to Gravesend for shipment to India. Fortunately they were of the new type, with solid drawn brass cases, so that they can be used when recovered, instead of being soaked to pieces as the Boxer cartridges would have been.

THE *Vossische Zeitung* says that lately there burst at Thionville, near Metz, an old shell, preserved from the year 1870, which killed a boy playing near. The authorities therefore made a search for any shells kept as memorials, and found more than a hundred. Their possessors are mostly unaware of the danger incurred in keeping these unexploded shells, gathered from the battlefields, so that it is a wonder more accidents have not occurred. All those found are to be carefully exploded by the military authorities. It seems that the shells turned up by the plow in great numbers in the soft soil of plowed fields of Mars la-Tour, Thionville, Gravelotte, St. Privat, and Noisville have through the influence of the damp lost all power of explosion. The peasants were at first afraid of touching them with the plow, but though heaps have been turned up no accident has ever occurred.

A GERMAN ironclad has sailed for Zanzibar, to punish the murderers of an explorer.

ADMIRAL AUBE, the French Minister of Marine, has named the first French gunboat of a new type after a man of letters—M. Gabriel-Charmes.

IN the trial of the cadets and officers of the Bulgarian Army for conspiracy against the Regency, now in progress, evidence has been adduced showing that the defendants had been in communication with the Russian Consul there.

FROM Berlin it is reported that Field-Marshal von Moltke will soon be relieved by Gen. Walderzee, and the Minister of War, Gen. Brousart, by Gen. Stielhe, formerly Chief of the Staff to the late Prince Frederick Charles, and now Chief of the German Engineers.

A DOSE IN TIME SAVES NINE of HALE'S HONEY OF HOREHOUND AND TAR for coughs.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

PHENOL SODIQUE, for all fresh cuts or wounds in either men or animals, as a dressing, is excellent, while for sores of any kind on horses, its healing qualities cannot be too highly recommended.—*Presbyterian Journal.*

The present demand for "Tansill's Punch" 5c. Cigar is greater than ever before.
There is no better time than the present for you to swear off smoking—all but "Tansill's Punch" America's finest 5c. Cigar.
Many imitate, but none equal "Tansill's Punch" 5c. Cigar.
Some smokers seem to forget that a poor cigar costs them exactly as much as a good one, then why not smoke only the best—"Tansill's Punch," America's finest 5c. Cigar.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES
Were selected as the best Material for the Roof of the

WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."
"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."
The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)
We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 24. WHOLE NUMBER 1220. | NEW YORK, SATURDAY, JANUARY 8, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS

Publication Office, 240 Broadway, N. Y.

SECRETARY WHITNEY, after several days' consultation with the Messrs. CRAMP AND SONS, and the Engineer-in-Chief of the Navy, has decided to accept the firm's bid and plans (of the machinery) for Gunboat No. 1, and in a few days the contract will be probably awarded them.

THE election of a President and Executive Council for the Military Service Institution of the U. S. for 1887-1888, will take place on Governor's Island, on Wednesday next, January 12, at noon. The Committee's nomination for President is Major-General J. M. SCHOFIELD, U. S. A., who takes a great interest in the Institution.

WE publish this week a War Department circular giving some useful information concerning the Army and Navy General Hospital, which is to be opened for the reception of patients on January 17. The circular shows how officers and enlisted men of the Army, both active and retired, may secure admission to the hospital and the classes of diseases for which relief may be expected from the use of the Hot Springs water.

COLONEL CHAS. E. BLUNT, Corps of Engineers, U. S. A., who will be retired for age on Monday next, January 10, has an excellent record of service dating from 1846, when he was graduated from the Military Academy, third in a class of which General MCCLELLAN was second. During the war he performed valuable and arduous service for which he brevets of lieutenant colonel and colonel. He attained his present grade of colonel June 30, 1882.

COMMANDER SCHLEY says he has high hopes of the passage by the House of the Senate bills now before the Naval Committee for the benefit of petty officers and seamen in the way of retirement, money deposit and other privileges. He has recently talked with members of the Naval Committees from whom he has assurances that every effort will be exerted to get the bills before the House at an early date and once up for consideration he has no doubt of final and favorable action.

A CORRESPONDENT "in the ranks" is troubled about the officers' new overcoat, which he says so muffles the wearer up as often to prevent recognition, consequently the tender of the regulation salute. Some officers, our correspondent remarks, don't mind this, but others do. Hence he thinks that in winter weather, when fur caps and long overcoats with hoods are in vogue, there should be some distinguishing mark, so that soldiers may know and properly recognize their officers when they meet them.

CHIEF NAVAL CONSTRUCTOR WILSON received a despatch from Mare Island on Wednesday, giving the result of a preliminary survey of the *Hartford*. She was found to require new boilers, a new crank shaft and about $60,000 repairs to her hull and spars. It is probable that she will be repaired, but the Department will take no steps in that direction until the report of the statutory Board of Survey, ordered on Thursday, has been received. The board consists of Captain Byron Wilson, Asst. Naval Constructor Jos. Feaster and the Master Workman of the Mare Island Navy-yard.

FROM various "Bills of Fare" for Christmas Day, which come to us from military posts, it is plain to see that the troops were regaled bountifully on that day and sat down to dinners which many a civilian would envy. The following is given as a sample: Oyster soup, turkey with cranberry sauce, beef, pork with apple sauce, beef a la mode, ham, ronions de beuf a la sante, green peas, green corn, stewed; tomatoes, stewed; Saratoga chips; potatoes, mashed; jelly cake, fruit cake, frosted; custard pie, mince pie, cranberry pie, cinnamon rolls, prunes, pickles and celery. Nor are the liquids forgotten, although the bills of fare fail to specify them.

GENERAL ORDERS No. 1, of this year, from the A. G. O., establishes some new regulations as to target practice which, we infer, will be generally acceptable to the troops. The "practice season" each year is hereafter to be for three instead of four months; medals won in competitions are not to be disposed of by the winners without due authority, but are to preserve them subject to inspection, and appropriate badges and specific prizes for distinguished marksmen. We might suggest, if the medals won are hereafter to be subject to inspection that instead of simply permitting them to be worn on all dress occasions, it be positively directed that they *shall* be so worn.

THE organization tables for the new Army Register have been sent down to the printer, and, with the exception of the index, which will take but a day or two's work, the book is completed as far as the War Department is concerned. Allowing for the usual delays at the printing office, the Department expects to have the Register passing through the mails not later than February 1. The actual number of commissioned officers on the active list, as shown by the register on January 1, is 2,157, being nineteen less than the authorized number. Of these vacancies seventeen are in the grade of 2d lieutenant and two in the list of chaplains. The casualty sheet will show 37 retirements from age and disability, and 54 deaths to have occurred during the year.

THE bill authorizing the Government to accept a tract of land near Chicago for a military site, which passed the Senate previous to the holidays, will be reported from the House Military Committee on Tuesday next, and General BRAGG expects to be able to have it passed by the House immediately. Some of the Chicago people are so confident that the bill will become a law that they are already urging the Appropriation Committee to provide means for the construction of barracks and quarters on the site. It is not likely, however, that anything beyond the acceptance of the land will be done this session. General SHERIDAN is deeply interested in the matter, and it is expected that he will have the plans and everything in readiness to present to Congress at the next session.

THE $6,000,000 fortification bill continues its peaceful slumber in the desk of Senator Dawes, where it was left by the conference committees in August last, notwithstanding the war of words that is going on on the outside to awaken Congressional interest on this all important subject. When the new conferees were appointed immediately after the assembling of the present session, it was presumed that they would come together at once, and that an agreement of some kind would have been reached ere this; but not a single meeting has yet been held, and, from the lack of interest some of the members display, there is no telling when they will assemble. Mr. Randall said the other day that he presumed a meeting would be held as soon as Representative Forney returned from his holiday vacation, but was not certain. Those who are acquainted with some of the conferees say that it matters little whether a meeting is held or not, as it is impossible for an agreement to be reached. It is pretty well understood that Mr. Randall will not budge an inch from the stand taken by him and his followers in the previous consideration of the bill. It remains to be seen whether he cannot be outvoted in the House. Those who wish to excuse Mr. Randall for the position he has taken say that he is not unwilling that a reasonable sum should be appropriated for sea coast defences, but that it is his opposition to the present Chief of Ordnance that leads him to antagonize all measures that would increase the amounts to be handled by that official.

THE Board on the revision of the Army Regulations, General Benét President, convened at the War Department on Monday, and immediately settled down to work. The labor of revision will necessarily be very long and tedious, but the Board has started in very ambitiously, and with the full purpose of completing the work at the earliest date possible. General Benét and Colonel Scott having other duties to perform, will not be able to devote the full quota of working hours each day to Board duty, but by spending a few hours in the morning in the Board room, the other two members, Colonel Otis and Lieutenant Davis, will be able to continue the work as mapped out by the full Board in the evenings. The work of making the changes which have occurred since the last edition of the Regulations will not be so difficult as that of obliterating much of the matter that they propose to leave out of the new edition. There are many of the provisions that are contained in other books of reference, but before striking them out the Board must first find out where else they are to be found. It is the Board's opinion now that the book can be reduced to at least half its present size, but they recognize that the work of "sifting" is not an easy one, and that they may have to change their calculations as they progress. It is thought that at least a year will be required to get all the manuscript in shape. An appropriation will then be needed for the printing, and several months will elapse before the work is ready for issue.

AS WE stated last week, "The Danish Government, it is reported, is about to increase their navy by 9 ironclads and 28 torpedo boats." The population of Denmark proper is about 2,000,000: the annual revenue of the government is not far from $14,000,000. Its most populous city, Copenhagen, with its suburbs contains less than 300,000 souls. The statement we quote shows that either Denmark or the United States is in the wrong, as the two nations are moving on diametrically opposite lines.

THE State Soldiers' Home, of Michigan, situated three miles from Grand Rapids, was formally dedicated December 30. Patriotic addresses were made by Governor Alger, Governor-elect Luce, ex-Governor Blair, affectionately remembered as "the War Governor;" ex-Senator Thomas W. Ferry, General Byron M. Cutcheon, and one or two others. General Logan had accepted an invitation to be present before he was attacked by his fatal illness.

PERSONAL ITEMS.

CHAPLAIN J. V. LEWIS, U. S. A., has left Fort Niobrara, Neb., on a month's leave.

CAPTAIN G. D. WALLACE, 7th U. S. Cavalry, recently in St. Paul, has gone to Sumter, S. C., on a visit.

LIEUTENANT D. L. BRAINARD, 2d U. S. Cavalry, left Washington early in the week for Fort Walla Walla.

LIEUTENANT W. H. MCMINN, 8th Infantry, has taken charge of recruiting matters at Fort Bridger, Wyoming.

LIEUTENANT E. S. FARROW, 21st Infantry, is East on leave from Fort Bridger, Wyo., and will remain until May next.

MAJOR G. W. CANDEE, Paymaster, U. S. A., returned to St. Louis, Mo., this week from a short leave of absence.

GENERAL O. B. WILLCOX, U. S. A., rejoined at Fort Leavenworth, Kas., early in the week from a ten days' absence.

CAPTAIN GEO. E. POND, U. S. A., of Fort Riley, has been visiting at Fort Leavenworth under orders from Gen. Willcox.

MRS. HANCOCK, widow of Maj.-Gen. Hancock, and her brother, Mr. Oliver D. Russell, are at present residing at Yonkers, N. Y.

SURGEON-GENERAL JOHN MOORE, U. S. A., has taken a permanent residence at 1,714 Rhode Island Avenue, Washington, D. C.

GENERAL N. A. MILES, U. S. A., has been spending a few days in New York City, making his headquarters at the Hotel Brunswick.

MRS. MITCHELL, widow of Gen. Wm. G. Mitchell, U. S. A., has been appointed to a position in the Signal Bureau at Washington.

LIEUTENANT J. M. CARSON, 5th U. S. Cavalry, left Fort Reno, I. T., for Washington this week on a two months' visit to his relatives in that city.

LIEUTENANT E. L. ZALINSKI, 5th U. S. Artillery, has an interesting article on "Submarine Navigation," in the January number of the *Forum*.

LIEUTENANT J. A. EMERY, 11th U. S. Infantry, who is spending the winter at Thomasville, Ga., has received a four months' extension of his sick leave.

LIEUTENANT C. R. EDWARDS, 23d U. S. Infantry, rejoined at Fort Porter, N. Y., early in the week, from a New Year's visit to relatives at Cleveland, Ohio.

COLONEL J. M. BACON, 7th U. S. Cavalry, called to Louisville recently by the death of Mrs. Bacon, will return to Fort Totten, Dakota, towards the end of January.

CAPTAIN STEPHEN W. GROESBECK, U. S. A., Judge Advocate on the staff of Gen. Ruger, returns to St. Paul next week from a three weeks' visit Eastward.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery, and Mrs. Johnson, return to Fort Columbus, N. Y. H., the latter part of this week from a short trip South.

LIEUTENANT C. P. TERRETT, 8th U. S. Infantry, lately at David's Island, N. Y. H., was to leave New York, this week, to join his company at Fort Bridger, Wyo.

MAJOR J. W. WHAM, Paymaster, U. S. A., returned to New York, early in the week, from Washington, whither he went to attend the funeral of his old Commander, General Logan.

NUMEROUS officers on leave for the holidays, rejoined at Forts Monroe and Leavenworth, early in the week, and took up their school labors with a zest enhanced by a brief vacation.

CAPTAIN GEO. A. ARMES, U. S. Army, retired, is to take charge of the Military and Naval Academy, at Oxford, Md., but does not relinquish the real estate business in Washington as stated in some papers.

THE marriage of Marshal MacMahon's daughter to the Marquis Helvin, took place at Paris, Dec. 30. Prince Murat was present on behalf of ex-Empress Eugenie, and Princess Mathilde signed the marriage contract.

LIEUTENANT J. T. THOMPSON, 2d U. S. Artillery, who is spending a short leave with relatives at Newport, Kentucky, acted as one of the judges at a recent prize drill at the armory of Battery B, at Cincinnati.

LIEUTENANT J. B. RODMAN, 20th U. S. Infantry, who lately joined at Columbus Barracks, O., has gone to Albany to take charge of the recruiting rendezvous there left vacant by the death of Lieut. W. J. Campbell, 22d U. S. Infantry.

COLONEL FREDERICK GRANT has a small aquarelle painting in a gilt framing, representing a group of Indians, and showing evidence of artistic skill and training. "It is one of a series painted by my father," said Colonel Grant to a reporter.

THE engagement of Miss Kate Huntington Morgan, daughter of the Rev. Dr. William F. Morgan, Rector of St. Thomas's Church, New York City, to Capt. Henry Granville Sharpe, Subsistence Department, U. S. A., is announced. Capt. Sharpe has charge of subsistence matters at West Point and is an exceedingly popular officer.

THE Army friends of ex-Secretary Lincoln says he would not accept General Logan's seat in the Senate if it were tendered to him unanimously. They say the senior partner of Mr. Lincoln's law firm in Chicago, Mr. Isham, has gone to Europe to recruit his health; that the entire management of affairs is in Mr. Lincoln's hands, and that even if he were willing to make the pecuniary sacrifice to again re-enter politics he would not do so, knowing that such action would seriously embarrass Mr. Isham. For this reason, they allege, Mr. Lincoln is out of the race unconditionally, no matter what the papers may say.

CAPTAIN E. W. WARD, U. S. Army, retired, is spending the winter at Lincolnton, N. C.

MAJOR T. H. STANTON, Paymaster, U. S. A., after a pleasant visit to Omaha has returned to Salt Lake City.

CAPTAIN J. P. STORY, 4th U. S. Artillery, left Fort Warren, Mass., early in the week on a short leave of absence.

LIEUTENANT J. C. W. BROOKS, 4th U. S. Artillery, has returned to Fort Monroe, Va., from a visit to New York City.

CAPTAIN J. H. CALEF, 2d U. S. Artillery, is spending a few weeks' leave from Fort Monroe, Va., at Gloucester, Mass.

SURGEON J. H. JANEWAY, U. S. A., returned to Governor's Island, on Saturday last, from a brief visit to Philadelphia.

LIEUTENANT A. L. WAGNER, 6th U. S. Infantry, rejoined at Fort Leavenworth a few days ago, from a short visit to Pittsburg.

LIEUTENANT C. P. STIVERS, 9th Infantry, who has been visiting at Dayton, Ohio, has received a two months' extension of his leave.

CAPTAIN A. E. WOODSON, 5th U. S. Cavalry, who has been visiting at St. Louis, Mo., has received a four months' extension of his sick leave.

CAPTAIN D. C. KINGMAN, Corps of Engineers, U. S. A., was to return to New Orleans, this week, from a brief trip to Omaha for his family.

CAPTAIN L. A. MATILE, 11th U. S. Infantry, is in Washington, on leave, from Fort A. Lincoln, D. T., and will remain East seven or eight weeks.

GENERAL J. M. ROBERTSON, U. S. A., visited old friends in New York City early in the week, who were very glad to see the distinguished veteran.

GENERAL LUCIUS FAIRCHILD, of Wisconsin, Commander-in-Chief of the G. A. R., is regarded by some as a fair to middling dark horse in the contest before the next Republican National Convention.

CAPTAIN W. I. REED and Lieut. G. W. McIver, 7th Infantry, of Camp Pilot Butte, Wyo., were called to Fort Omaha last week to give testimony before a General Court-martial in session at that post.

CAPTAIN W. W. ROGERS, 9th U. S. Infantry, who has been for some time past at Colorado Springs, Colo., for the benefit of his health, will try a few months abroad with the hope of further benefit.

"DONAHOE'S MAGAZINE" for January contains an article by Jefferson Davis on "The Irish Element in the Southern Confederacy," of which General Pat. Cleburne was one of the most conspicuous types.

CAPTAIN JOHN MULLAN, formerly of the 2d U. S. Artillery, and the discoverer of Mullan's Pass, through which the Northern Pacific crosses the backbone of the Rockies, is in Washington for the winter.

FRANK LESLIE'S *Illustrated Newspaper*, for Jan. 1, contains excellent portraits of Surgeon-General Moore and Brigadier-General O. B. Willcox, with sketches by Mr. Frank Smyth, the Washington correspondent of that paper.

ADJUTANT-GENERAL DRUM, U. S. A., was mustered in December 30 as a member of Kit Carson Post No. 2, Washington, D. C. There was a notable gathering on the occasion and after the ceremony Comrade Drum was the recipient of a hearty fraternal greeting.

GENERAL W. A. HAMMOND, U. S. Army, retired, a few months ago married Miss Esther D. Chapin, of Providence, and the lady has just fallen heir to an income on between $300,000 and $400,000. The bequest comes to her by the death of her second cousin, Maj. Daniel Lyman.

MR. JAMES BEALE read an interesting paper on "The Gettysburg Campaign" before the United Service Club of Philadelphia on Wednesday evening of this week. On Wednesday evening next Capt. John H. Weeks will read a paper on "Humphrey's Division at Fredericksburg."

THE death of Col. Julius McAllister, Ordnance Corps, U. S. A., promotes Lieut.-Col. James M. Whittemore to the vacancy, Major F. H. Parker to Lieut.-Colonel, Capt. J. A. Kress to Major, and 1st Lieut. O. B. Mitcham to Captain and leave a vacancy for a 1st Lieutenant.

LIEUT. CHAS. PINCKNEY ELLIOTT, 4th U. S. Cav., was married at Fort Bowie, Ariz., Dec. 20, to Miss Hortense Darling, daughter of Col. Eugene B. Beaumont, Major 4th U. S. Cavalry. By an imperfect date in the letter of an Arizona correspondent received a few weeks ago, we were made to report the marriage as having occurred Dec. 1, and have, therefore, to apologize for the premature announcement. The married couple have left Arizona on their wedding tour.

THE ex-Empress Eugenie was seen lately at Chiselhurst by "Olive Harper," who thus writes: "Her beauty had much faded, but it had taken on a womanly softness born of suffering, and to me, at least, it would have been far more attractive than any youthful charm she had then lost. Her hair was still abundant, her eyes and lips still lovely, and that nameless grace and incomparable attraction was still hers. The beauty of intelligence like hers never fades."

CAPTAIN F. V. GREENE, Corps of Engineers, U. S. Army, who resigned from the Army Dec. 31, will probably continue to reside in Washington, says the *Critic*. While he was assistant to the Engineer Commissioner of the District, in charge of surface work, he attracted the attention of the paving firm of A. L. Barber and Co., and on being relieved obtained leave for a year, most of which he spent in examining the pavements of the great cities of this and European countries. The results of his observations were such as to materially improve the methods as well as the business of the Asphalt Company, and he resigns to accept a position with that company at a salary of $10,000 per annum, in addition to his expenses. During his leave he visited every city in Europe and Great Britain in which there are used any variety of pavement where asphalt is used.

CAPTAIN A. BARNITZ, U. S. Army, and family, of Cleveland, O., have gone to El Paso, Texas, on a visit.

LIEUTENANT E. P. PENDLETON, 23d U. S. Inf., left Fort Wayne, Mich., on Monday, to return early next week.

MAJOR C. A. WIKOFF, U. S. A., will remain East on leave for several weeks longer. His last address was Easton, Pa.

MAJOR J. A. SMITH, Corps of Engineers, U. S. A., recommends the removal of "Pull-and-be-Damned-Point," Portsmouth, N. H., harbor.

LIEUTENANT JOHN A. JOHNSTON, 8th U. S. Cavalry, who has been spending a few months at Lowell, Mass., will shortly rejoin his regiment.

GENERAL S. V. BENÉT, U. S. A., came on to New York on Thursday to attend the funeral of Colonel Julian McAllister, Ordnance Corps, U. S. A.

CAPTAIN O'MALLEY, British Army, who distinguished himself in the Egyptian campaign, arrived in San Francisco a few days ago on sick leave.

LIEUTENANT W. L. PITCHER, 8th Infantry, who has been on temporary recruiting duty at Albany, N. Y., was expected to return to David's Island, N. Y. H., this week.

A DUEL with swords is reported from the City of Mexico, the participants being Prince Augustin Iturbide, well-known in this country, and Senor Carcedo, both members of the Jockey Club. Carcedo was slightly wounded in the shoulder.

GENERAL D. F. BUTTERFIELD and Mrs. Butterfield, of New York, gave an "At Home" on Wednesday evening, at which were Gen. and Mrs. Sherman and Miss Sherman, Gen. D. E. Sickles, Rear Admiral Upshur and Mrs. Upshur, and many other distinguished guests.

A WASHINGTON gossip says: "Gen. Miles is a great favorite here, and there are those who allude to him as a probable Presidential candidate in the near future. He very sensibly, however, refuses to talk on political subjects, and will soon leave for his new headquarters."

COLONEL THOS. Y. FIELD, U. S. M. C., is still in Philadelphia on waiting orders, and it is understood will have charge of recruiting—that service being in a sadly chaotic state, and the Corps cumbered with unserviceable men. The veteran Colonel retires "on age" in '88.

MAJOR MERRITT BARBER, Adjutant-General on the staff of General Miles, is making rapid preparation for the transfer of the Headquarters Department of Arizona from Whipple Barracks to Los Angeles and hopes to have everything ready by the time General Miles arrives from the East, which will be in the course of a few weeks.

SPEAKING of the Cosmos Club and some of its members, the Washington correspondent of the New York *Tribune* says: "Dr. J. S. Billings, the president of the club, and editor of the great Index Catalogue of the Army Medical Library, a work of stupendous proportions, is a Titan, standing at least six feet two in his boots, with limbs and head to fit such a trunk."

CAPTAIN M. B. HUGHES, 9th U. S. Cavalry, was married Dec. 30, 1886, at the First Presbyterian Church, Brooklyn Heights, to Miss Katharine Yale Stevens, daughter of the late E. R. Stevens, of Saratoga. The Rev. Chas. C. Hall officiated. The bride is a sister of Lieut. Chas. J. Stevens, 9th Cavalry, of Capt. Hughes's troop. After the wedding tour the married couple will go to Fort Niobrara, Neb.

A STORY has recently appeared saying that prior to the convention of 1884 Mr. Blaine offered his personal support to Gen. Wm. T. Sherman for the Presidential nomination, and that the latter peremptorily declined to permit his name to be used in connection with the office. Gen. Sherman being asked as to the truth of the story very properly declined to discuss the matter, either to deny or to confirm the story. He would merely say that no one was authorized to say that he ever received or wrote such letters. If such letters were in existence, it would be time enough for them to be published when Mr. Blaine and himself had passed away.

"BYSTANDER" in the Philadelphia *News* says that Chambers McKibbin, who was a noted character in his day, is still living, up in the Cumberland Valley, in his 89th year. He was Quartermaster at Pittsburg, under President Jackson; Postmaster of the same city, under President Polk; Naval Officer in Philadelphia, under President Buchanan; and Assistant Treasurer of the United States in this city under President Johnson, and in his 78th year he was an active member of the State Senate. He had thirteen children, and of these four sons were in the Army at the same time, fighting for their country. Chambers, the youngest of the four, is now Captain of the 15th Infantry. General David B. McKibbin has been a soldier from boyhood, for he served in the Mexican War when only sixteen years of age. When but twenty-four years of age he was given a Second Lieutenancy in the Regular Army. He came out of the war as Major of Cavalry in the Regular Army, and he now occupies that position on the retired list.

IN accordance with the Act of Congress of Dec. 21, the President this week nominates William P. Chambliss, late Major 4th Cavalry, to be a Major on the retired list of the Army. This is regarded as an exceptionally meritorious case, and Army officers, as well as many others, will be glad to hear of his confirmation, and wish for him a long enjoyment of the emoluments accompanying his commission. Major Chambliss first entered the service of his country, when a mere youth, as an officer in the Tennessee Volunteers, and served throughout the Mexican War. He re-entered the Army as a Lieutenant of Cavalry in 1855 and served continuously until he resigned in 1867, sharing the dangers of the Peninsular campaign, during which, at the battle of Gaines's Mill, he was dangerously wounded, literally riddled with ball and left on the battlefield for ten days; when removed to the sick ward of Libby Prison he was placed on a cot on which had died the day before a Union officer sick with erysipelas, and was soon attacked with the same disease in all his wounds, escaping death by a miracle.

LIEUTENANT C. L. CORTHELL, 4th U. S. Art., left Fort Adams, R. I., on Tuesday on a short leave.

CAPTAIN J. H. HURST, 12th U. S. Inf., left Fort Niagara, N. Y., on Saturday last on a short leave.

ASSISTANT SURGEON L. C. TESSON, U. S. A., is visiting friends at 1201 St. Ange Avenue, St. Louis, Mo.

MAJOR C. H. WHIPPLE, Paymaster, U. S. A., of Fort Keogh, was a recent guest at the Merchant's Hotel, St. Paul.

CAPTAIN E. J. GARSTON, Royal Artillery, British Army, registered at the Hotel Brunswick, New York City, on Tuesday.

MAJOR E. S. EWING, U. S. Army, retired, of Pass Christian, Miss., is visiting in New Orleans, with quarters at the St. Charles Hotel.

LIEUTENANT J. M. CUNNINGHAM, 19th Inf., a relative by marriage of the late General Logan, has left Fort Clark, Texas, for the North.

LIEUTENANT H. L. HARRIS, 1st Art., for some time past on duty at the Presidio of San Francisco, joined his battery this week at Fort Mason, Cal.

LIEUTENANT-COLONEL D. R. CLENDENIN, 3d U. S. Cavalry, who is spending the winter in Florida, has received a three months' extension of leave.

COLONEL H. C. CORBIN, U. S. A., on a short leave from Chicago, visited in New York City this week, making his headquarters at the Hoffman House.

THE widow of the late Surgeon B. A. Clements, U. S. A., has received the sum of $8.000 from the Provident Life Insurance Company of New York City.

CAPTAIN D. C. KINGMAN, U. S. Engineers, left Omaha last Tuesday for his new station, New Orleans. His family is at present in the East, visiting relatives.

THE "feature" of Buffalo Bill's Wild West Show in New York is now a representation of the Custer fight, in which Cody dons a blonde wig and represents Custer.

LIEUT. W. F. ALMY, 5th Cav., was at Washington for a few days last week spending his leave from Fort Reno, Ind., Ty., with Rear Admiral Almy, at No. 1,019 Vermont avenue.

MR. ROBT. PAGE WALLER, brother of Lieut. L. W. T. Waller, U. S. Marine Corps, was married at Staunton, Va., Jan. 5, to Miss Virginia Pelham Stuart, daughter of Gen. J. E. B. Stuart.

MAJOR AMOS KIMBALL, U. S. A., has been called from Prescott to San Francisco in connection with arrangements for the transfer of Gen. Miles's headquarters from the former place to Los Angeles.

CAPTAIN W. F. HOFMAN, 9th U. S. Inf., under recent orders, changes base from Fort Wingate to San Diego Barracks, Cal. Capt. Matthew Markland, 1st Inf., then goes with his company from San Diego to Angel Island.

GOVERNOR STONEMAN, of California (late U. S. A.), has signalized his last days in office by a general clean up of most of the convicts whose pardons were recommended by the State Board of Prison Directors. During one week he pardoned six murderers, three burglars, one highway robber, one forger, and three embezzlers, among whom were several aggravated cases.

A REMARK once made by Gen. Grant hit off in a happy manner one of Gen. Logan's characteristics. "When Logan," said Grant, "comes here and wants twelve offices and I give him eleven out of the twelve he goes home mad and curses the Administration for not doing anything for him. Now, Simon Cameron is different. If he wants twelve offices and I give him one out of the twelve he goes home and swears he is running the Administration."

THE Gen. Butler who figured in the Colin Campbell trial is an old acquaintance of ours, says the Montreal *Gazette*, which adds: "He was here in 1870—then a captain—and took part in the Wolseley expedition to the Red River. He is the author of two rattling good books of travel in the Northwest, 'The Great Lone Land' and 'The Wild North Land.' He afterwards went into the Ashantee war and wrote that up. He has been with Lord Wolseley ever since, and his promotion to a generalship is doubtless well earned. When quite a vieux garcon he married Elizabeth Thompson, the artist, best known as the painter of 'The Roll Call.'"

THE correspondent of the New York *World* says: "At the funeral of Senator Logan Gen. Fairchild, of Wisconsin, wore the uniform of the Grand Army. He is the successor to Gen. Logan in the command of the Grand Army. This gentleman attracted some attention because he has been spoken of as a Presidential possibility. He has a handsome, hawk-nosed, clear-complexioned face. His color, however, shows the yellowing effect of advancing time. His sandy hair has become very thin. His slight side whiskers are entirely gray. The rest of his face is smooth shaven with the exception of a gray imperial which lies as close to his face as a sticking-plaster. This veteran officer has only one arm."

IN Washington on New Year's Day there was the usual reception at the White House. Gen. Sheridan repaired to the War Department, received his comrades of the Grand Army of the Republic as they marched over from paying respects at the White House, and then went home to receive with Mrs. Sheridan, who was assisted by the Misses Rucker (her sisters), Mrs. Col. Sheridan, Mrs. Brunt and Mrs. Kellogg, wives of members of the General's staff, and by Miss Tillman, Miss Jones, and Miss Gouverneur, the latter a great granddaughter of President Monroe. Admiral Porter kept open house, assisted by his daughters, Mrs. Lieut. Logan and Miss Lena Porter and, by Miss Barnes, daughter of the late Surgeon General. Secretary and Mrs. Endicott, with Mr. Endicott, Jr., and their daughter, held a large reception, assisted by Mrs. and Miss Sears, of Boston; Miss Dresser, of Newport, and Mrs. Lieut. Duvall. Secretary Whitney had a breakfast for gentlemen, lasting through the afternoon, Senator and Mrs. Sherman had with them Mrs. Gen. Miles, Miss Sherman, Mrs. Mahone, Mrs. Butterworth and the Misses Butterworth, Grosvenor, and Mahone.

HARPER'S WEEKLY, for January 1, devotes its first page to an excellent portrait of Captain Ericsson, now in his 84th year, and in robust health. An excellent biographical sketch accompanies the portrait.

THE following Mexican War claims were allowed by the Second Comptroller this week: Adam McWillie, Capt., Co. H, 2d Miss. Vols, $120; Charles Stewart, Pvt., Co. B, Fremont's Bat., Cal. Vol., $24; John W. Gibbons, 1st Lieut., Co. B, Mo. Inf., $90; Jeremiah M. Scarrett, 1st Lieut., Engr. Corps, $100; Joseph H. Bailey, Capt. and Asst. Surg., U. S. A., $37.50; Wm. W. Chapman, Capt. and A. Q. M., $150; John Gibson, Pvt., Co. A., 1st La. Vols., $21: Z. B. Tower, 1st Lieut., Corps of Engineers, $100; Lorenzo Sitgreaves, 1st Lieut., Corps Top. Engr., $100; James C. Weise, Corps of Voltigeurs, $27; Geo. Norman, Bvt. Lieut.-Col., 1st Art., $36; Cornelius Doty, Pvt., Co. A, 16th Inf., $21.

THE Vancouver *Independent* of Dec. 30 says:

Lieut. D. C. Pearson, R. Q. M., 2d Cav., has gone East to remain during his two months' leave....A. A. Surg. Geo. F. Wilson, Fort Yates, on leave, arrived in Portland in time for his Christmas dinner....Eugene Biondi, late lieutenant in the U. S. Revenue Marine Service, who resigned two years ago, is now vice consul for Sweden and Norway at Port Townsend, W. T.

THE Omaha *Excelsior* of Jan. 1 says:

Mr. Ned Butler, eldest son of Maj. Butler, 2d Inf., is spending the holidays with his parents. Mr. Butler is a practicing lawyer of Miles City....Lieut. Moffatt, 2d Inf., is undergoing medical treatment at the post hospital. He suffered from a severe attack of congestion of the brain while at Fort Niobrara, and is not yet entirely recovered. Lieut. Moffatt's wife and family are at Kansas City, Mo....Capt. H. C. Cock, 2d Inf., signalized his last Christmas as commanding officer of Co. E by giving his company an elaborate dinner....Misses Laurie and Alice Kinzie, daughters of Maj. David H. Kinzie, 5th Art., stopped on their way to Fort Douglas to visit their uncle, Lieut. John Kinzie, 2d Inf. Lt. Kinzie has been on the sick report since April last, on account of a severe dislocation of the hip.....Gen. and Mrs. Wheaton gave a large and brilliant afternoon dancing party Thursday from 2 until 6, at their elegant residence at Fort Omaha....At Gen. and Mrs. Wheaton's invitation on Christmas Eve a number of children and grown people assembled to witness old Santa Claus and to experience his generosity.

P. A. PAYMASTER S. R. COLHOUN, U. S. N., has joined at Norfolk, Va.

REAR ADMIRAL E. Y. MCCAULEY, U. S. N., has been visiting friends at Hammonton, N. J.

COMMODORE AND MRS. HARMONY have issued cards for Wednesdays during the month of January.

LIEUTENANT C. E. COLAHAN, U. S. N., and beautiful bride, spent the holidays in Philadelphia with relatives. The lieutenant is one of the professors at the Naval Academy.

LIEUTENANT J. C. FREMONT, U. S. N., and Lieut. W. H. Stayton, U. S. Marine Corps, registered a few days ago at the Palace Hotel, San Francisco, and Assistant Engineer I. N. Hollis, U. S. N., at the Occidental.

PAYMASTER JOHN R. CARMODY, U. S. Navy, who has been indisposed for several weeks is rapidly regaining his former health, and will probably again enter upon his duties as a member of the Concentration Board. His place is temporarily filled by Pay-Inspector Billings.

LIEUTENANT J. F. MEIGS, of the U. S. S. *Tennessee*, has been quite ill for some time, and considerable anxiety is been felt on account of the slowness of his convalescence. Lieut. Meigs will be remembered as having been for several months on duty at the Navy Department. It is hoped that his recovery is not far distant.

LIEUTENANT W. P. CLASON, U, S. N., serving on board the steel cruiser *Atlanta* at New York, gave his numerous friends in Annapolis a pleasant surprise by his sudden appearance there for the Christmas holiday season. During the tour of duty on the *Atlanta* of Lieut. Clason, Mrs. Clason and family will reside in Annapolis.

CAPTAIN E. E. POTTER, U. S. N., who lately assumed command of the League Island Navy-yard, met with a warm reception on his arrival in Philadelphia. He had taken rooms temporarily at the old time Washington Hotel and the burning of the Temple Theatre next door caused the family to beat a hasty retreat. Mr. Wm. Manning, commander's secretary, was of great service in saving the captain's valuable "traps," and now, no doubt, his appointment as U. S. Marshal is a certainty.

THE first Army and Navy german and assembly at the Rifles Armory, Washington, on Monday evening was a fashionable affair. Mrs. Goodloe, wife of Maj. H. Clay Goodloe and daughter of Senator Beck, received the guests and chaperoned the ball. Dr. Deane, U. S. N., led the german with Miss Lulu Lyons, his niece. Miss Lena Caldwell, of New York and Newport, who was reported recently to be about to take the novitiate's veil for a convent life, was present, and danced the german with Dr. Crawford, of the Navy.

THE attendance of Naval officers at the New Year's reception of President Cleveland was not as extensive as had been expected, or even on previous years. Many officers were not calling, so that, although never before have there been so many Navy men on duty in Washington, gold lace and cocked hats were not noticeably numerous throughout the city. This occasion was one of the first for many years on which the Admiral of the Navy failed to put in an appearance as the "senior officer present." So the duty of marshalling the line devolved upon Rear Admiral Jouett. The President showed a Spartan firmness in enduring the ordeal, and Mrs. Cleveland looked particularly lovely.

THE following officers registered at the Navy Department this week:—Commander C. M. Chester, Lieut. J. D. Adams, Ensign E. H. Tillman, Lieut. F. M. Wise, Lieut-Commander E. Longnecker, Naval Cadet B. M. Lombard, Lieut. L. C. Logan, Pay-Inspector A. J. Clark, Naval Constructor F. L. Fernald, Civil Engineer R. E. Peary, Lieut. P. Garst, Asst.-Engineer F. C. Bieg, Lieut. W. H. Schnetze, Commander C. F. Goodrich, Lieut. Commander R. B. Bradford, Asst. Paymaster S. L. Heap, Lieut. S. P. Comly, P. A. Engineer J. H. Perry, and Paymaster Edward Bellows.

CAPTAIN H. A. BARTLETT, U. S. Marine Corps, joined at Norfolk, Va., for duty on Tuesday.

LIEUTENANT HENN, British Navy, and Mrs. Henn, arrived at Jacksonville, Fla., Dec. 31, on a southern tour.

LIEUTENANT B. S. RICHARDS, U. S. N., arrived at Norfolk, Va., this week for duty on the receiving-ship *Franklin*.

ENGR.-IN-CHIEF C. H. LORING, U. S. N., made an inspection, a few days ago, of the work in progress on the *Trenton*, at Norfolk, Va.

PAY DIRECTOR RUFUS PARKS, U. S. N., assumed charge on Monday of the Consolidated Store Department at the Navy-yard at Norfolk, Va.

EVERYBODY will regret to hear of the serious nature of the illness of Mr. John Roach, who is suffering from cancer of the mouth, which threatens his life. He has been operated upon, but without success.

CAPTAIN GEORGE BROWN, U. S. N., spent New Year's with his family at Norfolk, Va., and afterwards returned to Washington to resume duty as president of the Reorganization Board at the Navy Department.

MRS. ROBERT G. PECK, wife of Lieut. Peck, U. S. N., is reported by the Vallejo *Chronicle* as convalescing from her recent serious illness at the Mare Island Navy-yard. Her sisters, the Misses Lockwood, of Washington, are with her to spend the winter.

COMMANDER JAMES D. GRAHAM, U. S. N., has been selected to command the *Alert*, now fitting for the China Station at the Mare Island Navy-yard. Commander Graham is well known in Washington, where he was born, and where he has resided for several years.

MEDICAL DIRECTOR T. J. TURNER, U. S. N., contributes to the *Sanitarian* for December his excellent "Report upon the Museum of Hygiene." In the same number we note an article by Major B. F. Pope, Surgeon, U. S. Army, upon the "Health of the U. S. Army for July, 1886."

THE friends of Lt. and Mrs. E. B. Barry, U. S. N., will be pained to learn of their sad affliction in the loss of their only son, an interesting boy of 10 years, who died shortly before New Year's of diphtheria. Lieut. Barry is now serving on the U. S. S. *Alliance*, of the South Atlantic, or Brazil, Station, and cannot learn of his bereavement for some time to come.

INASMUCH as Lieut. W. H. Emory is but three from the head of lieutenants, it is possible that he will be ordered to examination for promotion previous to his departure for the Pacific side in command of the *Thetis*. Without any accidental vacancies occurring on the list above the grade of lieutenant, Mr. Emory will be promoted to Lieutenant-Commander on September 4 next.

PASSED ASSISTANT ENGINEER JULIEN S. OGDEN, U. S. N., on duty at the Naval Academy, has been quite dangerously ill with typhoid fever. It is only within a short time that his chance for recovery has been regarded as at all favorable, but his medical attendants now feel assurance that he is convalescing. Mr. Ogden has many friends in the Service who will be pleased to learn that he is out of danger.

SOME time ago P. A. Paymaster L. A. Yorke, U. S. Navy, was examined by a board of pay officers, and it is understood he was found morally incapacitated. The Secretary withheld action on the case, and finally ordered the board to reconvene for the purpose of reviewing the examination. The board met Wednesday, and after repeating their former recommendation adjourned until Jan. 26, when they will meet to hear finally from the Secretary.

THE friends of the late Rear Admiral Beaumont, U. S. N., will be interested in knowing that his charming widow is living a quiet but busy life in the venerable burgh of Hagerstown, Md., where her three children are being educated immediately under their mother's eyes. Rear Admiral Beaumont was a brother of Major E. B. Beaumont, 4th Cav. Mrs. Beaumont was well known in Washington previous to her marriage as Fanny King, whose mother was a sister of Mrs. W. Plume Moran, wife of the well known Registrar of the Navy.

PASSED ASSISTANT ENGINEER RICHARD INCH, U. S. Navy, is an applicant for the vacant billet left by P. A. Engr. Taylor, who was detached from the Washington Ordnance Yard a short time since, but it is doubtful if Mr. Inch is successful. The Department of Steam Engineering is pretty nearly closed up at this yard, and it is likely that Chief Engineer McCartney will be the only Engineer officer left on duty there as soon as the spare plant, etc., shall have been transferred to other yards. Chief Engineer DeValin and P. A. Engineer Leitch are the only ones left in addition to Mr. McCartney.

GUNNER JOSEPH SWIFT, U. S. Navy, says a Vallejo despatch, attempted suicide in the ordnance building on Mare Island Dec. 23, by cutting his throat with an old razor. He was discovered by one of the laborers in time to summon medical attendance, and it is thought his life will be saved. He has been in the Navy twenty eight years, entering from the State of New York. The Vallejo *Chronicle* says: "If he should recover from his wounds he will be tried by court-martial and most likely will be dismissed from the service, as he had been drinking heavily before making the attempt at suicide."

ADMIRAL SIR EDWARD A. INGLEFIELD, British Navy, retired, registered at the Fifth Avenue Hotel, New York, early in the week. He was, a few years ago, commander-in-chief of the British Squadron on the North American and West Indian station. Previously he held the position of naval attaché of the British Legation at Washington, during the time of the settlement of the Alabama claims. The Admiral, who is an old Arctic voyager, was the first to discover, in his own yacht, the open sea beyond Smith's Sound a year previous to the visit of the American explorer, Dr. Kane. He has since commanded two other Arctic expeditions, and for these services was knighted. Admiral Inglefield and his party will remain at the Fifth Avenue Hotel for a few days and will then go to Washington, proceeding thence to Florida, where the Admiral has made a large purchase of land.

RECENT DEATHS.

COLONEL JULIAN MCALLISTER, Ordnance Corps, U. S. Army, died at Governor's Island, New York City, on Monday evening of this week, January 3 after a brief illness. His disease was septicœmia following cystitis. He leaves a widow and two daughters, who were with him when he died. Colonel McAllister was the senior of his grade in the Ordnance Corps and was an officer distinguished for long and meritorious service, and a genial and kindly gentleman, with hosts of friends in and out of the Army, and more especially upon the Pacific Coast. He was a native of New York and entered the Military Academy, July 1, 1843, was graduated July 1, 1847, and promoted 2d Lieutenant, 2d U. S. Artillery. He served in the Mexican War. In 1848 he was transferred to the Ordnance Corps, and was for four years stationed at the Watervliet Arsenal, West Troy. In 1852 he was transferred to the St. Louis Arsenal. In 1853 he was promoted to 1st Lieutenant, and was stationed at Fort Monroe. In 1857 he went to Richmond on foundry duty. He afterward removed to the Benicia Arsenal, near San Francisco. The outbreak of the war found him in command of this arsenal. During the war he served as Chief of Ordnance of the Department of the Pacific. He was promoted Captain, July, 1861, and was successively brevetted Major, Lieutenant-Colonel, and Colonel for faithful services, zeal, and ability. He was promoted Major, April 6, 1866; Lieutenant-Colonel, June 27, 1874, and Colonel, June 1, 1881. He remained at Benicia Arsenal for nineteen years, and in June last came East to take charge of the New York Arsenal on Governor's Island and be Pres't of the Ordnance Board. He was a classmate of Col. John Hamilton, 5th U. S. Art.; Generals O. B. Willcox, J. B. Fry, A. E. Burnside, H. G. Gibson, John Gibbon, R. B. Ayres, and W. W. Burns, Col. C. L. Best, 4th U. S. Art., and other distinguished officers. His death will be sincerely regretted by hosts of friends, for he and his family were extremely popular. He would have reached his 64th year, Oct. 29, 1887. The remains were taken to West Point for interment, on Thursday, from Governor's Island, where the funeral services took place. Major-General Schofield and staff, the entire garrison of Fort Columbus, and numerous friends were present, and everything was done to attest the respect in which the deceased officer was held.

—

CHIEF ENGINEER ROBERT DANBY, U. S. Navy, who died at his residence in Brooklyn, December 31, 1886, was a native of Delaware, and entered the Service in 1845, and attained the grade of Chief Engineer, June 26, 1856. He was retired from active service, August, 1882. One who knew him well says: "He had a varied experience and a knowledge of nearly every part of the world. Through all his experience in Mexico and on the Japan and China coasts he always maintained in the vessels of the old Navy the reputation of being one of the best officers of the Service. In the war he displayed a scientific capacity that marked his record as one of the cleverest men in the handling of the enormous labors of several departments, especially for the repairs of a great fleet. He was a gentleman of the most pleasant manners, and very popular." Six years ago Chief Engineer Danby was out driving and was thrown from his carriage, receiving severe injuries, from which he never really recovered. He lay for several days at that time between life and death. He leaves a family. The funeral took place on Tuesday. There was a large attendance on the part of old friends, Masons from Mariner's Lodge and the Orient Commandery, of which the deceased was long a member. A guard from the Marine Corps was detailed for the occasion, accompanied by the Navy, yard Band, under command of Capt. E. P. Meeker assisted by Lieuts. Gulick and Karmany.

—

COLONEL WILLIAM H. WOOD, U. S. Army, retired, died at Pass Christian, Miss., Jan. 1, 1887. He was a native of Massachusetts and entered the Military Academy from that State in 1841; was graduated in 1845, and promoted Brevet 2d Lieutenant of the 7th Infantry. He served with distinction in the Mexican War, being present at Cerro Gordo, Contreras, Churubusco, Chapultepec, etc., being then a 2d Lieutenant, 3d U. S. Infantry. After that war he served at many posts throughout the country, and when the Rebellion broke out had attained the rank of Captain. In May, 1861, he was promoted Major, 17th Infantry, and participated in the Manassas campaign as Assistant Inspector-General on the staff of Gen. McDowell. He was afterwards on duty as Assistant Provost Marshal-General of the Army of the Potomac and other responsible positions. In 1863 he was promoted Lieutenant-Colonel, 1st Infantry, and Feb. 22, 1869, Colonel, 17th Infantry, afterwards unassigned, and in 1870 transferred to the 11th Infantry. He was retired June 26, 1882, and then took up his residence at Pass Christian. Col. Wood was a thoroughly efficient officer and a kindly gentleman; and many of his old comrades in arms, yet alive, will sincerely mourn his death.

GENERAL WILLIAM WING LORING, formerly of the U. S. Army, then of the Confederate Army, and afterwards of the Egyptian Army, died at the St. Denis Hotel, New York City, Dec. 30, of pleuropneumonia, in the sixty-ninth year of his age. His career was an eventful one. Born in North Carolina, he became in early childhood a resident of Florida, and at the age of fourteen was in the ranks of the volunteers fighting Indians in the swamps and hummocks of that State. On reaching his majority he was elected a member of the State Assembly. On the breaking out of the Mexican War a regiment of mounted rifles was raised, in which he was commissioned a captain, promoted to major, and at the close of the conflict was brevetted lieutenant-colonel and colonel. He lost his left arm while leading his regiment into the Belen Gate of Mexico. During 1849, on the outbreak of the gold fever in California, Col. Loring was ordered to cross the continent with his regiment and take command of the Department of Oregon, which position he held until 1851. His march at that time, a distance of 2,500 miles, with a train of 600 mule teams, was considered the greatest military feat on record. In 1851 he was placed in command of the Rio Grande frontier, which he held for five years, having during that time several engagements with the Indians, which resulted in his obtaining the full commission of colonel in December, 1856. In 1858 Col. Loring marched his regiment to Utah Territory and took part, under the command of Gen. A. S. Johnston, in what was known as the "Mormon War." When the campaign closed he obtained leave to visit Europe and spent one year in studying the armies of the foreign Powers. On his return he was placed in command of the Department of New Mexico, but resigned the same year to take a commission in the Confederate Army. After the close of the war he was first appointed inspector-general of the Egyptian Army, and in 1870 was made commandant of Alexandria and given charge of the coast defences of Egypt. He was second in command of the army during the Abyssinian War, in 1875 and 1876, and was engaged in the two battles fought in the Valley of Gura. He was raised to the dignity of Fereek Pacha and was decorated with the orders of Osmaunyah and Medjideyah for his services. He returned home in 1879, and came to New York in 1880, where he wrote his book, "The Confederate Soldier in Egypt." At the time of his death he was engaged on a sketch of his own life. On Sunday funeral services took place at Grace Church, the pall bearers being Major-Gen. J. M. Schofield, U. S. A., Gen. C. M. Wilcox, Gen. R. Ingalls, U. S. A., Gen. Roger A. Pryor, Gen. Charles P. Stone, Gen. G. W. Smith, Gen. T. P. Dockery, Gen. John Newton, U. S. A., Gen. Martin T. McMahon, Col. Chaillé Long, Col. J. R. Ogden, Col. J. Hanson Thomas, J. L. Snead, Col. W. G. Tallaferro, Col. G. T. Ferris, and Col. J. R. Sadler. After the services the remains were placed temporarily in the Marble Cemetery, New York City, until it has been decided whether to inter the deceased soldier in the family plot at St. Augustine or at Gainesville, Fla.

THE sad news of the sudden death of Mrs. Heyl on the morning of Dec. 20, will be received with sorrow by her numerous friends, of whom she had many in Army and Navy circles. Mrs. Heyl was the wife of David S. Heyl, for many years Collector of the Port of Camden, and daughter of the late Charles Petit Heath, a courtly gentleman of the old-time Philadelphia type. She was the mother of Surgeon T. C. Heyl, U. S. Navy, Col. E. M. Heyl, Insp.-Gen., and Lieut. C. H. Heyl, 23d Inf., U. S. Army, and also of Mrs. W. J. Sewell, wife of Gen. Sewell, U. S. Senator from New Jersey. Her nature was endowed with all the qualities that combine to illustrate true womanly character. Instinctively generous, she was naturally charitable. Her pleasant, cordial manner wore always the same evenness of true hospitality, and in her impulses—always kind and good—she was untiring in her efforts to relieve those in need. Those who knew her as a friend loved her, those who knew her as a benefactor worshipped her, though in her good works she ever avoided publicity, and in bestowing charity she made it a pleasure to accept from her. She was public-spirited to the extent of patriotism, and her good acts during the late war will keep her memory bright as a friend to the soldier. In her household she was a loving and devoted mother, and her family were drawn to her by the strongest bond of love and affection. She died as she had lived, sweet, peacefully, a true Christian, a firm friend, and fond mother. The great loss sustained by the family is shared by her many loving friends, who bow with them in sorrow in this hour of their greatest bereavement.

GENERAL ALBERT GALLATIN LAWRENCE, a prominent citizen of New York and Newport, R. I., and a gallant officer during the war, died at the Everett House, New York City, Jan. 1. He entered the volunteer service as 1st Lieutenant of the 54th New York Infantry, Dec. 1, 1862, was captain of the 2d U. S. colored cavalry, and a member of Gens. Butler's and Ames's staffs. He did good service in several battles, but gained special renown when he led the assault at Fort Fisher, N. C., and was wounded five times while placing the flag on the rampart. On account of wounds, his left arm was amputated below the elbow. He received the thanks of the Rhode Island Legislature for his services and was brevetted through successive grades and became brevet Brigadier-General of Volunteers, March 25, 1865, and was mustered out Jan. 10, 1866. The funeral took place from St. Mark's Church, New York, on Tuesday afternoon. There was a large attendance, including a delegation from the Loyal Legion. The pallbearers were Gov. George P. Wetmore, of Rhode Island; Hubert C. Pell, Edward A. Crocker, General Henry E Davies, Col. H. Lockwood, A. A. Hayes, General M. T. McMahon, Capt. Morris, U. S. A., ex-Judge Gunning S Bedford and John C. Hecksher.

GENERAL GEO. W. PALMER, for many years a prominent citizen of New York, died at his residence, 317 East 124th street, New York City, Jan. 2, of chronic pneumonia. In 1861 he was assistant clerk in the U. S. Senate, and soon after Sumter was fired on assisted in the defence of the bridges leading from Virginia toward the National Capital. Soon afterward he received an appointment in the War Department, and for two years served in the Quartermaster-General's Office. Then he was appointed Captain and Provost Marshal of the 31st District of New York. In December, 1864, he became Gov. Fenton's military secretary, and in the spring following was appointed Commissary-General of Ordnance of the State of New York, with the rank of Brigadier-General. In 1868 he was also charged with the duties of Quartermaster-General of the State. Since the war he has held many responsible positions, and was an exceedingly popular gentleman.

MAJOR P. K. HORGAN, formerly of the 69th New York, and a brave soldier in the 88th New York Volunteers during the war, died a few days ago in San Francisco, where he recently went for the benefit of his health. He went out in 1861, and served through all the battles of the Peninsula; was severely wounded in the foot at the battle of Savage's Station, June 28, 1862, but refused to leave the field. His company was cut almost to pieces at the battle of Antietam, Sept. 17, 1862. He was again severely wounded in the hip at the battle of Fredericksburg, and was mentioned in orders by Major-Gen. Hancock for bravery at the latter battle.

FRED. J. KARCHER, well-known in the militia and G. A. R circles of Brooklyn, a soldier of the war, and for many years a faithful employee of the Quartermaster's Department, U. S. Army, in New York City, died Jan. 1, at his home in Brooklyn, of consumption. He had many friends in and out of the Army, who cherished him for his generous nature as well as his kindly eccentricities, and it can truthfully be said of him that he was "a good fellow all round." His funeral on Wednesday was attended by many of his fellow-clerks from the Army Building, New York.

GENERAL NICHOLSON SCHENCK DAVIS, who died at El Paso, Dec. 24, 1886, went to California in 1849, crossing Mexico under an escort of Mexican soldiers commanded by Lieut. Diaz, now President of the Republic. When the Civil War broke out he joined the California column under General Carleton as Captain of Company K, 1st California Volunteers, and for a short time was in command of Fort Bliss. He was mustered out in October, 1864.

EX-GOVERNOR GIBBS, known as the War Governor of Oregon, died in London, Dec. 30, at No. 104 Warwick street, Pimlico, where he has resided for the past two years, engaged in lecturing on temperance. He was a sufferer from bronchitis, and was found dead in bed. He was born in New York. His wife and family are at Portland, Oregon, where a cablegram has been sent.

MRS. RONCKENDORFF, wife of Commodore William Ronckendorff, U. S. Navy, retired, died in New York City, Jan. 1. The deceased was a daughter of the late Thomas McKean Pettit, of Philadelphia, to which city the remains were taken, the funeral services being held at 1106 Spruce street on Tuesday, January 4.

MR. WILLIAM WEBB, of Winchester, Mass., accompanied by his wife and mother-in-law, went to Norfolk, Va., a few weeks ago to spend Christmas with Surgeon Geo. A. Bright, U. S. N. While there Mr. Webb was taken ill and died of heart disease on Christmas evening.

THE only son of Lieut. E. B. Barry, U. S. N., a bright youth of nearly eleven, died at Annapolis, Md., Dec. 28, of diphtheria, after an illness of four days. Much sympathy is felt for the afflicted parents, who are almost heartbroken at their loss.

ORDNANCE SERGEANT JAMES MAXWELL, U. S. A., a gallant and faithful soldier, died at Delaware City, Del., Jan. 5. He enlisted in 1847, and was appointed Ordnance Sergeant, Jan. 31, 1865.

MRS. ROBERT H. FOLGER, mother of Commander William M. Folger, U. S. Navy, died at Massillon, Ohio, Dec. 24, 1886, aged seventy-three.

MRS. HEALY, wife of Mr. Frank Healy, and sister of Major C. W. Raymond, Corps of Engrs., U. S. A., died at Brooklyn, N. Y., Jan. 1.

MRS. MARY TATWALL CANBY, mother of Major J. P. Canby, Paymaster, U. S. Army, died at Wilmington, Del., Dec. 26, 1886.

MUTUAL RESERVE FUND LIFE ASSOCIATION.

THE New York *Journal of Commerce* describes the Mutual Reserve Fund Life Association as "the Napoleon of life insurance," saying of it, "With current yearly payments asserted to be less than half the cost of level premium insurance, a dividend equal to 33 1-3 per cent. on the first five annual payments has been deposited with the Central Trust Company for the benefit of the policyholders making these payments. During this time (1881 to 1886) the association has paid benefits amounting to nearly three millions of dollars in cash, and its monthly average of payments is $100,000. It has accumulated in its cash tontine reserve fund nearly one million, which is growing at the rate of nearly fifteen hundred dollars a day. The investment is in such secure shape that it cannot be squandered. The new business for 1886 exceeds fifty-five millions of dollars, and its total for the five years named two hundred and twenty-five millions. Other remarkable claims are advanced by the association, and the entire statement to which we refer challenges the interested attention of all concerned in life insurance."

MAYOR WOODBURY, of Burlington, Vt., recently called the attention of the Secretary of War to the neglected condition of the monument at Vicksburg, marking the spot where Pemberton surrendered to Grant. In reply to his letter the Secretary wrote that the monument originally erected to mark the site of the Grant-Pemberton interview was of marble; that it was removed to the Vicksburg National Cemetery to protect it from the ravages of relic hunters and replaced with the "gun monument," which, it was hoped, would withstand the attacks of this class. The Q. M. General suggests that the foundation wall and inclosure be removed and the gun reset, with the muzzle down, at such depth as will secure its stability, and he has approved his recommendation that the Quartermaster's Department be authorized to carry out his suggestion.

FIRST LIEUTENANT A. R. PAXTON, 15th Inf., who is at Leesburg, Va., on leave of absence, made two flying visits to Washington during the week.

THE ARMY

NOMINATIONS BY THE SENATE.

January 5, 1887.

2d Cavalry—2d Lieut. Frederick D. Holton to be 1st Lieut., Dec. 12, 1886, vice O'Brien, deceased.

4th Infantry—2d Lieut. Fred. S. Calhoun to be 1st Lieut., Dec. 3, 1886, vice Austin, deceased.

22d Infantry—2d Lieut. Robert N. Getty to be 1st Lieut., Dec. 17, 1886, vice Campbell, deceased.

19th Infantry—1st Lieut. Charles A. Vernou to be Capt., Dec. 18, 1886, vice Wharton, retired from active service.

2d Lieut. Edward B. Ives to be 1st Lieut., Dec. 18, 1886, vice Vernou, promoted.

Appointment by Transfer—2d Lieut. Charles N. Clinch, 24th Inf., to be 2d Lieut. 3d Cav., Jan. 4, 1887, with rank in cavalry arm from June 15, 1884. 2d Lieut. Wendell L. Simpson, 3d Cav., to be 2d Lieut. 24th Inf., Jan. 4, 1887, with rank in infantry arm from June 15, 1884.

Restoration—William P. Chambliss, late Major in the 4th Cavalry, to be Major of Cavalry, to rank as such from March 30, 1864.

Although it has not been officially announced, it is learned that all the Army nominations reported from the two Service committees previous to the holidays, were confirmed by the Senate on Wednesday. These include all the Navy cases and all the Army, except those in the Medical Corps below Gen. Moore, and the promotions sent to the Senate this week.

G. O. 94, H. Q. A., Dec. 29, 1886.

By direction of the Secretary of War, the following decision is published for the information of all concerned:

When enlisted men or others entitled to rations are not attached to any company or other organization, or are allowed to mess separately from their companies, they will not, when flour is issued to them by the Subsistence Department, be required to turn it into the post bakery if they prefer the ration of flour to the ration of bread issued by the bakery. Such portion of the flour issued to a company as its commander deems necessary for food in other forms than bread—not exceeding two ounces per ration—may be retained in company kitchen; the remainder shall be turned into the post bakery.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 95, H. Q. A., Dec. 30, 1886.

Publishes joint resolution, approved Dec. 20, 1886, directing copies of the official letter books of the executive department of the State of North Carolina to be furnished to said State.

Also the act of Congress, approved Dec. 20, 1886, for the relief of certain soldiers of the 12th Michigan Volunteer Infantry dishonorably discharged under S. O. 92, War Dept., A. G. O., dated March 1, 1866.

G. O. 96, H. Q. A., Dec. 30, 1886.

By direction of the Secretary of War, the designations of the forms on pages 9 and 11 of G. O. 68, c. s., from this office, are transposed, as follows:

The form on page 9 to be "Form No. 16—Amended—(A)," and that on page 11 to be "Form No. 16—Amended."

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 1, H. Q. A., Jan. 3, 1887.

With the approval of the Secretary of War, the following corrections to the "Instructions in Rifle and Carbine Firing" are hereby announced, to take effect this date:

Par. 6, in 3d and last lines, for "four months" substitute "three months."

Page 125, for the 11th line substitute "not be repeated more than twice on than day, more than three."

Par. 516, 6th line, for "two months" substitute "month."

Par. 598, for the last three lines substitute "be won in division or Army competitions or the competitions of distinguished marksmen may be worn on all dress occasions. The winners will not part with them without authority from the Commanding General of the Army, but will preserve them subject to inspection at any time."

Par. 605, 6th line, after "competition" add "and an appropriate badge will be issued him."

Par. 605, for the last word of next to last line and for last line substitute "a gold medal to be awarded to the competitor making the highest aggregate score and two silver medals to the competitors making the second and third aggregate scores."

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 3, H. Q. A., Jan. 6, 1887.

Publishes an act for the relief of William P. Chambliss.

Circular, WAR DEPARTMENT, A. G. O., Dec. 20, 1886.

In accordance with the provisions of G. O. 36, H. Q. A., A. G. O., Washington, Dist. of Columbia, June 4, 1886, the following information is published to the Army:

The Army and Navy General Hospital at Hot Springs, Arkansas, will be opened for the reception of patients Jan. 17, 1887.

Relief may reasonably be expected from the use of the Hot Springs water in the following classes of diseases, viz: Gout and rheumatism in their various forms, after the acute or inflammatory stage has passed: neuralgia, peripheral or central, especially when depending upon gout, rheumatism, specific infection, or metallic poisoning; paralysis, if not recent, progressive or organic; locomotor ataxia or tabes, if not in advanced stages, and especially if traceable to specific infection; Bright's disease of the kidneys, only in the early stages; diseases of the bladder and urinary organs; functional diseases of the liver; dyspepsia; chronic diarrhœa and catarrhal diseases generally; chronic skin diseases, especially of the squamous or scaly forms; chronic conditions, resulting immediately from specific infection, either syphilitic or malarial; chronic alcoholism.

In general terms it may be stated that the Hot Springs water acts by stimulating all secretions and organic functions, increasing appetite, promoting digestion and assimilation, favoring tissue change and excretion of waste products, relieving internal congestions and stimulating the blood making function.

In the following classes of diseases the use of the Hot Springs water is contra-indicated: All acute, inflammatory diseases; tuberculois; organic diseases of the heart and brain; aneurism; cancer; and all diseases in which stimulation of the circulation is to be avoided.

The Army and Navy General Hospital will afford bed accommodation for eighteen officers and sixty-four enlisted men; an increase of accommodation for officers, equal to about fifty per cent., may be gained by placing an additional bed in the larger rooms.

The hospital accommodation will be divided between applicants from the military and naval service and the Marine Corps.

Owing to the limited space assigned to officers, preference must be given to such applicants as may require actual hospital treatment; that is, treatment in room or bed.

Authority for admission to the Army and Navy General Hospital on the part of officers of the Army, both on the active and retired lists, will be obtained from the Adjutant General of the Army, on the usual form of application for sick leave of absence, based upon a surgeon's certificate, which shall set forth clearly the particular disability under which the applicant labors, and that, after a careful and rigid examination, it is his opinion that treatment in this hospital is necessary to prevent permanent disability.

The length of treatment in hospital will be determined by the surgeon in charge, and leaves of absence may be extended when necessary in the usual manner.

Enlisted men will be admitted for treatment on application of the company or post commander, made to the Adjutant General of the Army, in the usual manner, based upon certificate of a medical officer that treatment in this hospital is necessary to restore health. If approved, the soldier will receive the necessary orders to enable him to report to the surgeon in charge of the hospital; on the conclusion of treatment, the surgeon in charge will notify the Adjutant General of the soldier's condition, with such recommendation as he may deem necessary, and orders will be issued for his return to duty, or for such disposition as may be necessary. Enlisted men on the retired list will make their application, based on certificate, to the Adjutant General direct.

The Hot Springs are most conveniently reached from the north, east, and west, via St. Louis, by the St. Louis, Iron Mountain, and Southern Railroad, to Malvern Junction, and thence to Hot Springs by narrow gauge railway (25 miles).

For convenience and comfort in arriving at Hot Springs, patients are advised to take the train leaving St. Louis in the evening, arriving at their destination the following afternoon at about 3.30.

By order of the Secretary of War:
R. C. DRUM, Adjt.-Gen.

G. O. 59, DEPT. OF ARIZONA, Dec. 28, 1886.

In pursuance of G. O. 92, c. s., Headquarters of the Army, the Commanding General of the Department hereby assumes command of "all that portion of the Department of California lying south of the 35th parallel of north latitude," and of the troops stationed therein.

By command of Major General Howard:
M. BARBER, A. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Leave for ten days is granted Brig. Gen. O. B. Willcox (S. O. 148, Dec. 2, Dept. Mo.)

Judge Advocate General's Department.

Leave of absence for twenty days is granted Capt. Stephen W. Groesbeck, Acting Judge Advocate (S. O. 130, Dec. 20, D. Dakota).

Capt. Wm. E. Birkhimer, A. J. A., will proceed to Portland, Ore., on public business (S. O. 225, Dec. 24, D. Columbia).

Adjutant and Inspector Generals.

Leave for seven days is granted Major Henry C. Corbin, A. A. G., Chicago (S. O. 1, Jan. 3, Div. Mo.)

Quartermasters and Subsistence Departments.

Major Amos S. Kimball, Chief Q. M., will proceed via Los Angeles, Cal., to San Francisco, and report in person to the Div. Comdr. (S. O. 110, Dec. 27, Div. Pacific.)

Capt. Wm. S. Patten, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 225, Dec. 24, D. Columbia).

Pay Department.

Major Thaddeus H. Stanton, Paymr., will return to Salt Lake City (S. O. 170, Dec. 24, D. Platte).

The journey performed by Major G. F. Robinson, Paymr., from El Paso to Fort Selden, N. M., and return, Oct. 7, making payment to troops was necessary for the public service (S. O. 138, Dec. 20, D. Ariz.)

The troops will be paid to include muster of Dec. 31, as follows: At Fort Leavenworth, by Lieut. Col. W. A. Rucker, D. Paymr. Gen. At the Cav. Rec'g Depot and Ord. Powder Dept. at Jefferson Barracks, Forts Gibson, Sill and Reno, Camp Martin and Sac and Fox Agency, I. T., by Major G. W. Candee, Paymr. At Forts Supply, I. T., Elliott, Tex., Lyon, Crawford and Lewis, Colo., by Major Alexander Sharp, Paymr. At Forts Riley and Hays, Kas., by Major J. P. Baker, Paymr. (S. O. 152, Dec. 28, Dept. Mo.)

The leave granted Major Joseph W. Wham, paymaster, New York City, is extended one day (S. O. 1, Jan. 3, Div. Atlantic).

The troops will be paid to include muster of Dec. 31, as follows: Major G. E. Glenn, Paymr., at Whipple Barracks, Forts Mojave and Verde, A. T. Major F. M. Coxe, Paymr., at Forts Bowie, Huachuca, Lowell and McDowell, A. T. Major W. M. Maynadier, Paymr., at Forts Marcy, Wingate and Union, N. M. Major G. F. Robinson, Paymr., at Fort Bliss, Texas, Forts Bayard, Selden and Stanton, N. M. Major G. R. Smith, Paymr., at Forts Apache, Thomas and Grant, and San Carlos, A. T. (S. O. 141, Dec. 27, D. Arizona.)

Medical Department.

Upon his own request the contract of A. A. Surg. C. C. Goddard, Fort Leavenworth, is annulled, to take effect Jan. 1 (S. O. 152, Dec. 28, Dept. Mo.)

The leave of absence on account of sickness heretofore granted A. A. Surg. John M. Kollock, is extended one month on account of sickness (S. O., Jan. 5, H. Q. A.)

Engineers and Ordnance Departments.

The Board of Engr. officers app. by par. 1, S. O. 288, Dec. 13, 1886, H. Q. A., will examine, in addition to the officers named in said order, the following named officers of the C. of E., with a view to their promotion: 1st Lieut. Walter L. Fisk and 2d Lieut. Cassius E. Gillette (S. O., Jan. 5, H. Q. A.)

The resignation of Capt. Francis V. Greene, C. E., has been accepted by the President to take effect Dec. 31, 1886 (S. O., Dec. 31, H. Q. A.)

The funeral of the late Col. Julian McAllister, O. D., will take place from his late residence on Governor's Island at 10 A. M., Jan. 6. The entire garrison of Fort Columbus, under command of Captain Wallace F. Randolph, 5th Art., will escort the remains from the residence to the steamboat wharf, and all the officers of the staff, etc., will attend the funeral, during which the offices at headquarters will be closed (S. O. 3, Jan. 5, Div. Atlantic).

Capt. John G. Butler, O. D., will proceed from the National Armory, Springfield, Mass., to Hartford, Conn., for the purpose of inspecting revolvers now being made for the Ord. Department (S. O., Jan. 5, H. Q. A.)

The ordinary leave of absence, from Nov. 15, 1886, to Jan. 1, 1887, heretofore granted 1st Lieut. William Crozier, O. D., is changed to a sick leave, and is extended to April 1, 1887, on account of sickness (S. O., Jan. 5, H. Q. A.)

Chaplains.

Leave for one month is granted Post Chaplain John V. Lewis, Fort Niobrara, Neb. (S. O. 172, Dec. 30, D. Platte).

Signal Corps.

A G. C. M. will meet at St. Francis Barracks, St. Augustine, Fla., Jan. 7, for the trial of Sergeant W. W. Thomas, Signal Corps (S. O. 215, Dec. 30, Div. Atlantic).

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assinniboine, Mont.; M, Camp Sheridan, Wyo.

Leave for fourteen days is granted Capt. Moses Harris, Camp Sheridan, Wyo. (S. O. 132, Dec. 27, D. Dak.)

Leave for one month is granted 2d Lieut. Willard A. Holbrook, Fort Custer, M. T. (S. O. 132, Dec. 27, D. Dak.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Lieut.-Col. John Green will inspect subsistence stores at Boise Barracks, I. T., for which 2d Lieut. Frank B. Andrus, 4th Inf., A. C. S., is accountable (S. O. 224, Dec. 21, D. Columbia.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

The leave granted Lieut.-Col. David R. Clendenin is extended three months (S. O., Dec. 30, H. Q. A.)

Leave for six months on Surgeon's certificate, with permission to leave the Dept. of Texas, is granted Capt. James F. Simpson (S. O., Jan. 5, H. Q. A.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

2d Lieut. R. D. Walsh is relieved from special duty at San Carlos, and will proceed to Fort Huachuca and report for duty with his troop (S. O. 139, Dec. 21, D. Ariz.)

Thirty recruits will be forwarded to the 4th Cav. (S. O., Jan. 3, H. Q. A.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Leave for one month is granted Major E. V. Sumner (S. O. 153, Dec. 30, Dept. M.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Leave for one month is granted Major John M. Bacon, Fort Totten, D. T. (S. O. 132, Dec. 27, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Leave for twenty days is granted 1st Lieut. John A. Johnston in addition to the extension of sick leave granted him (S. O., Dec. 31, H. Q. A.)

The leave for one month granted 2d Lieut. Charles W. Farber is extended one month (S. O. 1, Jan. 3, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

1st Lieut. T. W. Jones is relieved from duty at Fort Apache, and will proceed to Fort Thomas and report for duty with his troop (S. O. 139, Dec. 21, D. Ariz.)

2d Lieut. Seward Mott will report to Capt. F. E. Pierce, 1st Inf., in charge of police control of White Mountain Indian Reservation at San Carlos, A. T., for special duty (S. O. 139, Dec. 21, D. Ariz.)

The operation of S. O. 139, relieving 1st Lieut. T. W. Jones from duty at Fort Apache and directing him to proceed to Fort Thomas, is suspended until further orders (S. O. 140, Dec. 23, D. Ariz.)

2d Lieut. H. S. Whipple is relieved from duty at Fort Verde, and will proceed to Fort McDowell and report for duty with his troop (S. O. 141, Dec. 27, D. Ariz.)

Leave for four months is granted 1st Lieut. W. H. Beck (S. O., Dec. 30, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.

* Light battery.

1st Lieut. Joseph S. Oyster is detailed member of the G. C.-M. at Benicia Barracks, Cal. (S. O. 126, Dec. 24, D. Cal.)

1st Lieut. James E. Runcie is relieved from temporary duty with Bat. M, and will join his proper battery (L) at the Presidio of San Francisco (S. O. 126, Dec. 24, D. Cal.)

1st Lieut. Henry L. Harris is relieved from temporary duty with Bat. I, and will join his proper battery (M) at Fort Mason, Cal. (S. O. 126, Dec. 24, D. Cal.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Roc Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

The leave granted Capt. John H. Calef, Fort Monroe, Va., is extended ten days (S. O. 2, Jan. 4, Div. A.

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

A guard of one non-commissioned officer and six privates of the 3d Artillery from Washington Barracks are doing temporary guard duty over the tomb at the Soldiers' Home, in which are deposited the remains of the late General John A. Logan.

1st Infantry, Colonel William R. Shafter.

Hdqrs. E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

Co. I is relieved from duty at San Diego Barracks, and will proceed to Angel Island, Cal., and take post (S. O. 110, Dec. 27, Div. P.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Capt. George W. H. Stouch, Fort Shaw, M. T., is detailed as Inspector of Indian supplies at the Blackfeet Agency, M. T., vice Capt. Edward Moale, relieved (S. O. 132, Dec. 27, D. Dak.)

Apollo D. Zanichelli, chief musician, will proceed to the Hdqrs. of the regiment, Fort Shaw, Mont. (S. O. 185, Dec. 28, R. S.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Upon adjournment, *sine die*, of the G. C.-M., 1st Lieut. Theodore E. True will proceed to Boise Barracks, I. T., and report for temporary duty as Post Quartermaster (S. O. 225, Dec. 24, D. Columbia.)

Leave for two months is granted 2d Lieut. Frank B. Andrus, with permission to apply for an extension of two months (S. O. 108, Dec. 14, Div. P.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

Sergt. Edward McIntyre, Co. F, Fort Totten, is transferred to Co. E, Fort Keogh (S. O. 132, Dec. 27, D. Dak.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

1st Lieut. William H. McMinn is detailed on Gen. Rec. Service at Fort Bridger, Wyo. (S. O. 170, Dec. 24, D. Platte.)

James Baker, formerly of Co. E, 8th U. S. Infantry (Savage's), who died at 169 East 127th street, New York City, Dec. 23, was a member in good standing of the Veteran Association of the Regular Army and Navy.

9th Infantry, Colonel John S. Mason.

Hdqrs., and F, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; H and I, Ft. Union, N. M.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., K, Ft. Verde, A. T.; C, Ft. Mojave, A. T.

Leave for twenty-five days is granted 2d Lieut. F. DeW. Ramsey (S. O. 139, Dec. 21, D. Ariz.)

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. George Palmer (S. O. 139, Dec. 21, D. Ariz.)

The operation of S. O. 137, changing station of Major Daingerfield Parker from Fort Wingate, N. M., to Whipple Barracks, A. T., is suspended until further orders (S. O. 140, Dec. 23, D. Ariz.)

Co. E is relieved from duty at Fort Wingate, N. M., and will proceed to San Diego Barracks, Cal. (S. O. 110, Dec. 27, Div. P.)

The leave on Surgeon's certificate granted Capt. William W. Rogers is extended six months on Surgeon's certificate, with permission to go beyond sea (S. O., Dec. 31, H. Q. A.)

The leave granted 2d Lieut. Charles P. Stivers is extended two months (S. O., Dec. 31, H. Q. A.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., F and H, Ft. Bliss, Tex.; B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

A furlough for four months is granted Sergt. Hugo Przykalla, Co. G (S. O. 1, Jan. 3, Div. M.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

2d Lieut. Charles W. Penrose, A. C. S. Fort Yates, will send, by express, to the nearest depository, all subsistence funds not required to meet the wants of the post (S. O. 132, Dec. 27, D. Dak.)

The leave granted Capt. Charles A. Wikoff is extended two months (S. O., Dec. 31, H. Q. A.)

In Regimental Orders 67, of Dec. 27, 1886, Lieut.-Col. E. G. Bush, commanding, announces the death of a former officer of the regiment, 1st Lieut. D. B. Taylor, U. S. A., retired (died at Paterson, N. J., Dec. 12, 1886), recounts his military services and career, and says: "For the past few years his health, owing to wounds and sickness, had been failing, and he was advised to try a residence in Florida, to recuperate, being on his way thither, when death overtook him at his brother's home in New Jersey. He was a true, loyal, honorable man, a good soldier, and his comrades in arms deeply mourn his loss."

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Leave for fifteen days, to take effect on or about Dec. 30, is granted 1st Lieut. J. B. Goe (S. O. 141, Dec. 27, D. Ariz.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

1st Sergt. John Draddy, Co. K, will proceed to Vancouver Barracks with a view to appointment as Reg. Q. M. Sergeant (S. O. 223, Dec. 20, D. Columbia.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

A furlough for six months, with permission to go beyond the sea, is granted Sergt. Max Reichenbach, Co. G (S. O. 1, Jan. 3, Div. M.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

Leave for one month is granted 2d Lieut. J. M. Cunningham, Fort Clark (S. O. 177, Dec. 27, D. Tex.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

1st Lieut. John B. Rodman is assigned to duty at Columbus Barracks, O. (S. O. 184, Dec. 24, R. S.)

1st Lieut. John B. Rodman is relieved from duty at Columbus Barracks, and will proceed to Albany and relieve 1st Lieut. William L. Pitcher, 8th Inf., in temporary charge of the recruiting rendezvous. Lieut. Pitcher will then proceed to David's Island, N. Y. H., and report for duty (S. O. 186, Dec. 29, R. S.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

1st Lieut. E. S. Farrow is relieved as recruiting officer at Fort Bridger, Wyo. (S. O. 170, Dec. 24, D. Platte.)

The leave for seven days granted 1st Lieut. Edward S. Farrow, Fort Bridger, and extended twenty-three days, is further extended one month, with permission to apply for an extension of two months (S. O. 1, Jan. 3, Div. M.)

A petition for a writ of habeas corpus was recently presented to the U. S. Circuit Court at San Francisco by Louis Rudolf Zimmerman, who claims that he is illegally restrained of his liberty by Col. Piper, commander of the Presidio. He states that he enlisted in the 21st Infantry in New Jersey in 1873, and in the following year, while in Oregon, deserted. Since then he has lived in San Francisco, and has accumulated some property. Two weeks ago he was arrested on a charge of desertion. He claims that he enlisted under age, without the consent of his parents, and was at the time not familiar with the English language. Another reason given by the petitioner why he should be discharged is that punishment for the offence is barred by the statute of limitations. Judge Sawyer set Jan. 17 as the day for hearing the petition, and Zimmerman was released on $5,000 bonds.

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Leave for four months is granted Capt. Mott Hooton, to take effect in January or February (S. O., Dec. 30, H. Q. A.)

Forty recruits will be forwarded to the 22d Inf. (S. O., Jan. 3, H. Q. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, January 1, 1887.

CASUALTY.

Captain Francis V. Greene, Corps of Engineers, resigned December 31, 1886.

Military Academy.

The resignation of Cadet Albert S. Johnson, 4th Class, is accepted by the Secretary of War (S. O., Jan. 5, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Benicia Barracks, Cal., Dec. 21. Detail: Lieut.-Col. Charles G. Bartlett and Capt. Robert G. Heiner, 1st Inf.; Capt. Charles K. Winne, Asst. Surg.; 1st Lieut. Charles G. Starr, 1st Inf.; 2d Lieut. Samuel D. Sturgis, Jr., 1st Art., and Capt. Daniel T. Callinan, 1st Inf., J.-A. (S. O. 124, Dec. 15, D. Cal.)

At Fort Ringgold, Tex., Jan. 6. Detail: Lieut.-Col. John K. Mizner, 8th Cav.; Capt. James H. Bradford, 19th Inf.; Capt. W. Fitzhugh Carter, Asst. Surg.; 1st Lieut. Samuel R. Whitall, 16th Inf.; 1st Lieut. Charles M. O'Connor, 8th Cav.; 1st Lieut. Walter A. Thurston, 16th Inf.; 2d Lieut. Stephen H. Elliott, 8th Cav., and 2d Lieut. Beaumont B. Buck, 16th Inf., J.-A. (S. O. 178, Dec. 28, D. Tex.)

At Fort Verde, A. T., Jan. 3. Detail: Major C. B. McLellan and Capt. T. A. Baldwin, 10th Cav.; Capt. Leonard Hay, 9th Inf.; 1st Lieut. E. A. Mearns, Asst. Surg.; 2d Lieut. C. R. Noyes, 9th Inf.; 2d Lieut. W. H. Smith, 10th Cav., and 1st Lieut. M. F. Eggleston, 10th Cav., J.-A. (S. O. 141, Dec. 27, D. Ariz.)

At Fort Trumbull, Conn., Jan. 7. Detail: Lieut.-Col. John Mendenhall, 4th Art.; Major William C. Spencer, Surg.; Capts. Harry C. Cushing and Eugene A. Bancroft, 1st Lieuts. Samuel R. Jones and William Everett, 4th Art., and 1st Lieut. C. D. Parkhurst, 4th Art., J.-A. (S. O. 3, Jan. 5, Div. A.)

At Little Rock Barracks, Ark., Jan. 10. Detail: Major Francis L. Guenther, Capts. Frank B. Hamilton and William McK. Dunn, Jr., 1st Lieuts. Asher C. Taylor, Louis V. Caziarc, and John H. Gifford, 2d Art., and 1st Lieut. George S. Grimes, 2d Art., J.-A. (S. O. 3, Jan. 5, Div. A.)

At Washington Barracks, D. C., Jan. 11, for the trial of 1st Lieut. Charles Humphreys, 3d U. S. Art. Detail: Col. Henry M. Black and Major Samuel Ovenshine, 23d Inf.; Capts. Edward C. Woodruff and Harry C. Egbert, 12th Inf.; Capts. George M. Randall and Joseph T. Haskell, 23d Inf.; Capt. Alex. B. MacGowan, 12th Inf.; Capt. Otis W. Pollock, 23d Inf.; Capts. John M. Norvell, Hugh G. Brown, and David J. Craigie, 12th Inf., and 1st Lieut. Millard F. Waltz, 12th Inf., J.-A. (S. O. 4, Jan. 6, Div. A.)

Army Boards.

A Board of Survey will convene at the San Francisco Subsistence Depot, Dec. 23, to fix the responsibility for the condition of certain subsistence stores for which Capt. Charles P. Eagan, C. S., is responsible. Detail: Capts. Charles A. Alligood and Gustavus A. Hull, M. S. K., and 1st Lieut. Clermont L. Best, Jr., R. Q. M., 1st Art. (S. O. 109, Dec. 20, Div. P.)

A Board of Officers, to consist of Asst. Surg. Curtis E. Munn and A. A. Surg. C. K. Merriam, Med. Dept., will assemble at Fort Cœur d'Alene, Dec. 27, to examine Private Carl Hagen, Troop L, 2d Cav. (2d class hospital steward), to ascertain his fitness for the position of hospital steward of the 1st class (S. O. 225, Dec. 24, D. Columbia.)

Retirements of Enlisted Men.

Sergt. John Crosland, Ord. Detachment, Dec. 31, 1886.
Sergt. George Uhri, Light Bat. F, 5th Art., Dec. 31, 1886.
Private William Halloran, Troop F, 6th Cav., Dec. 31, 1886.

Artillery School.—In G. O. 38, of 1886, Gen. Tidball, commandant, announces that the course of instruction for non-commissioned officers will commence Jan. 3, 1887, under Major A. C. M. Pennington, 4th Art., superintendent, and 2d Lieut. Adelbert Cronkhite, as instructor. All non-commissioned officers will attend who have not completed the course. In G. O. 39 the hours for sounding the daily trumpet signals during January are announced.

DEPARTMENT NEWS.

Dept. of the Platte—Brig. Gen. George Crook.

A Roster of Troops dated Dec. 27, 1886, reaches us this week and contains the customary precise information of military doings in the Platte.

The Salt Lake *Herald* reports a gentleman in from Prince River as saying that the Indians near Fort Du Chesne take it as a personal indignity that colored troops have been sent to that post, and say that as soon as the snow falls deep enough they will clear out the whole gang.

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

An El Paso despatch of Dec. 30, to the *Globe-Democrat*, referring to the recent transfer of the Headquarters 10th U. S. Infantry from Fort Union to Fort Bliss, says: "News has just been received at El Paso that Gen. O. O. Howard has, during Gen. Miles's absence in the East, ordered headquarters back to Fort Union. This news has created unbounded indignation among the people of El Paso. A meeting of the citizens will be held on Friday to protest against the removal. Appropriate remonstrances will be despatched to the War Department and the Texas Senators and Representatives in Congress. Nobody can imagine what induced Gen. Howard to issue the order, as there is no earthly excuse for it."

Division of the Atlantic.—Maj.-Gen. Schofield.

The steam tug *James Bowen*, temporarily employed as ferry steamer between Governor's Island and New York City, collided with the South Ferry boat *Atlantic*, in the fog, on Saturday morning, Jan. 1. There were but few on board of either steamer, and no serious injury was incurred. The *Bowen* sustained damages to the extent of about $2,500.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

Gen. Miles has directed that the Board to purchase cavalry horses reconvene at Fort McDowell Jan. 27, at Fort Verde Feb. 20, and at Whipple Barracks April 1, to continue its duties.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Jan. 5, 1886.

NEW YEAR'S DAY was ushered into existence in this section with a very pleasant cadet hop the night before in the mess hall, which lasted until half-past twelve. About an hour before the end of the hop a pouring rain set in, and froze as it fell, making walking dangerous and difficult.

About half of the officers made the customary New Year's calls. Only seven houses were "open," the others having baskets hanging at the door. Mrs. Michie was assisted by Mrs. Augur, Mrs. Simpson, Mrs. Gordon, Miss Schofield, Miss Bonesteel and Miss Cooper; Mrs. Mercur, by Miss Lathrop, Miss Carrington and Miss Fanning; Mrs. Winthrop, by her aunt, Mrs. Green. Mrs. Larned, Sr. and Jr., were alone. Mrs. Metcalfe, by her daughter. Mrs. Ellis had as aids in doing the honors, Mrs Williams, Miss Johnson, Miss Bouvier and two Misses Woodcock. Mrs. Goethals was assisted by her sister-in-law, Mrs. Rodman, and by Miss Griffith. Mrs. Stephen Roe came up from New York, and kept open house at her country place. She brought with her Lieut. C. F. Roe, his wife and two children, and the Misses Tolley.

Cadet Zavala, the son of Nicaragua's President, has resigned. It is understood that he is going to enter Cornell. He has been here two and a half years, and was a member of the Third Class. Since the beginning of the Academic year nine cadets have resigned, one been granted sick leave and one dismissed. This leaves the classes as follows: First, 64; Second, 51; Third, 62; Fourth, 122. What they will number two weeks hence depends upon the examinations and going on.

The toboggan slide is now in complete running order, and has become the Mecca for the sightseers. Every afternoon a crowd is present to see the sport. The slide is 170 feet long and, after leaving it, the run is about 500 feet further out on the railroad flat. As the slide is quite steep, the speed attained is very great.

William Whistler Helm, Newport, R. I., William Arthur Carter, Statesville, N. C., were designated for examination for admission to the U. S. Military Academy this week.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

JANUARY 4, 1887.

THE troops of this command took part in the final honors to the distinguished and honored dead Gen. John A. Logan, Dec. 31, under the command of Gen. Horatio G. Gibson.

A guard, consisting of six men and one sergeant, left on Monday for Rock Creek Cemetery to take charge of the body of the deceased Senator.

The Soldiers' Temperance Union had an entertainment on Thursday evening, Dec. 30, which was largely attended by officers, ladies and civilians, and was quite a success.

Receptions and dances are now in order at Mrs. Gen. Gibson's, the music being furnished by the 3d Artillery Band.

On Dec. 29 the children of the post had a Christmas tree. Mrs. H. G. Gibson played for and led the little ones in their part of the entertainment.

AULD LANG SYNE.

The informal meetings of the 3d Artillery officers here to discuss military subjects have proved quite successful. They take place weekly, and are attended by all the officers of the regiment at the post. At each meeting a professional paper (original or otherwise) is read by an officer, after which it is discussed by such as may feel so inclined. The kriegsspiel is played regularly during the "recitation" season, one game not being allowed to extend longer than one month.

The readings and attendant discussions are exceedingly popular, but I cannot say as much for the kriegsspiel. C.

Another correspondent writes us with reference to the recent Christmas Tree festival, that "all look for assistance in anything concerning the welfare of the Garrison—and sincere thanks for untiring perseverance in every project, having for its object the amusement or profit of the command is due—to Mrs. Gen. H. G. Gibson, wife of our esteemed Commandant."

THE MILITARY ACADEMY.

WITH reference to appointments to the Military Academy, the Board of Visitors say in their annual report:

Recognizing the fact that the pay of an individual cadet is small compared with the total expenses of the Academy, the Board consider that it would be an act of sound policy to give to the President the authority to appoint ten cadets each year—not only as a means of maintaining the strength of the corps, but also of providing for many deserving young men who can in no other way secure admittance to the Academy. It was probably intended by conferring this power upon the President to afford an opportunity for the appointment of sons of officers of the Army, who, by reason of their duties, have no permanent residence in any Congressional district, and by a natural sequence the sons of those who served in the last war as "volunteers" have had their claims recognized in the number appointed by the President. The applicants for these appointments are very numerous, and the solicitations very pressing. If this number should be still further increased, by authorizing each United States Senator to name a cadet, it is believed that there would be still (through incidental circumstances) an average number of cadets less than the total number allowed by law.

The great value to the "country at large" of the technical education acquired at West Point, unlike in its theory and practice to that of any other institution, cannot be overestimated. So impressed was Gen. Grant, after his very extraordinary experience as the head of the great armies of the Republic, with the value of the United States Military Academy to the nation, that he asserted as his firm conviction, as a matter of public policy, that the number of cadets should be increased to 1,000, from which an annual selection should be made of those required for military service, while the remainder of those graduating each year and not required for public service, would, by being disseminated throughout the country, add to the ranks of the people men of scientific attainments for the arts in peace and "ready-soldiers" in the event of war. The fact that the average number of vacancies in the army list exceeds the number of graduates is an additional reason why the range of appointments should be extended.

The Board describe the system of discipline at the Academy, and say of it:

On the whole the impression given to the Board by the general conduct and bearing of the cadets is that of a thoroughly disciplined body of young men under perfect control, respecting themselves and one another, as well as the officers placed over them. They exhibit a modest demeanor and a manly tone, attending to their duties with promptness and alacrity. All bear mark of a healthy and vigorous mental and physical activity. Those who have been familiar with the institution in the past express the belief that the moral element is in advance of what it was in former years. The Board feels that it is due to General Merritt and the tactical officers under him that they should express their unreserved approbation of the manner in which they have fulfilled the responsible task assigned to them.

The Board do not think that the Academic Board are the best judges as to text-books. They say:

As the time of the Professor of Engineering is necessarily closely occupied with his duties during the whole Academic term, it is suggested that an officer of Engineers, experienced in field operations and especially qualified by thought and study for such duty, be detailed for duty at the Academy to aid the Professor of Engineering in revising the course. It is believed that this would be the most expeditious and practical way of accomplishing what is imperatively needed—a better knowledge of the advanced condition of the art of war. And this should be done periodically, for the reason that text-books on this subject, having necessarily a limited circulation, are rare books, published only at long intervals, and are seldom in accord with the times in the information they contain.

They also ask if sufficient care is taken to secure special aptitude for teaching in the constant detailing and changing of nearly fifty instructors, and whether when this special aptitude is discovered it prevents the transfer of the officer to other duty, simply as a question of detail and nothing else. They do not think that the ethical course sufficiently tends to produce that habit of clear enunciation and that power of constructing the English language, so essential to a finished education. There is, from one cause or another, "a habit of hesitation in speech, a useless repetition of words, and a want of confidence in the methods and manner of stating conclusions."

The Board held up all their hands in favor of the retention of Captain Spurgin in his present position and dwell with great earnestness upon his excellent management of fiscal affairs, especially in providing for the bodily needs of the cadets. "Cooks," they declare, "are the curse of the Army; they destroy more lives than the cannon of the enemy, and can do more to disable an army than a pitched battle."

VANCOUVER BARRACKS, W. T.

THE *Independent*, of Dec. 23, says: Dec. 15 the family of the lamented Major Taylor, 1st Art., departed for their future home in Washington.... Major McGregor and Capt. Hamilton, 2d Cav., reported on their return home from San Francisco to Fort Walla Walla....Capt. G. L. Lubn, 4th Inf., and Lieut. C. B. Hoppin, 2d Cav., of Fort Spokane, are at Fort Cœur d'Alene, attending the sitting of a Court-martial.....Lieut. Edward Burr, Engineer Corps, has been succeeded by Lieut. W. C. Langfitt, who reported last week....Capt. Russell Glover, appointed to the command of the revenue cutter *Wolcott*, arrived on Puget Sound from Boston last week, with his family....The Court martial ordered first to be held at Walla Walla, is now in session at Fort Cœur d'Alene. Capt. Tully McCrea, 1st Art., Capt. D. W. Burke, Lieut. Frank Taylor, and Lieut. W. B. Reynolds, 14th Inf., on Sunday left to attend the court....Lieut. G. T. T. Patterson, 14th Inf., who has been on leave in the East for several months, with Mrs. Patterson returned to Vancouver Barracks, Dec. 16. On Monday Lieut. Patterson departed for Fort Townsend. Mrs. Patterson will visit here a few days longer.

TRANSFER OF SEVENTH AND EIGHTH CAV.

FORT CLARK, TEX., Dec. 30, 1886.

AMONG the officers here, of the 8th Cavalry, there is a growing impression that their regiment will exchange station in the spring with the 7th Cavalry in Dakota. The 8th Cavalry has been serving in Texas for about 11 years, nine years previous to their coming to Texas, having served in Idaho, Oregon, Nevada, California, Arizona and New Mexico; all of their transfers being made by the slow process of marches. If this change of the 8th with the 7th is really contemplated or intended, there will be to record a regiment moving from the most southern limits of the United States to its most northern (Alaska not included), a distance due north some 2,000 miles; or in other words from between the 28 degrees and 30 degrees of latitude to between the 30 degrees and 40 degrees of latitude. Such a move would strain the resources of many officers in finding means to move their families and household goods, and on reaching Dakota they will not find, for some time, their expenses abated, for there many families will require other clothing than such as they wear in this semi-tropical country along the Rio Grande.

The 8th, it is true, may be a little enevated by its eleven years' stay in Texas, but which it is quite willing to forego rather than mortgage itself to railroads, in a 2,000 mile excursion, in order to be invigorated with the frosts of Dakota; that dumping ground of old Boreas of all that he has that is cold. Let the honorable Secretary of War ponder on this

EIGHTH.

(Correspondence of the Army and Navy Journal.)

FIRE AT SACKETT'S HARBOR.

MADISON BARRACKS, Jan. 4, 1887.

SHORTLY before 12 o'clock last night the trumpet call "fire" aroused us. A glance showed that the neighboring village was being painted an unhealthy red, and, excepting Co. B, detailed to guard the post, the rank and file of the garrison scurried through the deep snow, taking along our hook and ladder apparatus, axes, etc.

The only machine at the village was a primeval hand concern. It was at once manned by our boys, who, during three hours of intense cold and amid showers of sparks, worked cheerfully at the brakes. Colonel Townsend, with his energetic staff, Lieutenant Smith (Adjutant) and Wotherspoon (R. Q. M.), were efficient in directing the remaining troops in getting up ladders, tearing down shanties and removing property, and the flames, which would otherwise have swept everything fronting on the lake, were confined to the front of a single block. Every movable article was saved from the buildings destroyed, excepting only the stock contained in the one where the fire originated.

It was really a curious sight to witness the civilian element looking on idly while the troops were at work, but all the same it was not the first time, though it may have never been recorded before.

Telegrams had been sent at the outbreak of the fire to Watertown, 10 miles distant, asking for assistance. The poet who has immortalized little Phil's famous ride at Winchester is respectfully invited to do up the Watertown department and the railroad company for the manner in which they reached Sackett's Harbor in the remarkably short space of three hours, arriving here just in time to hear our trumpeter sound "recall," the danger being past.

J. K. Barnes Post, G. A. R., occupied a hall in one of the burned buildings. Their paraphernalia was saved.

The 12th having a new colonel, it may be of interest to the curious, despite the fact that publications of this nature are not exactly "the proper caper, you know," if we add here that the requirement that "military authority is to be exercised with firmness, but with kindness and justice to inferiors," seems to dominate the new administration, and that the pleasing effect, notably among the enlisted men, is quite exhilarating, to say the least.

Weekly concerts and hops are held here regularly, the company commanders alternating in providing the necessary room, and the regimental band supplying the music.

The votaries of terpsichore among the E. M. have formed the "M. B. S. C.," not so much to indicate that "many become soldiers cheerfully" as to disguise the existence of the "Madison Barracks Social Club." They have given two successful parties at Madison Hall, Sackett's Harbor, and have mapped out quite a campaign, even a masquerade not being regarded as beyond their reach.

URSA MAJOR.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

DECEMBER 29, 1886.

THE old year is dying fast and hard (Chestnut! I think I hear you exclaim), and I am prompted by an irresistible impulse to shed ink to write you briefly before 1886 gives way to 1887. On Christmas Eve the children of the post school had their Christmas tree, and engaged in some charming exercises. On Tuesday evening the children of St. Paul's on Government Hill had theirs, when presents were bountifully supplied. Miss Mabel Gibson, daughter of Col Gibson, Chief Paymaster, and Miss Andrews received each a handsome souvenir for their unusual diligence and excellence. On Monday the Bachelors gave a hop, which was well attended. The married ladies of the garrison attended to the supper, which was perfect. (I could dilate on this head, for as a gastronomer I am at the head of the class.) Mrs. Richards, wife of the genial Maj. Richards, of the 16th Foot, is especially deserving of praise in connection with the preparation and service of the edibles. Inspector General Heyl received last week the sad intelligence of the death of his mother at her home in New Jersey. The news of the death of Gen. Logan was received here with much sorrow, especially by the old vets of whom I am *facile princeps*. Not having felt well since Christmas, and seeing no prospect of recovery until New Year's is thoroughly over, excuse dullness. The times are out of joint, and will be for a few days to come.

PUNK.

FORT YATES, DAKOTA.

CHRISTMAS.

HOW do you suppose I am to get along without the JOURNAL. I enclose you P. O. order for $3. Ther. here 40 degrees below. Indians don't appear to mind it. They have their tepees pitched down in the river bottom and in the mornings a pretty sight to see the smoke rising from their fires. Old Bull and Gau manage to report at the agency promptly when Uncle Sam deals out the fresh meat. If Yates is a small, remote station old Santa made a big deal here this morning, Christmas trees for the Indians' children, another large one at Maj. Page's, and Dr. Spencer's dinner parties in the evening, and lots of good apple jack over to the Indian traders.

MAX.

(Correspondence of the Army and Navy Journal.)

FORT APACHE, A. T.

DECEMBER 22, 1886.

SINCE we wrote you last, Thanksgiving with its turkeys, mince pies, cranberry sauce, and all of the various delicacies usual on the occasion has come and gone, and we have also enjoyed a round of social pleasures.

1st Lieut. Lawrence D. Tyson, of the 9th Infantry, and Mrs. Tyson issued invitations to their friends of Apache for a Progressive Euchre party, which proved a most enjoyable entertainment. First prize for ladies was won by Mrs. Wm. H. Beck, the booby prize for ladies by Mrs. C. E. Nordstrom. The first prize for the gentlemen was won by Capt. C. D. Viele and the booby prize by Major A. Morton, of the 9th Infantry. Delightful refreshments were served and the only regret experienced was the knowledge that our pleasant young host and his charming wife were so soon to leave us for the winter. They go to Knoxville, Tennessee, to visit the parents of Mrs. Tyson.

On the evening of Nov. 25, Lieut. Wm. H. Beck and Mrs. Beck gave an entertainment in honor of Miss Beck's (their daughter's) birthday. The young lady was the recipient of many very beautiful birthday presents.

Thursday, Dec 2, Major A. Morton and Mrs. Morton, of the 9th Infantry, entertained the officers and ladies of the garrison at a Progressive Euchre party. After an elaborate and delicious lunch, the prizes were distributed. The first prize for ladies was won by Mrs. Wade, wife of our post commander, and the booby by Mrs. C. D. Viele. First prize for gentlemen was captured by Lieut. Shipp, our post adjutant, and the booby prize fell to Capt. C. D. Viele.

The return of Mrs. Wade accompanied by Miss Brown and Miss Clara Wade and John occasioned much pleasure to the residents of Apache, as their absence had been deeply felt by all their friends who remained behind. Just at the present writing we have to report some of our loved ones on the sick list and others convalescent. Col. Wade's son, John, was quite ill for a few days, and then Mrs. Wade was quite indisposed for a few days; both are now able to enjoy the beautiful spring-like weather that we are having at Apache. At present Miss Beck, daughter of Lieut. Beck, of the 10th Cav., is quite ill and has been some days. Capt. Cooper, of the 10th Cav., is also quite sick at his quarters and Alex. Weirick is up for the first time in a week, to-day. Dr. Weirick reports a larger number on his sick list than he has ever known before at Fort Apache. We hope, however, soon to have the usual good health restored to the garrison.

Lieut. Smith, of Troop I, 10th Cavalry, who has been here for more than a year past on Indian duty, is ordered to Verde to join his troop for duty and expects to leave here on the 26th of this month. He will be greatly missed by his many friends here. Mrs. Morton goes with him to visit Mrs. Eggleston, wife of Lieut. Eggleston, of Troop I, 10th Cav. There are rumors of changes to be made soon.

(Correspondence of the Army and Navy Journal.)

FORT BOWIE, A. T.

DECEMBER 22, 1886.

I HAVE to chronicle one of the most charming weddings that has taken place lately in military circles in this Department. The happy couple were Miss Darling Hortense, youngest daughter of Col. Eugene B. Beaumont, and Lieut. Chas. P. Elliott, 4th U. S. Cavalry. The bride was dressed in white silk and wore the proverbial veil and orange blossoms. The groom wore his full dress uniform, as did also the military guests. Precisely at 7.45 yesterday evening the bride was escorted by her father to the room set apart for the ceremony and in an alcove beneath a floral bell made entirely of Arizona flowers and of huge proportions, presented by the men of the regiment quartered in the post. The happy twain were made one as the orchestra of the 4th played the "Bridal Chorus" from Lohengrin, the matrimonial links being securely forged by Chaplain Weaver, U. S. A. At the conclusion of the marriage rite Mendelssohn's Wedding March from "Midsummer Night's Dream" was exquisitely rendered, and Lieut. Elliott very nicely introduced his wife to Professor Kreyer and the instrumentalists under his able baton. As the band is so seldom away from Regimental Headquarters, of course the assembled guests indulged in a few dances, and about midnight supper was served, shortly after which the merry party separated with cordial greetings to the newly married couple. The wedding presents were very numerous and chiefly of silver, one present of splendid lace being conspicuous amongst the scintillating mass of metal. The following is a list of the guests: Gen. and Mrs. Forsyth, 4th U. S. Cav.; Miss Mary Ross-Lewin; Miss Frances Ross Lewin; Capt. and Mrs. W. A. Thompson, 4th U. S. Cav.; Capt. and Mrs. Otho W. Budd, 4th U. S. Cav.; Mrs. Berry, Surg. and Mrs. Everts, U. S. A.; Chaplain Weaver, U. S. A.; Capt. Wood, 4th U. S. Cav.; Lieut. Neal and Miss Belle Hardie; Lieut. Lockett and Mrs. Grant; Lieuts. Fowler, Brown, and Hardemann. Lieut. and Mrs. Elliott started in the morning for an extended trip through California, and they carry with them the best wishes of a large number of friends, who trust that their matrimonial life will be long and pleasant, and that everything will always be "as merry as a marriage bell."

(Correspondence of the Army and Navy Journal.)

FORT OMAHA, NEB.

FORT OMAHA, NEB., Jan. 4, 1886.

MRS. GENERAL CROOK gave a very handsome "Kensington Tea" at her residence in Omaha last Wednesday afternoon, 3 o'clock, to a large number of her lady friends. Among those present were Mesdames Wheaton, Hall, Worthington, Barker, Peck, Dundy, McCauley, Cowin, Savage, Hawkins, Kountze, Terrell, Wakeley, Keller, Doane, Linginger, Webster, Patrick, Collins, Beall, Mallory, Summers, Dandy, Ringwalt, and many others.

Lieut. and Mrs. Howard, 12th Inf., returned this week to Ft. Niagara, from a visit to Mrs. Howard's home in Omaha.

General and Mrs. Wheaton gave a very handsome party at their residence last Thursday afternoon. The splendid orchestra of the 2d Infantry band furnished the music for the dancing. General and Mrs. Wheaton are drawing closer than have been for many years the ties that bind the Fort and the City of Omaha—their home being deservedly called headquarters for hospitality.

Lieut. Ogle, 17th Inf., reached Omaha New Year's eve with a large number of recruits for western posts.

General and Mrs. Breck returned last Thursday from an extended trip through the South, visiting relatives in Texas, etc.

Col. Stanton, Paymaster, has returned to Salt Lake City. Capt. Reed, 7th Inf., Rock Springs, was in Omaha last week. Col. Terrell, Paymaster, left New Year's Day on his periodical visit to the troops at Fort Sidney.

FORT LEAVENWORTH SHOES.

IN June last Capt. J. W. Pope, Assistant Quartermaster, U. S. A., reported as follows on the Army shoe:

Some complaint having been made on account of the post shoes breaking at the inner ball of the foot, which investigation indicated has been caused by the cutting of the upper by the feather of the inner sole, by large needles or close stitching, and by the flat, inflexible shape of the last, these defects were remedied by lining the shoe with duck, by rounding the feather of the inner sole, using a smaller needle, and the adoption of a Waukenphast last with more spring. By omitting one fold of calfskin at the heel, rendered useless by the lining, the cost of the duck lining was more than compensated, nor have the other changes added to the cost of the shoes. The Q. M. General has also authorized the following slight changes in the post shoes, which are believed to add to the appearance with very little, if any, additional cost: The lowering of the upper three-fourths of an inch, the adoption of linen instead of porpoise laces, and of a goatskin tongue. Complaint was also made of the sewed cavalry boots breaking in the back seam above the heel, which has been remedied by sewing the seam on the outside instead of the inside and sewing a strip over the whole back seam. As this does away with the process of turning, very little work is thereby added to the manufacture of these boots. New specifications for the campaign and post shoes and cavalry boots, made on the Waukenphast lasts, have been approved by the Q. M. General, and all new work will be done on Waukenphast lasts. I invite attention to the fact that the least satisfactory part of the work in this shop is that done by the welt machines; stitches are often dropped, materials wasted and six prisoners are kept cobbling after the two welt machines. It would greatly improve the quality of the work and increase the value of the footwear far beyond the additional cost, if this could be done by hand; to do so would require about ninety additional prisoners and increased shop room. I strongly recommend that this be done as soon as practicable.

COURT-MARTIAL CASES.

In the case of a soldier recently tried at Fort Grant, A. T., for desertion, General Miles, the reviewing authority, says: "The prisoner is convicted of desertion committed June 1, 1884. The evidence shows that he again enlisted and was assigned to Co. I, 8th Infantry, June 1, 1886; that he served with this company during the past summer in the expedi-

tion against hostile Indians in Arizona and Mexico, doing excellent and very hard service. He was recognized while serving in Mexico as a deserter from the 4th Cavalry, and he thereupon surrendered himself. His excuse for desertion was that he did not understand the English language and could not make himself understood and as a consequence was treated unfairly at times. His conduct while serving in Co. I, 8th Infantry, is testified to as being excellent, and the members of the court unite in recommending him to clemency. The sentence is remitted."

In the case of Private W. Grimes, Co. G, 8th Infantry, recently tried at Fort Apache, Major-General Howard says: "The statement of the qualification of the Court and of the Judge-Adoocate is not regularly set forth. While it is not fatal to the validity of the proceedings, it is a very grave irregularity. The proceedings should state that 'the members of the court were then severally duly sworn by the judge-advocate, and the judge-advocate was then duly sworn by the president of the court, all of which oaths were administered in the presence of the accused.' With this exception, the proceedings, findings and sentence are approved."

In the case of P. Q. M. Sergt. Daniel Dominitt, recently tried at Fort Apache for various offences, including theft, and sentenced to dishonorable discharge and confinement at hard labor for one year, the reviewing authority, Maj.-Gen. Howard, says: "The statement of the qualification of the court and of the judge-advocate is incompletely set forth. While this is not fatal to the validity of the proceedings, it is a very grave irregularity. . . . It does not appear fully to the satisfaction of the Reviewing Officer, that the charge of theft has been made out. The fearful condition of drunkenness and consequent craziness, accompanied by foul words, are plainly established. The findings are otherwise approved. The sentence is mitigated to discharge, and without character upon the discharge, and forfeiture of all pay and allowances, except the sum of $25. (G. C. M. O. 70, D. Arizona, 1886.)

Chief Musician Herman Trutner, 13th Inf., recently tried by General Court-martial at Fort Apache for behaving in a disrespectful and insubordinate manner toward his superior officer and drawing a weapon with intent to do him bodily harm, was sentenced to dishonorable discharge and confinement at hard labor for two years. The reviewing authority, however, (Maj.-Gen. Howard) in view of the recommendation of the members of the court, mitigates the sentence to discharge without character upon the discharge and forfeiture of all pay and allowances, except the sum of $25. (G. C. M. O. 70, D. Arizona, 1886.)

PERSONAL EFFECTS OF NAVAL OFFICERS.

TREASURY DEPARTMENT, Nov. 2, 1886.

Collector of Customs, Newport, R. I.:

SIR: The Department duly received your letter of the 21st ultimo, with its accompaniments, concerning your action in assessing duty on certain goods lately brought by officers of the United States Navy into your port from foreign countries on board the United States training ships "Portsmouth" and "Saratoga."

Upon inspection of the list submitted by you, and examination of your report and statement of Commander Gridley, commanding the said vessels, it would seem that the goods in question may be properly divided into four classes, viz.:

First. Certain wines purchased abroad by the caterers of the messes, and in use for consumption on board the vessels by members of the mess and their visitors;

Second. Certain articles of wearing apparel—clothing, gloves, etc.—brought for the officers' own use;

Third. Certain wines and other articles which may be for the household use of such officers;

Fourth. Certain articles, including wines, gloves, clothing, etc., imported for the use of persons other than the officers bringing the same.

The first two classes mentioned, namely, the wines for the use of the messes of the vessels, and which, as it is understood, are to remain on board the vessels, and the articles of clothing, gloves, etc., brought by the officers for their own use, are, in the opinion of the Department, entitled to free entry.

The articles covered by the last two classes are, however, liable to duty, and the necessary steps should be taken by you for collecting the same.

Inasmuch, however, as under the statute merchandise cannot be imported under any pretence in a vessel of the United States, no entries of the said articles can be permitted, but the articles herein decided to be dutiable may be delivered to the owners upon the payment of fines equal to the duties properly accruing thereon, provided you are satisfied that there was no intention on the part of the owners to commit a fraud upon the revenue.

The course herein suggested is that which is recommended by the Solicitor of the Treasury, to whom the documents were submitted, and who also advises that, in his opinion, no penalties have been incurred by the officers in the premises unless fraud can be shown.

Respectfully yours,
C. S. FAIRCHILD, Assistant Secretary.

NEWPORT, R. I., NOTES.

THE first of a series of entertainments arranged for the winter took place at Odd Fellows' Hall on the evening of Dec. 30. The committee of arrangements consisted of Colonel Samuel R. Honey, William R. Hunter, John N. A. Griswold, Captain A. R. Yates, U. S. N.; Commander Higginson, U. S. N.; Captain Field, U. S. Army; W. McCarty Little, John Whipple and J. Neilson Howard. "Home" was presented, the cast being as follows: Colonel John White (Alfred Dorrison), Mr. Henry Bedlow; Mr. Alfred Dorrison, Sr., Mr. Howard Collins; Captain Montraffe, Captain Edward Field, U. S. A.; Bertie Thompson, Mr. Oliver Lafarge; Mrs. Pinchbeck, Mrs. C. C. Churchill; Lucy, Miss Creighton; Dora, Mrs. Edward Field; the servant, Stuyvesant Leroy, Jr. A brilliant audience assembled to see the presentation. The duties of stage manager were performed by Lieutenant William McCarty Little, U. S. Navy. A dance followed and it was well toward morning when the festivities ended.

Military Order of the Loyal Legion.

At a meeting of the Minnesota Commandery, held at St. Paul, January 5, the following were balloted for: Major J. M. Bell, 7th U. S. Cav.; Major J. S. Casey, 17th U. S. Inf.; Lieut. G. H. Roach, 17th U. S. Inf.; Lieut. G. M. Phillips, U. S. A.; Mr. C. B. Eckels, eldest son of Paymr. C. B. Eckels U. S. A., and Mr. Asa Paine. After the business meeting a paper was read by Col. D. W. Hand, M. D., entitled "Reminiscences of an Army Surgeon." The commandery flourishes.

CAPTAIN R. S. COLLUM, U. S. Marine Corps, was to lecture on "The Heathen Chinee" on Friday evening of this week before the Young Men's Guild of the Church of the Saviour, Philadelphia.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Left the Navy-yard at Norfolk, Va., Jan. 6, 1887, and dropped down to Hampton Roads Va., for a trip, after which she will sail on a cruise to the West Indies, returning to Hampton Roads about May, 1887.

TENNESSEE, 1st rate, 23 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard. Will be put out of commission—her officers and crew being transferred to the *Richmond*.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Aspinwall Nov. 26. Intended to take the U. S. Minister for Bogata to Cartagena.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station. Arrived at Malta Dec. 27.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 9.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Arrived at Alexandria, Egpt, Dec. 11, after five days passage from Malta.

Rear Admiral Franklin arrived at Alexandria, Egypt, with the *Pensacola*, Dec. 11, after a passage of five days from Malta. The orders relating to the death of Ex-President Arthur were found awaiting his arrival and have been duly executed. The state of affairs in Egypt seems to be at present satisfactory.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Gibraltar Nov. 28 for the African coast. Reported by cable to have arrived at Gaboon, West Coast of Africa, Jan. 4, 1887.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. Arrived at Mare Island Dec. 30. Will go out of commission and undergo repairs.

A depatch from Washington, D. C., states that the *Hartford* will require about $70,000 to repair her hull, and, besides, will have to have new boilers and a new crank shaft.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 25, and from there to Valparaiso, where she is expected to arrive about the middle of January.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Bushire, Persia, Nov. 17, expecting to sail in a few days for Busra, in Asiatic Turkey.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Singapore Dec. 18.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Dec. 1.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, Dec. 10, having been relieved at Canton by H. B. M. S. *Espoir*.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Yokohama, Japan, Dec. 26.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Reported by cable to have arrived at Naples, Italy, Dec. 22.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Left Canton, China, Oct. 31, for her winter station at Tientsin, where she arrived Nov. 26.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns Comdr. Chas. J. Train. Sailed from Fort Monroe, Va., Dec. 22, on her winter cruise.

MINNESOTA, 1st rate, 24 guns, Comdr. T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Sailed from Fort Monroe, on her winter cruise, Dec. 22.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Sailed from Norfolk, Va., Dec. 22, on her winter cruise.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emery, Jr. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At Norfolk Navy-yard. Assigned to the North Atlantic Squadron. As soon as she is ready for sea, her commander will report for duty to the Admiral commanding the station.

A despatch from Washington, D. C., states that the *Dolphin* received sailing orders, Jan. 6, and it is probable that the *Galena* and *Dolphin* will both proceed from Norfolk to the Caribbean Sea to take deep sea soundings in the latitude of the Windward Islands, and do other scientific work in the way of locating reefs and rocks dangerous to navigation in that section.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

It is thought that the coming term of the school is likely to be a flourishing one, as a large number of boys are expected to join the ship during the winter in order to participate in the summer cruise to the Mediterranean or the Atlantic Islands, always a pleasant and profitable one. It is hoped that at least 90 boys will join her before the winter is half over.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

COMMANDER CROWNINSHIELD assumed command of the *St. Marys* on Jan. 3, 1887.

CAPT. MANUEL CANO Y LEON, of the Spanish Engineers, has an interesting description of a visit to the Panama Canal in the "Revista Cientifico-Militar" (Barcelona).

ARGUMENT in the long-pending suit of D. W. Bouldin v. Thomas S. Phelps, to recover possession of Mare Island, before the U. S. District Court in San Francisco, has been concluded, and the case submitted. A decision is not expected before March.

IN his recently published "Naval Review" Sir N. Barnaby gives a list of the 15 armorclad vessels of 11,000 tons displacement and upwards which are built and building for European navies. Nine are Italian, three British, and three French. The average displacement of the Italian ships is 12,137 tons, of the British 11,920 tons, and of the French 11,286 tons.

THE regular quarterly meeting of the Navy Mutual Aid Association will be held this week at the Navy Department. Paymaster H. T. Stanciiff, secretary and treasurer of the association, has prepared his report for the quarter, which shows a healthy condition of affairs. The amount of cash on hand is $39,018.82. There were six members admitted during the quarter and one withdrew, leaving a total of 781 at its close. The amount of benefit which can now be paid is $3,667.

THE Boys in Blue of the *Minnesota* held a Grand Invitation Ball at Irving Hall, on Tuesday evening of this week, and they and their friends had a right jolly time. Many naval officers and ladies graced the occasion, and everything was done by the managers to make the occasion a success. Professor Boswald's orchestra played the dance music, each number of the twenty-eight being dedicated to "Our Admiral," "Our Captain," the *Trenton* or *Kearsarge* apprentices, "Our ship's company," "To those who are left," "To little ragged urchins," and to "Our lady guests."

THE repairs to the *Alert*, now at the Mare Island Yard, having been completed she will go in to commission on Jan. 15, and will join the Pacific station. The following officers have been ordered to report for duty aboard her on that date: Commander J. D. Graham, commanding; Lieutenants A. Ross, J. W. Carlin, F. E. Greene, M. K. Schwenk and C. B. T. Moore, Ensigns J. J. Knapp and H. B. Ashmore, Naval Cadets Chas. E. Sweeting and H. H. Whittelsey, P. A. Surgeon E. H. Green, Asst. Paymaster S. L. Heap, P. A. Engineers B. C. Gowing and R. Crawford, and Cadet Engineer M. A. Anderson.

SECRETARY WHITNEY astonished the clerks of his Department, Dec. 30, by sending a list of questions to each of them, which are intended to secure from them a brief statement showing their status in the Department. Date of entry, salary they are now receiving, present age, by whom recommended, and from what State appointed are samples of the questions asked. The Secretary says that the records of the Department, so far as its personnel is concerned, are in such bad condition that he is unable to find out anything about his men, and it is to correct this record that the circulars are sent out.

THE Hydrographic Office has issued a circular calling attention to the fact that a man representing himself to be in the employ of the Hydrographic Office has been visiting ships in Boston and obtaining the signatures of captains to written statements. Over these signatures he wrote orders for various sums of money on Boston citizens, and in several cases succeeded in cashing them. It has been discovered that the man was a swindler, but at the time of writing he had left for parts unknown. Ship captains should be warned not to sign papers of any kind for the Hydrographic Office, as such statements are never demanded.

THE Naval Board of Inspection left Washington on Thursday for Norfolk to survey the *Galena*, which recently came to grief in a collision with the *Trenton*.

THE Secretary of the Navy has issued a circular concerning admission to the Hot Springs Hospital, which is the same as that for the Army which appears elsewhere in this number.

THE naval appropriation bill is still in the hands of the sub-committee. Major Lowry, of the Marine Corps, was before them on Wednesday and explained the estimates for that branch of the Service. The sub-committee report to the full committee on Tuesday next.

THE Mayors of Norfolk and Portsmouth, with committees from the Council of each city, have been selected as a delegation to go to Washington to urge that some of the new Navy ships be built at the Navy-yard there, or else that the work of repairing vessels be continued. Secretary Whitney's recent order excludes that yard.

RECENT advices from Panama say that work on the canal is progressing favorably. Contrary to expectation, the health of the Isthmus is better this year than on any previous rainy season since operations were begun on the canal. Work is going on at the present time in all of the eleven sections into which the axis of the canal is divided.

THE San Francisco *Report* says: "The rumor that boiler-makers are to be brought from Scotland to build the new Government cruiser, for which the Union Iron Works has the contract, has created considerable feeling in iron circles in this city. It is not news to the local boiler-makers, as they had information of such intention three weeks ago."

THE movements of the European Squadron during the month of November were as follows: *Pensacola* left Geneva, Nov. 6, and arrived at Villefranche Nov. 7, leaving there on the 13th; reached Palermo on the 16th, and Malta on the 25th, after a two days' passage from Palermo. The *Quinnebaug* left Geneva Nov. 11, arriving at Gibraltar on the 17th, from whence she sailed to Teneriffe, Nov. 23, arriving Dec. 2.

THE work of transferring equipment plant from the Washington Navy-yard is now in progress. Comdr. Sebley, chief of the Equipment Bureau, proposes to get all his material to Norfolk first, and send it from there to Boston on hired vessels. The transfer from Washington to Boston will be effected before Feb. 1, when the Boston Navy-yard will be taken charge of by the Equipment Bureau. The equipment plant and supplies in the other Yards will be transferred gradually during the year, there being no immediate requirement for anything outside of the Washington Navy-yard.

THE board on concentration of Naval supplies and purchases, consisting of Capt. Brown, Pay Inspector Billings and Paymr. Stancliff, has decided to study the system of keeping accounts used by several of the largest American corporations. On Thursday they visited Philadelphia with letters of introduction from Secretary Whitney to the officials of the Pennsylvania Railroad Company, and expect to spend several days over the books of the company. They will then proceed to Altoona to inspect the supply depot of the road, with a view to using many of its features in the New York Navy-yard, the proposed general supply depot for the Navy.

THE cruiser *Chicago*, now having her engines put in at Roach's yard, Chester, Pa., where the hull was built, will be ready in about a month to follow the *Boston* and *Atlanta* to the Brooklyn Naval Yard to have the rigging and furniture added. It is expected it will be ready four months at least before the *Boston* is ready to have her engines tested. The advertisements for the sale of the United States steamer *Tennessee*, recently condemned under the law of August 5, 1882, because it would require to repair her more than 24 per cent. of what it would cost now to construct an entirely new ship of the same kind, are being prepared, and will be published soon.

EFFORTS are being made by John Ericsson to induce Congress to provide for the purchase by the Government of his new torpedo boat the *Destroyer*, for the defence of New York Harbor. S. C. Bushnell, who is in Washington as Mr. Ericsson's representative, expects to be heard on the subject this week by the House Committee on Naval Affairs. The famous inventor of the *Monitor* offers the *Destroyer* for $112,000, which, he says, is less than the vessel cost to construct, but if the *Destroyer* proves satisfactory Mr. Ericsson desires the privilege of furnishing the Government with ten similar vessels of somewhat larger size, at a cost of $200,000 each. Eleven such vessels, the inventor asserts, will be sufficient to protect all our coast harbors from invasions of foreign enemies.

THE Moscow *Gazette* draws attention to the fact that, in 1866, the late emperor issued a ukase in which he ordered that "all government and public institutions, whatsoever they might be, were to purchase whatever steamboats they required at home, no matter what inconvenience might ensue therefrom." Twenty years have elapsed since this order was issued, and the Moscow *Gazette* declares it to have been throughout that period a dead letter. The worst offenders have been the Ministers of Finance, Marine, War and Ways of Communication; and after them the municipal councils of the riverine towns and the various subsidized companies. The Minister of Crown Domains alone has remained faithful throughout, but, as he has only purchased two or three little steamers to convey himself and his officials on the canals, his support to the native shipbuilding industry has not been of much value.

THE Sub-Committee on Appropriations of the House Naval Committee, listened Jan. 3, to Paymr.-Gen. Fulton, Comdr. W. T. Sampson, Paymr. John R. Carmody, and Chief Naval Constructor Wilson, in defence of their respective estimates. Comdr. Sampson, Superintendent of the Naval Academy, urged upon the committee the necessity for a reduction of the academic course to four years, as recommended in his annual report. The committee informed him that such a change would be a proper subject for special legislation, but could not be provided for in the appropriation bill. Paymr. Carmody stated that the concentration of purchases and supplies in the Bureau of Provisions and Clothing would cause an increase in the appropriation necessary to run the bureau, but that the new system would reduce the general appropriation. The employees heretofore in charge of purchases and supplies under the respective bureaus could be transferred to the Bureau of Provisions and Clothing, and provided for in its appropriation. He said that it would not be wise to make a great reduction in the working force of the Yards until the success of the new plan is assured. Chief Naval Constructor Wilson stated that his bureau would be able under the new arrangement to dispense with the services of all persons heretofore employed in making purchases and taking care of supplies.

NAVY GAZETTE.

Ordered.

DEC. 24.—The following officers were ordered to report for duty on the Alert January 15: Commander J. D. Graham, Lieutenants A. Ross, J. W. Carlin, F. V. Greene, M. K. Schwenk, and C. B. T. Moore, Ensigns J. J. Knapp and H. B. Ashmore, Naval Cadets C. E. Sweeting and W. H. Whittelsey, P. A. Surgeon E. H. Green, Assistant Paymaster S. L. Heap, P. A. Engineers B. C. Gowing and R. Crawford, and Cadet Engineer M. A. Anderson.

DEC. 28.—Ensign T. G. Dewey, to the Thetis, January 15.

DEC. 29.—Lieutenant B. S. Richards, to the receiving-ship Franklin, January 5.

JAN. 3.—Lieutenant C. A. Clarke, to the receiving-ship Independence.

Lieutenant W. A. Marshall, to the Dolphin.

Lieutenant Charles A. Gove, to the Hydrographic Office.

Ensign J. H. Rohrbacker, to the Naval Observatory, January 20.

Gunner Wm. A. Ferrier, to the Mare Island Navy-yard.

JAN. 6.—Passed Assistant Engineer James J. Barry, to report to the New York Navy-yard.

Detached.

DEC. 28.—Lieutenant W. H. Emory, from the command of the Despatch, January 15, and ordered to command the Thetis.

Ensigns Ed. Simpson, Miles C. Gorgas, and R. P. Schwerin, from the Despatch, January 15, and ordered to the Thetis.

DEC. 29.—Ensign G. W. Street, from the Coast Survey and ordered to the Galena.

Carpenter Henry Davis, from the receiving-ship Minnesota and placed on waiting orders.

JAN. 3.—Sailmaker Wm. Cuddy, from the Richmond and ordered to return home and report.

Sailmaker John C. Herbert, from the receiving-ship St. Louis and ordered to the Richmond.

JAN. 4.—Boatswain Alexander Mach, from the Naval Station, New London, and ordered to the Navy-yard Boston.

Sailmaker Charles E. Tallman, from the Naval Academy and ordered to the Boston Navy-yard.

JAN. 6.—Assistant Engineer B. C. Bryan, is detached from duty at Mare Island and ordered to report to the commandant of the New York Navy-yard for special duty in connection with the Boston.

Passed Assistant Engineer A. B. Willits, Boatswain J. B. F. Langton, Carpenter Warren Barnard and Sailmaker John Roddy, detached from the Hartford and ordered to report to the Mare Island Yard, for duty under the General Storekeeper.

Assistant Engineer Ira N. Hollis, detached from the Hartford and ordered to duty at Mare Island.

Chaplain John K. Lewis, detached from the Hartford and ordered to the Independence.

Lieutenant-Commander C. M. Thomas, from the Hartford and ordered to Coast Survey duty.

Lieutenants T. S. Phelps, E. P. Wood, C. E. Vreeland, W. C. Babcock, and J. C. Fremont, Jr., Passed Assistant Surgeon E. S. Marstella, Paymaster T. T. Caswell, Medical Inspector M. Bradley, Chief Engineer Thom Williamson, Assistant Engineer F. C. Bowers, Gunner John G. Foster, from the Hartford, and ordered home.

P. A. Surgeon E. H. Green, from the Independence and ordered to the Alert.

Chief Engineer A. W. Morley, from special duty at the New York Navy-yard and ordered to the Dolphin.

Chief Engineer John Lowe, from the Dolphin and ordered to the Thetis.

Assistant Engineer W. F. Darah, from the Dolphin and placed on waiting orders.

Leave.

Granted P. A. Engineer H. S. Ross for four months from January 1.

MARINE CORPS.

DEC. 27.—1st Lieutenant Henry Whiting, present leave of absence extended ten days from January 6, 1887.

DEC. 28.—Captain F. C. Corrie, retired, present leave of absence extended one year from January 19, 1887.

1st Lieutenant Thomas N. Wood, upon expiration of present leave, January 4, 1887, ordered to proceed to Annapolis, Md., and report for duty at the Marine Barracks there.

Changes on the European Station.

P. A. Surgeon J. M. Edgar, detached from the Pensacola November 23, 1886, and ordered to the Quinnebaug, reporting on November 27.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Jan. 4, 1887.

ON Wednesday of last week Mrs. Comdr. Schouler gave a tea in honor of her niece, Miss Knapp, and Miss Brooks, both of New York. Many friends of the family were present, all of whom attested to Mrs. Schouler's charming hospitality.

Miss Mary Todd, daughter of Prof. Henry Todd, U. S. N., is visiting her friend, Miss Harrington.

A cause of universal sorrow at the Naval Academy occurred last week in the death of little Robbie, the bright, ten year old son of Lieut. and Mrs. E. B. Barry. On Christmas Day he was seen playing about the grounds, but that night he was taken ill with sore throat symptoms, which developed into diphtheria. The sympathies of the entire community go out to Mr. and Mrs. Barry in their sad affliction.

Among the Naval Academy people who received callers on New Year's Day, were Superintendent Sampson and daughters; Mrs. Comdr. Schouler, assisted by Miss Knapp, Miss Randall, and Mrs. Lieut. Fullam; Mrs. Farmer, assisted by Mrs. Lieut. Hodgson and Mrs. Ensign Smith; Lieut. and Mrs. Hutchins received on board the *Santee*, assisted by Mrs. Hartley; Mrs. Comdr. Terry, assisted by Miss Dillingham, Miss Beck, Miss Porter, and Miss Laidlow; with Mrs. Lieut. Leutze were Miss McAlpine, her sister, and Mrs. Mahan; Paymaster and Mrs. Loomis, assisted by their daughter, Miss Eleanor; Mrs. Prof. Terry was assisted by Mrs. Magruder; at Mrs. Lieut. Tilley's quarters were Mrs. Merrell, Mrs. Colahan, and Mrs. Gheen; Mrs. Lieut. Miller was assisted by Mrs. Ferguson and Miss Jackson; Miss Eva Murray and Miss McCarty assisted Mrs. Lieut. Gibson; and Mrs. Doyle assisted Mrs. Percy.

At the New Year's Eve hop a great number of guests were present, among whom were many strangers. The gymnasium was very tastefully decorated with greens and bunting. In the centre stood a beautiful fountain, the music of whose water harmonized delightfully with that of the band. At one of the recesses stood a large archway, beneath which Mrs. Lieut. Fullam and Naval Cadet Davis received the guests.

Prof. and Mrs. Terry gave a charming reception on Friday last in honor of Prof. Sanger and bride.

Miss Heap, Miss Chace, and Miss Marchand, much to everybody's sorrow, leave for Fort Leavenworth this week. May the favorable Fates attend them!

Lieut. McCree led the Saturday night german, assisted by Ensign Knapp. Many delightful figures were introduced, all of which were intensely enjoyed by the large number of guests present.

Amateur theatricals are the latest craze. The first entertainment will be held in the gymnasium on Jan. 15, under the supervision of Lieut. Mercer, U. S.M.C.

Naval Cadet L. H. Chandler, the son of ex-Secretary Chandler, has been made a cadet petty officer of the second class.

Ten members of the fourth class "Frenched" last Saturday. They have now taken up their quarters aboard the prison ship *Santee*.

(Correspondence of the Army and Navy Journal.)

NAVY-YARD, BOSTON.

JANUARY 4, 1887.

THE holiday season passed very pleasantly on board the U. S. receiving ship *Wabash*. One evening during the week the men were entertained by a lecture on the "Manners and Customs of Persia," by a native of that country, Mr. Neesau, who appeared in his native costume. On another evening, Miss Nichols, of Charlestown, with the assistance of some of her friends, gave a literary entertainment, consisting of humorous readings, music, etc., in which the men also took part. At the conclusion of the entertainment, the men gave her three cheers, and on her leaving the ship three cheers and tiger.

On New Year's Day the men had a jolly time among themselves, in which songs, dances and athletic exercises were indulged in, to their great amusement and gratification. Old hands say that the holiday season on the *Wabash* this year beats all the records of the past. The men had a jolly good time, and drunkenness and disorder were unknown. On Sunday, the 2d inst., despite the severe weather, the choir boys of a church in Roxbury, with their leader, were on board at the evening service, and rendered the hymns and chants in a way "Jack" seldom has an opportunity of listening to, but which, as the event proved, he is abundantly able to appreciate.

Captain Miller and his officers are to be congratulated on the results of their efforts for the good of the men.

ALFRED LEE, Chaplain, U. S. N.

THE OLD POWHATAN.

THE following has been received by Mr. Chas. H. Haswell, of New York:

NAVY DEPARTMENT,
BUREAU OF STEAM ENGINEERING,
WASHINGTON, Dec. 30, 1886.

Charles H. Haswell, New York:

MY DEAR SIR: By the courtesy of the Honorable Secretary of the Navy, I have the pleasure of sending you for your acceptance the engine room name plate of the United States steamer *Powhatan*, the machinery of which vessel you, as Engineer-in-Chief of the Navy, designed in 1850. The *Powhatan* was undoubtedly the oldest steam vessel of war in active service when the flag was hauled down for the last time in June this year. With her disappearance from the register (now determined) her class becomes extinct. Her career has been a long and useful one. Beginning it under Commodore M. C. Perry she formed part of that expedition sent out by the newest civilization to break through the reserve of the oldest, thereby opening an empire to the knowledge and commerce of the world and adding a people to the comity of nations.

She has served in every quarter of the globe and played an important part in the stirring incident of the littoral contests of the civil war, and until now in the peaceful naval events of later days, when wasted by time and the elements, she is laid aside, utterly worn out. No important change has ever been made in her machinery; it remains substantially as it came from your hand—a relic of the past, but efficient to the end. Left behind by the progress of the art of marine engineering, she overlaps the dividing line between two eras of its development. As your eighth successor in the Navy Department permit me to congratulate you that time has so gently dealt with you, that you are enabled to speak of yourself as "the oldest marine engineer in the world practising his profession." Very sincerely yours,

CHARLES H. LORING,
Engineer-in-Chief, U. S. N.

REVENUE MARINE.

The *Dallas* has been constantly engaged since the beginning of winter cruising for the relief of the vessels which may be in distress, and as soon as provisions and fuel are on board will resume her usual activity.

THE Chicago branch office of Messrs. Merchant and Co. has been transferred from 182 East Kinzie street to 202 Lake street. Extension of business has made this change necessary. Mr. V. Le Nuray, who has been for three years their New York manager, has left for London, Eng., where he will be permanently located, conducting the office that this firm has just opened there.

MORE than $50,000 has thus far been contributed toward a fund for the widow of General John A. Logan. Cornelius Vanderbilt and W. H. Vanderbilt each subscribed $1,000.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.
PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JANUARY 8, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: ARMYNAVY. 240 Broadway, New York.

CONDITION OF THE ARMY.

WE have already quoted the statement of the senior Inspector-General to the effect that there is not a bad or poor regiment in the Army. This is one ot those general remarks the meaning of which lies in its application. Doubtless, there is not a drunken or mutinous regiment in the Service, but does the Inspector-General mean to have it understood that every regiment in our Army is thoroughly instructed in all the requirements of the soldier, that all our officers are vigilant and untiring in the discharge of their duties, and that all the obligations of the regulations are strictly observed? If not, what is meant? Such generalizations are scarcely in place in a report from the Inspector General's Department, to which we look for specific information concerning the Army, that faults may be corrected, and a just discrimination made between the faithful and the negligent. If it is not entirely clear what the Senior Inspector-General does mean, we may, perhaps, be able to form some idea of what he does not mean by turning to the report of one of his subordinates, Lieutenant-Colonel H. M. LAZELLE, U. S. A., Inspector-General, Department of the Columbia. Colonel LAZELLE makes some pungent criticisms upon the discipline, deportment, etc., of the troops in that Department, which formed the basis of a General Order by Major-General HOWARD, to which we referred a few weeks ago. Colonel LAZELLE's remarks are well worthy of attention. He says:

While rigid exactions in the minutiæ of a soldier's life are apt to be irksome, yet there is a way to impress observance of details so that the pride of the man will be stimulated, since they embrace many of the elements that make to the recruit a military life attractive; and, besides, there is no question but that forms and ceremonies, great and small, do, in their aggregate, largely affect discipline. These faults are not those of the enlisted men only, for the example at most posts is not set by the officers.

Conspicuous among these smaller matters are failures of the men to give the tactical military salute; and of officers to exact it at all times, and to properly return it.

The proper dress for the day or season is not usually prescribed by the commanding officer, and there is not unfrequently worn by officers a mixture of uniform and citizen dress, or of a dress only partially that required for the occasion; or the uniform is not worn as it is intended to be worn: of course, in the face of this practice, the enlisted man is too apt to regulate his own dress accordingly, and it follows that there is much carelessness in dress. Unauthorized straw or felt hats are worn by officers and by enlisted men; blouses of the men are worn unbuttoned in imitation of similar laxity of dress by their officers; trousers of the men, when not under arms, are not unfrequently seen rolled on one or both legs, and the coat or blouse is often soiled, or even very dirty. At some posts enlisted men are allowed to drive in carriages about and through the garrison; and at some to go on pass in citizen dress.

There is not unfrequently insufficient weight given by officers to the effect of their own bearing in the presence of the men, and not sufficient importance attached to maintaining at all times dignity of official conduct, and in extending to the soldier the politeness and patience due him and demanded of him toward his superiors. A languid, drooping mien and dragging gait are noticeable among men at every post. The setting up drill should be insisted upon until an erect figure is assured, and those marked military defects are removed. At no posts of the Department is sufficient attention paid to the setting up drill, so as to impress upon the enlisted men an erect carriage and soldierly bearing. This, and other failures, some of which have been noticed, combine to effect that marked contrast so prominent between the cleanly, well set up, trim and military looking soldier, the ideal of the military service of every country, and the average enlisted man of our own garrisons.

Under the special head of "Discipline," Colonel LAZELLE points out many failures and neglects which seriously affect the best interests of the Service. Among them we note: The use of public horses and vehicles for private purposes, expressly prohibited; the failure to publish at garrison parade formations—by the adjutant—Department, Division and War Department orders, and to publish the Articles of War, as required:

The failure of commissioned officers of companies to attend the roll calls of reveille, retreat and tattoo, as required; the galloping, unnecessarily, of public horses. To the requirements—not observed—embraced in paragraphs 177, 178, 179, 180, 181, 182 and 183, A. R., as to the management of companies, troops and batteries. To the care of public horses by battery and troop commanders, as laid down in paragraphs 301, 302, 303, 304, 305 and 309, A. R., and not carried out. To the frequent examination of the clothing of the enlisted men and to the proper marking of the same. To the supplying of companies and keeping on hand a full amount of barrack chairs, ammunition, stencil, fatigue suits, canteen covers, pistol belts for sergeants, and all other improved and extended allowances now accorded enlisted men. To the want of attention given to post schools by company and commanding officers. To the regulation of prices of post traders, the failure of post commanders to enforce recitations of men and officers, the failure of company commanders to keep in a complete manner their company books and records, the failure of company officers to make proper inspections of their companies, and of the use of oil lamps in barracks, as required, the failure of company officers to inquire at once and on the spot into all cases of confinements of men of their companies by non-commissioned officers.

There is not a post in the Department at which the regulation that there shall be one dress parade daily, the weather permitting, is observed; not a troop of cavalry where the regulation respecting the stuffing of horses' feet, and but one where that of the troop stable guard is carried out; but a few companies where the prices allowed for altering clothing are those laid down in the Regulations, and no more; not a company where the police regulations for police of companies and the care of arms, ammunition, equipments, as laid down on page 25, A. R., are fully carried out.

In closing this portion of his report he says:

The enlisted man should be given clearly and definitely to understand that he has the privilege at all times of access to his company commander, unrestrained in any manner by the non-commissioned officers of the company, and without asking their permission; and they should be further made to fully understand that they also have the right of appeal at any time to the commanding officer of the post. Developments at some posts show that this is not the case, and that the privilege of an interview with the commanding officer of the company is made to depend too much on the consent of the non-commissioned officers.

Under the head of "Post Schools," he says:

Instruction should not be left as now, to the whim of the enlisted men, but, as *it is imposed by law as a military measure*, and is made *a feature of the soldier's duty* and position, it *should be enforced* by exacting methods, and *all* enlisted men *should be compelled* to regularly attend post school instruction. I desire especially to point out and to make conspicuous the fact that post schools *are now utterly ineffectual* in this Department, simply through the failure of commanding officers of posts to enforce attendance; thus placing the very existence of the school at the will of the enlisted man and allowing him to judge of its usefulness.

These extracts furnish matter for grave reflection. No one doubts that our Regular troops when called upon for active service will cheerfully and efficiently perform the duty required of them, but the country has a right to expect as well, a rigid and constant attention to the minutiæ of garrison routine. No officer or enlisted man has the shadow of a right to complain that the military duties required in time of peace are irksome or laborious, or even to indicate by the slightest inattention that any of the daily routine is deemed unnecessary. We are aware that its constant repetition, year in and year out, in a spirit wholly perfunctory, is wearisome, but this is because listlessness and indifference are allowed to take the place of the zeal and active interest which should characterize a man in the practice of his chosen profession. As we said a few days ago, in referring to discipline in the militia, upon the officers rests a heavy responsibility in this matter, and to shirk it, even in the slightest degree, is to violate the solemn obligations of their office. The officers of our Army are not under the same stimulus of imperative necessity in practicing the routine of their profession, which impels those whose daily living depends upon it, but the obligation upon them is none the less exacting. It is a debt of honor from which there should be no escape.

STEEL AND COMPOUND ARMOR.

IN view of the importance of the question of armor and guns it is most unfortunate that pecuniary interests should be suffered to bias the judgment of some of our officers in considering the claims of rival manufacturers. The effect of this is shown in the attempt to make it appear that the question of armor has been practically closed in favor of steel. How far this is from being the case is shown by the statement that no country is yet committed to steel as against compound armor, and that of fourteen countries which have made use of armor but four have used steel at all, the others adopting compound ar-

mor. The list as given by that excellent authority, the London *Engineer*, is: England, compound; Argentine Republic, compound; America, compound, (but we fancy steel will be tried, it adds); Austria, compound; Brazil, compound; China, compound; Denmark, compound; France, compound and steel; Germany, compound; Holland, compound; Italy, *Italia* only compound, the other vessels steel; Russia, compound; Spain, steel recently ordered for one ship, compound talked of for another; Sweden, compound and steel.

The makers, *Engineer* says, are for *steel:* Schneider, at Creusot. For *compound* (on Ellis' patent): Brown, at Sheffield (and on Wilson's patent); Cammell, at Sheffield; Marrel, at Rive de Gier, Loire; La Compagnie Anonyme des Forges, at Paris; La Compagnie des Hauts Fourneaux, St. Chamond; the Dillinger Works, in Germany; and Tjora Iron Works, Kolpino, St. Petersburg.

At the conclusion of a long article summing up the question of steel and steel faced armor, the *Engineer* says: "We should be very glad to see steel tried in this country. The question of superiority is quite an open one yet. The prospects of success for solid steel would, we think, under present circumstances, much depend on the power to give it a harder face than has hitherto been given to it, coupled with a softer back. It must, also, we think, be shown to be free from the liability to spontaneous fracture or brittleness from atmospheric conditions. There is something pitiful in the thermometer being consulted and in the circumstance of a steel plate having to be warmed before firing at it, as we are informed took place at Amager in the winter of 1883-1884. Should the Admiralty change their minds, and conclude that the fact of plates breaking through does not signify so long as they are held in the place by bolts, the prospects of steel in this country will be much improved; but compound steel would, we think, in the long run, have a better chance than solid steel. So long as we expect to take down our plates intact and look at their backs after impact; and further, if we test them under oblique fire where a hard surface tells most, and if we back them well, we think solid steel is a long way from competing successfully with compound plates. At some future time steel may probably become more trustworthy, it may possibly eventually attain the property of elongating instead of cracking under the blows of shot; but this is almost saying what we all know, that steel is daily made more and more like wrought iron in a pure form. At present those who employ them on their ships must take a practical view of the matter and choose between the properties possessed by the two kinds of armor as they are now presented to us, or are likely to be presented for some time to come. *Compound armor*, with *a steel face and soft iron back*, is likely to hold its own as the safest and most reliable plate for ships under present circumstances, while for facing granite or other hard material it has shown extraordinary powers."

The attempt to prejudge this question ought not to deceive our officers, now that the motives that prompt the expression of interested opinions have been made apparent to them. They should bear in mind the fact that the question of armor is one which involves large pecuniary interests, and that the usual commercial methods will be taken to bias public opinion. We propose to set the question fairly before readers, and our columns are always open to the presentation of facts on either side of the controversy between steel and compound armor. We have said so much as we have concerning compound armor because of an obvious attempt to ignore or misrepresent the facts concerning it.

We remember hearing a distinguished officer of the Navy once say that when he was a middy he would go on a lark with a lot of roystering young fellows, and while the others filled themselves full he never drank a drop; yet he was soon the "drunkest of the party," to judge from his actions and the evidence they gave of artificial exhilaration. This case would seem to furnish evidence in support of the novel theory propounded by Dr. T. D. Crothers, in the "Alienist and Neuralogist," to the effect that intoxication is contagious. The learned doctor claims that a perfectly sober man, brought in contact with drunken men, may become drunk himself to all practical intents, or an equally sober person, whose parents, one or both, were hard drinkers, may, when exposed to some sudden mental shock, apparently become fully intoxicated. Dr. Crothers supports this remarkable hypothesis by a number of specific cases, one that of a society man who was very abstemious. "For several years it was noticed that after an hour or more spent in company of men who had been drinking he would take on their condition, and, like them, become intoxicated. He would be with them hilarious or stupid, and use only coffee moderately, while the others drank wine. Sometimes these states would go so far as to make him stupid and unable to walk, and he would need the assistance of a guide and a carriage to get home. The next morning he would have a headache." Another case is that of a "wealthy farmer and strong temperance man" who was sent to Congress. "He formed a strong attachment for a hard drinking man in the same body, and after being in his company for a few hours would walk and talk like him." We have observed similar phenomena in cases where the "attachment" was not so strong, but where the results of association with a drinking party was equally remarkable, and equally unaccountable, according to the testimony of the party principally concerned when called upon to explain. The effect of so mild a beverage as "cold tea," taken under similar convivial circumstances, is one of the recognized phenomena of Washington political life. We record the theory for the benefit of our readers, some of whom may possibly find it of use to them in course of the varied experiences of a checkered life. If this theory had been propounded at an earlier date it would have been of great service to gentlemen who have been called upon to explain, under circumstances similar to those that embarrassed Mr. Travis when he retired to his domestic couch at an early hour in the morning with his hat on.

It is notable, says the Philadelphia *Press*, how the Northern heroes have almost entirely faded from the list of political distinction. Grant, Hayes and Garfield were elected to the Presidency because they were distinguished on the field, and McClellan and Hancock, two of the most gallant Democratic soldiers of the land, were the competitors of Grant and Garfield in Presidential contests, but the last national political conflict presented but one soldier out of the four candidates on the two great party tickets. While Confederate heroes yet speak for almost every Southern State in the United States Senate, it is remarkable that the next Senate will have very few, if any, of the great warriors of the North. There is not a Republican soldier Senator from any of the States of the Pacific slope, and the three soldier Senators of the North who achieved national fame as warriors, are about to end their terms with no certainty of the re-election of either. General Joseph R. Hawley, of Connecticut; General W. J. Sewell, of New Jersey, and General Benjamin Harrison, of Indiana. If these three prominent Union soldiers shall be retired, the next Senate will not contain a single Union warrior of distinction. In the South the leaders in the field are the leaders in the forum; the leaders in war are the leaders in peace. In the North, the leaders in war have faded away as the leaders in politics became masters; and it is confessed that the leaders of both sides in the flame of battle, have done most to efface sectional estrangement and restore the Union to a common brotherhood. They have been generous in peace as they were heroic in war, and they have been scrupulous in their devotion to the liberty of law.

Captain Sicard, Commander Folger and Lieutenant Couden, of the Ordnance Bureau of the Navy, Captain Rogers Birnie, Ordnance Department of the Army, and Mr. Morgan, of the Columbia Iron Works, were at Annapolis on Thursday to witness some experiments with the 5-inch steel gun firing an armor piercing projectile against a sample armor plate submitted by the Midvale Steel Works. It is supposed that the experiments were made for the purpose of establishing certain theories in regard to thickness, weights, etc., of armor plates before issuing the steel circular which the Navy Department has had in course of preparation so long. It is stated that Captain Birnie will write a valuable paper on steel forgings for armor plates and gun construction, based upon the result of the trials at Annapolis.

The dynamite gun board convened at the Navy Department on Wednesday to consult with President Schuyler, of the Gun Company, and his experts as to the professional requirements to be embraced in the specifications. Secretary Whitney, who takes considerable interest in the matter, was with the board for two hours on Wednesday and took an active part in the discussion. Again, on Thursday, he attended the meeting of the board. The board adjourned on Thursday subject to the call of the President, Captain Howell, after having effected an agreement with representatives of the company upon all the professional details of the specifications, submitted them to Colonel Remey for his guidance in drawing up in legal form the papers necessary to close the contract with the company, as provided for by act of Congress.

Senator Edmunds, by direction of the Committee on Foreign Relations, on Thursday, reported favorably the Nicaragua Canal bill. It creates Frederick Billings, Charles P. Daly, H. L. Hotchkiss, Francis A. Stout, W. B. Franklin, Danl. Ammen, Wm. L. Morry, Horace Davis, Edward F. Beale, James H. McMullin, Sheppard Homans, and their associates and successors a body corporate under the name of the "Maritime Canal Company of Nicaragua," for the purpose of enjoying all rights contained in any canal concession made to them by Nicaragua or Costa Rica. The capital stock shall consist of not less than 500,000 or more than 1,000,000 shares of $10 each, of which ten per cent. shall be payable at the time of subscription. The company's affairs shall be managed by eleven directors, citizens of the United States and Nicaragua, of whom one may be appointed by each of the two countries. The tolls for passage through the canal shall be reasonable and not in excess of $2.50 per ton of freight. The United States may exercise such control over the canal as is not inconsistent with treaty obligations. The privileges granted shall expire unless $10,000,000 of the capital stock is subscribed for within two years and work actually begun within four years. Congress has power to alter, amend, or repeal the bill.

In an article on "Lives Shortened by the War" the Chicago *Journal* says: "Gen. Grant died at the age of 63. Gen. Logan died at the age of 63. Gen. Hancock died at the age of 61. Gen. McClellan died at the age of 60. Gen. Halleck died at 59. Gen. Geo. G. Meade died at 57. Gen. George H. Thomas died at 54. Gen. W. T. Sherman is the only one of the few greatest Generals of the war who has passed far beyond the fatal 63, and Farragut, its greatest naval hero, died at 69. Grant, Logan, Hancock and McClellan were men who, in the ordinary course of nature and in circumstances of peaceful life, would have lived, if not to extreme at least to advanced old age." It is hard to trace any connection between war service and the deaths of Grant and Hancock. The heart symptoms of Logan and McClellan establish a more definite relation between the two.

An editorial in the Chicago *Arbeiter Zeitung* of Dec 29, concludes as follows: "When the capitalists have created a standing Army, a military station, 'Fort Logan,' that means civil war and death and destruction to the workingmen. The workingmen, the small tradesmen, the farmers, all thinking and liberty-loving men, have but one answer for that, namely, arming. Arm yourselves with the cheapest, the best, the most effective arms—such as can be handled easiest—whether Gatling guns, Winchester rifles, or pistols. Workingmen, be men! Do not stand by idle and without plan when your enemies are arming to annihilate you. Your honor, your self-esteem, demands this of you. Now there is time, but it may soon be too late." This article has, it is said, been laid before the State's Attorney.

General Sherman is quoted as saying: "Von Moltke is a man of peculiar genius. He knows how many people there are in every part of Europe, how many horses, mules, cattle, pigs and chickens they have; where all the roads are and their conditions at different seasons of the year; all the rivers and the best places to ford them; where all the bridges are, and whether they are of stone, iron or wood. He knows his army as thoroughly as he does the country, and it is to his ability to put this knowledge to use that he owes his success."

The Board of U. S. Engineers, appointed by the War Department to take testimony on the subject of building a bridge across the Mississippi River at St. Louis, have finished their hearing and are unanimous in their opinion that the city needs a bridge besides the present one, but have reserved their decision as to whether it should be a high or a low one.

The following resolution of the St. Paul Chamber of Commerce, in regard to the enlargement of Fort Snelling, was presented in the House on Tuesday by Mr. White, of Minn.:

Resolved, That the post at Fort Snelling, being one of the most, if not the most, available, healthful and economical of the military sections of the United States, and its utilization as a fourteen company post is demanded by the needs of the Northwest, and the best interests of the military service of the United States and that the necessary amount should, in the opinion of this chamber, be at once appropriated for the purpose.

In the passage of the West Point Appropriation bill Congress has approved the recommendations of the Board of Visitors, including the reconstruction of the Academy building, giving to the departments of philosophy and chemistry the facilities they have so long needed; also better accommoda-

tions for the gymnasium, and, in addition, 16 sets of quarters for married soldiers, who are now very badly provided for, as well as a suitable building for the Quartermaster's stores and workshops.

THE House had a field day on Thursday on the bill to reorganize and consolidate the Bureaus of the Navy Department. Mr. Boutelle, of Maine, and ex-Secretary Goff, of West Virginia, opposed the bill. They endeavored to show that it was simply another phase of the old fight between the staff and the Line and that the bill was framed from the ideas of Chiefs of Bureaus Harmony, Walker and Schley, who want to have control of the workings of the engineers; and subordinate the latter to the position of mere engine drivers, while they exercise the authority and get the credit for the work done by the engineers. They found in the present system a further division of our system of Government, similar to the sub-division of the other departments and about which no fault is found. The present bill, they argue, does not change the present system except to substitute for the present technical heads of bureaus non-technical figure-heads, who must come between the Secretary and those who actually carry on the work.

At the meeting of the New York Chamber of Commerce on Wednesday, Messrs. Ambrose Snow, Edward L. Molineux, and Norman S. Bentley, from the Committee on Harbor Defence presented a long and interesting report on the condition of our coast defences and recommending the passage of a series of resolutions, which were adopted and have been forwarded to Washington. They are as follows:

Resolved, That in the opinion of this Chamber any longer delay on the part of those whose duty is is to provide adequate protection for our harbors is, in its judgment, intolerable in the view of the enormous interests exposed to attack.

Resolved, That this Chamber earnestly entreat the Government to enter upon the work of placing New York harbor in such a condition of military defence as the exigency of the case demands, and that as parts of such defence which can be made available at an early day, Congress be urged to make at once the necessary appropriations to provide for perfecting for the large seaboard cities systems of torpedo defence and adequate mortar batteries, and that New York as the chief of such cities, and the great storehouse of the nation's movable wealth, has especial claims for immediate action by Congress for her protection.

Resolved, That this Chamber hereby urges upon Congress the prompt passage of the measure lately introduced by Hon. S. S. Cox, of this city, providing for the appropriation of $30,000,000 for seaport defences, or a similar bill for the same object.

The Committee severely arraign the Ordnance Department, of which they say: "By its ungenerous treatment and apparently needless delays and exactions in dealing with inventors and manufacturers the Ordnance Department has become, as openly charged, a costly obstruction and an ineffective assistance to the progress that ought to or might have been made by this country and its people, inventors and manufacturers, in the science of ordnance. Your committee, not adopting this suggestion as their own, are yet impressed by the fact that neither England, France, Germany nor Italy has a bureau similar or kindred to our own Ordnance Department, nor has it by those nations been found necessary or desirable."

THE FORTY-NINTH CONGRESS.

The Senate Military Committee did not have a meeting this week. Before the committee meets again, it is expected that Senator Sewell will be announced as chairman in place of the late General Logan. Senator Allison, chairman of the Senate Appropriation Committee, it is understood, will take General Logan's place as chairman of the sub-committee in charge of the Army Appropriation Bill. He has not yet announced any of the sub-committees for this session, but it is expected that the Army bill will be placed in the hands of himself, Plumb and Gorman. No action has been taken on this measure since it came from the House.

The Senate Committee on Naval Affairs held a short session on Wednesday, during which the bill providing for the retirement of Commodore Truxtun with the rank of Rear Admiral was considered and favorably acted upon. There were no Navy nominations pending, favorable action having been taken on all of them at the meeting just before the recess.

In the Senate a number of small bills have been passed, among those the following:

S. 3023. Authorizing the Kansas, Texas and Southwestern R. R. Co. to build its road across the Fort Hayes military reservation.

S. 3050. Granting a pension of $2,000 per annum to the widow of John A. Logan.

S. 3087. To increase the pension of the widow of Francis P. Blair, Jr., to $2,000.

H. R. 1085. To appoint Albion S. Keith an ensign in the U. S. Navy on the retired list.

The Secretary of State has recommended to the Senate Foreign Affairs Committee that $100,000 be appropriated for the expenses of a preliminary reconnoisance, under the control of Army officers, to examine the configuration of the conventional boundary line between Alaska and British Columbia, following the coast from Portland channel to the 141st Meridian, and ascertain and report how far the natural features of the country permit the accurate location of the line of demarkation contemplated by the III. and IV. articles of the convention between Great Britian and Russia. In connection with the proposed survey the Secretary of State has submitted to the committee a memorandum from Lieut. Richardson Clover, U. S. N., suggesting that the work should be performed by naval officers. He states that:

All surveys in Alaska have been made by naval officers either in naval vessels or by naval parties in the Coast Survey. No surveys have been made by the Army. No attempt was made by them because it was impracticable for land parties to move over the country, and for which reason the Army was entirely withdrawn from this Territory and replaced by the Navy, 1877, in military occupation. Should this work be assigned to the Navy economy and despatch will result.

Senator Williams presented in the Senate on Thursday a copy of the resolutions passed by the California Commandery of Military Order of the Loyal Legion of the U. S., Nov. 10th last, urging the Senators and Representatives from California to use their best efforts towards the passage of an act permitting officers and enlisted men of the Army, Navy, and Marine Corps, who are companions of the Military Order of the Loyal Legion or comrades of the Grand Army of the Republic, to wear the insignia of their organization when in uniform while on duty.

An effort is being made by Senator Dawes to secure a meeting of the conference committee on the fortification bill on Friday night, Jan. 7. The members are now all in Washington.

The Secretary of War, in compliance with a resolution of the Senate offered by Senator Mitchell, has sent to that body a letter from Gen. Parke stating that Major Jones, the engineer formerly in charge of the improvements at the Cascades of the Columbia, in Oregon, was relieved by Capt. Powell for the reason that Gen. Parke was "not willing to assume the responsibility of recommending or authorizing the approval of a projeet for a work of this character of an officer whose administrative skill, capacity, and ability were not satisfactory to me, but in order that there should be no further delay in the work, I was perfectly ready to make a recommendation in the case, and that was for Capt. Powell to relieve Major Jones of the charge of the improvement. This was authorized by the Secretary of War, and the transfer was thereupon effected."

The House has settled down to work after the holiday vacation with a very industrious and business like air. Three appropriation bills—the Military Academy, Pension and Indian—have been passed in short order, and the naval reorganization bill is now going through the mill with very fair prospects of coming out as an act before the week closes.

BILLS INTRODUCED.

S. 3078, Plumb. That all officers of the volunteer army in the War of the Rebellion who served the full term of enlistment and were honorably discharged, shall be entitled to receive extra pay as follows, viz.: Where the enlistment was for the term of one year, one month's pay proper; where the enlistment was for the term of two years, two months' pay proper; where the enlistment was for the term of three years, three months' pay proper: *Provided*, They have not already received the benefits of the act approved March 3, 1865, and the amendatory act approved July 13, 1866.

S. 3079, Plumb. That the Secretary of War is directed to procure a suitable medal to be presented to the survivors of the "forlorn hope" storming party against the works at Port Hudson, June 15, 1863, in fulfilment of the promises made by Major-General Banks, commanding the Department of the Gulf, and contained in General Orders 49.

Sec. 2. That for the purpose of this act a sum sufficient is hereby appropriated out of any monies in the Treasury not otherwise appropriated.

S. 3086, Manderson. *Whereas*, In pursuance of Article I. of a treaty made and entered into 1882, by and between the U. S. and Mexico, it was agreed "that the Regular Federal troops of the two republics may reciprocally cross the boundary line of the two countries when they are in close pursuit of a band of savage Indians," upon conditions stated in said treaty, and

Whereas, It appears from the last report of the Secretary of War that Captain Emmet Crawford, of the U. S. A., in company with Lieuts. Maus and Faison, of the 1st Regular Infantry, and Lieut. Shipp, of the 10th Regular Cavalry, and Asst. Surg. Davis, of the Regular Army, with an organized battalion, entered Mexico in close pursuit of hostile and fleeing Apaches, and

Whereas, It further appears from said report of the Secretary of War, that on the 11th day of January, 1886, Captain Crawford's camp in Mexico was attacked by Mexican soldiers and that while that officer, in uniform was holding a parley with said Mexican troops he was shot down and killed, and

Whereas, It further appears from said report of the Secretary of War that no claim has been made for indemnity for such killing, and that the War Department no longer has the matter concerning the death of Capt. Crawford in charge, and

Whereas, It further appears from said report that the conduct of said Mexican troops was utterly unjustifiable, and

Whereas, Capt. Crawford was an officer in the full vigor of manhood, a soldier of great endurance, energy and courage who had exhibited skill, sagacity and great perseverance, therefore, be it enacted, etc., That the Secretary of the Treasury is authorized to pay to the heirs or legal representatives of the late Capt. Emmet Crawford, U. S. Army, the sum of $20,000 out of any monies in the Treasuary not otherwise appropriated.

HOW TO RECRUIT OUR ARMY.

To the Editor of the Army and Navy Journal:

THE constantly recurring complaints of desertion from the Army and the various explanations as to the causes leading to it, have been noted by the readers of your JOURNAL. Efforts to better the condition of the enlisted men are, no doubt, honestly being made, but I question if any plan will result in giving stability to the floating and adventurous material that the recruiting officers get hold of, under our present system. Every officer of practical experience knows how easy it is to command a good man, and how hard it is to satisfy a man of no character and no ambition by any concession whatever. The U. S. Government certainly provides amply for its Army all necessaries of life, and it is rarely the case that a soldier is treated unjustly in the Service. The contemplation of his present condition does, in no wise, disturb the soldier, but the fact that he has no future, leaves him without incentive to extra exertion.

Procure, by proper means, good material for soldiers and fix some sure reward for faithful work *as soldiers*, and see if the end is not the finest Army in the world, physically and otherwise. I feel great delicacy in suggesting any plan that might lead to some of those necessary improvements, but can only convey to you my idea by putting it in that shape.

Gen. Howard's suggestion as to classing the privates, is a step in the right direction, but it is not all that should be done. Let there be more than two classes, say: Cadets, 1st and 2d class privates, with privileges attaching to each. Select officers from the cadets, and non-com. officers from the 1st class privates, always rewarding such as have shown diligence, courage and efficiency in the discharge of the duties of a *soldier*, and never seeking evidence of such efficiency at the clerk's desk, to the prejudice of those who have earned their rewards in more exposed situations. Keep a good per cent. of the vacancies in the Army open for promotion of distinguished Army cadets, and promptly reward every act of gallantry on the field.

Now for the recruiting! There are 430 companies, troops, and batteries in the line, about one company to each Congressional District in the United States. There are now not so many as 430 Congressional Districts, but there probably will be when the next apportionment is made; in the meantime, such assignment of recruiting officers as will most nearly conform to the political division referred to. Assign recruiting officers of regiments to certain specified territory, grouping Congressional Districts, say, eight or ten to each regiment. Instruct the officers to encourage enlistments from each of such districts, bearing in mind that each district is to furnish recruits for a certain company in his regiment.

This arrangement to be permanent, and to this end some plan must be fallen on to insure and foster the sympathy of the people of that particular section in its own company (as you may say). It might be urged that the requisite number of enlistments could not be secured in every one of the Congressional Districts, as enlistments in the Regular Army are not alike popular in all sections. Such, of course, is the fact now, but by the adoption of the proposed plan, why may not all prejudice against the Service gradually be removed, and, as above suggested, the sympathy of all be as certain to follow the volunteer in time of peace as war, especially when such volunteers are of respectable connection at home.

I think the recruiting in this manner will, in the end, be as successful as under the present plan, and will result in benefit to the Service and the country in several ways:

1st. Because, by establishing recruiting agencies in every section of the country and getting away from large cities, the Army will not depend so entirely upon the floating element found in those centres, but, on the contrary, will be recruited largely from the native element, which will make it a representative body of the whole country.

2d. By going out among the rural population and assigning certain organizations to certain localities, you will appeal to the local pride of the people to keep their own special organization in good condition, and the adventurous youth, knowing who his associates will be, will not be hindered from gratifying his laudable ambition to learn the trade of a soldier.

3d. The coming and going of the soldiers from all neighborhoods will be an invaluable means of informing the people of the employment and utility of the Regular Army, and foster their regard for an organization of which their own boys form a part.

And in case of war, by disbanding the Regular Army and sending all the officers and enlisted men, that can be spared, to their own sections, to organize volunteers, how quickly would such distribution of educated and trained men show itself in the prompt preparation of regiments for the field!

When the country is cognizant of this plan of the U. S. Government to train soldiers in all States to organize and lead their volunteers in time of war, they would, at once, acknowledge its utility and cheerfully fall into the plan. By thus sending home their native element to each State, how quickly would the State executive make use of their services in preparing his raw levies for effective service.

Thus the whole Army would become a school in which to prepare young men, from every section, to serve their common country, and each neighborhood would willingly place themselves under the command of a Regular soldier, known to them, personally, and who would be able to discipline them in the shortest possible time.

The soldiers of the late war will soon pass away, and some such plan as this becomes more necessary in view of that fact. Does not this plan seem to suggest a possible nearer approach to sympathy between the Army and the people at large?

The writer would be glad to hear what objections can and will be urged against it. He believes the Army is commanded by one of the ablest soldiers in the world, and that its A. General, has as much common sense as often falls to the lot of man, and that possibly both of them will not hesitate to appreciate these thoughts at their true worth, be that little or much.

I would like to say something in regard to the manner of appointing cadets to West Point and Annapolis, but will defer that for the present.

"SERVICE."

LINCOLNTON, NORTH CAROLINA.

BY the resignation of Captain Greene, of the Engineer Corps, Additional Second Lieutenant Thomas H. Rees, the last of the surplus graduates of 1886, advances to a full second lieutenancy; and January 10th, when Col. Blunt retires, a vacancy will exist for one of the graduates of this year. The promotions to follow Col. Blunt's retirement are:—Lieut. Col. Craighill to be colonel, Major Charles R. Suter to be lieut. colonel, Capt. H. M. Adams to be major, 1st Lieut. Walter L. Fish to be captain, and 2nd Lieut. Gillette to 1st lieutenant. Then following Capt. Greene's resignation are: Lieut. Black to captain, 2nd Lieut. Chittenden to 1st lieutenant, Additional 2nd Lieut. Rees to 2nd lieutenant. These are, of course, dependent upon possible action by the examining board.

The following Army Officers registered at the War Department this week:—1st Lt. A. R. Paxton, 15th Inf.; Capt. L. A. Matile, 11th Inf.; 1st Lieut. W. Mott, 8th Inf.; 1st Lieut. F. H. Hardie, R.Q.M. 3rd Cav.; Capt. Geo. S. Wilson, 12th Inf.; 1st Lt. Geo. B. Davis, 5th Cav., 2nd Lt. Charles G. Treat, 5th Arty.; Col. C. C. Gilbert, Retired; Col. John Hamilton, 5th Arty.

Paymaster F. H. Arms, Naval Cadets, W. S. Cloke, B. S. Newman, Harry North, H. K. Benham, George Breed, and Asst. Engineer F. C. Bieg, U. S. Navy, registered at the Carrollton, Baltimore, this week.

THE painful news reached the War Department on Friday that Major Duncan M. Vance, 13th Inf. who is on sick leave at St. Augustine, Fla., has become hopelessly insane. He will probably be brought to the Insane Asylum at Washington.

GENERAL GRANT AND HIS FRIENDS.

IN an article in the N. Y. *Tribune* Adam Badeau says: "Though Gen. Grant had the apparent wisdom to select the side that he wished to show to any man, he was not always wise in selecting the individual to whom he showed it. The greatest mistakes in his career, the greatest misfortunes of his life, came from his mischoice of friends. He sometimes seemed to know men marvellously well; he detected the aims and wishes and characters of many who were close or sought to be close associates; but at other times he was absolutely blind to acts and traits that were apparent to many lookers on. Those who professed admiration and devotion could win their way very far, and sometimes very easily with him; and many of these used him for their own purposes and to his harm. Ferdinand Ward is, of course, the conspicuous example. I remember telling Horace Porter of the enormous sums that Grant thought he was making in business, and Porter, as a business man, replied that it was impossible to make them legitimately; that there must be something wrong of which the General was ignorant. He told me afterward that he went once to Grant's house to warn him against Ward, whose conduct seemed to him dangerous if not suspicious, but that while he was there Ward was announced and the manner of the General to his partner was such that Porter, Grant's former secretary and aide-de-camp, did not feel warranted in uttering what he feared. It would probably have been useless to attempt to interfere. Mrs. Grant herself had her anxieties and suspicions in regard to Ward, but was unable to insinuate them. More than once, indeed, she cautioned Gen. Grant against his intimates, but in vain. He was the most steadfast man imaginable when his friends were assailed. If this was a fault, how rare, how noble a failing!"

JOHN A. LOGAN.

THE *Medical Record* says: "The case of the late Gen. Logan appears to be one of those rare ones in which acute rheumatism causes a rapid and fatal issue. On Dec. 12, Dr. J. H. Baxter of Washington, D. C., was called to see him, and found him suffering from acute rheumatism, involving the right wrist. He improved until the 17th, when he had a relapse, the hips, ankles, feet, and both wrists becoming involved. Brain symptoms also appeared at this time. Though there was some temporary improvement on the 21st and 22d, the symptoms on the whole became gradually more severe, the intervals of full consciousness shorter, until early on the morning of Dec. 26, when he became comatose. He died twelve hours later. The cerebral symptoms were those of congestion of the brain. Acute rheumatism is so rarely a cause of death that some complication is expected, and almost always found, in fatal cases. When death does occur it is, as a rule, with cerebral symptoms, as was the case with Senator Logan. Such symptoms are most liable to develop in persons whose nervous system has been subjected to tremendous strains, or to the toxic effects of narcotics and stimulants. No doubt the exhausting political and literary labors of the deceased had made it possible for the rheumatic poison to attack and paralyze his nervous centres, thus bringing to a fatal issue a disease that in ninety-seven per cent. of cases is perfectly free from danger to life."

Gen. Sherman has written a glowing letter of praise of Gen. Logan, which appears in the N. Y. *Tribune* of Monday last. He explains that he had a dread of "political generals," and when Logan and Blair left the Army to make speeches on the stump he did not know they had been requested so to do by President Lincoln, the Commander-in-Chief. Hence it was that he appointed Howard to succeed McPherson instead of Logan. He now ranks the latter as the ablest, truest, and bravest of volunteer officers of the late war for the perpetuation of the Union.

He gives a letter from Gen. Logan dated Feb. 18, 1883, in which Logan says: In 1863, when I went home to canvass in Illinois, and to help in Ohio, Gen. Grant was fully advised, and knows that although I had to make application for leave of absence, I did not do it of my own volition, but at the request of those high in authority. So when I left on leave, after the Atlanta campaign, to canvass for Mr. Lincoln, I did it at the special and private request of the then President. This I kept to myself, and have never made it public, nor do I propose to do so now, but feel that I may in confidence say this to you, that you may see what prompted my action in the premises. I have borne for this reason whatever I may have suffered by way of criticism, rather than turn criticism on the dead.

"Senator Logan," says a writer in the Philadelphia *Times*, "was not a money-making man. Fifteen years ago it was estimated that he owned property in and around Chicago that was worth about $100,000, but the panic of 1873 cleaned him out, and he has since had nothing to depend upon but his salary of $5,000 a year as Senator. Several years ago he owned a farm in Illinois, and although he was warned that a geological survey of the State proved that there could not be coal on his property, a rascally contractor came along who insisted on the contrary. He said that he would drill down after coal on the farm, and if he did not find it he would charge nothing. If he was successful he was to be paid $6,000. Logan thought it was a good offer and accepted it. The fellow ran his drill down about 300 feet and found nothing, but 'salted' the hole with specimens which he carried to the General, who paid his $6,000, and the rascal decamped. At an expense of about $20.000 Logan caused a shaft to be sunk to the point where the swindling contractor declared he had discovered a vein of coal, and then the fraud was discovered. The sharp was never found out afterwards, and Gen. Logan bore the loss."

"Did you ever put on the gloves with Gen. Logan?" asked a *Star* reporter of Professor Collins, the boxing master, better known as the "cast-iron man."

"Hundreds of times," was the reply. "I had him under my care for years."

"Was he handy with his fists?"

"He was the best two-handed man I ever saw in my life, amateur or professional," said the Professor emphatically. "He was a natural-born fighter. I never saw his like. He was powerful, and a hard and quick hitter. I never thought he would die so easily. I was with him up to within a few hours of his death, and I thought that his wonderful physique would pull him through."

"It has been said that the General was such a good fighter that on one occasion he knocked you out. How is that?" asked the reporter.

"That's the truth," acknowledged the Professor. "He knocked me clear over a big armchair that he had in his room. It was a terrific blow. I gave him two black eyes in that same encounter, and he carried them with him to the Senate. Senator Oglesby was a spectator of the bout, and when it grew warm he tried to stop it. He couldn't, though. The General stopped it himself. He certainly hit me hard. The stories about his agility and strength have not been exaggerated in the least."

"Senator Voorhees says he has seen him within a few years turn an air spring in his parlor," said the *Star* man.

"So have I hundreds of times," said the Professor. "I will tell you, he was the best man in every respect that I ever saw, and that means a good deal when you are speaking of fighting."

GENERAL MILES AND GENERAL DRUM.

SOME one writes from Fort Leavenworth to the Kansas City *Times* in answer to an article which recently appeared in the New York *Tribune* purporting to set forth the relations between General Miles and General Drum:

Of course it is nonsense to think that General Drum is jealous of Miles because of the Major-Generalship. Drum retires from active service May 28, 1889, while the first retirement of a Major-General does not take place until Nov. 10, 1891, when General Terry will be retired. Where, then, is there a chance for jealousy? In two years General Drum will have reached the age of 64 years; Terry retires in 1891; Howard in 1892, and Schofield in 1895, as does Sheridan. Crook, now the ranking Brigadier, will probably be promoted in 1891. He retires in 1894. Miles will be promoted in 1892, upon Howard's retirement, and as Schofield remains in the Service six months later than Sheridan, Miles will succeed to the command of the Army in September, 1895, and retain it until 1902, the date of his retirement. Under the law the ranking Major-General assumes command, as the rank of Lieutenant-General expires with the present incumbent. General Miles can afford to bide his time. His prospects are brighter than those of any other officer in the Army to-day. Much has been said about the month's leave of absence General Drum refused to grant to Miles. The statement was sent out at the time, and has continued its travel through the press, that General Miles' child was dangerously ill, and was refused permission by Drum to come to Washington. Those who are acquainted with Miles know him well enough to know that if he were in the field against an enemy he would not ask for leave to go East should even his wife be lying at the point of death. Mrs. Miles is living in Washington and General Drum would not have been so unkind as to refuse a request under the circumstances had he been informed of such dangerous illness of the General's little boy, or had he authority to grant it. This story has been cooked up for the papers and has enjoyed quite a run. But what are the facts? After the close of hostilities in Arizona, General Miles not having seen his family since April—it was then September—he telegraphed the Adjutant-General of the Army for one month's leave. The Adjutant-General had no more authority to grant it than the writer. The President assigned General Miles to duty and he was the only man that could grant such request. Secretary Endicott was absent at the time and General Drum, as Acting Secretary of War, laid the matter before the President. The latter gave instructions to Drum that General Miles be informed that the condition of affairs in Arizona was still too much unsettled to permit his departure. Naturally, General Miles felt aggrieved that his request was not granted and blamed Drum with it, holding that the President had never seen the telegram and that the Acting Secretary of War "did it all himself." General Miles, not discouraged by this refusal, fell back on his influential relatives, not possessed by General Drum, telegraphing Don Cameron of the action of Drum, with the request that he see the President about it. This the Senator did, coming away a much wiser man. The President told him to say to General Miles that he directed General Drum to send the telegram received by him and was responsible for it. The Senator immediately wired to Arizona as follows:

"Miles—The fellow you are kicking about is the President himself. You had better let up. CAMERON."

That was a settler. The General said nothing more, and as soon as the state of affairs in Arizona permitted he was granted the leave asked for.

Lieut. Budlong, this correspondent states, is a nephew of General Drum by marriage, and also of Mr. Manton Marble. He "is not a nephew of Secretary Endicott, was never a superintendent at the prison, nor has he got a $15,000 tradership. General Drum had no interest whatever in getting Budlong appointed as trader, because the appointment is made by the Secretary upon the sole recommendation of the post council, consisting of the three senior officers next to the one in command."

DECISIONS BY THE SECOND COMPTROLLER.

IN the matter of a claim of $45.84, raised against Lieut. John A. Dapray, for mileage from Washington, D. C., to Columbus, Ohio, and from Santa Fe to Watrous, N. M., the Second Comptroller says that the Regulations contemplate that an officer of the Army, absent on leave, shall find his way back to duty at his own expense, and upon this ground the above claim was disallowed. Evidence has been filed, however, to show that Lieut. Dapray was on waiting orders at the time of the receipt of the second order directing him to proceed to Columbus Barracks, Ohio, to take charge of a detachment of recruits at that place. The Comptroller holds that Lieut. Dapray is entitled to mileage from Washington, D. C., to Columbus, and for the same reason, and also because the distance travelled from Watrous to Santa Fe, N. M., was in excess of the distance he must have travelled, had he returned to the point he left, the Comptroller is of the opinion that he is entitled to mileage between those two points.

The Second Comptroller in the matter of the claim of Walter D. Knox, late private, Co. A, 25th Mass. Vols., decides that the term "wound" in the bounty acts is evidently used in contradistinction to the word "disease," and he is of opinion that an injury resulting from the sudden and direct action of external heat should also be regarded as within the scope and intent of the act. The soldier is therefore entitled to same bounty, $190, as if he had served out his full term for the reason that he received a wound in the line of duty. "If inflammation or congestion," the Comptroller says, "had followed in consequence of exposure to the action of artificial heat, the injury would unquestionably have been classed as a wound, and where the same results follow from the immediate action of the rays of the sun no distinction in principle can be observed; in both cases the injury is directly traceable to a physical force externally applied; and while disease may intervene, the disability had its origin in external violence."

THE BARTHOLDI STATUE.

IN a letter to Gen. C. P. Stone, Major D. P. Heap, U. S. A., Engineer Secretary to the Light-House Board, says:

I have been somewhat annoyed by the absurd statements attributed to me about the stability of the Statue of Liberty which have appeared in recent newspapers. They grew out of a conversation I had with a reporter, in the course of which I told him that I had recently visited the statue, and that I found some vibration in the arm, as was to be expected, and that therefore, in my opinion, visitors should not be allowed to climb into the torch, as their extra weight would necessarily increase the vibrations and in time might weaken the supports, the same as an iron railroad bridge is weakened by the continual passage of heavy trains. All this talk about corrosion, the dropping off of the arm, etc., is simply rot. I have every confidence in the stability of the statue proper, and I trust and believe that it will be a long time before the arm will develop any weakness; but it stands to reason that the less strain it is subjected to the longer it will last. Therefore I say again, keep visitors out of the torch. This will be no special hardship to the visitors, as they can go to the head and have a splendid view through the openings in the crown. Besides, it may prevent some idiot from committing a sensational suicide."

NAVAL INSTITUTE DISCUSSION.

AT the meeting, Dec. 29, of the Newport branch of the U. S. Naval Institute, for the purpose of discussing Mr. E. B. Dorsey's paper on steel for heavy guns, quite a number of Army and Navy officers were present. Mr. Dorsey opposes the use of hard steel for guns on the ground that oil tempering and annealing only affects the external surface of the mass.

Capt. Goodrich, U. S. N., in discussing the paper, opposed Mr. Dorsey's ideas and advocated the use of hard steel. He used figures and data to sustain his theories.

Professor Monroe, chemist at the Torpedo Station, made an able address in which he proposed a new test for the resistance to the shock of metals to be used in the construction of ordnance. The novelty of this test and its value lies, he contended, in the fact that the test may be applied to the original ingot from the part which is to be shaped instead of from a small section of the metal, as is the practice now. Letters on the subject were received from Professor Raphael Pumpelley and Lieut.-Col. Geo. H. Elliot, U. S. A., and read by the secretary. It was regretted that Rear Admiral Luce was not present, he being unavoidably detained.

The paper will be further discussed at a meeting of the Institute to be held soon at Annapolis. Among those present were Capts. Ennis and Strong, U. S. Army, Lieut.-Comdr. Louis Kingsley, U. S. N., Lieut. Holman, U. S. N., Lieut. Rohrer, U. S. N., Lieut.-Comdr. Converse, U. S. N., Lieut. Hutchins, U. S. N., and Lieut. Murdock, U. S. N.

The Naval Institute met at the Naval Academy, Wednesday evening, and discussed a paper on steel for heavy guns. The discussion was animated and participated in by a large number. Mr. Dorsey recommended soft steel for heavy guns. R. J. Gatling, of Hartford, Conn.; Prof. H. Thurston, of New York; Thomas C. Clarke, of New York; Prof. Thomas Eggleston, of New York; William H. Brown, of Jersey City, also recommended soft steel. Mr. S. J. Wilman, of Toledo, Ohio; Lieut. Ingersoll, Lieut.-Commander Barber, Commander Folger, and others advocated hard steel.

ACTING ASSISTANT SURGEONS.

To the Editor of the Army and Navy Journal:

IT has been suggested that a petition signed by the Acting Assistant Surgeons of the Army and endorsed by Surgeons, Assistant Surgeons and others who may favor same, be presented to the Military Committee in Congress praying that the Acting Assistant Surgeons (now serving) be commissioned Assistant Surgeons with the rank of first lieutenant and Assistant Surgeons, but not to be in line for promotion, and the pay (that of 1st lieutenant) not to be increased; that they be allowed forage for two horses, and at the expiration of the full term of service or on account of disability, they be placed on the retired list.

There are no medical officers in the Army who have been subjected to greater hardships in the field during Indian campaigns than the Acting Assistant Surgeons. They are often ordered into the field with scouting parties sent out to arrest Indians that are reported not hostile; yet, who can pretend to say whether or not an Indian may prove hostile? Many of these are passed the age allowing their appointment, in the regular way, as commissioned surgeons; they have, like many others, yielded to the contagion of love for Army life, and so have continued on year after year faithfully performing their duties for their small pay, which has not been increased since the contracts were signed, while the young 1st lieutenant and Asst. Surgeon receives in due course his promotions and more pay. After a few years in the Army what are the chances of an Acting Assistant Surgeon for success in any private walk in life? He has grown old in the Service, becomes incapacitated for duty in the Army and may be obliged to seek refuge in some charitable institution for the remainder of his days on this mundane sphere. LAPIS.

THE HALLECK MONUMENT.

To the Editor of the Army and Navy Journal:

IF your correspondent, "A. C. T.," will turn to the frontispiece of the December number of the "Journal of the Military Service Institution," he will find a print of "The Halleck Monument," as copied from a photograph taken from the structure now erected in the Golden Gate Park of San Francisco, Cal. On the pedestal of the statue he will find the inscription is:

Major-General
HENRY W. HALLECK,
General-in-Chief
of the
Armies of the United States.
1862–1864.

For the errors of the press, no responsibility rests upon G. W. C.

THE STATE TROOPS.

ARMORIES FOR THE NEW YORK TROOPS.

NINE years have passed since the beautiful armory of the 8th Regiment, in 28d Street, was consumed by the flames, and since that time the regiment has been going down, until, at last, it seemed that it was no longer possible to hold it together. Nine years has Col. George D. Scott worked incessantly to obtain new quarters for the organization. At various times success seemed within reach. This was the last attempt, and its failure was the final loss of the battle. The decision was, however, in favor of the regiment, and an ancient and meritorious organization has secured a new lease of life, and all fears of disbandment are dispelled. A letter from Adjutant General Josiah Porter, at the eleventh hour, reached the city authorities, who have the matter in charge, stating that there was no thought of disbanding the 8th, a rumor to the contrary effect having left them doubt as to providing a new armory for it. In his letter Gen. Porter says:

cannot let this opportunity pass without saying that verywhere in the State, except in the city of New York, uitable and convenient armories have been furnished for he use of our regiments, batteries and companies. In New York City no regiment has been properly housed for many years, excepting only the 7th, which despairing of any action on the part of the State or municipal authorities, assumed a burden which belonged to the public and erected an armory at its own expense. Some of the regiments have suffered more than others and should be promptly cared for; but with all of them it is a question as to how long their corps spirit can keep them in existence with their present uncomfortable, inconvenient, unsuitable and unsoldierly urroundings.

As the matter stands now, when the bonds have been advertized for and issued, and the season permits, work can begin, but some material alterations have to be made in the plans of the building. When first devised they provided for an armory for the second battery, Capt. F. P. Earle, under the same roof. Everything relating to the second battery has been stricken from the resolutions providing for the armory, and the appropriation reduced from $330,000 to $300,000, and the ground set aside for the addition for the battery will now not be built upon. This makes five lots less. Besides, under the original specifications the building was to have two fronts. Now the one on Madison Avenue is dispensed with, and new plans are required to make the building defensible and presentable on that side. No delay in breaking ground will result from these changes. The new building will be located between 94th and 95th Street, on Madison Avenue. The lease of the old building expires May 1, and an effort will be made to obtain the Kink in Harlem for a drill ground until the new armory can be occupied. The vicinity has already proven a good locality for obtaining new members of superior quality, while recruiting in the old quarters has long been a thing of the past. The regiment has now the opportunity of showing that it can build up, for which it has been asking for so many years. The entire force of New York troops wishes it success.

The success of the 22d and 8th Regts. in getting armories has stimulated other regiments, which are applicants for similar accommodations, to renewed efforts and new life has been infused into the city troops, including those not immediately interested. Without exception the old armories are obsolete and useless, and the New York *Times*, in a recent article, is quite correct when its says: "There is not now a single defensible armory below Fourteenth street, not one in which the arms would not be at the mercy of any mob which chose to take them."

It might have added that there is not a single armory above Fourteenth street, (except one or two recently built) which does not belong to the same category. When it says that the armories already authorized are considerable in excess of the actual needs of the city, it is wrong, nor is it fair to advocate the building of armories by the troops themselves from funds owned or raised by themselves, and it seems ridiculous to say that "it might be well for the city to reserve sites for armories in the upper part of the city, but there is no reason why the armories themselves should be built until the need for them actually arises."

A due proportion of the armories should be located below Fourteenth street, but how to accomplish this matter under present conditions it is difficult to see, owing to the difficulty of obtaining sites and their cost.

The removal of the armories uptown is, however, not so serious an objection as may seem at first glance, because if land transportation should be cut off, which would be the case in a riot, the troops could be transported downtown by boat in a very short time, as all the present armories are within easy reach of the river.

Opinion in the 71st Regt., N. G. S. N. Y., as to moving into the old armory, which will shortly be vacated by the 12th Regt., is very much divided. Col. McAlpin and a few of his officers are desirous of moving into the 12th's old armory, but it is stated that half of his officers, field, staff, and commandants, are opposed to the move, on the ground that it would spoil their chances of getting a "brand new armory." Col. McAlpin on the other hand, and with wisdom, assured the "kickers" that the temporary move advocated, would not affect their chance of getting a new armory. However, the majority of the regiment seem to be against the temporary move, this feeling being very strong. We think ourselves that Col. McAlpin's view is the correct one and it would be to the interest of the regiment to support it. While of course, the old 12th Regt. Armory is far from what it should be, still it is greatly superior in every respect to that now occupied by the 71st Regt. Its drill hall is neat and much larger and its company rooms also. To be sure, the latter rooms are wholly without heat of any kind, but are not so cold as it is supposed, and besides, as the members of the 12th have managed to get along in them in a healthy way, we presume the members of the 71st are just as hardy—at least, they should be. There is also an excellent rifle range in the 12th's old armory, which is a special feature, and should be quite an inducement. The 71st have no place to practice rifle firing and here they could vastly improve their marksmanship. If the transfer can be accomplished we advocate it as in the best interest of the regiment, and meanwhile the agitation for a better armory can still be kept up, and the chances even better for the regiment to improve itself. The regimental board appointed to seek a suitable site for a new armory—within the appropriation allowed, have offered several proposals—but they were not, in the opinion of the Armory Board, in a suitable location. We have no doubt that the 71st will have an armory in due time. Meanwhile it behooves them to improve their condition as much as possible.

THE MILITIA AND THE WORKERS.

A *Herald* correspondent, who recently interviewed Adjutant-General Porter, of New York, on the subject of "Labor and the National Guard," reports him as saying:

If laboring men or any other kind of men expect to secure their ends through riot, bloodshed or the destruction of property it is true the National Guard stands ready to do its duty, and do it it will. But I do not believe that the militia will ever be called out in this State to subdue labor troubles. I say "ever," but there is no telling what the folly of some agitators may render it necessary. What I do say is this: I know that the safety of New York City is secure in the hands of the present police force. That is a magnificent body of men. I never saw a finer lot of fighters in my life. I think they can whip the world, so to speak, for they are brave enough to try it. "No, the citizen soldier is not always ready to shoot down anybody, unless it is a rioter or an enemy to the State. To hear the cranks that come here or write to me you would think the National Guard ought to be increased at once to one hundred thousand men, because of the possibility of serious labor troubles. Another set of cranks want the Guard disbanded at once in the interest of labor. I cannot see why an honest laboring man should fear the existence of the militia. He ought to glory in it, for it is a wall between him and foes within and without his country."

On the subject of appropriations he is quoted as saying:

The Legislature usually grants $400,000 to the uses of the Guard, and as the State has to supply everything it is none too much. We do not ask nor expect a larger amount. I sincerely hope, though, that the appropriation will not be cut down. I suppose, however, there will be an attempt to do this in the Legislature this winter by somebody who thinks thereby to curry favor with the so-called laboring men. If the appropriation is cut very much the troops will not be sent to the State camp, as that costs about $100,000 a year. We have to spend $300,000 to maintain and equip the force according to law, but the opening of the camp is optional with the Commander-in-Chief. If there is not money enough he will not order the regiments into camp. This would be a great setback, as the value to the militia of the instruction, practice, drill and discipline of the State camp cannot be overestimated.

ACKERMAN COURT-MARTIAL.

THE Court-martial ordered to try Major J. Fred Ackerman on the charge of inciting insubordination in the 13th Regiment, N. G., S. N. Y., reconvened in Brooklyn at 5 o'clock on the afternoon of Jan. 4, 1887. Capt. R. P. Morle, of Co. K, 13th Regiment, first testified that Major Ackerman said: "As Col. Fackner I will obey him, but as Edward Fackner I can't respect him." He did not say that he would go down and take the organization with him if that man were elected.

On the cross examination Judge Advocate Jenks showed that the witness was biased.

Major Ackerman was then called. He testified: I was present at the election for colonel in September last; from then until midnight of November 5 [illegible] when I was placed under arrest. I was never spoken to [illegible]ks, the colonel about the affairs of the regiment; until then I [illegible] Ge had asked me if I had made any such statements as alleged in the specifications; I spoke to Capt. Courtney on the night of the annual inspection and muster of the regiment; he did not say "Major, when will this thing stop?" nor did I reply that not until that thing—meaning Col. Fackner—gets out of the regiment, or anything to that effect; I was in Co. C's room on the evening before; the subject of the drill at the park came in and I said that if I had been in command I would have kept the regiment there all night if necessary to make them do the "order arms" correctly; I don't remember saying Col. Fackner is weak; I coincided with Capt. Morle's expression; I never said anything that could be tortured into meaning that if Col. Fackner, or that thing, did not get out that I or we would go down and take the regiment with me or us; I did not say that a time would come when he would have to get out; I did not say that Fackner must get out, he cannot stay as colonel of the regiment, and if he does not get out we will break up the regiment; I had a conversation with Lieut. Clarke on the night of the inspection; I did not say that he must not accept any position under Col. Fackner, as, if he did, he would not hold it long, as the colonel had to go; nor did I use any words that could be so construed; I told him that I had been to Albany and had seen the adjutant general, who said that there was no intention of disbanding the regiment, but that on the contrary every means would be used to promote its efficiency; I was authorized by the adjutant general to send such word to Brooklyn by wire; I did not say that the State officers had all said they were on my side; Gen. McLeer's name was not mentioned; I did not say that Col. Fackner had got to get out; I did not tell Lieut. Clarke that he would commit military suicide should he accept a position under Col. Fackner; I never said to him that I did not see how any decent man could hold a position under Col. Fackner; I was present when Col. Fincke announced the result of the election for colonel; I did not know who had been hissed until I was told; I went out, and going in the midst held up my hand and said that it must be stopped; some one said that the election meant the downfall of the regiment, and that they would show their spirit at the next inspection; I said that I made it a personal matter with the men to be out then and make it the grandest inspection the regiment ever had; the men then dispersed; I may have said that some words I uttered that night might be considered censurable, and if so I would take my punishment like a man; there have been meetings of the officers at my house; I did not at that meeting say that if we all held together we would force Fackner to resign; I had heard the hissing several minutes before I went out; I telegraphed from Albany to be patient; I did say in the presence of officers in the armory that I would obey the orders of Col. Fackner, but that I would not uphold Edward Fackner; I have said that I had enlisted for the war; I did not say I would fight it out; I have stated that I had been informed that the canvass of Col. Fackner was conducted looking towards my retirement from the regiment and the giving of my position to some Fackner captain; I never said that Col. Fackner had to get out; I have said that I thought that if Col. Fackner remained in command the regiment would lose its caste; I have stated that the personal ambition of one man should not be put up when it was detrimental to the welfare of the regiment; I said that many of the men were not in sympathy with Col. Fackner.

The court then adjourned until next Wednesday night at 7.30 o'clock.

NATIONAL GUARD ASSOCIATION.

MAJOR MORRIS B. FARR, Corresponding Secretary, announces that the ninth annual convention of the National Guard Association, State of New York, will be held in the city of Albany, on Tuesday and Wednesday, February 1 and 2, 1887, at ten o'clock in the forenoon. A full attendance is requested, as subjects of vital importance will be discussed and acted upon by the Association. It is proposed by Colonel John V. L. Pruyn, Aide-de-Camp on the General Staff, to give a reception to the Commander-in-Chief and Delegates to the Convention during the session of the Association in Albany. At this reception full-dress uniform will be worn by all officers.

FORMING A NEW REGIMENT.

THE N. Y. *Times* says: "The 1st Regiment, which began its organization last spring, has opened a recruiting office at its temporary headquarters, No. 138 West 23d street. The new regiment is to be composed of 12 companies of 100 men each, and the term of enlistment is to be one year. Only temperance men will be allowed to join, and the regiment is to be a strictly non-partisan and non sectarian organization. Its commander is Col. Dean La Banta. The recruits are at present drilling in different parts of the city. When the regiment is complete it will apply to the State for arms and secure an armory. A public meeting in aid of the regiment will be held on Jan. 25, at the Academy of Music. The Rev. Henry Ward Beecher will be among the speakers."

NATIONAL RIFLE ASSOCIATION.

THE annual meeting of the National Rifle Association will be held Jan. 11 next, at the armory of the 22d N. Y. In later years the attendance at this meeting has gradually dwindled down, but in view of the proposed removal of the range to a more convenient locality, and other projects for the improvement of rifle shooting, and the increase of the general interest in the subject, it is expected that a large number of the members will be in attendance.

A SILVER ANNIVERSARY.

THE 23d Regiment, N. G., S. N. Y., which was organized in 1862, completes its twenty-fifth anniversary this month and will hold a silver reception at the Academy of Music in Brooklyn, on Thursday evening, Jan. 20, 1887. It will be a brilliant affair, and military guests will appear as usual in full uniform.

Seventh New York.—Col. Emmons Clark.

THE preparations for the banquet in honor of Col. Emmons Clark's 30th anniversary of his entry into the 7th N. Y. Regt. Jan. 22 are proceeding in a most satisfactory manner, and the only trouble is that the demand exceeds the number of seats to be provided. The number of tickets has been limited to 17 per company, which is all that can be seated at Delmonico's, where the affair is to come off, and not at the armory as first reported.

Co. G, 7th Regt., has not had a change in its officers since Jan. 17, 1877, when E. Graham Haight became its 1st lieutenant. The event will be celebrated in the characteristic style peculiar to this company Jan. 17. Co. G, 23d Regt., will be invited to become the guests of the occasion.

The new Frazer cartridge boxes, black belts and steel scabbard, recently furnished the regiment by the state, were issued to the men Jan. 3, and Cos. G, Capt. James C. Abrams, and D, Capt. Harry Cooper, which were drilling that evening, wore them for the first time on duty. The new accoutrements seem to give satisfaction, and when they are contrasted with the old dilapidated fatigue belts and scabbards, now happily discarded, the appearance of both companies showed decided improvement.

The 7th company is one of the largest and most precisely instructed in the regiment, and its appearance on this occasion showed that it had not deteriorated. It had a front of 32 files, and executed its movements with the usual finish so often referred to in the JOURNAL. It is to be regretted, however, that the skirmish drill and guard duty, which formed part of recent drills, were omitted on this occasion. When the roll had been called the company broke into fours and marched in very handsome style around the hall, wheeled into line with precise distances, passed the length of the hall in line, executed fours left about, advanced to the centre of the floor, and then proceeded to execute a number of wheels on movable and fixed pivots in a most satisfactory manner. An occasional march by fours, an oblique advance, etc., relieved the monotony of the wheelings, at the conclusion of which line was formed for the manual. This consumed a large portion of the allotted time for the drill, as the instruction was very precise. Captain Abrams not only explained but executed every movement, gun in hand, before he gave his commands, and the results obtained were satisfactory in a high degree.

At the conclusion of the manual the company advanced and went into platoon movements, first warming up with a brisk march by fours and some formations on the right and left into line. The first of these movements consisted in wheeling into platoons and back into line, and when it was observed that these were satisfactorily executed, the company formed right or left by platoon and reformed on the right or left into line. The formation into platoons was quite well performed, but in executing the turns in coming into line the men spread out too far and came sprawling on the alignment. To correct this needed numerous repetitions, and when some improvement became apparent the time for drill was nearly up. The company then proceeded to the closing exercises, consisting of some more manual and the direct firings, after which the drill was dismissed. Some of the loadings were executed with a high degree of snap. As a whole, the drill furnished striking proof of the high state of instruction and precision of the company, but it also developed the fact that a few individuals are not by any means up to its general standard, and need special looking after.

Company D has for several years past undergone many changes in its personnel, both officers and men, and Capt. Cooper has only recently taken hold of the company. He handled it well, however. Its movements comprised a large portion of the school of the company, but did not include platoon exercises. Passages from line into column of fours, left and right front into line, and right and left into line in quick and double time, formations into single rank, wheelings, oblique marches, and the manual constituted the larger portion of the movements, which, although most creditably performed, yet plainly indicated a large proportion of raw material in the ranks. This material was so prevalent that it detracted much from the appearance of the company as a whole. The company, which had 28 files with two blanks, needs careful and persistent looking after in order to take rank with the best in the regiment, but it is in good hands and the matter is only one of time. It is to be regretted that in the 7th Regiment so much time is consumed in practicing company movements, while skirmishing and other practical evolutions are only taken up at long intervals. In stating this we do not only express our own opinion, but echo that of a large portion of the rank and file, who are loudly complaining of the everlasting monotony of their drills.

At the drill above referred to it happened frequently that the companies approached so near or came in each others way so as to necessitate marking time on stoppage of the movements. While these collisions were not intentional, there is nevertheless plenty of room in the hall to avoid them, and therefore they should not occur.

Twenty-second New York—Col. John T. Camp.

THE armory of the 22d New York on Tuesday evening, Jan. 4, was desolate, dreary, and deserted. It was cold, and the old-fashioned stoves, although red hot, did not throw out sufficient heat to warm the drill room. There were fewer officers, fewer enlisted men, and fewer spectators than on any previous occasion to our knowledge. In fact, nobody who had a reason for remaining away was there, and the only soldiers to be seen around were those composing the two companies engaged in drill. It is a fortunate thing that the regiment is soon to leave the old building, because the very floor is rotten. A gentleman in his hurry to get out of the way of the drilling soldiers stepped inadvertently on a

trap door, which gave way, and he was only saved from being pitched into the abyss below by extraordinary agility.

That outsiders or those who are not called by duty to the armory should avoid it is natural, but the same excuse does not hold good with regard to those whose turn it is to drill. The only command on the floor had twenty files front, and it turned out afterwards that it was composed of two companies (D and F). Of course, it is more advantageous for instruction to have one command of twenty files than two skeleton organizations of ten files each, but such a consolidation should not be necessary in a first-class regiment.

Leaving this matter out of the question, however, the drill, while presenting many defects, was a good one. The commander, Capt. Cortelyou, set the example of soldierly bearing, gave his commands with snap and rapidity, and had a keen eye for mistakes, which he corrected with promptness and without distinction of person; nor did he address his company as "gentlemen" or "boys," as is so frequently the case, although not in the 22d Regiment. The cold of the hall, as well as the snap of the commander, evidently had the effect of accelerating the movements of the men. The step was at least 130 to the minute, and this, together with the fact that two companies thrown together never work as harmoniously as a single command, doubtless became the cause of certain trifling irregularities which detracted from the appearance of the drill. In changing direction by fours the rear could evidently not keep up with the front, and the consequence was loss of distance, which the men tried to make up by either increasing their gait or the length of the step. This caused the column to assume the appearance of an undulating mass rather than that of a regularly moving body of men, while it created gaps in forming line and crowding in dressing. The double time was well executed. In forming front into line the leading guide frequently neglected to bring his piece to carry after taking the right of the leading four. The manual was good, but two or three individuals spoiled its regularity. The best feature of the drill, however, was the skirmish drill by bugle call, which began about half an hour before the close. Some of the men at first appeared unfamiliar with the calls, but a few blasts of the horn soon set them *au fait*, and they acquitted themselves very creditably, evidently much relieved by the change from the monotony of the company drill. The movements consisted of deployments by the flank and to the front, advances, retreats, firings on the march, and from a halt and assemblies on the right and left various times repeated. The drill shows that the men have a much better understanding of it than they had twelve months ago, but their bearing on the line is still stiff and the carry was too much resorted to. In deploying to the front three sets of fours in single rank would doubtless serve the purpose of instruction better than in double rank where space is limited, while the commander should bring the men to right shoulder before he puts them in motion and not wait until the leading four is almost on the line. In all other respects the drill was interesting and well executed, and the 22d deserves credit for making skirmish drill a compulsory, regular part of company drill.

MILITIA ITEMS.

Co. K, 12th N. Y., Capt. John F. Boylan, gave a reception at the armory on Monday, Jan. 3; a large number of guests were present and a very handsome entertainment was had. Brig.-Gen. P. H. Briggs; Col. Edward Fackner, 13th N. Y., with his newly appointed adjutant, Lieut. Clark; Capts. W. V. King and N. B. Thurston, 22d Regt.; Lieut. Dave Wilson, of the 2d Battery, and a host of others in glittering uniforms, added brilliancy to the scene and showed their friendship for Capt. Boylan, whose hospitality was unbounded.

Co. G, of Waterbury, Conn., gave their 16th annual concert and ball at the Union Armory, Waterbury, on Dec. 31, 1886, nearly 200 couples being in the grand march. The officers and privates of Co. G, looked very soldierly and handsome in the new uniform.

The Board of Directors of the National Rifle Association at their meeting, Jan. 3, had under discussion the transfer of the rifle range to Staten Island. No definite conclusion was reached and it is even a matter of doubt if suitable grounds can be obtained there. Lieut. Zalinski, however, appeared very sanguine as to this and, as he is a good judge and knows all about Staten Island, there seems to be some prospect that the matter may acquire tangible shape after all.

Col. Fackner, of the 13th N. Y., has made the following staff appointments: Henry C. Clark, Adjutant; Charles W. Topping, Quartermaster; D. F. Lucas, M. D., Asst. Surgeon; the Rev. Henry Ward Beecher, Chaplain, (reappointed); Charles De La Vergne, M. D., Surgeon, (reappointed); Lewis M. Reed, Commissary, (reappponted.)

On Feb. 22 the 19th Separate Co., of Poughkeepsie, comes to New York on a visit to Co. D, 12th Regt. A pleasant reception will be given to balance the entertainment given the New York City Guardsmen on a visit up the river last summer. Co. D will meet the 19th Separate Co., of Poughkeepsie, at the Grand Central Depot with a band of music on Feb. 22 and escort them to the new armory, and thence to a hotel, where a grand dinner will be given. In the evening a ball will be given at the new armory.

The 8th Regiment long-service medal has five points. There is a centre of iron with a band and wreath of iron, silver and gold respectively for five, ten or fifteen years' service. For twenty years' service the "8," which is on the pin bar, will be diamond-mounted.

The selection of Gen. Thos. H. Barber as Assistant Adjt.-General on the staff of Gen. Fitzgerald gives general satisfaction.

On Tuesday, January 4, the following commissions were received at Headquarters First Brigade: Capt. Alex. T. Mason, 1st Lieut. Henry L. Cammann, 2d Lieut. Ike Freeman, Co. C; 1st Lieut. W. DeLancey Cunningham, Co. I, and 1st Lieut. Howard Howe, Co. D, 8th regt.; Capt. N. B. Thurston, and 2d Lieut. Walter D. Hawes.

The competitive sectional drill of the 2d N. Y. Battery, Capt. F. P. Earle, on Jan. 11, creates much interest in the battery itself as well as among its numerous friends. From the arduous preparations and the well-known precision on drill of the command the only conclusion to draw is that the event will be well worth witnessing. The failure of the battery to get quarters in the new armory of the 8th N. Y. is much to be regretted on account of the well known efficiency and progressive tendency of the command. On the other hand the 8th, while willing to share their quarters with the battery, seem not dissatisfied because they are going to have a house all to themselves.

Brig. Gen. Louis Fitzgerald has issued a circular to the old 1st N. Y. Brigade calling for the necessary data by which to determine the winner of the "Belknap Trophy." The reports must be in before Jan. 15 next.

1st Lieut. John McCauley, Co, F, 12th N. Y. Regt., has been elected captain of Co. E, and John Lamb has been elected 2d lieutenant Co. A, 22d Regt.

Col. A. P. Stewart, 11th N. Y., orders a theoretical class for the instruction of officers under the supervision of Lieut Col. W. P. Walton, while Maj. Frank A. Jones acts in a similar capacity with the non-commissioned officers on the first Monday of each month. Capt. J. W. Hale is directed to instruct each company once a month in rifle practice.

Maj. Clifford A. H. Bartlett, 9th N. Y., has been appointed a Delinquency Court in the 9th Regt., to meet Jan. 17.

The 3d Battery, 2d Brigade, N. Y., will assemble at the armory, in fatigue uniform, as follows: Wednesday, Jan. 5, and Monday, Jan. 10, for special drill and instruction on the howitzers; Wednesday, Jan. 12, for special drill and instruction on the Gatlings. 1st Lieut. William W. Hanold is instructor. This battery will assemble at the armory on Thursday evening, January 13, in full dress uniform (white gloves), black helmets, with spikes and chin straps, for drill and review.

The quarterly returns of the 11th N. Y., Dec. 31, shows 26 officers and 442 enlisted men, making a total of 468.

Battalion drills in the 22d N. Y. will be ordered to begin about Feb. 1.

Surg. Daniel J. Murphy, of Co. C, 11th N. Y. has been elected 2d Lieutenant.

Gen. Porter has issued orders with a view to instruction of the brigade rifle inspectors and regimental field and staff officers as follows: 1st Brigade—At the armory of the 22d Regiment, New York City, on Jan. 10 and 31, at 8 o'clock P. M.; 2d Brigade—At brigade headquarters, Brooklyn, on Jan. 7 and 21, at 8 o'clock P. M.; Field and staff officers—71st N. Y., Jan. 8; 69th N. Y., Jan. 11; 47th N. Y., Jan. 12; 32d N. Y., Jan. 13; 23d N. Y., Jan. 14; 22d N. Y., Jan. 15; 14th N. Y., Jan. 17; 13th N. Y., Jan. 18; 12th N. Y., Jan. 19; 11th N. Y., Jan. 20; 9th N. Y., Jan. 22; 8th N. Y., Jan. 24; 7th N. Y., Feb 1—all at their armories at 8 P. M.; 17th Sep. Co., at 14th Regt. armory, Jan. 12, at 8 P. M., and the 4th, 5th, 10th, 11th, 14th, 15th and 19th Separate Cos., at the armory of the 19th Sep. Co., Poughkeepsie, Jan. 25, at 8 P. M.

Co. B, 12th Regt., Capt. Charles S. Burns, will give an entertainment in the new armory in February or March. A yacht club composed of members of Co. A has been organized, with Corpl. William H. Lang as commodore and M. F. Mulhearn as captain. They propose to purchase a fast yacht. Co. D, 12th Regt., Captain Bleecker S. Barnard, will probably go to Washington in May and enter into the competitions for prizes at the National Encampment. As the result of their recent entertainment at the Lexington Avenue Opera House, $225 has been added to the company fund.

The annual reception of Co. D, 7th Regiment, will be given in the armory in February. The gymnasium class of this company, organized by William S. Rankin, meets every Friday evening. It has 30 members.

Capt. H. F. Kennedy, a popular officer of Co. D, 9th N. Y., has disappeared, leaving behind him some anxious creditors, among them the regiment to which he belongs, which has been called upon to make good a worthless check of $50, given by the captain to pay a balance due for a collation served on May 28. At a meeting of the officers, held on Monday night, Capt. Kennedy's name was dropped from the finance committee, and Capt. Alfred Chamberlain, Co. G, was appointed in his stead to represent the regiment at the National Guard Association meeting, Feb. 1 and 2.

The Owl Club, a social organization, consisting of members of Co. H, 71st N. G., named after the Social Owls of the senior class of Yale College, who gave the company a fine reception on the occasion of its visit to New Haven last year, meets on the second and fourth Tuesday of each month. Captain Alfred P. Delcambre is president. The meetings of the club, which are held after drill, are of a highly festive character and last until long after midnight.

The Milwaukee, Wis., jury, in the Bay View riot cases, returned a verdict acquitting Andrew Boncel and Luke Datke, and finding John Goudek guilty. Goudek led a mob to a priest's house, where guns belonging to the Kosciusko Guards had been stored, and attempted to seize the arms for an attack on the militia.

The hopes of the 12th N. Y. to move into their new armory by January 15 are again deferred for various reasons, and it is hardly expected now that the new quarters will be occupied before March 1. The speech of presentation will probably be made by the Mayor, to which the Colonel of the regiment will respond. There will be other speeches by prominent members. A dress parade will then be seen, after which there will be music and dancing. Two thousand invitations will be issued to guests and 5,000 to members and officers.

The N. Y. *Sun* says: There have been two Adjutant Generals Porters in Albany for several days. One is the real one, the restless and sparkling ex-Colonel who has recently reconstructed the National Guard. The other is Edwin Fleming, the editor of the Buffalo *Courier*. They are as alike as two stove lids. Mr. Fleming is one of the great editors of the interior. He got the best of his training in Washington, but has become smitten by Buffalo, and talks of it as if it were the capital of the Promised Land. He is short and plump, and bestows upon his thoughtful and yet humor-reflecting face only a brown moustache. Every one in Albany talked to him of the National Guard, and asked General Porter what his circulation was and how he liked Buffalo.

Great excitement in Canada is reported over the announcement that Sir A. Carson, minister of militia, is to dismiss Deputy Adjt.-Gen. Von Strauben and Brigade Major Mattice, two English speaking officers, and replace them with French Canadian officers.

The "Canteen" will hold its second meeting at Martinelli's, 5th avenue and 19th street, on Saturday evening, Jan. 8. The "Canteen" is an association of National Guard regular and ex-officers, formed for the purpose of improvement of the military service. Its first impetus emanated from the 12th New York, but membership is by no means confined to that organization. Lieut. G. N. Whistler, of the 5th U. S. Artillery, is the temporary president, and the two other officers of the temporary Board are Capts. James M. Brady and J. Amory Haskell, of the 12th New York. Lieut. R. H. Patterson, of the 1st U. S. Artillery; Capt. Daniel Appleton, 7th New York, and a number of other regular and National Guard officers in and around New York are among the members of the Association.

The Third N. Y. Gatling Battery, Capt. Henry S. Rasquin, commanding, will give a reception at the Armory, on Dean street, near Washington avenue, Brooklyn, on Thursday evening, Jan. 13. The ceremonies will consist of a Gatling and howitzer drill, and a review by Brig.-General James McLeer.

At the review of the 47th N. Y. by Gen. McLeer, Thursday night, ninety-three marksmen's badges were presented. The field and staff received 7; non-coms., 4; Co. A, 11; Co. B, 2; Co. D, 10; Co. E, 5, Co. F, 26; Co. G, 9; Co. I, 6, Co. K, 12. Sergt. B. R. Meserole, Co. A, was presented with the strong Daker medals. The rifle team of Co. F. is practicting for the coming return match with Co. F. 23d Regiment. Co. G is already making preparations for a grand entertainment to be given in the armory the evening before Washington's Birthday. Col. Gaylor introduced Maj. G. L. Fox, Brigade Rifle Inspector, who congratulated the prize winners on the record they had made, and gave them some advice on the preparation required to make marksmen and the value of target practice. After the distribution of medals Lieut. Col. Benson took command for a dress parade. Dancing closed the ceremonies of the evening.

The European excursion of the Gate City Guards of Atlanta, Ga., has been interfered with by "the blasted despots." The British Government refuses to allow the Gate City Guards to enter into England. It is supposed that this action was taken because Capt. J. S. Burke is an Irishman.

The annual dinner of the 6th Company, 7th Regiment, N. G., S. N. Y., took place Thursday night at the Hotel Brunswick. Eighty covers were laid in the hotel parlor and seventy-three veterans sat down.

VERMONT NATIONAL GUARD.

THE following appointments on the staff of the colonel commanding the 1st Regiment, V. N. G., are announced: Sergt. Maj. James A. Lillis, 1st Lieut. and Adjt.; Q. M. Sergt. Chas. H. Fuller, 1st Lieut. and Q. M.; Carl M. Spencer, 1st Lieut. and Commissary; Asst. Surg. Jacob C. Rutherford, Surgeon; C. S. Caverly, Asst. Surg.; Herbert E. Taylor, Captain and Provost Marshal; Howard F. Hill, Chaplain; Fletcher D. Proctor, 1st Lieut. and Regimental Inspector; Carleton L. Searle, Co. B, Sergt. Major; C. E. Clark, Co. G, Q. M. Sergt.; E. L. Soper, Commissary Sergt.; F. H. Chapman, Hosp. Steward; Don C. Newton, Drum Major; Rnel L. Parker, Co. C, Chief Musician; Chas. F. Collins, Co. H, 1st Color Sergt.; Wm. J. Blair, Co. K, 2d Color Sergt.; Moses L. Brack, Co. G, Sergt. and Rt. Gen. Guide; Everett A. Morse, Co. D, Sergt. and Left General Guide.

MILITARY ATHLETIC GAMES.

Amateur Military Athletic Games will be given by the 12th Regiment Athletic Association at their new armory, 9th avenue and 63d street, New York City, on Saturday evening, Feb. 19, 1887, commencing promptly at 8 o'clock. The programme of events are: One-half mile run, handicap—Open to all amateurs. One mile walk, handicap—Open to all amateurs. Five mile bicycle race, handicap—Open to all amateurs. 220 yard hurdle race, handicap—Open to all amateurs. One-quarter mile run, handicap—Open to all amateurs. One mile run, handicap—Open to all amateurs. Individual tug of war—Open to all members of the National Guard (amateurs), weight unlimited, any belt. Tug of war teams of four men each from any company or regiment in the National Guard, or amateur club, any belt, weight limited to 650 pounds. Potato race—Open only to members of 12th Regiment A. A. (1 prize). One-quarter mile run, handicap—Open to all members of the 12th Regiment. Obstacle race—Open to all members of 12th Regiment, 440 yards scratch. Professional bicycle race—America v. England. An entrance fee of 50 cents per man must accompany each and every entry, and must be sent to C. J. Leach, P. O. box 3201, New York City. Entries close promptly Feb. 12, 1887. The right to reject any entry is reserved. Handsome gold medals to first and silver to second will be presented in each event, except in the tug of war, in which a gold medal will be presented to each man of the winning team. Rules of N. A. A. A. govern all contests except the tug of war. A reception will follow the games.

CALIFORNIA NATIONAL GUARD.

THE *Alta California* says: It is proposed among the Regulars at the Presidio, and the 2d Brigade, N. G. C., consisting of the 1st, 3d and 5th Infantry Regiment, the 2d Artillery Regiment, and the San Francisco Hussars, to make February 22 a veritable military gala day by means of a sham battle between the Regulars and the N. G. C. The place proposed is the Presidio, and the command will devolve upon Gen. O. O. Howard.

The San Francisco *Report* says: "We understand that while General Howard, in conversation at the Pavilion, expressed a willingness to second General Dimond's proposition for a brigade drill on the Presidio reservation, from the fact that such a drill would be a good thing to show young men how large bodies of troops are put in position, it is not at all probable that he contemplated a sham fight, in which he would personally take part or command."

In anticipation of trouble recently, Gov. Stoneman issued an order directing Brig.-Gen. Dimond, commanding 2d Brigade, to cause the regimental commanders to detail a sufficient number of men to guard the several armories in San Francisco, but their services were not required.

The 2d Artillery Regiment has established a "service medal," of bronze for those who have faithfully served as officers or men ten years, and for fifteen years, one of silver.

There seems to be a determined spirit on the part of the National Guard Officers' Association of California, to try and abolish the office of Maj.-General. When the next Legislature convenes a petition to that effect will be presented, as well as one for the purpose of reducing the number of Brigadier-Generals in the northern and southern parts of the State, as their commands are not considered of sufficient strength to justify the expense of maintaining such officials, and with a view to consolidating the scattered companies comprising the commands.

The S. F. *Report* recommends for militia officers a revolver instead of a sword, the former being "a serviceable weapon and one that does not get tangled up with one's legs."

MASSACHUSETTS MILITIA.

ADJUTANT-GENERAL DALTON reports a most prosperous and successful year. The record showed the attendance at tours of duty to be the largest for many years. His annual report shows the aggregate strength of the force to be 330 officers, 4,030 enlisted men.

Gen. Dalton recommends that if possible one of the vacant forts in Boston Harbor should be procured not only for artillery drill but as a school of instruction for officers. The fine record of the militia rifle practice is spoken of.

Referring to the armories in Boston, Gen. Dalton says they are, as a whole, not suitable and satisfactory, although large rents are paid by the city. The large payments for poor accommodations still continue, and two armories of sufficient size would be a great saving in money, and conduce to the welfare and efficiency of the commands that might be located therein.

Under "Camp ground" the report suggests that some provision should be made for bathing facilities for the men in camp. The report says: "The excellent work performed for the State, and the earnest endeavors of the enlisted men of the militia, cannot be too highly praised, and I would recommend that a suitable badge be adopted for issue in recognition of continuous, meritorious services of the men."

If possible, arms of uniform pattern and latest model should be procured, by exchange or otherwise. The importance of rifle practice demands an inspector-general of rifle practice on the staff of the Commander-in-chief, and a special appropriation to defray expenses of ammunition at State matches, pay of officers visiting companies, etc. The officers of the militia have become quite familiar with the use of the rifle, and are able to instruct in this duty.

The issue of revolvers to commissioned officers and to the artillery, signal and military organizations is recommended. Revolver shooting might be introduced at the regular State matches, where the officers now use the enlisted men's weapons, which they would not use in actual service.

An increase of the military force of the State is recommended, either by the formation of a new regiment or increasing the present to uniform strength; and one regiment should be made a heavy artillery regiment, uniformed and instructed as such. The suggestion that the annual drills be merged into the encampments is worthy of consideration, and perhaps would tend to increase efficiency; an annual fall field day for the entire force should be introduced, for which pay and allowances should be provided.

It is important that canteens and haversacks, with drinking cups, should be furnished by the State to each command. The canteens now on hand are large and cumbersome, of obsolete pattern and of many colors. Frocks for stable duty for cavalry and artillery should be issued, which, costing but little, would be a considerable saving to uniforms. If new tents are purchased, the custom of issuing two tents to line officers should be discontinued, and one only issued, with a fly for the front; the present custom requiring the tents to be opened at both ends, they are easily torn and soon made worthless. If practicable, wooden buildings as headquarters for battalion commanders should be erected as a saving of expense to the officer and a measure of economy on the part of the State.

While the standard fixed by the board of examiners is high, the improvement in the militia calls for a still higher one, and an increase in the membership of the board as now constituted by law is desirable.

CONNECTICUT NATIONAL GUARD.

CAPTAIN JOHN C. BERRILL, of the Connecticut N. G., has become involved in a difficulty with the venerable priest of his parish, from whom the following letter appears:

John C. Berrill: I have seen your wife Mary C.'s card in the *Journal* and think her husband must be a very mean man to send his wife to church on Christmas day with only 10 cents to pay her priest his dues. You are a militia officer, I believe, and how would you like to get only 10 cents for your distinguished services to your country for one year? You are a bootmaker earning good pay and would reject with scorn and indignation an offer of wages that would degrade your labor as a mechanic. Now, Mary C., your wife, if not wholly demoralized and perverted by marrying a Protestant, ought, when she does come to church—once a year, on a Christmas—try to behave herself like any other Catholic; contribute to the support of her church and not plead poverty, nor pay her pastor with abuse like an infidel. If your wife, Mary C., is not willing to contribute more than 10 cents, then you may take her to your bible religion as you have already taken her to your bosom, and the Catholic Church will not suffer any great loss in her absence.

Capt. Berrill might retort that most militia officers do not get even the humble ten cents for their annual compensation, being actually out of pocket for the services rendered their country.

ILLINOIS NATIONAL GUARD.

REPRESENTATIVES of the Citizens' Association, the Iroquois Union League and Commercial Club, of Chicago, have agreed upon two bills to be presented during the coming session of the Illinois Legislature. One is a "mob and riot" bill, and the other provides for the choosing of jurors by jury commissioners. The pertinent terms of the former are: The liability of cities, towns and villages for a sum not to exceed three-fourths of the appraised value of any property destroyed by a mob, or during a riot, providing that the owner of such property did not by any act occasion or abet the riot. If after the owner of the threatened property notifies the proper official of the city, county or village, such official does not place the necessary guard about the property and it is destroyed the official shall be deemed guilty of malfeasance of office and on conviction removed.

Of Gov. Oglesby and his staff at the Logan funeral a correspondent of the N. Y. *World* says:

Oglesby is a man six feet in height, with a powerful, well-developed figure. His large featured, hook-nosed, smooth-shaven, angular face is surmounted by a shock of carelessly brushed iron-gray hair. His eyes are a keen, twinkling blue. Gov. Oglesby, in his visit to Washington, was accompanied by six staff officers. They were splendid specimens of physical manhood. They must have been veterans, because they wore their military trappings with the same ease as the Regular Army officers. Their uniforms were very similar to that of the Regular Army and by many they were thought to be Regular Army officers. They were certainly a much finer looking lot of men, physically, than the War Department Bureau officials who came in a body followed by Gen. Sheridan.

By S. O. 193, A. G. O., State of Illinois, Dec. 31, 1886, Co. D, 5th Infantry, "upon recommendation of the commanding officer and on account of a general lack of discipline," is disbanded. The remote causes of disbandment date back to the time when the 2d Brigade, I. N. G., were at East St. Louis during the labor trouble at that place (April, 1886). The discord has not been healed over, and it was thought best to disband.

NEW JERSEY.

THE 4th Regiment, N. G. S. N. J., is ordered to assemble for battalion drill, in fatigue uniform, on Tuesday, Jan. 11, 1887, at the Oakland Rink, Oakland Avenue, Jersey City, at 8.30 o'clock. The following changes are announced: Commissioned—Private John Graham, to be 1st Lieutenant of Co. C, vice Charles C. McCullough, resigned; 1st Sergeant Arthur L. Steele, to be 1st Lieutenant of Co. E, vice Robert G. Smith, promoted to be 1st Lieutenant and commandant of gun squad; 1st Sergeant Emile A. Noltemeyer, to be 2d Lieutenant Co. A, vice Richard P. Romaine, resigned. Appointed—Private Adolph Walter, Jr., to be bugler, with rank of Sergeant. Elected—Mervyn Armstrong, Jr., to be 1st Sergeant; J. Howard Bumsted, Jr., to be Sergeant; George H. Bowly, to be Corporal, Co. A; William Vreeland, George Trotter and Charles W. Deihl, to be Corporals, Co. D; William A. Thorburn, to be 1st Sergeant; John L. Compton and George A. Pullis, to be Sergeants, and Joseph W. Eaken, to be Corporal, Co. E; Edward K. Sutton, to be Sergeant, and John T. Pringle, to be Corporal, gun squad, Oct. 18, 1886.

PENNSYLVANIA.

GOV. PATTISON in his recent message to the Legislature says of the State troops: "The organization and discipline of the militia of the Commonwealth has continued to improve. During the last four years the attendance increased from 75 per cent. of the enrollment to 92 per cent., and the equipment, discipline and soldierly qualities of the militia received the official approval of the national inspecting officer. As the Commander-in-Chief I am glad to be able to report the excellent state of a branch of the public service, the maintenance of which in a condition of thoroughness is of the first importance to the security of a well-ordered government. It is a matter of public congratulation that the patriotic spirit of the citizen soldiery continues unabated."

OHIO NATIONAL GUARD.

THE *Daily Times-Star*, of Cincinnati, Ohio, says: "It would be hard to find a corps of officers in any military organization of finer appearance and more soldierly bearing than are the officers of the 1st Regiment, Ohio National Guard. And not only that, but they are men of intelligence and practical military information, and they justly pride themselves upon being 'up in tactics.'"

MODERN GUNS.

A VERY interesting *précis* of the Lydd experiments is concluded by Col. Baylay, R. A., in the November number of the "Proceedings of the Royal Artillery Institution, Woolwich." These experiments were undertaken to determine—(1) the penetration into and effect on parallels and approaches of projectiles fired from quick-firing (Hotchkiss) and from field and medium B.L. guns; (2) the effect of the fire of machine guns on various forms of approaches; (3) the amount of overhead cover necessary to protect field magazines from high angle common shell fire, when delay fuses are used; (4) the amount of accuracy and effect obtainable in the curved or high angle common shell fire of medium B.L. guns, with reduced charges, against concealed revetments or earthworks; (5) the gradual exterior slopes in deflecting projectiles on striking earthern parapets; (6) the relative value of bursting charges of different natures of powder when employed, in steel common shell, for the destruction of earthworks; (7) the number of rounds required (with various pieces of ordnance) to dismount a gun, on an overbank carriage, at a range of 2,400 yards, by frontal fire. They were divided into fifteen series, and, amongst other things, clearly proved the great advantage of parapets with a 15 deg. slope over those having a 45 deg. slope; for, whereas in the latter case the work was completely opened up in from six to nine effective rounds from an 8-in. R.M.L. howitzer, it was not so completely opened up in thirteen effective rounds when the 15 deg. slope was fired at.

EXAMINATIONS FOR PROMOTION.

To the Editor of the Army and Navy Journal:

IT is noticed that at this late date the powers that be recommend lineal promotion. Of course it goes without saying that this is a good thing. Gens. Sherman and Townsend argued long ago that it would be too expensive and not in accordance with custom in the English service to have lineal rank for lieutenants, etc. (See pamphlet issued on this subject.) In addition, however, it is now recommended that examinations for promotion in the line obtain. This is also excellent, provided the examiners are previously examined. It has been the fortune of the writer to serve from '61 to date as a subaltern, with a slight absence in civil life, during which he was, however, in an army bureau, and as a matter of fact for a quarter of a century has been thoroughly cognizant of army affairs. As a result of this experience he concludes that a bill providing for examination of officers should mean what it says. Examine, therefore, those holding commissions, in order to ascertain whether or not they are competent; not the few who may be subject to promotion only. Upon the tactical examinations, for instance, I observed during an entire winter that several captains averaged a little above zero, while junior 2d lieutenats averaged nearly a maximum. Morally, mentally, and physically it is fair to presume all start fair. Does twenty years' service find it so?

An examination of a man who has served twenty years, *since* the war, in addition to two or three years during the war, as compared to a young man (take the 4th Cavalry for example) is simply ridiculous. It is presumed too, that an examination should develop the fact of an officer's fitness for the position he is to occupy, and would it not, therefore, be correct to define the examination? In Cavalry, say, ascertain if the applicant for a captaincy can command a troop, by his knowledge of drill, theoretical and practical, by his knowledge of mode of supplying a troop and accounting therefor; by his knowledge of arms; shooting, that is, with rifle, carbine and pistol, mounted and dismounted; by his knowledge of sabre practice. Absences on sick leave to be counted against his physique. In fact, examine in all things pertaining to the proper discharge of his duties as a captain. But do not have the applicant examined by a set of captains who cannot ride, nor shoot, nor make up papers. Have, as stated above, the examiners examined. There are lots of captains, to say nothing of field officers, who could not pass any examination creditably on *any* points, a great many would fail physically, if not otherwise.

It would be no source of congratulation to a 1st Lieutenant of ability, to have a board of known incompetent captains to pass him! However, there is no doubt that something may be developed in the future of benefit to the Service by a system of examination, that is to say, in half a century.

There is one clause in the proposed bill which calls for a few remarks of commendation, that is that officers who served during the war as volunteers, etc., may be retired if they fail on their second examination. This clause will not, however, prove of much importance, as it is safe to say that nine out of ten officers from the volunteer army will pass any mental examination which may be imposed upon the line and about a like proportion in any physical examination. The moral question will not even come up in their cases.

The *Contemporary Review*, discussing German Military Examinations, says: "The tests of German officers for promotion are not answers to theoretical questions, but that annual observation under which they are brought when teaching and learning their duties in the field before an enemy. They have actually to handle troops under the eyes of their commanding officers, who are keen critics, and candidates for promotion are judged by their practical performances, not merely by answers to examination questions. The German examination paper will sometimes give one question and an hour or an hour and a half to answer it. The student under examination is called upon to go thoroughly into the subject, and he receives more credit for his own thought and power of reasoning out his argument than for exactitude in knowledge of the usual military ideas. Character and originality are considered of more value than memory of book work, because it is more important that officers should be capable of judging for themselves in the field than that they should have ever the largest fund of acquired information which they may lack the power to use against an enemy."

NEW PUBLICATIONS.

Messrs. Scribner have secured the services of Mr. T. Thulstrup and Mr. J. Steeple Davis to illustrate ex-Minister Washburne's "Reminiscences of the Siege and Commune of Paris." Both were in Paris at the time of the Commune, and are thus able to draw largely upon their own personal experience. The second instalment of the "Reminiscences," in the February *Scribner's*, contains a vivid description of life and incidents in Paris during the siege, closing with the entry of the Germans into the city on the 1st of March, 1871. It consists almost entirely of extracts from diaries, and possesses the interest which attaches to a description of such stirring events made at the time and in the midst of the excitement attending them.

There are Calendars and Calendars, big and little, good, bad, and indifferent, useful and ornamental, high-priced, low-priced, and no price at all. But for a substantial, practical Calendar, especially suitable for business offices, etc., with figures that can be read across a large room; and that will hang on the wall in good shape from January to December, few will mind paying 25 cents. This just about covers cost and postage for the one issued by N. W. Ayer, and Son, Newspaper Advertising Agents, *Times* Building, Philadelphia.

Dr. J. Berrien Lindsley, of Tennessee, has completed the first of several volumes which he is editing on the military annals of his State.

ANSWERS TO CORRESPONDENTS.

C. C.—You stand No. 11 on the Commissary Sergeant list.

E. W. R.—You will find the stations of the 22d U. S. Infantry in this number.

J. W.—See JOURNAL of last week (Jan. 1), page 456, as to extra duty pay for cooks and nurses.

Constant Reader.—There is an active Temperance Lodge at Washington Barracks, D. C. You might address the secretary there for information.

Purim.—General Willcox will be retired for age April 16, 1887. The appointment of a successor rests with the President of the U. S., who will doubtless exercise his prerogative in due season.

S. V. X.—Appointments have already been made for all the five New York districts which will be vacated by the graduating of cadets from the Military Academy in June, except the 33d District.

C.—Section 1599, Revised Statutes, prescribes: "No person under twenty or over twenty-five years of age shall be appointed from civil life as a commissioned officer of the Marine Corps, nor shall any person be so appointed under the direction of the Secretary of the Navy."

Marine.—The examination for the Signal Corps, U. S. Army, is moderate, embracing a fair English education, with some knowledge of telegraphy, etc. Write to the Chief Signal Officer for a copy of the pamphlet of instructions on the subject. We doubt the practicability or possibility of securing a transfer from the Marine Corps to the Signal Corps unless under extraordinary circumstances.

Pax.—The Department of Arizona was created in 1870 and General George Stoneman assumed command on May 3 of that year, headquarters at Prescott. In January, 1871, General Stoneman temporarily transferred headquarters to Drum Barracks, Wilmington, about 20 miles from the town of Los Angeles. General Crook succeeded General Stoneman June 4, 1871, and in August of that year returned the headquarters to Prescott.

THE MESS.

Judge McCallum's (of Iowa) first case was before a justice who was extremely harsh with criminals. The weakness of the old Puritan was his veneration for veterans of the war. The Philadelphia *News* tells this anecdote of the judge: McCallum had fought four years. His client was a thief. "The only thing I can do for you," said McCallum, after having gained the man's confidence, "is to implore the mercy of the court. When you go on the stand tell the whole truth." The man had stolen a cow, killed it, sold the hide, and taken the carcass home to his family, which was really suffering for the necessaries of life. "Now, your honor," said McCallum, "the defence has no witnesses. My client is guilty. He has hid nothing from this court." Then turning to the prisoner as if the fact had nearly escaped him, McCallum said: "By the way, you were a soldier in the late war, were you not?" "Yes, sir." "Weren't you at Gettysburg?" "Yes, sir." "So was I. And you were in other historic battles, fighting for your country, while your wife and family suffered from want at home?" "Yes, sir." The prosecution at this point saw the way the case was drifting, and attempted to ridicule the "old soldier" defence, as the prosecuting attorney named it. The effect on the old justice was to arouse all his loyalty and indignation. "Enough of this," said he, bringing his hand down on the desk in front of him with a thundering thud. "No soldier, no man who has shed his best blood for his country, not even if he be a criminal, can be reviled in my presence. The prisoner is discharged. And, sir, when you are suffering for the necessaries of life again come to me." The joke was too good to keep. McCallum told the justice one day that the old soldier was an ex-Confederate, but never again did McCallum practice in that court.

Pension Agent (taking papers from clerk)—Did this man take part in the war? Clerk—Yes, sir. Agent—What part? Clerk—All he could get, sir. He was a sutler.

FOREIGN ITEMS.

THE *Esercito Italiano* (Rome) states that the Italian Minister of War has inaugurated a series of evening classes for the study of Russian, to which all officers who apply may be admitted.

THE Suez Canal Company will pay the Egyptian Government $400,000 for a certain quantity of land for the purpose of widening the waterway. The transit revenue of the company in the first ten months of this year was $9,504,485. The corresponding revenue in the corresponding period of 1885 was $10,487,785.

GENERAL BOULANGER is reported to have recently got into a perfectly awful state of mind at the discovery that steel pens manufactured in perfidious Albion were being used by the students in the military schools of France. He decreed at once that only pens of French make should be used, under severest penalties.

THE drum, it is said, is to be re-established in the Italian Army. Over four years ago Gen. Farre, then in the plenitude of his power, decreed its abolishment in the armies of the French Republic, and shortly after both Belgium and Italy followed suit, and the roll of the "sheepskin fiddlers" was no longer heard in their ranks.

MADAGASCAR has concluded arrangements for obtaining a loan of $3,000,000 for twenty-five years at 6 per cent. per annum from the Comptoir Escompte of Paris, guaranteeing therefor the customs revenue of six of the Madagascar ports. Of this sum $2,000,000 is to be devoted to paying off the French indemnity, and the balance will be expended on the native army.

A QUEENSTOWN (Ireland) despatch of Jan. 5 says: The steel-armored cruiser *Phaeton*, of 3,750 tons and 5,090 horse power, put in here to-night on a ten days' experimental cruise to test her speed, guns and seagoing qualities. She was sent off the west coast of Ireland to encounter an expected gale, in which she rode finely. In fair weather she attained 17.80 knots. The officers consider her performance most satisfactory. She has a crew of 283 men. Her armaments consist of ten 6-inch breechloading guns, 16 machine guns, and she carries four torpedo guns, 12 torpedoes and two torpedo launches.

ORDERS have been received at Portsmouth, Eng., for the preparation of the *Cordelia* and *Calliope* for immediate commission. They are new ships, having never yet hoisted the pennant.

THE Italian Chamber of Deputies has passed the bill for an extraordinary credit of 25,000,000 lire, half of which is to be applied to the service of the War Department, and half to that of the marine.

THE company of Canadian and English capitalists lately formed to construct a line of cable between Vancouver, B. C., and Australia is pushing on the work. The company has applied to the Imperial Government for vessels to conduct the soundings and other work from the coast of Australia, and the matter is now under the consideration of the Government. The most encouraging offers of assistance in the way of subsidies have been received from all the Governments with whose territory it is proposed to make connection, and the matter has at last been placed beyond the possibility of failure.

FROM the opening of navigation at Montreal to October 1, 1886, 431 steamships arrived at that port, with a tonnage of 593.456 tons, against 350 steamships and a tonnage of 491,724 tons in the corresponding period of last year, while the number of sailing ships was not quite so large.

THE *Revue du Cercle Militaire* (Paris) states that experiments have lately been made in Austria with the object of adopting the nine centimetre field gun to mountain warfare by mounting it upon a somewhat lighter carriage. The trials have not, however, been attended with success.

RUSSIA has concluded arrangements for obtaining from the Hersents of Paris, a loan of 75,000,000 francs. The money is to be spent in constructing a canal from the eastern extremity of the Gulf of Perekop, in the Black Sea, across the neck of land adjoining the Crimea to the mainland to the Sea of Azov in order to afford a direct water route from the River Don to the Black Sea.

THE new Russian armored frigate *Admiral Nakhimoff* will make its first cruise next spring. The clipper *Razboinik* and two new gunboats will also be sent to the Pacific to increase the Russian squadron in that sea.

THE French Academy has resolved to petition the Government to revoke the decree expelling the Duc d'Aumale, on the ground that he has proved his patriotism by his gift to France of the Chantilly estates. A favorable reply is expected. The French Government will honor itself in revoking this unwise decree.

THE *Journal de St. Petersbourg* denies the stories that the Czar is insane, and characterizes as falsehoods the several actions attributed to the Czar and referred to as illustrating the nature of his malady. The *Journal* denounces the *Pesther Lloyd*, newspaper at Pesth, for publishing "such absurdities, which," it adds, "are hatched by foreign manufactories of lies."

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

JUST PUBLISHED.

A STUDY OF MEXICO.

BY DAVID A. WELLS.

Reprinted, with Additions, from "The Popular Science Monthly."

"The results of the 'Study of Mexico' were originally contributed, in the form of a series of papers, to 'The Popular Science Monthly.' .... The interest and discussion they have excited, both in the United States and Mexico, have been such, and the desire on the part of the people of the former country, growing out of recent political complications, to know more about Mexico, has become so general and manifest, that it has been thought expedient to republish and offer them to the public in book-form—subject to careful revision, and with extensive additions, especially in relation to the condition and wages of labor and the industrial resources and productions of Mexico."—*From the Preface.*

12mo, cloth, $1.00; paper cover, 50 cents.

For sale by all booksellers; or any volume sent by the publishers by mail, post-paid, on receipt of the price.

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers),
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F. and Fifteenth Streets, Washington, D. C.

Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refer to Gen W. S. Rosecrans, Register U. S. Treasury, Washington, D. C.; Hon. John S. Williams, 3d Auditor, U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday Sergt.-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

NEW YORK.

THE Porte has rejected the guarantees furnished by the Germania Company, to which Turkey contemplated giving a contract for the construction of torpedo boats, and tenders for the work will again be invited. It is probable that Germany will be able to exert pressure sufficient for the reacquirement of the contract for a German firm.

THE rage for monster armorclads has spent itself, says the London *World*, and unless naval designers suddenly agree on a new type of ship the Admiralty will concentrate their attention upon keeping our present warships in an efficient state, and upon developing mosquito fleets of gun and torpedo vessels, capable of high speed, of carrying powerful guns, and of making comparatively long sea passages. That is the official programme, and special interest will attach to the torpedo boat of the future. Its improvement in its offensive and defensive capacities is the first consideration.

FRENCH diplomats consider the statements made by the Government organs Dec. 30 that General Boulanger had not, as reported, reduced his supplemental military estimates from $60,000,000 to $10,000,000, coupled with the *Journal Officiel's* list of his reappointments of the generals in command of French fortresses, another evidence that war is not remote. Much curiosity is expressed as to what Germany will think of General Boulanger's decree making these appointments and bestowing upon General Thibaudin, commander of the Paris garrison, the new title of Superior Commander of the National Defence.

EMPEROR WILLIAM, of Germany, celebrated on January 1 the eightieth anniversary of his entrance into the Prussian Army by receiving all his commanding Generals, headed by Crown Prince Frederick William. In response to an address by the latter the aged warrior referred to his father, who, he said, allowed him to enter the army in the hope that he would experience better times than Prussia then endured. Providence had permitted him to see such happier times in the fullest measure. These better days were especially due to the successes of the army. Here the Emperor, much moved, embraced the Crown Prince and afterward Gen. von Moltke, to whom he spoke in an earnest manner, thanking him for his unparalleled services. Finally, turning to the other officers present, he said he hoped to meet them again on the 1st of January, 1888.

THE trials nearly a year ago of French and German armor at Bucharest furnish the text for a long illustrated paper in the "Mittheilungen uber Gegenstande des Artillerie-und Genie-Wesens (Vienna).

GENERAL BOULANGER has called the attention of commanders of Army Corps to the slovenly and unsoldierly conduct of sentries in fortresses and garrisons, whom he observes walk beyond their posts, lounge, and gossip with the passers by. The want of discipline in the French Army is most notorious, and was undoubtedly one of the many causes which led to the terrible results of 1871.

FORTIFY FEEBLE LUNGS AGAINST WINTER BLASTS with HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. DANBY.—At 118 Ryerson Street, Brooklyn, N. Y., Dec. 31, Chief Engineer ROBERT DANBY, U. S. Navy, retired.

FOLGER.—At Massillon, O., December 24, Mrs. ROBERT H. FOLGER, mother of Commander William M. Folger, U. S. Navy.

HEYL.—Suddenly, at her late residence, Camden, N. J., on the morning of Dec. 20, of paralysis of the heart, CAROLINE JULIA, wife of David Seeger Heyl, and mother of Dr. Theodore C. Heyl, Surgeon U. S. Navy; Lieut. Colonel Edward M. Heyl, Inspector General and 1st Lieutenant Charles H. Heyl, 23d Infantry, U. S. Army.

HEALY.—At Brooklyn, N. Y., Jan. 1, MABEL CARRINGTON, wife of Mr. Frank Healy and sister of Major Chas. W. Raymond, Corps of Engineers, U. S. Army.

HOWELL.—At New Orleans, Dec. 19, STODDART HOWELL, aged 73 years, father of Mrs. W. H. Wood.

HOWLAND.—At Santa Fé, Dec. 21, GEORGE W. HOWLAND, formerly Major Second Cavalry.

KARCHER.—At Brooklyn, N. Y., January 1, FREDERICK J. KARCHER, a soldier of the war and for many years an employee of the Quartermaster's Department, U. S. Army, in New York City.

LAWRENCE.—At New York City, January 1, General A. GALLATIN LAWRENCE.

LORING.—At the St. Denis Hotel, New York City, Dec. 30, General WILLIAM WING LORING, formerly Colonel Mounted Rifles, U. S. Army.

MAXWELL.—At Delaware City, Del., Jan. 5, Ordnance Sergeant JAMES MAXWELL, U. S. Army.

MCALLISTER.—At Governor's Island, N. Y., on Monday, January 3, Colonel JULIAN MCALLISTER, Ordnance Corps, U. S. Army, aged 63 years.

RONCKENDORFF.—In New York City, January 1, ELIZABETH DALE, wife of Commodore William Ronckendorff, U. S. Navy, retired.

WOOD.—At Pass Christian, Miss., January 1, Colonel WM. H. WOOD, U. S. Army, retired.

BOYLAN.—At a meeting of the members of Co. G, 3d Inf., at Fort Shaw, M. T., the following preamble and resolutions were adopted:

Whereas, It has pleased God in His divine providence to take from our midst by sudden death our esteemed friend and comrade JOHN BOYLAN, and feeling deeply our sense of bereavement, take this opportunity of expressing our deep sorrow for his loss through the following, viz.:

Resolved—1. That it is but a just tribute to the memory of the departed to say that he was a kind and generous friend, and a comrade ever ready to perform his full share of duty;

Resolved—2. That a copy of these resolutions be forwarded to the ARMY AND NAVY JOURNAL. A. J. DIXON, Sec.

Castings from Gun-Iron a Specialty.

33 AND 1-3 Per Cent.

DIVIDEND.

DIVIDEND NOTICE.

In addition to the reduction of the current yearly payments, as compared with the rates charged under the old system of Life Insurance, which reduction equals a **CASH DIVIDEND** of more than **FIFTY PER CENT. UPON THE TOTAL PREMIUMS PAID.**

Notice is hereby given, that, in addition to the aforesaid cash reduction, the amount now to the credit of all present members of the **MUTUAL RESERVE FUND LIFE ASSOCIATION**, who became members in 1881, equals a **DIVIDEND OF THIRTY-THREE** and **ONE-THIRD PER CENT.** upon the entire assessment premiums paid during the first quinquennial (five years) period, viz.: from 1881 to 1886, inclusive. Which amount has been deposited with and held by the Central Trust Company of New York, as Trustee of the Reserve Fund of this Association, and applicable as provided in the contracts held by the members of the Association.

MUTUAL RESERVE FUND

LIFE ASSOCIATION.

EDWARD B. HARPER, Pres.

F. T. BRAMAN, Secretary.

Notice is also given that during said time (from 1881 to 1886, inclusive) the **Mutual Reserve Fund Life Association** has paid to the widows and orphans and representatives of its deceased members nearly **Three Millions of Dollars in Cash.** Within this time its total business exceeds **Two Hundred and Twenty-five Millions of Dollars.**

More than fifty-five thousand of the leading citizens of our country have been received into its membership.

Every death claim has been paid promptly and in full, in many instances the widow and children receiving the money before the body of the deceased husband and father was laid in his grave.

Within this time (from 1881 to 1886 inclusive) there has accumulated in its **Cash Tontine Reserve Fund** nearly **One Million of Dollars**, which fund is held either by Governmental authorities, as required by law, or it is held by the **Central Trust Company** of New York as trustee for the members, thus precluding the possibility of the Reserve Fund of this association from being squandered by the officers of the association, as all investments must be made upon the joint approval of the **Two Companies**, while held by the Trust Company, yet invested in the name of the Mutual Reserve Fund Life Association, so that a failure of either institution would not jeopardize the securities held by the Trust Company for the protection of our members; and this **Reserve Fund** is increasing at the rate of nearly **One Thousand Five Hundred Dollars Per Day.**

We **have** saved our members by a reduction of the premiums, as compared under the old system, within the past **Six Years**, more than **Ten Millions of Dollars.**

Our Surplus is largely in excess of **One Million One Hundred Thousand Dollars.**

Our new business for the year 1886 exceeds **Fifty-five Millions of Dollars.**

Our Expense of Management is and has been less than one-third as great as that of the Level Premium Monopoly Companies, transacting business under the old system of Life Insurance, being less than one-fifth as great upon each one thousand dollars of new business transacted, and less than one-third as great upon each one thousand dollars of old business.

The conflict waged against this association and its management by the old and expensive level premium system, under the leadership of three of the most gigantic, unscrupulous and soulless monopolies the world has ever known, has been constant and never ceasing within the past twelve months (the father of lies, with his trusted lieutenants, has been met and a complete victory won by truth and justice), and to-day the officers of the Mutual Reserve Fund Life Association greet its many thousands of policy holders throughout the length and breadth of our land, **WISHING THEM A HAPPY NEW YEAR**, and assuring them that no better, no cheaper and no safer form of life insurance was ever devised than that offered by the **Mutual Reserve Fund Life Association.**

Further information can be had at any of the branch offices of the Association, which are located in the leading cities of our country, or by applying at the Home Office, Potter Building, 38 Park Row, New York City.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 25.
WHOLE NUMBER 1221.

NEW YORK, SATURDAY, JANUARY 15, 1887.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

We publish this week a bill introduced by Senator Manderson, providing for the retirement, upon his own application after twenty-five years service, of every officer of the Army who served at least three years during the Rebellion as an officer or enlisted man in the Regular or Volunteer Service.

General J. B. Fry, U. S. A., will read a paper on "Compulsory Education in the Army" before the Military Service Institution at Governor's Island, on Saturday of this week at 2 P. M. There will doubtless be a large attendance, as the subject is an interesting one and one on which there is much difference of opinion.

A recent despatch from the China Station serves to point the oft-repeated assertion that practically the two great English-speaking people of the world are one. The despatch in question is to the effect that the "*Monocacy*, having been relieved at Canton by H. B. M. S. *Espoir*, was at Hong Kong, but would return to the former station about the middle of December, and in turn relieve the British war vessel."

The Committee on seacoast defences, Mr. Dolph, Chairman, has reported the following amendment to the bill, S. No. 662, to encourage the manufacture of steel for modern Army ordnance, armor, etc., now on the Senate calendar :

Sec. 4. That for the construction of fortifications and other works of coast defence, in accordance with the recommendations of the Board on Fortifications or other defences, appointed by the President of the U. S., under the provisions of the act of March 3, 1885, $5,000,000, to be expended under the direction of the Secretary of War.

Pending action on the Navy reorganization bill, the Committee on Naval Affairs of the House has suspended work on the Naval Appropriation bill. Should the reorganization bill become a law, as Mr. Herbert and some of his friends now confidently expect it will, a change in the system of appropriations would be necessary, and for that reason the committee has decided to defer action for the present. The bill as far as made up is based upon existing laws.

The conferees on the Fortification bill came together on Friday last and after talking two or three hours, without making any progress toward an agreement, adjourned to meet on Monday, when they expected to hear from the Chief of Ordnance in regard to the progress that has been made with the two Army 10-inch steel guns, a provision for which is contained in the bill. The information was ready for them on that date, but, Mr. Randall being indisposed, they did not get together, and it is not known now when they will.

Suggestions come to us this week from various quarters that hereafter "appointments of non commissioned officers be not made unless upon the recommendation of Regimental Boards, duly approved by Department Commanders." We advocate a system of Regimental Boards, but hold that the action of Regimental Commanders upon the proceedings should be conclusive. The establishment of a system of *regimental* promotion for non-commissioned officers is also touched upon. This we have advocated frequently during the past few years and still hope to see it some day put into practice.

The *Revue Maritime et Coloniale* for November contains an article on the reconstruction of the Navy of the United States, by M. H. Garreau, "*Commissaire de la Marine de Réserve.*" The author thinks that the efforts of this country to make up for lost time by devoting a part of its immense resources to its development as a great naval power incontestably merits the attention of the European Powers, and especially of France. He adds that "the two great republics of the world have no opposing interests ; their union should, under certain circumstances, form an irresistible force in opposition to those who assume a too general dominion upon the sea."

The Headquarters of the Department of Arizona were to move on Wednesday of this week, January 12, from Whipple Barracks to Los Angeles, and the room thus made at the former post is to be filled by the addition to the garrison of Hay's Company, K, 9th Infantry, from Fort Verde, and Foote's and Pease's companies, H and I, 9th Infantry, from Fort Union, N. M. Fort Bliss having been transferred to the Department of Texas, there has ensued the return of the headquarters of the 10th U. S. Infantry from Bliss to Fort Union, a movement which has excited much wrath among the El Paso ites, who are very anxious that the headquarters, including the band, should stay where they are.

The British Admiralty has adopted Lord Charles Beresford's advice to build a fleet of fast cruisers. The new fleet will be completed in two years. The Russians have been giving great attention to this subject, and it evidently is their intention in the event of war to commission all the cruisers they can get hold of to drive English commerce from the sea. They have been making inquiries in this country as to what can be done in the event of war. Careful investigation has also been made by Russian agents into the condition of the English defences on the Pacific coast. Something will be required to defend the English possessions beside the shipment of obsolete cannon to Vancouver.

In another column we give a letter from a correspondent at David's Island in regard to the new mess hall recently established for the recruiting depot there. The especial purpose of the hall, we understand, is to have the whole of the enlisted men of the garrison mess together, instead of by companies, as customary throughout the Army for many years past. The success of the system under which the cadets at West Point are messed, has led to this further experiment, and we see no reason why it should not be generally successful. Certainly, the mess hall at David's Island, fitted up as it is with every convenience, affords full opportunity for a thorough test. To quote from a correspondent, "the new system has been carefully thought out, and Army officers familiar with it are sure that it will improve the condition of the enlisted men in every way. The adoption of the system throughout the Service is thought to be only a question of a little time, and will probably lead to a complete reform in the ration."

General Crook has published for general information in the Department of the Platte, a letter from Major Guy V. Henry, U. S. A., Acting Judge Advocate, stating that many charges preferred against enlisted men show a want of careful investigation into the alleged offences, on the part of the officers preferring the charges, and of the post commanders forwarding the same. Colonel Henry further says : "Discipline, without a doubt, must be maintained, but a more careful inquiry into, and supervision over matters of discipline, by the officers concerned, would greatly diminish the number of cases for trial ; which large number certainly brings discredit upon this Department, and with it, inferences not corresponding with the good character of the majority of the command." He recommends that company and post commanders be advised to make the most careful inquiry into alleged offences, before preferring or forwarding charges against enlisted men, and that charges be preferred only when deemed absolutely necessary for the maintenance of discipline, and then only if good grounds for them exist and there are sufficient provable facts to sustain them when brought to trial. General Crook, in making public Colonel Henry's remarks, says : "It is believed the number of cases presented for trial to Courts-martial can be very materially diminished, without prejudice to the discipline of the command, if officers will give their personal attention to this subject." That is just it, "their personal attention." This is so much in the line of our comments of last week on subjects connected with the discipline of the Army that there is no need to expatiate further at this time.

The New York *Tribune* has a cable synopsis of the opinions published in the London *Times* of Monday last, on the reports of the United States Board on Fortifications. While commending the thoroughness of the investigations, the writer disapproves the recommendations of the Board on the ground of the cost of the proposed fortifications. One-fifth of the proposed expenditure of $135,000,000 would suffice to raise the coast defences of England the world over to the highest standard. Sir Andrew Clarke, formerly Inspector-General of Fortifications, is quoted as having the same opinion, saying : "Such costly fortifications belong to the old school. I would do away with them altogether. It is an open secret that Italy regrets having expended so much money on fortifications. Germany is simply waiting to see what England does." For invulnerability Sir Andrew would substitute invisibility, abandoning fortifications altogether and adopting the disappearing gun system with sunken pits. "The gun," he said, "occupies a hole in the ground. It is exposed for only a few seconds. Covered ways shelter the men who load the gun so that the enemy has practically nothing to aim at. By means of electricity the gun can be raised, lowered, trained and discharged by one man in a position of safety a hundred yards or even a mile away. This has been actually accomplished. We are at work on a plan whereby machinery for loading the gun can also be operated by electricity. If this is successful the gun can be wholly worked from a safe distance. When you can dispense with fortifications you have more money for heavy guns, submarine mines and torpedoes. Heretofore I have vehemently urged the colony of Victoria, Australia, to build no more forts. I believe such costly defences will soon be regarded as obsolete in defensive warfare. The United States derives great advantages from her distance from Europe because the difficulty of using first-class ironclads so far from their bases is very great.

PERSONAL ITEMS.

COLONEL A. F. ROCKWELL, U. S. A., has returned to St. Paul from a three weeks' leave.

CAPTAIN A. E. WOODSON, 5th U. S. Cavalry, was a recent guest at the Southern Hotel, St. Louis.

LIEUTENANT L. S. ROUDIEZ, 15th Inf., left Fort Pembina, D. T., this week on a month's leave.

CAPTAIN E. B. SAVAGE, 8th U. S. Infantry, goes abroad in March to remain for several months.

COLONEL H. C. CORBIN, U. S. A., returned to Chicago this week from a short trip to New York.

CAPTAIN D. J. CRAIGIE, 12th U. S. Infantry, of Sackett's Harbor, visited friends in Washington this week.

MR. AND MRS. ARCHIBALD FORBES are expected in Washington very soon on a visit to General Meigs.

CAPTAIN J. F. SIMPSON, 3d U. S. Cavalry, leaves Fort Davis, Tex., next week on a sick leave for six months.

CAPTAIN CULLEN BRYANT and Dr. A. T. Steigers, U. S. A., are recent guests at the Occidental Hotel, San Francisco.

GENERAL W. D. WHIPPLE, U. S. A., and Mrs. Whipple left New York on Monday to spend a few weeks in Florida.

LIEUTENANT L. D. TYSON, 9th U. S. Infantry, lately visiting at Knoxville, Tenn., has had his leave extended two months.

LIEUTENANT T. E. TRUE, 4th U. S. Infantry, under recent orders has taken charge of quartermaster matters at Boise Barracks, Idaho.

LIEUTENANT T. M. DEFREES, 5th U. S. Infantry, leaves Fort Keogh, Montana, in a few days to spend a couple of months in a warmer climate.

LIEUTENANT JOHN CARLAND, quartermaster 6th U. S. Infantry, has left Fort Leavenworth on a few months' leave for the benefit of his health.

COLONEL JOHN HAMILTON, 5th U. S. Artillery, returned to Fort Hamilton, N. Y. H., early in the week from a brief trip to Washington, D. C.

COLONEL S. E. BLUNT, Corps of Engineers, U. S. A., was duly placed on the retired list for age on Monday, and enters upon a well-earned period of leisure.

LIEUTENANT B. K. ROBERTS, 5th U. S. Artillery, left Fort Columbus, N. Y. H., this week on a month's leave. Rumor has it that he is about to join the ranks of the Benedicts.

LIEUTENANT-COLONEL ALFRED MORDECAI, Ordnance Corps, U. S. A., has succeeded to the command of the New York Arsenal, left vacant by the death of Col. Julian McAllister.

MAJOR J. P. SANGER, A. D. C., has taken charge of the A. G. O., Headquarters, Division of the Atlantic, during the absence of General W. D. Whipple, who has gone South on a month's leave.

CAPTAIN T. M. K. SMITH, 23d U. S. Infantry, has taken temporary command of Fort Porter, N. Y., during the absence of Major Samuel Ovenshine at Washington on court-martial service.

COLONEL SILAS CRISPIN, Ordnance Corps, U. S. A., left Benicia Barracks, Cal., this week for Rock Island Arsenal, Ills., for temporary board duty to examine certain officers of the Corps for promotion.

LIEUTENANT W. W. GIBSON, 3d U. S. Artillery, a meritorious young officer, at present on duty at West Point, has been transferred to the Ordnance Corps to fill the recent vacancy caused by the death of Col. McAllister.

"GENERAL B. F. BUTLER, notwithstanding his advancing age, looks well and is as lively as a cricket," says A. J. S., Jr., of the Richmond *State*. "When leaving the House Wednesday he clapped a magnificent sealskin cap on his No. 8¼ head and strode along with the alacrity of a man of forty-five."

WASHINGTON BARRACKS, D. C, had many officers from a distance visiting there this week, being called to the post as members of a General Court convened for the trial of 1st Lieut. Chas. Humphreys, 3d U. S. Artillery, on charges covering disobedience of orders in skating on a pond which had been closed by order of the post commander.

ADJUTANT GOULD WARNER, of the Veterans of 1812, went to the Battery on Jan. 8, to hoist the flag in honor of the anniversary of the battle of New Orleans and had brought with him a pocketful of hickory-nuts, a small bale of cotton, and a flask of New Orleans molasses, to use in illustrating his speech. The flag halyards were found to have been so badly frozen that the Adjutant was unable to hoist the flag.

EX-SENATOR JOSEPH CILLEY, who represented New Hampshire in the Senate in 1846-47, completed his ninety-sixth year a few days ago. Col. Cilley served through the War of 1812-15, and was in the battle of Chippewa and Lundy's Lane. In this last engagement he was Lieutenant, acting as Captain, in the regiment of the gallant Col. (afterward Gen.) Miller, and led a company in that heroic charge on the British battery, which has made the name of Miller, with his laconic "I'll try, Sir," immortal. In this charge Col. Cilley received a musket ball in the thigh, fracturing the bone, which, after untold suffering, shortened and stiffened his leg for life.

THE Presidio County *News* has the following Fort Davis, Tex., items.

Capt. J. C. Thompson had a very beautiful Christmas tree for his little folks....Lieut. A. C. Ducat, Jr., and wife returned Wednesday, having been delayed on account of a washout. They had a good time showing the baby to grandma, and in many other ways... A polo team has been organized, consisting of the younger officers, and they have rare fun....Surgeon Appel states that there was not an officer or man unable because, of sickness, to eat his Christmas dinner. How will that do as a Fort Davis health item?.... Dr. Paul Clendenin personated Santa Claus at the Post Christmas tree very successfully, and to the great gratification and delight of the little folks.

COLONEL C. L. BEST, 4th U. S. Artillery, left Fort Adams, R. I., on Tuesday on a short leave.

MAJOR G. F. BARSTOW, U. S. A., of Fort McHenry, Md., visited friends in New York this week.

LIEUTENANT C. B. GATEWOOD, 6th U. S. Cavalry, on leave from Arizona, is visiting in Washington.

ADJUTANT R. J. C. IRVINE, 11th U. S. Infantry, has left Fort Sully for the East on a month's leave.

LIEUTENANT J. A. IRONS, 20th Infantry, lately in the East, was expected at Fort Assiniboine this week.

GENERAL SHERMAN and Mrs. Hicks-Lord are to open the great Charity Ball in New York City, January 20.

CAPTAIN GAINES LAWSON, 25th U. S. Infantry, is to avail himself of the benefits of the General Hospital at Hot Springs, Ark.

CAPTAIN H. H. HUMPHREYS, 15th U. S. Infantry, was in St. Paul last week en route from leave to Fort Buford, Dakota.

ASSISTANT SURGEON J. K. CORSON, U. S. A., lately on duty at Jefferson Barracks, Mo., has joined at Fort Cœur d'Alene, Idaho.

GENERAL R. B. AYRES, U. S. A., commandant at St. Augustine, Fla., is happy over the birth of a daughter at Asheville, N. C., Jan. 4.

LIEUTENANT GUY HOWARD, 12th U. S. Infantry, and Mrs. Howard, have returned to Fort Niagara, N. Y., from a pleasant trip to Omaha.

GENERALS SHERMAN and Miles were among the guests at a dinner given this week to a party of old friends by the Hon. W. F. Cody ("Buffalo Bill.")

GENERAL N. A. MILES, U. S. A., and family, left New York this week for Arizona. They will be joined in Chicago by Lieut. J. A. Dapray, A. D. C.

CAPTAIN EDWARD FIELD, 4th U. S. Artillery, took a part in amateur theatricals at Odd Fellows' Hall, Newport, R. I., on Wednesday evening of this week.

LIEUTENANT C. C. CUSICK, 22d U. S. Infantry, selected for recruiting duty in place of the late Lieut. W. J. Campbell, of that regiment, has joined for duty at Columbus Barracks, O.

MAJOR-GENERAL O. O. HOWARD, U. S. A., was to deliver a lecture on "Grant as a Youth, an Officer, and a Man," at San Francisco on Friday evening of this week for charitable purposes.

COLONEL LIVINGSTON, 4th U. S. Artillery, commanding Fort Warren, and Dr. Shannon, Assistant Surgeon, U. S. A., attended the inauguration of Gov. Ames, of Massachusetts, in uniform.

THE Cincinnati *Commercial Gazette* says: The Rev. A. Allensworth is making a brilliant record in the line of duty assigned him as Chaplain of the 24th U. S. Infantry, with station at Fort Supply.

MAJOR D. M. VANCE, 13th Infantry, whose mental ailment at St. Augustine we referred to last week, was brought to Washington this week in charge of Quartermaster Sebree Smith, of the 2d U. S. Artillery.

COLONEL JOS. C. BAILY, U. S. A., assistant medical purveyor, U. S. A., much to the regret of his many friends at Fort Monroe, Va., leaves there in a few days to take charge of the Medical Purveying Depot in New York City.

GENERAL H. G. GIBSON, U. S. A., will preside over a General Court-martial to meet at Washington Barracks on Monday next, for the trial of Lieut. Walshe, of the Signal Corps, on charges covering alleged false statements in an official report to the Chief Signal Officer.

GENERAL SHERMAN sadly observes the rapid diminution in the number of his old comrades in arms, but Tecumseh, after saying that it may come his turn next, very sensibly adds that the country will go on just the same. Tecumseh is not conceited on that point, and if any man living has reason for conceit it is Gen. Sherman.—*Boston Globe.*

THE charred remains of the man burned in the smoking car in the recent disaster at Mittineague, Miss., are now believed to be those of Patrick Graham, of Worcester, Mass., a soldier discharged from Fort Supply, I. T., at the request of his father, and through the influence of Senator Hoar, because he was a minor. He was expected about this time, and a charred cap with U. S. on it was found in the wreck.

THE El Paso *Times* despairs of Major-Gen. O. O. Howard, U. S. A., now that he is said to be about to return the Headquarters of the 10th U. S. Infantry from Fort Bliss to Fort Union, N. M. The *Times* urges every citizen of El Paso to attend the public meeting called to prepare a petition against the removal, and says: "We will not only thus guard the interests of our city, but also do a service to that splendid and meritorious regiment—the boys of the 10th."

CHAPLAIN B. C. HAMMOND, U. S. A., of Fort Davis, editor of the Presidio County *News*, having been charged by the *New Era* with mixing his "religious duties with ultra sectarian" (we suppose, says the Chaplain, the author means secular) "work of editing a political newspaper," publishes a reply, in which he says: "The live minister must deal with the living present, and, as occasion demands, utter the malediction: 'Woe unto you, scribes, pharisees, hypocrites.'"

A WASHINGTON correspondent of the New York *Times* says: It was reported that 2d Lieut. William A. Glassford, of the Signal Corps, formerly on duty at Washington, but now stationed at San Francisco, was to be court-martialled on charges of financial irregularities. It is learned at the Signal Office, however, that a court-martial will not be recommended. Charges against him have been received at the Signal Office, but they referred entirely to private matters, and, if proved against him, would not result in anything more than a reprimand. The expense of a court-martial would be great, with a probability of its being shown that the whole thing resulted from personal feeling. Lieut. Glassford's accounts were stated to be entirely correct.

MRS. MCCLELLAN, the widow of the General, has now established herself at Florence for the winter.

COLONEL T. F. BARR, U. S. A., of Major-General Terry's staff, visited his brother in Washington this week.

CHAPLAIN GEO. ROBINSON, U. S. A., has arrived in St. Louis, and assumed charge of educational matters in the Army.

ASSISTANT SURGEON CURTIS E. MUNN, U. S. A., after a pleasant tour of duty at Fort Cœur d'Alene, goes to Fort Canby, W. T.

THE Hon. James G. Blaine expects to visit his son-in-law, Col. J. J. Coppinger, 18th U. S. Inf., at Fort Gibson, I. T., in February next.

GENERAL CHARLES P. STONE, the engineer of the Bartholdi Statue pedestal, will leave New York to day to spend the rest of the winter in Louisiana.

LIEUTENANT HENRY C. NEWCOMER, Corps of Engineers, U. S. A., was married Dec. 29, 1886, at Bryon, Ills., to Miss Rebecca E. Kosier. The wedded pair have joined at Willet's Point, N. Y. H.

GENERAL W. T. SHERMAN, U. S. A., made an interesting address at the installation of Lafayette Post 140, G. A. R., on Wednesday evening at the Metropolitan Opera House, New York City.

THE twelfth annual dinner of the Associated Pioneers of the Territorial Days of California will be given at Martinelli's, New York, Jan. 18. Gens. Sherman and Schofield are among the invited guests.

COL. WALTER MCFARLAND, of the Engineer Corps of the Army, has written a vigorous argument against the bill for the transfer of the control of the New York Harbor improvements to a mixed commission.

THE will of the late Gen. W. W. Loring leaves a life interest in half his estate to Albert H. Nunez. Otherwise the property all goes to his two daughters, Mrs. Spencer, wife of ex-Senator Spencer, and Mrs. Mary Catherine Royston of Chicago.

FIVE years ago, says the *Pioneer Press*, Mrs. Bell, wife of Major J. M. Bell, 7th Cav., had all her jewelry stolen. Last May a friend of Major Bell gave him a clue by saying that he had received a letter saying the missing jewelry would be found in a tin can in a stone pile about fifty-nine miles from Fort Buford, the location of which was accurately described. Major Bell recently visited the spot and found the jewelry in perfect condition.

CONGRESSMAN JAMES, of New York, has introduced a resolution calling on the Secretary of the Interior for information as to the authority under which certain wild Indians are absent from their reservations. The resolution has reference to the Indians who are the principal feature of Cody's Wild West Show. Mr. James said: "My information, gathered from trustworthy sources, is to the effect that these Indians are being rapidly initiated into the worst forms of civilized vices."

IT is expected that the House Committee on Military Affairs will report adversely on the bill to restore Maj. Reno, with his former rank and date of commission in the cavalry. He was dismissed on March 16, 1880, he having been tried by a court-martial at Fort Meade, Dak., the preceding November, on the charge of having assaulted a fellow officer in a billiard saloon at that post, of being drunk at the Post Trader's, and of peering into the window of Gen Sturgis's sitting room at midnight and affrighting "that portion of the family which had not retired for the night." Maj. Reno is now 47 years old. Accompanying his papers are letters from Gen. Grant, Gen. Ingalls and ex-Secretary McCrary, testifying to Reno's worth as a soldier.

THE "Century Magazine" prints for the first time these words of Abraham Lincoln, given in an official reprimand to a young officer who had been court-martialled for quarrelling: "The advice of a father to his son, 'Beware of entrance to a quarrel, but being in, bear it that the opposed may beware of thee!' is good, but not the best. Quarrel not at all. No man resolved to make the most of himself can spare time for personal contention. Still less can he afford to take all the consequences, including the vitiating of his temper and the loss of self-control. Yield larger things to which you can show no more than equal right, and yield lesser ones, though clearly your own. Better give your path to a dog than be bitten by him in contesting for the right. Even killing the dog would not cure the bite."

ON Friday last the Senate passed the bill to compensate the heirs of Erskine S. Allin for the use of his patent by the Government in the Springfield gun, reducing the amount allowed from $100,000 to $30,000. Of the claim, Mr. Cockrell said: "The United States officials, having made full compensation for this device, go on and alter and change and manufacture some three or four hundred thousand Springfield muskets, using only one little bit of this patented device, only one item of it. Then after this armorer is dead and in his grave we are confronted here with a claim for $100,000 against the taxpayers of the United States." Mr. Hoar and others thought, on the contrary, that something was due for the use of an invention which, as he said, "enabled the Government of the United States to take an old stock of disused and outgrown and antiquated arms and transform them into the best modern arms known to civilized man."

THE Vancouver *Independent* of Jan. 5 says: "The wife of Lieut. G. T. T. Patterson, 14th Infantry, joined him at Fort Townsend Dec. 30. Capt. James Kennington, 14th Infantry, who has been sick some months, will probably be transferred to the hospital for the insane at Washington, he having lost his mind to a great extent. Lieuts. H. C. Cabell, Jr., and Alfred Hasbrouck, 14th Infantry, on Tuesday departed for the East, having a month's leave, and in case of extension by the War Department they will visit Europe before they return. Lieut. C. E. Langfitt, Engineer Corps, arrived with his bride at Vancouver Barracks at the close of the year. Capt. C. H. Warrens, 14th Infantry, has recovered from his illness sufficiently to go on duty again at Vancouver Barracks. A grand masquerade party will be given to-night in the barracks, at the residence of Col. and Mrs. Reynolds."

THE death of Gen. Duncan brings the number of vacancies on the disability retired list up to three. These will probably be filled in a very few days, as the Secretary of War has now the papers of all disabled officers before him.

THE Senate has passed the bill, No. 2619, referring to the Court of Claims the claim of Hiram Berdan, assignee of the Berdan Fire Arms Manufacturing Co., for the alleged adoption and use by the Government of certain alleged inventions relating to improvements in breech-loading fire-arms.

HARRY D. HUMPHREYS, the civilian candidate from Idaho, has been appointed a 2d lieutenant, subject to the confirmation of the Senate. Until his name went into the Senate this week it was supposed—in fact it had been so stated at the War Department—that the protest of the West Point cadets would prevent his receiving an appointment until the graduates had been assigned in June next. It is supposed that the cadets will now transfer their opposition to the Military Committee.

THE following Army officers are registered at the War Department: 2d Lt. F. V. King, 8th Inf.; Capt. Thomas H. Bradley, 21st Inf.; 1st Lt. Chas. B. Gatewood, 6th Cav.; Capt. C. E. Clarke, retired; 2d Lt. Wm. F. Flynn, 8th Cav.; 1st Lt. E. K. Webster, 2d Inf.; Maj. H. G. Thomas, Pay Dept.; Capt. A. B. MacGowan, 12th Inf.; Capt. John M. Norvell, 12th Inf.; 1st Lt. M. F. Waltz, 12th Inf.; Col. Delancey Floyd-Jones, retired; Col. H. M. Black, 23d Inf.; Capt. E. C. Woodruff, 12th Inf.; Capt. Geo. M. Randall, 23d Inf.; Capt. J. T. Haskell, 23d Inf.; Maj. Samuel Ovenshine, 23d Inf.; Capt. O. W. Pollock, 23d Inf.; Capt. H. G. Brown, 12th Inf.; Capt. D. J. Craigie, 12th Inf.; Capt. H. C. Egbert, 12th Inf.

ENSIGN G. W. STREET, U. S. N., was expected at Norfolk, Va., this week to join the *Galena*.

JUSTICE COX, of the District of Columbia Court, has denied the application of Passed Asst. Surgeon Hall to compel Secretary Wm. C. Whitney to restore the petitioner to his relative rank in the Navy.

LIEUT. COMDR. C. M. THOMAS, U. S. N., who has been assigned to duty in the Coast Survey, has a wide circle of friends in and about Washington, who will be glad to welcome him there if his station calls him to the Capital.

THE assignment of P. A. Engr. Crawford to the *Alert* will be a source of regret to his friends in the East, who fear that the duties and privations of the China Station will prove too great a strain to a state of health already a cause of grave anxiety.

THE following officers registered at the Navy Department this week: Surg. Chas. A. Siegfried, Medical Director Delavan Bloodgood, Lieut. N. J. K. Patch, Comdr. Horace Elmer, P. A. Paymr. John Corwine, Paymr. G. H. Read, Lieut. C. A. Gove and Lieut. W. H. Everett.

THE *Lancaster*, flagship of Acting Rear Admiral Braine, is now in Maldonado Harbor in the river Plate, but a short distance from Montevideo, being directly west from the latter port. At last accounts the officers and crew were in good health, but anxious for a look at the United States of America, a wish which may be gratified ere many months.

THE friends of Passed Assistant Surgeon E. H. Green, U. S. N., will note with regret that his recent assignment to the *Alert* will take him still farther afield. The *Alert* is to join the Asiatic Station at an early day, and will probably be assigned to the duty hitherto performed by the *Palos*. It is probable that Mrs. Green will join her husband on the station.

P. A. ENGR. JAS. H. PERRY, U. S. N., was registered at the Navy Department the latter part of the week, and speaks in high terms of his vessel, the *Dolphin*. The prospect of the remainder of the winter being passed on the turquois sea of the Caribo brings the smile of contentment to those who have shivered through a Norfolk winter so far in the year.

THE recent order assigning Chief Engr. A. W. Morley, U. S. N., to the *Dolphin*, relieving Chief Engr. Lowe, is an eminently proper move. Mr. Morley superintended the construction and erection of the machinery of the *Dolphin*, and now that this much-abused craft is going to "earn her keeping" it would seem quite the proper thing to give her a fair show.

P. A. PAYMASTER L. A. YORKE, U. S. N., has been granted permission to appear before the board by which he was examined for promotion, with counsel to defend him, and show reason why the recommendation of the board should not be approved. The hearing is set for Jan. 26. The conclusion of the board is understood to be that Paymr. Yorke is morally and professionally unfit for the Service.

COMMANDER GOODRICH registered in Washington last week, having paid a flying visit to the Department on duty connected with the Torpedo Station at Newport, R. I. The indefatigable industry and push for which Commander Goodrich is noted are producing their legitimate fruits in an increase of interest and zeal on the part of the officers assigned for instruction at that magazine of chained thunder.

THE assignment of Chief Engineer Lowe to the *Thetis*, taken in connection with the fact that Lieut. Emory is to have command of the vessel, seems to indicate that the Navy Department intends to indulge in some far north service in the near future. It is well known that neither Lowe nor Emory are ever quite happy except with their eyes fixed on the North Pole. These two officers have endured the "slings and arrows of outrageous fortune" in company during the famous "Greely Search Expedition."

THE assignment of Passed Assistant Engineer A. B. Willits to duty at the Mare Island Navy-yard under the general storekeeper is the first step under the new order of things affecting the engineers of the Navy. Associated with Mr. Willits in this technical duty are Boatswain Langton, Carpenter Barnard and Sailmaker Roddy. The duty of these experts will comprise the inspection and survey of all stores purchased or received by the General Storekeeper. These officers recently arrived from the Pacific Station on the *Hartford*.

LIEUTENANT W. H. SCHUETZE, U. S. N., lately visiting at St. Louis, has returned to Washington.

PAYMASTER GEO. E. HENDEE, U. S. N., was a guest at the Gilsey House, New York, early in the week.

REAR ADMIRAL C. H. BALDWIN, U. S. N., and Mrs. Baldwin expect to sail for Europe on Saturday, Jan. 29.

ASSISTANT SURGEON A. R. WENTWORTH has been admitted to membership in the Navy Mutual Aid Association.

LIEUTENANT S. H. MAY, U. S. N., reported at the Washington Navy-yard this week for a course of ordnance instruction.

LIEUTENANT-COMMANDER E. S. HOUSTON, U. S. N., and family registered on Thursday at the Hotel de la Couronne, Paris, France.

MR. RANDOLPH TUCKER, son of the late Comdr. John Randolph Tucker, U. S. N., was married Jan. 4 at Petersburg, Va., to Miss M. H. Hinton.

CHIEF ENGINEER GEORGE W. MELVILLE, U. S. N., who was recently ordered to fit out the new cruiser *Atlanta* for a trial trip, is suffering from throat and bronchial troubles.

OUT of 10 University of Virginia students who offered in the examination for the medical staff of the Navy 9 passed, and of 10 from Harvard 9 failed. —*Charlottesville (Va.) Chronicle.*

COMMANDER R. D. EVANS, Civil Engineer A. G. Menocal, and Lieuts. J. N. Hemphill and C. A. Bradbury, U. S. N., registered at the St. James Hotel, New York City, early in the week.

THE Naval Board on concentration of supplies and purchases returned from Altoona early this week. It found but few features of the Pennsylvania Supply Depot which can be introduced in the Navy.

THE well-known figure of Lieut. L. C. Logan has been seen in Washington on the avenue of late. Lieut. Logan has been paying a brief visit to his father-in-law, Admiral Porter, during the holiday recreations at the Naval War College, where he is stationed.

PASSED ASSISTANT ENGINEER J. J. BARRY, U. S. Navy, has reported for duty at the New York Navy-yard, and regards himself as settled for a good long tour of shore duty. Mr. Barry has many friends in the yard, who welcome him back with much pleasure. He has had several tours of duty at that yard.

THE friends of Comdr. Chester, of the *Galena*, were well pleased to see him once more in Washington, if even for but a few days. It is pleasant to note that Comdr. Chester's general health is better than for some time before joining his ship, although his ankle still reminds him by an occasional twinge that he is mortal like the rest of the world.

THE memorial tablet of Dr. Ambler, who lost his life in the De Long expedition, is now on exhibition in New York. It is of bronze, four feet long and three feet wide, and represents Dr. Ambler taking his place by the side of a dying man, with several companions, and waving farewell to two members of the expedition.

PAY INSPECTOR THOMAS T. CASWELL, U. S. Navy, who has just been relieved from duty as Fleet Paymaster of the Pacific Station, last September completed his first quarter of a century's service in the Navy, having entered on September 9, 1861. He served during the war on the *Huron*, the iron-clad *Sagamon*, and on the *Seminole*.

AT the President's reception on New Year's Day the line of naval officers present was formed by Rear Admiral C. H. Wells, the senior naval officer present, who took the head of the line with Rear Admiral Quackenbush. A correspondent suggests that the ground of objection by some naval officers to appearing in uniform on special state occasions, is that their proper places have not been recognized of late, and he suggests that this be rectified by a General Order of the Secretary of the Navy.

AMONG the latest matrimonial engagements on the Pacific Coast, says the *News-Letter*, is that of P. A. Engineer G. D. Strickland, U. S. Navy, to Miss Agostine Haraszthy, of San Francisco. Miss Haraszthy is the daughter of Arpad Haraszthy, the champagne millionaire of the Pacific Coast. While her father was Hungarian her mother was Spanish, a sister of Gov. Pacheo and a member of one of the oldest Castilian families in California. She is very beautiful and has been much admired in San Francisco society.

A PETITION was presented in the Senate on Thursday by Mr. Jones, of Nevada, from the assignees of the late Mr. John Roach, urging an appropriation for the payment of the claims of the deceased shipbuilder against the Navy Department. The total amount claimed is $59,951.61, of which $38,840.40 for work done in increasing the dimensions of the iron frame of the hull of the monitor *Puritan*, and $21,111.21 for preservation, safekeeping, care and storage of the monitor *Roanoke*, both of which balances remain unpaid for want of appropriation.

A STAUNTON (Va.) correspondent referring to the recent marriage of Mr. R. P. Waller, of Norfolk, to Miss Virginia Pelham Stuart, daughter of General J. E. B. Stuart, says: "Very handsome presents were received by the bride, including one from Gen. Jubal Early; another from the Stuart Horse Guard of Richmond, and Gen. Cooke, Gen. Custis Lee, and Gen. Eppa Hunton. Just as the ceremony was over a telegram of congratulation was handed the bride from Count Von Borcke, at his castle in Prussia, who was on her father's staff. The groom was attended by his brother, Lieut. L. W. T. Waller, U. S. Marine Corps, in full uniform."

IT is reported that Congressman John R. Thomas, of Illinois, has been suffering since last spring from a tumor at the base of his palate. It has been removed on several occasions by an operation that is both dangerous and painful, but it seems to be renewed again in a more aggravated form than before, and it is feared that he will be forced to resign his seat and retire to private life. Mr. Thomas has served on the House Naval Committee eight years, and has always favored liberal appropriations for ships and guns. He is in full sympathy with every measure having for its object the development and levation of the American Navy.

THE NAVAL RESERVE CORPS.

To the Editor of the Army and Navy Journal:

SOMEBODY—I don't know who—has estimated that every graduate of the Naval Academy costs this Government $15,000. Despite this large expense, for years the school has ground out its grist, until, finally, the time came when the resignations, etc., were manifestly insufficient to prevent the remains of the Navy from being ultimately manned solely by officers; a condition of affairs which, no doubt, when fully realized, would impress the country with as much astonishment as the *Minnesota* caused to the quarantine officials at Coruña, Spain, in 1867, when she reported her officers as 76, (48 midshipmen), and crew, 200.

The result, as we know, has been the dismissal to civil life of the greater part of recent graduating classes; so that now there exists, scattered over the country, a large body of men who have been educated as naval officers, following various pursuits.

The original Reserve Corps proposition was to enroll all graduates of the Naval Academy, who had honorably left the Service; to give them no pay, but to accord them nominal rank corresponding to that held by active officers of their dates. They were not to appear on the active list; nor in anywise to interfere with promotion of active officers. In event of war, the declaration thereof *per se* was to transfer them from civil to military life, rendering them at once subject to orders. It was further proposed that they should, in this event, be assigned to such duty as would free the whole active list for immediate service in the front.

This in the briefest general terms was and still is the proposition; and in view of possible changes affecting not merely the ships but the *personnel* of the Navy, the Government is asked whether, without one cent of cost, or the infringement of the rights, privileges or prerogatives of any body, it regards the aggregation of this body of men, educated by itself at large cost, whereby they are mobilized and rendered immediately available for duty, which, in the event of war, would be imminently needed, as worth considering or not.

The above plan has nothing at all to do with organizing a reserve navy from the merchant service. That has recently been tacked to it by the New York *Herald*. The two schemes are distinctly independent. Neither has it anything to do with enrolling volunteers, officers or men, from any source, on the breaking out of war. Personally, I do not believe that a reserve can be organized in the merchant service—for the simple reason that there is not any merchant service to speak of. As for the talk about the future navy being manned by "American officers and American seamen" of the merchant service—such as it is—most of it apparently being engaged in dodging yellow fever at one end of its line and the Custom House at the other, that is—talk and nothing more. Better American merchant officers and seamen and more of them existed in 1845—and yet the Naval Academy was established to educate *naval* officers. If we merely require people who float around in the way of business, we may as well look to the brick sloops of the Hudson or the barges of the Morris and Essex Canal for our future Admirals.

Speaking of admirals reminds me to express my regret that when Admiral Luce was interviewed by the *Herald* about the reserve plan, he should have been in so Bunsby-like a mood. Perhaps it was the fault of the interviewer that the Admiral has so little to say about the Reserve and so much about the decadence of the American man-o'-warsman. Perhaps, also, had he been asked his opinion he might have admitted that nearly as much benefit might accrue to the Navy from its including a body of men educated in its traditions and discipline—the fact of their personal regard for it as their *Alma Mater* aside—as from—say, an insular institution devoted to the cramming yearly of a dozen unhappy Lieutenants—during the intervals between Casino hops—with the variegated information exuded from as many previously crammed individuals of miscellaneous rank. I give way to no one in very cordial regard and respect for the Admiral—indeed, every Naval Academy graduate for the last quarter century is his personal debtor—but really when he leaves it open to inference that his ideal Navy of the future includes the dual plan of the old time Jacky, on the one hand—the Jacky of the tarpaulin, of the pigtail, and of the reticulated back—and on the other, the officer who is a living epitome of the whole art of war and Hoff's lectures—I am driven to remark that the Admiral does not seem to be getting at things in the direct and perspicuous way which was his wont in years gone by. Indeed, I fear that a recourse to the writings of Lieut.-Comdr. Luce must be had for an illustrative parallel:

(Luce's Seamanship, p. 121, old edition.)—"TO DISMANTLE THE SHEERS (*might call this the War College plan.*) Take the after heel tackles aft, come up the bulwark lashing and rouse the heels aft, easing away the forward heel tackles, the head guys and the hawser and lower away until the sheer head rests on the knight-heads; strip the sheer legs; cast off the sheer head lashing and get each leg aft in the gangway. . . Rouse out by the jiggers and lower the sheer leg overboard, etc.

"Or (*might call this the Aboriginal Jacky plan*) the sheer legs may be got overboard by parbuckles, rove as counter parbuckles, but instead, etc., etc.

"Or (*Now this is Lieut.-Comdr. Luce's plan*) THEY MAY BE GOT DOWN."

There; now if Admiral Luce will 'vast heaving at an ideal service wherein all the officers are to be professors and all the men Pinaforic mariners and forget his stars long enough to consult with Lieut.-Comdr. Luce, no doubt we shall hear of a plan of Naval reorganization as straight and to the point as the Lieut.-Commander's famous way of getting down sheers. And that plan, I am persuaded, will not wholly ignore a Reserve Corps—of which the members might well feel less gratification in their enrolment, than in the possible opportunity afforded them of perhaps again serving with a commander, under whom any duty is a privilege and an honor.

PARK BENJAMIN.

Military Order of the Loyal Legion.

A meeting of the Michigan Commandery took place at Grand Rapids Dec. 30, the occasion of the dedication of the Michigan Soldiers' Home. Several veterans were elected, and after the meeting a complimentary banquet was tendered by the Grand Rapids members of the commandery to the members from other cities. The gathering was a notable one.

RECENT DEATHS.

BREVET BRIGADIER-GENERAL THOMAS DUNCAN, Lieutenant-Colonel, U. S. Army, died at Washington, D. C., Jan. 7, 1887, after a short illness. General Duncan first saw service in 1832 as a private of Illinois Mounted Volunteers, and participated in the Black Hawk Indian War. On May 27, 1846, he was appointed a 1st Lieutenant of Mounted Rifles and served with credit during the Mexican War. He was promoted Captain March 15, 1848, and Major (3d U. S. Cavalry), June 10, 1861. During the war he distinguished himself in New Mexico and was severely wounded at the action of Albuquerque, where he commanded his regiment. For this he received the brevet of Lieutenant-Colonel, and afterwards the brevets of Colonel and Brigadier-General for gallant and meritorious services during the war. On the 28th of July, 1866, he was promoted Lieutenant-Colonel, 5th Cavalry, and retired Jan. 15, 1873, for disability arising from wounds received in the line of duty. During the Civil War General Duncan was struck on the head by a cannon ball and a portion of his skull was knocked off. Trepanning was resorted to, and for more than twenty years he had worn the silver plate which took the place of the abstracted portions of his shattered skull. The funeral took place on Monday, and the large parlors at 1216 14th street were filled with Army and other friends of the dead soldier. The ceremonies were conducted by Rev. Dr. Giesy, rector of Epiphany Church, and the burial took place at Glenwood. The pall bearers were: Generals Stewart Van Vliet, C. C. Augur, W. B. Rochester, Henry J. Hunt, D. H. Rucker, H. G. Wright, Innis N. Palmer, and B. C. Card, U. S. Army. His wife, who survives him, was the daughter of Hon. Joseph S. Wilson, for years Commissioner of the General Land Office, and is the sister of Gen. Thomas Wilson, U. S. A.; Col. John M. Wilson, Superintendent of Public Buildings and Grounds, and Lieut. Downs L. Wilson, U. S. N. He leaves a daughter and a son, 1st Lieut. Joseph Wilson Duncan, 21st Infantry.

—

PAYMASTER MILTON B. CUSHING, U. S. Navy, retired, died at Dunkirk, N. Y., Jan. 3, 1887, after many years' faithful and meritorious service. He was appointed Aug. 20, 1864, and retired April 1, 1882. The Buffalo *Express* says: "The death of this gentleman deserves more than a passing notice. He was the last of the famous Cushing family, one of four brothers who entered largely into the history of their country, to whose service they devoted themselves. Of a family of five brothers and two sisters, four brothers and one sister survived. Two of the brothers entered the Navy and two the Army. All died in the service, and their mother, now of the age of 78, survives all. The Cushing name is familiar to all who are acquainted with the history of the war. The most famous of the four was, perhaps, Commander William B. Cushing, of the Navy. Of his many exploits during the war the sinking of the rebel ram *Albemarle* in the Roanoke River, in October, 1864, was the greatest. He became a Commander in the Navy, but did not long survive the war. He is buried at Annapolis. Alonzo H. Cushing, another brother, graduated from West Point and received a commission as Lieutenant of artillery. He was killed at Gettysburg, where he commanded a battery. He is buried in the West Point Cemetery. Howard B. Cushing, another brother, was killed by Indians in Arizona while serving as a Lieutenant of the 4th U. S. Artillery. He entered the Regular Service from the Volunteers, with whom he enlisted during the war. Paymaster M. B. Cushing, who has just died, was the oldest of the four. He entered the Navy at the outbreak of the Rebellion and had a record of 26 years, making him one of the oldest in the Service. His last active service was as Paymaster of the Mediterranean Fleet in 1879 and 1880. Since then he has been incapacitated for service and has been at his home here. He married, in 1868, Miss Ellen D. Grosvenor, daughter of Judge T. P. Grosvenor, formerly of Buffalo. She survives him."

—

1ST ASSISTANT ENGINEER CHARLES ALFRED LAWS, of the Revenue Marine Service, and for the last eighteen months attached to the cutter *Washington* at New York, died at the New York Hospital on Wednesday, Jan. 12, from kidney troubles. He was born in Philadelphia forty-four years ago, and at the beginning of the war enlisted in Anderson's Cavalry. A year later he was appointed 3d assistant engineer in the Navy. He was with Farragut at Mobile Bay. In 1865 he became 2d assistant engineer in the Revenue Marine Service. He was engineer of the cutter *Corwin* when it was sent through Behring's Strait in search of the steamers *Jeannette* and *Rodgers*. He was a brother to Dr. James Laws, who was surgeon on Dr. Kane's Arctic Expedition, and who is now examining surgeon at the Pension Office, Washington. Engineer Law's body was sent to Philadelphia. Mr. Laws was promoted to First Assistant, August 7, 1874, and had passed a successful examination for Chief Engineer, standing No. 2 on the list of First Assistants for promotion. His record at the Department was particularly bright, while with his immediate superiors his close attention to duty and conscientious devotion to all matters entrusted to his care, won from them the highest encomiums. With his shipmates and brother officers he was deservedly popular, and his advent on board was always hailed with pleasure. Jovial, sunny in disposition, generous to a fault, he numbered his friends both in and out of the Service by score. Although his name will disappear from the roster of the Service, he will continue to live in the tenderest thoughts of those who knew him best.

—

FROM a friend of Col. McAllister we receive the following: "The high military record of Col. Julian McAllister, U. S. A., will be given, and with due honor will he be borne to his last resting place. But I cannot refrain from adding my feeble testimony to his worth as a 'Soldier of the Cross,' and those of his comrades who share the attachment of the writer, will be ready to confirm all I can say of his years of faithful, untiring, zealous labor for Christ and His church, militant, and of the virtues which inexpressibly endeared him to the more intimate circle of family and friends. We can but thank 'our great Captain' for this beautiful example, this blessed memory, and rejoice that having 'fought a good fight' and 'finished his course,' there is laid up for him 'a crown of righteousness.'"

—

THE Navy Department has information of the death of Lieutenant-Commander William Welch, U. S. Navy, whose retirement was so recently reported in the JOURNAL. His death occurred at his home, Lake George, N. Y., on Wednesday, January 12. He was a son of Horace Welch, a plain man, who will be pleasantly recalled by many visitors to that summer resort, and whom we well remember as a man of the most sterling character. Lieut.-Comdr. Welch was born in Massachusetts. He entered the Navy as a volunteer officer Aug. 18, 1862, served until after the war, and Mar. 12, 1868, was appointed an Ensign in the Regular Service. He was commissioned as Lieutenant March 21, 1870, and as Lieutenant-Commander April 23, 1883.

—

ENSIGN CHARLES S. MCCLAIN, U. S. N., lately at the Pensacola Navy-yard, died at Brooklyn, Jan. 11, of hemorrhage of the lungs. He was born in Ohio in 1858 and was graduated from the Naval Academy in 1878, No. 4 in his class. His first cruise was on the Pacific Station, followed by a three years' cruise on the Home Station. When the Government asked for volunteers for the Greely Relief Expedition, Ensign McClain was one of the first to answer the call, and was assigned to the *Alert*. At that time he was on special duty at the Smithsonian Institute in Washington. On his return from the Arctic regions he was stationed at the Naval Academy at Annapolis as an Instructor in Ordnance and Gunnery, and had charge of artillery drills; here he showed marked ability and rare mental attainments. A year ago he became ill and was ordered to the Pensacola Navy-yard with a view of regaining his health in a warmer climate; but he steadily declined and his family were advised to have him brought North in the following spring. After his detachment from the *Alert* in September, 1884, Ensign McClain was married to Miss Josephine Brooks, of Brooklyn, who survives him. He leaves one child. McClain was a man of strong character and high principles, and was universally loved by those who knew him. Many of his friends consider that his death was due to a severe cold contracted while on the Greely Expedition. His funeral took place on Friday at noon and he was interred in Greenwood Cemetery with the Naval honors due his rank.

CAPTAIN JOHN C. HOWARD, who died at San Antonio, Dec. 23, aged sixty-seven, was appointed a lieutenant in the 1st Texas Infantry, in the company of his brother, Captain George Howard. He was an officer in the celebrated expedition of Texas troops, under the command of General Hugh McLeod, against Santa Fe, N. M., and was captured as a prisoner of war to Puebla. Upon being released, Captain Howard returned to San Antonio, where he resided until the commencement of the Mexican war, when he joined the army of General Taylor at Point Isabel. Soon afterward he was appointed a lieutenant in the 12th U. S. Infantry, and served throughout the Mexican war, and after a peace was concluded was sent to Oregon. In 1861, Captain Howard, who was then upon duty in Oregon, resigned his commission in the U. S. Army and joined the command of General Albert Sidney Johnston, at Nashville, Tenn., and remained in the Confederate service until the close of the war.

JOHN ROACH, the well-known shipbuilder, died Jan. 10, at his residence in New York City, of cancer in the tongue. His death had been hourly expected for some time previous. To quote an exchange: "His ships were upon every sea, in the Navy of the United States, and in its merchant marine. He sailed ships as well as built them, and his enterprise was one of his most remarkable characteristics. The death of a man of such extraordinary force of mind, of such sturdy worth, such marvellous energy and public spirit is a national loss, a great and common calamity. John Roach was not only an example to all poor men having the ambition to rise to wealth and influence, but he exercised a distinctive force upon the country's industry, which he extended in one direction at least further than any other American had done."

ORDNANCE SERGEANT CASPER APP, U. S. Army, who was retired from active service October 16 last, died at Fort Monroe, Va., January 2. He enlisted in 1849, and rendered gallant and faithful service during the war. He was appointed an ordnance sergeant December 29, 1862. He was buried with military honors in the post cemetery.

MRS. LAVINIA MAXWELL WHITE, widow of J. C. White, of Hudson, N. Y., and mother of Captain J. C. White, U. S. Army, died at Philadelphia, January 7, 1887, after a long and painful illness. Her funeral services took place on Tuesday, from the residence of her sister, Mrs. Coffin, on Pine street, Philadelphia.

MRS. ANNA HAYNES HINMAN, wife of Capt. F. A. Hinman, Corps of Engineers, U. S. Army, died at Norfolk, Va., Jan. 11, of cancer and pneumonia, after a long illness. The funeral services took place on Thursday, after which the remains were taken to Flushing, L. I., for interment.

MRS. ANN GRATIOT, widow of Gen. Chas. Gratiot, Chief of Engineers, U. S. A., died Dec. 26, 1886, in the 90th year of her age, at the residence of her daughter, Mrs. Chas. P. Chouteau, near St. Louis. Gen. Gratiot, who left the Service in 1838, died May 18, 1855, at St. Louis.

ROBERT REAM, the brother of Mrs. Vinnie Ream Hoxie, the sculptress, wife of Capt. R. L. Hoxie, Corps of Engineers, U. S. A., died at the Cleveland House, Fort Smith, Ark., Jan. 7, 1887.

CHARLES H. MCKENZIE, one of the "immortal six hundred" of Balaclava, died in New York City, Jan. 12, of pneumonia.

MAJOR D. D. S. BROWN, who served as an Additional Paymaster during the war, died at Scotsville, N. Y., Jan. 11.

EXAMINATION FOR PROMOTION.

To the Editor of the Army and Navy Journal:

IT appears to me that sufficient attention has not been given in the public press to the recommendations of the President and Secretary of War in regard to the examination of officers for promotion. It is one of the most important measures that has been brought to the attention of Congress for the benefit of the Army.

It is obvious to every one that our field officers are becoming superannuated and unfit for the active duties of their profession.

In all the operations against the Apaches the field officers were conspicuous by their absence. Although squadrons and battalions were in the field under captains and lieutenants, and in one case where a battalion of infantry had to change station involving a march of some 150 miles, the field officer in command was unable to accompany them and the movement was made under a lieutenant. Twenty years ago no movement of troops, scouting or otherwise, occurred without the presence of a field officer when the size of the command justified, and in every regiment officers of this grade were found capable of the most arduous duties. Now, the reverse is the case, and it is safe to say that at least three-fifths of our field officers are physically unfit for any except post duty. In fact, our Army is gradually getting into the condition of the English Army in India before the great Sepoy mutiny, as described by Hodson, of Hodson's Horse. In one of his letters, speaking of the system of the Indian Army, this distinguished officer says: "At the age at which officers become colonels and majors, not one in fifty is able to stand the wear and tear of Indian service. They become still more worn in mind than in body. All elasticity is gone; all energy and enterprise worn out; they become, after a fortnight's campaign, a burden to themselves, an annoyance to those under them, and a terror to every one but the enemy. The officer who commanded the cavalry brigade which so disgraced the service at Chillianwalla was not able to mount a horse without the assistance of two men. A brigadier of infantry, under whom I served during the then most critical days of the late war, could not see his regiment when I led his horse by the bridle until its nose touched the bayonets, and then said faintly, 'Pray which way are the men facing, Mr. Hodson.'"

Now, there are cavalry officers in our Service who, if mounted, would need more than two men to hold them on at a gallop, and a ten mile would put them in hospital. The infantry arm of the Service is, if anything, in worse condition. Many of the "old captains" who served during the War of Secession are in the same category. This state of affairs is growing worse from year to year, and it is time for the authorities to take steps to stop it. No officer of right feeling could object to an examination by a competent Board, and if he did it would be *prima facie* evidence that he was unfit for his position. No government on earth is so liberal toward its officers and soldiers, and it is therefore entitled to the best service. The increase of the retired list would be but temporary, as in the course of nature these broken down veterans would soon disappear. The impulse given to promotion would add new life to the Army, and make the younger element ambitious and studious. Let the young men, therefore, bestir themselves with their friends in Congress to have this measure pushed through in the present session.

A.

LATE ARMY ORDERS.

1st Lieut. G. K. Hunter, 3d Cav., will inspect Signal Service property at Cincinnati, O., for which Capt. F. B. Jones, A. Q. M., is responsible. (S. O., H. Q. A., Jan. 12.)

1st Lieut. C. P. Terrett, 8th Inf., is granted six months' leave on surgeon's certificate. (S. O., H. Q. Army, Jan. 12.)

The leave granted 2d Lieut. John T. Thompson, 2d Art., (Little Rock Bks., Ark.,) is extended seven days. (S. O. 10, Div. Atl., Jan. 14.)

Major William H Gardner, Surgeon, will proceed to Fort McHenry, Md., and report for duty as Post Surgeon, relieving Major John Brook, who will repair to Fort Monroe, Va., and report for duty as Post Surgeon. (S. O. 10, Div. Atl., Jan. 14.)

Lieut.-Col. Joseph C Baily, Assistant Medical Purveyor, will stand relieved from duty in the Division of the Atlantic upon receipt of this order at Fort Monroe, Va. (S. O. 10, Div. Atl., Jan. 14.)

THE retirement of Medical Director Dungan, Jan. 29, promotes Medical Inspector Kindleberger, Surg. B. H. Kidder and P. A. Surg. B. F. Rogers.

THE ARMY

NOMINATIONS TO THE SENATE.

January 10, 1887.

Ordnance Department—2d Lieut. William W. Gibson, 3d Artillery, to be 1st Lieut., Jan. 10, 1887, to fill a vacancy.

Corps of Engineers—Lieut. Col. William P. Craighill to be Colonel, Jan. 10, 1887, vice Blunt, retired. Major Charles R. Suter to be Lieut. Col., Jan. 10, 1887, vice Craighill, promoted.

January 11, 1887.

20th Infantry—Harry D. Humphreys, of Idaho, to be 2d Lieut., Jan. 10, 1887, vice Greene, promoted.

G. O. 2, H. Q. A., Jan. 3, 1887.

By direction of the Secretary of War, pars. 1663 and 1664 of the Regulations, as amended by G. O. 116, of 1882, from this office, are further amended to read as follows:

1663. The signature to the receipt and the name of the person or business firm as entered at the head of an account must be literally alike. When payment is made to an "attorney" he will be required to sign the receipt with the name of the principal, adding the words "by his (or her) attorney in fact," signing his own name thereafter.

1664. Where money is payable by a disbursing officer to a person, firm, or corporation, it may be paid to a duly authorized agent or attorney of such person, firm, or corporation, upon his producing and filing with the disbursing officer or the accounting officers a power of attorney, or other written authority properly executed, authorizing him to receive such money and to give a receipt or acquittance therefor, and a voucher, signed with the name of such person, firm, or corporation, by the agent or attorney will be deemed sufficient. If the authority of the agent or attorney is produced to the disbursing officer and filed with his account it must be returned by him to the accounting officers with the vouchers and other papers relating to the payments. When an account is presented by an individual who is not known to the disbursing officer, the latter will require such evidence of identity as will secure the Government as well as himself against loss.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 4, H. Q. A., Jan. 7, 1887.

By direction of the Secretary of War, the post of Fort Bliss, Texas, and that portion of El Paso County, Texas, lying north of an east and west line passing immediately south of the town of San Elizario, is transferred from the Department of Arizona to the Department of Texas.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 5, H. Q. A., Jan. 8, 1887.

The following act of Congress is published for the information and government of all concerned:

An act for the relief of graduates of the United States Military Academy, and to fix their pay.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That every cadet who has heretofore graduated, or may hereafter graduate at the West Point Military Academy, and who has been or may hereafter be commissioned a second lieutenant in the Army of the United States, under the laws appointing such graduates to the Army, shall be allowed full pay as second lieutenant from the date of his graduation to the date of his acceptance of and qualification under his commission and during his graduation leave, in accordance with the uniform practice which has prevailed since the establishment of the Military Academy.

JOHN G. CARLISLE,
Speaker of the House of Representatives.
JOHN SHERMAN,
President of the Senate pro tempore.

Approved, December 20, 1886.
GROVER CLEVELAND.

By direction of the Secretary of War, G. O. 127, Headquarters of the Army, Adjutant General's Office, series of 1885, is revoked, and paragraph 84 of the Regulations is hereby restored.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIRCULAR 12, H. Q. A., Dec. 31, 1886.

The following decisions, rulings, etc., have been made during the month of December, 1886, and are published to the Army for the information of all concerned:

ISSUE OF SERVICE CHEVRONS.

Owing to the excessive issue of gold lace service chevrons, peace and war, during the last two years, the attention of commanding officers is called to the table of allowance published in G. O. 46, c. s., from this office. Gold lace chevrons are to be worn only with the uniform dress coats, and consequently the number of pairs of chevrons to be worn upon said coats must not exceed the number of sets to which the enlisted men are entitled. To illustrate:

If an enlisted man is entitled to wear one pair of war and two pairs of peace chevrons, then the issue must be confined to three pairs war and six pairs of peace chevrons during an enlistment of five years.

These service chevrons are marks of honor and are issued gratuitously; they will therefore be applied only to the purpose for which they are intended, and must not be diverted from their legitimate use. Any number of pairs of service chevrons issued in excess of the number of pairs to which the enlisted men are entitled will be charged to them at the price specified in the annual price list.—(Decision Sec. War.)

TACTICS.

In forming column of twos from column of files the leading file should march three yards to the front and halt. (Paragraphs 238 and 239, Infantry Tactics.)

Mark time from "backward march" is not authorized or practical.

Mark time should not be executed during an oblique.—(Decision Lieut. Gen.)

Question. Is it correct in posting a relief to march it at a "secure arms" with bayonets unfixed?

Answer. Bayonets are not necessarily unfixed while marching a guard at "secure arms." Whether they shall be fixed or unfixed can be decided by the commanding officer as may seem proper to him under the circumstances.—(Decision Lieut. Gen.)

Question. Is it necessary for the commanding officer to command "cease firing" before "posts," after firing by battalion or rank, having brought his command to "carry arms" after "fire," and all the pieces being unloaded?

Answer. It is the opinion of the tactical department that the command "cease firing," "posts," should be given. (See paragraphs 188 and 393, Infantry Tactics.) While the command "cease firing" may be superfluous in the special cases cited, it is believed to be the purpose of the tactics, in the interest of simplicity, to have but one command to announce that the firing is over, and that the officers and noncommissioned officers will return to their places in line.

Question. Marching in line, arms at "trail," command "right turn" being given, would the men bring their pieces to "right shoulder" at the preparatory command, or would they remain at "trail?"

Answer. Arms should remain at "trail."—(Decision Lieut. Gen.)

Question. What is the correct manner of holding the sabre by a battery sentinel when challenging, receiving the countersign, or holding communication with any person?

Answer. In all the cases mentioned the sentinel should take the position of "guard," except that the left arm is extended by the side and the feet are together.—(Decision Lieut. Gen.)

TRANSPORTATION OF PROFESSIONAL BOOKS.

Works of reference, dictionaries, encyclopedias, historical works, etc., may properly be regarded as professional books, and will be transported by the Quartermaster's Department on application.—(General decision, letter Dec 21, 1886.)

RELATIVE RANK OF NON-COMMISSIONED OFFICERS.

The non-commissioned officers specified in clause 13, paragraph 10 of the Regulations (as amended by G. O. 4, of 1886, from this office), viz., ordnance, commissary, and post quartermaster sergeant, hospital steward of the first class, chief musician, chief trumpeter, and saddler sergeant, are all of one grade, taking precedence by date of appointment.—(General decision, letter Dec. 29, 1886.)

SETTLEMENT OF TELEGRAPHIC ACCOUNTS.

The regulations governing the settlement of accounts for telegrams on military business require no duty on the part of officers sending telegrams beyond the proper delivery of the message to the telegraph company for transmission. Disbursing officers of the Quartermaster's Department stationed at convenient points throughout the country have been designated to receive from the telegraph companies their accounts, with proofs of service (which should be the original telegrams), and to prepare and certify vouchers for the same and pay them or forward them for settlement as may be required. Therefore, whatever information or data may be desired by the telegraph companies touching their accounts on military business should be sought from the officers of the Quartermaster's Department charged with and responsible for their proper settlement.—(Indorsement Q. M. Gen., letter Dec. 1, 1886.)

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

WAR DEPARTMENT, A. G. O., Jan. 10, 1887.

Publishes proclamation of the President of the U. S., dated Jan. 5, 1887, directing that the military reservation of Fort McPherson, Nebraska, be placed under control of the Secretary of the Interior for disposition, it having become useless for military purposes.

G. O. 1, DEPT. OF ARIZONA, Jan. 1, 1887.

Announces the target practice season at posts for the year 1887.

(We do not publish the order in full for the reason that the new regulation, reducing the practice season to three months, will necessitate another order from the Headquarters, Dept. of Arizona.—ED. JOURNAL.)

G. O. 2, DEPT. OF ARIZONA, Jan. 5, 1887.

The headquarters of the Department is hereby transferred to Los Angeles, Cal. The journeys of the Department Commander and staff to that point are necessary for the public service.

CIR. 17, DEPT. OF THE COLUMBIA, Dec. 27, 1886.

Under decision from the office of the Adjutant General, dated Aug. 6, 1881, each officer should make out his own accounts for payment of mileage, and these vouchers be accompanied by the requisite number of copies of the order under which the travel was performed.

CIR. 13, DEPT. OF DAKOTA, Dec. 23, 1886.

Publishes report of the Inspector of Rifle Practice for 1886. The record of target practice for the present year shows, by comparison with that of the past year, that the high degree of excellence then reached has been substantially maintained. This result could, evidently, follow only from continued intelligent and careful instruction by officers of the regiments, and faithful endeavor, by the soldiers under instruction, to become proficient in the use of their arms.

By command of Brig. Gen. Ruger:
THOMAS M. VINCENT, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

Leave for one month is granted Lieut. Col. Wm. D. Whipple, A. A. G. (S. O. 7, Jan. 10, Div. Atlantic.)

We are indebted for a Roster of the A. G. Dept., brought up to Dec. 31, 1886. It shows the station, with period, of each officer of the Department since his entry into it, and is a useful document of reference.

Brig. Gen. Absalom Baird, Inspr. Gen., will proceed to Fort Du Chesne, Utah, under special instructions from the Lieutenant General (S. O., Jan. 8, H. Q. A.)

Quartermasters and Subsistence Departments.

The leave for twenty days granted Major Almon F. Rockwell, Q. M., is extended three days (S. O. 133, Dec. 30, D. Dakota).

The leave granted Col. Wm. W. Burns, A. C. G. of Sub., is extended one day (S. O. 7, Jan. 10, Div. Atlantic).

Pay Department.

Major Wm. Smith, Paymr., will proceed to Rock Island Arsenal, and pay the troops there (S. O. 4, Jan. 8, Div. Mo.)

Major Francis S. Dodge, Paymr., is authorized to send by express to West Point, N. Y., a quantity of silver coin (S. O. 5, Jan. 7, Div. Atlantic).

Major De Witt C. Poole, Paymr., Vancouver Barracks, will proceed to Portland, Ore., on public business (S. O. 226, Dec. 27, D. Columbia).

Major Francis S. Dodge, Paymr., will proceed to Sandy Hook, N. J., and pay the troops stationed there (S. O. 6, Jan. 8, Div. Atlantic).

Medical Department.

The leave of absence granted 1st Lieut. George F. Wilson, asst. surg., is extended twenty days (S. O., Jan. 12, H. Q. A.)

Leave of absence for six months on surgeon's certificate of disability, with permission to leave the Div. of the Mo., is granted Major Harvey E. Brown, surg. (S. O., Jan 12, H. Q. A.)

Lieut. Col. Joseph C. Baily will be relieved from duty in the Dept. of the East, and will proceed to New York City and take charge of the medical purveying depot in that city, relieving Capt. Henry Johnson (S. O., Jan. 12, H. Q. A.)

The extension of leave of absence on surgeon's certificate of disability granted Capt. Richards Barnett, asst. surg., is further extended six months on account of sickness (S. O., Jan. 12, H. Q. A.)

A furlough for two months is granted Hospl. Steward J. R. Fowler, with permission to apply for an extension of two months (S. O. 142, Dec. 29, D. Arizona).

The contract of A. A. Surg. John M. Kollock is annulled, to take effect Dec. 31 (S. O. 227, Dec. 31, D. Columbia).

Capt. Joseph K. Corson, asst. surg., will proceed to Fort Cœur d'Alene, and report for duty. Upon his arrival, A. A. Surg. C. K. Merriam will return to Fort Spokane (S. O. 227, Dec. 31, D. Columbia).

Asst. Surg. Curtis E. Munn is relieved from duty at Fort Cœur d'Alene, I. T., and will proceed to Fort Canby, W. T., and relieve Asst. Surg. John M. Banister, who will proceed to Cœur d'Alene and report for duty (S. O. 227, Dec. 31, D. Columbia).

Hospital Steward John J. Swan, Vancouver Barracks, will proceed to Fort Douglas for duty. Hospl. Steward Walter S. Haines, Ft. Douglas, will proceed to Governor's Island, New York City, reporting to the Comdg. Gen., Div. of the Atlantic, for assignment to duty (S. O., Jan. 10, H. Q. A.)

Engineers and Ordnance Departments.

1st Lieut. Wm. M. Black will proceed from Jacksonville, Fla., to Fort Marion, St. Augustine, Fla. on public business (S. O., Jan. 12, H. Q. A.)

Elias Chandler, 16th Inf., will assemble at the San Antonio Arsenal, Jan. 7, to fix the responsibility for the damaged condition of the stocks of three Springfield rifles (S. O. 2, Jan. 5, D. Tex.)

Retirements of Enlisted Men.

Corpl. James Nugent, Co. B, Battalion of Engineers, Jan. 8.

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

A despatch from New Orleans says that Fort Jackson, near the mouth of the Mississippi, is in danger of being undermined and ruined, owing to a change of bed of a branch of the river.

The *Gazette* says: "Col. Berry has telegraphed friends that an additional $50,000 will no doubt be appropriated for the Barracks at Newport, Ky., but that a new location will be secured."

A large concrete magazine in the redoubt containing powder and material for manufacturing pyrotechnics blew up at Fort Monroe, Va., Jan. 9, from spontaneous combustion. The glass in the officers' quarters and hotel suffered.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

Fort Bliss has been transferred from the Missouri to this Department.

The El Paso *Times*, referring to a rumor that Fort Hancock is to be abandoned, says: "The troops stationed there have been at work for some time in constructing a substantial and massive levee around the whole military reservation. This does not look much like abandoning the post. Verily, the ways of that War Department of ours are past finding out."

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A special of Jan. 9 from Fort Keogh, Mont., says: "The weather Friday night was the coldest of the season.' Spirit thermometers at the post hospital registered fifty below zero, which is their minimum, but the weather must have been much colder."

Division of the Pacific—Maj.-Gen O. O. Howard.

A handsome roster of troops serving in the Division of the Pacific reaches us this week. It contains a mass of information, is neatly and tastefully bound, and creditable to the printing establishment of the Division.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Jan. 12, 1886.

THE result of the semi-annual examination was made known yesterday so far as the names of deficient cadets is concerned. There were a great number of unfortunates—forty-five failed to pass, and of these four were conditioned until next June, when they will have to pass a satisfactory examination in mechanics. Of the others thirty-nine were ordered to their homes, which means that they will be discharged, and two were turned back from the Third to the Fourth Class. Of the forty-five, nine belonged to the Second Class, six to the Third Class and thirty to the Fourth Class. The unlucky ones all left in the afternoon amid sorrowful farewells, for many were favorites in their classes. The representation by States of those who have fallen out is: New York, five; Texas, Pennsylvania, Louisiana and Kentucky, three each; Tennessee, South Carolina, Massachusetts, Illinois, West Virginia, and "At Large," two each; Mississippi, Ohio, Wisconsin, New Mexico, North Carolina, California, Indiana, New Hampshire, Missouri, Utah and Minnesota, one each.

The toboggan slide has become the favorite place of rendezvous every afternoon. The fastest time so far is 13 seconds. As the distance passed over is about 700 feet, the rate is nearly a mile a minute. The following rules have been promulgated:

It will be open for use only between 11 A. M. and 1 P. M., and 3 P. M. and 5.30 P. M. On account of the limited size of the platform, spectators are requested not to occupy it. It is not built strong enough to be safe when crowded with people. Only those who intend to slide are to occupy it. For the safety and good of all using the toboggan slide, the following things are forbidden: 1. Its use by those under 16 years of age, except as passengers; 2. The use of toboggans having projecting runners, or of sleds of any kind; 3. Steering with bare shoes; 4. Bells or other ornaments likely to drop off; 5. Starting before one's predecessor has crossed the bridge; 6. Going on a toboggan more than three at a time; 7. Its use except at the prescribed times; 8. Dogs. N. B.—Get up and out of the way as soon as you stop, and take your toboggan with you, so as to avoid collision.

The officers had another hop in Schofield Hall last Thursday evening, which was fairly well-attended. Lieut. Landis was the manager.

We have had a great deal of snow this winter. In some places alongside the walks it is in piles eight feet high. A large number of tons of fine clear ice have been already stored in the icehouses.

The funeral of the late Col. Julian McAllister, U. S. A., took place last Thursday. The remains arrived on the 1 o'clock train and, being met at the top of the hill in front of the library, were taken to the cemetery, where brief funeral services were held by the chaplain from Governor's Island. Two daughters, a niece, a son and a brother followed to the grave. The pall bearers were Dr. Sutherland, Gen. Burns, Gen. Van Buren, Col. Mordecai, Capts. Shaler and Whipple, Major Sanger, Captain Charles Morris, and Lieut. A. D. Andrews. Besides a large number of civilian friends were present. The escort consisted of the Engineer company, under Capt. Price.

Lieut. and Mrs. Philbrick, 11th Inf., spent several days here last week. They were the guests of Lieut. and Mrs. Gordon.

Mr. William R. Michie, eldest son of Professor Michie, left this morning for Baltimore, where he is to embark on a sailing vessel to go to Cuba for a six weeks' pleasure trip.

There will be a cadet hop on Saturday evening. It is probable that one will be given every other Saturday until the drills begin in March.

FORT DAVIS, TEX.

THE Presidio County *News*, of Jan. 7, says:

Capt. J. C. Thompson has been ill for several days, but is thought to be somewhat better.... Lieut. Levi R. Hunt, of the 10th Cav., with his wife, spent a few days this week visiting among friends at Fort Davis.... Lieut. W. H. Barnum, with a detachment of twenty-five men, have gone to Fort Hancock to help build a dyke.... We learn that Col. D. R. Clendenin and Mrs. Clendenin are at their home in Zellwood, Fla., in the midst of friends, and are both in good health and enjoying themselves greatly.

STANDING OF THE WEST POINT CADETS.

WE give here the standing of the several classes Military Academy as just determined by the semi-annual examination. The numbers following the names show the standing in the several studies in the following order:

1st Class—Engineering, Law, History, Ordnance and Gunnery.
2d Class.—Mechanics, Chemistry, Drawing, Tactics.
3d Class—Mathematics, French and Drawing.
4th Class—Mathematics, English.

1ST CLASS.—65 MEMBERS.

*Not examined—on sick leave till Aug. 28, 1887.

The General Standing of the 4th Class has not yet been made out.

The names with blanks opposite them have been turned back into the class.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

JANUARY 11, 1887.

NAVIGATION on the Potomac is closed for the present, the river just now being a large sheet of ice. Hundreds of people enjoy the winter scenery of this post. The fine effect produced by the bare trees against the glowing blue of a typical winter sky made many picturesque bits only to be fully appreciated by the etcher. Down the river the keen, yet exhilarating, northwest wind came sweeping, bringing a ruddy glow into the faces of those who had taken advantage of the fine condition of the ice to spin on the river.

The cutting and packing of ice commenced to-day; the men will be kept busy for several days until the usual supply is secured.

Major W. F. Tucker, Paymaster, U. S. A. visited this post on Jan. 7.

A General Court-martial, of which Col. H. M. Black, 23d Inf., is president, assembled in the library this morning.

Mr. Gilbert B. Walden, the humorist from Virginia, gave an excellent entertainment in the Recreation Hall last evening.

A hop will be given by the Gibson Social Club this, Tuesday, evening.

The Shamrock Social Society held their bi-monthly meeting in the reading room of Battery E, Jan. 9. The chief topic of conversation being the success of their second annual ball on the 17th of March, (La le Padruig), St Patrick's Day.

OICE MAT CUMAT.

(Correspondence of the Army and Navy Journal.)

DAVID'S ISLAND, N. Y. H.

JANUARY 9, 1887.

THE ball given at the new mess hall, Dec. 29, by the officers of David's Island, was a very pleasant affair. About 150 guests, including those on the island, participated. Many officers from forts in the harbor and prominent citizens from N. Y. City came up on the steamer *Osseo* and returned at 12 o'clock. The music by the David's Island band was very good; the orchestral pieces during supper very fine. Dancing was kept up until all the guests had to leave on the boat. The officers wore full dress and the men from New York evening dress. Among those present were noticed the Rev. Mr. Higbey of Pelham, Miss Schmidt, Miss Ogden, and Miss Soudam of Bartow on Sound; Mrs. Fisher, Haskell, Tompkins of New Rochelle, Mr. and Mrs. R. G. Dun of New York, Mr. and Mrs. James, Col. and Mrs. O'Beirne; Lieut. Pitcher, aide to General Schofield; Mrs. Schofield, Lieut. Andrews, Capt. and Mrs. Cook, Col. and Mrs. Hough, Col. and Mrs. Trotter, Mr. and Mrs. McNulty, Misses Kerrigan, Miss Wayne of Brooklyn, Mr. and Mrs. Dingee of New York. The ladies all wore full ball dresses. Among those most handsomely dressed were: Mrs. Dingee, black velvet, point lace, and diamonds; Mrs. Dun, black silk, low neck and short sleeves, beautiful diamond necklace; Mrs. O'Beirne, white silk en train; Mrs. James, elegant black velvet, point lace; Mrs. Trotter, black and white silk en train; Mrs. Holmes, black jet and silk; Miss Hitchcock, pink silk en train; Miss Ogden, white tulle; Mrs. Cook, white satin, pearl trimming, en train; Mrs. Cowles, white moire en train, low neck and short sleeves; Mrs. Warring, lavender silk and velvet; Miss Kerrigan, blue silk; Miss McNulty, white silk; Mrs. McNulty, heliotrope silk and velvet; Mrs. Bergland, black lace and jet en train; Mrs. Knigh, black silk; Miss Soudam, blue silk, low neck and short sleeves.

Invitations are out for a german to be given in honor of Miss Kerrigan by Mrs. O'Beirne, the 7th. O.

(Correspondence of the Army and Navy Journal.)

FORT CLARK, TEXAS.

AT 2 o'clock P. M., Jan. 2, 1887, the ball of W. H. Lewis Post, No. 17, G. A. R., was filled by the members of the post, a number of the officers of the garrison and their families, and enlisted men and their families, the occasion being the memorial services in honor of Gen. John A. Logan, Comrade, G. A. R. The hall was artistically and beautifully draped in black, with rosettes of white, and appropriately arranged for the occasion. The ceremonies were opened by the Post Commander, after which the 19th Infantry Band played a dirge. The post was then called to attention by its commander; this was followed by the reading of the departed comrade's record, the drum beating ruffles at the appropriate places. "Nearer my God to Thee" was then sang by a quartette, after which the memorial stand was surrounded by the members of the post, who uncovered, and prayer was offered by their chaplain. The post was then seated, and the quartette sang "Saviour Thy dying love," etc. An interesting and able address was delivered by Chaplain Merrill, U. S. A. Upon the conclusion of the chaplain's remarks, Gen. Smith was called upon. In his reply he dwelt upon some of the prominent characteristics which made Gen. Logan so marked a man among his fellows; his representative character as a thorough American and a man of the people; his fidelity to his convictions and his devotion to them at any cost: his kindly nature, and his freedom of intercourse with the humble people who sought his services, and finally his fitting union with a wife with whom he was united in a degree seldom found in this world. His death, said Gen. Smith, creates a greater void than would that of any other man in America.

The quartette next sang the doxology, and the ceremonies were completed by the post.

Miss Smith, Mrs. Jordan, Mrs. Taylor, Lieut. Hammond and Sergeant Reece, composing the quartette, have won the praise of all present for the kindness shown the post; also Miss A. Wirth, to whose skilful hands and untiring zeal was owing the beautiful appearance of the hall.

(Correspondence of the Army and Navy Journal.)

FORT MEADE, D. T.

THE holiday season was fully enjoyed at our "Post in the Hills." The enlisted men had their usual dinners and balls at Christmas, and their children were also made happy throught the thoughtful generosity of Mrs. Lieut. Slocum, who prepared for their especial pleasure a most beautiful Christmas tree, lavishly endowed with toys, candies, etc. On New Year's eve the garrison were very delightfully entertained by Gen. and Mrs. Forsyth, the commanding officer's quarters being decorated for the occasion with wreaths and festoons, made from the cedars that cover the Black Hills. The large rooms were well filled with elegantly attired ladies, and officers, both cavalry and infantry, in full dress. Col. and Mrs. Tilford kept "open house" on New Year's Day, Mrs. Capt. Edgerly and Miss Forsyth receiving with Miss Tilford. A tempting "spread" of fruit and delicate viands, together with a royal bowl of fine egg nog formed the nucleus for a merry throng of visitors until it was time to dress for the masquerade ball given by the "Bachelors." It was an event never to be forgotten by the gay participants, and never was a New Year ushered in by a jollier crowd than assembled in the Fort Meade hop room and danced to the inspiring strains of the 7th Cavalry Band on Jan. 1, 1887.

(Correspondence of the Army and Navy Journal.)

FORT BRIDGER, WYO.

CHRISTMAS eve at Fort Bridger was an eventful occasion. A handsome tree was decorated, and the festival attracted a large audience. All the children received a nice present, and there was an abundance of cake and confectionery for the troops. The exercises at the tree were as follows: Song—"All Hail the Power of Jesus' Name." Prayer. Song—"Nearer My God to Thee." Entrance of Santa Claus. Distribution of gifts, etc. Song—"Take the Name of Jesus with You." Benediction. R.

FORT CLARK, TEX.

THE Brackett *News*, of Jan. 8, says:

The festivities and enjoyments of the post have been unusually attractive during the holiday season. Most of the officers had Christmas trees in their quarters for the entertainment of their children. The one at Col. Jordan's was specially attractive, and was visited during the day by all the officers and ladies in the post, and was universally considered "unsurpassable." At night Gen. Smith entertained a large party of ladies and gentlemen at a dinner *en regle* and in *costume de rigueur*... Tuesday night Miss Maie Smith gave a dancing party to the "young people," at which was served a delicious lunch....Tuesday night's conviviality was followed on Wednesday afternoon by a "german" given by Lieut. C. C. Hewitt in the Hop Rooms....Another social event of the highest importance was the "Drive whist" party at the *Chateau des Garcons* Thursday evening, given by Lieut. Ives and Lieut. French....The holiday festivities closed Saturday evening with a "New Year's Reception" by the ladies at the Hop Rooms, which were decorated for the occasion in an unusually attractive manner....Lieut. Hammond, who has charge of the theatricals, will present another play next week, and the "Mikado," which is being rehearsed, will follow at an early date.

FORT OMAHA, NEB.

THE *Excelsior* of Jan. 8 says:

Mrs. Miller and Miss Kittie Miller, are soon to return to Detroit....Mrs. Col. Fletcher's two sisters are paying her a visit....Mr. Blyton, of Chicago, has been visiting his sister, Mrs. Sarson, wife of Lieut. H. B. Sarson.....Lieut. Pettit, 8th Inf., and Lieut. Bingham, 9th Cav., Fort Niobrara, put in an appearance at the Officers' club this week.....In spite of the fact that the thermometer registered below zero on New Year's day, callers were busy running from house to house. The following ladies received: Mrs. Wheaton, her mother, Mrs. Miller and Miss Kittie Miller, Mrs. Wheaton's sister and Miss Earle, Mrs. Fletcher, her mother, Mrs. Thomas, Mrs. Butler, Mr. Haskins, Mrs. Sarson and her mother, Mrs. Brayton and Mrs. Porter, and her sister, Mrs. J. S. Mallory, and Mrs. and Miss Dempsey.

FORT SIDNEY, NEB.

THE *Excelsior* says:

Lieut. Parmerter is at Fort Bridger on a Miss McClintock, of Omaha, is the guest of Mrs. Lieut. leave.....There was an incipient fire Thursday in the Downey.....ters, caused by the upsetting of a lamp.....Capt. al quar-Haughey gave a high tea Thursday evening in honor of Mrs. Edward Mancourt and bride.....The Fort Sidney Social Club gave a holiday hop at the post theatre on Wednesday evening.

FORT LARAMIE, WYO.

THE *Excelsior* says:

Miss Williams is to visit Omaha, the guest of Colonel Fletcher at Fort Omaha .....A progressive euchre party was given Christmas week by Mr. and Mrs. Corcoran. ....The officers of Fort Laramie are preparing a play, "Confusion," which will include Mr. and Mrs. Woodbridge, Mr. and Mrs. Howell, Dr. and Mrs. Brechemin, Miss Neally Williams, Mr. Corcoran, Mr. Lasseigne and Mr. Barber.....A hop was given to Miss Gibbon, daughter of Gen. Gibbon, and to Mr. Vollum on the occasion of their departure for Omaha,

RIFLE RECORD OF THE THIRD INFANTRY.

COL. BROOKE recently issued an order expressing his appreciation of the efforts of the selected marksmen of the 3d Infantry at the recent competitions at Forts Snelling, Minn., and Leavenworth, Kansas. At Fort Snelling five of the Department team were members of the regiment, viz.: Corpl. Daykin, Co. H; Sergt. Marti, Co. B; Sergt. Drake, Co. K; Corpl. Palmer, Co. E, and Sergt. Zobel, Co. G.

At Fort Leavenworth two of these five competitors won places on the Division team, viz.: Corpl. Palmer, Co. E, and Sergt. Zobel, Co. G. Col. Brooke says: "The close attention given to rifle practice has undoubtedly led to these results. The standing of the men who have reflected this credit on the regiment is given in Division and Department Orders." With reference to this a correspondent writes as follows;

The point of interest is, have its representatives, in the matches there contested, maintained the remarkable record of the regiment for the two preceding years, or have they, when separated from it, when removed from their own ranges, when in competition with other organizations, when handled by officers of other regiments, and marked by other scorers—have they under these altered circumstances maintained the record of the regiment which they represented? Let us go into it mathematically, for the sake of avoiding, in so far as is possible, useless argument. There are 84 companies, batteries and troops in the Department of Dakota. From these 84 organizations the Department team of 12 riflemen was to be selected. The mathematical proportion which the 10 companies of the 3d Infantry should have furnished as their quota of the 12 was one and four-tenths men. As a matter of fact they furnished about four times this number, or five men of the twelve, lacking but one man of constituting just one-half of the entire team of the Department of Dakota. And at this time the ten companies of the regiment represented about one eighth of the competing strength of the organizations in the Department.

We find in the Division of the Missouri 236 companies, batteries and troops. From this number the proportion which the ten companies of the 3d Infantry should have furnished to the twelve riflemen of the Division Team was five-tenths (0.5) men. In reality two of the representatives of the regiment won places upon that team, or once more, as on the Department Team, the regiment furnished a number just four times greater than its quota, constituting one-sixth of the team of the Division. In this the ability of the regiment was again demonstrated, equally as at Snelling, and singularly enough precisely to the same high degree of four times its mathematical quota. It is somewhat remarkable, however, that the Missoula Battalion found no representation on the Division Team, the two men upon it coming from Shaw and Custer. Had Missoula quoted its record, which has invariably been far in advance of Shaw and Custer, at least four representatives would have been found on the Team of the Division.

Finally, no members of the regiment were selected from the Division to compete for the Army Team, and the record ceases here. There was no other regiment which held five places on the Department Team or more than one place on the Division Team.

We should judge from the above results that the regiment has in no wise deterioriated from its standing of No. 1 in the Army for two years; that Col. Brooke is thoroughly justified in his commendation of the regiment in orders, for their efficiency, and that it should be a source of pride to each of its members that proficiency, ability, zeal and a remarkable unity of purpose, though scattered through three different posts, has signalized its efforts and assured its success.

COURT-MARTIAL CASES.

In the case of a soldier tried for making away with an overcoat, Lieut.-Gen. Sheridan says: "The specification to the second charge is irregular, being in an alternative form and charging him generally with 'otherwise disposing' of property, which is not an offence under the 17th Article of War. Attention was invited to this irregularity when the charges were returned for trial, but they were not corrected."

TROOP F, EIGHTH CAVALRY.

A FORT DAVIS correspondent writes: "By the courtesy of Capt. J. C. Thompson, we took a look at the dinner of Troop F on Christmas day. It consisted of roast turkeys with oyster dressing, fresh pork, vegetables of all sorts, finely prepared, several kinds of cake, decorated with iced fruits, doughnuts, crullers, mince pies, fresh fruits, etc. Dinners of like character were enjoyed by the other troops and companies. The soldiers know how to have a good time when they set about it, and they do not fail to improve the occasion when it offers. We also looked through the barracks of Capt. Thompson's troop, and found them finely supplied with bath rooms, with both cold and hot water, and every convenience. They evidently stand by each other and each others interests, and both officers and troop are to be congratulated in having everything in such nice shape."

TROUBLE AT FORT DUCHESNE.

THE troubles at Fort Du Chesne, Utah, which post was established last summer, have culminated in the detail of a General Court-martial to try Co. Frederick W. Benteen, major 9th Cav. The court which is to convene Feb. 7, at Fort Du Chesne, is as follows: Cols. August V. Kautz, 8th Inf., and Henry C. Merriam, 7th Inf.; Lieut.-Cols. Nathan W. Osborne, 6th Inf.; Robert H. Offley, 17th Inf., and Joshua S. Fletcher, Jr., 2d Inf., and Majors Andrew S. Burt, 8th Inf.; James S. Casey, 17th Inf.; Edmund Butler, 2d Inf., and William J. Lyster, 6th Inf., with Capt. Allen H. Jackson, 7th Inf., as the judge-advocate of the court. Col. Benteen is the officer who distinguished himself at the battle of the Little Big Horn while captain in the 7th Cav., and was selected to command Fort Du Chesne when the post was established. Gen. Absalom Baird, Inspector-General, is now on his way to Fort Du Chesne to make a special investigation of matters at the post under special orders from Lieut.-Gen. Sheridan. It is claimed by friends that he has been made a scapegoat for the Col. Benteen other offenders.

The difficulties at Fort Du Chesne are said to have originated in the failure to properly locate the post in the beginning, and to properly supply it when it was located, so that the troops were subjected to great and unnecessary hardships, on their way to the post as well as after their arrival there.

Matters kept going from bad to worse until Gen. Crook sent his Inspector-General, Major R. H. Hall, to investigate and report. The result was that Col. Hatch, 9th Cav., was ordered to Omaha for consultation and thence to Fort Du Chesne to take command of the post. There seems to be no question but that there has been mismanagement somewhere, the controversy being as to who is responsible, the Department or the Post authorities.

THE ARMY MUTUAL AID ASSOCIATION.

THIS Association held its annual meeting on Wednesday and elected the following officers for the ensuing term: President, Adjt.-Gen. Drum; Vice President, Comy. Gen. Macfeely, vice Paymr. Gen. Rochester, resigned; Secretary and Treasurer, Lt. Duvall; Executive Committee, Cols. Huntington and Wilson. The following amendments to the constitution and by laws were adopted: To have fiscal and business year run from April 1 to March 31 and the annual meeting held on the third Tuesday of the first month; to include in class 9 members 65 years old; to make benefit surplus account a sub-account of special reserve, and to cover forfeitures into it instead of into the general reserve; to take from general reserve, for expenses, only what is actually required and to reimburse by a uniform per capita tax the following year; to annul the amendments authorizing the formation of Groups B and C; to deprive the executive committee of the power to revoke certificates; to substitute the word "benefit," for "gratuity;" to substitute "$3.000" for "$2.500" in fixing the maximum of the benefit to be paid; to add to the benefit surplus the interest derived from the special reserve: defining the special and the general reserve, and requiring the latter to bear the burdens and permitting it to enjoy the advantages of all bond transactions; to substitute "benefit" for "benefits;" to make section 16, by-laws, consistent with section 14, if amended; insert the word "fiscal" before the word "year," occurring first in sec. 22.

Lieut. E. B. Weeks, J. S. Pettit, J. Y. M. Blunt, E. W. McCasker, Lewis Merriam and J. A. Hutton have been admitted to membership.

MODERN BATTLES.

TOLSTOI in his "War and Peace" denies that battles can be fought on elaborate prearranged plans. He asserts that while miles separate the chief from subordinate Generals they must fight according to emergencies, often in direct opposition to original orders; that, the battle once hotly commenced, it is the men themselves (often a single regiment) that decide the fortunes of the day; that a mere chance, an accident may do it; that staff officers often sneak when carrying orders into the thick of the fight, refuse to go under fire, and return and report from hearsay and guesswork; that the quick fluctuations of a great battle prevent the distant chief from getting news and acting on it before there is a complete reversal of affairs—in fact, that a fight once on is mainly a grand scrimmage decided largely by the staying qualities of the men who hold and use the guns—the rank and file.

THE MESS.

She was a Boston girl and was receiving on New Year's with a friend in Washington.

"Ah, Miss X.," said an æsthetic Lieutenant, who had just been presented, "You are from Boston, I believe."

"Yes, that is my home."

"Delightful place, Boston. So intellectual. So classic, I may say. Such elegant people. Such an air of refinement permeating every environment. Nothing loud; nothing coarse; nothing vulgar. Delightful, delightful."

"You bet your life it is," she replied, innocently; "but as far as I've got, I think Washington takes the cake."

When they got the Lieutenant out of the wreck he started to make an application for a pension.—*Washington Critic.*

—

THE Omaha *Herald* says: "The Colorado Legislature, just about to convene, can boast at least one remarkable member. He served three years in the Army as a *private*. Gradually the private soldiers are coming to the front, the officers having killed each other off in the *Century*."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHERE AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Left the Navy-yard at Norfolk, Va., Jan. 6, 1887, and dropped down to Hampton Roads Va., for a trial, and returned Jan. 8 to Norfolk. Will sail on a cruise to the West Indies, returning to Hampton Roads about May, 1887.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard. Will be put out of commission—her officers and crew being transferred to the *Richmond*.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Sailed from Aspinwall Jan. 9, for Key West, Fla.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Reported by cable to have arrived at Port Said Jan 11.

Rear Admiral D. L. Braine, in a letter dated Nov. 17, from Montevideo, orders Commander Charles McGregor, with the *Alliance*, after duty to which he has been assigned on the East Coast of Africa is completed, to proceed to Cape Town, thence to St. Paul de Leonada, thence to St. Helena, and thence to Rio de Janeiro, where he will await orders.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well. Intended to sail for ports on South coast of South America and the Faulkland Islands, and to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 9.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Arrived at Alexandria, Egpt, Dec. 11, after five days passage from Malta.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Gaboon, West Coast of Africa, Jan. 4, 1887.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. Arrived at Mare Island Dec. 30. Will go out of commission and undergo repairs.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 25, and from there to Valparaiso, where she is expected to arrive about the middle of January.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Bombay, Dec. 6. Health of ship's company good.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Singapore Dec. 18.

Comdr. Theo. F. Jewell, in a letter from Colombo, Ceylon, Dec. 3, calls attention to the unusual civility of the English authorities at Aden, both military and naval, to the officers of the ship. A special torpedo practice, with Whitehad torpedoes, was had for our benefit, and was witnessed by several officers of the ship.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Dec. 10.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, Dec. 10, having been relieved at Canton by H. B. M. S. *Espoir*.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Yokohama, Japan, Dec. 26.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Algiers, Jan. 9. Has encountered a great deal of bad weather. Reported by cable to have arrived at Gibraltar, Spain, Jan 14. 1887.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Left Canton, China, Oct. 31, for her winter station at Tientsin, where she arrived Nov. 26.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns, Comdr. Chas. J. Train. Sailed from Fort Monroe, Va., Dec. 22, on her winter cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Sailed from Fort Monroe, on her winter cruise, Dec. 22.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Sailed from Norfolk, Va., Dec. 22, on her winter cruise.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At Norfolk Navy-yard. Assigned to the North Atlantic Squadron. As soon as she is ready for sea, her commander will report for duty to the Admiral commanding the station.

The *Dolphin* is to be assigned to the duty of deep sea sounding and surveying among the islands of the West Indies, and with especial reference to the deep basin of the Carribean Sea, during the part of the year when fit weather can be expected. The Department has it in mind to fit this vessel for scientific uses altogether for exploration in American waters on both shores of the continent. Something after the style of the English ship the *Challenger*.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

—

The iron-clads *Ajax*. *Catskill*. *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

IT was Assistant Engineer W. F. Durand, not W. F. Darrah, who was last week detached from the *Dolphin* and placed on waiting orders.

THE British naval pensioners have been ordered to notify the Government of the names of the ships they would prefer to serve upon, or the ports they would prefer to be employed at, in view of being called into possible active service.

CAPTAIN MEADE'S inventory board has about completed its labors, and it is said a tabulated statement of all the property possessed by the Navy and stored away in the Navy-yards will be submitted to Secretary Whitney early next week with a recommendation that no small percentage of it be disposed of at public auction.

THE Providence (R. I.) *Journal* says: The statesmen who want the Navy to be pressed into service as freight carriers, to make it self-supporting, would probably for similar reasons like to see the Army hired out as cowboys on the plains, or as street cleaners in the city, or Gen. Sheridan selling stamps in a post office window.

THE Board of Trade of Norfolk, Va., has been considering the "seeming unfriendly or negligent attitude of the administration towards the U. S. Navy-yard at that place," and having recommended some action, prompt, and vigorous, "not to ask for an appropriation for deepening some miserable ditch, but the bestowal of some interest or some attention upon one of the most magnificent properties possessed by the Government," a committee has been appointed to go to Washington and look into the matter.

THE board on concentration of naval supplies returned from Philadelphia Saturday afternoon. They made a cursory inspection of the books of the Pennsylvania Railroad Company, but found nothing in the system that could be used by the Navy. The road makes purchases in seven minutes that would consume seven days of a naval official's time, owing to the red tape used in all Government transactions. The board left that night for Altoona to look over the supply depot of the Pennsylvania Railroad. The method of receiving, storing, issuing and of locating responsibility used by the road will be carefully studied. The work of transferring naval property to the general storekeepers of the several Navy-yards is progressing.

THE Chief of the Bureau of Equipment returned to Washington on Wednesday, having, while absent, inspected the work being done at the Boston Navy-yard to prepare for the reception of the material and plant he intends to transfer there from other yards. He also looked over the *Tennessee* while in New York, but could form no correct idea of the cost

of repairing her while her officers, crew, and equipments remain on board. He will again visit New York early next week when he hopes the transfer from the *Tennessee* to the *Richmond* will have been effected. The Secretary has signed an order turning over the *Tennessee* to the training service, but Commander Schley will secure its revocation if he finds the cost of putting her in condition for service as a receiving ship exceeds a reasonable amount. He will also look over the *Minnesota* to see what can be done with her in case the *Tennessee* is put in her place as receiving ship at New York.

THE officers in charge of the *Chicago* report that she will be ready for trial in February, but Engineer-in-Chief Loring does not expect that she will be completed before April.

THE *Boston* has been given several dock trials and her machinery works satisfactorily up to a limited horse power. The *Boston* will not be given a trial until the *Atlanta* returns from her next trip and the usefulness of the addition to her machinery has been shown.

SHORTLY after the last trial trip of the *Atlanta*, when Chief Engineer Melville took charge of her, it was discovered that her boilers had cracked, owing to unequal expansion and contraction. The damage was soon repaired and the boilers are now in good condition. This is a common mishap to new boilers, in foreign countries as well as here. The *Atlanta* will be ready for trial in a few weeks. If the introduction of a "separator" adds to the efficiency of the machinery the *Boston* will also be provided with one.

IN objecting to the consideration of the bill, S. 729, for the relief of Rear-Admiral Carter, Senator Edmunds said:

I have some papers from the Navy Department showing the state of the retired rear-admirals who have been promoted to the retired list from commodores, and the compensations that are given to them, which show rather an incongruous and irregular and perhaps an improper state of things. I should be glad to have this bill go over until I can bring the papers here and call the attention of the Senate to them. Although something very like this, and perhaps worse, has been done in one or two instances, it is open to great question whether it is right as a matter of general principle and of general practice to do this thing. With every good wish for Admiral Carter, who is a very gallant man, I should be glad to have the bill go over until we can look into it.

REFERRING to the Nicaragua Canal bill, recently reported to the Senate by Senator Edmunds, Admiral Ammen said: "Several weeks ago a telegram was received from the President of Nicaragua stating that he would favor granting a concession to an American company should it put up for forfeiture $200,000 in the event of failure to execute the work. An initiatory society has been formed in New York City, and the money will be deposited as required. The Nicaragua Canal will be made, and in the course of less than eight years from this date vessels will be passing through it. Within five years after the work is taken in hand vessels will be passing through of any draught. Nothing further is asked than a speedy act of incorporation of the canal company to transact business, and the rest will follow. Should this be neglected there are substantial reasons for believing that Nicaragua will look to Europe for capital, and European control will follow, and with it will pass the material and moral control of the whole isthmus and a dominance of the trade of the west coast and the seas beyond. A war that may cost $500,000,000 will not regain what we would probably lose should we fail to charter a canal company that asks no guarantee of any kind."

NAVY GAZETTE.

Ordered.

JAN. 6.—Asst. Engineer Wm. S. Smith, to temporary duty at Portsmouth, N. H.

Captain Byron Wilson, as senior member of Board of Survey on the Hartford.

JAN. 7. Boatswain Charles Miller, to special duty at the Navy-yard, League Island.

JAN. 8.—Lieutenant J. H. Bull, to duty on the Asiatic Station, per steamer Jan 22 from San Francisco.

Lieutenants Sidney H. May and M. L. Wood, to instruction in ordnance at Navy yard, Washington.

Assistant Engineer George E. Burd, to the Navy-yard, Boston.

Pay Inspector A. J. Clark, to take charge of the Navy Pay Office, San Francisco, on Feb. 16.

Civil Engineer Robert E. Peary, to duty under Bureau Yards and Docks.

JAN. 10.—Commander R. D. Evans, as senior member, and Lieut. Comdr. S. W. Very and Lieut. J. N. Hemphill as members of a board to inspect steel for the new vessels to be constructed by Cramp and Sons.

JAN. 11.—Captain N. H. Farquhar, to report to Captain J. A. Howell for duty on Dynamite Gun Board.

Passed Assistant Surgeon F. Anderson, to the Richmond.

JAN. 12.—Lieutenant C. S. Richman, to the Independence.

Sailmaker Wm. Cuddy, to duty under the Chief Constructor at the League Island, Navy-yard.

Detached.

JAN. 8.—Ensign A. C. Almy, from the Tennessee and placed on waiting orders.

Pay Director W. W. Williams, from Navy Pay Office, San Francisco, Feb. 15, settle accounts and then wait orders.

Paymaster H. T. B. Harris, from the Minnesota, Jan. 31, and ordered to duty at the Navy-yard, New York, under the general storekeeper.

Passed Assistant Paymaster W. C. McGowan, from the Navy-yard, New York, Jan. 30, and ordered to the Minnesota.

JAN. 10.—Ensign Roger Welles, Jr., from the Coast Survey and ordered to the Thetis.

Ensign R. F. Lopez, from the Torpedo Station, Jan. 25, and ordered to the Thetis.

Passed Assistant Surgeon D. N. Bertolette, from the Tennessee and ordered to the Thetis.

Assistant Paymaster James S. Phillips, from the Navy yard, New York, and ordered to duty at Port Royal, S. C.

Assistant Paymaster John Q. Lovell, from duty at Port Royal, S. C., and ordered to the Thetis.

JAN. 10.—Chief Engineer George W. Melville, from the Atlanta and ordered to duty as inspector of the machinery of the two vessels to be constructed by Cramp and Sons.

Chief Engineer A. J. Kiersted, from the Navy-yard, League Island, and ordered to inspect the machinery being built by the Columbia Iron Works and Dry Docks Company.

Naval Constructor Thomas E. Webb, from the Boston Navy-yard and ordered to inspect the construction of the vessels to be built by Cramp and Sons.

Assistant Naval Constructor Richard Gatewood, from special duty at Chester, Pa., and ordered to inspect construction of vessel by Columbia Iron Works.

Assistant Naval Constructor Lewis Nixon, from the Bureau of Construction and Repairs and ordered to report for special duty under Naval Constructor Webb.

JAN. 11.—Commander Silas Casey, from command of the Dale, Jan. 30, and ordered as inspector of the 5th Lighthouse District on Jan. 31.

Commander Robley D. Evans, as inspector of the 5th Lighthouse District.

Lieutenant Commander R. E. Impey, from the Washington Navy-yard and granted one year's leave with permission to leave the United States.

Lieutenant W. S. Cowles, as member of the Board of Inspection of Foreign Ships and ordered to command the Despatch on Jan. 15.

Lieutenant (junior grade) Waldemar D. Rose, from the Independence and ordered to duty as recorder of the Board of Inspection, of which Commodore Irwin is president.

Medical Inspector J. S. Dungan, from duty at San Francisco, Jan. 29, and placed upon the retired list on that date.

Leave.

Granted Passed Assistant Engineer A. V. Zane for six months.

Commissioned.

Commodore John Lee Davis, to be a rear admiral from Oct. 30, 1885.

Nominations.

JAN. 10.—Assistant Engineer Edward R. Freeman, to be a passed assistant engineer, Jan. 26, 1886, vice Stivers and Heaton, promoted.

Passed Assistant Surgeon Henry P. Harvey, to be a surgeon. Dec. 18, 1886, vice Law, retired.

Frederick Wilkinson Olcott, of New Jersey, to be an assistant surgeon in the Navy, to fill a vacancy.

Resigned.

Naval Cadet Wm. C. Antwerp.

MARINE CORPS.

JAN. 8.—2d Lieutenant Wm. H. Stayton, when the U. S. S. Hartford has been put out of commission, and her guard has been transferred to the Marine Barracks, Mare Island, Cal., detached from that post, and ordered to proceed by rail to Washington, D. C., and report in person to the commandant, U. S. M. C., for orders.

JAN. 13.—Captain F. H. Harrington granted leave of absence until Jan. 18.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending January 12, 188:

Richard Callahan, coal heaver, died Nov. 18, 1886, on U. S. S. Lancaster at Montevideo, Uruquay.

FROM THE PACIFIC STATION.

CAPTAIN J. H. GILLIS, commanding the Pacific Squadron, writes from the *Hartford*, at San Francisco, Dec. 27, as follows: "The *Hartford* arrived in this port, Dec. 26, three days out from San Diego. On the trip from Payta to this port the ship has been twenty-six and a half days at sea, and during only three days of this period have the winds been favorable enough for plain sail; at other times it was possible to use fore and aft sail. Before anchoring at San Francisco the uptake of boiler No. 3 burst, and on the trip up both of the boilers which were used developed new cracks."

FROM THE ASIATIC STATION.

REAR ADMIRAL CHANDLER, under date of Yokohama, Japan, Dec. 10, 1886, where the flagship *Marion* was at anchor, reports the disposition of the vessels of the Asiatic Squadron on that date as follows: The *Omaha*, at Chemulpo, Corea; the *Palos*, at Tientsin, China. The *Monocacy* was at Hong Kong, having been recently relieved at Canton by H. B. M. S. *Espoir*, which vessel will look after foreign interests in that locality until the middle of December, when the *Monocacy* will again return to Canton and relieve the *Espoir*. The *Marion*, temporarily flagship, is at Yokohama. Rear Admiral Chandler had received no tidings as yet of the arrival of the *Brooklyn* or *Essex* at Singapore on their way to the China coast. During his stay at Yokohama the Rear Admiral paid his respects to the Japanese officials at Tokio and Yokohama, and to the various members of the U. S. and foreign diplomatic and consular corps at both places. At Yokohama, Nov. 26, Rear Admi. Chandler and his personal staff was presented to the Mikado and Empress of Japan. The health of officers and men on the station remains excellent, and affairs are quiet.

Capt. E. O. Matthews, commanding the U. S. S. *Brooklyn*, in a letter dated Bombay, India, Dec. 9, 1886, writes: Leaving Muscat, Arabia, Oct. 27, reached Bushire, Persia, Oct. 31. Nov. 3 fired a salute in honor of the Shah's fifty-eighth birthday. On the 3d, accompanied by a party of officers, I left the ship for Shiraz, 175 miles, and from there forty miles to the ruins of Persepolis. At Shiraz we were met by a representative of the Sahib Devan (Deputy Governor General), who brought us horses for a remount upon passing the city, and one horse led in front as a mark of honor. A little further on we were met by a General, who came on behalf of the Prince Jalal Dowhh, the Governor General of the Province of Farsistan, and another led horse. By them we were escorted to the summer garden of the Sahib Devan, "Del-Go-Shar" (Place of Delight), where we were entertained during our stay until we left for Persepolis. During our stay at Del-go-Shar we made official visits to the Prince, Sahib Devan, Foreign Agent and others who called on us. The Sahib Devan returned our call the day before we left. We were entertained with true Persian politeness during our stay, and when we left for Persepolis guards were sent ahead to notify the Governors where we stopped, so that we received every attention. At Zarcoon the Governor entertained us at breakfast. I was informed that it was by special instructions from the Shah and also from the Tel-é-Sultan (the eldest son of the Shah, who is Governor General of the whole of southern Persia), resident at Ispahan. They seemed much interested in America and anxious to get cotton and tobacco seed from there, with instructions about culture and curing. America goes under the general name of Gangeedonia or New World. We returned to the ship Nov. 22. The *Brooklyn* left Bushire and touched at Karochi, which has a fine harbor and is a flourishing city of 60,000, which has sprung up within a few years, by means of American imports, such as kerosene and American drills. Capt. Matthews suggests the propriety of having a Consular representative there. Leaving Karochi the 3d inst., the ship arrived at Bombay the 6th, where liberty was given.

FROM THE EUROPEAN STATION.

REAR-ADMIRAL D. L. BRAINE, in a communication to the Navy Department, dated Montevideo, Uruguay, Nov. 19, 1886, states that the vessel arrived at Montevideo, Nov. 13, after experiencing two gales of wind en route from Rio de Janeiro. With the expected annual development of yellow fever at Rio de Janeiro, in the coming months of December, January, and February, and the presence of cholera at Buenos Ayres, Rear-Admiral Braine finds his movements circumscribed, and has postponed his trip up the Leo Plata river, as far as Rosario. He says Montevideo is very healthy, and Uruguay is very carefully guarded on and along all its interior and river lines. The health of the officers and crew of the *Lancaster* and *Tallapoosa* will be carefully looked after. Both vessels are coaled and provisioned for four months and can go to sea at any moment. If Montevideo continues healthy the vessels may remain at Maldonado. Should the cholera at Buenos Ayres increase the *Tallapoosa* will be sent to Santa Catharina, Brazil, to wait orders, or act at discretion when the sickly season is over. The *Lancaster*, after the *Tallapoosa* is disposed of, will cruise along the south coast; thence to the Falkland Islands, and thence, possibly, to St. Helena, arriving at Rio de Janeiro by June, 1887, where Rear-Admiral Braine hopes to meet the *Alliance*. The health of the officers and crews of the *Lancaster* and *Tallapoosa* is reported as excellent, all being benefited by the change from Rio de Janeiro to Montevideo.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Jan. 12, 1887.

MANY of the visitors during the Christmas holidays are still here, and in consequence the Cadets' hop on Saturday evening was very largely attended.

Next Saturday the first of the series of private theatricals given by the officers will be held in the gymnasium.

The ice on the river has afforded excellent skating during the past week, and Naval Academy people have enjoyed it immensely.

The news of Ensign McClain's death was received here with great sorrow by the cadets and officers alike. Mr. McClain's cordial warm-heartedness during his stay at the Naval Academy won him a list of friends whose sympathy for Mrs. McClain in her affliction is as profound as sincere.

Cadet W. C. Van Antwerp has resigned.

NAVY PAY CASES.

DECISIONS BY THE SUPREME COURT IN TWO TEST CASES.

A DECISION was rendered by the United States Supreme Court on Monday, in the case of the United States, appellant, against Fred. M. Symonds, Lieutenant, U. S. N., appeal from the Court of Claims. Symonds, the plaintiff in error, was a Lieutenant in the Navy, and was assigned to duty April 1, 1882, as executive officer of the training ship *New Hampshire*. On July 7 of the same year the Secretary of the Navy issued an order to the effect that on and after August 1 the *New Hampshire* would not be considered as in commission for sea service. Her status after that date was not changed, and Lieut. Symonds continued to act on board of her as executive officer, but he received thenceforth only the shore pay of an officer of his grade, without rations or commutation therefor. The question presented is whether Lieut. Symonds's services after August 1 were performed "at sea," within the meaning of section 1,556 of the Revised Statutes. If they were he has a right to be paid the compensation established by law for sea service. The court is of opinion that within the meaning of the law Symonds, as executive officer of the *New Hampshire*, was "at sea" when performing his duties in the same sense that he would have been if he had been engaged upon a practice ship at sea. The judgment of the Court of Claims is affirmed. Opinion by Justice Harlan. The decision of the lower court is also affirmed in the case of the United States agt. Joshua Bishop which involves the same question.

A decision was also rendered by the court in the longevity pay case of the United States against Chas. H. Rockwell, Lieut.-Commander, U. S. N., appeal from the Court of Claims. The court holds that the actual time of previous service by one claiming the benefits of the act of 1883 must be credited to the lowest grade having graduated pay attached to it by the act of 1870, and which he held when, or after that act took effect, and not to the grade which, although the lowest held by him after he last entered the service was not graduated in respect to pay by the act of 1870 until after he had ceased to hold it. Such was the view taken by the court below and its judgment is affirmed.

STATIONS OF COAST SURVEY VESSELS.

W. H. Brownson, Lt. Comdr. U. S. N., Hydrographic Insp'r, Coast and Geodetic Survey Office.
Lt. J. M. Hawley, U. S. N., Coast and Geodetic Survey Office.
Lt. Geo. H. Peters, U. S. N., Coast and Geodetic Survey Office.
P. A. Paymaster J. N. Speel, U. S. N., Room 127 Corcoran Building, Washington, D. C.

Steamer *A. D. Bache*, Lieut. J. F. Moser, U. S. N., commanding. Address Coast Survey Office.

Steamer *G. S. Blake*, Lt. J. E. Pillsbury, U. S. N., comdg. Address Navy-yard, N. Y.

Schooner *Eagre*, Lieut. Chas. P. Perkins, U. S. N., comdg. Address Navy-yard, N. Y.

Schooner *Earnest*, Lieut. C. T. Forse, U. S. N. Address Box 219, Olympia, Wash. Ter.

Steamer *Gedney*, Lieut. F. H. Crosby, U. S. N., comdg Address Foot of So. Broadway, Baltimore, Md.

Steamer *Hassler*, Lieut. David Peacock, U. S. N., comdg. Address Box 2402, San Francisco, Cal.

Steamer *McArthur*, Lieut. J. C. Burnett, U. S. N., comdg. Address Mare Island Navy Yard, Cal.

Steamer *Patterson*, Lieut. Comdr. A. S. Snow, U. S. N., comdg. Address Navy-yard, Mare Island, Cal.

Steamer *Endeavor*, Lieut. D. D. V. Stuart, U. S. N., comdg. Address Navy Yard, N. Y.

Schooner *Scoresby*, Lieut. Francis Winslow, U. S. N., commanding. Address New Berne, N. C.

Steamer *Arago*, Ensign W. J. Sears, U. S. N., comdg. Address Navy-yard, New York.

CAPTAIN J. G. WALKER, Chief of the Naval Bureau of Detail, visited Boston this week.

THE U. S. Survey steamers *Blake* (Lt. J. E. Pillsbury, commanding) and the *Endeavor* (Lieut. D. D. V. Stuart, commanding) left the Brooklyn Navy-yard, Jan. 12, 1887, for the coast of Texas.

BLACK STARR & FROST.

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

BLACK, STARR & FROST have models of the West Point Class Rings for many years, and can supply duplicates (in case of loss) at short notice.

BROWN BROTHERS & CO.,
59 Wall Street, New York,
Buy and Sell Bills of Exchange
In Great Britain and Ireland, France, Germany, Belgium and Holland, Switzerland, Norway, Denmark, Sweden, Australia, and British West Indies. Issue *Commercial* and *Travellers' Credits in Sterling*, available in all parts of the World.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.
We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.
For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.
These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JANUARY 15, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

ARMYNAVY.

PROPOSED LEGISLATION FOR THE ARMY.

IT is not the intention of Senator MANDERSON to push his Three Battalion bill to a vote this session. He believes it would pass the Senate with little or no opposition, but, as he considers its passage of the House beyond possibility, he does not care to waste time upon it, reserving it for another Congress. Nor does he propose to urge any further action upon the bill requiring the examination of officers of the line preliminary to promotion, which is pending in the Senate Committee. His object in introducing the bill, he says, was simply to provoke criticism, and he had no expectation of getting a vote upon it this session. In his purpose he has been successful, as he has had communications from hundreds of officers expressing their opinion on the bill. From these he is convinced that the principle proposed is correct, and it is his intention to bring it to an issue at another session.

The majority of the letters received by Mr. MANDERSON favor the bill as a whole; some suggest that certain of the field officers should also be required to pass an examination, others think that officers who undergo great hardships on the frontier, and who have not the same opportunity for study as officers East, should be exempt from examination.

It is expected that the bill of the late Senator LOGAN, S. No. 2199, to increase the efficiency of the Army, which passed the Senate last session, will be favorably reported by the House Military Committee in a form considerably modified. At the beginning of the present session the chairman, General BRAGG, seemed disposed to allow the bill to fail on a point of courtesy toward a member of the committee, Mr. STEELE, who had already reported a bill embodying many of the same provisions. The question of courtesy towards the deceased author of the bill having been called to his attention, General BRAGG will at the meeting on Tuesday next endeavor to have the committee adopt the Senate bill (No. 1490), with a number of amendments he has prepared, and incorporating with it the provision of the bill pending in the committee to amend the 103d Article of War so as to exempt deserters from trial by Court-martial after two years' absence. The first section of the LOGAN bill providing for summary courts, consisting of one officer, it is proposed to amend by requiring the Department commander to issue the order for the execution of sentence, instead of the post commander. Section 2 of the bill, increasing the pay of the non-commissioned officers, it is proposed to strike out altogether. This action is recommended on the ground that these officers are already receiving pay commensurate with their duties. To the clause increasing the pay of chaplains to $1,800 per annum it is proposed to add a proviso prohibiting the appointment of persons to these positions who are over forty-five years of age. The provision allowing mileage over land grant railroads will be stricken out, as the Army Appropriation bill now contains an item for that purpose.

General BRAGG has not yet decided whether or not he will favor the provision allowing the issue of fuel in kind to officers, but the probabilities are that he will not do so. He proposes to add the provision of the Senate bill increasing the pay of hospital stewards, with some slight modifications. The issue of potatoes as part of the soldier's ration he also proposes to urge as an amendment to the bill. It is his intention also to include a provision prohibiting judge advocates from attending the secret sessions of Court-martials. There are many other reforms he has in mind which he expects to mature before the meeting on Tuesday.

An effort is shortly to be made to secure night sessions for the consideration of military measures, and should it succeed the chances for the passage of this variously modified bill would seem to be pretty good. Some of the provisions will doubtless provoke controversy, but as the measure as a whole carries very little increase, in the way of appropriations, with it, the House will probably accept it as a reform measure and pass it without much further discussion.

A VOTE has not yet been reached in the House on the Navy Reorganization bill, nor has the bill received further consideration this week. It is liable to be sprung on the House at any moment, and the expectation is that when brought to a vote it will pass, some amendments being first adopted. Mr. HERBERT and other members of the House Naval Committee have already informally agreed to accept amendments suggested by the opposition which will allow the Secretary of the Navy to select the heads of certain bureaus from either the line or staff officers. The bill as reported confined the Secretary in his selection to officers of the line. The belief is gaining among naval officers that this measure will become a law in some shape before the session closes. The House had another bout at the bill on Saturday last, during which Mr. GOFF led the attack in a speech of over an hour. He defended the present mode of distributing the business of the Department, and protested against the cutting off of the two Bureaus of Construction and Engineering, closing with a fervid appeal to his party associates to stand by the organization which they had made so effective during the late war. Mr. THOMAS, of Illinois, defended the measure in a short speech, in which he stated that this bill was not an outcome of the line and staff controversy, but a measure in the interest of good administration, such as was impossible under the present order of things. It seems to us that none of the speakers got quite at the kernel of the difficulty, which consists in the power which the chiefs of the bureaus have now to give orders, which are by law considered as coming from the Secretary, and which not only may be, but very frequently are, contradictory. While the bill is not all that could be desired, and is not so perfect a measure as the original one which was introduced last winter, yet it is a step in the right direction, and, if passed, it will put the business of the Navy upon a better footing. The House Committee should

take care to see however that the bill does not in any way reflect professional prejudices and modify it accordingly before its passage, if they have opportunity. Otherwise, it is certain to be a bone of contention in the future, and the legislation adopted will not be permanent.

THE Secretary of War transmitted to the Senate on Tuesday additional estimates of $50,000 for extra duty pay to enlisted men detailed as cooks and nurses in hospitals; $164 for extra duty pay to enlisted men employed as draughtsmen at the Military Academy, and $3,125.83 for extra duty pay to enlisted men legally employed on extra duty as mechanics, laborers, buglers, police, and clerks at the Military Academy. These estimates were referred to the Appropriation Committee for consideration in connection with the Army and Military Academy appropriation bills now pending before that committee In connection with the estimate of $50,000 for extra duty pay to nurses and cooks, communications were presented from the Paymaster-General, Quartermaster-General and Surgeon-General, setting forth the facts already well-known in regard to the omission of the item from the Army appropriation bill of last year. No estimate, however, is made to cover the deficiency for the current year, the amount recommended being intended for the fiscal year ending 1888. Surgeon General MOORE endorses the estimate in the following words:

This service is imperatively necessary for the proper care and treatment of sick soldiers, and if entrusted to men detailed for this purpose without compensation, will be performed unwillingly and in a perfunctory manner. While I consider the system of detailing enlisted men from the combatant force of the Army as cooks and nurses in hospitals objectionable in many ways, I would recommend that provision be made for this necessary service until a plan shall be perfected and approved for the organization of a hospital corps who shall be non-combatant and attached permanently to the Medical Department.

The Senate Committee on Appropriations refused to insert the item of $50,000 in the Army bill, and unless it is added when the bill comes up for consideration in the Senate this worthy class of employees will be compelled to go another year without their additional pay. An estimate of $70,262.50 for extra duty pay for 400 nurses and 150 cooks is included in the account book of estimates to cover the deficiency for the current year, but from the present outlook this stands no better chance than the estimate for next year.

SINCE the promulgation of General Orders No. 85, A. G. O., of Nov. 18, 1886, amending paragraph 868 of the Regulations so as to direct that "no soldier shall be confined except on the order of an officer who shall previously inquire into his offence," we have received a variety of communications on the subject. Some are in favor of the regulation, and others—the majority—opposed to it. We are gratified that our request of Dec. 4 last for "further expressions of opinion" on the order has been so liberally responded to, but there is another phase of the question which has now to be considered, and that is as to how the regulation can be reconciled with the law as embodied in the 24th Article of War. That Article reads as follows:

All officers, of what condition soever, have power to part and quell all quarrels, frays, and disorders, whether among persons belonging to his own or to another corps, regiment, troop, battery, or company, and to order officers into arrest, and non-commissioned officers and soldiers into confinement, who take part in the same, until their proper superior officer is acquainted therewith, and whosoever being so ordered refuses to obey such officer or non-commissioned officer, or draws a weapon upon him, shall be punished as a Court-martial may direct.

In our opinion the regulation and this Article of War cannot be reconciled, and it would seem that the author of G. O. 85 must have entirely overlooked the 24th Article. In no place in the Articles of War, other than in the 24th Article, or in the Regulations, do we find the term "officer" applied so as to include non-commissioned as well as commissioned officers. From these premises we are bound to conclude that so far as it conflicts with the 24th Article of War, the regulation in question (G. O. 85) is invalid.

THE Secretary of War transmitted to the House on Thursday the following draft of a bill for a reorganization of Adjutant General's Department:

An Act to effect a re-arrangement of grades of officer in the Adjutant General's Department of the Army.

Be it enacted, etc., That the Adjutant General's Department of the Army shall consist of one adjutant general, with the rank, pay and emoluments of brigadier general; four assistant adjutants general, with the rank, pay and emoluments of colonel; six assistant adjutants general, with the rank, pay and emoluments of lieutenant colonel, and six assistant adjutants general, with the rank, pay and emoluments of major: *Provided*, That the vacancies in the grade of colonel and lieutenant colonel created by this act shall be filled by the promotion by seniority of the officers now in the Adjutant General's Department.

A long and carefully prepared "statement of facts," comparing the rank and services of the three senior majors of the Adjutant-General's Department with those of other departments of the Service, accompanies the bill. This shows that Majors GREENE and BRECK as majors—ranked every officer (exclusive of the line general officers) now on the active list—say 2,092, except 22; and Major WOOD—as major—ranked every officer except 38; and by length of continuous commissioned service Major GREENE's service exceeds that of all officers now in the Army but 64; Major BRECK's, that of all but 76, and Major WOODS that of all but 78. There are officers now in the Service with the rank of Colonel and Lieutenant Colonel, who originally entered the Army subsequent to the dates on which Majors GREENE, BRECK, and WOOD were promoted to the rank of major, and these officers have served in one grade nearly a quarter of a century. Communications in support of the measure are sent by the Lieutenant-General, General SCHOFIELD, and the Adjutant-General. In forwarding these and other documents the Secretary of War "begs the favorable and speedy consideration of the committee." The organization proposed by the bill, he says, "is in keeping with the latest legislation of Congress with regard to the staff corps, as shown in the Inspector-General's Department and the Judge-Advocate General's Department, in each of which, by comparatively recent legislation, the number of higher grades has been increased relatively to the lowest".

A COMPARISON of Department orders giving the result of the classification in target practice for 1886, shows that the Nevada Trophy has again been won by Co. D, 3d U. S. Inf., the successful company of 1885. The War Department order announcing the results of practice for the entire Army has been sent to the printer and will be issued forthwith.

THE Nebraska Commandery of the Loyal Legion are proposing to publish the interesting address on the Battle of Gettysburg, delivered by General Morrow, who was taken prisoner on the first day, and witnessed subsequent proceedings from the belfry of the Gettysburg Court House, within the Confederate lines. General Morrow regards the fighting done by the 1st Army Corps, July 1, as the best done at Gettysburg by any large body of Union troops. That corps lost 6,000 out of 10,000 men. To General Doubleday is given great credit for bravery and skill. But for his skillful disposition of troops to meet emergencies in the face of overwhelming numbers, the battle of the first day of July would have been a perfect rout instead of a great defeat. General Howard is given full credit for selecting Cemetery Hill as the battle ground. The Confederate commanders are criticized for not following up the victory of July 1 by an immediate attack on Cemetery Hill. Longstreet's splendid attack against the Union left, July 2, was a mistake under any circumstances, but if made at all should have been supported by a determined simultaneous attack against the Union right. Johnson's attack against the extreme Federal right is declared to have been a very brilliant feat of arms. When he had driven the Union troops from their position, Lee should have supported him by a re-inforcement of 20,000 men. Had this been done Meade would, in all probability, have abandoned his position, and the great battle would have been fought somewhere between Gettysburg and Washington. The failure of Meade to throw a column of 30,000 men on the heels of Pickett is declared to be a fatal mistake. Had he done this the War of the Rebellion would have ended at Gettysburg and not at Appomattox, and Meade and not Grant would have been the great American hero.

ALL the indications are ominous of war in Europe when the spring appears, but the very fact that it is so generally anticipated then may postpone the outbreak, which now seems inevitable. The speeches made by Von Moltke and Bismarck, urging the adoption of their army bill upon the reluctant Reichstag, distinctly declare their apprehension of a struggle with France. Bismarck said in his speech: "Is there in France a single paper or a single public person who says: 'We renounce our rights to Alsace-Lorraine?' The possibility of French aggression is, therefore, a sufficient motive for the bill. France is a strong and well armed power; her army is brave and ready to fight. We must never sit idle, with our hands in our laps, however peaceful France may look for the moment. Suppose the French prove victorious, what would we have to expect? We should have the same French against us from whom we suffered from 1807 to 1813, and who would again so suck our blood that we would be paralyzed for thirty years. Endeavors would be made permanently to weaken us. The peace of 1870 is mere child's play in comparison with what peace would be after a war in 1890. He who wishes to take the responsibility for this, let him. The Federal Government will not take that responsibility, and they therefore submit this bill." The Chancellor endeavored, at the same time, to make it clear that the relations of Germany with Russia and the other European powers were most satisfactory, and that the contest between France and Germany, if it came, would be fought out independently and without allies on either side. In spite of arguments, appeals and threats, the Reichstag refused to grant an appropriation for seven years, and limited the bill to three. The Chamber was thereupon dissolved by the Chancellor.

THE "Southern Bivouac" for January has a portrait of Theodore O'Hara and a sketch of his life. It also publishes the "Bivouac of the Dead" as originally written by O'Hara—nine verses in all, omitting three verses subsequently added, commencing with the following first lines: "Like the fierce Northern hurricane,"—"Long did the doubtful conflict rage," and "'Twas at that hour his stern command." The author of this article takes the liberty of altering what he regards as an obvious error, so as to make the last verse commencing

"Yon marble minstrel's *voiceless tone*,
In deathless song shall tell,"

to read "Yon marble minstrel's *voiceful stone*." To us this change is not so obvious as it appears to him, and we protest against it. Poetical license applies as well to a description of a marble monument as having a "voiceless tone," as to its having a "voiceful stone," and the first is the more poetical. The article is based upon a volume compiled by E. W. Ranck, of Lexington, Ky., giving O'Hara's biography and his poems. He is credited with one other long poem on Daniel Boone, entitled "The Old Pioneer." The last verse is as follows:

"A dirge for the brave old pioneer!
The patriarch of his tribe!
He sleeps—no pompous pile marks where,
Nor lines his deeds describe.
They raised no stone above him here,
Nor carved his deathless name—
An empire is his sepulchre,
His epitaph is fame."

The following lines are also credited to O'Hara:

"I'd lie for her,
I'd sigh for her,
I'd drink the river dry for her—
But d——d if I would die for her," etc.

"Thou art not my first love,
I loved before we met,
And the memory of that early dream
Will linger round me yet;
But, thou, thou art my last love,
The truest and the best,
My heart but shed its early leaves
To give thee all the rest."

O'Hara, his biographer tells us, "was appointed to a captaincy in the U. S. Army, when such a position was a sure indication of merit, served with distinction through the Mexican War, and was brevetted major for gallant and meritorious conduct." After the War he left the Army to practice law in Washington, embarked in an expedition against Cuba, and was badly wounded in command of a regiment at the disastrous battle of Cardenas. He subsequently became an editor; commanded the 12th Alabama during the Civil War, and afterwards served on the staff of Albert Sidney Johnston—who fell, wounded, into his arms at Shiloh—and on the staff of Gen. John C. Breckenridge. He next became an unsuccessful cotton broker and planter, died of bilious fever June 6, 1867, and was buried at Columbus, Ga., his remains being subsequently removed to Frankfort, Ky., in accordance with a resolution of the Kentucky Legislature. O'Hara was never married. His personal appearance is described as striking. He was nearly six feet in height, very graceful and handsome, erect in carriage, and scrupulously neat in his dress.

A YEAR ago, Jan. 16, 1886, Senator Manderson introduced a resolution asking the Committee on Foreign Relations to make investigation concerning the killing of Captain Crawford by Mexican troops in January, 1886. The Senate has not yet been favored with anything in the nature of a report from the Committee on Foreign Relations, and in view of an investigation had by the State Department and investigation also made by the War Department the committee has probably thought that such report was not needed. Without waiting for it, Senator Manderson has introduced a bill (S. 6086) for the relief of the heirs and legal representatives of Capt. Crawford. In presenting it, Mr. Manderson said:

It appears from the report of the Secretary of War that the only claim made on the Mexican Government is in the nature of indemnity for the mules taken from the officer who succeeded to the command of our troops after the killing of Captain Crawford. It seems to me that under the facts as narrated by the Lieutenant General of the Army and the Secretary of War in their reports, stronger and more urgent demand for indemnity should be made upon the Mexican Government. But, if it is not to be so, if no redress is to be asked from Mexico, then I submit that something in

the way of relief should be afforded to the family of this gallant soldier who met with such a horrible death. He leaves a mother who, I understand, is insane, who was dependent upon him for her support and maintenance, and there survives him a brother entirely unfitted by reason of physical disability (contracted, I believe, during the War of the Rebellion as a soldier) who was also dependent upon him.

MR. WHEELER has introduced into the House a bill, H. R. 10423, appropriating $100,000, to be expended, by a Board of Engineer officers under the direction of the Secretary of War, "in boring into the crust of the earth, with a view to extending and enlarging our knowledge of the features and peculiarities of its formation and structure." The locality is to be chosen by the Board, giving preference to localities where land is of comparatively small value, and title is to be secured to the land at least four miles in every direction from said boring. The last section provides:

That the Secretary of War shall make a report to the Fiftieth Congress showing the progress of the boring up to the date of the report, together with the views of the board as to the depth to which, with the mechanical instruments and appliances at their command, it can be carried; and that the estimates submitted by the War Department for the ensuing year shall include an estimate of the amount necessary to prosecute the work during the fiscal year ending June 30, 1889.

A CORRESPONDENT presents us with an argument in favor of a more systematic effort to develop the military features of the educational institutions to which Army officers are assigned as professors. To awaken greater interest in the military drill, which is now regarded as irksome, he proposes to add to it the privilege of nominating one or more cadets to the Military and Naval Academies each year, making these appointments the reward for merit. This plan would, our correspondent thinks, be an improvement upon the system of selecting cadets by competitive examination, as it would give a better opportunity to test the real ability and moral character of a candidate. He proposes further to reform the civil service by giving fifty per cent. of the appointments to clerkships and minor offices to the leading graduates from colleges.

IN competition for the U. S. Naval Institute Prize Essay, 1887, five essays have been received with mottoes as follows: "In Hoc Signo Vinces"; "Aut Nunquam Tenta aut Perfice"; "Necessity is the Mother of Invention"; "J'ai Pris mon Parti," and one from China, in blue binding. The subject of the essays is "The Naval Brigade—its organization, equipment and tactics." A gold medal, $100, and life membership will be awarded to the successful essayist. The judges for this year are Capt. Jos. S. Skerrett, U. S. Navy; Colonel Charles Heywood, U. S. M. C., and Mr. Jacob W. Miller, General Manager of the Providence and Stonington S. S. Co. (late U. S. Navy.)

THE Real Estate Exchange, of New York, which represents the most conservative property interests of the city, has, through its Committee on Legislation, appointed a committee to report upon the subject of coast defences and to suggest a plan of co-operation with other bodies, representing the pecuniary and business interests of the City and State with a view to securing Congressional action for the protection of our seacoast frontier. William C. Church, David G. Croly and Elliott Roosevelt were appointed on the committee.

SURGEON WASHINGTON MATTHEWS, U. S. A., contributes to the New York *Medical Journal* of January 1, an excellent article on "Consumption Among the Indians." In conclusion he says: "If the evidence adduced is admitted to have value, it goes to show that consumption increases among Indians under the influence of civilization—*i. e.*, under a compulsory endeavor to accustom themselves to the food and habits of an alien and more advanced race—and that climate is no calculable factor of this increase."

A NEW piece of music, called the "Army Hymn," words by Oliver Wendell Holmes and the music by George Peabody, of Salem, Mass., the venerable father of Mrs. Endicott, the wife of the Secretary of War, was played by the Marine Band at the White House on New Year's Day for the first time in public, and brought forth many expressions of praise from those who heard it. Professor Sousa considers it a work of a very high order, and predicts for it very wide popularity, especially among military bands.

THE House on Tuesday last passed a bill to give a pension of fifty dollars a month to the widow of the late Lieut. Commander Benj. Long Edes, which was very proper, but it is difficult to see why they should, at the same time, have cut down the amount allowed the widow of the late Lieut. Henry J. Hunt to twenty-five dollars a month. Mr. McMillan opposed both bills, on the ground of a general objection to special legislation of this sort, but while it seems to have been thought necessary in the one case to meet his objections by cutting down the amount granted, no such suggestion was made in the other and parallel case. The number of Army and Navy widows now receiving the pension of $50 a month is twenty-two. The Hunt bill has been reported from the Senate Committee on Pensions with an amendment increasing the amount of pension from $25 to $40 per month. This amendment should receive the concurrence of the House.

AT the biennial election of the Military Service Institution of the United States, held at Governor's Island, January 12, Major General J. M. Schofield, U. S. A., was elected President, and the following as Executive Council: For two years: Gen. H. L. Abbot, col., corps of engineers; Capt. H. F. Brewerton, 5th Art.; Lieut. Col. H. W. Closson, 5th Art.; Capt. G. H. Cook, A. Q. M.; Col. John Hamilton, 5th Art.; Col. A. L. Hough, 16th Inf. For four years: Gen. R. H. Jackson, major 5th Art.; Col R. Jones, inspector general; Lieut. Col. R. F. O'Beirne, 15th Inf.: Brevet Major J. P. Sanger, capt. 1st Art.; Capt. C. Shaler, capt. of Ord. Dept. For six years: Col. C. Sutherland, Med. Dept.; Gen. C. H. Tompkins, col., Asst. Q. M. G.; Lieut. Col. G. Wallace, retired; Gen. A. S. Webb, late U. S. A.; H. W. Wheeler, 1st Lieut., 5th Cav.; Gen. W. D. Whipple, lieut. col., A. G. D.

THE Washington correspondent of the N. Y. *Times*, says: "Naval officers outside the Ordnance Bureau strongly favor the passage of Congressman Merriman's bill for the purchase of Capt. Ericsson's *Destroyer*. It is claimed that the vessel has never been given a fair trial, which is asserted to be the case with a large share of the inventions submitted to the Ordnance Bureau for trial. One of the officers, having a kindly feeling toward the *Destroyer*, said to-day that the time will come when many of the improvements in naval war materials submitted to the United States and refused a trial will be taken up by other countries and proved successful, and then our Navy will afford additional food for merriment."

A CORRESPONDENT at Pittsburg, Pa., writes us of the visit of the Naval Board to that place: "They looked at things, had the steel gun business fully explained to them, and some of them took a very favorable view of the steel casting idea, but of course there was nothing definite said or done. The principal thing that the Board seemed to have in view was to see what facilities are in existence for the finishing of guns, lathes, etc., which is beginning at the wrong end of the string; after the gun is made the finishing is a comparatively small thing.

BOTH Houses of Congress have now passed the bill to give the Indians land in severalty, but they differ as to the details of the measure, and the bill goes to a Conference Committee, Messrs. Dawes, Jones and Bowen representing the Senate.

THE Sedgwick Memorial Association, Philadelphia, expects to dedicate the monument at Spottsylvania next May, on the twenty-third anniversary of Gen. Sedgwick's death.

THE Paymaster-General has issued instructions to paymasters at frontier posts requiring them to furnish New York exchange, when asked for, to officers in sums not exceeding the amount of their monthly pay.

INSTRUCTION FOR CAV. AND ARTILLERY.

THE following is the text of the bill passed by the two Houses for the completion of Forts D. A. Russell and Robinson, and for the establishment of a school of instruction for cavalry and light artillery at Fort Riley:

That the Secretary of War be, and he is hereby, authorized and directed to establish upon the military reservation at Fort Riley a permanent school of instruction for drill and practice for the cavalry and light artillery service of the Army of the United States, and which shall be the depot to which all recruits for such service shall be sent; and for the purpose of construction of such quarters, barracks and stables as may be required to carry into effect the purposes of this act the sum of $200,000, or so much thereof as may be necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated.

Sec. 2. That the Secretary of War is hereby authorized and directed to complete quarters and barracks at Ft. D. A. Russell, Territory of Wyoming, at an expense not exceeding $30,000, and to complete the quarters and barracks at Fort Robinson, in the State of Nebraska, for a garrison of ten companies, at a cost not to exceed $55,000, and there is hereby appropriated, for the purpose mentioned in this section, out of any moneys in the Treasury not otherwise appropriated the sum of $85,000, or as much thereof as may be necessary.

ARMY APPROPRIATION BILL.

THE Army Appropriation bill as reported to the Senate from the Appropriation Committee on Wednesday, appropriates $23,737,718, being $97,600 in excess of the appropriation made by the bill as it came from the House. The principal increase is upon the item for the manufacture of small arms, which is raised from $300,000 to $400,000, and a reduction is made of $5,000 in the amount for pay and travelling expenses of Paymasters' clerks and messengers. Amendments are made limiting the number of Paymasters' clerks to forty-six, Paymasters' messengers to thirty, contract surgeons to sixty-five, hospital matrons to one hundred and sixty, and veterinary surgeons to fourteen. An item of $1,600 is added "for pay of one clerk for the General of the Army on the retired list," also $1,000 "for additional pay to the officer commanding the military prison at Fort Leavenworth, Kansas." The paragraph appropriating $85,000 for mileage to officers is made to read, "for mileage to officers travelling on duty *without troops when authorized by law*," instead of "for mileage to officers when travelling on duty." No change is made in the two provisions requiring the quartermasters to furnish transportation and granting mileage over land-grant railroads. The amount of appropriation for payment of civilian employees of the Subsistence Department is reduced from $120,000 to $110,000. The proviso requiring that no expenditure from the appropriation for the Quartermaster's Department shall be made except by the Q. M. General, under the direction of the Secretary of War, is stricken out. Under the head of appropriation of $90,000 for the Ordnance Department, the following items are added: "Ordnance and ordnance supplies, including payment for mechanical labor in the office of the Chief of Ordnance."

A BULLET-PROOF MATERIAL.

THE Vienna correspondent of the *Times* telegraphed: "Some interesting experiments with a new bullet-proof material were conducted this afternoon at the military shooting-ground near the Danube, in the presence of M.j.-Gen. Keith Fraser, the British Military Attache. The invention is that of Herr Charles Scarnejo, of Vienna. It consists of a hard pad, two inches thick, covered with gray twill lining, and filled apparently with nothing but cotton wool. By chemical preparation, however, the wool acquires resisting properties which, to a certain extent, really do make it bullet-proof. Bullets fired from an Austrian military carbine at 20, 50, and 100 paces, not only stuck fast in the pad, but were flattened as if they had struck a stone wall. A shot which Gen. Fraser himself fired from an English rifle, at very short range, went clean through the pad, and made an enormous hole at the back. But altogether it was pretty conclusively demonstrated that at ranges beyond 200 yards the pad could not well be pierced through by a first shot. The invention is described in the current number of the Vienna *Militar Zeitung*, and the inventor claims for it that the pads, being compressed to a thickness of less than 1 in., could be made available as plastrons for soldiers. This is perhaps too sanguine, but screens made of the material and moved about on bicycle wheels, as the inventor suggests, might doubtless be employed as mantlets to cover gunners while establishing batteries. I was present at to-day's experiments, and was told by Herr Scarnejo that he hopes to improve his material before the next trials are made with it, in about a week."

NEW PUBLICATIONS.

We are in receipt of an anonymous "Appeal in behalf of the Navy and its *personnel*, with notes of some incidents in its history, by an ex-staff officer." Its author has no reason to be ashamed of it. It is vigorously written and makes an excellent case on behalf of the Engineer Corps in reply to criticisms upon it which appeared in the New York *World* of last summer, under the heading of a "Barnacle Bureau." It is the old quarrel of the members revived, for it is obvious that a modern Navy must, in some form, provide for expert skill in the management of the machinery upon which our vessels are dependent for their motive power; it is equally obvious that Naval efficiency requires that there should be a harmonious adjustment between those who furnish this and the other and equally essential elements which go to make up the sum total of Naval *personnel*. The only question then is as to the how, and to the settlement of this question the facts presented in this pamphlet are a valuable contribution. In the endeavor to unify the administration of affairs on board of a man-of-war we must have a care that we do not run foul of the old proverb, "A jack at all trades and a master of none." Intelligent co-operation should make class antagonisms impossible. The author of this pamphlet quotes with approval what Commander Ward says in his "Steam for the Million": "Recognize as right and beneficial, when not morbid, a jealous pride of position and of rank, and concede to it, not only all the public good requires but all it will admit." The experience of the unfortunate Cowper Coles is quoted to show what results from "ignoring capable engineering talent," and numerous acts of distinguished merit are cited to the credit of the Naval Engineer Corps, and we are told that "instances are not rare when engineer officers, in emergencies, have efficiently performed the duties of every other class of officers, that of surgeon alone excepted"—so the religious administrations of the chaplain would seem to be included.

"Uncle Sam's Medal of Honor," is the title of a handsome illustrated volume in which Gen. Theo. T. Rodenbough, U. S. A., has brought together accounts of "some of the noble deeds for which the medal has been awarded, described by those who have won it." The volume concludes with a list of those, 474 in all, who received the Medal of Honor for individual gallantry on a particular occasion during the War of the Rebellion. This includes the following officers and men of the Regular Army: Sergt. Major Augustus Barry, 16th Inf.; 1st Lieut. Samuel N. Benjamin, 2d Art.; Sergt. Orila Cayer, 14th Inf.; Sergeant Major F. W. Gerber, Battalion U. S. Engineers; Corporal John C. Hesse, 8th Inf.; Private E. R. Hanford, 2d Cav.; Sergt. John Kaiser, 2d Art.; Private Timothy O'Connor, 1st Cav.; Sergt. Geo. Foster Robinson, now Major and Paymaster; 2d Lieut. Thomas W. Custer. Among those of the Regular Service whose history appears here are Sergt. Bernard Taylor, 5th Cav.; Sergt. John Nihill, 5th Art.; Private Sylvester Grover, 5th Cav.; Sergt. John Harrington, 3d Cav.; 1st Sergt. Geo. K. Kitchen, 5th Cav.; Private Wm. Evans, 7th Inf.; Sergt. W. B. Lewis, 3d Cav.; Private O'Malley, 6th Inf.; Sergt. Edward Grimes, 5th Cav.; Sergt. John D. Lawton, 5th Cav.; Sergt. James Fegan, 3d Inf. Gen. Rodenbough's volume is a most interesting and valuable record of exciting adventure as well as of honorable and distinguished service.

A recent publication from the press of the Artillery School, of Fort Monroe, Va., is an excellent article by 1st Lieut. A. D. Schenck, 2d U. S. Art., on "Material for Field Artillery for the U. S. Army." Lieut. Schenck concludes by saying: "It is to be hoped that the day is not far distant, when the indispensable steps will be taken to provide the Army, with at least representatives of the guns that may be authorized and adopted for field artillery service. What they should be, no one in the artillery seems to know or care. If anything that has been advanced in this paper will induce officers of more distinguished merit and talents to make known what we should have, its object will have been accomplished."

We are in receipt of the handsome new Seed Annual of D. M. Ferry and Co., the seedsmen of Detroit, Mich., who enjoy the enviable reputation of being the widest and best known firm, in any business in the United States. Millions of people, gardening both for profit and pleasure, have found ever increasing satisfaction and delight in using their seeds. Everyone desiring the best seeds should secure their Annual, which is sent free on application.

The *Revue Maritime et Colonale* for December has an article by Vice Admiral de Fauque de Jonquières on "Theorie elementaire du mourement de la toupie et de son application à un horizon artificiel," and one by M. G. Fleuriais, Captaine de Vaisseau, on "le gyroscope-collimateur; substitution d'un repère artificiel á l'horizon de le mer."

THE FORTY-NINTH CONGRESS.

House bill 6313, to release to the city of San Antonio, Tex., for street purposes, a portion of the military reservation near that city, was passed by the Senate on Tuesday.

Senator Cameron presided at the meeting of the Senate Committee on Military Affairs on Tuesday as Acting Chairman, Senator Sewell not having yet been appointed to succeed the late Senator Logan. Considerable business was transacted, though most of the measures acted upon were private and unimportant. Favorable action was taken on all the nominations sent in since the recess and upon the following bills:

S. 845. For the relief of telegraph operators who served during the war. (An amendment was adopted to this bill authorizing the Secretary of War to issue certificates of discharge to all persons connected with the military telegraph service, and to confer upon them an assimilated rank, no back pay being allowed.)

H. R. 6313. To release unto the city of San Antonio, Texas, certain portions of the military reservation near that city.

H. R. 633. To reimburse Major G. W. Candee $2,650, stolen from him while on duty at Fort Arbuckle, I. T.

It was also agreed to recommend to the Committee on Appropriation the insertion into the Sundry Civil Bill of the items which appear elsewhere.

An advance report was adopted on the bill, S. 2221, providing for an increase of pay of chaplains of the Army.

The Senate Committee on Military Affairs has reported adversely the bill donating $25,000 to a home for disabled soldiers under the control of the State of Vermont, believing it against public policy to appropriate money for the aid of State institutions.

The meeting of the Senate Committee on Naval Affairs on Wednesday was short and unimportant, the only business transacted being the adoption of favorable reports on the several Navy nominations sent in last week.

A communication was presented in the Senate, on Wednesday, from the Secretary of State, transmitting a copy of a letter from the Secretary of the Navy, recommending legislation authorizing Rear Admiral Ralph Chandler, U. S. N., to accept a vase tendered to him as a present by the Emperor of Austria and King of Hungary, in acknowledgment of services rendered to H. M. corvette *Donau*, the Secretary of State concurs in the recommendation. A similar recommendation has also been made to House Committee on Naval Affairs.

Mr. Sewell has introduced an amendment intended to be proposed to the Military Academy bill providing for a clerk to the disbursing officer and quartermaster, at $1,650 per annum; for one clerk to adjutant in charge of cadet records, $1,500, and for one clerk to treasurer, at $1,500 per annum.

The Chief of Ordnance has sent a communication to the Senate, recommending an appropriation of $20,439.88 to be included in the Sundry Civil bill now before the Senate Appropriation Committee, for the completion of the new fire-proof milling shop at the Springfield Armory, authorized by act of Aug. 4, 1866, which appropriated $30,000 for this purpose. The item now asked for was not included in the Sundry Civil bill, as it passed the House, for the reason that the Appropriation Committee of that body did not feel authorized to recommend an appropriation for a new building until acted upon by the Public Building Committee. The latter committee has since approved of the increase, so that the Senate Committee will now be authorized to act.

Senate bill No. 2477, providing for the establishment of a military post near the city of Denver, Col., and Senate resolution 78, for the acceptance by the Government of a track of land from citizens of Chicago, for military purposes, were reported from the House Military Committee, with amendments, on Tuesday. The amendment to the resolution provided that the Attorney-General should first ascertain if the title was clear to the land which it was proposed to have the Government accept. The amendment to the Denver military post bill was in the nature of a substitute for the Senate bill, all after the enacting clause being stricken out, and the following, reducing the amount of appropriation, inserted:

That the Secretary of War is authorized to establish a military post near the city of Denver, in the State of Colorado, at suitable site, to be selected by the Lieutenant-General of the Army and approved by the President; *Provided*, that a good and sufficient title, to be approved by the Attorney-General of the U. S., be first made to the U. S, free of cost, of not less than 640 acres of land on a compact body, including the site so selected.

Sec. 2. There is appropriated, etc., the sum of $100,000, to be expended under the direction of the Secretary of War, in the commencement of the work of constructing the necessary buildings, quarters, barracks and stables for the post to be established under the provision of this act: *Provided*, That no part of such money shall be expended until the State of Colorado shall have ceded to the U. S. jurisdiction over the tract of land which may be selected under the provisions of this act.

The Secretary of War on Tuesday transmitted to the House a report from the Board of Engineers (appointed under the terms of the last River and Harbor bill) upon the proposed acquisition by the government of the Illinois and Michigan (Hennepin) Canal. The report is generally favorable to the construction of the proposed canal on the line which is designated in the bill reported by the House Committee on Railways and Canals.

The following bill, S. 2174, to equalize the pensions to soldiers and sailors totally disabled, was reported with a favorable recommendation from the Senate Committee on Pensions on Tuesday:

That all persons who, by reason of any injury received or disease contracted while in the Military or Naval Service of the United States and in the line of duty, have lost, or may hereafter lose, the sight of one eye, the sight of the other having been previously lost, or who have become, or may hereafter become, so permanently and totally disabled as to require the regular aid and attendance of another person, shall hereafter receive, and there shall be paid them, in lieu of all pensions now paid them by the Government of the United States, the sum of $72 per month.

The House on Tuesday concurred in the Senate amendment reducing the amount contained in the bill, H. R. 7192, to provide a school of instruction for cavalry and light artillery at Fort Riley, and for the construction and completion of quarters, etc., at Forts D. A. Russell and Robinson, and the bill was passed.

The House Committee on Naval Affairs, at its meeting on Tuesday, decided to report a resolution increasing the amount of appropriation for cruiser No. 1 (*Newark*) to $1,300,000 and requiring the Secretary of the Navy to again advertise for proposals for the construction of the vessel. Messrs. Herbert and Norwood were appointed a sub-committee to draft the resolution. Mr. Bourelle gave notice that he would oppose the measure when reported to the House. A favorable report was adopted on the Senate bill for the relief of Capt. Andrew Johnson, and a number of Navy bills, which have been introduced since the holidays, were referred to the sub-committees having jurisdiction. A delegation, consisting of the Mayor and Common Council of the city of Norfolk, was before the committee on Thursday to urge the retention of the Norfolk Navy-yard as a shipbuilding and repairing station.

BILLS INTRODUCED.

The following amendments, intended to be proposed to the Sundry Civil Appropriation bill, have been presented in the Senate:

By Mr. Cameron. For the erection of granite monuments or memorial tablets for the proper marking of the position of each of the commands of the Regular Army engaged at Gettysburg, $50,000 to be expended under the direction of the Chief of Engineers, U. S. A. For the purchase, restoration and care of grounds and care of monuments, under the direction of the Gettysburg Battlefield Memorial Association, $25,000.

By Mr. Sabin. That officers serving in the Signal Corps may be promoted one grade in the Army for each term of eight years continuous service as a commissioned officer in the Signal Service.

By Mr. Vest. Appropriating $40,000 for preservation and improvement of the Yellowstone National Park, the work of improvement to be under the direction and supervision of an engineer detailed by the Secretary of War for that duty.

By Mr. Williams. Appropriating $5,000 for a military telegraph line from San Francisco, Cal., to near Point Reyes, Cal., via Point San Jose.

By Mr. Sherman. $50,000 for a preliminary reconnaissance, under the direction of the Secretary of the Navy, of the conventional boundary line between Alaska and British Columbia, following the coast from Portland Channel to the 141st meridian, and to ascertain and report how far the natural features of the country permit the accurate location of the line of demarkation contemplated by treaty; and the officer conducting such reconnaissance shall make such recommendations touching the practical establishment of the boundary line as in his judgment may be necessary,

S. 3100, Mr. Manderson. To amend section 1225 of the Rev. Stats., concerning detail of Army officers to educational institutions, etc., so as to read as follows:

"Sec. 1225. The President may, upon the application of any established college or university within the United States having capacity to educate at the same time not less than 150 male students, detail an officer of the Army to act as president, superintendent, or professor thereof; but the number of officers so detailed shall not exceed fifty at any time, and they shall be apportioned throughout the United States, first, to those State institutions applying for such detail that are required to provide instruction in military tactics under the provisions of the act of Congress of July 2, 1862, donating lands for the establishment of colleges where the leading object shall be the practical instruction of the industrial classes in agriculture and the mechanic arts, including military tactics; and, after that, said details to be distributed, as nearly as may be practicable, according to population. Officers so detailed shall be governed by general rules prescribed from time to time by the President. The Secretary of War is authorized to issue, at his discretion and under proper regulations, to be prescribed by him, out of any small arms or pieces of field artillery belonging to the Government, and which can be spared for that purpose, such number of the same as may appear to be required for military instruction and practice by the students of any college or university under the provisions of this section; and the Secretary shall require a bond in each case, in double the value of the property, for the care and safe-keeping thereof, and for the return of the same when required."

Sec. 2. That the said section 1225 of the Revised Statutes of the United States, as amended by the said act of Congress approved July 5, 1884, and all acts and parts of acts inconsistent or in conflict with the provisions of this act, be, and the same are hereby, repealed, saving always, however, all acts and things done under the said amended section as heretofore existing; and this act shall take effect and be in force from and after its approval according to law.

S. 3119, Manderson. That on and after the passage of this act any officer borne on the active list of the Army who served in the War of the Rebellion at least three years as an officer or enlisted man of the Volunteer or Regular Army of the U. S. shall, upon his own application to the President of the U. S., after 25 years' service, including that as an officer or enlisted man in the Volunteer or Regular Army of the U. S., be placed on the retired list of the Army, in addition to the number heretofore authorized by law, the retired list being hereby extended to conform to the requirements of this act.

H. R. 233, Collins. Appropriates $10,000 to purchase from Faulkner and Allen, Philadelphia, Pa., 200 sets, of 18 scenes each, of Prang's Aquarelles, or series of American War Pictures, accompanied by a condensed history of the subjects to which they relate, and distribute them to the various libraries, United States Military and Naval schools of instruction, military and Naval stations, ships of war, soldiers, and sailors' homes, and in such other manner as he may deem best for the interest of the public service.

H. R. 10483, Perkins. Giving all officers of the Volunteer Army in the War of the Rebellion, one month's extra pay for each year of enlistment, excepting such officers as received extra pay under the provisions of the Acts of March 3, 1865, and July 13, 1866.

H. R. 10538, Burnes. Granting an increase of pension to $100 a month to the widow of Alexander B. Dyer, late Chief of Ordnance, U. S. A.

H. R. 10546, Merriman. That the Secretary of the Navy is hereby authorized to purchase the submarine torpedo vessel *Destroyer*, designed and built by Captain John Ericsson, armed with a submarine gun and projectile torpedo, including an independent submarine gun: *Provided*, That it shall satisfactorily appear that said vessel, with its steam machinery, guns, projectiles, and other accessories, have cost the sum appropriated.

Sec. 2. That the sum of $112,000 be, and hereby is, appropriated for the purchase of said vessel. Sec. 3. That the sum of $10,000 be, and hereby is, appropriated for experimenting with the same.

Sec. 4. That the Secretary of the Navy is hereby authorized to contract with Capt. John Ericsson for ten enlarged steam steel vessels of the same design and type as the *Destroyer*, with submarine guns, projectiles, torpedoes, and all other appliances. Said vessels are to be not less than 135 feet long, 20 feet wide, and 11 feet deep. Sec. 5. That the sides and decks of said vessels shall be covered with steel armor of the most approved manufacture, backed with wood to sustain the same. Sec. 6. That the engines and boilers of said vessels shall all be placed below the water line and covered with a separate deck of heavy steel armor, to protect the engines and boilers, as well as the submarine gun.

Sec. 7. That the price shall not exceed $200,000 for each vessel, with armor, armament, torpedoes, engines, boilers, and hull complete. Sec. 8. That said Ericsson shall furnish bonds satisfactory to the Secretary of the Navy for the faithful performance of the contract. Sec. 9. That said Ericsson shall give to the United States a right to use all his patents on said vessels, which will be used and included in the prices of each vessel, the payments to be made as the work progresses, reserving the usual percentage until the completion and delivery of each vessel.

Sec. 10 That towards the construction and completion of the vessels hereinbefore mentioned the sum $2,000,000 is hereby appropriated

H. R. 10560, Outhwaite. To provide for the employment of additional clerical forces by the Secretary of the Treasury and the Secretary of War, to be used in adjusting the accounts in the Treasury Department of those funds which under the law belonged to the Soldiers' Home, and for other purposes.

H. R. 10513, Compton. To provide for the maintenance of order in the District of Columbia during the national guard competition and parades.

H. R. 10598, Dibble. For the purchase of a site, including the building thereon; also for the erection of the necessary storehouses, for the use of office of the Chief Signal Officer of the Army at the city of Washington.

H. R. 10634, Bean. Granting the right of way to the Arizona Narrow-Gauge Railroad Company through the White Mountain Indian reservation,

H. R. 10637, Hailey. Granting the Spokane and Palouse Railway Company the right of way through the Cœur d'Alene Indian reservation.

NON-COMMISSIONED OFFICERS.

BROOKLYN, Dec. 20, 1886.

To the Editor of the Army and Navy Journal:

IN discussing the advisibility of allowing a non-com. on his own responsibility to confine a private unheard, existing conditions and attending circumstances must be considered to enable those interested to arrive at a satisfactory decision.

As you, sir, must know, it often happens that the experienced soldier looks with contempt, perhaps involuntarily, on a certain class of men who receive warrants to exercise authority over him, and it is dangerously humiliating to his professional instinct and spirit to feel that men whose influence is mainly felt in the direction of demoralization, by that lack of insight, courage and intelligence which they should possess, can, at their pleasure, knock away the last prop from his proper pride by running him to the guardhouse. As I look at it, the main trouble with the captains in selecting and retaining those incompetent non-coms. is their fear of desertion. First, they promote a man who aspires to the position, for which he is in no way qualified, because they fear he will desert if they blanket his aspiration, and then they fear to reduce and let him wait till experience qualifies him because they fear they will lose him anyhow if they do.

If the Captain finds a N. C. does not come up to the proper standard, he should, after fair trial, "bust him," and replace him with a better man, and when it becomes known as a settled fact in the Army that the incompetent, who aims to gratify his own ignorant personal prejudices and vanity at the expense of the interests of the Service and the efficiency of his company, can go, then only may we hope for N. C's who are worth an increase of pay and allowances.

I think it wrong to allow the class of non-com's. we now have to confine a private without a hearing of the charge by the Captain, except in cases where riotous or mutinous conduct calls for prompt action; and I think with you, sir, that the N. C. should call on as many privates as is necessary to confine such offenders with celerity and emphasis—excluding the men who, through hard campaigning and trial with their regiments on the frontier since the war, have proven themselves to be brave, true and reliable soldiers. It would seem that to increase the pay and privileges of the present quality of N. C's., without a corresponding increase for the privates, would be a mistake. M. G.

A BREACH OF DISCIPLINE.

To the Editor of the Army and Navy Journal:

OF all extraordinary things we hear and read of concerning the Army the meeting of the enlisted men of Co. F, 24th Inf., at Fort Elliott, Texas, which is reported in your issue of Dec. 25, as having been held on the evening of Dec. 15, is the most extraordinary. It is almost incredible that such a thing could be allowed by either company commander or post commander, and the proceedings was, without doubt, one of the most open violations of par. 5, Article I., Regulations of the Army of 1881, that was probably ever heard of in the Regular Army. National Guard people and militia may do that sort of thing, but for a company of Regular Infantry to hold a "rousing meeting" and pass resolutions thereat, is a most extraordinary breach of discipline. * * *.

MATTHEW ARNOLD ON GRANT.

MATTHEW ARNOLD'S paper on Gen. Grant is a review of the "Memoirs," but it takes a marked biographical form. Mr. Arnold saw the General in England and "did not find him interesting." He thought him "ordinary-looking, dull, and silent." Since reading the "Memoirs" his impressions have changed:

I found shown in them a man, strong, resolute, and business-like, as Grant had appeared to me when I first saw him; a man with no magical personality, touched by no divine light and giving out none. I found a language all astray in its use of will and shall, should and would, an English employing the verb to conscript and the participal conscripting, and speaking in a despatch to the Secretary of War of having badly whipped the enemy; an English without charm and without high breeding. But at the same time I found a man of sterling good sense as well as of the firmest resolution; a man, withal, humane, simple, modest; from all restless self-consciousness and desire for display perfectly free; never boastful where he himself was concerned, and where his Nation was concerned seldom boastful—boastful only in circumstances where nothing but high genius or high training, I suppose, can save an American from being boastful. I found a language straightforward, nervous, firm, possessing in general the high merit of saying clearly in the fewest possible words what had to be said, and saying it frequently with shrewd and unexpected turns of expression.

ON Thursday the transportation fund of the Signal Corps became entirely exhausted, and not a move can be made until the passage of the general deficiency bill. An attempt to have a provision inserted in the urgent deficiency bill has proved a failure. This will not prevent the convening of the court on Monday for the trial of Lieut. Walsh.

THE STATE TROOPS.

MILITIA OF THE TERRITORIES.

THE editorial article in the November *Century*, upon the "American Militia," was very timely, and it is to be hoped that it will have some effect upon the legislation of the coming Congress, in regard to one of the most important, and most neglected, national questions; one that may become of vital moment to the nation. How important General Washington considered a proper provision for the maintenance of the militia is shown by his letter to the Governors of the several States, dated June 18, 1783, in which he says:

As there can be little doubt that Congress will recommend a proper peace establishment for the United States, in which a due attention will be paid to the importance of placing the militia of the Union upon a regular and respectable footing; if this should be the case I should beg leave to urge the great advantage of it in the strongest terms. The militia of this country must be considered as the palladium of our security, and the first effectual resort in case of hostility. It is essential, therefore, that the same system should pervade the whole. That the formation and discipline of the militia of the continent should be absolutely uniform, and that the same species of arms, accoutrements, and military apparatus should be introduced in every part of the United States. No one who has not learned it from experience can conceive the difficulty, expense, and confusion which results from a contrary system, or the vague arrangements which have hitherto prevailed.

The "vagueness" of the militia "arrangements" which prevailed one hundred and three years ago has not at all diminished during that time. For, although all of the States, so far as we know, have adopted the U. S. Tactics for movements, their arms, accoutrements, and uniforms are as various almost as the coats of arms of the various States, and none of them comply with the national law found in sec. 1628 R. S., U. S., whose absurd provisions as to "hangers and spontoons" have been so often quoted, and which has made the militia a laughing stock for three generations. It is still the law, and it is solemnly carried into the revision of our statutes in 1887, although most of its provisions have become "dissuetudinous." This same law (title 16) provides that all males between the ages of 18 and 45 shall be enrolled in the militia and shall arm and equip themselves as provided above. The number of men liable for duty under this law as gathered from the returns of the Adjutants General of the several States is 6,973,995, while the number actually organized enrolled and available (on paper) is only 84,739, or a trifle over one per cent. of the total number in the country. In case of actual and immediate need not more than one half of this last named force could be relied upon for active service, and under the law nine months is the longest period for which the National Government can call out the militia of the several States; about the length of time it would require to get them thoroughly organized and into serviceable shape, when they would have to be disbanded and sent home. In his report to the Secretary of War for 1885, Gen. Benét, Chief of Ordnance, says:

It is hardly necessary to do more than to refer in a cursory way to the great need of larger appropriations for "arming and equipping the whole body of the militia" or even a reasonable fraction of it. If the General Government intends keeping the militia up to the highest practicable standard, as the main armed force of the country, then the amount declared sufficient in 1808 must be greatly increased. If this most important duty is to be performed by the individual States, then this fact should be so declared and proclaimed that the responsibility rests upon the proper shoulders. One thing is certain, that more uniform and liberal methods, and direct responsibility should be resorted to, to place on an effectual footing the militia and volunteer organizations of all the States."

The officers of the Regular Army generally are strongly in favor of keeping up the militia organizations of the country, and of encouraging them in every way, as they, more than any other class, fully appreciate the necessity for so doing. Their presence at the various camps, schools of instruction, and drills has had an excellent effect upon the militia. The martial spirit of our land has thriven, notwithstanding the lack of encouragement it has had from National and State Governments, and in every considerable town is to be found a volunteer militia organization whose members not only give their time and muscle cheerfully to learn how to most effectively protect their fellow countrymen from "outward foes or domestic violence," but in addition spend their often times scanty means to uniform and equip themselves; not, however, as sec. 1628, R. S., provides, and frequently pay their own expenses to encampments, schools of instruction, and military gatherings, besides losing their pay for the time they are absent virtually upon the public service. But the most absurd and unjust provision of the militia law is in regard to the Territories. Prior to 1876 they were not recognized as entitled to any assistance in regard to their militia from the General Government. On June 8, 1878, Congress passed the following resolution:

Be it resolved, That the Secretary of War is hereby authorized to cause to be issued to each of the Territories of the United States . . . such arms not to exceed one thousand in number, as he may deem necessary, and ammunition for the same, not to exceed fifty ball cartridges for each arm: *Provided*, That such issue shall be only from arms owned by the Government of the United States, which *have been superseded and no longer issued to the Army: And provided further*, That said arms shall be issued only in the following manner and upon the following conditions, namely: Upon the requisitions of the Governors of the several Territories, showing the absolute necessity for arms, for the protection of citizens and their property against hostile Indians within, or of Indian raids into such Territories: *And provided further*, That the said Governor or Governors of said Territories, to whom said arms may be issued, shall give good and sufficient bond, or bonds, for the return of said arms, or payment therefor at such time as the Secretary of War may designate, as now provided for by law.

The arms can only be issued upon a showing for their absolute necessity; then only one thousand, no matter how many may be "absolutely needed," these to be such as "are superseded, and no longer issued to the Army," and only *fifty* rounds of ammunition to each arm! and to get even this scanty allotment, the Territory is obliged to pay for transporting the articles from some distant arsenal or depot.

The injustice and absurdity of this resolution needs only to be stated to be fully appreciated, and it is here reproduced, because it is not generally understood, even among officers in the Army stationed in the Territories, that their militia are compelled by the General Government to be armed with obsolete and superseded arms, where of all other places in the United States the militia must act with the Regular Troops against Indians, and in Arizona and New Mexico possibly against a foreign enemy. Their arms and ammunition are of different make, calibre, and manipulation from those furnished Regular Troops, and in case the militiaman exhausts "his fifty rounds" of superseded ammunition, or his officers lose or break their "spontoons," the Regulars cannot replace them, and the militiaman must go to the rear, or be captured—a victim of the criminal neglect of the Government in demanding military service from its citizens and failing to furnish proper means for its performance.

During last year militia companies from New Mexico and Arizona were in the field with Regular Troops after the hostile Chiricahua Apaches, from May until December, under these disadvantages, and although the Apaches are happily disposed of now, there is still a large number of restive Indians within these Territories who are a standing menace to the settlers. The latter feel able to take care of themselves, with the assistance of the Army, if the General Government will furnish them with the same arms which are lavished so liberally upon the States; and it would seem but simple justice and ordinary common sense that the border Territories, especially New Mexico and Arizona, should receive the same consideration as the States whose means for self defence are ample, and the occasion for their use only problematical, and when the "American Militia Law" is revised to meet modern ideas and advanced conditions, let not the enrolled militia of the Territories be omitted from its benefits.

Apropos to this the N. Y. *Star* says:

Major Paul Dana has made a report to Gen. Fitzgerald, commanding the 1st N. Y. Brigade, on the arms and ammunition of our crack militia brigade, which raises a burning question in militia circles. The arms now carried are antiquated, and the ammunition is condemned as unreliable. A modernization of the ordnance is plainly imperative. There is one point that must be borne in mind in whatever change is made—the necessity of having guns of a uniform calibre with those of the United States troops or guardsmen of adjacent States, in concert with whom our militia would probably have to act. During our Civil War the fortunes of more than one action were changed by the lack of ammunition of the calibre of the muskets of troops whose supply was exhausted. The poem of the wounded drummer boy who fell dead while urging his general to send to his regiment cartridges of calibre 44, illustrated a frequent happening of active service when supplies of cartridges were useless because of the wrong calibre. In infantry armament there should be agreement and co-operation between the military authorities of our State and of our neighboring Commonwealths as well as the Federal Government.

FISH OF ONE FLESH OF ANOTHER.

THE attention of our esteemed contemporary, the New York *Sun*, is respectfully called to the fact that the Adjutant-General of the Army and the Lieutenant-General of the Army hold their positions for life, or until they arrive at the age fixed by law for retirement, and yet their superior officers, the Secretary of War and the President of the United States, are elective officers, having a limited term. Reasoning from analogy, should not the officers in direct control of military matters in the several States have a term of office independent of the political changes which, in most of the States, and certainly in New York State, occur twice as often as in the Federal Government? Everybody knows that it is a fiction of law which makes the President Commander-in-Chief—so far as the details of military administration are concerned. Not only are the officers who directly command the Army permanently attached to the military establishment, but they are subject to the laws of promotion which compel a service in inferior grades, and thus give them an opportunity to acquire the necessary experience. What is there analagous to this in the administration of the affairs of the National Guard—of New York, for example? What good reason has the *Sun* to urge why we should make fish of one in this matter and flesh of the other? We are glad to learn from the *Sun* that our views on this subject meet with the cordial approval of the Adjutant-General of New York, Gen. Porter, though there appears to be some confusion in the mind of the editor of the *Sun* on this subject. One day he tells us that our views on the subject of a permanent Commander are inspired by General Porter and the next declares that they have that gentleman's decided disapproval. We observe that the Governor of the conservative old Commonwealth of Massachusetts practically adopts our views on the subject of a permanent Adjutant-General by reappointing Gen. Dalton, who served so efficiently as Adjutant-General under his predecessor. But the only way to make the office of Adjutant-General independent of political control is by giving its incumbent a more permanent tenure, subject, of course, to removal under proper conditions. As the Governor, whoever he may be, can, as Commander-in-Chief, always direct and overrule the action of his subordinate, we can see no possible danger of interference with his constitutional prerogatives in this innovation. We observe that Gen. James H. Kidd, Inspector General of the State of Michigan, in his annual report says: "The law needs amending concerning the tenure of office. The elective system is productive of manifold evils; but these can be checked in a measure by proper legislation. The brigadier general, like the heads of staff departments, should be appointed and hold office during good behavior. If the other officers are to be elected it should be for a certain term, say three or five years, and the tenure of field and line officers be the same."

The N. Y. *Star* says: "The proposition of the ARMY AND NAVY JOURNAL for the appointment of a general to command the National Guard of the State has much to commend it. Our militia has suffered greatly from lack of unity in command and from the absence of constant supervision over drill and discipline all the year around. The duties of a military commanding officer for the State troops would no more interfere with those of the Governor as constitutional commander-in-chief than do those of the general or lieutenant-general commanding the U. S. Army with the supreme military authority of the President of the United States. The notion that it would be undemocratic to place at the head of the National Guard a skilled officer holding by military tenure is nonsense. There is nothing democratic about maintaining at great cost a permanent military force to be sacrificed in the time of war through the absence of an experienced and capable commander familiar with his troops and trusted by them. The argument that is made against a military commander for the State forces could be used with equal force against our having any National Guard at all. The plan of the ARMY AND NAVY JOURNAL is right, and cannot be too soon put into operation."

THE NEW YORK CAMP GROUND.

FEW are aware of the amount of work quietly done on the camp ground at Peekskill. Alterations have taken place which make it difficult to recognize the old place. When the work of blasting away the point of rocks was well under way it was found that there was a great deal less rock and more earth than was anticipated. This has accelerated the work and the ravine near the back entrance of the camp is rapidly filling up. As it stands at present 275 feet parade ground have been gained, and a person situated at the mess hall can view the entire field. Considerable grading has been accomplished, and the preparations for the new drainage system are complete. The drains will be extended to the middle of the Hudson River and the work will be done as thoroughly as possible. It is a pity that so many fruit and shade trees had to fall, but this could not be avoided. The only way to remedy the defect is to plant new trees, as is intended. A roomy bathhouse is to be constructed at a convenient spot near the North river, and with the natural advantages and beauties of the ground, the camp, when completed, will form one of the most desirable spots in the country for the purpose for which it is intended. We hope the appropriation will hold out to enable the accomplishment of the entire project.

MILITIA ENCAMPMENT AT WASHINGTON.

IN answer to inquiries we may state that so far as we can learn, no action whatever has been taken by the War Department in connection with the militia encampment to be held at Washington next May. The officers say they would like to see the enterprise succeed, but beyond their expression of good wishes have done nothing toward encouraging it. Gen. Drum says that so far as he knows the Department has not been invited to participate in any way, and he was sure that the Department had not made any request to be represented. As the time for the event approaches it is very probable that arrangements will be made for the detail of a number of officers to witness and report upon the condition of the troops, manœuvres, etc., but beyond that we doubt if the Regular Army will have any other relations to the enterprise, unless perhaps some officers may be authorized to act as judges.

It is desired to have the military evolutions take place on the public reservation south of the White House, everywhere known as the White Lot. It is not likely, however, that artillery or cavalry will be permitted to manœuvre upon the lawn. If the drill is held on the White Lot the encampment of the competing organizations will be on the monument lot adjoining.

ANNUAL MEETING NATIONAL RIFLE ASSOCIATION.

THE annual meeting of the National Rifle Association was held at the armory of the 22d New York on Tuesday, Jan. 11, General George W. Wingate, the president, in the chair. In his opening remarks he said that the year had been a prosperous one. While civilian shooting had not increased, there was an unusually large attendance at military matches at Creedmoor, due to the increase in the number of the prizes offered; but the Association still sustained a loss of $500 over and above all prizes presented to it. However, the Association was never in a better condition pecuniarily at this season of the year, having $1,932.75 on hand and no debt. The butts and other woodwork on the range are in need of extensive repairs, which will require an outlay of several thousand dollars; and this fact, together with the inaccessibility of Creedmoor, has developed a strong feeling in favor of establishing a range in a more accessible locality. If this were accomplished, Gen. Wingate was confident that the range would be as generally attended and as prosperous as it was ten years ago. The difficulty in the matter was to obtain the ground and to fit it up, which would involve the raising of a large amount of money. This is the most important question ever presented to the Association.

At the conclusion of the address the secretary and treasurer read their reports, which contained nothing of interest, and then the meeting changed the by-laws so as to constitute six directors and twenty members a quorum at directors' and general meetings respectively.

The election of directors followed, resulting as follows: For three years—Majors L. B. Bell, Geo. L. Fox, and Edward Duffy, and Messrs. J. H. Brown and L. C. Bruce. For one year—Col. Charles E. Bridge. This was the end of the meeting.

THE SEWELL MILITIA BILL.

THE two Houses of Congress have agreed on the Sewell Militia Bill, the Senate conferees on Friday accepting the House amendment reducing the amount appropriated from six hundred thousand to four hundred thousand dollars.

The large hall of Cooper Union was filled Tuesday night by workingmen who had gathered in response to a call by the Central Labor Union to protest against the bill now before Congress providing for increased Federal aid to the State militia, and to endorse Senator Blair's Educational Appropriation bill. John McMackin, who was Chairman, said that the workingmen had no objection to the militia or a standing army, because they did not expect to accomplish their objects by brute force; but it was a question for them to consider as citizens whether or not some day an ambitious man might not use the centralized power to proclaim himself dictator. If the power of the Federal Government was to protect only the property of a few it was well to know it. In the past, he said, the defenders of the country came from the ranks of labor, and the workingmen would hold to account those who voted for the Militia bill. Secretary Lloyd read a letter from James E. Quinn, Master Workman of District Assembly 49, K. of L., regretting his absence, and saying that the military power of any country had always been used to destroy the liberty of the workers under pretext of protecting them. R. J. Hinton said it was the same power which tried to destroy the Union that is now seeking to get control of a standing army. Hinton then gave a sketch of of the manner in which the bill came to be presented,

The militia of this city, he said, was only an expensive club, which the workingmen could not enter. Resolutions were adopted denouncing the Militia bill as "an impudent and treasonable conspiracy against the liberty of the people," and endorsing Senator Blair's Education bill.

THE ACKERMAN CASE RESTS.

THE court for the trial of Major J. Fred. Ackerman, of the 13th Regiment had its final session on Jan. 12. Major Ackerman was called by Colonel Lamb on the redirect, in which he stated the object of the meeting of officers at his residence shortly after the election for colonel. He said it came to his knowledge that if he resigned, as was his intention then, other officers of the regiment would resign also, and with them would go about two hundred men who had served their time. Seeing that the regiment would be badly broken if all this happened, he earnestly requested the officers to remain and asked them to use their utmost endeavors to get the members of their companies whose terms had expired to remain also. The result of his appeal was that every officer present at the meeting signed a document pledging him (the Major) their support if he would remain. The court admitted the document in evidence. With regard to the expression used by the Major, "I'm enlisted for the war," he explained it was but a figure of speech. Some correspondence between Colonel Fackner and the Major touching the arrest of Lieut. Smith was put in evidence to show that Major Ackerman was desirous that discipline should be maintained. In answer to the court the major said he stopped the hissing and cheering on the night of the election for colonel—as an officer of the regiment it was his duty to stop it; it was the duty of any officer there to stop it. The case was then submitted to the court without argument.

SILVER RECEPTION OF THE TWENTY-THIRD N. Y.

IN connection with the silver reception of the 23d New York, which is to be held in Brooklyn on the 20th of January, we give a list of the field officers of the regiment who have served since its organization in 1862:

Colonels.—Wm. Everdell, Jr., Calvin E. Pratt, Rodney C. Ward, John N. Partridge.

Lieutenant Colonels.—Edw. L. Molineux, John B. Woodward, John A. Elwell, Rodney C. Ward, Stephen H. Farnham, John N. Partridge, Willis L. Ogden, John B. Frothingham.

Majors.—John A. Elwell, Rodney C. Ward, Henry T. Chapman, Jr., Chas. E. Goldthwaite, James G. Gregory, John N. Partridge, Alfred C. Barnes, John B. Frothingham, Chas. L. Fincke, Alexander S. Bacon.

The present officers of the regiment are:

Field and Staff.—Colonel, Chas. L. Fincke; Lieutenant Col., Alex. S. Bacon; Major, Chas. E. Waters; Adjutant, Eugene W. Burd; Quartermaster, Arthur A. Thompson; Commissary, Richard Oliver; Surgeon, Edwin A. Lewis; Assistant Surgeon, Wm. E. Spencer; Chaplain, Geo. R. Van De Water; Inspector of Rifle Practice, Wm. H. Greenland.

Co. A.—Capt. Edgar F. Haviland, 1st Lieut. Henry C. Everdell, 2d Lieut. Wm. H. B. Smith.

Co. B.—Capt. Willard S. Candee, 1st Lieut. Franklin P. Swazey, 2d Lieut. Wm. P. Pickett.

Co. C.—Capt. Ezra De Forest, 1st Lieut. Wm. S. Banta, 2d Lieut. Chas. R. Silkman.

Co. D.—Capt. Fred C. Cocheu, 1st Lieut. John S. Shepherd, 2d Lieut. Arthur C. Saunders.

Co. E.—Capt. David Moffat, 1st Lieut. J. De Witt Clark, 2d Lieut. Harry P. Hungerford.

Co. F.—Capt. Britton C. Thorn, 1st Lieut. Joseph T. Hull, 2d Lieut. Robert T. Holby.

Co. G.—Capt. Harold L. Crane, 1st Lieut. Geo. E. Hall, 2d Lieut. Theodore W. Silicocks.

Co. H.—Capt. Alexis C. Smith, 1st Lieut. Francis P. Harron, 2d Lieut. Geo. A. Williams.

Co. I.—Capt. Frederick L. Holmes, 1st Lieut. Geo. W. Middleton, Jr., 2d Lieut. Geo. F. Hamlin.

Co. K.—Capt. Darwin R. Aldridge, 1st Lieut. —— ——, 2d Lieut. John J. Harris.

The committee on the 23d N. Y. Regiment "silver reception" at the Academy of Music on Jan. 20 state that the sale of boxes and tickets has been beyond all expectation and that the affair cannot fail to be a brilliant success. Governor Hill will be present with members of his staff. The regimental band is to be augmented to 100 pieces for the occasion, and the most elaborate decorations have been decided upon, drawings having been furnished by a leading decorator.

Seventh New York.—Col. Emmons Clark.

WITH a company front of 34 files, Co. A, Capt. A. W. Conover, performed some very fine manœuvres of the school of the company, and gave also an entertaining exhibition of skirmish movements. As a general thing every company in the 7th now devotes a portion of its drill hour to this practice, and omission of skirmishing, which was the rule in former years, now forms the exception. This is as it should be, and while the introduction of skirmishing has had no effect on the attendance at drills in the 7th (which was always good), it has certainly stimulated the interest of the men.

As a whole company cannot be deployed in the hall as skirmishers, only one-half is engaged at a time, the other half being drilled elsewhere meanwhile in other movements. The large space at disposal allows a much better development of the movements than is the case in other armories. Deployments can be made with full intervals of five yards; there is no crowding nor unnecessary hurry. Under these circumstances, skirmish drills here afford almost as much opportunity for instruction as they would in the open field. The company executed the various deployments by the flank and to the front, advances and retreats, the firings on the march, and kneeling and lying down, and the rallies by fours. All were performed with snap and promptness, and there was nothing which required to be criticised. Errors were individual and not the result of faulty instruction. When the half of the drill time had expired, the command assembled and went into company movements as a whole, in order to make room for the skirmish drill of the 8th company. The movements were principally by platoon, and they showed off the command to full advantage.

The 8th company, Capt. Andrew Mills, had 31½ files. It is essentially a shooting company, but its performance on the drill floor showed that its instruction is by no means one-sided. Its manual was very good, and the marching manœuvres deserved much credit. This company has made great improvement during the past year and is very ably commanded.

Eighth New York.—Col. Geo. D. Scott.

THE Board of Officers of the 8th N. Y. held their annual meeting on Monday evening, Jan. 10, and elected the following officers for 1887: President, Col. Geo. D. Scott (as per regulations); Treasurer, Capt. D. P. Arnold; Secretary, Capt. E. A. Oothout. Finance committee, Col. G. D. Scott, Major H. Chauncey, Jr., and Capt. T. M. Young; Armory committee, Capt. E. A. Oothout and Lieuts. M. Van Rensselaer, Jr., and Knight Neftel; Uniform committee, Capt. Wm. H. Dewar and Lieuts. F. R. Pentz and T. H. Cammann; Music committee, Lieut.-Col. F. A. Schilling, Adjutant J. O. Johnston and Capt. A. A. Oates; Library committee, Capt. A. T. Mason and Lieuts. W. D. Cunningham and H. Howe; Board of Examination for non-com. officers, Major H. Chauncey, Jr., and Capts. E. A. Oothout and T. M. Young. The officers of the regiment tendered a complimentary dinner to Col. Geo. D. Scott, to take place on Feb. 4. Lieut. H. Howe presented to the regiment a complete set of maps of the battlefields of the rebellion; also several books for the library. Col. G. D. Scott, Lieut.-Col. F. A. Schilling, Major Henry A. Chauncey and Capt. Young were appointed delegates to the Convention of the National Guard Association, Feb. 1 next. Col. Scott announced that he had no doubt but that the regiment will be enabled to take its temporary quarters at the Skating Rink May 1st next, pending the building of the new armory. The board also agreed upon a long-service medal. It will be nearly similar in shape to the 22d Corps badge, of plain iron for 10 years, with a silver border added for 15 years, a gold one for 20 years, and a gold rim with the figure 8 set in brilliants for 25 years' service.

Co. H, 8th N. Y., has as yet not elected a captain. This company has in less than two years furnished one major and three captains (Oothout, Dewar and Mason) to the regiment.

Twelfth New York.—Col. J. H. Jones.

THE larger drill hall of the 12th Regiment Armory is not roomy enough to accommodate two companies at a time. Therefore each company disappeared from sight in the small room during a portion of the drill time. What follows here consequently relates to what we saw while each company was drilling in the larger hall.

Co. C, Capt. J. Amory Haskell, had 16 files. Capt. Haskell has commanded this company only a comparatively short time, and having no lieutenants, and being also short of sergeants, all the good points which this command presents (and there are many) is due to his individual exertions.

The first portion of the drill was devoted to skirmishing and while the movements had to be limited for want of proper space, still the deployments, assemblies and rallies by fours, although not executed with that promptness and ease which can only be acquired by constant practice, gave evidence of correct instruction and fair understanding on the part of the men. After assembling on the right the command went into company movements and here it became apparent that there were no file closers and only one guide. This, however, did not interfere with the smooth course of the drill. The men executed the manual in good style, performed the various passages from fours into line and vice versa, with all the precision required, executed the double time well, and showed no weak points until the wheelings were taken up. Here the left centre bulged and broke the alignment in every instance, and the way in which the men spread out their arms in their attempts to regain touch was anything but graceful. The captain attempted to correct the defect but was only partially successful and will have to try again next time. The carry and halting needs practice. All through the drill the men exhibited admirable steadiness and discipline and this they broke only in one instance, while the ranks were open and the inspection of arms was practiced. What is particularly to be regretted here is that the 1st Sergeant gave the example by striking an easy attitude, gaping around and talking as soon as the captain had turned his back. That the men followed him is only natural. Bayonets should have been fixed during this time. During a series of firings which followed the men resumed their steady, soldierly bearing and the drill wound up in a very creditable manner. This company, which is only in its infancy, has in it the making of a first-class organization.

Co. D, Capt. Bleecker J. Barnard, 14 files, reflected in many of its movements the snap of its commander. This company occupied the large hall during the last half of the drill time. When it first came out and for some time after, the left four was in single rank, which is not tactical. Afterwards, in some way or other, two more men seemed to have turned up and numbers 1 and 4 of the last four were covered. The company started with a firm, rapid step and steady bearing, but marched too close when in fours. It performed some good evolutions and managed to keep a straight front during its wheels. The guide on the pivot flank, however, invariably disregarded par 59 by keeping up a backward movement which was shared in by the three or four files next to him, so that the fifth or sixth man from the pivot flank, instead of the pivot guide, became the one who took the 11 inch step prescribed in the paragraph quoted. During the wheels on a movable pivot this escaped the notice of the captain, but when wheeling from a halt he detected it and immediate correction followed. The company performed the front into line, and on the right into line in double and quick time and double and single rank creditably—executed a good double time in column of fours and then went into platoon drill. All went well here until the platoons wheeled by fours into line when the chiefs dressed their commands to the wrong flank. Mistake corrected by captain. Various platoon evolutions followed in fair manner, but the two chiefs seemed as if they had not thoroughly mastered their lessons. Later on in an advance in column of platoons by the flank the guides were on the wrong flank, but the captain corrected the mistake. Repeated several times the movements were executed correctly in principle, but not smoothly and handsomely, and more practice is needed. The different firings, standing and kneeling, which wound up the drill, were well done. The mistakes were individual and trifling. This company has much improved but it appears to somewhat neglect the attainment of general proficiency over the cultivation of excellence on special points.

Forty-seventh New York.—Col. E. F. Gaylor.

WILLIAMSBURG again gave a substantial proof of the popularity of the 47th by turning out *en masse* to witness the turnout of the regiment on Thursday, Jan. 6. The armory is now thoroughly completed and finished in very handsome style and well worth visiting.

The ceremonies opened with a review before Brig.-Gen. James McLeer, commanding the 2d Brigade, and the command formed promptly with unequalized company fronts. A much younger, healthier, and more able-bodied class of men than could be seen here some years ago now composes the rank and file of the regiment, but stricter attention should be paid to details at their instruction. The discipline was very creditable and the line during the walk around of the reviewing party stood as firm as a rock. Owing partly to unequalized fronts and partly to somewhat defective marching music, the march past was not effected in equally creditable style, the step being irregular, and the company fronts wavering. The march was too short to give the battalion a chance to gather itself together, and thus the passage itself and the wheel into line were finished in anything but accomplished style.

Major George L. Fox, I. R. P., of the 2d Brigade, was then introduced to the regiment by Col. Gaylor, and the presentation of the badges was finished in orthodox style, Major Fox making a few remarks.

When the marksmen's badges had been presented, Co. A was called to the front to receive the Strong medal and the Dakin badge, of which they are the winners. After the decoration the ranks were broken and a new formation took place for dress parade under command of Lieut.-Col. Benson. The parade was good, but the manual could have been more regular and snappy. Other comments are not necessary. Terpsichore then took charge of the drill hall while the officers of the regiment together with their numerous friends from other Brooklyn and New York organizations adjourned to the upper regions of the building, to partake of the hospitality for which the 47th is so famous.

Lieut.-Col. F. S. Benson left for Europe on Friday afternoon, Jan. 7, and received a hearty send-off from his numerous friends.

MILITIA ITEMS.

Gen. Rodenbough, in his "Medal of Honor," tells a story of an old Army sergeant, Sergt. Fegan, of the 3d U. S. Inf., which illustrates the idea prevailing in the Regular Service concerning duty manners: Hour, midnight; place, the guardhouse—Fegan being the sergeant of the guard, was addressed by a rather fresh recruit as "Jim." *Whack!* and the neophyte was sprawling, while seventy-five inches of irate Hibernian, soldierly humanity roared out: "*Jim*, is it? Whin I'm on duty its 'Sergeant Faggan' ye'll call me. Whin I'm off duty, thin, an not *till* thin, I'm Jim. D'ye mind it! D'ye mind it!" And he again flourished a fist as big as a Missouri ham in the face of the terrified recruit.

G. O. No. 1, A. G. O., Connecticut, announces the names of the Governor's Staff, which appeared in the JOURNAL, Dec. 25, and the following appointments: George M. White, of New Haven, to be A. A. G., with rank of colonel, from Jan. 8, 1885—reappointment; Henry C. Morgan, of Colchester, to be A. Q. M. Gen., with rank of lieutenant-colonel, from Jan. 6, 1887.

The quarterly returns of the 7th New York, of Dec. 31, shows the following strength: F. S. and N. C. S., 21; Cos. A, 97; B, 103; C, 92; D, 103; E, 89; F, 103; G, 99; H, 102; I, 103; K, 98. Total, 1,010.

The 8th N. Y. Veterans have determined to assist the regiment in obtaining recruits and every man has pledged to put his shoulder to the wheel for the purpose. Only men who are thoroughly suitable in every respect will be accepted. Many applications for membership have been received since the new armory has become a certainty. Capt. McIntyre, the chief of the veterans, was made the recipient of a handsome testimonial on New Year's Day at the hands of those under his command.

The Gate City Guard, of Atlanta, Ga., have issued a circular inviting all the world to accompany them on their trip to Europe. They have chartered the steamer *Antwerp*, of the Red Star Line, and will sell round trip tickets for prices varying from $190 for active members to $229 for excursionists; these last having special privileges as to the date of returning. These rates are from Atlanta and a deduction will be made to those starting from New York. The party will land at Antwep and from there go to Brussels; thence Paris, Switzerland and Italy as far south as Naples, taking in the various points of interests along the route, going and returning. The tickets cover only the cost of transportation, including living on the steamer. The steamer will sail June 25 or July 2, 1887.

Quarterly returns in the 1st Brigade, Dec. 31, 1886, show the strength of the following organizations: 12th N. Y., 33 officers and 649 enlisted men; total, 682; last return, 642; gain, 40. 22d N. Y., 35 officers, 547 enlisted men; total, 582: last return, 616; loss, 34. 11th N. Y., 26 officers, 442 enlisted men; total, 468; last return, 471; loss, 3.

An election for a 1st and a 2d lieutenant for Co. K, 11th N. Y., has been ordered by Col. Stewart for Monday, Jan. 17. The annual meeting of the Board of Officers takes place on the same evening. Co. C, which has challenged Co. D, of the 12th N. Y., to a bayonet contest, has not yet heard from the latter definitely, and is very anxious to have it brought to a definite conclusion. Co. A of the 11th reports a gain of 7 men during the past month.

Col. John T. Camp, of the 22d N. Y., has appointed a new examining board, to consist of Lieut.-Col. W. J. Harding, 1st Lieut. W. H. Maidhof and Lieut. Liliendahl. The officers are ordered out for instruction by Lieut.-Col. Harding, Jan. 17 and 24 and Feb. 7 and 8. A schedule for battalion drills has been issued, and under it Cos. C, H, G, E and F will drill on Wednesdays, Feb. 9, 17 and 23 and March 2, 9 and 16, while Cos. B, I, D, A and K will turn out on Fridays, Feb. 11, 18 and 25 and March 4, 11 and 18.

Brig.-Gen. Louis Fitzgerald entertained the colonels of the 1st Brigade at a dinner at his residence on Friday, Jan. 14.

Cos. I and K, 71st N. Y., gave a handsome entertainment at the Lexington Avenue Opera House on Monday, Jan. 10. It was attended by a large and fashionable audience.

Capt. G. Henry Witthaus, late inspector of rifle practice of the 9th N. Y., has been restored to active duty on the staff of that regiment. Capt. Witthaus never relinquished the office of regimental treasurer, for which he is particularly fitted, and his return to active duty is generally much appreciated.

Adjt.-Gen. Josiah Porter has appointed a board to meet at Albany Monday, Jan. 17, to examine into the capacity and general fitness for the service of such officers as may be ordered before it. The board will consist of Brig.-Gen. Emil Schaefer, Inspector General; Brig.-Gen. Peter C. Doyle, 4th Brigade; Col. Geo. D. Scott, 8th; Col. Charles L. Fincke, 23d, and Major Fredk. Kopper, 71st N. Y.

Adjt.-Gen. W. S. Stryker, in G. O. No. 1, dated Trenton, N. J., Jan. 4, 1887, directs that the Company of Artillery, National Guard, located at Atlantic City, be known as Company A, Sea-Coast Artillery, National Guard.

Capt. Harold L. Crane, of Co. G, 23d N. Y., was recently presented with a handsome dress sword by the members of his company.

Athletic games will be given on Feb. 5 by Co. I, 14th N. Y., including a tug-of-war for the championship of the N. G. of the State. Handsome prizes will be awarded.

The Troy Citizens' Corps will have gold, silver, and bronze medals struck and given to members of the corps as follows: Bronze, for ten years' faithful service; silver, for fifteen years, and gold, for twenty years. Service in the Civil War, volunteer or regular, is to count for five years.

Co. F, 23d N. Y., will shortly have a return rifle shooting match with a team from Co. F, 47th N. Y. They are practicing steadily for the event, which will be decided in the 23d Regt. Armory.

The presentation of marksman's badges to the 32d N. Y. has been fixed for next month. Colonel Finkelmeier has requested Major Geo. L. Fox to officiate on the occasion.

Gen. James McLeer and staff, of the 2d N. Y. Brigade, will attend the public installation of the officers of U. S. Grant Post, No. 327, G. A. R., which will take place at the Academy of Music on Monday evening, Jan. 24. Gen. William T. Sherman will be present to greet the soldiers of Brooklyn.

Capt. E. S. Browe, I. R. P., 14th Regiment, has resigned.

The Board of Officers of the 13th New York has adopted resolutions with regard to the death of Capt. Courtney.

The conditions governing the contest for the "Belknap Trophy" are published by Gen. Fitzgerald.

Capt. Wm. V. Peacon, Co. F, 14th N. Y., has issued an order to his company, in which he says: "Let the year 1887 mark not only a new era in the history of the company but in each man's record, by a more implicit obedience to orders, strict attention to instructions, constantly soldierly bearing and the sure index of a disciplined body and mind—steadiness and silence in the ranks. Bear in mind at all times that the highest honor to which either an officer or an enlisted man may aspire is to have the reputation of being a good soldier."

1st Lieut. James Thorne Harper was unanimously elected Captain of Co. I, 7th Regiment, vice Casey, resigned, on Thursday, Jan. 13.

The new code to govern the Pennsylvania militia will contain a clause to prevent the sale of liquor within the limit of one mile from the spot selected for encampments of the Guard.

Colonel Louis Finkelmeier orders the commanding officers of the several companies of the 32d N. Y. to detail three men from their respective commands to report to the regimental surgeon on Monday, Jan. 17, at 8 P. M., for instruction in connection with the proposed Ambulance Class. The assistant surgeon and hospital steward will report at the same time.

On Jan. 7, Co. F, 14th Regiment, held its regular weekly drill, but only 24 out of the 68 members borne on its roll were present. This delinquency, which is also apparent in a number of other organizations, should be promptly looked after and the absentees properly punished. Co. F, at its next drill, will receive commands by the bugle, a very excellent innovation.

Several companies of the 13th N. Y. have engaged counsel to contest the legality of the summons to their members to appear before the Regimental Delinquency Court to answer for company delinquencies, in view of the requirements of the fourth division of Sec. 365 of the Code.

Referring to the abolition of gaudy and distinctive uniforms, the Paris *Temps* tells us that in France a little *coquetterie* does no harm, and that the opinion of womenkind must be taken into account. "Napoleon," it adds, "was well aware of this, and did all he could to render the uniforms attractive and distinctive."

The members of the Committee on Military Affairs of the New York Assembly, just appointed, are: Hamilton, New York; Hogeboom, Columbia; Evans, Oneida; Bacon, Kings; Mase, Dutchess; Porter, Niagara; Smith, New York; Fitch, Queens; Gorman, Albany; Ryan, Rennsalaer; Sullivan, New York.

VIRGINIA MILITIA ORDERED OUT.

IT is reported from Richmond, Va., January 11, that troop were being ordered by Governor Lee to Newport News, the Eastern terminus of the Mississippi Valley and Newport News Railroad, a band of strikers numbering eight hundred having taken possession of one part and obstructing the railroad and steamship companies in their business,

causing imminent danger of a collision between the strikers and the men hired to take their place. Under these circumstances application was made to Governor Lee for troops to protect the employees and allow them to proceed with the performance of their duties. The Governor at once ordered three companies to proceed to Newport News forthwith. Three companies left Richmond on a special train; another (the Peninsula Guards) leaves Williamsburg, and another Hampton.

WISCONSIN—OFFICERS' ASSOCIATION.

THE sixth annual convention of the Officers' Association was held in the Senate Chamber of the Capitol on Jan. 4 and 5, 95 officers being present and the interest and spirit of the meeting being even greater than in the case of its predecessors. Every organization in the State troops was represented, all officers being in undress uniform according to the custom of the Association.

Owing to the recent death of Gen. Logan the reception and ball were dispensed with and the meeting was devoted strictly to business. Tuesday morning was given to the appointment of necessary committees, the discussion of various projects for the improvement of the equipment and organization of the force, in the course of which the lesson of the term of active service during the Milwaukee riots last May came in for frequent mention. Later in the day the entire body of officers, headed by the Adjutant-General filed down to the Executive office on the lower floor to pay their respects to their Commander-in-Chief. It took over 90 officers just six minutes to march down, shake hands with the Governor, listen to a brief commendation of their progress and discipline, and get back to business in the Senate Chamber.

Tuesday afternoon was taken up with a continuation of the morning's work and in the evening the chamber was filled with officers and invited guests to hear the papers prepared by interested friends in the Regular Service—Lieuts. Philip Reade and Lyman W. V. Kennon, of the staffs of Gens. Terry and Crook, respectively. These gentlemen were successively presented to the convention by Col. King and received with cordial applause which was redoubled at intervals during the reading of their essays, both of which were of marked excellence and value and were listened to with the closest attention, the Governor himself being among the most interested of the large audience. Lieut. Reade's paper was a practical talk on the modern phases of Rifle Practice and Lieut. Kennon's a scholarly essay on the training necessary for the soldier of the present day, and the authors are masters of their respective subjects. On the adjournment of the regular session the members thronged around their lecturers with cordial words of thanks and congratulation. Kennon's work on Guard and Sentry Duty has been the standard in the State for the last two years and he was well known to the "Guardsmen," who, having studied his maxims were eager to welcome the author; and as rifle practice is to be the main work of the infantry during the year just opened an especial effort was made to induce Lieut. Reade, so well known an expert and enthusiast, to come and open the ball. It is safe to say that he has imbued the whole force with his spirit, for on Wednesday morning, after the close of the regular order he was called upon by unanimous voice to take the floor and give them even more on the same subject.

Owing to meagre appropriations and the fact that those in authority were unwilling to let the Guard practice without a curate and expert coaching in the preliminary work, Wisconsin is behind many States in rifle practice. Capt. Boutelle gave the officers an admirable paper four years ago, and a good start was made by many companies in gallery practice, but not until this year has the matter begun to take the proper shape. With Reade's instructions to start with and some smart young "distinguished marksmen" from neighboring Departments of the Regular Service to do a little coaching next summer, it is believed there will be a better record to show a year from now.

The most important work accomplished by the convention was the unanimous passage of the "Three battalion move," and the Legislature will be asked to reorganize the infantry of the State, as proposed in the Manderson bill for the U. S. Army. A very slight increase is asked for and the National Guard stands very high with the people of the State, and in the Legislature there is little doubt of the passage of the bill. This will give three complete regiments of infantry of three battalions each instead of three regiments on the antediluvian plan at present in vogue among those non-military nations—Persia, China, and the United States. The 4th Battalion—at present independent—will then be absorbed in the 1st Regiment, where it will begin to learn something of its real duty.

Other important features recommended are a permanent site for State camps similar to that of New York: nine days instead of six in camp; a remodelling of the law regarding summons for active duty, making the signal of riot alarm or any verbal order or duly announced signal as binding upon the soldier as the formal written summons now prescribed by law. While the troops in Milwaukee responded with commendable promptitude to the riot alarm sounded on the fire bells last May, there were one or two instances where men shirked, and when hauled up for punishment brought their lawyers with them and beat their officers by proving they had not been furnished with written copies of the orders, as provided by the law evolved by some amiable old dreamers among the State Solons of the past.

In this connection two public-spirited manufacturing companies received the thanks of the convention—one for summarily discharging an employee who sneaked out of riot duty with his comrades, and said he would lose his place if he went. The other firm were deprived for a full week of the services of ten of their best workmen—all members of Co. E, 1st Infantry, stationed a hundred miles from Milwaukee. The men were suddenly called upon at 11 A. M. to drop their tools and report at the armory for instant duty. They knew it meant Milwaukee, and so did their employers, and the superintendent of the works himself bade them go and be assured their homes would be looked after and their places in the shops retained for them.

As a contrast to this, there were three or four instances of employers threatening their employees with discharge if they went. The men went, however, and have not been discharged up to date.

The convention adjourned on Wednesday afternoon unanimously of the opinion that it had been a session of great value and interest. The officers of last year were re-elected to fill their old stations and are as follows: Adjutant-General C. P. Chapman, President; Colonels M. T. Moore, 3d Inf., and Sam. J. Lewis, 1st Inf., Vice Presidents; Colonel Charles King, A. I. G., Secretary; Captain Emil Baensch, 2d Inf., Treasurer. Rev. G. E. Gordon, Light Horse Squadron, Chaplain; and the following additional members of Executive Committee: Major A. F. Caldwell, 1st Inf.; Capt. C. A. Born, 2d Inf., and Capt. J. E. Coogan, 4th Battalion.

The report of the Assistant Inspector-General shows great improvement in the discipline and instruction of the three regiments of infantry and in the light battery. The camp work of the 2d and 3d Regiments is especially commended: excellent discipline, night and day; guard and sentry duty faithfully done, though great crudities continue to appear in the sentry work of untaught men; perfect silence and order after taps, and an incessant round of military duty from sunrise to sunset; two battalion drills—and good ones—each day; two officers' schools; two sergeants' schools, and the usual camp ceremonies; dress parades excellent; guard mountings showing care and study, though none were perfect. Both regiments camped near large towns, and not an instance of drunkenness or misconduct occurred among the soldiers, so that the citizens were loud in their praise of the men. As for the officers none had time to leave camp, as they have to work from reveille to retreat. The 1st Infantry showed less discipline, though vastly improved over its old record, but had more thorough officers' schools. Its new colonel is taking hold with a will.

Intense heat caused the abandonment of battalion drill three afternoons in the 1st Regiment, but there was at least one each day. The camps of all three regiments were struck in good old style at tap of the drum, all tents falling simultaneously, and being packed for transportation. Every bit of rubbish was burned and the regiments marched away, leaving the camp ground thoroughly policed and as clean as when they marched in.

Still the inspector is not satisfied—he never is—and demands more skirmish drill, skirmish firing, inspection of tents twice a day, more instruction of sentries at home, more attention to the construction of the sinks; the eradication of the last "spike tail," and a come down to the business of soldiering. There is still too much ornament about it; he wants the men to wear blue flannel shirts and leave their paper collars home, and he scores the officers because some of the men sometimes fail to salute; he says it is all the officers' fault.

Ever since last May the people have quit laughing at the "militia." The cool, disciplined demeanor of the officers and men of the one regiment summoned to Milwaukee to quell the riot was a revelation to the citizens, and the services of the Light Squadron and Battery were as fully appreciated. It is believed that with the re-election of the Governor to his third term, the National Guard of the State will maintain its steady progress in discipline and efficiency.

OHIO NATIONAL GUARD.

WE are indebted to the editor of the Wooster (O.) *Republican* for an extract from his paper concerning Lieut. A. C. Sharpe, 22d U. S. Infantry, instructor of military tactics at the University of Wooster. Lieut. Sharpe is to be continued on duty for another year. The *Republican* says: "This further extension to July 1, 1888, was the result of the recent inspection by Inspector General Roger Jones. The organization and management of this department in our University by Lieut. Sharpe have been crowned with gratifying success. The lieutenant, by his gentlemanly demeanor and thorough military knowledge, has made the department what it is, and it has made him decidedly popular, not only in University circles, but also among the citizens of our city. In a recent interview at Washington Adjutant General Drum said: 'The inspector's report from Wooster is one of the best we have received. Lieut. Sharpe has certainly made a great success of the military department of Wooster University and deserves the support of the War Department.'" The editor in a private letter to us says: "Being the commandant of the Wooster City Guard, Co. D, 8th Regiment, O. N. G., which company has the distinction of being the best drilled organization in the State of Ohio, I take great interest in military matters. Being a graduate of Wooster University also, I have watched with interest and pleasure the organization and progress of the military department in that institution under command of Lieut. Sharpe. He certainly deserves the highest praise for his energy and success. He seems to be a thorough military man, and takes great interest in the National Guard, having attended nearly all our encampments since he has resided here. He is very popular among the members of my company, as well as with the citizens of this community."

NEW HAMPSHIRE.

THE following changes among commissioned officers during the six months ending Dec. 31, 1886, are published in G. O. No. 1, Jan. 1:

Brig.-Gen. Philip Carpenter, Judge-Advocate-Gen., resigned.

Capt. Richard M. Scammon, A. D. C., promoted Lieut.-Colonel, 1st Regiment.

Resigned.—1st Regiment—1st Lieuts. William J. Andrews, Co. H; Patrick H. O'Malley, Co. K; Samuel H. Balch, Co. C; Col. John B. Hall; Capt. John H. Wales, Co. K. 2d Regiment—2d Lieut. Leander Emery, Co. K. 3d Regiment—1st Lieut. Frank C. Williams, Co. F. Cavalry—Capt. John S. Perry, Co. B, company disbanded.

Commissioned.—Governor's Staff—Brig.-General Henry M. Baker, Judge-Advocate-General. 1st Regiment—1st Lieut. Alfred F. Eaton, Co. K; 1st Lieut. George E. Whitney and 2d Lieut. Frank A. Whipple, Co. C; Col. George M. L. Lane; Lieut.-Col. Richard M. Scammon; Capt. Patrick H. O'Malley, Co. K. 2d Regiment—1st Lieut. Loren E. Nichols and 2d Lieut. George F. Russell, Co. K.

MISSOURI NATIONAL GUARD.

THE 7th Regiment of the Missouri National Guard is disturbed by internal dissensions similar to those which interfere with the efficiency of the 13th N. Y. The colonel of the 7th, R. H. Hunt, was respectfully invited to resign by some of his officers on the ground of incompetency. Maj. J. W. Bullock, who was one of the officers preferring this disinterested request, says: "At a meeting of the line officers it was decided to ask the colonel to withdraw from the regiment. A committee of two, consisting of myself and Maj. Pease, went up to his house. When we stated the object of our visit Col. Hunt was very angry, but after a while he told us that he could not consider the request, as there was nothing to show that it actually came from a majority of the line officers. He said he wanted a written proof of the same. It was then that the written request was sent in. I suppose Col. Hunt's object in this was to have substantial evidence against us of insubordination, and so have us court-martialed."

The petition followed, and of it Col. Hunt says: "Of course I refused to accede to the insolent request. No man in his senses would have ever supposed I would resign under such circumstances. Leave at the toe of a boot? Be kicked out? Those who know me know I am not the man to slink away like a cur before such men as signed the petition." Then comes the withdrawal of the petition and the resignation of the disaffected officers.

CALIFORNIA NATIONAL GUARD.

THE friends of Brig.-Gen. W. H. Dimond, commanding the 2d Brigade, N. G. C., says the *Alta*, are making vigorous efforts to have him reappointed by Governor Bartlett. To this end almost every officer of the 2d Brigade has united in a petition. General Dimond has won for himself among his officers and men an enviable reputation as a commander. He has always taken a deep interest in the welfare of his brigade, and there is not a field officer under him who desires the place he has so acceptably filled for more than five years.

MASSACHUSETTS MILITIA.

THE following are appointed on the staff of Oliver Ames, Governor and Commander-in-Chief: Maj. Gen. Samuel Dalton, adjutant general; Brig. Gen. Alfred F. Holt, surgeon general; Brig. Gen. Edward O. Shepard, judge advocate general; Cols. Thos. Sherwin, Allen G. Shepherd, Morgan Rotch and Rockwood Hoar, aides-de-camp; Col. Horace T. Rockwell, inspector general of rifle practice; Cols. Edward E. Currier, Augustus N. Sampson and Fred. W. Wellington, assistant inspectors general; Cols. Albert L. Newman, James W. Bennett, Daniel P. Crocker and Charles Weil, assistant adjutants general; Cols. John H. Abbott, John G. Mackintosh, Richard F. Barrett and George R. Wallace, assistant quartermasters general.

Army inspections will commence at once. Inspecting officers will require company officers to question enlisted men and drummers on the duties of the sentinel and of the guard, and on completion of company inspection non-commissioned officers will be questioned thoroughly as to their duties.

LOUISIANA.

ADJUTANT-GENERAL VANCE, in his recent report, says: "The active militia, as now limited by law to 4,000, is but a fraction in excess of one National Guardsman to each 1,000 inhabitants. The estimated annual expense of $35 per man, which is less than a tax of five cents annually on each inhabitant, should be regarded as a modest burden, and cheerfully borne by a generous public. The success of the State encampments of the last year is reported to be much greater than was anticipated, and the selection of the permanent camp, known as Camp Lincoln, is strongly approved. The report recommends that the pay of the militia, when in active service for the suppression of riot, be fixed at $2 a day, and that the limit of this service to seven days be repealed."

TEXAS.

ADJUTANT-GENERAL KING, in his annual report to Gov. Ireland very strongly urges the Legislature to make liberal appropriations, and encourage the militia that it may be an efficient military force in case of necessity. He says a well-equipped force is imperative because a deep-seated and dangerous spirit of unrest prevails, and in many sections this discontent has taken the form of lawlessness, violence and bloodshed, and has assumed proportions, made claims and asserted doctrines that threaten the very existence of the States and of the Union. He then, without specifically naming any particular organization, gives a scathing denunciation which is clearly aimed at the Knights of Labor, and adds: Under the mad and murderous teachings of Communists and Socialists these oath-bound organizations have had many strikes, have openly defied the law, have beaten and abused and sometimes killed people who only desired to earn a living, have destroyed property and murdered those whose duty it was to protect it, have violently interfered with the business of many States and caused losses to many thousands of people, who were not responsible for the alleged wrongs about which these secret organizations were complaining. In view of these things in the past, of their active existence at present, and of their probable continuance for some time in the future, it is the duty of the several States of the general Government and of the order loving, law abiding, patriotic citizens to meet force with force at every point where it is necessary.

ANSWERS TO CORRESPONDENTS.

P.—You stand No. 36 on Commissary Sergeant list.

Subscriber.—Claims certified to by the accounting officers are provided for in the General Deficiency Bill.

Malisha Man.—You can purchase a copy of Upton's Tactics from D. Appleton and Co., Bond street, New York City.

Librarian.—There never was an act of Congress making it compulsory for enlisted men to retire at the age of 63, or at any other age.

P. B.—There is nothing to prevent a private of the Engineer Battalion being appointed hospital steward, if the War Department so orders.

R. D. asks: Is an enlistment made on Sunday legal? ANS.—Yes. There is no law or regulation affecting the validity of an enlistment made on a Sunday.

G. R. W.—There have been several officers on duty as A. A. Q. M. at San Diego Barracks since the war. If you can give the name we may be able to furnish you the address.

Buck Eye.—Yes, the wife and children are entitled to pension if the death of the retired soldier was the direct result of disease contracted or injury received in the line of duty.

E. O. L.—Chaplains wear the forage cap prescribed in par. 2624, Regulations of 1881. Trousers of infantry officers are of light blue cloth, color of stripe that of trimmings of the infantry arm (white). The cloth of the shoulder strap is white (see G. O. 6, A. G. O., of Feb. 1, 1886.)

A asks: An officer takes seven days' leave; he is first reported absent with leave on the morning report of Dec. 25; he returns 9 A. M. Saturday, Jan. 1. How shall he be reported on the morning report of Jan. 1? ANS.—To accord with the rulings of the War Department he would be reported "absent with leave." See par. 79, Army Regulations, 1881; decisions thereunder.

An anonymous correspondent at Fort Bayard, N. M., who is on the eve of discharge, writes to know how he can get his deposit book from the Post Trader, with whom he has deposited it as security for a whiskey bill which he intends to repudiate. We should say that he was too late; his proper course would have been to repudiate the whiskey, for which he should now pay like a little man.

"Ask God for temperance, that's the appliance only
Which your disease requires."

F. M.—See answer to "Ignorance" in JOURNAL of Nov. 13, 1886. A soldier does not forfeit his citizenship by enlisting. He is still entitled to vote where he has a "residence." If he came from New York, for instance, he may vote in New York, if he can get home on Election Day. If he came from New York City his living on Governor's Island would not deprive him of his right to vote in New York City. If he came from Louisiana he does not acquire a residence in New York with right to vote by serving on Governor's Island. A man does not forfeit his "residence" by enlisting. If a minor, his residence remains that of his father or guardian.

A correspondent asks: What is the national air of the United States? We have a mes-table controversy about it, one insisting that it is "Yankee Doodle," while another insists that it is the "Star Spangled Banner." The "Red, White and Blue" has some advocates also. Please settle this if you can. On what occasion was "Yankee Doodle" first performed? and how is any particular air made "a national air?" ANS.—As we have no air that can be said authoritatively to be *the* national air "you pays your money and takes your choice." "Yankee Doodle" is said to have been popular in England during the Commonwealth, when Cromwell was designated in it as "Nankee Doodle." According to other authorities it was composed in 1775 by a British army surgeon in Boston, and set to the old English song "Lydia Locket lost her pocket." The air has been a familiar one in France, Spain, Italy and Hungary from time immemorial. There is an ancient Dutch song which runs as follows:

"Yanker didel, doodel down,
Dedel, dudel lauter,
Yanker viver, voover vown,
Botermitt und vonther."

The "Star Spangled Banner" was composed by Francis S. Key—a brother-in-law of Chief Justice Taney—while he was a prisoner on the British fleet during the bombardment of Fort McHenry, Sept. 11, 1814. It is said to have been first sung by a group of about twenty volunteer soldiers in front of or next door to the Holiday Street Theatre, Baltimore, the old air of "Anacreon" having been adapted to it. During the War of the Rebellion, Oliver Wendell Holmes contributed an addition to it. "Columbia the Gem of the Ocean," known also as "The Red, White and Blue," was composed by Thos. à Becket, not the clerical gentleman assassinated in 1170, but an actor of the name, formerly of the Walnut Street Theatre, Philadelphia, who wrote it in 1843. Another "Red, White and Blue" song was written by the Hon. Edw. J. Preston. There is an anonymous song with the same refrain which runs as follows:

"Oh, raise that glorious ensign high,
And let the nations see
The flag for which our fathers fought
To make our country free!"

"Hail Columbia" is of all, perhaps, the best entitled to the designation of the national air. It was written in the summer of 1798 by the Hon. Joseph Hopkinson, LL. D., to oblige a friend, a Mr. Fox, who was about to take a benefit as a singer. It was sung by him with great acceptance to the tune of "The President's March." It was called for on Saturday, completed on Sunday evening, announced Monday morning, and sung at a new theatre on Chestnut street, Philadelphia, the same evening. At that time war with France was thought to be inevitable and patriotic spirit ran

high. "The American Flag" was written by Joseph Rodman Drake in May, 1819. Robert Treat Payne also wrote a song set to the same air as "The Star-Spangled Banner," the refrain of which was:

"For ne'er shall the sons of Columbia be slaves,
While the earth bears a plant, or the sea rolls its waves."

Geo. P. Morris also has a song, "The Flag of Our Union:"

"The union of hearts, the union of hands,
And the flag of our Union for ever."

There was a spirited song written by O. W. Holmes in the Boston *Transcript* of Aug. 12, 1862, but as it was directed against the late "misguided," and was wholly Northern in its tone, it cannot be considered national. Another song which has claims to being a national air, "America"—"My Country 'tis of thee," by S. F. Smith, D. D., was written in Feb., 1832, and first sung at a children's celebration of American Independence at the Park Street Church, Boston, July 4, 1832.

SMALL ARMS NOTES.

THE German troops, it is reported, are being drilled daily for three months in the use of the repeating rifle recently adopted by the government for the purpose of making them proficient in volley firing.

Seventy of the new pattern Enfield-Martini rifles have, by order of the War Office authorities, been issued to the principal rifle clubs in the United Kingdom for experimental purposes.

The difficulty of sighting rifles in the dark in warfare has been ingeniously overcome by the use of luminous paint. A small luminous bead is clipped on to the rifle over the fore sight and another over the rear sight when used at night in reply to an enemy's fire, forming two luminous sights. The English War Office authorities have had some of these sights under trial for the past six months, and have now given their first order for some.

The *Levant Herald* says: "The report of the Military Commission charged with the task of making trials with the Martini-Henry and the new Mauser repeating rifle has been submitted to His Majesty the Sultan. The first-named gun is manufactured by a Styrian firm, the latter by M. Mauser, who represented the firm in person. In the trials recently made with these rifles at the Sweet Waters, the cartridges were those of the old Martini-Henry rifles, of which cartridges the Seraskierate has a stock of 400,000,000. They are well adapted to the Mauser rifle, as was conclusively proved by the recent trials. We understand that the report submitted to His Majesty gives the preference to this new weapon as yielding the most satisfactory results."

According to the *Moniteur de l'Armée* (Paris), a Russian engineer named Rucktchell his discovered a new explosive, "Silotraar," which is said to be ten times as strong as gunpowder when used for small-arm purposes. The Minister of War and the Minister of Marine have experimented extensively with the new compound, which is reported to have been found very satisfactory. The inventor claims also that he can produce a motive power by means of the explosive superior to steam or gas.

FOREIGN ITEMS.

MR. COX, of the British Parliament, in the course of a speech in Ireland, stigmatized the Duke of Saxe-Weimar, commander of the Irish forces, as the "biggest jackass that ever ruled Ireland."

THE Danish Folkething (lower House of Parliament,) has been dissolved, owing to refusal to agree to the financial proposals and army estimates of the Government. The elections for the new Folketning take place Jan. 28.

THE decree empowering the Institute to accept Chantilly from the Duc d'Aumale, studiously avoids the use of the word "Monseigneur," in one place styling the donor "Monsieur le Duc d'Aumale," and in another "Henri Eugenè Phillippe Louis d'Orléans, Duc d'Aumale."

A PRIVATE letter received from Buenos Ayres, Argentine Republic, under date of Dec. 10, states that cholera in its most malignant form is raging there, and the number of deaths daily is frightful; that the dead are removed to the outskirts of the city, piled up like cross-ties, and burned to ashes.

AT last the bones of the British soldiers who fell in Belgium in 1815, and were buried in two suburban cemeteries of Brussels, now to be closed, will be collected and transferred to a cemetery at Evere and marked by a handsome monument designed by Count Lalaing, one of the best of the younger Belgian sculptors—all this at the expense of Lord Vivian

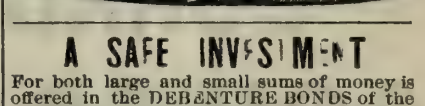
PERRY'S SAINTS,
OR,
THE FIGHTING PARSON'S REGIMENT.
A Story of the War for the Union.
BY COL. JAMES M. NICHOLS.
12mo, cloth, illustrated, $1.25.

Is the history of one of the most remarkable men and regiments that served during the late war. The hero, the Rev. J. H. Perry, (who had been graduated from West Point), on receipt of news of the bombardment of Fort Sumter, said: "I was educated by the Government; it now needs my services. I shall resign my ministry and again take up my sword." The story is told with much spirit. The book is admirably illustrated from drawings by a distinguished Army officer.



Sold by all booksellers, or sent, postpaid, on receipt of price by the publishers,

NEW YORK.

IN European military circles it is asserted that enormous quantities of provisions are being stored at Metz.

Le Progrès Militaire announces an expected creation of Cavalry Pioneers on the Austrian pattern, a small detachment in each cavalry regiment receiving special instruction by an engineer officer in the rudiments of demolishing telegraphs, railways and other artificial structures.

OFFICIAL despatches from Tonquin report that French troops made an attack on a large rebel force intrenched at Thanhoa, but were twice repulsed. During the fighting four French officers were wounded; five European and eight Tonquin soldiers were killed, and 15 Europeans and 27 Tonquinese were wounded. Reinforcements of artillery and infantry will be sent to the French at Thanhoa.

A SERIOUS agitation is in progress at Liege for obtaining from the Belgian Government the demolition of the local citadel and fort, which, in case of an invasion, would furnish a pretext for bombarding the town, but could in no wise contribute to its defence. The same is the case as regards Namur, with its picturesque old citadel. The citizens in each case desire either to live in an "open town" or in one sufficiently fortified.

EXCITEMENT has been caused at Queenstown among the navy pensioners—seamen and marines—by the receipt from the Admiralty of a circular which bids such pensioners as are under fifty-five to hold themselves in readiness for active service. Since the Crimean War only one such circular has been addressed to the pensioners. The last occasion was during the late Russian scare, when an outbreak of hostilities was considered imminent. The circular is regarded as an indication that the government apprehends war.

THE Brock Flexible Fence Co., of 10 Courtlandt Street, N. Y. City, furnish a very economical fence which is strong, durable and easily put together. The material, aside from the posts, is furnished for forty-two cents a rod with four rails and consists of square rails of oak with japanned wire-loops for linking the ends together. The rails are either stapled to the posts or passed through a hole bored in them.

THE MOST VIOLENT EXPLOSIONS of Coughing are stopped by HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

PHENOL SODIQUE is one of the most useful mixtures the chemical art has produced. It cures cuts or burns more quickly than anything else we have ever used. For catarrhal affections, infectious fevers, etc., it is one of the best preventives known. We know it to be a good disinfectant, and heartily recommend it as such.—*Times, Marietta, Pa.*

A 10c. cigar in quality, but only a 5c. cigar in price, is "Tansill's Punch."
There are probably ten thousand brands of 5c. cigars, but all smokers should bear in mind that there is but one, "Tansill's Punch."
The smoker's delight—"Tansill's Punch" 5c. Cigar.
Punch, brothers, punch, punch with care,
Punch in the presence of the passengair,
And don't never forget to smoke—
"Tansill's Punch" 5c. Cigair.
A Chicago druggist retailed over 100,000 "Tansill's Punch" 5c. Cigars in four months.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

AYRES.—At Asheville, N. C., January 4, 1887, to the wife of General R. B. Ayres, U. S. Army, a daughter.

DRIGGS.—At Washington, January 10, to Mary E. Driggs, wife of Lieutenant W. H. Driggs, a daughter.

MARRIED.

LUSBY—CLEMENTS.—On December 29, at the Cathedral, Baltimore, Md., FRANCIS W. LUSBY and Miss LIZZIE J. CLEMENTS, stepdaughter of Gunner E. J. Beacham, U. S. Navy.

NEWCOMER—KOSIER.—At Byron, Ill., Dec. 29, Lieutenant HENRY C. NEWCOMER, Corps of Engineers, U. S. A., to Miss REBECCA E. KOSIER.

TUCKER—HINTON.—At Petersburg, Va., January 4, RANDOLPH TUCKER, son of the late Commander John R. Tucker, U. S. N., to Miss MARGARET HELEN HINTON.

DIED.

APP.—At Fort Monroe, Va., January 2, Ordnance Sergeant CASPAR APP, U. S. Army, retired.

BROWN.—At Scottsville, N. Y., January 11, Major D. D. S. BROWN, formerly an additional Paymaster, U. S. Army.

CUSHING.—At Dunkirk, N. Y., January 3, Paymaster MILTON B. CUSHING, U. S. Navy, retired.

DUNCAN.—At Washington, D. C., January 7, Brevet Brig.-General THOMAS DUNCAN, Lieutenant Colonel, U. S. Army, retired.

GERHARDT.—At a meeting of a committee appointed by the members of Co. A, 3d Infantry, the following preamble and resolutions were adopted: Whereas, it has pleased the Almighty in His infinite wisdom to take from us our comrade, CHARLES GERHARDT—Be it resolved, That by his sudden and untimely death the regiment has lost a true and faithful soldier and an honest and kind-hearted man; Resolved, That we, the members of his late company will ever cherish his memory as one who by his noble character and upright life endeared himself to us; Resolved, That by his life he furnished an example and a model for all good soldiers to follow; and further be it resolved, That a copy of these resolutions be sent to the ARMY AND NAVY JOURNAL.—Privates CHAS. HASTINGS, THOMAS M. PALMER, GEO. R. WILKINSON, Committee.

GRATIOT.—Near St. Louis, Mo., Dec. 26, in the 90th year of her age, Mrs. ANN GRATIOT, widow of General Charles Gratiot, Chief of Engineers, U. S. Army.

HINMAN.—In Norfolk, Va., Jan. 11, after a protracted illness of cancer and pneumonia, ANNA HAYNES, wife of Capt. F. A. Hinman, U. S. Army.

HOWARD.—At San Antonio, Tex., Dec. 23, Captain JOHN C. HOWARD, formerly of the 12th U. S. Infantry.

LAWS.—At New York City, January 12, First Assistant Engineer CHAS. A. LAWS, Revenue Marine Service, and formerly of the U. S. Navy.

MCCLAIN.—At Brooklyn, N. Y., Jan. 11, Ensign CHAS. S. MCCLAIN, U. S. Navy.

ROACH.—At New York City, January 10, JOHN ROACH, the famous shipbuilder.

WHITE.—Entered into rest, at her late residence, 1836 Pine St., Philadelphia, after a very long and painful illness, LAVINIA MAXWELL WHITE, in the 74th year of her age, relict of John Chester White, of Hudson, N. Y., and mother of Captain John Chester White, Jr., U. S. Army.

THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES
Were selected as the best Material for the Roof of the
WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."

"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."

The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)

We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.
Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

ARMY NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 26. WHOLE NUMBER 1222. | NEW YORK, SATURDAY, JANUARY 22, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE appointment of a Chief Signal Officer will be held in abeyance until some definite action is had on the question of a transfer of the Weather Bureau from the War to the Interior Department. General BRAGG, and several other members of Congress who favor the transfer, intend to request Secretary ENDICOTT not to embarrass them by the appointment of a successor to the late General HAZEN. Nothing can be done at this session of Congress, and it may therefore be stated that there will be no Chief Signal Officer appointed until after the next session of Congress. Meanwhile Captain GREELY will continue as Acting Chief of the Bureau.

THE Army Appropriation bill was passed by the Senate on Monday, without debate, and in precisely the same form as reported from the committee last week. The bill is now a subject for a conference committee, the members of which are Messrs. Allison, Plumb and Gorman on the part of the Senate, and Messrs. Bragg, Viele and Steele on the part of the House. The chief item requiring adjustment is the amendment of the Senate increasing the amount for the manufacture of small arms from $300,000 to $400,000. The Senate conferees receded from a similar amendment last year, and it is feared will be compelled to do so again, as Mr. Bragg seems to be particularly opposed to this increase. The other amendments are items of small moment, and an agreement upon them ought to be speedily reached.

THE facility with which military titles are acquired in this country, and especially in the South, is illustrated by the fact that the Governor of North Carolina has thirty two aide de camps, each with the rank of Lieut. Colonel. In the entire Army of the United States there are only twenty-four allowed by law to divide among ten general officers, and only three of these aides have the rank of Lieut.-Colonel, the highest rank held by any of the others being that of captain, most of them being lieutenants. The lucky Governor of North Carolina could thus supply our Regular Army with its full complement of aides de camp and have eight left to "loaf around the throne." Thirty eight Governors with thirty two aides each would give us 1,216 aides in all, quite a respectable army in itself. Is there any wonder that the manufactories of gold lace flourish?

WE observe that the Lieutenant General disapproved of a request which was sent to the War Department last year from the Adjutant General of Michigan that an officer be detailed to conduct the school of instruction at the annual encampment in that State. It would seem to be good policy to comply with such requests, as they are directly in the line of the requirements of Sec. 1 of the act of March 12, 1820, which provides that the "system of discipline and field exercise, which is and shall be ordered to be observed by the Regular Army of the U. S., in the different corps of Infantry, Artillery, and Riflemen, shall also be observed by the Militia, in the exercise and discipline of the said corps respectively throughout the U. S." The request of the Governor of Michigan for an inspector was granted, but his request for an instructor was denied.

ON the second annual report of Secretary WHITNEY, the London *Army and Navy Gazette* says: "It is most interesting and valuable if our own Admiralty officials would be content to take a lesson from it. He is very firm as to the need for a reorganization of the department, and this, after a year's experience in the office, during a term which will be memorable as that in which the naval service of the States commenced a new lease of vigorous life. But the most interesting item appears to be his recommendation as to the fitting out of a squadron of tugs for the purpose of experimenting in naval tactics, and giving the officers and men experience which must prove useful in time of war. Such a step we have so frequently advised on this side the Atlantic, that it is with peculiar satisfaction we we come its adoption by so able a man as Secretary WHITNEY has shown himself to be."

BY an order dated Navy Department, Washington, D. C., January 6, 1887, Lieutenant-Commander R. B. BRADFORD, U. S. N., was detailed for duty under the direction of the Chief of the Bureau of Navigation, as Inspector of Electric Lighting of Ships of the Navy. He will at once assume charge of the installation of the cruiser *Chicago*, see that the contract for the work is carefully followed out, so as to produce an efficient result, and designate the exact location of each lamp in accordance with the provisions of the contract. This detail is for two years, and no better man could be found for this new inspection service. It will be remembered that Lieutenant-Commander BRADFORD superintended in 1883 the installation of the *Trenton*, the first man of war installed with incandescent lights. He afterwards went to sea as her Executive Officer, thus putting his handiwork to the proof, and showing the confidence SAM WELLER'S boniface displayed in the matter of "his own weal pies." There can be no question as to the addition to the health and comfort of a ship's crew from the use of electric lights.

THE *Admiralty and Horse Guards Gazette* of London publishes a description of West Point and the Military Academy, concluding which, it says: "To modern English ears the discipline of West Point seems very severe, and in some cases one would think that it can scarcely fail to have a bad effect; it can hardly be good for a young man to be kept so entirely from all intercourse with the outer world. One result, however, must be to stamp the impress of the institution deeply upon the cadets, whether for good or for evil. A considerable number of cadets, after they have got their commissions and have served a few years in the Army, leave it and take to ordinary civil employment. Promotion is slow in the American Army, and the conditions of service are not enticing, while the employments of civil life are not so crowded as they are with us. In England a man who takes to mercantile pursuits late in life, and without having had a special training for it, finds the ranks more than full, and that there is no room for him. In America he experiences no such difficulty, and ten years or so passed in the Army does not prejudice a man's subsequent chance of success as a merchant as it would with us. Many of the officers who fought in the Civil War were men who had thus for some years left the Service; and the fact that among the Generals who distinguished themselves on either side there was scarcely one who was not a West Pointer speaks well for the training given in that institution."

THE most important meeting of the House Military Committee this session was that held on Tuesday last. The subjects under discussion were the Senate bills increasing the efficiency of the Army, amending Article of War 103, increasing the pay of hospital stewards, with numerous amendments proposed thereto by the chairman, General BRAGG. There was a full attendance of the members, and they all took an unusual interest in the matters under consideration. After quite a long discussion the committee agreed to all the propositions presented by General BRAGG, who had previously framed the amendments and reports to the bills. Two bills were reported, Senate No. 1490, to amend Article of War 103, and S. 1119, to increase the pay of Hospital Stewards. Thirteen additional sections, embracing a few of the provisions contained in the LOGAN Efficiency bill and the new reforms proposed by General BRAGG, were added to the former bill, the title of which, as reported, is "to amend Article of War 103 of the Rules and Articles of War, to promote the efficiency and reduce the expenses of the Army." The Senate number and title only of the bill for the relief of the Hospital Stewards was retained, the body of it, consisting of seven sections, and providing for a Hospital Corps as a non-combatant force attached permanently to the Medical Department, being the committee's own measure. The committee decided to report a resolution asking for a night session for the consideration of these and other military measures pending on the calendar. We give under the heading of Congress the text of the bills reported. Retired officers will observe that the bill limits their pay to 75 per centum of the full pay at the time of retirement.
